Olton Mustangs To Meet Jackets Friday

Muleshoe Downs Springlake, 14-7

Bobby Goss, fullback of the Muleshoe high school Yellow Jackets football team threw out his chest a little further last Friday night when he scored the season's first touchdown for his eleven. Bobby dashed over the pay stripe in the second quarter after steady gains by himself, Weldon McCarty, and others had placed the oval on the one-foot line.

The Springlake Wolverines were the unlucky visitors who faced the Yellow Jackets in their starter. But they made a game of it as they went down fighting 14 to 7.

The snarling Wolverines tied up the score in the third period when Junior Smith, halfback, grabbed a pass from J. J. Barlow, Jr., and dashed across the goal, the play carrying about 40 yards. Cletis Clayton, captain and general war horse of the Wolverine pack, kicked the goal for the extra point.

It rocked along like that for a time but in the fourth quarter the Yellow Jackets combined the running of McCarty, Lawler and Goss with some nifty passing. Ed Nickels to Gene Harvey, to advance to the Wolverine 15. Here Teddy Lawler broke through the race across the pay stripe standing up. Nickels again passed for the extra point.

Bands of both teams gave an entertaining demonstration during the half time period. There was a large sized crowd out to enjoy the occasion in the improved Muleshoe athletic stadium.

SOUTH PLAINS FOUND GOOD PLACE TO GROW CARROTS

The Rio Grande Valley of Texas is not the only place where carrots are grown. Big time truck farming operations have come to Floyd County on the South Plains.

Ransom Walker, who has lived at Vernon and Lubbock, brought his valley trained Spanish-Americans to Floyd County to do something about the slack carrot season during September and October. This group of truck farmers are part of Parish Farms, Inc. in the Rio Grande Valley.

It's Walker's idea to put carrots on the market at a time that is now a dead spot on the production calendar. He is starting out with 300 acres of irrigated wheat land and hopes to branch off into bell peppers and baby lima beans after he gets his carrot production going.

He figures on a 110 to 120 day growing period in this section of the country.

The mentors of the Muleshoe Yellowjackets have been putting their charges through the paces this week in preparation for the role of playing host to the strong Olton Mustang eleven Friday evening at 8 o'clock in the Muleshoe Football stadium.

Football fans will recall the 14 to 14 tie game played by these two teams last year. The Mustangs are always a threat to any team and this one is certainly no exception, with such lads as Jerry White, Don Franks, Bobby Joe Gullet, Buddy Hedges, Joe Hall and Ed Burrus on the line-up of the Yellowjacket coaches have just cause for sleepless nights.

The Mustangs will be playing their season opener while the Yellowjackets will be playing their second scheduled game of the season and trying to repeat their act of the previous week end and keep their name in the WIN column.

Officials for the game will be: Referee, Duval; Umpire, Tobie Waggoner; Headlinesman, Hayhurst; and Skinny Winn on the box.

The probable starting line-up for Muleshoe will be:

NAME	Pos.	No.
Gene Harvey	LE	26
Bob Horsley	LT	40
Marvin Waggoner	LG	69
Phillip Garret	C	45
Bill Thompson	RG	51
Preston Williams	RT	63
Bill Collins	RE	18
Ed Nichols	QB	10
Ted Lawler	BB	12
Weldon McCarty	TB	11
Bobby Goss	FB	14

Other players who will possibly see service include Woody Jackson, No. 16; Aubrey Heathington, 20; Marcus McCormick, Marion Waggoner, Johnnie Hastings, Billy Ray Gaddy, Bill Jeter, Carl Sneed, Benny Douglas, R. E. Bryant, Marvin Waggoner.

Voters Say "No" To Gym Proposal

A majority of those who returned cards in the test vote recently held on the proposal to include a gymnasium in the new school building registered opposition to the plan, so the school board has decided to drop the gymnasium from the school plan for the present.

The board explained that a low construction rate could be obtained on the gym, but that money on hand is insufficient to pay for it. Additional bonds of about \$100,000 would have to be voted, the board said, to provide for the gymnasium.

Cards were mailed to the voters asking their opinion. Of voters who returned the cards about 55 percent were against the proposal.

Club Report Will Review Year's Work

The Muleshoe home demonstration club met Sept. 9 in the home of Mrs. R. L. Dillard. Plans for the Fair were discussed.

The president asked that each of the members bring a report of her years work to club before the last meeting in October. This work consists of number of garments made, number of containers of food were canned or preserved, how many pounds of meat were put in the locker, etc. Each member was also asked to bring two containers of canned food with label and name of person giving to help in the food drive for Boys Ranch. Every family in the community is asked to help with it.

