TWENTY-FIFTH YEAR, NO. 11

MULESHOE — COUNTY SEAT OF BAILEY COUNTY, TEXAS

THURSDAY, MARCH 13, 1947

New Hay Packaging Idea Hits Muleshoe

Mr. Muleshoe

More changes in the school set-up in Texas are due in the next few years than in any other period, in the opinion of this writer.

Here in Bailey County changing times demand changing methods, and there is a definite trend here as well as in other parts of the state toward consolidation.

Not long ago the Fairview school district consolidated with Muleshoe; most recent district to join was Lonview, and now leaders of Muleshoe and Baileyboro districts are studying the question of consolidation.

Supt. Cunningham of the Muleshoe district believes that consolidations are necessary to give a district the funds with which to build a first class school plant.

And while on the subject of schools, may we remind you that soon we will elect three members of the district board of trustees and it is not too soon for you and you to begin to cast about for the ideal man.

Earl Ladd, manager of Muleshoe Implement & Supply Co., Allis-Chalmers dealers, has announced that he has now on display a Roto-Baler, which represents an entirely new method of packaging hay.

It was so new that Mr. Ladd and F. R. Brooks, Amarillo, the blockman, had a hard time convincing the Journal editor that it is in very truth a machine to take the place of a "hay baler."

This writer suggests that readers of this paper go to Mr. Ladd's implement house and see for themselves, for he finds himself unable to give a clear word picture of this first big post-war advance in farming.

Suffice it say that for the new roll of hay it is claimed that it will be easier to handle; that more of the foliage will be "folded" in the package; and that tractors, for instance, will find they can put more pounds of hay on their trucks than they can with the rectangular bale.

Only one of the new machines, which are operated by one man, who drives the tractor pulling it, will be shown here. It is now on display at the showrooms of the implement company, but has been bought by Vannoy Tipton, who has a field of 100 acres of alfalfa 3 miles west and 1-2 mile north of Muleshoe.

Cunningham Will Talk At Baileyboro Pie Supper Friday

There will be a pie supper tomorrow, Friday night, at the Baileyboro school house, with proceeds from the sale of pies to go to the school's lunch room fund.

Mr. Perkins said the principal speaker of the evening is scheduled to be W. C. Cunningham, who will address the people of Baileyboro school district on the proposed consolidation of Muleshoe and Baileyboro districts.

The principal urged everyone in the community to come out and join in the fun and learn about the consolidation proposal.

Members of the Junior class at Muleshoe high school will present their annual play at the auditorium in the high school tomorrow night.

"Courtin' Days" is this year's presentation and the following cast has been announced: Mrs. Ellen Macklin, Arvena Moore, Kathie Macklin, Billie Ann Hoover, Taft Macklin, Jo Winstead, Aunt Della Macklin, Doris Gatlin, Hildegarde Watkins, Barbara Klutts, Olivia Delford, Thelma Trueblood, Vivian Grayce, Edith Henry, Mrs. Idora Randolph, Betty Ackinson, Guy Randolph, Curtis Goss, Ruth Bixby, Bill Don Barbour, Jason Groop, Hoshall Thomas.

ROBERT L. CLARK

Robert L. Clark, of Dallas, will head this year's Jefferson Day Campaign in Texas for the purpose of raising funds for the National Democratic party.

Mr. Clark's acceptance as state campaign chairman. The drive will end with a state-wide rally of Democrats and the annual Jefferson Day dinner at the Adolphus Hotel in Dallas Saturday, April 5.

Farm and Ranch Publicizes Local Dairy Program

Muleshoe's registered Jersey cattle program for FFA boys got a big batch of publicity when the Farm and Ranch magazine ran two pictures of various individuals and some of the animals in its March issue.

Pictured were a group of boys with their registered heifers, the six first place winners at the 1946 Farmer-Belley Registered Dairy Show, Farley, the boy being as follows: Hoshall Thomas, Ernest Ramm, Dean Williams, Johnnie Seid, holding heifer belonging to Don Sanders, Cecil Mardis, and Richard Chambers, the latter holding the chapter's registered bull.

Red Cross Fund Drive Mapped

Organization of workers and formulation of plans have been completed for the annual Red Cross drive for funds in Bailey County.

Each community in the county has its committee, who will conduct the drive there.

All Teachers Are Re-elected

Edward Robnett was employed as agriculture teacher in the Muleshoe high school by the school board in session Monday night.

Each member present chose a different book to buy from the reading list and the book will be exchanged with another.

Premium Money Raised By Muleshoe Business Men For Annual Stock Show

Muleshoe business firms have created a fund of \$861.00 to finance premiums and other expenses of the 1947 Muleshoe FFA and Bailey County 4-H Club Boys Fat Stock Show, to be held here Saturday, March 22.

Construction Begins On \$120,000 Elevator

Forger Given 3 Year Sentence

Byron Conz, indicted by the grand jury in Bailey County district court Saturday, pleaded guilty the same day and was sentenced to serve three years in the penitentiary. He was charged with forgery.

Conz has now accumulated 4 1/2 years sentence. He has been tried on check forgery charges, it was said, in Crosbyton, Amarillo, Lubbock and Breckenridge, and still must face trial in Marlin, Colorado City, Ennis and Marlin.

A juvenile charged with forging checks here, was not billed by the grand jury. His family, living in New Mexico, came over and took up the checks, and the boy is under jurisdiction of the juvenile officer there.

Xmas Lighting Order Is Placed

Members of the Muleshoe Chamber of Commerce at their luncheon Friday empowered the president to place an order with some electrical supplier for Christmas lights to be installed here next year.

Longview Club

The Longview Home Demonstration Club met March 11 in the home of Bertha Kitchin instead of Mrs. Ima Griffing, due to illness in her home.

OUR HONOR ROLL

- J. H. Wingo, Muleshoe, Rt. 1. A. C. Gaede, Muleshoe, Rt. 1. Cecil Cole, Star Rt. Arch. N. M. Connie Gupton, City.

Construction is under way on a new fireproof, bonded elevator and grain storage plant in Muleshoe for the H. D. King and Bob King have announced.

The plant will consist of nine storage tanks. Five of them will be 32 feet in diameter, 65 feet high, with a 30 degree cone for tank tops and a 50 degree slope at the bottom for gravity return of grain into the tunnel.

The entire plant will be of fireproof construction, with steel tanks and elevator leg.

