

County Extension Service Having Celebration Day

Today, October 26, is Briscoe County Extension Information Day.

You are invited to the Briscoe County Extension office anytime today (Thursday) between 9:00 a.m. and 4:00 p.m. to visit Lynda Fogerson and Earnest Kiker, the County Extension Agents. Coffee and cookies will be served by Mrs. Sheryl Breedlove, secretary.

Program for the Information Day and Celebration will be: Review of 75 Years of Demonstration Work in Texas. There will be presentations of certificates to producers who have conducted farm demonstrations in 1978.

Slide presentations, photographs, bulletins, and personal visits with you, will be used to explain what your Extension Program is doing in Briscoe County in regard to Agriculture, 4-H,

Home Economics, Family Living, and Community Resource Development.

The year 1978 marks 75 years of Farm Demonstration work in Texas.

The first farm demonstration was set up at the Walter C. Porter farm near Terrell, Texas in 1903, under the direction of Dr. Seaman A. Knapp, a special agent of the U. S. Department of Agriculture.

Since that time, more than 150,000 Texas farmers and ranchers have participated in cooperative farm demonstration work. Last year, more than 4,300 demonstrations were underway, covering a wide variety of farm and ranch programs.

Twenty-five of these farm demonstrations are underway in Briscoe County this year.

To set aside October 26 and the presentation of certificates is only a small way the Extension Service can pay tribute to its heritage and the present producers for their dedication and effort in carrying out Farm Demonstration Work.

Everyone is cordially invited to come by the Extension office for this Celebration Day.

The public is always welcome in the Extension office anytime. The office is open from 8:00 a.m. until 5:00 p.m. Monday through Friday and the telephone number is 823-2343.

John Hill calls for state tax freeze

"Our state taxes in Texas are among the lowest in the nation, and I want to keep them there. As I've said many times, I'll veto a tax increase before the ink dries on the bill."

As Attorney General, John Hill proved he could increase the efficiency of his office without any unnecessary budget increases. He absorbed a three-fold increase in his office caseload by hiring top legal talent capable of higher productivity. The result: his staff lawyers doubled their average workload, and the increased court judgments and enforcement of civil penalty laws returned \$25 for every \$1 of state funds spent on his office.

As Governor, John Hill will insist on this same type of increased productivity for all state agencies. He will institute new controls over federal funds, demand that we follow our "pay-as-you-go" budget policy, and use zero-base budgeting to eliminate unneeded programs before any new programs are added. And he'll block any state tax increase — there won't be any new taxes under John Hill.

A TAXPAYER'S BILL OF RIGHTS IS PAST DUE

Bill Clements believes we still have a chance to preserve our future by establishing constitutional protection against excessive taxation and runaway government spending.

Bill Clements believes the people of Texas should have the power necessary to ratify or reject tax policies made by legislators. To establish this power (of the people), Bill Clements will introduce an amendment to the Texas Constitution that would give the people of Texas this right. Bill Clements' "Taxpayers' Bill of Rights" would:

- Give Texans the right of initiative and referendum, a phrase that means we, the people, have a right to vote on the taxes to be levied on us.
- Place a ban on corporate or personal income tax in Texas.
- Require a two-thirds record vote of both houses of the legislature to pass a tax bill.
- Allow local taxpayers to call an election to ratify or reject a tax increase created by a local governmental unit.

Bill Clements believes in Texas and the people of Texas. Bill Clements thinks that elected officials must work for the people and represent them properly. As governor of Texas, Bill Clements will work for and with the people of Texas.

THE AG SIDE

Presented By
DANNY FUSTON

This past year a group of independent researchers who were working on methods of saving pennies on the farm were stunned when they ran across a big dollar saving item that many farms were not taking advantage of.

More than 60% of the farms in the midwest have livestock. The stunning part of this is that 32% of these farms had enough livestock (in numbers) to produce a quantity of manure that properly handled would sufficiently fertilize 80% of the land they were farming. The overall savings to the average farm researched could be more than \$1000 per year and have the same soil fertility.

So, if you have animals around, you might consider more closely the use of the barnyard in saving on next year's fertilizer bill.

MORRIS WILSON HOME IS "YARD OF MONTH" WINNER

To top off the annual "Yard of the Month" recognition for summer 1978, the judges have recently chosen the Morris Wilson home as deserving the honor of "Yard of the Month" for October. Mable and Morris have one of the neatest and most attractive yards in Quitaque and well deserve this special recognition. Their yard is a good example of what can be achieved with a lot of "tender, loving care."