The club voted to adopt an orphan child from the home in Portales. Mrs. S. C. Caldwell gave the council report. There were reports from two food demonstrators and one landscape demonstrator gave a report.

Mrs. Laurette Williamson gave a demonstration on "The type person and her colors." She told each lady's fortune y her favorite color. Those present were Mesdames Laurette Williamson, A. W. Copley, J. T. Shofner, D. R. Aylesworth, Ernest Holland, S. C. Caldwell, C. E. Briscoe, W. H. Awtrey, Kenneth Briscoe, Mack Hale, Byrel Wingo, W. M. Dudley, J. E. Day, and the hostess, Mrs. Dillard.

The next meeting will be at the home of Mrs. Mack Hale September 23, at 2:30 p. m. Each member is urged to be present for this meeting.

Muleshoe Fair Begins Friday A. M.

W. L. Koen Dies In Portales, N. M.

Walter Lee Koen, former resident of Muleshoe, father of Mrs. Julian Lenu of this city, died at his home in Portales, N. M., Sunday morning, August 29, after an illness of a week. He was 63 years old.

Mr. Koen had lived in Portales about six years. Before moving there he operated a drug store in Clovis.

He is survived by his wife, Martha Koen; two daughters, Mrs. Lenu of Muleshoe, and Mrs. E. C. Smith, Hagerman, N. M.; four brothers, John and Jack of Hamilton, Texas; Robert of Fort Worth and Ernest of Dallas; two sisters, Mrs. Elizabeth Rhodes of Hamilton and Frances Stevens of Silver City; Harley Davis, who grew up in the home, lives in Las Cruces. An only son, Harmon W. Koen, died in 1939 and Mr. Koen's first wife died in 1947.

Funeral services were held August 31, at 3 o'clock from the Wheelock Mortuary, Portales. Interment was in Clovis cemetery.

Men's Wear Store Opened This Week

Mr. and Mrs. Howard Elliott are back in business in Muleshoe. They have opened the Elliott Men's Wear in their building in a room just off Main Street, across from the bank.

They formerly operated the City Cleaners here for several years, selling that business to Charles Alsup a few months ago. Since that time they have mostly rested.

They have stocked their new store with men's apparel and will conduct an exclusively men's store. Their stocks will include several nationally known lines of merchandise.

The store is spick and span with entirely new fixtures. It is the first store to open in Muleshoe stocking men's wear exclusively, and is about the newest business enterprise in this rapidly changing, rapidly growing city of Muleshoe.

ASSOCIATION TO MEET

The twenty first annual session of the West Plains Baptist Association will be held with the Earth First Baptist church Tuesday, September 21.

Willeford Infant Died September 11

Lonnie Clifton Willeford, age 6 days, died September 11, at Green Hospital and Clinic. He was the infant son of Mr. and Mrs. Eugene Willeford of Muleshoe.

Funeral services were held at the Assembly of God Church Monday, September 13, and interment was in Muleshoe cemetery under direction of Muleshoe Funeral Home. He is survived by his parents, and the grandparents, Mr. and Mrs. C. E. Willeford and Mr. and Mrs. S. F. Crow, Muleshoe.

Tomato Shed Is Opened Here

J. W. Williams has opened a tomato shed in Muleshoe and will buy green tomatoes at the Millen potato shed, which he has leased. Mr. Williams comes here from Fort Worth.

The tomatoes will be sorted and wrapped at the shed here. Mr. Williams said he will buy from one bushel to a ton and asked that all who have green tomatoes they wish to sell contact him at the shed. He will not be in the market for ripe tomatoes, but said he will have ripe tomatoes to sell for those who wish to do home canning.

He bought the crop of 40 acres of L. B. Feugh, north of Muleshoe and was to begin harvesting the tomatoes in this field this week.

FIVE GENERATIONS

Mr. and Mrs. Leonard Atkinson and family recently visited relatives in the Muleshoe community. Their baby son is a great grandson of Mr. and Mrs. J. L. Atkinson, and is a great great grandson of Mrs. J. D. Hooser, mother of Mrs. J. L. Atkinson.

VISITING HERE

B. F. Lowry of Wellington, Texas, has been visiting here with Mr. and Mrs. Tye Young.

TO MEET MOTHER

Mr. and Mrs. Buford Butts went to Amarillo Saturday to meet his mother, Mary Butts of Shattuck, Okla., who will spend several weeks with them.

