**KITCHEN PLANNING**

Well-planned kitchens combine organization and function.

When building a new home, remodeling an existing kitchen, or adding one to a present home, study specific ways to plan the kitchen.

Look at magazine pictures of kitchen designs or tour other homes to determine the most efficient floor plans for your work habits.

The kitchen contains important areas, such as counters that provide work and storage space, built-in appliances, fixtures and floor space.

Like a well-fitted jigsaw puzzle, the pieces must fit properly to insure personal satisfaction and to meet functional requirements.

A well-planned kitchen includes centers designed for specific food preparation or cleanup tasks.

Besides its appliances, each center needs counter surface and storage space. Effective centers allow work to move continuously in one direction.

**ORGANIZATION**

The arrangement of the centers within the floor plan usually take a basic kitchen shape: the "U"

**PROGRAM PRESENTED  
ON LAKE MACKENZIE**

The regular meeting of the Turkey Lions Club was held February 2, 1979 at the Big "T" Restaurant. Keith Green opened the meeting and the pledge of allegiance was led by Homer Hawkins. The invocation was given by Minister Jack Hutton.

John McCammon, public relations manager for Lake Mackenzie near Silverton, was guest speaker. He presented slides of the lake and some interesting rock formations around the lake. This lake was built to serve the future municipal water needs of Floydada, Lockney, Silverton and Tullia.

The Lions Broom Sale will be held soon. The Lions have voted to donate the money made from this project to the Fire Truck Fund. The public is urged to check your supply and make a list of needs in order to help the Lions support this community project.

The meeting was closed by Boss Lion Keith Green.

shape, broken "U" or island, "L" shape, two wall or corridor, the one call or Pullman shape.

Too much space causes unnecessary steps and wastes energy—so, plan ahead to side-step any excess space.

The total distance in the work triangle—stove to refrigerator to sink and back should not exceed 22 feet for the most efficiency.

**Eclipse Of Sun To Be  
Observed Feb. 26**

Barring overcast skies, on Monday morning, February 26, panhandle residents will be able to observe the last eclipse of the sun in North America this century, according to Arthur Schneider, Director of the Don Harrington Discovery Center, Amarillo, Texas. Although partial for this area, the eclipse will be total in the northwestern section of the United States and central Canada.

The moon's shadow first strikes the earth in the North Pacific, about 1000 miles west of Vancouver, at sunrise. It then swiftly moves eastward, striking land at the mouth of the Columbia River, between Washington and Salem, Oregon near the path of total eclipse. The shadow continues to sweep eastward and then slightly northward, passing over Butte, Missoula, Helena, and Great Falls, Montana. At 10:40 a.m. CST, the shadow moves into Canada near Crosby, North Dakota. From there it is into the wilderness of northern Ontario, Hudson Bay, Baffin Island, and finally northern Greenland.

Astronomically, conditions for viewing the eclipse are similar along the path of totality. The sun will be positioned fairly low in the southeast, with totality lasting only 2½ minutes.

The panhandle of Texas will experience a partial eclipse with 70-75% of the solar disc eclipsed by the moon. The event begins about 9:08 a.m. CST with a dark notch appearing on the upper right of the sun's face. Around 10:18 a.m. CST greatest eclipse will take place. Although nearly ¾ of the sun will be blocked by the moon and the sun's total light may be dimmed, it is extremely dangerous to look directly at the sun. The infra-red rays will be focused by the eye lens on the retina, burning the latter and causing blindness. Direct viewing is not recommended with any means, unless astronomical-solar filters are available.

**Timetable of Events**

Partial Eclipse Begins 9:08 a.m.  
Maximum Phase 10:19 a.m.  
Partial Eclipse Ends 11:37 a.m.  
Percentage 73%

Note: The projected times may vary by several minutes.

**NAKED-EYE  
OBSERVING HINTS**

For safety, one should never look directly at the partially eclipsed sun with the unprotected eye. One method of totally safe viewing is the pinhole projection method.

In a darkened room, facing south, a small hole in a window shade will cast a pinhole image of the solar crescent on the floor or opposite wall. In a similar manner this type of projected solar image can be produced inside a large box with one end having a small nail hole in it. The box acts as a shade allowing the image to be more easily seen inside the box. Remember, in each case the pinhole is utilized for projection and is not used to directly observe the sun.

A variation of the pinhole projection technique is to use a flat mirror and project the solar image on a shaded wall of a nearby house or other structure. In order to see the sun properly, this image should be projected 30 to 50 feet away. Again, do not reflect the light directly into anyone's eyes.