The home rating the honor of "Most Improved" for the year went to Bud and Charlie Bailey. The Baileys have only been in their new home for a little over a year but have already won the "Yard of the Month" title this summer and are constantly making improvements in their yard and landscaping. Their large spacious back yard is beautiful also and is a perfect place for their grandchildren to play when visiting.

The group of five judges have named Lillian White as having the most "Outstanding Yard" for the entire summer. The judges have said that her name appeared every month as having a winning yard and although it was very difficult to narrow it down to just one outstanding yard, they would have to point to Lillian.

Quitaque is indeed a community "small in size but large in pride" and it is a great joy to be able to point out the homes which have been singled out as being the "Yards of the Month." There are many beautiful, well kept yards in Quitaque and all of the efforts of the people of this community make it a better place in which to live.

Aoudad Permits Not Limited This Year

An unlimited quantity of aoudad permits is available to landowners in eight Panhandle counties due to the increase in the number of sheep throughout the caprock country.

The Texas Parks and Wildlife

Department will issue approximately 500 aoudad permits to the landowners and they in turn can issue these permits to sportsmen wanting to hunt the elusive aoudad sheep," said David Dvorak, wildlife biologist.

The 1978 aoudad season will be from November 4-17 in Armstrong, Briscoe, Donley, Floyd, Hall, Motley, Randall and Swisher counties.

The daily and season bag limit of one aoudad will be hard to fill if the statistics from recent years are duplicated in 1978. Last year, approximately 450 permits were issued to hunters with only 133 aoudad bagged during the two-

week hunt for a hunter success rate of only 30 percent.

The record aoudad for the Panhandle was bagged in 1976 with a horn length of 34½ inches. This record still stands with many 1978 hunters hoping to come home with a bigger horn.

P&WD wildlife biologists will be spot checking the hunters during the hunt to obtain animal and hunter information vital to future management of the sheep.

Texas game wardens will also be checking hunters for the permit and license requirements throughout the eight-county area.

Most successful aoudad hunters spend 95 percent of their time glassing the rough caprock area due to the extreme difficulty in seeing the sheep. The aoudad is rufous or dark brown with dark brown areas about the head and forequarters. The inside of the legs, the chin, a line on the under parts and the inside of the legs are whitish in color. There is no recognizable difference in color between sexes.

The main on the older males may nearly touch the ground even when the head is held upright. A distinctive characteristic is the long, tufted tail which normally reaches the vicinity of the rocks.

Horn characteristics on both sexes include horn tips that remain sharp throughout life and sweep outward, backward, and then, inward reaching a tip-to-tip spread of over 30 inches on some animals. A full curl is never reached by aoudad as compared to native North American wild sheep such as the bighorn.

The aoudad is gregarious and generally associates in small family groups consisting of an adult male and female with their young offspring of various ages. They normally escape detection by remaining motionless rather than leaving whenever danger threatens.

Sportsmen looking for a trophy aoudad will find the four-to-seven year old male with the longest, thickest horns.

Rev. Elroy Wisian, the United Methodist Church minister in Turkey, has been a patient in an Amarillo hospital for skin grafts on his hand this past week.

We might imagine this is a squirrel assuming a prayerful pose while satisfying his appetite . . . like a man pretending to be religious in order to gain the respect of others.

We are not often fooled by falsity, nor do we let it blind us to truth. We know our religion is our richest treasure. But we rate it worthless unless sincere.

Today millions are talking about the world's spiritual needs. Is talking enough?

Isn't faith more than a word . . . prayer more than a pose?

Attend church every week with your entire family. Support the Church with willing sacrifice. Offer your time and talents to God in your congregation's busy life. And live each day the truths you cherish.

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

NOBODY LOVES ME

Mark sat in the middle of the hospital ward, looking scared and lonely. All around, other babies were being hugged and cooed at by their visitors.

He couldn't know we'd stopped to get his clothes and that today he'd be going home. His understanding of the situation was limited. But then he saw us, and he laughed and held out his arms, loneliness and fear forgotten.

Sometimes life makes us feel lost and lonely. Perhaps a business fails, a son is unreliable, a new job overwhelms or a loved one's gone. When we can't see our way, where can we turn?

God is our Comforter. Whatever our problem, there is guidance and help in His word.