TO LUBBOCK

Mrs. Tye Young and son, Jack were in Lubbock Saturday.

FROM POST

Mr. and Mrs. Glenn Mathis of Post, have been visiting her several days with her parents, Rev. M. E. Robinson and with Mr. and Mrs. Loyd Roberts.

CROP Grain Milled Overseas

This German girl sacks cereal milled in Bremen from grain given by American farmers through the Christian Rural Overseas program (CROP). Thousands of additional widows, children, aged, and other needy will be fed by grain now being contributed to state food trains in Colorado, North Dakota, Oklahoma, and the Texas Panhandle. These trains are scheduled to be assembled between September 15 and 22. Other state trains will be assembled at Thanksgiving time. The CROP program is sponsored nationally by Catholic Rural Life, Church World Service, and Lutheran World Relief.

The Muleshoe Fair is all ready to go for two big days, Friday and Saturday of this week, September 17 and 18. All exhibits are to be in place by Friday at noon and the entertaining carnival is already going.

Judging of all crop exhibits will begin Saturday morning and run throughout most of the day. The local committee has been very fortunate in being able to obtain the excellent staff of judges.

For the community and individual crop booths, Dave Eaton, County Agent of Lamb County, will be the judge. Mr. Anderson, professor of animal husbandry at Texas Tech, will judge the livestock.

Anderson was a member of the first place livestock judging team of the Kansas City Royal, and also of the Chicago International livestock shows while attending Iowa State University.

Poland China gilts in the county agent's 4-H swine program will be judged at 10:45 a. m. Friday. All other livestock will be judged at 1 p. m. Friday.

Lee Christie, superintendent of the Fair, said virtually all booths and display space inside and outside of the building has been reserved by merchants, who will have something interesting for the people to view in addition to the Fair exhibits proper.

T. J. Tidwell shows are located near the main Fair building on the new school grounds.

Bud Taylor Wins Labor Day Classic

Mrs. Lucy Layne of Muleshoe, the proud grandmother, has sent The Journal a clipping, taken from the Albuquerque Journal about Bud Taylor's winning of the midget races held in the New Mexico city on Labor Day. Most everyone here remembers Bud, who was born and raised here.

Under the heading above the Albuquerque paper said:

Bud Taylor took home a sizeable collection of hardware from Cornet speedway last night.

The local midget king won trophies for topping all local drivers in season's standings and for winning the New Mexico championship thirty-lap main event.

The trophies were presented with appropriate ceremony. Taylor's feature race triumph was carried out in thirty laps of hotly-contested driving as 1200 fans roared.

Veteran Grocer Will Open Store

Jack King, veteran groceryman of Muleshoe, expects to open a grocery store soon in a building he is erecting on the Clovis highway, about three and one-half blocks west of Main Street and one-half block east of the John Deere house.

The building is 22x40 feet, of frame and stucco construction. It will have hardwood floors and the interior will be modern. He will announce opening date in the next few days.

Mr. King entered the grocery business here in 1929 and sold his store in 1941. Since that time he has been employed in other Muleshoe groceries excepting for a few months when he operated a store in Littlefield.

Back the Yellowjackets

Nearly every business house in Muleshoe is contributing to the program of the Muleshoe Quarterback Club for the members of the high school Yellow Jackets football squad. Officials of the club said Monday morning at the weekly breakfast.

However, not quite enough money is in sight to do all that is planned for the athletes as a gesture of appreciation for their efforts for the school and community.

Therefore it was decided to place the appeal for funds on a wider basis and to ask all in the district who are interested in the progress of the school and its students to

contribute if they like. The form below is being printed here for their convenience. If any one desires, he may fill in the enclosed blank (which is just like the business men have filled in) sign it and mail to the Muleshoe State Bank, which will draw the money and apply it to the proper fund.

The club will furnish a T-bone steak to the squad members after each game, played here or away from home. Then the club will take the boys to see a big time college game at Texas Tech as a special treat to them.

Fill out and mail the form below if you desire:

James Henderson Of Watson Community Passed Away Aug. 29

A cloud of grief and sorrow passed over the community Sunday morning, August 29, as word quickly spread that James Henderson was no more. James had a severe case of paint poisoning in 1945 in a war plant in California, from which he never ceased to suffer. Sixteen other persons were poisoned at the same time, of whom six died immediately.

James had undergone an operation Wednesday morning and gradually grew worse until the end peacefully came at 4:55 o'clock Sunday. Funeral services were held at 4 o'clock Monday, August 30, at Watson Baptist church with Ministers Hooker and Wright in charge. Duets by two women from Clovis with Mrs. Albert Ellis as accompanist were rendered.

