Patriots Win At Motley 30-0; Host Happy Friday Night

Valley High's Patriots took a step nearer a Zone Championship (their first ever) as they defeated the Matadors of Motley County 30-0 last Friday night. The Patriots were something less than impressive for the first half as they were held to only a single touchdown by a fired-up team that had won only one game this season. Playing without the services of Darrell Dowd who has been nursing a sore ankle the Patriots were using some of the backfield men in positions that were a bit strange to them and therefore the timing was a bit off, plus the fact that blocking assignments were not being carried out, the Valley boys were not putting anything together offensively until the second period.

Motley took the game opening kickoff deep in their own territory and then picked up seven yards in three tries and had to kick. Valley took over at mid-field and started picking up pretty good yardage only to lose the ball on a fumble. Motley County was in business at their own 30 but lost yardage by a five yard penalty and a quarterback sack. That was pretty much the tone of the game in the first quarter.

With about three minutes gone in the second quarter the Patriots gave a bit of an indication of their potential as Quarterback Proctor tossed a short pass to the right side of the line to running back Michael Dowd who turned it on and hotfooted all the way into the end zone for six points, the play covering 70 yards, and Mike was untouched all the way. The try for extra point was missed and that was all the scoring in the first half.

The Patriots took the second half kickoff and moved steadily downfield for the score with Helms pushing over from the one yard line. Once again the try for point after was missed and Valley led 12-0. The Matadors took the ensuing kickoff, couldn't move and once again had to give up the ball to the Patriots. From the Valley 30 yard line lightning struck Motley County in the form of James McNary who bulled through the line and went 73 yards for a touchdown. The kick try for the extra point was missed and Valley led 18-0.

Valley scored twice more in the fourth period with Kenneth Helms going 10 yards for one score and Jon Davidson taking a 13 yard toss from Kirk Proctor for the final TD. Although Valley scored six touchdowns in the game the Patriots could not make a point after touchdown.

Defensively the Patriots were very good as they limited the Matadors to four first downs with 42 yards rushing and 34 passing for a total of 76 yards. The Matadors never threatened to score. Valley turned the ball over once inside their own 20 yard line but the Matadors couldn't advance the ball on two tries and threw an interception on third down. Valley made 16 first downs, gained 401 yards rushing and 111 yards passing on three completions.

Valley's win Friday night puts them in the position where they can win the North Zone championship by beating one of the last two opponents, either Happy or Claude. The only team that has a mathematical chance of winning is Silverton for at this point the only mark against the Owls is their loss to Valley. If the Pat-

rots should go to sleep and lose to both Happy and Claude there are several possibilities. However, the Patriots are not going to be happy with anything less than wins over the remaining two teams on the regular schedule.

This Friday Valley hosts Happy at 7:30 when the Cowboys come to Valley with a former Valley coach, Bill Hulsey. Coach Hulsey, it might be remembered, is the person responsible for turning the fortunes of the Patriots around and started them to winning after a 21 game losing record. Coach Hulsey is doing a good job of rebuilding the Cowboys for they are winning now after a rocky start at the first of the season. The Patriots might keep that fact in mind for the game Friday night. Every team the Patriots play now is up for them for, they are the big winners and everyone wants to beat them and will be playing over their heads (witness Motley County).

Coach Giddens reports that the doctor has released Darrell Dowd for duty in Friday night's game against Happy, although the coach did not state that he would start Darrell. He also stated that the team had been working real hard this week polishing and trying to eliminate some of the mistakes made at Motley County.

McNary enjoyed his biggest game at Matador as he gained 252 yards and a touchdown, in 22 carries. Kenneth Helms blasted for 114 yards and two touchdowns on 25 carries. Michael Dowd carried five times and gained 23 yards and caught a pass and ran it 70 yards for a TD. Proctor carried eight times for 12 yards.

The coaches selected the following players as outstanding in Friday's game:

OFFENSIVE LINEMEN of the Week: Shane Smith and Greg Ramsey. The coaches felt that this honor should be shared by two boys for this game because both of them blocked very well in the line and gave the backfield good protection.

DEFENSIVE PLAYER of the Week: Dennis Farley was selected for his outstanding play on defense. Dennis was injured in the early season but has come on and been a very steady performer for the Patriots.

OFFENSIVE BACK of the Week: This honor, of course, must go to James McNary. In addition to his 73 yard touchdown run, James turned in another run of about 50 yards before being forced out of bounds. A very big night for James.

BIG PATRIOT: The coaches selected big Kenneth Helms as the Big Patriot for his all-around play in the win over Motley. Kenneth gained over 100 yards at Motley in addition to his very fine defensive play. Always steady and dependable, he will give his best.