Bob King is building the plant. He was for many years the general superintendent of construction for Maxey Construction Company, Lubbock, whose facilities, advice and cooperation he will call upon as needed.

The Kings bought a tract 1 1/2 feet along the Plainview highway and 400 feet deep, for them to build a warehouse building for their additional operation here this summer. They have bought ground across the highway for other elevators.

West Camp To Vote April 5

Proposal to consolidate Muleshoe and West Camp school districts was submitted to the voters of the districts on Saturday, April 5, 1947. The vote was set and the date was set and election order by the commissioners court on Monday meeting.

Texas Has Great Fair To Market Road Program

The farm-to-market road or local service road has been so widely publicized as to create universal interest in that program. This much discussed road is somewhat of a new-comer in the public road field, especially insofar as its method of financing is concerned. Since the pioneer days in Texas, when roads were hewed out of the forest and the earth by those who were to traverse them, the local service road has always been a local road problem. It was either supported by volunteer efforts on road working days or by a "road tax" paid by the individuals involved. Then came the era in which counties levied taxes on properties in the county known as Road and Bridge levies. In more recent years these county funds were supplemented by a

grant from the state of a part of its income from automobile license fees. Through the generations this type of road has been financed for construction and maintenance from local sources.

60 Million In New Roads

In planning for postwar road building era, the various Highway Departments and Road Associations throughout the United States joined in supporting the Public Roads Administration of the United States Government in proposing to the National Congress a program for farm-to-market roads supported jointly by the Federal and State Governments. Thus it was that \$50,000,000.00 are now being utilized in the building of farm-to-market roads in Texas for the three years beginning January 1, 1946. The State Highway Department of Texas was able to match these Federal funds without additional taxation due to the savings that it had accumulated during the war

period when construction work could not be executed.

The Highway Department of Texas had its plans ready, its locations agreed upon with the counties for the execution of a three year program of \$50,000,000.00 of these farm-to-market roads when the war was over. This expenditure provided over 7,500 miles of such roads. More than 2,500 miles are already under contract. These will be two-lane, dustless, all-weather facilities, with bridges capable of carrying loaded 15 ton trucks. They will be taken over for state maintenance as the improvements are completed. The projects were selected by the State Highway Commission, after consultation with the various County Judges and Commissioners' Courts and a detailed study of traffic to be served.

The mileage selected for improvement under this program, together with the primary highway system, will carry an estimated 78 per cent of the state's total motor traffic and will bring 62 per cent of all Texas rural dwellings within one mile or less of a paved road, while 74 per cent will be within two miles. The local county roads today are receiving 45 per cent of the total net motor vehicle user tax collection from state sources that are spent on roads.

THUNDERBOLTS WIN OVER SHOOTING STARS

A large group of young people enjoyed a social Friday night, February 28, at the Longview school house. This social came as the result of a contest carried on in the Sunday School Class.

The Shooting Stars, led by Jessie Ray Carter, entertained the Thunderbolts, led by Viola McKnight. Noreane McKnight and Estelle Dawson planned the entertainment and refreshments.

Many exciting games were played and refreshments of pressed ham sandwiches, potato chips, cookies and lemonade were served to thirty people. After refreshments, the group gathered around the piano and sang many of the old hymns dear to the hearts of all.

Those present were: Clyde Brown, Kay Buzard, Jessie Ray Carter, Estelle Dawson, Rilda Lou

Gabbert, Bobbie Nell Glenn, Edlie Ray Glenn, Curtis Goss, Bonnie Goss, Bossie Griffing, Karl Dean Heard, Perry Lynskey, Ray Lynskey, Jimmie Luman, Billie Marlow, Don Marlow, Glenna Miller, Noreane McKnight, Viola McKnight, Warren McKnight, Don Mickie Sanders, Gay Sanders, Walter Seales, Mrs. Griffing, Mrs. Dawson and the sponsors, Mrs. Ira Kitchens and Mrs. Dudley Buzard. All young people are invited to Longview to Sunday School, Training Union and Church Services.

AT PUMP MEETING

H. D. Crawford and C. V. Riley of the Irrigation Supply Company last week attended a conference of dealers for the Western Land Roller Pump Co., held at Hastings, Neb. They report a very interesting and instructive meeting.

BAILEY COUNTY IS IN AREA OF RAPID GROWTH

Bailey County is smack in the middle of one of the fastest growing areas in point of population in the state of Texas, according to the most recent statistics made public by the Department of Commerce. A map showing areas of rapid population gain was printed in the Star-Telegram Sunday, with coun-

ties gaining most rapidly in Baylor, Lamb, Hale, Cochran, Pomer, in fact most of our neighbors have great population increase. Area of greatest increase is around the Gulf coast.

More than a thousand different welding operations are required in the manufacture of a single motor car.

BLACKWATER VALLEY SOIL CONSERVATION DISTRICT NEWS

Carl Pollard, tenant on the A. X. Erickson land, and C. P. Calvert, both cooperators with the District, are listing their land on the contour as a prevention for wind and water erosion.

Joe Simmacher, T. L. Mounts, and E. C. McWilliams were assisted by Soil Conservation technicians in laying out irrigation ditches on wheat land.

Topographic surveys have been made on land owned by Allison Cassidy and L. A. Wells as a preparation for irrigation.

Lester Howard, cooperator who lives near Needmore, is constructing terraces with a Whirlwind terracer.

Applications for Soil Conservation assistance were received this week from Nuttle Moore, Dr. M. F. Green, Joe W. Pugh, and Walter R. Ramm. This brings the number of applications received by the District to date to 325.

Complete conservation plans of operation have been worked up with R. A. Harris, John Johnson, Ralph Randolph, and Bernie Smith. Willie Williams' plan of operations has been revised.

THE FARMER AND THE WEATHER
Like the weather, the farmer and his problems are a frequent topic of conversation. Unlike the weather, something can be done about the problems facing the American farmer.

Congress took a long step in the right direction when it passed the Agricultural and Marketing Research Act of 1946. This act makes possible the appropriations of agricultural research funds which over five years would step up to \$61 million annually.

Though this may sound like a lot of money, actually it is small when compared with the federal funds expended for agricultural subsidies and support payments during the last couple of decades. The interesting fact is that by giving cotton, grains, orchard crops, livestock and the like adequate research funds, the country helps itself to avoid future vast expenditures to life agriculture from the financial mire. New products and greater production economies through research will enable the farmer to sell more and more of his crops at a reasonable profit.