Interment was at Littlefield. A very large crowd attended. A huge bank of flowers was a great tribute to the memory of this good man. The minister said that James had been converted some time back but had not made up his mind as to church fellowship yet.

James Franklin Henderson was born September 1, 1917, at Ralls, Texas, and died August 29, 1948. He would have been 31 years old in a few more days. He came to Bailey County when a very small boy. This has been his home ever since. He was married September 23, 1938, to Miss Naomi Fine. Three days later he had part of his hand cut off in a binder.

This kept him out of service when the war came along. He volunteered in almost every branch of the service. When he couldn't get in, he did the next best thing to help out and went into a war plant. When the war was over he came home and bought a farm and started farming in the Watson community, where he lived when the end came, ever enjoying his neighbors and friends.

He leaves his beloved companion; his mother, Mrs. Lily Scrimsher; grandmother, Mrs. Fannie Cox; three sisters, Mesdames Ola May Meadlin, Inez Harvey, and Joe Sherman; and a host of other relatives and friends to mourn his going. Out of community people attending the funeral services were: Odelle Henderson and wife, Muleshoe; Mr. and Mrs. Jim Fine, Dublin; Mr. and Mrs. Eob Hawey and son, Hughston, Kans.; Mrs. Leroy Sherman, Bainbridge, Md.; Mrs. Lily Scrimsher, Mrs. Clarence Allison, Mrs. Scott, and Mr. and Mrs. Foy all of Odessa.

Homer Kelley and family, Texico; Alert Kelley, Childress; Mr. and Mrs. Clyde Bell and family, Earth; Mr. and Mrs. Caud Cox, Petersburg; Frank Cox, Carter, Okla.; George Henderson, Portales, N. M.; Henry Kelley, Tanglewood; Mr. and Mrs. Paul Carmickle and girls, Amarillo; Mr. and Mrs. A. Baker and family, Merton; Mrs. Fannie Cox, Carter, Okla.; Mrs. W. J. Higgins, Matador; Mrs. Harmon Mills, Lockney; Mrs. E. R. Wittmer, Morton; Mr. and Mrs. T. L. Washburn and boys, Hale Center; Mr. and Mrs. Joy Luns and Johnnie Brooks, Lehman; Mrs. G. G. Christian and Mrs. O. J. Hamrick and son, Colorado City. All extend love and sympathy to the wife and relatives.

A good man has gone to rest. The reason we cannot now understand; We can only say "God's will be done." In such things we wouldn't take a hand. To know James was to love him. His smile will never cease to be missed; But we hope to someday see him Far beyond, in a land of bliss. —Contributed by a friend, Mrs. D. V. St. Clair.

ENTER COLLEGE
Arlo Farrell and Glen Tibbitts left Monday morning for Denton, Texas where they plan to enter North Texas College for the winter semester.

From where I sit... by Joe Marsh
"Farming" Versus "Ranching"
Talked to some editors who run my column in their papers—in states where there's mostly cattle and sheep raising—about the differences there might be between farming and ranching.
And they told me: "Joe, there's no real difference between cattle-men and farmers. We make our living from the land like your folks do; we have the same 4-H Clubs and Granges; the same problems of prices and marketing.
"When it comes to recreation, we have the same liking to get to-
gether now and then for a barbecue and a friendly glass of beer."
And from where I sit, that about sums it up. Ranchers may have different names for things or grow different crops. But all over America folks who work the land share those common traits of hard work, sober moderation, and good fellowship, whether they're growing cattle for beef, or barley for good American beer and ale.

He'll Wear Your Shoes, Some Day..
If you are 25 and your child is, say, 5 years old, for less than 20¢ a day you can assure him of \$4,000 if you are taken out of the picture—an adequate amount to send him through four years of college, to give him the know-how to compete in the world of business he will enter. There's a Southwestern Life plan to fit every age.

That's right, Dad—your son will wear your shoes some day. He may not succeed you in the business you're in—may not even go into that field at all. But he will be confronted with serious competition in whatever business or profession he enters. He will probably be confronted with all kinds of tax problems ... with all kinds of economic problems—perhaps weightier than any you face today.
Yes, he'll wear your shoes some day. Your economic shoes. And how well he wears them will depend upon how well he is prepared to face the world. You can guarantee him the educational opportunity to get ready for that day through Southwestern Life Insurance, and you can do it now, while he is young, at a cost lower than you ever will be able to assure his future with Life Insurance. An interview will not obligate you. So get a full description today of what you can do for that youngster of yours with Southwestern Life Insurance.