Your church is the best place to learn understanding of God and yourself. This understanding is the key to the abundant life that is His promise.

CROP AND LIVESTOCK

REPORTS NEEDED FROM FARMERS AND RANCHERS

From mid-November to early January, thousands of Texas farmers and ranchers will receive a crop or livestock questionnaire from the Texas Crop and Livestock Reporting Service or will be personally interviewed by the Service's field staff. The information gathered through the questionnaires and interviews provides the basis for determining the final acreage, yield, and production of crops and end-of-the-year livestock and poultry numbers for the state of Texas and for each county.

Reliable information on what is produced, how much, and where is important to farmers, ranchers, and others in making production and marketing decisions and in providing an unbiased picture of Texas agriculture. These are also essential to farm organizations and legislators in promotion, planning and enacting wise legislation and are used in establishing acreages and payment levels to producers under the various commodity programs.

Valley High took a 26-10 win over the Silverton Owls last Friday night and remain one of the two undefeated teams in the Panhandle-Plains area. Wheeler the defending Class B state champion, sports a perfect 7-0 record while Valley now boasts a 5-0-1. All other teams have lost at least one game. The Patriots are off to the best start ever since the Patriots won their first four games before being upended by Sudan.

Last Friday night at Silverton the Patriots kicked off to the Owls who ran the kickoff back to their own 34 yard line. On the first play from scrimmage the Owls threw a pass which was intercepted by Jon Davidson on the 48 yard line and ran it back for a touchdown. Kirk Proctor kicked the extra point and the Patriots were on the scoreboard 7-0.

The Patriots went on to score twice more in the first quarter, one on a 13 yard pass from Proctor to Greg Ramsey, with the extra point kicked by Proctor, and the other touchdown by Helms on a 49 yard run and the extra point was missed. At the end of the first quarter, Valley led 20-0.

Valley did not score in the second quarter during which Darrell Dowd suffered a sprained ankle. The Owls got on the scoreboard when they kicked a field goal and trailed 20-3 at halftime.

The Patriots put six points on the scoreboard when James McNary turned in a nifty 52 yard run for a TD, after which the extra point was missed and that wound up the scoring as far as Valley was concerned. The Owls, however, put seven points on the scoreboard with a TD and an extra point to round out the scoring for the night with the final count at 26-10.

First National To Build New Building

An announcement was made to the Tribune this week by O. R. Stark, jr., President of the First National Bank of Quitaque, that a new bank building will be constructed early in 1979. The new building will be located two blocks east of the present site, on the property formerly occupied by King Machinery and Phillips 66 Station and warehouse.

The First National Bank was organized in 1920, and a building was constructed on the present site at that time. In 1951 the bank was completely remodeled and some additional space was secured, but the bank remained in the same location in the center of town.

Since that time the bank has continued to grow, and the deposits have grown from \$1,354,792.76 in 1951 to \$11,168,740.57 in October of 1978. As a result of this growth the bank needs much more space to adequately service its customers.

The new bank property will have a 325 foot highway frontage, and there will be a greatly enlarged banking house, with a large lobby and bookkeeping area and plenty of parking space. At least one drive-in window is being planned, along with a large community room and many other modern features.

More details will be announced as plans progress.

Variety Show Was A Big Success

The "Medicine Man" variety show staged at Valley School Cafeteria on October 16 was a huge success with Quitaque once again proving that there is an abundance of talent in our own area.

The Purcell family led off the program with a lively rendition of "Hello Everybody." This was followed by a lot of hand-clapping, foot-stomping music as the "Caprock Playboys" played throughout the evening and furnished accompaniment for many of the musical numbers. Playing with the Playboys were Bennie Brown, Jack Cheatham, Jessie Turner, Manuel Cruz, Snow Grundy, Jimmy Burson, Cliff and Joy Stodghill and Jerry Miller.

Presenting musical numbers were The Purcell family, Wilma Smith, Beth Turner, George Price, Cliff and Joy Stodghill, Jimmy Burson, Melba Brittain, Angela and Sherry Green, Eva Cheatham and the "Branches of the Vine" from Plainview, Manuel Cruz and Ruth Purcell, Jimmy and Joann Hill and the "Spiritual Markes" from Lubbock.