Congress has taken the first step. Now the second step must be taken—the actual appropriation of the funds authorized by the Research Act. Without these funds, the act cannot serve the intention Congress had when it enacted the bill into law without a dissenting vote. The farmers of the nation are looking to their fellow citizens and their representatives in Congress to give full support to farm research appropriations during 1947. We can't do much about the weather, but we can do something to help the farmer and ourselves to boot. And now is the time for action.

DELINTEED COTTON SEED
At least 60 per cent of Childress County farmers believe it pays to plant delinted cotton seed. County Agricultural Agent V. E. Hafner reports that the Childress County farmers are sold on planting the delinted seed because it comes up so quickly. And only

with 16 to 30 pounds of fuzzy seed, the county agent says. Another point in favor of the delinted seed for West Texas cotton growers is that it requires less moisture for germination, says Hafner. It can also be spaced more evenly in the drill rows, seed hoppers will hold more seed and don't have to be filled so often.

Delinting equipment installed in the Childress County Farmers Cooperative Gin furnish cotton growers of the county with the clean seed. Present capacity of the delinting plant is 400 pounds per hour, but County Agent Hafner says plans are underway to increase the plant's capacity to as much as 800 pounds an hour to meet the increasing demands for delinted seed in the county.

SOME SEED SHOW LOW GERMINATION RATE

LUBBOCK—Seed germination tests to date indicate that seed from red top or sumac cane and from sudan grass harvested after frost last fall have a comparatively low germination rate, according to Dr. A. W. Young, head of the plant industry department at Texas Technological College. Good seed will germinate more than 90 per cent, Dr. Young said, while much of last fall's late maturing crop has a rate of 60 per cent or less.

Farmers should have seed samples tested, either at the state agricultural department's seed testing laboratory in Austin or at a commercial plant, Dr. Young suggested. If the germination rate is low, producers will likely find it more profitable to sell their seed for feeding purposes than to plant extra seeds, he said.

Enter Hale County

MIDLAND—Stanolind Pipe Line Company plans to lay pipelines to the Irish and Petersburg pools of Hale County and Anton area of Lamb County, it was learned Saturday. Six-inch systems will be laid to the pools, with completion planned around April 1.

An eight-mile outlet to the Petersburg pool will start from a point in section 29, block C, northeast Lubbock County. The Irish pool system will start from a point two miles southwest of Monroe in North Central Lubbock. It will entail 12 miles of line with 4½-mile extension to be laid west to the Anton pool.

Stanolind Oil & Gas Company has staked a new test in the Petersburg pool, which it discovered. It is the No. 1 A. R. Smith, 2003 feet from west and 1,994 feet from south lines of section 10, block CL, EL survey, a half-mile south of the

Buchanan-Gable Vows Read Sat.

Miss Juanell Buchanan, daughter of Mr. and Mrs. J. C. Buchanan of Muleshoe, and Francis Harold Gable, son of Mr. and Mrs. H. M. Gable of the Y. L. Community, were united in marriage Saturday at 6 p.m. at the Baptist parsonage with Rev. A. W. Blaine reading the double ring ceremony.

The bride wore a white wool dress with black accessories and her corsage was of rose buds.

Mr. and Mrs. Russell Bryant were the couple's only attendants.

Miss Buchanan graduated from the Muleshoe high school last year. Mr. Gable attended Muleshoe high school and served in the Army Air Corps three years.

The couple left for Las Cruces, Cibola and other points in New Mexico for their honeymoon.

They will make their home in Muleshoe for the present.

Please call in your news or send it in. Phone 34—The Journal.

Wesleyan Guild Met With Mrs. Harris

Wesleyan Service Guild met in the home of Mrs. Marion Harris, March 10th, with President Mrs. G. O. Jennings in charge.

Mrs. Noel Woodley gave a very interesting and inspiring devotional, "Getting the Most Out of Life."

Mrs. Marty Ezell had charge of the study, "The Children and Their Church." Mrs. Ezell asked Mesdames David Anderson, T. G. Craft and Delma McCarty for a brief outline of their work in the different age groups in Sunday school. This was very interesting but much is needed to make the work more impressive and effective.

The next meeting will be Monday evening, March 24, at Fellowship Hall, with a covered dish luncheon. The husbands of the Guild members are invited. Brother Craft will review the book, "The Fine Art of Using." Guild Sisters will also be revealed at this time.

Delicious refreshments were served to Mesdames Marty Ezell, Del-

ma McCarty, T. G. Craft, Noel Woodley, Harold Weyer, Jack Lenderson, David Anderson, James Case, Olin Jennings, G. O. Jennings, Curtis Spivey, Anita Butler, W. B. LeVeque, Elizabeth Harden and the hostess.

Fidelis Class Met With Mrs. Burrows

The Fidelis Class of the Muleshoe First Baptist Church met for their monthly class meeting.

Sunshine gifts were exchanged and new names were drawn for the next three months.

Delicious refreshments were served to the following members: Mesdames F. H. Davis, C. A. Barnett, C. H. Tate, A. E. Lewis, L. T. Green, N. F. Green, Joe Damron, A. W. Crow, H. L. McDaniel, S. L. Busbice, Fern Snyder, R. B. McHorse, Irvin St. Clair, W. M. Pool, Ray Griffiths, E. R. Hart, Arlie Thomas, J. W. Holmes, the hostess, Mrs. Earl Burrow and the co-hostess, Mrs. L. C. Roddam and Mrs. Clinton Bristow.

Mr. and Mrs. Irvin St. Clair left Sunday for Hot Springs, N. M., to spend several weeks.

MR. AND MRS. A. C. GAEDE CUT ANNIVERSARY CAKE

Mr. and Mrs. A. C. Gaede, pioneer residents, are shown above with the cake presented to them at the reception tendered February 25 in Fellowship Hall by the

Board of stewards of the Methodist Church, honoring their 44th wedding anniversary. Mr. Gaede has been a member of the board for 39 years.

meeting. Littlefield chapter invited the Muleshoe chapter to be their guests Friday evening, March 14, and all members who expect to go will meet at the Masonic hall at 7 p.m.

Worthy Matron Naomi St. Clair presided. Refreshments were served by Mesdames Delma McCarty, Dudley Malone, and Horace McAdams to twenty five members.