COLOR SYMPHONIES

You've read about the poll which selects the country's 10 best dressed women of the year—one from society, one from the state, opera, business, etc., and perhaps you've thought to yourself—"I, too, could be well dressed with the income those women spend on clothes." No doubt true. But remember that income does not govern good taste.

There are many things to consider when selecting a dress to supplement your wardrobe besides the amount of money to be spent. And we might well take a tip from some of the women who can indulge in the best of designer's creations. There's always the black dress or suit, so popular with women who go places and do things. It's so right for almost any occasion. Dressed down or up by an assortment of accessories, a black dress is woman's best friend. With it as the backbone of your wardrobe, accessories are the next important consideration. And right now, as summer dwindles into autumn, we suggest a bright pastel accent for this number. Lime is cool and refreshing when the August sun threatens to wilt everything in sight. And what could be more flattering for a luncheon in town than your black straw relieved with a soft lime colored flower or ribbon bow.

To complete the picture, what could be more enchanting than lime gloves? Best of all, these new accessories needn't cost you more than a pitance. For hat trimmings are inexpensive and those slightly grayed white gloves can be converted into a fresh lime color with all-purpose dye for the mere sum of 25 cents. Just remember to get all-purpose dye which works on all fabrics. Then whether your gloves are cotton, rayon or any other synthetic fabric you may be assured of a lovely even color and they will look like new.

A—Yes, until completion or termination of the course of instruction and so long as you continue in a regular reserve status upon being commissioned. But you are not exempt from registration.

Q—I am a member of the Naval ROTC and have entered upon the junior year, or am a midshipman, United States Naval Reserve. Am I deferred from induction?

A—Yes, until completion or termination of the course of instruction and so long as you continue in a regular reserve status upon being commissioned. But you are not exempt from registration.

Q—I am a fully qualified and accepted aviation cadet applicant of the Army, Navy, or Air Force, and have signed an agreement of service. Will I be deferred?

A—Yes, if so designated by the Secretary of Defense, for the period covered by the agreement, but not to exceed four months. You must register.

The Great Corn WITH STRONG VITALITY

3 in 1 WEATHEROMETER
 With Every Early Order for 5 to 7 Bushels

This valuable farm companion not only measures the rainfall—it registers the outside temperature and it is equipped with a barometer which shows when the weather is going to change. Made of enameled metal with glass indicators firmly attached. Ready to attach to a post top in the open where you can watch it.

POCKET KNIFE
 With Every Early Order for 7 to 10 Bushels

Here is the kind of knife every farmer wants but often doesn't get around to buying for himself. Fine cutlery steel in the blades that stay sharp a long time. Strong blade springs and a simulated pearl handle give you a knife you'll get a lot of use out of.

Isn't Just Water...

The 19 or 20 inches of rainfall we expect (and sometimes get)
here each year does more than just make folks slap mosquitos.
It gives the plants a drink and also gives them a boost with about
5 pounds of readily available nitrogen per acre—if the rain
is held on the land. This is equivalent to about 31 pounds of ni-
trate of soda.

Get the most benefit of your rainfall by contour farm-
ing. Your Blackwater Valley Soil Conservation District
will help you for the asking and we will help you with
your financial needs.

ENGINES FOR EXTRA ARM POWER AND PROFITS

Maybe it will pay you to replace that old engine or power unit with a dependable, economical MM Twin City Engine—or it may well be that an extra MM Engine or Power Unit will pay you extra profits through extra earnings and more work done on time and in season. Get complete facts from your MM dealer. MM Power units are soundly engineered and ruggedly constructed to give you economical dependable service. Lower engine speeds insure longer life. Minimum service requirements provided for by easy accessibility. Pressure oiling system... precision bored cylinder blocks... high torque combustion chamber with controlled cooling... carburetion equipment for gasoline, natural gas, Butane, or distillate. Many other exclusive features make MM Power Units ideal for a variety of:

FARM USES

Power bar balers, combine, threshers, engine cutters, feed mills, corn shellers, flume cultivators, peanut hullers, potato diggers, visers, cutting wood, lopping, sprayers, dusters, booster pumps, sprinkling systems, generators, sheep shearing, conveyors, elevators, blowers, belt loaders, etc. Manufactured in seven sizes: 20 H. P. to 225 H. P. Invertigate now while MM Engines in several sizes are available.

now making preparation to seed 632 acres to alfalfa this fall and 517 acres to improved pasture.