There were square dance and other dance exhibitions performed by Murry and Johnnie Morrison, Weldon Griffin, Lou Gillenwater, Billy and Betty Farley, Judy and Ricky Lowe, Johnny Gillenwater, Duke and Mary Woods, Rusty and Cindy Griffin, Teresa Turner, Diane Johnston, Rosa Ortiz and Johnny Cotton. Valley Cheerleaders performed a pom-pom routine also.

Master of ceremonies for the evening was Jimmy Davidson. George Price served as auctioneer for the cake sale at intermission.

After the program, the performers met at the Bank Community Room where they were served sandwiches, cake and coffee by "We the Women."

We want to thank everyone who participated in any way; those who donated cakes, sandwiches and time, and helped to make the show a success. This was a community project and without the help of everyone, the show would not have been a success.

Thanks again. "We the Women"

High Attendance Set For Sunday At Baptist Churches

Sunday School High Attendance Day will be observed on October 29 by many of the 4,300 Southern Baptist churches and missions in Texas.

The Sunday School Division of the Baptist General Convention of Texas has a goal of 678,000 people involved in Bible study and worship on the morning of October 29.

Baptist churches throughout Texas are encouraging all members to attend Sunday School with guests from their communities. Baptist churches and associations will report attendance totals to the Sunday School Division office in Dallas.

The state total on High Attendance Day 1977 was 646,777. The average Sunday School attendance in Texas Baptist churches was 518,907 in 1977.

The national goal for Sunday School High Attendance Day 1978 in Southern Baptist churches is five million.

The Baptist churches in Quitaque, Turkey and Flomot encourage each and every member to be present for both Sunday School and the Worship Service on this date. To be counted you must be in Sunday School.

The goal for First Baptist Church, Quitaque, is 172; First Baptist Church, Turkey, 90, and First Baptist Church, Flomot, 75.

Highway Film Shown At Lions Club Meeting

The regular meeting of the Turkey Lions Club was held October 24 at the Big "T" Restaurant. The meeting was opened by Boss Lion Keith Green. J. T. Mullin gave the Pledge of Allegiance and the invocation was given by Rev. Melvin Clinton.

Guests were Clay Jameson and Tommy Shelton of the Texas Highway Department. They presented a program and film on how the Highway Department operates. The film was on the bridge that was built at Houston. It was a very interesting program.

The meeting was closed by Boss Lion Green. The Lions wish to thank everyone for supporting the Halloween candy sale.

The Patriots had been elevated to third place in the Harris Poll last week and although the Patriots were not too impressive against the Owls after the big first quarter, Valley was pretty well in charge of things all the way.

Valley made 17 first downs and Silverton made seven; the Patriots rushed for 328 yards to 77 for the Owls; the Patriots gained 41 yards passing, completing three of six passes attempted while the Owls gained 99 yards on five completions of 23 attempts for a total of 369 yards for Valley to 176 for the Owls. Valley was penalized for 125 yards and the Owls 30 yards.

Helms was the big gun offensively Friday night as he gained 151 yards and one touchdown on 23 carries for an average of 6.6 yards per carry. McNary ran for 83 yards and one TD on 17 carries for an average of 4.9 yards per try; Darrell Dowd gained 55 yards on 13 tries for a 4.2 yard average; Proctor carried seven times for 37 yards and a 5.3 average, and Mike Dowd carried one time and gained two yards. Ramsey caught two passes for 32 yards and one TD and Dowd caught one pass for nine yards.

The game coming up this Friday night has in past years usually been one of the "biggies" as far as the championship race is concerned. The Patriots are scheduled to play Motley County Friday night at Matador. The Matadors have always been in the running for the championship in recent years but this year hard times have fallen on the Matadors for they have managed to win only one game this season to date.

Last season when these two teams met the Matadors were rolling along in first place and ranked

high in the state ratings and were heavily favored to win over Valley only to find the Patriots all fired-up and took a pretty good clobbering here on the Patriots' field, throwing the race into a three-way tie. However, the Patriots handed the championship right back the next week when Valley was scuttled by Nazareth. This year it would not appear that the Matadors have the horses to return the upset for the Patriots have too much talent, momentum and desire, unless all of them go to sleep or fall and break their legs.

Coach Giddens reports that the team is in fairly good condition. Darrell Dowd, who suffered a sprained ankle at Silverton last Friday night, could play if really needed the coach says. Jeff Crump has a bit of a sore knee, Kenneth Helms has some bruises and there are the other usual bumps and bruises on the squad but nothing serious, so the team should be in good condition come game time. The Matadors are still feeling last year's embarrassment, however, and would like nothing better than to upset the Patriots so Valley should be ready.