Pats' McNary Earns Honors As Player Of The Week In Class B

Mention the Valley offense, and thoughts turn to Darrell Dowd, the Patriots' powerful tailback who's been a two-time Globe-News player of the week thus far this season. And Kenneth Helms, another backfield bulldozer, isn't far behind.

While those two supply the thunder portion of the Pats' attack, sophomore flanker James McNary is the lightning in the Valley arsenal.

"He's the most dangerous ball-player we've got in the open field," says Valley coach Ted Giddens. "If we're going to break the big one it's probably going to be from James."

McNary has rushed for 660 yards on 72 carries thus far, and Friday night, subbing for the injured Dowd at tailback, proved Giddens to be a good judge of talent.

The 5-8, 160-pounder carried 22 times for 252 yards, scoring twice on a 73-yard scamper and a 10-yard dash. He averaged 11.4 yards per carry on the evening.

Even more impressive was all but 24 yards of McNary's total came in the second half, as Valley exploded for 24 points on the way to a 30-0 drubbing of Motley County.

McNary's performance has netted him this week's Globe-News area Texas Class B Player-of-the-Week Award. He edged Booker's Brent Guy—196 yards on 36 carries in the Kiowas' key District 1-B 18-12 win over Groom—for the honor.

"If he ever breaks that initial line of scrimmage," Giddens says, "he's got the moves and the speed. And he has a tremendous amount of determination. He doesn't like to go down."

"His biggest asset is his speed. Last year as a freshman he qualified for regional in the 100 and ran a 10.3 and he looks like he's faster now."

The American farmer builds two things better than anyone else in the world. He builds the next generation, passing along a special kind of wisdom... respect for the soil, honesty, independence, and faith in the future. And he builds his land, leaving it better than he found it. That kind of building usually requires borrowed long-term capital. That's where we have helped for 60 years.

Students Take PSAT Tests

The PSAT was given to eighteen juniors October 24, 1978. This test measures mainly verbal and mathematical abilities important for success in college. It permits students to gain experience in

taking examinations of this type, it provides useful information to schools and students as they make educational plans. If a student scores high enough he or she could be eligible for the finals in the National Merit Scholarship competition.

Lloyd Waters, Dean of Students at Clarendon College, talked to the junior and senior classes. The first half-hour was spent talking about the importance of high school graduates receiving more training, whether it be vocational, two-year college, four-year college, or armed forces. The second half-hour was spent talking about cost, financial aid, work-study, facilities, housing, placement and programs offered at Clarendon College. The fact was brought out that small colleges have some advantages, but also some disadvantages compared to larger colleges or universities. Mr. Waters advised the students to check into the following questions when trying to decide which place should be their

International Basketball Comes To Wayland

International basketball competition comes to Wayland's Hutcherson Physical Education Center November 7 when the National Team of Finland comes to Plainview to help Wayland's Pioneers open their 1978-1979 season.

The game is the first against a foreign team in many years for the Pioneers, who begin their 11th season under Coach Bob Clindaniel with the event.

It will be a large, experienced squad that has enjoyed an immense amount of success that invades Hutcherson Gym that evening, led by the likes of 6'9", 200-pound Keikki Taponen, a veteran of 115 games in international competition.

The Finnish team, coached by Robert Peterson, has won 17 straight games beginning last fall. Included in that string is the Polar Cup (Scandinavian championship), the Lodz Tournament (Poland), and the Omatilla Tournament, in which the Finns defeated Ohio State University in the finals, 88-84.

The team, which averages 56 international games per player and an average height of 6-5, will leave three or four important players at home and try to gain experience for several younger players. One player not making the trip is Kalevi Sarkkalahti, a three-year starter at Brigham Young University.

The Pioneers, meanwhile, will counter with what most people are expecting to be their finest squad in many years. Only two lettermen, including one starter, is missing from last year's playoff participant team, giving Clindaniel great encouragement as he enters the 1978-79 season.

Returning starters from last year's 15-17 team that fell 103-100 in overtime to Midwestern State in the NAIA District 8 playoffs are 6-3 forward Gene Strickland, a senior from Friona; 6-1 guard Bruce Kimball, a junior from Kermit; 6-5 senior John Irving, from Galveston, and 6-6 junior Donnie Seale.

A pair of outstanding transfers, along with some fine lettermen and two outstanding freshmen, should add needed depth to this year's edition.

Transfer Larry Cumby (6-4, 190 junior from Larue) could come in immediately and fill the shoes vacated by starter Carl Burson, while 6-8 junior Bryan Briden, a transfer from Southwest Texas State who becomes eligible in December, could push for a starting position at the post.

Pep Squad Report For Silverton, Motley Games

The Patriot fans, students and teachers met the past two weeks to encourage the Mighty Patriots for a Victory once more. The football team was in higher spirits than usual because they were playing their favorite rivals.