These farmers are now engaged in land preparation, leveling, and floating and are requesting assistance through the District for borders and ditches in order that these crops may be watered to the best advantage. It is recognized that since these crops will remain on the land for five or six years that thorough preparation for water distribution before the crops are planted is of the utmost importance if satisfactory yields are to be obtained. This preparation before planting will save many hours of back-breaking work with a shovel after planting if the preparation is not done before-hand.

It is being requested that since the technician's time is being taxed to the limit because many farmers want their assistance at the same time that you anticipate your needs for this assistance and make your requests a few days ahead of your need in order that you may not be disappointed and may be able to proceed with your planting at the time you desire to do so.

Soil Building And Cover Crops

A great number of cooperators have indicated their intentions to plant a part of their farms to winter legumes primarily as soil building crops. Hairy vetch may be planted following the combining of grain sorghums. This may be drilled into the sorghum stubble immediately after combining. A nurse crop of winter oats, rye, or wheat should be planted with the vetch to protect it from the wind. This crop may be turned under about the first of April and followed by a crop of sorghums or cotton in the spring. Your soil will benefit by the protection afforded by a cover during the winter and early spring from damage by blowing, and at the same time you will be adding needed organic matter and fertility to the soil. Be sure to inoculate the seed before planting.

You will want to be looking around for your seed in order that you may be prepared when planting time comes.

Your Home

By Frances Ainsworth

My niece, Sally, a recent bride, had a terrific time finding a place to live. She finally found a small house, but it was old and needed fixing, and Sally's budget was slim. So Sally, Bob, her husband, and I got together, and in a few hours time our results were amazing.

The kitchen and bathroom, in particular, were badly in need of modernization. We encased the old fashioned tub and the homely sink with linoleum covered plywood, which gave them a "new look". We made it a truly professional job by using chromtrim metal mouldings to finish off the edges and corners. I've used chromtrim many times in dozens of ways to brighten up our home. It's wonderfully modern in appearance and simple to apply because it bends easily and is readily cut with a file or hacksaw. When you corner a wall, shelf, or table, it's so easy to trim it yourself. There are eight different shapes of metal, each with a specific purpose—easily applied with little nails that come with it.

The major problem was the antique stairway. We brightened the hall with white woodwork and colorful wallpaper, but the stair treads presented a hazard because of the danger of tripping. Chromtrim solved the problem. We nailed a metal strip on the edge of each stair and found that each strip has a knurled finish so that it grips the foot and prevents slipping. The cellar stairs after a good scrubbing, were also finished with the gleaming metal and we were delighted with the results, for the chrome picked up any bit of light and reflected it for an extra safety measure.

They've a lovely, modern-looking home now, and a good deal of the success and simplicity with which it was accomplished, was due to this marvelous metal trim. It's so easy to use.

CONRAD WILLIAMS AT HAM OPERATORS MEETING

Conrad Williams last week attended the annual International convention of "Ham" operators, held in Milwaukee, Wis. Mr. Williams, farmer of the southwest part of Bailey County, gets lots of diversion from operating his amateur station. He has been a licensed operator several years.

He made the trip in his Stinson airplane, and Mrs. Williams' mother, who never had been in an airplane, flew back here with him for a visit.

VISITED HERE

Mr. and Mrs. A. C. Bray of Oklahoma City, Mrs. Blackburn's mother and father, were guests in the Horace Blackburn home several days.

NEW LIBRARY BOOKS

Among the new books at the Muleshoe Public Library is "The Sky and the Forest" by C. S. Forester. Mrs. E. R. Wright, librarian, gave a resume of the book as follows: This is the story of a man who also was a god. In the beginning Loa was all powerful in his native village. Then came Arab raiders, killing and enslaving the village, and forced Loa to realize he was only a man. The change was made bearable by his wife, Musini, who continued to worship him as a god.

The new Jungle Books, Vol. 1 and 2, by Rudyard Kipling also are now in the library shelves for the youngsters to enjoy.

MONDAY IN LUBBOCK

Mr. and Mrs. Horace Edwards and son, Gary, and Mrs. F. B. Pierson spent Monday in Lubbock.

Our Policy on PONTIAC Deliveries and Prices

Despite the fact that Pontiac has built over a half-million cars since the resumption of production after the war, demand still exceeds supply. In the face of this production record, those who place orders now will still experience some delay in delivery. If you

are among the many people who feel that Pontiac represents an outstanding value—and wish to order a Pontiac for future delivery—you will be interested in the following policy on retail distribution which we, as Pontiac dealers, will observe:

WE WANT YOUR ORDER

And the sooner you place it, the sooner you will get delivery. So if you want a Pontiac, order it now.

