Volume 27, Number 7

MULESHOE — County Seat of Bailey County — TEXAS

Thursday, February 10, 1949

Mr. Muleshoe ...

By Forbes

"Give 'em a blast," said my enterprising young business man friend, "about the necessity for a paid chamber of commerce man in Muleshoe."

Well, a hustling young man who could devote his entire time to attending to everybody's business would have plenty to do here and could do us a world of good.

To begin with, however, may we just point out some of the considerations. First the man must be a go-getter, acquainted with civic and chamber of commerce work, a good mixer, must attend all meetings, etc., get along with all business men and public officials, must be willing to work at all hours, and look out for the commercial and industrial possibilities of the town and community. Do you have in mind such a man who is not already employed to his satisfaction?

Then on the merchants' part, they would have to furnish a salary of \$300 to \$400, plus automobile and office expense, because a good man would expect such a salary. We agree that it would be desirable and are willing to contribute each month to the salary of a commercial secretary.

There is a possibility that some young man is only partially employed, or could so arrange his job that he could work part time; this seldom works out, but might be an idea.

Then another sterling citizen hops this column out about the lack, very nearly total lack, of sidewalks in Muleshoe. The recent spell accentuated that lack. Even if one lives on a paved street, or paved highway, he is forced to walk in the middle of the street or highway to reach his work down town.

This column has called attention to our backwardness in this matter a number of times in the past, and ye editor is surprised that it didn't produce action.

Another bright citizen got the slow turning cogs of his mind rolling and produced the idea that the city commission could pass an ordinance requiring that all residences built in the city limits in the future have sidewalks laid at the time of building. He said the cost would be very little more if the work were done at the time the home is built, in comparison to the boost it would give the home both in comfort and in appearance. Then, he said, the rest of us would be embarrassed if we failed to build sidewalks around our older homes.

This writer is hardly in position to rail at the citizens for not building sidewalks, for he has none around his own place, but he sure approves of other people's building them around theirs. If just one main residence street had sidewalks, however, it sure would add to the convenience of pedestrians and it sure would improve the looks of the said street and the homes thereon. Sidewalks also add to the air of permanency in a town and thereby augment real estate values. This column is not asking that the people take action—let's just think about it for a while.

But it just seems sometimes that we have so many things that need to be done in Muleshoe that we hardly know where to start. You can't build a town in a day, we know, but you can do what you can, you can do one small thing, then tackle another.

Now if some bright gentleman or lady will come up with an idea that will induce the telephone company to give us a modern telephone system in Muleshoe, this column would be in favor of pensioning said person forever. Muleshoe has the worst telephone system in Christendom, not only in the U. S. but in Christendom. The local employes do a magnificent job of giving us service, considering that the local switchboard must have been one of the experimental models built before the turn of the century. The people of Muleshoe have written letters, held meetings, interviewed top company officials, threatened, in fact they have done everything except cussed. Does anybody have an idea?

TO CLOVIS

Mrs. A. J. Gardner and Mrs. F. B. Pierson spent the day in Clovis Monday.

VISITED IN PIERSON HOME

Mr. and Mrs. Bill Pierson of Lubbock spent several days last week with his parents, Mr. and Mrs. F. B. Pierson.

RETURNED FROM AUSTIN

Mr. and Mrs. Willis Farrell and Alvin Farrell recently returned from Austin where they visited Mrs. Alvin Farrell.

C. W. Williams Funeral Rites Held Wednesday

Charles W. Williams, 79, long time resident of the Muleshoe country, died at a Sulphur, Okla., hospital Monday night, February 7, after a long illness.

Mr. Williams moved to this county in 1929 from Sulphur, and returned here in January, 1948. He was born Dec. 27, 1869, in Walker County, Ala.

He is survived by his wife, Mrs. Eva Williams, of Sulphur; two daughters, Mrs. R. C. Lewis, Sulphur; and Mrs. R. Klutts, Muleshoe; three sons, Conrad and Glen Williams, Goodland, and Scott Williams, Muleshoe; twelve grandchildren and two great-grandchildren.

Funeral services were conducted at 3 o'clock Wednesday afternoon at the Baileyboro Baptist church by Rev. Vernel J. Lorraine, of Tahoka. Interment was in Baileyboro cemetery under direction of the Muleshoe Funeral Home.

Pallbearers were Tayne L. Shelby, Charlie Phipps, Cecil Cole, Clinton Bristow, W. B. Wagon, and W. H. Gammon.

Rev. M. D. King Dies At LeFeria

Rev. M. D. King, well known in the Muleshoe country, the former pastor of Y. L. Methodist Circuit, died in LeFeria, Texas, his home, Saturday night, according to messages received here by Mr. and Mrs. W. T. Miller, of Y. L. community. It was said Rev. King was ill only about 24 hours. Death was ascribed to heart disease.

