Chiefs Take 12-6 Win Over Patriots In Season Opener

The Valley High Patriots drove to Crosbyton last Friday night to open the 1979 football season and dropped a 6-12 decision to the Chiefs.

The Harris Rating System had picked Crosbyton to win by 21 points, but as it turned out Valley could have won it, and proved they are going to be tough later on this season when they get their offense smoothed out and rolling.

Crosbyton fumbled the ball away after taking the game opening kick-off. With less than a minute gone in the game, James McNary ran 32 yards for a touchdown to put Valley on the board with the game's first scoring. McNary then attempted to run the extra point, but was stopped short, and with 11:13 left in the first quarter, the score was 6-0. McNary was injured in the second quarter and had to leave the game. There was no more scoring until Crosbyton scored with only two minutes left in the first half. The Chief's quarterback, Kyle McGinnis, scored on the two yard run and the try for extra point was missed. The score was tied at 6-6 at halftime.

The Chiefs scored their other touchdown in the third quarter when Paul Williams returned a punt 70 yards for a touchdown with 9:15 left in the quarter. That was all the scoring for both teams.

Statistically, the Patriots more than held their own. Valley picked up eight first downs, while the Chiefs got ten. The Patriots gained 188 yards rushing, to 81 for Crosbyton. Valley completed one pass in three tries for four yards. The Chiefs gained 67 yards passing on four completions out of nine tries. Total yardage was 192 for Valley and 148 for Crosbyton.

On offense for Valley, James McNary carried the ball only four times before being injured for 64 yards. Terry Brittain gained 88 yards in 16 tries; Michael Dowd picked up 33 yards in nine tries, and Rod Carpenter rushed for 19 yards in six car-

Baseball Tourney Results Given

The Baseball Tournament and selling of chili in the last tournament at Quitaque in August grossed \$1,700 and netted approximately \$800, it has been reported to the Tribune. The Baseball Leagues want to thank everyone who has donated for the chili and other projects, in time and money. The proceeds will all go to the Pee Wee, Little League and Pony League. The leagues are happy to report they will have a balance of \$2,000 with which to start next year's season.

In the last tournament in Quitaque, there were twelve men's teams playing. Iowa Beef Packing of Amarillo won first place, J. J.'s of Plainview took second and Riggs of Clarendon placed third. There were eight teams in the women's league, and Jackson Oil of Plainview took first, Quitaque Women, second, and Turkey Women, third.

In last weekend's tournament at Turkey, the Clarendon Men took first; Quitaque Clippers, second, and Quitaque Railroad Gang took third place out of ten teams.

Mr. and Mrs. George Johnson were in Lubbock September 11 for his medical checkup.

ries. Dane Cheatham caught one pass that was good for four yards.

McNary and Brittain were most impressive on offense. Defensively, Ray (Juice) Williams and Troy Scoggins looked good.

Overall, the Patriots looked good. They will need to work on their timing and passing. The coach reports that they hope to have McNary back in two or three weeks.

The Patriots go to Ralls Friday night for the second game of the season, then will play Spur here Friday of next week.

JV Patriots Defeat Crosbyton 8-6

The Valley junior varsity hosted the Crosbyton JV Thursday night of last week and won 8-6 in a good, close contest.

Crosbyton scored its touchdown in the first quarter, but missed the extra point, and that was all the scoring in the first half.

Valley scored its touchdown in the third period on a two yard run by Claude Brittain. The winning conversion was a pass play from Ricky Fuston to Brent Brown.

Statistically, the game was just about as close as it could

Cotton Bollworms Said Worst In 20 Years

Cotton growers throughout the Lubbock area are experiencing unusually heavy late season infestations of cotton bollworms. These late season breakouts, reported as the worst in 20 years, are in and around a band 30 miles wide and 40 to 50 miles long from Swisher to Lubbock counties, including Briscoe, Floyd, Hale and Crosby counties.

According to Texas A&M Extension personnel, growers should also be carefully checking their fields in Motley, Dickens and Kent counties, and east Hockley and northern Terry and Lynn counties, where extensive square losses have been reported.

Wendell Farley Home Is "Yard Of The Month"

The judges for the Quitaque "Yard of the Month" selected the Wendell Farley home as the outstanding yard for the month of September. It's worth a drive out of your way to see their attractive yard with beautiful blooming geraniums surrounding a tree being the focal point in their lush, perfectly manicured lawn. Roberta's and Wendell's green thumbs are evident, too, in their back yard, for it has an abundance of blooming plants.

Also mentioned as outstanding yards are those belonging to the Jack Wellmans, Arnold Castillo, John King, Leo Ortiz, Minnie Mae Roberson, Bruce Price, Charles Barrett and John Hall.

There are certain things the judges look for in selecting the "Yard of the Month" winners. Among these are trimmed sidewalks, trimmed around trees, a neat overall appearance, and alleys clean and neat.

Quitaque is proud to boast of so many beautiful yards. It makes a better community and gives a visitor the impression that "here is a community that has PRIDE." Keep up the good work, Quitaque!

President Judy Morrison recognized the Wendell Farley home as the current "Yard of the Month" winner. A plaque will be presented at the October meeting to the outstanding "Yard of the Year" winner.