The guys entered to the song, "Rocky." The song seemed to sing of Victory which filled the ears and hearts of everyone present. As the rating of the team was read the rising of our team in the Harris rating to third place was noted, the excitement was greater.

For the Silverton game, Jenny Clay and Debra Clinton, sophomores, received the girls spirit awards. Shane Smith, sophomore, and Kevin Hendrix, freshman, received the guys' spirit awards.

For the Motley County game, Teresa Fullbright, senior, and Dana Ramsey, sophomore, received the spirit awards for the girls. Kirk Proctor, senior, and Bob Grass, freshman, received the guys' spirit awards. Keep up that Patriot Spirit!

Many cheers were led by the cheerleaders in both rallies. Our thanks go to Coach Phelps and his magical cap. It seems that everytime it comes off, the fans suddenly burst into cheers for the team. Thanks, Coach!

The Patriot Spirit hasn't seemed to dwindle in the least since Homecoming. There is a cheer, entitled "Patriot Spirit Never Dies." To keep up this great spirit, SUPPORT THE PATRIOTS!

Most newspapers pick Hill over Clements

"John Hill may be the best candidate for governor in decades. Judging from his record, he should win easily over his Republican opponent, whose chief qualification is money. Unlike his opponent, Hill is not given to outrageous promises, intemperate personal attack or underhanded tactics. He will work hard for the best interests of the state and its people."
 — Austin American Statesman

"The more Mr. Clements has explained his blunt viewpoints — even those views we could agree with — the more he has raised doubt as to how effective a bulldozer could be in Texas government. Conversely, John Hill has grown in our evaluation as a man who not only is the best state attorney general in recent history, but also is a man with the intelligence, savvy and ability to serve Texas well as governor."
 — Abilene Reporter-News

"We believe Hill will bring vitality and leadership to state government. Hill is not an advocate of big government. Nor is he a free spender. He has pledged that no new taxes will be levied if he is elected. His anti-inflation program is the kind of fiscal conservatism Texans can accept gleefully."
 — Corpus Christi Caller

WHAT THE TAX RELIEF AMENDMENT IS ABOUT

It's not often that we have a chance to vote to lower our taxes, but Texans will have that opportunity on November 7. In the section of the ballot on constitutional amendments, the first item will be "The Tax Relief Amendment" which was authorized by the special session of the Legisla-

ture last summer. It is far-reaching and addresses tax relief in six major areas—all of them balanced and designed to help all segments of the economy as well as individual taxpayers. A statewide committee known as "Texans for Tax Relief" is being formed to promote passage of the amendment. Co-Chairmen are Mrs. Marcella Perry, widely

known Houston business and civic leader, and Ray Hutchison of Dallas, former member of the Texas Legislature and former Chairman of the Texas Republican Party. Dozens of other business, professional, educational and civic leaders throughout the state are participating as committee members. "We believe this amendment is the most important item ever to come before the voters in the area of tax reform," Mrs. Perry and Hutchison said.

The six major areas of tax relief provided in the amendment are:

*Removal of intangibles from the mandatory tax base to allow the Legislature to clear up the constitutional problem which now exists. The Legislature is NOT required to tax intangibles.

*Removal of the current \$250 limit on household goods and personal effects which are exempt from ad valorem taxation. If the amendment is passed, it would exempt ALL household goods and personal effects from taxation which are not held or used for the production of income and would permit the Legislature to exempt all or part of the personal property homestead of an individual family.

*Granting a \$5,000 exemption from the market value of a residential homestead for school tax purposes. It also allows the Legislature to grant an additional exemption up to \$10,000 for citizens 65 or older and for disabled citizens. Property taxes for residen-

THE ag-side

Is agriculture the bulwark of American Economic strength? Even the politicians agree that over the next quarter century, more so than the last quarter century, America's economic strength in the world will be her agriculture. Even now our trade deficits have but few to turn except to agriculture and what we can produce to export in agriculture. Even with the above a known truth politicians in some quarters continue to talk about land control, consumer protection, food stamp programs, support programs and control of international markets for our products. It appears the politicians would have to agree that to this point most of the progress made in the world trade of agricultural products by the U.S. has been made by private enterprise rather than the government. Most farmers will agree that the best role government can play in market places is, to find buyers for the product then turn it over to private enterprise to handle. If sufficient buyers were found we would have no need of support prices.

*Places a ceiling on spending by the State Legislature and stipulates that the state budget may NOT grow faster than the state's economy.
*Provides for "Truth in Taxation" which means that property taxes may not be increased without full public hearings beforehand. The provision also says that if property is revalued, the owner must be given notice not only of the revaluation, but also of the amount of taxes which would result from the evaluation if neither the tax rate nor the ratio of assessment is offered. Many people think this is perhaps the key portion of the entire amendment.