HALF CENTURY CLUB

The Half Century Club will meet March 20 with Mrs. Sarah Harden. We hope all members will be present. We are glad to report Mrs. Emma Weyer is much improved and we hope for a speedy recovery and that she will soon be back with us.

MISS FORT OF BAILEYBORO IS A RECENT BRIDE

Miss Doris Fort, daughter of Mr. and Mrs. Perry Fort, was recently married to Mr. H. O. Huff, Jr., son of Mr. and Mrs. H. O. Huff, at Brownfield, by Rev. Brian. They plan to make their home at Baileyboro on his farm.

Mrs. H. H. Carlyle of San Angelo was a recent visitor here in the home of her sister, Mrs. R. J. Klump.

Mr. and Mrs. C. E. Bearden and daughter, Mary Jane, Mrs. A. J. Dieter and daughter, Marilee, are visiting in the home of their brother, E. K. Angeley. They are from Elensburg, Wash.

Mr. and Mrs. Arthur Crow were in Oklahoma City the first part of the week attending the Chevrolet Dealers Meeting being held there.

Mr. and Mrs. Howard Cox were in Plainview Monday on business.

of days under medical care in the Amherst Hospital. She has been discharged.

Longer Life For Your Nylons

Now that—at long last—you can get nylon stockings, do yourself a good turn by re-dyeing them at some when they begin to fade. You can give your hosiery months of extra life and new color-beauty this way. A dime box of special Intex stocking dyes will do the trick at less than two cents a pair. The dyes come in six fashion-new shades, but you can get other tones simply varying the amount of dye in the solution. The same dyes can be used also for rayon, silk, cotton and wool stockings.

Here's another good tip. Don't despair when you get a run in one stocking. Save the good one until you get another odd stocking. Then put them together, as Dancer Louise Holden is doing above, for a re-matching tip in the dye-bath. A preliminary step, in this case, is to take out enough color to enable you to re-dye. Color remover, available at the same counters as the dyes, will do this for you.

Incidentally, if you have faded clothing or home decorations, available at the same counters as the dyes, will do wonders for them, too. There's a new all-fabric dye out that comes in more than 50 colors. It works on every type of material, including "Celanese", acetate, nylon and rayon.

Muleshoe Club

The Muleshoe H. D. Club met in the home of Mrs. J. W. Jarmon on Thursday afternoon, Feb. 27, with eleven members present and two visitors.

Mrs. Earnest Holand gave a demonstration on how to put on collars so they will not be cupped. Also how to fix pleat filled seams and how to cut continuous bias tape.

A talk was given by Mrs. Beryl Wingo on how to be a gracious hostess. A round-table discussion followed by the members. After the talk the business session adjourned and refreshments were served. They consisted of coffee, cocoa, two kinds of cake, white cake and dark devil's food. Those present were Mesdames H. M. Shuffner, J. E. Day, H. E. Farr, Roy Carney, Beryl Wingo, Louise Busbice, J. T. Shoffner, W. F. Hays, Kenneth Briscoe, W. H. Awtrey, Jr., Earnest Holland, C. E. Briscoe, J. M. Dudley and two visitors, Mrs. C. M. West and Mrs. E. C. Caldwell and the hostess, Mrs. J. W. Jarmon. The next meeting will be in the home of Mrs. Roy Carney March 14 at 2:30 p.m.

Watson Club

The Watson H. D. Club met in the home of Mrs. Erwin Campbell on Wednesday, Feb. 26th with nine members present.

Mrs. Dave St. Clair gave a council report, and a sequin demonstration.

Mrs. Jim Henderson drew the hostess gift.

Refreshments of cocoa and cake were served to Mesdames Clinton Edwards, Geo. W. Fine, Naomi Henderson, C. E. Lowe, Jim Henderson, Bob St. Clair, Dave St. Clair and Roy Tunnell by the hostess, Mrs. Erwin Campbell.

We meet March 12 with Mrs. Clinton Edwards. Reporter.

Baileyboro Club

The Baileyboro Home Demonstration club met Tuesday, March 11 at 2:30 p.m. in the home of Mrs. Helen Schmitz, with six members present.

Our quilt that is to be auctioned off at the pie supper Friday night was quilted.

Mrs. Bub Shafner was appointed to buy a pot flower for Mrs. Helen Hall.

Sixty two cents was made from the hostess gift. Janie Moraw was the winner.

We are sorry to lose one of our good members, Mrs. Onnie Schmitz, who is moving to Seagraves. We will miss her very much.

Mrs. Johnnie Myers was elected our new Secretary and Council Delegate.

Fiddle Shafner is our news reporter.

Delicious refreshments of sandwiches, cookies, coffee and hot cocoa were served to the following: Mesdames Johnnie Myers, Helen Schmidt, Minnie Underdown, Onnie Schmitz, Fiddle Shafner and Jane Moraw.

Our next meeting will be in the home of Mrs. Fiddle Shafner March 25. This will be an all day meeting. A divan will be covered.

We would like to see a big crowd at the pie supper Friday night, March 14, at the Baileyboro School House.

Reporter—Mrs. Bub Shafner.

PINK AND BLUE SHOWER FOR MRS. AL HUMISTON

Mrs. Russell Bryant and Mrs. E. T. Bryant were joint hostesses at a pink and blue shower held in the former's home, honoring Mrs. Al Humiston, (formerly Dortha Mae Gable) Wednesday afternoon, March 5. Those attending were: Mesdames Mervin Witterding, J. E. Embry, H. M. Gable, Raymond Gable, J. C. Buchanan held in Wynagle, Clynt Buhman, and little daughter, W. B. Wagon, Oran Sims, C. D. Hoover, Russell Buhman and daughter, A. W. Copley, Hardy Burrows, Miss Frances Williams and the honoree.

Games were played and delicious refreshments were served. Many beautiful gifts were received, and those unable to attend sent gifts.

LADIES BIBLE CLASS LUNCHEON AND QUILTING

Wednesday of last week the ladies of the weekly Bible Class had an all day quilting with a covered dish luncheon at the home of Mr. and Mrs. S. A. Ribble. They had a great time, twenty one present, and all enjoyed the splendid luncheon, and especially the excellent ice cream from the local creamery. The members of the class. The class now studies the New Testament Churches, following the guide book of Coleman Overby. The Bible lesson is on Tuesday afternoon at three o'clock in the Church of Christ building. Mr. S. A. Ribble is their teacher. Sister, come with us, we will do the good. Reporter.