**NAMED TO COACH  
SOUTH TEAM IN COLORADO**

Cherri Rapp in her third season as women's basketball coach at North Texas State University, has been chosen to coach the south team this summer at the National Festival in Colorado Springs, Colorado.

Miss Rapp, formerly of Esteline and a three-time All-America at Wayland Baptist College in the early 1970's, sees the appointment as an honor.

"You can't recruit any of the players there, but you sure can look," said Miss Rapp, who played on two national championship teams at Wayland. "I hope I can be nice to the girls on my team, and maybe they might come to school at North Texas."

This is the second national festival for high school girls, and it is scheduled for July 27 - August 1. It is sponsored by the Amateur Basketball Association.

The national festival is a culmination of several regional competitions across the country. Miss Rapp will also attend the regional team trials where her team will be selected.

Mr. and Mrs. Charles O. Hamner and daughters, Heather and Brittany of Table Rock, Wyoming spent from Tuesday through Friday visiting with his parents, Mr. and Mrs. Charles Hamner. They were joined on Thursday by Mr. and Mrs. Leroy Hamner of Memphis and Mrs. Hoy Darling and Mr. and Mrs. Hoy Darling, jr. of Post.

an announcement by Dick Fredrick, president of the Mental Health Association in Texas.

"The Mental Health Association is comprised of citizens concerned about the quality of life in their communities. They are aware of the problems of the mentally ill—the lack of treatment or information—and have formed a statewide association to help solve these problems," said Fredrick.

Current concerns of the Association include community mental health center funding; mental health coverage in national health insurance; child care licensing; patient's rights and the impact of deinstitutionalization.

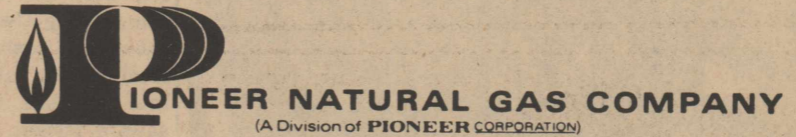

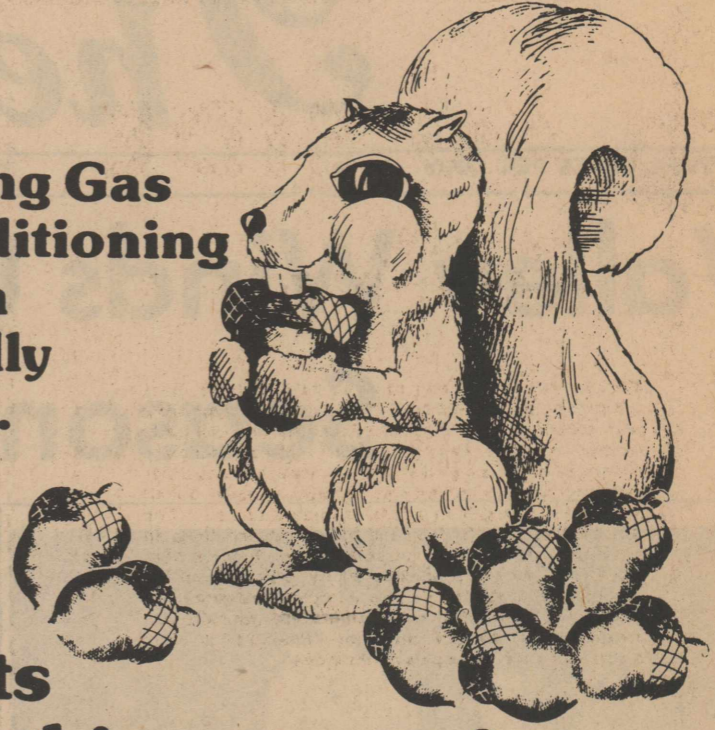

The Association utilizes a variety of information and education services in order to eliminate mis-

conceptions, educate the general public about symptoms and encourage early detection and treatment of mental illness.

Since the Mental Health Association in Texas is a non-profit volunteer agency, it must rely on private contributions to continue working to promote mental health.

You can tell in the long run you have to have more coming in than going out. The same principal works with nations as well. That's why an international trade surplus is more desirable than a trade deficit. American farmers last year did for more than any other segment of U-S industry to reduce a trade deficit topped off by the high prices of mideastern oil. The contribution made by food and fiber producers have all but kept us from sinking in trade deficits. Figures from the last 2 years are considered by many to be the harbinger of agriculture's future importance to the U-S position in world affairs. Farmers and ranchers are moving more directly into the lime-light as they produce enough to keep us number one.