The coaches have named the following players to be honored for their play last week:

OFFENSIVE LINEMAN: Jeff Crump. Coach Giddens stated that Jeff graded tops over all the rest.

DEFENSIVE LINEMAN: The coaches selected Jon Davidson as the defensive lineman because of his all-out play and for his interception of a pass and runback for a Valley TD.

OFFENSIVE BACK: James McNary was selected as the Offensive Back for his fine play and for breaking one for a TD. (No photo available)

BIG PATRIOT: This week's Big Patriot is Kenneth Helms, who ran for 151 yards with the ball, including one for 49 yards and a TD.

State Allocates Money For Improvement

Gov. Briscoe's office has allocated money for the improvement of homes that are owned by elderly persons in Texas so that they will be able to properly insulate their homes against the cold this winter.

Funds for this project are limited and will be allocated on the first come, first served basis, as well as on the basis of emergency or extreme need.

Among improvements listed as fundable through this program are the purchase of storm windows, caulking, insulation and exterior wall repairs.

The following counties are eligible for this relief: Armstrong, Briscoe, Carson, Castro, Childress, Collingsworth, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Hartley, Hemphill, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher and Wheeler.

County Extension Service

Having Celebration Day

Today, October 26, is Briscoe County Extension Information Day.

You are invited to the Briscoe County Extension office anytime today (Thursday) between 9:00 a.m. and 4:00 p.m. to visit Lynda Fogerson and Earnest Kiker, the County Extension Agents. Coffee and cookies will be served by Mrs. Sheryl Breedlove, secretary.

Program for the Information Day and Celebration will be: Review of 75 Years of Demonstration Work in Texas. There will be presentations of certificates to producers who have conducted farm demonstrations in 1978.

Slide presentations, photographs, bulletins, and personal visits with you, will be used to explain what your Extension Program is doing in Briscoe County in regard to Agriculture, 4-H,

Home Economics, Family Living, and Community Resource Development.

The year 1978 marks 75 years of Farm Demonstration work in Texas.

The first farm demonstration was set up at the Walter C. Porter farm near Terrell, Texas in 1903, under the direction of Dr. Seaman A. Knapp, a special agent of the U. S. Department of Agriculture.

Since that time, more than 150,000 Texas farmers and ranchers have participated in cooperative farm demonstration work. Last year, more than 4,300 demonstrations were underway, covering a wide variety of farm and ranch programs.

Twenty-five of these farm demonstrations are underway in Briscoe County this year.

To set aside October 26 and the presentation of certificates is only a small way the Extension Service can pay tribute to its heritage and the present producers for their dedication and effort in carrying out Farm Demonstration Work.

Everyone is cordially invited to come by the Extension office for this Celebration Day.

The public is always welcome in the Extension office anytime. The office is open from 8:00 a.m. until 5:00 p.m. Monday through Friday and the telephone number is 823-2343.

John Hill calls for state tax freeze

"Our state taxes in Texas are among the lowest in the nation, and I want to keep them there. As I've said many times, I'll veto a tax increase before the ink dries on the bill."

As Attorney General, John Hill proved he could increase the efficiency of his office without any unnecessary budget increases. He absorbed a three-fold increase in his office caseload by hiring top legal talent capable of higher productivity. The result: his staff lawyers doubled their average workload, and the increased court judgments and enforcement of civil penalty laws returned \$25 for every \$1 of state funds spent on his office.

As Governor, John Hill will insist on this same type of increased productivity for all state agencies. He will institute new controls over federal funds, demand that we follow our "pay-as-you-go" budget policy, and use zero-base budgeting to eliminate unneeded programs before any new programs are added. And he'll block any state tax increase — there won't be any new taxes under John Hill.

**A TAXPAYER'S
BILL OF RIGHTS
IS PAST DUE**

Bill Clements believes we still have a chance to preserve our future by establishing constitutional protection against excessive taxation and runaway government spending.

Bill Clements believes the people of Texas should have the power necessary to ratify or reject tax policies made by legislators.

To establish this power (of the people), Bill Clements will introduce an amendment to the Texas Constitution that would give the people of Texas this right.