FOUR RECEIVE OES-DEGREES HERE FRIDAY

The degrees of the Order of the Eastern Star were conferred on Mesdames Ellen Spence, Capitola Goodwin, Maud Young and W. E.

Lawn Improvement Getting Attention

Improving the looks of home lawns is coming in for a lot of attention this month and from Mrs. Laurette A. Williamson, County Home Demonstration Agent, of Bailey County, we have some pointers on getting your lawn in good condition.

Taking down the high spots and filling in the low places is one of your first problems. Sand that blows in from fields near the house often causes the lawn to fill in badly. Best remedy is a good permanent pasture surrounding the house... one with good sod that will hold down dust and sand.

If your lawn is cut by ditches or if erosion is taking away top soil, a few terraces built in adjoining fields will stop water erosion. On the other hand, if the lawn is extremely flat, it may be necessary to make ditches to drain the lawn well enough to grow grass, shrubs and trees.

Old lawns can be fertilized with a top dressing of one or two inches

THE MULESHOE JOURNAL Unique Art Contest

Three obscure Chicago artists were placed squarely on the road to international fame and fortune when they were adjudged the winners of a unique art contest held recently in Chicago. Through an arrangement made by three old established Chicago art organizations, Cosmopolitan magazine agreed to buy the three top paintings and use them to illustrate a story in the May issue of the magazine. Publication of an illustrator's work in a magazine of international circulation such as Cosmopolitan is a virtual guarantee of success in the art field. Successful magazine illustrators earn from \$15,000 to \$100,000 a year. From left to right are shown Carl Gross, formerly of Pittsburgh, winner of second prize; John Howard, formerly of Kansas City, Mo., winner of first prize; Mary Miller, 21-year-old artist, formerly of Spokane, Wash., and Portland, Ore., and Edmond Witals, art editor of Cosmopolitan magazine.

6 SIMPLE STEPS to BETTER LIGHTING

Here are six simple steps you can take to improve the lighting in your home. After you have taken these, you can learn more about good home lighting from the advice of a specialist. Fill in the coupon and mail it, or call your nearest Public Service office. Our specialist can tell you if the lighting is correct in your home or place of business. There is no charge or obligation for this service.

1. Clean Lamp Bowls and Lamp Bulbs frequently to get from 20% to 50% more light from the lamps you have.

2. Use White Shades or shades with white linings. Dark shades waste light.

3. Avoid Direct Glare from lamp bowls or bowls, by using shades that are deep enough and big enough.

4. Place Each Lamp so it puts no glare in the eyes of either person using it.

5. Fill Work or reading with the light that gets rid of reflected glare. Try it, you can see the difference.

6. Sit Close Enough to the lamp to get all the light it can give your eyes. A difference of a few inches may mean 50% less light.

In the "O" file—OIL

Question: What bit of household equipment, worth hundreds of dollars, can be purchased for ten cents?

Answer: The household oil can.

When you consider the repair bills and replacement costs of the major household appliances, the gadget that guards their good health and longevity deserves a special place in the homemaker's affections—particularly now, when repairs and replacements mean "time" as well as money! So, let's give that handy oil a front line position in the cleaning equipment closet.

Perhaps the oil manufacturers should encase their product in gold and diamonds indicative of its worth, but instead it is encased in a container as practical as the product itself—the unbreakable, economical, designed-to-fit-the-use tin can.

First, read the directions for use that came with all the "motor" devices that help you keep your house. If you've lost the directions, call or write to the manufacturers. To remind you:

The washing machine needs oiling regularly according to directions. Remember to oil the casters and the pedestal of the wringer.

The vacuum cleaner may or may not need to be oiled, depending on its vintage. If the directions call for oiling of the motor, be careful not to oil too lavishly for it may spot your carpet... and do not attempt to oil it while the motor is on!

The carpet sweeper should be oiled once a month—not too heavily... avoid spotting the carpet.

The electric mixer should be oiled regularly according to manufacturer's directions.

The refrigerator with the open-type mechanism requires oiling about twice a year... here again, read directions first. Many of the latest models with closed-in motors require no lubrication.

The electric range may need a drop of oil on the roller bearings of the drawers if they stick.

The sewing machine, one of the most intricate of household appliances and requires careful oiling according to directions.

Hospital News

Mrs. Mozelle Burkett spent a few days in for medical care. She has been discharged.

Mrs. C. G. McGee of the Ladbud community is receiving medical care here.

Mr. H. A. Angeley is receiving medical care here. He is doing fine.

Mrs. C. E. Hinton is receiving medical care here.

Mrs. Odell Henderson was admitted for medical care.

Congratulations

To Mr. and Mrs. Charlie Prather on the birth of twin sons March 12. Weight, 3 pounds, 11 ounces and 3 pounds, 13 ounces.

PHONE CORD HAS 68 PARTS

Telephone switchboard cord has as many as 68 parts, not including the plug. Twenty-two assembly operations are necessary to produce one finished cord.

BOUND BOOKS—A few in stock at THE JOURNAL.

DROP IN FATS AND OILS SUPPLIES IS PREDICTED FOR FIRST HALF OF 1947

One Pound of Fat Saved By Each Family In U.S.A. Every Month Needed to Counteract Domestic Deficit

A six-month intensification of fat salvage is the plea of the Department of Agriculture, whose January 1 fats and oils forecast indicates even shorter supplies of inedible fats and oils during the first half of this year, than during the corresponding period of 1946.

If every family in the United States saves and turns in to the meat dealer just one pound of used cooking fat per month during the next six months, it will bring current supplies up to just about the amount of fats and oils available

in the United States during the first half of 1946.

The Department of Agriculture warns that supplies of fats and oils, January through June 1947, probably will amount to about 150 million pounds less than supplies during the first six months of 1946. On the basis of 31 million families in the United States, their six month total salvage would amount to 186 million pounds, or enough to counteract the expected drop below last year's slim supplies.

1 lb. of used fat saved by every family in the U.S.A. each month...

will increase our fats and oils supply to last year's level.

CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 17,987 miles of Gr. Strs. Flex Base & Double Asphalt Treat. from Sudan to Beck, from Ballebyro to Circleback on Highway No. FM 303 & 298 covered by S 472 (1) & S 473 (1), in Lamb & Bailey County, will be received at the Highway Department, Austin, until 9:00 A.M., March 25, 1947, and then publicly opened and read.