### What Think Ye?

Now a bit concerning worship: it does so much for all who engage in it from the heart. It—Warms our hearts, Opens our eyes, Raises our hopes, Satisfies our longings, Heals our hurts, Inspires our lives, Pleases God.

Benjamin Franklin once said, "If the world is so bad with religion, what would it be without it?" Abraham Lincoln said, "Take all the Bible you can on reason and the rest on faith and you will live and die a better man." Theodore Roosevelt gave this testimony: "I need the church to feed my soul and refresh my spirit; I go once a week for my own sake and for the influence of my example."

At least two reasons are suggested here as to why we should worship. First we need to worship. Even Jesus, whose spiritual nature no one has ever begun to approximate, felt the need to worship the Heavenly Father. It was His custom to be in the synagogue on the Sabbath day. Secondly we need to set an example for others, our

children and friends, even our enemies, if such we have.

One may profess to be a Christian in belief, but if he seldom enters a church to worship, he is failing to demonstrate to his neighbors and friends any conviction he may have concerning Christian faith.

Regardless of how busy we are, or think we are, most of us find time to do the things we want to do. A desire on our part to worship regularly is not a sign of weakness, but of spiritual strength.

☆  
O come, let us worship and bow down; let us kneel before our Lord and maker. (Psalms 95:6)

Gold in the hand may be a good thing and right, in the heart it is all wrong. Let us all remember that God will honor no draft where there is or has been no deposits. It is sure that money cannot go to heaven, but it is equally certain that it can do many heavenly things here on earth.

☆  
Some Christians are much more willing to pledge future paychecks to the salesman who lets them have a TV set than to the ONE who gave them eyes to see it. "I just can't get interested in the church," a person remarked one day. "No," was the reply. "You can hardly expect to. It is

### TOOLEY TO PRESIDE OVER DINNER AND MEETING

Wendell Tooley of Tullia will preside over a dinner and meeting at 7:00 p.m. Thursday, February 15, at Plainview's First United Methodist Church to launch the 1979 McMurry College Annual Fund drive in the Plainview district.

United Methodist churches in the area will participate by sending ministers and volunteer workers to help with the fund-raising campaign for the Methodist-owned college in Abilene.

Churches represented at the meeting will include Abernathy, Amherst, Cotton Center, Halfway, Crosbyton, Dimmitt, Earth, Floyd, Hale Center, Hart, Kress, Tullia Trinity, Lakeview, Littlefield, Bula, Lockney, Lorenzo, Matador, Roaring Springs, McAdoo, Muleshoe, Olton, Petersburg, Carr's Chapel, Plainview First UMC, Plainview Trinity, Quitaque, Flomot, Ralls, Silverton, Spade, Sudan, Tullia First UMC and Turkey.

☆  
somewhat like getting interest from the bank. You have to put something into it first. The more you put in through prayer or money or time, the more you will get, the more your interest grows." Jesus said, "Where your treasure is, there will be your heart (interest) also." (Matthew 6:21)  
—EARL CANTWELL

Highlight of the program will be a musical concert by the McMurry Chanters, the oldest chorale group on campus. Also on the agenda is an address by Dr. Thomas Kim, McMurry president, and a slide/tape presentation about the college by Jack Holden, vice president for development at McMurry.

Tooley is McMurry Annual Fund chairman for the Plainview district of the United Methodist Church. A veteran newspaperman with 30-years experience, Tooley is a graduate of Kress High School and McMurry College.

He has an interest in newspapers in Tullia, Floydada, Lockney and Crosbyton. An active United Methodist, Tooley also participates in civic organizations such as the Chamber of Commerce and Rotary Clubs.

As Plainview district chairman, he will coordinate efforts within the district to top last year's Plainview district contributions of \$9,035.20 for McMurry.

The McMurry Annual Fund was begun in 1973 to raise money for the academic and general expenses of the college.

### Pheasants Get Helping Hand

The promotion and conservation of pheasants is the theme for a new corporation at Plainview in the Texas Panhandle.

Pheasants Unlimited, Inc., was organized as a non-profit organization in April 1978 and now has a membership of over 365 persons in northwest Texas and Oklahoma.

"The money raised from memberships, an auction and raffles will be used to provide free seed and payment to area farmers and landowners for the expense of planting and growing cover and food crops for pheasants," said Joe Don Scott, president of Pheasants Unlimited.