WE WILL ESTIMATE DELIVERY DATE

Due to conditions beyond our control, we cannot give you an exact date of delivery. But based on anticipated future shipments from the factory, we will, when you place your order, give you an honest estimate of when you may expect your car. Such estimates will be reviewed any time on request.

ORDERS FILLED BY PRIORITY

A definite proportion of the cars we receive from the factory is set aside for preferential delivery to users whose work is in the public welfare and to others with certain occupational requirements. Otherwise, all orders will be filled on the basis of the time when they are received.

YOU PAY ONLY OUR ADVERTISED PRICE

Due to changing economic conditions, we cannot, when you place your order, tell you exactly how much the car will cost when delivered in the future. But, at the time of delivery you will be charged only our advertised price on your model—which will be shown in a published list of local prices.

YOU SPECIFY ACCESSORIES

While most of our customers order their cars equipped with accessories, we do not force accessories as a condition of sale. You specify accessories you want when ordering your car, these are the ones (and the only ones) it will be delivered with. Some items may be lacking due to current shortages; but none will be added.

REGARDING TRADE-INS

Naturally, if you have a car to trade, we will like to have it in order to take care of our regular car customers. Our appraisals are fair, based on current conditions. But if you do not have a car to turn in, we still want your order and accept it for delivery based on the conditions lined above.

Since this is our "home town", our business and its future is based on our good relations with the people of this community. We are most happy that so many people here—as all over the country—have made Pontiac their number one choice as a new car.

Nothing pleases us more than to turn over the keys of a new Pontiac to one of the many people whose orders we have, because we know they have chosen well—for Pontiac is always a thoroughly good car, and a thoroughly good value, this year, next year, any year.

Protect Their Sight Too!

Better Light means Better Sight

Protection from traffic hazards is important, but just as important today is protection from eyestrain due to improper lighting.

Growing children need more care than older folks when it comes to making sure that the light is right. Their eyes, still developing, need every bit of care and attention they can receive.

Make sure, wherever children work or play, that the light is right. Low cost electricity makes it easy — and economical too — to provide GOOD lighting — always.

Brown hay is the result of excessive heating when the hay is stored with a high moisture content.

Don't Need Meat
Sportsmen anglers catch an estimated 260 million pounds of fish each year.

Iowa has 315 public libraries, 43 daily and 439 weekly publications, 28 commercial and four non-commercial radio stations.

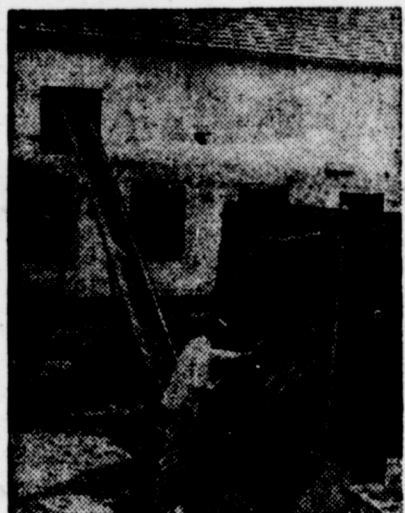

Elevator Will Serve Many Uses on Farm

Conveyors Eliminate 'Back-Breaking' Chores

Elevators are becoming as common on farms as they are in city department stores. They are, however, of a different kind—and not used for the same purposes. Unless, of course, city stores have started conveying farm produce from the sidewalk into ninth or tenth story "mows."

Farmers began to think seriously about elevators and conveyors during the last war, and they've been doing something about them ever since. Many built their own equipment. Others bought commercial models. The source matters little—it's what they can do that counts most.

All-purpose elevators, either portable or stationary, are capable of elevating to desired heights baled, chopped or loose hay, ear corn,

root crops, shelled corn, ground grain and forage. Chopped hay is being elevated in the accompanying illustration.

They do these "back-breaking" chores easily, and all day long without complaining. However, before you build or buy an elevator be sure you know for what it is to be used. That knowledge will determine the size and type best suited for your needs.

Costs of operation vary somewhat, but, in general, farmers can figure on it taking from 1/10 to five kilowatt hours of power to elevate 1,000 bushels of grain with an elevator, run by a five horsepower motor.