This is a "Public Works" Project, as defined in House Bill No. 54 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said Acts.

In accordance with provisions of said House Bills, the State Highway Commission has ascertained the wage rates prevailing in the locality in which this work is to be done. The Contractor shall pay not less than the prevailing wage rates shown in the proposal for Group 3 for each craft or type of "Laborer," "Workman," or "Mechanic" employed on this project.

Bale Ties Will Be Scarce Again

O. M. Self, Chairman of the Bailey County ACA, Committee, has advised that farmers should place orders now for bale ties and accept delivery even though it will be several months before the ties are needed.

The following information has been received from Washington, which indicates that there is likely to be another shortage of bale ties this year. "If we are to obtain an adequate supply of bale ties for use this year it is essential that the manufacturers produce at a maximum rate throughout the year. To assure this production farmers should place orders now with their dealers and accept delivery of bale ties as they become available. This action will enable dealers to order maximum quantities from fabricators without building up abnormal inventories.

The 1945 hay crop was the largest in history and even though 108,225 tons of bale ties were produced that year, farmers' needs were not met at the harvest time and enormous tonnages of hay were stacked in the fields and stored in mows. Farmers continued to bale hay and straw from mows and stacks throughout the winter months of 1945 and well into the spring of 1946, and as a result, the normal carryover of ties was depleted.

The Department was aware of this situation and steps were taken early in 1946 to have mills run at capacity through the first and second quarters. However, instead of increasing production, work stoppages in the steel and coal industries caused the mills to reduce first quarter production of 19,014 tons whereas it should have been 30 to 35 thousand tons. The absence of a normal carryover from 1945 and the low rate of production in the first quarter of 1946 caused a severe shortage of ties in every section of the country. Production was increased to 31,500 tons in the second quarter; 36,043 in the third quarter; and 37,200 tons in the 4th quarter, or a yearly production of 134,757 tons. (This figure does not include several thousand tons of coiled wire used for baling hay and straw). Judging from complaints received from both dealers and farmers, 1946 requirements were not met until late in November. It has been estimated that 1947 requirements will be 156,200 tons.

The production and distribution of ties this year will be entirely dependent upon trade practices with no government direction or allocation. Thus, it is particularly important that farmers clearly indicate their demand by placing their orders and accepting deliveries as early as possible.

ANOTHER KITCHEN RELIABLE

Add a small paint brush to your kitchen kit. It's the best bet for removing crumbs from the electric toaster or waffle iron.

Muleshoe Lodge

No. 1237 A.F. & A.M. Regular Meeting Second Tuesday Night of Each Month Earl Ladd, W. M. R. J. Klump, Secretary.

—Visitors Welcome—

Bye, Bye Buttons!

THIS housewife might be saying that to herself or to her junior edition as she completes attaching the Scovill Company's new home Gripper fastener to her latest sewing creation. These fasteners for home attachment were developed in response to a flood of requests from home-sewing American women earlier this year and will be in the nation's stores soon.

To attach them just a spool, a pencil and a hammer or any heavy weight are all that's needed. Among the countless uses for which fasteners are recommended are: jamae, dresses, children's wear, play clothes, underwear, and slip covers.

Tulia Cow Is Butterfat Queen

COLLEGE STATION—Texas has a new butterfat champion — Welcome Volunteer Sable, five-year old Jersey cow owned by J. Chester Elliff of Tulia.

J. W. Davis, Extension dairyman of Texas A. and M. College, has been informed by the American Jersey Cattle Club that the Jersey a new state record in butterfat production when she produced 18,998 pounds of milk and 1,144 pounds of butterfat in 365 days, on a three-time-per-day milking basis.

Welcome Volunteer Sable's performance topped the 1,077 pound butterfat record made in 1945 by her half sister, Welcome Volunteer Tiff, also owned by Elliff, a former FFA boy. Both Sable and Tiff were sired by the champion bull Welcome Volunteer, then owned by Elliff, who sold the sire last year to a Massachusetts dairy farm.

Sable is now the all time highest butterfat producer of the Jersey breed, according to Dairyman Davis.

Please call in your news or send it in. Phone 54—The Journal.

ert Island Decameron, by H. Allen Smith.

The herd bull of the FFA boys of Muleshoe was sired by the Elliff herd bull, Welcome Volunteer, a fact that goes to prove the high type of animals in the local Jersey cattle program.

Library Will Be Open Saturdays

The public library in Muleshoe will be open Saturdays in the future, The Journal is informed by Mrs. Chas. Denau, of the Study Club, library sponsors. She said the change is being made so that rural people may have access to the library on that day.

She announced a list of new books on the library shelves, as follows:

Before the Sun Goes Down, by Elizabeth Howard; Ride With Me, by Thomas D. Costain; The Street, by Ann Petry; Laments for Living, by Dorothy Parker; Captain Kidd, by Norman Reilly Raine; Humoresque, by Fannie Hurst; American Beauty, by Edna Ferber; I Love Ms Tilli Bean, by Ilka Chase; Des-

Local Boys Will Show At Littlefield

A number of registered Jersey cows, registered gilts, fat calves and fat barrows belonging to Muleshoe FFA boys will be exhibited at the FFA and 4-H Livestock Show to be held in Littlefield the coming Saturday, March 15.

The show is for FFA boys of this district, with chapters at Littlefield, Muleshoe, Morton, Levelland, An-

ton, Springlake, Sudan, Whitharral, Sundown and Olton.

Money premiums will be given for first, second and third place winners and ribbons for fourth with the exception that money prizes are offered for fourth and fifth places on beef calves.

Muleshoe boys hope to bring back some of the honors in the various classes. All animals exhibited will be returned here, and fat animals will be shown in the Muleshoe Club Boys Show the following Saturday, March 22.

Please call in your news or send it in. Phone 54—The Journal.

RECEIVES DISCHARGE

Pvt. Cecil C. Clary has received his honorable discharge from the Army and is back home with his parents, Mr. and Mrs. M. M. Clary.

J. W. Ellis had as guests last week his sons, Wade of Core, Clive and Arlie of Oklahoma City and a daughter, Mrs. Ryan of Mountain Park, Okla. All members of his family were present except his eldest son, Claud, of Modesto, Calif.