Rev. King preached at Y. L. and farmed in the community, leaving here about two years ago in the hope of improving his health. He had been farming there, although he had preached some, too.

He is survived by his wife and the following children: M. D. Jr., Mrs. Dorothy Beller, Mary Frances (now married), Clifton, and Wayne. All went to school in Muleshoe.

Funeral and burial services were conducted at LaFeria Wednesday.

GROCERY CLOSING OUT FRIDAY AND SATURDAY

H. O. George, proprietor of George's Grocery located near the roadside park on Clovis highway, announces he will close out his stock of groceries Friday and Saturday of this week at wholesale prices.

The world's record Marlinswordfish (weighing 1,040 pounds) was taken by Zane Grey in 1930 off Tahiti.

BAILEY COUNTY LIVESTOCK WIN TOP PRIZES

Happy Birthday Scouts, Cubs and Seniors! The above four Scouts representing the entire Scout Movement of the South Plains Council, Boy Scouts of America extend their greetings to all members of the Scouting Program on the 39th Anniversary of the Boy Scout Movement in America. The boys pictured, left to right are James West, Cub Scout, Pack 1, Roscoe Wilson School; Earl Dietering, Jr., Boy Scout, Troop 10, Knights of Pythias Lodge; J. G. Cash, Air Squadron 16, Rotary Club, Post, Texas; Bill Griggs, Explorer Post 10, Knights of Pythias Lodge, Lubbock. These boys represent the 3381 Cubs, Scouts and Seniors in the 20 counties in the South Plains.

St. Clair Buys Out Store In Andrews

Andrews is the site of another St. Clair Variety and Department Store. Irvin St. Clair, of Muleshoe, proprietor of St. Clair Department Store and Variety announced this week the firm has purchased an old established variety store; the Allen Variety, at Andrews.

He said additional building will be erected and soon a dry goods and clothing department will be added. Pat Bulloch, brother-in-law of Mr. St. Clair, who has been with the local store has gone to Andrews to become manager of the new business. Mr. and Mrs. Bulloch have already moved to Andrews.

Annual Red Cross Drive Is Planned

Lloyd Roberts has been named Bailey County chairman for the annual Red Cross fund drive, which begins over the nation on March 1.

This week Mr. Roberts announced selection of district chairmen as follows: Mrs. Charles Lenua, Muleshoe residence section; Tye Young, Muleshoe business section; and Ed White, rural chairman.

Further notice of the drive will be published in the paper in other issues before the beginning of the campaign.

The church to which most people belong is the seven-day abstemious.

Millsap And Robertson In New Building

Homer Millsap and Ardell Robertson, composing the firm Millsap & Robertson Garage, are extremely proud of their new business honey just completed and occupied by them on their lots located on Plainview highway, about two blocks north of the King Bros. Elevator.

The new building, erected by Doc White, is of brick and tile, 26x60 feet in dimensions. The floor is concrete, the ceiling is high and a large area devoted to plate glass assures an unusual amount of light in the work rooms.

Mr. Millsap has been repairing automobiles in Muleshoe the last eleven years, the last several as his own boss. Three years ago he and Mr. Robertson formed their present partnership, and they have been doing business on the Clovis highway.

They are branching out by installing a complete parts department, including a boring bar and hydraulic press. A Sun testing machine is yet to arrive. Gasoline pumps will be installed in front of the building in the near future and the garage will sell Mobilgas and all brands of oil. They also will fix flats.

Pierson Buys First 1949 Tags

On Monday afternoon of this week Mr. F. B. Pierson of Muleshoe purchased the first set of 1949 automobile tags in Bailey County.

His tag number was A L 1750. The numerals are black on an orange background with "TEXAS" in smaller black letters below the numerals.

The 1949 tags are about the same size as the 1948 tags with the color scheme reversed. Last year the tags were black with orange numerals.

Jack Heald And Ernest Ramm's Entries Champions At Fort Worth

By J. K. Adams, County Agent
The record number of livestock exhibits at the Southern Exposition and Fat Stock Show in Fort Worth from Bailey County also turned in a smashing performance in prize winnings and cash sales.

High points in the winnings included Jack Heald's winning the coveted Grand Champion over all breeds in the fat barrow show and Ernest Ramm's Champion litter over all breeds in boys club division.