A report was given by Johnnie Morrison on the "heirloom quilt" which is being made by "We The Women" to sell at the bazaar on November 17. The quilt has grown to an "over-size" one and a few more names are needed to complete it. Contact Johnnie or Delene Tyler to have your family's names added to this "heirloom quilt."

"We The Women" also voted to pay off the note which was made for the paved parking lot at the Community Center. They also voted to keep the planters in town clean during the year.

Green Thumb News

reported by Virgil Blakney
 At our recent Board of Advisors Meeting in Austin, we found out the reason we were threatened with a cut in Green Thumb workers from 16 in Hall County down to two in 1981 and from 12 in Briscoe County to one in 1981 was that the law reads: "The program is to be used where the most people qualified," and this would be in large cities.

Our Advisory Chairman, Jay Naman, contacted the Labor Department and told them this program is needed more in rural areas than in cities. At this time we will not have a cut, but it could come up at a later date.

We need to write Senators Bentsen and Tower and Congressman Hightower and urge them to try to get this law changed so we can keep these workers in the rural area, since we have no industries or any jobs available.

We would have no transportation for people to get to government agencies they would need to go to. This program is federally funded. The money will be spent in cities whether we continue to get our part or not. We don't want to lose this program since it means so much to so

Stretch your energy dollars—
 install an energy-efficient
 electric heat pump

A heating system that's more than 200% efficient may seem like something out of the future. But it isn't. It's yours today, with the electric heat pump. Because when correctly installed in a properly insulated home, the heat pump produces two units of heat for each single unit of electricity it uses. It transfers heat that's always present in sun-warmed outside air into your home during the winter. And reverses the process, pumping heat outdoors during the summer.

If you have plans to buy, build, or remodel, or are looking for a new heating and cooling system for your home, call a local FACTORY TRAINED heat pump dealer or talk with WTU. We will arrange for a WTU heating and cooling specialist to contact you. Learn more about the easy-to-install, economical electric heat pump—your most energy-efficient heating and cooling system buy.

**PROPOSITION NO. 3
ON THE BALLOT
(S.J.R. 13)**

Senate Joint Resolution 13 proposes an amendment to the Texas Constitution authorizing the Legislature to provide for the guarantee of loans used to purchase farm and ranch real estate for qualified borrowers. The proposed amendment would allow the Legislature to provide for, issue, and sell general obligation bonds called "Farm and Ranch Loan Security Bonds" of the State of Texas not to exceed 10 million dollars. All money received from the sale of such bonds would be deposited in a separate fund with the State Treasurer and administered by the commissioner of agriculture without further appropriations. These funds would be used to guarantee loans for the purchase of farm and ranch real estate. The commissioner of agriculture would use these funds under provisions to be prescribed by the Legislature for the purpose of guaranteeing loans used for the purchase of farm and ranch real estate, to acquire real estate mortgages or deeds of trust on lands purchased with guaranteed loans. These funds would also be used to advance to the borrower a percentage of the principal and interest due. The Legislature may also authorize the commissioner of agriculture to sell at foreclosure any land acquired in the manner authorized by this amendment. The commissioner of agriculture would be required to charge at least 6 percent interest on such loans. The proposed amendment appropriates an amount that is sufficient to pay the principal and interest on the bonds that mature or become due during the fiscal year less the amount in the interest and sinking fund at the close of the prior fiscal year.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to provide for the guarantee of loans for purchase of farm and ranch real estate for qualified borrowers by the sale of general obligation bonds of the State of Texas."

La Resolución Conjunta Senatorial #13 propone una enmienda en la constitución de Tejas para autorizar a la Legislatura para que provea una garantía de préstamos, a las personas calificadas, para la compra de bienes raíces agrícolas y ganaderas. De esta manera, la enmienda propuesta podría permitir a la Legislatura el proveer, emitir y vender bonos de obligación general llamados "Farm and Ranch Loan Security Bonds" (Bonos de Seguridad Para Préstamos Agrícolas y Ganaderos) del Estado de Tejas, sin exceder la cantidad de \$10 millones de dólares. Todo dinero recibido de la venta de estos bonos será depositado en un fondo diferente en la Tesorería Estatal y sería administrado por el comisionado de agricultura, sin más apropiaciones. Estos fondos garantizarían préstamos para la compra de bienes raíces agrícolas y ganaderas. El comisionado de agricultura usaría estos fondos bajo las provisiones prescritas por la Legislatura, con el propósito de garantizar préstamos para la compra de bienes raíces agrícolas y ganaderas; para adquirir hipotecas de bienes raíces o escrituras de bienes raíces compradas con préstamos garantizados. Estos fondos serían usados también para adelantar un porcentaje del principal y del interés debido en casos de préstamos, a la persona que califique para el préstamo. La Legislatura también podría autorizar al comisionado de agricultura para que venda cualquier terreno adquirido mediante esta enmienda. El comisionado de agricultura requeriría al menos un 6 por ciento de interés en dichos préstamos. La enmienda propuesta apropiaría la cantidad suficiente para pagar el principal y el interés de los bonos que vayan adquiriendo más valor, o que se venzan durante el año fiscal, menos la cantidad del fondo de interés y amortización al final del año anterior.