Bill Clements' "Taxpayers' Bill of Rights" would:

- Give Texans the right of initiative and referendum, a phrase that means we, the people, have a right to vote on the taxes to be levied on us.
- Place a ban on corporate or personal income tax in Texas.
- Require a two-thirds record vote of both houses of the legislature to pass a tax bill.
- Allow local taxpayers to call an election to ratify or reject a tax increase created by a local governmental unit.

Bill Clements believes in Texas and the people of Texas.

Bill Clements thinks that elected officials must work for the people and represent them properly.

As governor of Texas, Bill Clements will work for and with the people of Texas.

It's about time someone recalled that our form of government was conceived to be a servant of the

people and provide the means to insure that principle endures

THE AG SIDE

Presented By
DANNY FUSTON

This past year a group of independent researchers who were working on methods of saving pennies on the farm were stunned when they ran across a big dollar saving item that many farms were not taking advantage of.

More than 60% of the farms in the midwest have livestock. The stunning part of this is that 32% of these farms had enough livestock (in numbers) to produce a quantity of manure that properly handled would sufficiently fertilize 80% of the land they were farming. The overall savings to the average farm researched could be more than \$1000 per year and have the same soil fertility.

So, if you have animals around, you might consider more closely the use of the barnyard in saving on next year's fertilizer bill.

MORRIS WILSON HOME IS "YARD OF MONTH" WINNER

To top off the annual "Yard of the Month" recognition for summer 1978, the judges have recently chosen the Morris Wilson home as deserving the honor of "Yard of the Month" for October. Mable and Morris have one of the neatest and most attractive yards in Quitaque and well deserve this special recognition. Their yard is a good example of what can be achieved with a lot of "tender, loving care."

The home rating the honor of "Most Improved" for the year went to Bud and Charlie Bailey. The Baileys have only been in their new home for a little over a year but have already won the "Yard of the Month" title this summer and are constantly making improvements in their yard and landscaping. Their large spacious back yard is beautiful also and is a perfect place for their grandchildren to play when visiting.

The group of five judges have named Lillian White as having the most "Outstanding Yard" for the entire summer. The judges have said that her name appeared every month as having a winning yard and although it was very difficult to narrow it down to just one outstanding yard, they would have to point to Lillian.