In the open competition we were happy to see J. G. Heald and make practically a clean sweep the strong Poland China show in the gilt division, the Healds won first, second, third, seventh in a class of over fifty gilts. In the litter class, Jack's first money while his father's first in the breeder-feeder group which consists of a male, a female, and a fat barrow from same litter. The Ramm's also second in heavyweight Hampshire barrows, third and fourth medium and third and fifth lightweight Hampshire barrows.

Included in the thirty-three h of livestock in the show he Bailey county was a very fitted exhibit of seven head Polled Herefords from the Le Bros. herd located three miles of Muleshoe on the Plainview highway. Dr. Lewis, showing a class of some forty bulls from top herds in the nation came with a seventh prize. The doct bred an handicapped seriously it was most likely the young bull in the class.

The fat barrows sold at a tion Friday for a very nice premium over the Fort Worth market. The Heald champ sold for \$1.10 per pound and the Hampshire, fed by Ernest Ramm and winner of champion litter of the show sold for 31 cents per pound. Robert Giles won second and third in the Poland division and was beaten by none other than a champion exhibited by Jack Heald.

Among grown ups at the show from Bailey County were J. Heald, Dr. A. E. Lewis, J. K. Adams, Ernest Ramm, and Alf Ramm.

The Healds brought back the prize winning gilts and will them in the annual Poland Ch sale to be held in Plainview Sunday, February 12.

Masons Planning Special Services

Muleshoe Masons are planning a special George Washington memorial service at the lodge hall the night of the anniversary of his birth, February 22.

A committee, composed of Morris Childers, Marion F. Harris, Bud Holdeman, and W. E. Young met Wednesday morning to select a local and out of town speaker for the program.

A fee will be served lodge members and out of town visiting Masons, and in addition one Master Mason degree will be conferred.

Guy Daughtrey of Clovis and Olton, well known Mason of this territory, has accepted the invitation to address the lodge with the subject "Life and History of George Washington as a Mason." Rev. T. G. Craft will give the introductory remarks.

E. L. Mills Breaks Hip In Fall On Ice

E. L. Mills, of Snyder, Okla., father of J. E. Mills of Muleshoe, had his hip broken when he fell on the icy ground at his farm home Monday of last week. He is under treatment in a Fort Worth Hospital. Mr. and Mrs. J. E. Mills have been with him there.

C. C. Griffiths Donkey Caretaker

Clifton Griffiths was the lucky Jay to be allowed to care the donkey this week. When the donkey was called at the meeting Monday night, Clifton was missing. His name was drawn first, Willie Green will get to care the animal next week. Chief Johnson, brother-in-law of Griffiths delivered an impassioned plea in half of the absence, but the p fell upon deaf ears. Clifton the donkey.

After the meeting, when boys went to get said animal, the Bill Case establishment, being custodian the past week the burro was gone. He had loose.

Said Sir Clifton: "I don't give hang if they never find that (*?*) D—Donkey."

The donkey is being used the boys to stimulate attendance at their meetings.

It was announced at the meeting that several names for donkey had been submitted in naming contest announced in last week's Journal.

A matter brought up and considered pro and con by the Cegs is the idea of hiring a time man for chamber of commerce work in Muleshoe. It will be heard on this subject the coming weeks.

The Cegs announced they had bought wrestling ring, will soon begin a series of wrestling matches in the local gymnasium.

Representative Asks Citizens To Voice Opinion Of The Ground Water Bill Now Up For Legislation

A copy of the District Ground Water Bill, recently introduced in the Texas Legislature, has been furnished The Journal by Rep. I. B. Holt of this district. Holt is anxious that the people of this district read the proposed law and report their opinions to him. Simply address him thus: Rep. I. B. Holt, House of Representatives, Austin, Texas, and give him your reaction to the legislation. The bill as proposed follows:

A Bill To Be Entitled

AN ACT to provide for the orderly development, conservation and use of the underground waters of this State; declaring the public policy of this State with respect thereto; providing that it shall be the duty of the State Board of Water Engineers to designate groundwater basins and subdivisions thereof, and to alter the boundaries thereof; amending Chapter 25, Acts of the Regular Session of the 39th Legislature of Texas, 1925, by adding thereto Section 3c providing water control and improvement districts hereafter created may include in their purposes and plans the development, conservation, control, preservation, protection, recharge, distribution and use of the underground waters within their boundaries; prescribing the rights, powers, duties and functions of such districts; providing that no petition for the creation of such a district to exercise such rights, powers, duties and functions shall be considered unless the territory included in such proposed district shall have been theretofore designated as a groundwater basin

or a proper subdivision of a groundwater basin; providing that directors of all such districts shall be selected by precincts; providing that Section 4a of Chapter 25, Acts of the Regular Session of the 39th Legislature of Texas, 1925, as added by Chapter 107, Acts of the 1st Called Session of the 40th Legislature of Texas, 1927, shall not apply in the exercise of the powers, privileges and functions conferred by this Act; providing that districts proposing to issue bonds for sole purpose of carrying out one or more of the powers, privileges and functions conferred by this Act shall not be required to submit plans to, and secure the approval of, the State Board of Water Engineers as required by Section 139, of Chapter 25, Acts of Regular Session of the 39th Legislature of Texas, 1925, as amended, and in addition thereto shall have and are hereby authorized to exercise any one or more of the following powers, privileges and functions:

(1) To develop, control, preserve, recharge and protect the underground waters within the boundaries of the district for all beneficial purposes and to construct and operate waterworks and to use, distribute and sell underground water for any such purpose or purposes.

(2) To provide facilities, and approve the provision of facilities,

able, to designate groundwater basins and subdivisions thereof, and as future conditions may require and factual data justify, to alter the boundaries thereof.

Section 3. That Chapter 25, Acts of the Regular Session of the 39th Legislature of the State of Texas, 1925, be and the same is hereby amended by adding thereto Section 3c, to provide as follows:

"Section 3c. Water control and improvement districts hereafter created may include in their purposes and plans the development, conservation, control, preservation, protection, recharge, distribution and use of the underground waters within their boundaries. To accomplish these purposes such districts shall have all, and fully, the same powers, and rights of procedure, financing, construction, maintenance, rehabilitation, recharge, operation and administration, as now, or hereafter may be, conferred by Section 59a, b and c of Article XVI of the Constitution of Texas and by Chapter 25, Acts of the Regular Session of the 39th Legislature of the State of Texas, 1925, as amended, and in addition thereto shall have and are hereby authorized to exercise any one or more of the following powers, privileges and functions:

(1) To develop, control, preserve, recharge and protect the underground waters within the boundaries of the district for all beneficial purposes and to construct and operate waterworks and to use, distribute and sell underground water for any such purpose or purposes.

(2) To provide facilities, and approve the provision of facilities,

for the diversion of underground waters within the boundaries of the district, to provide or approve the provision of facilities and reasonable regulations for the diversion, delivery, and control of such waters, to the end that the quantity of such waters available for diversion and use, and whether improvements, development and recharges are needed, and further to determine what improvements, developments and recharges, if any, are required.

In this connection districts may cooperate with other districts and agencies State and Federal, as well as any State or Federal institution.

(4) To control within its boundaries, the location, method of drilling, casing and finishing of wells to the end that there may not be waste of underground waters and to require the return (where feasible) of excess of unused water to the underground strata from which it was taken and require its original purity before it is returned and further to prevent pollution or harmful alteration of the character of the

water in one stratum of the earth by means of water or other deleterious matter, which might be admitted from some other stratum or from the surface of the ground.

(5) To formulate and promulgate rules and regulations for the development, conservation, regulation and the prevention of pollution and waste of underground waters within the boundaries of the district; to provide for the issuance of permits for the construction of wells when the issuance of such permits is necessary or incident to the enforcement of its rules, regulations, or orders for developing, conserving, protecting, preserving distributing and using the underground waters within the boundaries of such district and preventing the waste thereof. Provided that the provisions of this Section shall not apply to wells with a capacity of not more than 30,000 gallons per day for domestic purposes. And provided further that the provisions of Section 4a of Chapter 25, Acts of the Regular Session of the 39th Legislature of Texas, 1925, as added by Chapter 107, Acts of the 1st Called Session of the 40th Legislature of Texas, 1927, shall not apply in the exercise of the powers, privileges and functions conferred by this Section.

Provided further that in controlling the location of any well, practical spacing of wells shall be required to the end that the use of one well will interfere least with other wells and other potential well sites; provided, however, that such controlling of spacing (Continued on page 10)

COTTON vs. GRAIN SORGHUMS

The next few weeks is a time of fateful decision on the part of growers in the Muleshoe country. We constantly hear rumors that this territory, following the trend that is reported everywhere, will "turn to cotton" this year because of the favorable price support situation. Perhaps farmers already have made their plans as to which field to plant to what crop and it may be almost too late to change.

The Journal is vitally interested in this situation. We hope for a continued balanced farm program because we have seen what happens when a territory turns solely to a one crop proposition. We would regret to see needed grain sorghum acreage sacrificed to cotton because of the price situation. However, we realize farmers are doing what they are doing because they want to make money.

But for the welfare of the territory in the long pull we believe a balanced farm program will be best, especially do we believe that livestock has a place in the farm economy of this Plains region. There is absolutely no question that this territory is admirably suited to livestock growing, with its opportunity for permanent pastures, cheaply grown feed, and sometimes wheat grazing. The territory is getting into the habit of having a cash crop coming onto the market every now and then instead of just one time a year.