Small Farm Units Are Big Implement Buyers

Two-thirds of the one and one-half billion dollars being spent for agricultural implements this year is being expended for small one-family farms, according to a recent survey of the Anti-Friction Bearing Manufacturers' association.

For the first time the small farm operator, who owns 6 per cent of the country's total farm acreage, will be the biggest customer for automatic labor-saving implements.

The low ebb of farm labor as well as the increase in farm savings has been responsible for the mechanization of the smaller farms.

One outstanding result is that by 1950, it is estimated that four million farms will produce 33 per cent more than the total production of six million farms before the war.

Plastic Lily Pond

Koroseal or plastic lily ponds make it possible for the farmer as well as the city dweller to have a lily pond without the expense of building a stone or concrete basin. The plastic pond may be emptied, folded up and brought indoors and stored during the winter months. The pond also may be used as a wading pool for children or as a duck pond.

Weevil Damage in Grain Traced to Unclean Bins

Prevention of weevil damage to the new crop is possible if the granary is cleaned and sprayed with DDT. Nearly all cases of "weevily" grain can be traced to unclean bins, according to Purdue university entomologists. Any infestation which occurs likely will come from insects which remain from year to year in the grain and can be prevented by proper cleaning.

Uncle Sam Says

Regardless of the heat wave, you can't afford to be lazy about your future, because the future holds for you what you hold for the future. Ben Franklin didn't make this statement, but any United States Savings Bonds payroll saver who works with you could claim this bit of advice as his or her own. All he has to do is sign his name once on the card for the United States Savings Bonds payroll savings plan. His employer does all the rest. Three dollars saved through the payroll savings plan get Mr. Summertime Lazybones four dollars 10 years hence.

Waters in Idaho

The Snake river is the most prominent river in Idaho. Rising in Yellowstone park, it winds its way through the state until it empties into the Columbia. Shoshone Falls, with a drop of 210 feet, exceeds the height of Niagara Falls. The four largest lakes in Idaho are Priest, Pend d'Oreille, Coeur d'Alene and Bear. The mighty Snake river has been referred to as the "Idaho Nile."

CLASSROOM CLOTHES NEED SOME FIGURING BY MOTHERS

College Station.—For many Texas kids this is back to school week. Some returned to the classrooms last week. But whether it was this week or last, mothers of school age children have to figure out what to clothe their youngsters in.

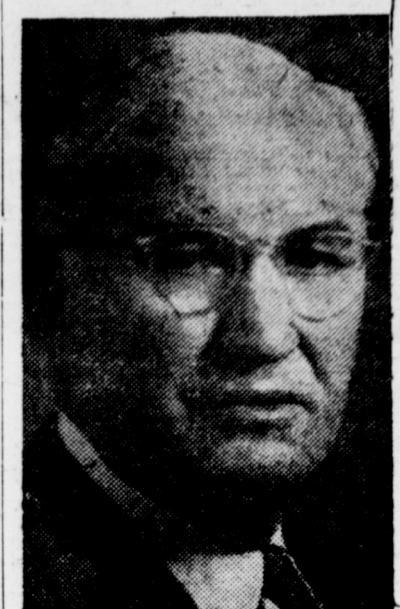

Nena Roberson, associate extension clothing specialist of Texas A.

and M., says the clothing problem is just as big for mothers of little tykes not yet in school.

Neglected His Work

William Wordsworth, who was poet laureate of England for seven years, did not write a word in connection with his official post during that time.

Trumanite

Howard Dailey heads a Dallas delegation loyal to Truman and the party, which will contest seating at the Democratic state convention in Fort Worth of a Dixiecrat group, which was officially seated at the Dallas county convention. Dailey, one of the state's most able lawyers, believes, he said, that the Truman-Barkley ticket will win in November.

Q. What is the name of this cut of meat?
A. This is a beef arm steak.
Q. Where does it come from and how is it identified?
A. The arm steak is cut from the chuck or shoulder section of beef, as desired. It contains the distinctive round arm bone, which is also present in the arm-bone pot-roast, and usually contains the ends of the ribs.
Q. How should this cut be prepared?
A. The arm steak belongs to the family of good braised steaks, so should be cooked with a small amount of liquid. Dredge (dip) the meat first in seasoned flour, then brown it slowly and thoroughly in 2 to 4 tablespoons fat. Add a small amount of liquid, cover the pan closely and let the steak cook until tender, about 1 hour. Different flavor effects can be achieved by various cooking liquids for the steak, such as water, tomato juice or pulp, vegetable juices or liquids, or sour cream.