Mr. and Mrs. Buck Ragdale visited over the weekend in Floydada with her parents.

Eyes That See Not

By Rev. T. G. Craft

are days that try men's souls. The world is torn in strife and bitter hate; there are classes and classes; nations against nations, and powers against powers throughout the world. In a generation there have been two world wars. The last war was ten times worse than the first one. It is estimated that World War II cost three trillion dollars and thirty million lives to say nothing of the cripples in body and mind, and the heart aches of untold suffering. Now the third World War is in the making. The next war will be between COMMUNISM centered in Russia, and Capitalism centered in the United States. Communism is on the offensive, and Capitalism is now on the defensive. The two philosophies of life may not be able to live in the same world. If this is a fact then mankind will fight another world war. The next war will be an atomic war. If there is a time worse than the recent world another war, it will be a thousand war.

The scientists keep telling us that we have less than five years to lay the foundations for world peace. Who among us can tell if the United Nations will succeed? We can hope and wait. Man has never been able to prevent wars. He is so innately selfish, and so covetous for power, peace treaties are despised, if and when they are gained. As history speaks from the throne of ages past, no contract between nations have been powerful enough to prevent wars. Man is a hopeless creature, and is consumed in his own evil, and greed for power. Who can prevent man? The way is dark and despair could well say the lot of mankind.

There seems to be one hope and one way left for man to save himself and the world from the ravages of another war. The religion of Jesus Christ is our first and last defense. But the world has never tried Christ in the real test of government, economics, education and not much in the church. Christ has failed to save our world, because He has not been accepted and trusted. The church for the most part has pigeonholed the Christ and his religion. Christ has not been made the master of life even in the church. When only fourteen million of fifty five million church members keep faith with the Christ, He is not greatly honored and revered. Then in so-called Christian America there are seventy five million people who refuse to have any faith in the Christ. By their actions they have rejected Him and His way. Our generation is the product of a Materialistic philosophy. The business of materialism is to place all the emphasis on the things that a man can see, touch, and feel, eat and drink. Since our world is absorbed in things—material things—it has no time nor faith for spiritual things. The reason America does not accept the Christian Religion is obviously due to the fact that America does not see any need for such a faith. If a man has a comfortable home in which to live, a good position, or occupation that provides sufficient income to purchase all the needs and wants of the body and mind, why bother about the church and religion.

The Materialists believe that man lives only once and that is here upon this earth. They refuse to accept even the teachings of Jesus Christ that man is an immortal being, and is a citizen of two worlds. The materialists seem to get along fine, until... until one day death strikes for the first time in the home. Then he must face a fact that he had tried to ignore and push out of his life—the fact of death. We

Mealtime Magic

CHINESE PEPPER STEAK

There's always something new in meat dishes, but one which you'll think is absolutely tops for a one-dish meal or as the main dish of a full dinner is

- 1 lb. beef steak (chuck, round or flank) or 1 beef heart
 - 1/2 cup flour, salt, pepper
 - 2 green peppers
 - 2 large onions
 - 4 tablespoons fortified margarine
- Sauce:
- 1/2 teaspoon celery seed
 - 1/4 teaspoon ground cloves
 - 1/4 teaspoon turmeric
 - 1/4 teaspoon ginger
 - 1/2 teaspoon mustard
 - 1/2 teaspoon salt
 - juice half a lemon
 - 1 cup boiling water
- Cut beef (or veal or lamb) into strips. Salt, pepper and flour each piece. Cut peppers and onions into strips. Melt margarine in large heavy frying pan. Brown meat in this. Measure sauce ingredients into saucpan. Simmer together 5 minutes. Pour over meat in frying pan and cook until tender. Serves 4 to 6.
- For other taste-tempting recipes write today for your free copy of the new two-color, 32-page recipe booklet, "Mealtime Magic," to National Cotton Council, Box 18, Memphis 1, Tenn.

true that suffering is a queer kind of preaching, but is one kind that all men must hear. They may not heed.

Ministers of the gospel try to preach from the Bible, but most people look upon preaching today very much like they did in the days of Noah—with contempt and pride—but the flood did come then, and fires are coming now. Judgment has to come to men.

You may say that I have managed without the help of the church for sometime, and that you think you will not need the church any more. But when some sorrow—death for instance comes—whom do you want to help you? Or parents can bring up their children out of the church and its influence, thinking that the church is useless in helping build the moral life of the child. But when these children violate the laws of God and state, and the strong arm of the law takes over, then parents can spend the rest of their lives in sorrow and regret. The church may not mean anything to you now, but can you say twenty years from now, that you and your children did not need the church?

New Departure Seen For Row Crop Farming

COLLEGE STATION — Something new is going to be added in row crop farming in Bailey County this year.

Several farmers, reports County Agricultural Agent J. K. Adams, have bought new type chisel plows, and will "depart radically" from row crop customs. The procedure they plan to follow consists of running the deep-cutting chisel plows in the opposite direction that last year's rows traveled. Then following the first spring rains, they will put specially designed chisel sweeps on the plows and travel along their con-

tour lines left by the chisel sweeps. County Agent Adams says this method of row cropping is being encouraged widely as a means of thoroughly breaking the ground and allowing moisture supply to become distributed evenly through the soil. He believes that grain sorghum and cotton will thrive longer during drouth periods if the chisel system is employed before planting.

NEW CONTRACTING FIRM IS ORGANIZED HERE

V. M. Collins and H. R. Scarborough have formed a new firm here to do building contracting. Both have been doing carpenter work here for a number of years, now are entering business for themselves. Their headquarters will be announced in advertising to appear later.

Bill Collins and daughters, Bob- by and Betty, were in Lubbock Monday on business.

"I LOST 51 Lbs.!"

Lost 11 lb. in weight, 10 lb. in hips and 8 in. in bust. One 170 lb. Mrs. D. M. From where I sit... by Joe Marsh

Mystery of the Rocking Chair

Ma Hoskins has a favorite rocking chair that's worn and shabby, with a noisy creak. Pa Hoskins has listened to that squeak for thirty years... and he decided to do something about it. So he bought a new rocker, and hid the other in the barn.

Ma allowed as how grateful she was... but when Pa missed her one afternoon, he heard a familiar sound that led him to the barn. There was Ma rocking happily in her old chair—squeak... squeak. No need to tell you how Pa felt.