We also fear for the land should the country "turn to cotton," for last autumn's wind played hob with cotton fields and the wind will come again.

Congressman George Mahon, in an article published in last week's Journal, gave a summary of the situation as it can be seen from Washington, and if you haven't read it, we believe it would be worthwhile to look up the paper and learn more about the problem.

FIGHT FOR WEST TEXAS WATER

Fight for West Texas water will be taken to Austin it has been announced by John D. Mitchell, Odessa, president of the West Texas Chamber of Commerce, which this week blasted 17 amendments to the new water code proposed by the Texas Water Conservation Ass'n.

Representatives of the organization will spend most of this week in Austin girded for the fight they will make on the passage of the new code, unless amendments are accepted which will guarantee recovery and prior water rights for domestic purposes in the West Texas area.

In a statement issued by WTCC Manager D. A. Bandoen and members of the legal counsel of the Municipal Rights committee an analysis of the proposed surface water code is offered, in which it is pointed out contradictory features of the bill, as well as making nugatory present prior rights of municipalities. The statement, made to Mitchell and Mayor Lawrence Hagy of Amarillo, chairman of the WTCC Municipal Legal Water Rights Committee, took up the proposed code section by section and listed the 17 objectionable points, offered criticism and an amendment to replace them.

Previously the group had only attacked Sec. 13, J. E. Sturrock, general manager of the TWCA had indicated a willingness to compromise on this issue, but when the WTCC committee studied the measure fully, the additional objections were raised.

In doing this the group urged the adoption of an engineering formula.

"When we find our Texas cities ranging in water appropriations from one-eighth acre foot per capita to approximately 10 acre feet per capita, a procedure enabling this sort of inequality is against the public welfare, and it is time for Texas to arrive at and formulate an equitable formula for distribution and appropriations of its water," the statement said.

"The available runoff of water in any region or locality is a determinable factor. In giving away the rights to property of the state, namely water, why not therefore allot water in accordance with its available supply and with the present and potential needs? In this way, it is felt better distribution of our scarce water resources can be made to all communities and projects in Texas."

CASH INCOME DROPS

Farm cash income in Texas for 1948 declined 12 per cent from the peak of 1947. The decline in 1948 income represents principally the drop in crop prices, for despite the continued high level of national income and the strong foreign demand for American agricultural products, the record crops of the past three years are at last beginning to be reflected in declining prices. The production of farm products since the end of the war has been greater than in any previous three-year period. Farmers have sold these products at prices that average the highest on record, and farm income, in these three years has consequently been the greatest in the history of the State.

Cowden To Speak To Coop. Members

LEONARD F. COWDEN

AMARILLO, Feb. 7.—Leonard F. Cowden, Executive Vice-President of Consumers Cooperative Associated, and one of the outstanding farm leaders of the state, will be the principal speaker on the pro-shareholders of Consumers Cooperatives Associated held in Dallas at the Baker Hotel on February 14-15. This annual convention is the official observance of Texas Farm Cooperative Week proclaimed by Governor Beauford Jester.

"Farm cooperatives are pointing the way to better farming and a stronger agricultural economy," Mr. Cowden states. "Through their cooperation with their fellow farmers, members of farm cooperatives are building an integral business system that will serve and save for them."

Hoover Report Is Best Seller

The Hoover Commission reports on the reorganization of the executive branch of the government are fast becoming best sellers even before the first copies come off the presses. The Superintendent of Documents at the Government Printing Office announced today that over 1,750 persons have already placed advance subscriptions for these reports at \$10 for each subscription. Over \$1,000 is being received each day from persons placing orders for the reports.

The Hoover Commission was authorized by the 80th Congress to conduct a study of the organization of the executive branch of the government and to make recommendations for changes. The findings and recommendations of the Commission will be published in from 40 to 50 volumes to be issued at irregular intervals during the next few months. The first report to make its appearance will probably be the over-all report.

In addition to the reports and recommendations, task force studies will also be included in the documents. Among the subjects to

WOMEN

Woman—She's an angel in truth, a demon in fiction—

A woman's the greatest of all contradiction

She's afraid of a cockroach, she'll scream at a mouse,
But she'll tackle a man as big as a house.

She'll take him for better, she'll take him for worse;

She'll split his head open and then be his nurse;

And when he is well and can get out of bed,

She'll pick up a teapot and throw at his head.

She's faithful, deceitful, keen sighted and blind.

She's crafty, she's simple, she's cruel, she's kind.