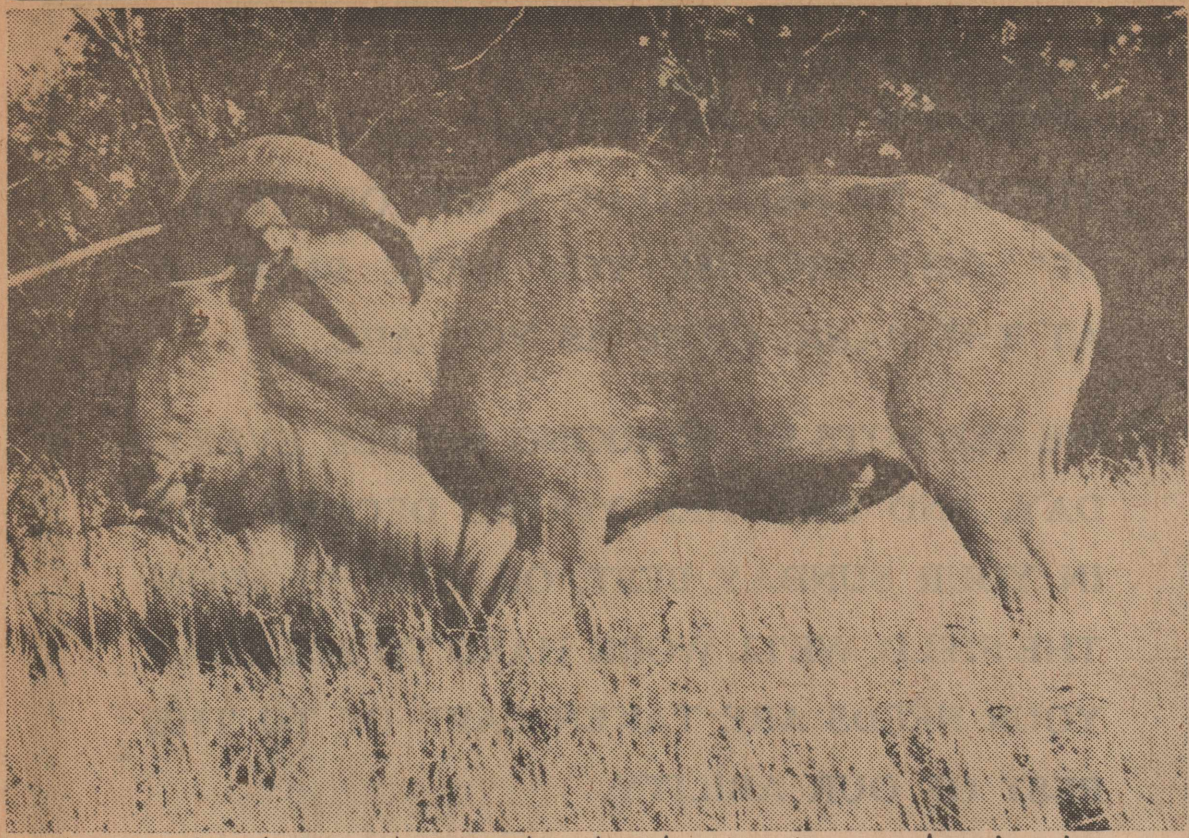

Quitaque is indeed a community "small in size but large in pride" and it is a great joy to be able to point out the homes which have been singled out as being the "Yards of the Month." There are many beautiful, well kept yards in Quitaque and all of the efforts of the people of this community make it a better place in which to live.

Aoudad Permits Not Limited This Year

An unlimited quantity of aoudad permits is available to landowners in eight Panhandle counties due to the increase in the number of sheep throughout the caprock country.

The Texas Parks and Wildlife

Department will issue approximately 500 aoudad permits to the landowners and they in turn can issue these permits to sportsmen wanting to hunt the elusive aoudad sheep," said David Dvorak, wildlife biologist.

The 1978 aoudad season will be from November 4-17 in Armstrong, Briscoe, Donley, Floyd, Hall, Motley, Randall and Swisher counties.

The daily and season bag limit of one aoudad will be hard to fill if the statistics from recent years are duplicated in 1978. Last year, approximately 450 permits were issued to hunters with only 133 aoudad bagged during the two-

week hunt for a hunter success rate of only 30 percent.

The record aoudad for the Panhandle was bagged in 1976 with a horn length of 34½ inches. This record still stands with many 1978 hunters hoping to come home with a bigger horn.

P&WD wildlife biologists will be spot checking the hunters during the hunt to obtain animal and hunter information vital to future management of the sheep.

Texas game wardens will also be checking hunters for the permit and license requirements throughout the eight-county area.

Most successful aoudad hunters spend 95 percent of their time glassing the rough caprock area due to the extreme difficulty in seeing the sheep. The aoudad is rufous or dark brown with dark brown areas about the head and forequarters. The inside of the legs, the chin, a line on the under parts and the inside of the legs are whitish in color. There is no recognizable difference in color between sexes.

The main on the older males may nearly touch the ground even when the head is held upright. A distinctive characteristic is the long, tufted tail which normally reaches the vicinity of the rocks.

Horn characteristics on both sexes include horn tips that remain sharp throughout life and sweep outward, backward, and then, inward reaching a tip-to-tip spread of over 30 inches on some animals. A full curl is never reached by aoudad as compared to native North American wild sheep such as the bighorn.

The aoudad is gregarious and generally associates in small family groups consisting of an adult male and female with their young offspring of various ages. They normally escape detection by remaining motionless rather than leaving whenever danger threatens.

Sportsmen looking for a trophy aoudad will find the four-to-seven year old male with the longest, thickest horns.

Rev. Elroy Wisian, the United Methodist Church minister in Turkey, has been a patient in an Amarillo hospital for skin grafts on his hand this past week.

"SERVING YOU IN CONGRESS IS A HIGH PRIVILEGE BECAUSE I BELIEVE I AM HELPING CHANGE SOME DIRECTIONS IN WASHINGTON:

"Helping to cut taxes and government spending, helping to curb inflation and get the budget back in balance;

"Helping farmers and ranchers by pushing for a consistent, predictable agricultural policy instead of the on-again, off-again policies which are hurting our economy;

"Helping to reduce government interference in our daily lives and to make certain that spending is prudent and national policies are honest and understandable;