There is no way I could have effectively campaigned for State Representative without the valuable and indispensable help of my wife, who has been with me all the way—doing the typing, driving, door to door campaigning and the hundreds of chores connected with a "shoe leather" campaign. She will also be with me in Austin helping me serve the 66th Legislative District.

Lois and I have turned down and returned hundreds of dollars of unsolicited campaign funds from the Austin and down state special interest groups. We are proud of our children, and want to set a proper example for them. We want no shadows cast on a reputation it takes a lifetime to build.

The concert is over. The artist takes a bow. Or, perhaps the curtain rings down on a smash hit. And hands slap, smack, pat, or tap.

Hands do other things besides applaud. Some write on blackboards, others perform miracles of surgery — some type, some sew, some plant. Hands drive trucks, make music or diaper a baby.

There are crippled hands and wrinkled hands, soft ones and smooth; hands flung up as a shield; others stretched in supplication.

In God's Church are praying hands. These hands translate compassion into action. They find homes for the homeless and food for the hungry. They teach, as well as preach, and bring hope to hearts long lonely. They, literally, become the hands of God.

Today, as never before, mankind needs the assurance and comfort of God's love. Won't you help your church reach out? Offer your heart and your helping hands.

WE GATHER TOGETHER

We all went to church this morning. Later, as I carved the turkey, Mary and I began to reminisce about our first Thanksgiving in our own home.

It was the year Joe was a baby. Always before, we'd gone home to our families. We set a festive table and pretended not to be lonely.

"And were you?" asked Jane.

"Did you pray before you ate?" asked Ruthie.

"Of course, they prayed," said Joe importantly. After all, he'd been there! "That's what Thanksgiving is all about!"

Mary and I smiled at each other, remembering how we'd nearly forgotten. We'd bowed our heads together, baby son at our side. Suddenly, the real meaning of Thanksgiving swept over us, and we gave thanks for the blessings of the hour.

How grateful we are for the teachings of our church, which through the years has helped us interpret the source of all goodness!

FARMER'S COOP GIN

JACK HIGHTOWER

An independent Congressman in the tradition of Texas leadership

Jack Hightower promised the voters of the 13th District when they sent him to Congress four years ago that he would represent all of them fairly and honestly. He promised to provide an independent voice in Washington. He promised to work full-time at the job. HE HAS KEPT THOSE PROMISES.

Here is what those who know Jack Hightower's record say about his effectiveness:

"... in two terms Hightower has established himself as a member of the Agriculture Committee and the Government Operations Committee whose voice must be reckoned with in arriving at solutions to two of the nations's most pressing domestic issues — problems confronting today's farmer, and inflation..."
Amarillo Daily News, May 1, 1978

"... Jack Hightower from Texas is one of the newer class and, in fact, Bob Poague and I like to think he's the kind of refreshing leader of the newer members coming to Washington in a recent session or so, and Jack is a former state senator and has been a tremendously effective lawmaker..."
Congressman Charles Thone of Nebraska

"... Hightower is serious about his business in Washington. He is just as serious about trying to maintain a normal lifestyle in a city where normal is often viewed as abnormal..."
Jim Craig, Houston Post, October 8, 1978

"... I want you to know that we as farmers are truly grateful to have a representative in Washington who does such a fine job of telling our story... thank you for all that you have done for America's farmers..."
Mrs. Georgia Holt, Spearman, Texas

"... I want to express our thanks for your hard work to benefit Texas wheat farmers in the House Committee on agriculture... I know that some of your votes and stands on the issues took real courage for a Democrat, and I want you to know how much I personally appreciate them..."
Winston Wilson, Farmer, Quanah, Texas

"... Hightower has shown a willingness to listen to the needs of his constituents and the ability to legislate on their behalf..."
Amarillo Daily News, May 1, 1978

"... Almost everyone on the Hill knows about Jack Hightower... the Congressman who votes his conscience, represents his district by organic instinct, but is capable of rising above parochial considerations when national interests are at stake. The same qualities that made him an influential state senator for 10 years — scrupulous honesty and an appetite for hard work — have served him well in Washington, but these alone do not explain the high regard in which he is held. In a town overpopulated by small people with large egos, it is a relief to find one for whom the reverse is true..."
Texas Monthly, May, 1976

That's the kind of Congressman Jack Hightower has been since he took his oath in January, 1975. It's why he has earned the respect of his colleagues and the confidence of people throughout this district... from both political parties. Jack Hightower, Democrat, has earned another term. Vote November 7.

Thanks for every prayer said in my behalf. Quitaque can't be beat. May God bless each and every one of you.