She'll lift a man up, she'll cast a man down,

She'll make him her hero, her ruler, her clown.

You fancy she's this but you find that she's that,

For she'll play like a kitten and fight like a cat,

In the morning she will, in the evening she won't,

And you're always expecting she will but she won't.

WATSONS BACK HOME

Mr. and Mrs. John Watson are back in Muleshoe after residing in Bakersfield, Calif., the last several months. Mr. Watson has resumed his duties at Muleshoe Implement & Supply Co. Mrs. Watson, the former Miss Elizabeth Bailey, was before her marriage employed at the E. R. Hart Company and in the superintendent's office at the high school.

IN AMARILLO

Mr. and Mrs. Murrell Brown and little daughter, Kay, spent the weekend in Amarillo with Mrs. Brown's parents. Mr. Brown reports seeing fields all the way to Amarillo where water was still standing as the snow and sleet gradually melts and it was his opinion that the ground has never been so soggy.

National Heart Week Observed

AUSTIN, Feb. 8.—Throughout the United States the week of February 14-21, will be observed as National Heart Week, and Dr. Geo. W. Cox, State Health Officer has announced that the State Health Department will cooperate to the fullest extent in stressing to the public the necessity for full information and intelligent action in attempting to control this nation's major killer, heart disease.

From a national level, heart disease is the leading cause of death, and yearly takes a greater total number of lives than the next five leading causes of death combined. One out of every three deaths in the United States is due to diseases of the heart and blood vessels, and it is estimated that one out of every twenty persons suffer from some form of heart or blood vessel disease.

DeSHAZO DECISIONED
BY STEPHENVILLE BOY

Jack DeShazo, of Muleshoe, came to a stopping point in his Golden Gloves aspiration when he was decided by Albert Dunn, Stephenville lightweight in the Brownwood JayCees annual regional tournament.

Jack had been going good in recent matches, having won three, one by a KO and two by the TKO route. A son of Mr. and Mrs. J. J. DeShazo, of Muleshoe, Jack is a student at John Tarleton, Stephenville.

A man had two horses. He sold one of them for \$198 and made a profit of 10 percent. The next day he sold the other one for \$198, and took a loss of 10 percent. On the two deals combined did he have a profit or loss, or did he break even?

In addition to "The American Flag" there are four other commonly used phrases by which we refer to the flag. Can you name three of them?

The Springlake girls won first place in the Junior Basketball Tournament held here over the past weekend and Littlefield boys took first place in the boys tournament.

Sudan boys and girls took second place honors with the Muleshoe boys and girls taking third place honors.

The Friona girls won the consolation honors in the girls tournament and the Springlake boys won the consolation honors in the boys tournament.

Sudan Beat Jackets
The Sudan boys A-team drubbed the Muleshoe boys A-team by a score of 40 to 27 in a conference encounter played there last week.

Muleshoe Girls Win
The Muleshoe girls scored another victory last week when they swamped the Sudan girls by a score of 48 to 24.

The largest clock in the world was built for a Jersey City, N. J. factory in 1924 and measures 50 feet across the dial. The minute and hour hands alone weigh nearly four tons.

MULESHOE JOURNAL SPORTS

THE MULESHOE JOURNAL, Thursday, February 10, 1949

Only Two More Games Left On Yellowjackets Schedule For This Season

The Muleshoe high school basketball season closes next Tuesday night with the local team under the guidance of Coach Hedges showing a remarkable improvement during the season.

Only two or three boys will be lost from this year's A-squad, but their loss will not actually hurt the team next season. Of course the seniors who will be graduating were all fine players, but the men moving up to take their positions are very capable with just as much experience.

Seniors, who will not be back next season are: Joe Bob Horsley, Woody Jackson, Williams and possibly one or two others who saw action on the A and B teams.

There were over twenty boys on this season's traveling squad, composing the A and B teams. There were at least twenty girls on the girls basketball squad and then there were that many more junior boys who were out for the junior teams.

All of the boys and girls who are not seniors of course will be back next year, with some moving up into positions vacated by the seniors who have graduated and some of the juniors will be moving up to the B-teams. Then the junior squads will be replenished by students moving up from the grade school.

Last Two Games
Tomorrow night, Friday, February 11, the Jackets will go to Morton where they will play their final conference game of the season and on next Tuesday night the Jackets will travel over to Springlake where they will make their final scheduled appearance for this season.

Boys And Girls Lose
Last Tuesday night the Jackets boys and girls teams lost to the high-powered district leading Levelland cagers.

The Levelland A-team swamped the Jacket five 61-34.

The Jacket B-team also dropped their encounter to the Levelland B-team. No score was given to The Journal on this game.