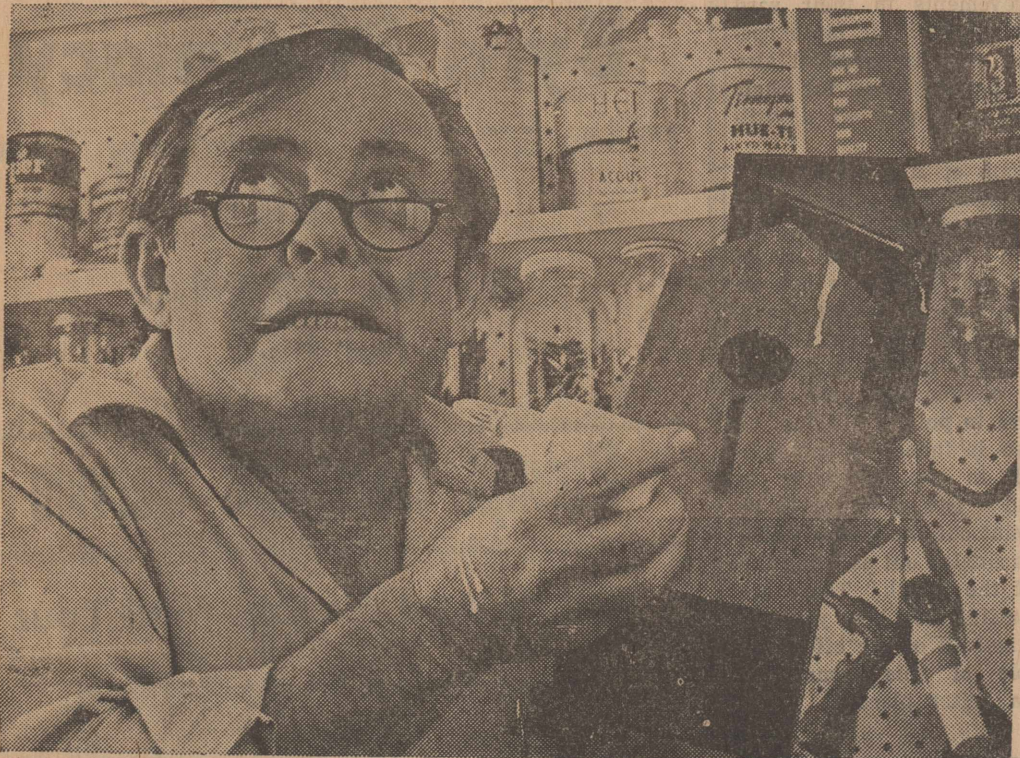

"Helping to get Congress itself to set an example for fiscal responsibility . . . by opposing Congressional pay raises and abuse of the postal franking privilege.

"I'M WORKING AS HARD AS I KNOW HOW . . . I BELIEVE THAT MY CONDUCT IN CONGRESS WILL CONTINUE TO MAKE YOU PROUD OF YOUR VOTE."

His phone is ringing. Unfortunately it's ringing in the living room.

If he had an extension in his workroom, he wouldn't have to work so hard to get to it.

General Telephone offers extensions in a wide range of styles and colors. And each and every phone is backed by all our years of experience.

Extension phones are a convenience you deserve and they're not expensive. Just a few dollars per month and think of all the legwork they'll save you.

You can't be in two places at once. But your phone can.

GTB EXTENSION PHONES

We might imagine this is a squirrel assuming a prayerful pose while satisfying his appetite . . . like a man pretending to be religious in order to gain the respect of others.

We are not often fooled by falsity, nor do we let it blind us to truth. We know our religion is our richest treasure. But we rate it worthless unless sincere.

Today millions are talking about the world's spiritual needs. Is talking enough?

Isn't faith more than a word . . . prayer more than a pose? Attend church every week with your entire family. Support the Church with willing sacrifice. Offer your time and talents to God in your congregation's busy life. And live each day the truths you cherish.

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

NOBODY LOVES ME

Mark sat in the middle of the hospital ward, looking scared and lonely. All around, other babies were being hugged and cooed at by their visitors.

He couldn't know we'd stopped to get his clothes and that today he'd be going home. His understanding of the situation was limited. But then he saw us, and he laughed and held out his arms, loneliness and fear forgotten.

Sometimes life makes us feel lost and lonely. Perhaps a business fails, a son is unreliable, a new job overwhelms or a loved one's gone. When we can't see our way, where can we turn?

God is our Comforter. Whatever our problem, there is guidance and help in His word.

Your church is the best place to learn understanding of God and yourself. This understanding is the key to the abundant life that is His promise.