Over \$20,000 has already been donated and the committee for better habitat for pheasants plans to pay local landowners \$25 per acre to plant and maintain food and cover for pheasants which will be considered lay-out land.

These areas comprising plots up to ten acres will be planted near natural cover such as playa lakes, weed fields, fences, old buildings, or other wildlife habitat already on the farm.

Farmers cooperating with Pheasants Unlimited will agree to standard farming procedures to insure growth of the planted crops for pheasants, and the cover so vital during the winter months will be left untouched until the following spring.

The landowners will be prohibited from applying any insecticides or herbicides on the pheasant crops for the welfare of the birds and other wildlife utilizing the cover.

The landowner will have the right to regulate or prohibit hunting on his property as he has done in the past.

Memberships in Pheasants Unlimited are open to anyone expressing a desire to join, or be

### \$50 Million Earmarked For Minority Businesses

The U. S. Department of Agriculture's Farmers Home Administration (FmHA) has targeted at least \$50 million of its rural business-industrial loan guarantees to eligible minority business men and women in fiscal 1979.

In a joint announcement, Alex P. Mercure, assistant secretary of agriculture for rural development, and Randolph T. Blackwell, director of the Commerce Department's Office of Minority Business Enterprises, disclosed actions to stimulate minority business in rural areas and small cities.

Mercure said the new initiatives followed a commitment by Agriculture Secretary Bob Bergland to make agriculture department resources available to the full spectrum of rural Americans, including minority groups and women "who have not always enjoyed adequate access to all of the department's programs."

He also announced with Blackwell that the commerce department will strengthen its nationwide facilities to help minority people develop sound businesses that qualify for private lender financing under FmHA guarantees.

The officials said the two agencies are drafting an agreement whereby personnel of the commerce department and the local business development organizations it supports will be trained in specifics of the FmHA loan guarantee program. As a result business development organizations will be able to help more minority people take advantage of business-industrial financing resources available through FmHA.

Information about FmHA business loan guarantees is available through banks and other commercial lending institutions or FmHA offices. Farmers Home Administration offices are listed in local telephone directories under U. S. Government.

recommended by another member. The Texas Parks and Wildlife Department will be assisting Pheasants Unlimited with technical advice on location of cover, type of crops, shrubs and trees, and other proven methods of increasing wildlife habitat.

The P&WD believes this organization can, through the proposed program being implemented, increase the population of pheasants tremendously in the Hale County area with expectations of similar organizations forming in other Panhandle cities.

More information can be obtained by writing Pheasants Unlimited, Inc., P. O. Box 1180, Plainview, Texas 79072, or by calling Joe Don Scott, 806 293-1311.

### WESTWARD DOUGH!

OR  
how DO you COVER A Wagon?

The wild, wild West. Land of hope and opportunity to thousands of courageous settlers. But, if it weren't for the dollars of thousands more Americans taking stock in their country, there might never have been a West to go west to.

You see, money raised from the sale of government securities helped us purchase the Louisiana Territory from the French. Other securities helped buy the states of California, Nevada, Utah, western Colorado and most of New Mexico and Arizona from Mexico. Even settlement of the Oregon Territory was made possible through the issuance of United States securities.

Today, you can still take stock in your country's growth by buying U. S. Savings Bonds.

Just sign up for the Payroll Savings Plan where you work. There's no easier, safer way to save or help your country. After all, U. S. Savings Bonds are still a great way for you to go West. Or East, North and South.

Now U. S. Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

**SIDNEY T. BOGAN UNDERGOES SECOND SURGERY**

The entire community was saddened Sunday evening when it received word that one of its favorite citizens had to undergo a second tragic surgery. He came through the surgery in good condition Monday afternoon, it was reported to The Valley Tribune Tuesday morning, and with his usual grace, Mr. Bogan went into the surgery with confidence and assurance. His sister-in-law, Mrs. W. E. Schott, jr. of Silvertown, called Tuesday morning to get a report on him and it was reported he rested as well as possible Monday night. His children, S. They worked cattle for their father, Jim Mayfield, that morning and pruned trees in the afternoon. Needless to say, Mrs. Mayfield reports they were glad the sons and grandsons came.

Mrs. James Baird and son, Bruce, of Littlefield spent Saturday night with her parents, Mr. and Mrs. Earl Lewis, in Quitaque.

Mrs. Murry Morrison and Mrs. Ruby Cushenberry of Quitaque visited their two brothers and their families, Bruce and Bryant Eddleman, in Silvertown Sunday.