The Muleshoe girls playing one of their best games of the season dropped a closely contested game to the Levelland sextette 23-26. The Jackets held a 15-9 lead at

James Bickel, Bobby Goss Win Crowns At Lubbock

Middleweight James Bickel of Muleshoe who entered the Golden Gloves at Lubbock and Texas Tech came through to win the open division middleweight crown by defeating Calvin Pyle in the first go-round early last week. On Wednesday night Bickel took an easy decision over his opponent from Roaring Springs, Texas and on Thursday night Bickel registered a KO over Joe Skinner in the third round to win the middleweight crown.

James Bickel will travel with the Lubbock team to the Fort Worth state finals in the near future as a contender for the Golden Gloves State Crown.

Heavyweight Bobby Goss who was entered in the novice division of the Lubbock fights came through with two wins to claim the heavyweight crown.

Goss won both fights fairly easy with the first fight being the hardest.

Thursday night Bobby Goss registered a knockout punch to the chin of his opponent, Cargill, before the fight had hardly begun. His time was registered at 0:38 of the first round.

Goss will not go to Fort Worth as the novice class is not included in the state finals.

Other Area Fighters Win
The only other area fighter that won in the open division was Ismael Olvera of Levelland who won the 135-pound class crown by defeating H. L. McMillan of Tahoka. (The fighting Printer).

In the novice division Joe Hall, Olton; Bob Collett, Olton; Ballard Montgomery, Sudan were the other area crown winners at the Lubbock fights.

halftime, but the Levelland team gained rapidly in the second half and went out in front by 3-points just at the end of the game.

Slants From The Sidelines...

By W. E. Hill

It looks as if the Sudan Hornets and the Levelland Lobos will be the two top teams in this district. The only other team in the district that has a possible chance of beating one of them out are the Sundown cagers.

Down in the other district top honors will go to the O'Donnell and Tahoka cagers who will represent their district in the regional playoffs.

There is still some doubt in the other districts as to which teams will represent them at the play-offs.

Of course no dates or site has been selected for the big event in the class A high school basketball race and it is not likely that any definite plans will be made until it is definitely known what teams will represent their district in the tournament play-offs.

Coach Beam stated that he was making preparations to sponsor some fights in the near future at the local high school gym.

He has been coaching some of the local high school boys in the art of boxing in his athletic program and has decided to match fights with a boxing team from some other school in the area.

James Bickel and Bobby Goss both came through with flying colors to win the middleweight and heavyweight crowns at the Golden Gloves bouts staged in Lubbock last week.

The local independent basketball teams will be playing some home games for a change in the next several days. These teams have been playing in a new league which was formed recently of independent teams of the area and have made a good showing so far.

The local JayCees have purchased a wrestling ring and have announced that they are going to stage some "gun 'n' groin" matches in the local high school gym in the next few weeks.

The high school basketball season is nearing the end of the season with only two more games on the schedule to be played.

Although the local high school cagers have not won many games this season, they have shown much improvement and will be an experienced team next year when the season opens instead of being green.

Of course there is still lots of room for improvement, but we think that they have done remarkably well this season. Coach Hedges has really done a magnificent job of coaching.

The Jackets will start next season with a much brighter prospect of being on the top of the heap when the end of the season rolls around.

In less than two years of the War of 1812, the American navy of 20 ships had sunk or captured 26 British war vessels and had lost but seven of their own.

One story of the origin of the term "blue Monday" is that in the 18th century naval commanders noted officers during the week and arranged floggings for punishment each Monday, hence "black and blue Monday."

Rhododendrons and azaleas are among the most difficult plants to grow.

Independent Basketball Teams To Tangle On Local Floor Friday Night

The American Legion five will meet the JayCee quintette on the local basketball court in a league encounter here tomorrow night. This game should create lots of interest as the two local teams meet in a league game on the local high school basketball court.

Legion Downs Springlake
The Legion five downed the stubborn Springlake five 32-24 in a league encounter played at Amherst last Friday night.

JayCees Lose To Anton
Last Tuesday night the local JayCee five dropped a close game to the smooth-operating Anton quintette 37 to 29. Tiller was high point man with 13-points to his credit.

Legion Edges Olton
The local Legion five edged past Olton at Olton in a league game last Thursday night to stay undefeated in league play by a score of 28 to 22.

Pley March Of Dimes Game
Last Saturday night the local legion five played the Friona Ind. basketballers at Friona to help them in their drive for the "March of Dimes".

The Legion five pulled out in front in the latter part of the game to win by a score of 70 to

Games Next Week
Monday night the JayCees travel over to Littlefield where they will meet the Littlefield team in a league encounter.