Quick as a wink he hid the new rocker and then brought Ma's old chair back to the house. Now when he hears that squeak, he looks at the mellow glass of beer he's drinking and says to himself: "She's just as entitled to her small pleasures as I am."

From where I sit, that's one of the reasons the Hoskinses are the happiest, oldest-married, peace-fulest folks in our town.

Lost 50 Million Acres!

"More than 50 million acres of once fertile soil are no longer be used for the production of cultivated crops. From another 50 million acres we have lost more than 20 per cent of the topsoil. In fact, erosion has taken at least 25 per cent of the topsoil half the farmland in the United States.

"Control of erosion is one of the nation's major problems. Even though American agriculture has made tremendous strides in the use of higher yielding varieties of crops, in the application of fertilizers, in the control of plant diseases and insects, and in the improvement of cultural practices through the use of modern machines, the average yield of our crops has not improved. What we have gained on the one hand has been lost to erosion on the other. (Soils and Men, USDA Yearbook for 1938, pp. 6 and 7)""

CHEVROLET

Again in 1946...
FIRST IN SALES!

FIRST IN CAR SALES—FIRST IN TRUCK SALES
FIRST IN COMBINED CAR AND TRUCK SALES!

The final registration figures are in, and again in 1946 America purchased more Chevrolet cars—more Chevrolet trucks—more Chevrolet cars and trucks combined—than any other make, despite the fact that Chevrolet was out of production entirely during the first three months of the year! A magnificent tribute to Chevrolet production efficiency, as well as to the dollar value of Chevrolet products! It's the best proof you can possibly have that you're wise to choose Chevrolet, the only cars giving BIG-CAR QUALITY AT LOWEST COST, and the only trucks rating as THRIFT-CARRIERS FOR THE NATION! True, there still aren't enough new Chevrolets to go around, but highest popular demand means higher dollar value, just as highest production means quicker delivery of your new car or truck. Place your order—today!

Lions To Sponsor Outside Tournament

Members of the Lions Club were told at the Tuesday luncheon that high school officials had offered them sponsorship of an outdoor basketball tournament to be held here. Bill Moore, explaining the proposal, said the club could raise considerable money to finance their public recreation program. He suggested a rising vote of thanks for school officials and it was done.

Supt. W. C. Cunningham told of his recent trip to the school administrators convention in Atlantic City. He told of the meeting and of sight seeing trips in New York and Washington.

Judge Cecil Tate, who presided, brought the Lions up to date on the road paving program.

The club voted to cooperate with the Chamber of Commerce in promoting a celebration and county fair.

Houston Hart was introduced as a new member and Roy Dyer was a guest.

ANOTHER WATER BILL!
No sooner had a bill to control underground water been shelved in committee at Austin when another of the Bailey County Water Conservation District, reports that a bill to declare underground water the property of the state and controllable by the state was introduced Wednesday. So it appears that the people of the Plains can't relax, but must get right back into the fight again. Mr. Osborn recently told a gathering that "we must eventually evolve a plan of our own, and dot just be against everything that comes up."

TRUSTEE ELECTION SET FOR SATURDAY, APRIL 5

Trustee elections in Bailey County school districts will be held Saturday, April 5, Cecil H. Tate, executive school superintendent, has announced.

Terms of three trustees of the Muleshoe district will expire: Sam Fox, J. Clyde Taylor, board president; and Ollie Damron.

Fixing Up the Farm by BURTON WILLIAMS

Be Ready for Fire

FIRE is an unwelcome visitor at any time but it can be doubly disastrous if it catches its unwilling host poorly prepared. A few simple fire-fighting tools within easy reach will frequently mean the difference between a minor damage and a major loss.

If at all possible, there should be a fire extinguisher in every large building. A rain barrel filled with water and stacked with buckets is a good protection. Maintain a tool rack containing important such as pitchforks, shovels, rakes, axes, ropes and wire brooms. Include a flashlight and two ladders which will reach the roof of the highest building always available. A strip of 12-inch belting attached to a seven-foot wooden handle makes a useful tool for beating out flames.

Protection should extend to the materials used in constructing the buildings. Fireproof materials, such as asbestos cement shingles and asbestos cement board, used for interior walls and ceilings, will help limit a blaze to the area in which it started.

pleasure of the occasion. Let's take care of the new books—they will last much longer if we do.

Large number of out of town visitors were at the Singing. Being away on an exchange appointment at Ft. Sumner, I cannot tell of the visitors. Among them were Mr. and Mrs. Orley Rush of Lubbock. Bro. Howard B. Stubblefield and wife of Lubbock, Mr. and Mrs. E. L. Gardner of Hollis, Okla., were attendants at church and were visiting their son, A. J. Gardner and wife. W. O. Burford and wife of Lubbock were in attendance at the Singing and church.

The brethren here had the pleasure of meeting and hearing J. Garvin Smith of the church work at Ft. Sumner. Brother Smith is to be with us again during the Preacher's Meeting in April. It was a treat to me to have the visit to Ft. Sumner, where I met an old central Texas friend, Forrest Hutcherson, who is an influential man of the Church of Christ there. His father was an early friend of mine, when as an awkward country boy I was trying to get started in my life work of preaching the gospel.

Our sick members are doing better it seems. Among them we number Mrs. Morna Wagon, Mrs. Louis Stuart, Mrs. Rip Taylor and Mrs. J. D. Witherspoon, who returned from Oklahoma City, sick of flu. She had been at the bedside of a daughter who had an operation.

The ladies of the weekly Bible Class had a very enjoyable day with Mrs. Ribble Wednesday, Mar. 5th. An all-day quilting and a covered dish luncheon at twelve. There were twenty-one ladies present I am told. They let me eat with them at twelve. May there be many happy returns of such a day.

OTHERS HAVE SAID

Mostly Static --

By Berry

Howdy Folks; A pretty fair proof that money talks is the fact that only women's heads appear on coins.

When money talks, everybody listens.

Our neighbor says that money works two ways. It talks and it stops talk.

The kind of money that talks most is hush money.

One lady remarked that many a girl marries to make her dream come through.

While on the subject of money, we could say that pin money doesn't amount to much unless the pin is a diamond pin.

And of course, the expression "dollars to doughnuts" doesn't carry the odds it used to.

The odds are in favor of you buying our Proctor Irons and automatic Toasters if you will come in and see them. Come in and look them over.