Next Thursday night the Cees will meet the Spring five here in another league encounter.

The Legion five is scheduled to meet Bula in an out-of-town game and then a game scheduled here with the Amh five.

The Legion team is also going to schedule a game with Sanders Motor Co. team of Lubbock which is to be played on local court if a date can be arranged between the two teams.

The first wallpapers, in the 19th century, were derived from book coverings and probably were in designs or checkered designs.

The death rate from tuberculosis in Massachusetts less than a century ago was nearly 450 per 100,000 population.

Through the centuries, Warsaw, Poland, has been dominated by Sweden, Russia, Prussia and Germany.

Mrs. Gulley Is Progress Hostess

The Progress H. D. Club met on Monday 1, in the home of Mrs. L. M. Gulley. Roll call was answered by giving the recipe for your favorite pastry.

The finance committee reported on plans for the new year. The yearbooks were filled out. The alternate council delegate resigned and Mrs. Albert Davis was elected. The club voted to serve lunch at Your Exchange. A five dollar donation to the "March of Dimes" was voted. We voted to pay our THDA fund 100 per cent and to buy fourteen song books for the club.

The program was conducted by Mrs. Maberry. The pastries that were brought by the members for the pastry show, were auctioned and brought \$5.50. Games were led by Mrs. Maltby. Mrs. Maltby gave an interesting account of her trip to the radio listening project's "Recognition Program" in Lubbock.

The next meeting will be February 15, at Mrs. O. C. Thomson's home. We will have a demonstration on etching aluminum. All members are urged to be present.

The eleven members present for this meeting were: Mesdames Tom Kelley, Lynn Bratcher, J. J. Gross, Albert Davis, Lela Gulley, Ray Maberry, Gordon Murrah, O. C. Thomson, G. T. Maltby, John Thomson and Davis Gulley, the hostess.

Two visitors who were also present were Mesdames Kelley and Courtney Thomson.

CARD OF THANKS

We wish to express our heartfelt thanks for the sympathy extended to us, for the food brought to our home, and for the beautiful flowers at the death of our daughter and sister.

Mr. & Mrs. Lacy Hardage and Family.
Mrs. Lee Mason & Family.

Odd Fellows Held Initiation

Muleshoe I.O.O.F. No. 58 met in regular session last Thursday night. The initiatory degree was conferred on Johnnie Henderson. A large crowd was present.

The collection, amounting to \$17 was given to the "March of Dimes Drive."

Next Thursday night, February 10, the first degree will be conferred. The lodge urges all its members to be present and invites neighboring lodges to visit at any time.

NEW BOOKS AT THE MULESHOE LIBRARY

Among the new books on the shelves of the Muleshoe Public Library is "Curtain Going Up," by Katherine Cornell. This is the story of Katherine's fears and joys of childhood; the torments and misgivings and the aspirations of girlhood, which merge steadily into the warmth and dignity of womanhood and always, as a background for the leading players, is the fantastic, alluring pageantry of the stage itself.

A new book for small children at the library is "Animals of the Bible," by Dorothy P. Lathrop.

WORK IS RESUMED ON MASONIC HOME HERE

Work has been resumed on the Masonic Lodge building, since better weather settled over the Muleshoe countryside. Masons are hoping the building can be completed this summer. It will be of two stories, with lodge rooms on the second floor, recreation rooms, kitchen, etc. on the ground floor.

The modern public health movement was started in England in 1848 with passage of the first Public Health Act and setting up of the first General Board of Health in London.

Women's News - Club Events Social Activities

H. D. Council Has Training School

Bailey County Council of Home Demonstration clubs met in the District court room Thursday morning at 10:00 A. M. with the District Agent, Miss Hill.

The chairman, Mrs. John Thomson presided at the meeting. A committee read the standing rules as they were revised. Miss Hill discussed at length the different rules and the importance of knowing these rules so that we might do a more efficient work throughout the county.

At the noon hour the Council recessed and the ladies went to the home of our Agent, Mrs. Corington, where lunch was served each club representative. Miss Hill gave a very inspiring talk on "You and your ability to help others" which made us realize there is much work for the club members to accomplish.

At 1:30 the Council resumed their meeting. Nominees for district meeting was discussed. Each club must have their nominee in to the council by the March meeting. Also the THDA fund should be turned in at that meeting.

Miss Hill announced that she would speak over radio station KSEL every other Saturday, beginning February 12 at 7:30 A. M. Other dates are Feb. 26, March 12, March 26, April 9, and April 23. She will speak over KFYO Feb. 21, at 6:00 A. M.

Radio listening was very much emphasized. Much knowledge is broadcast over our radios and it is interesting to know that the Home Demonstration women have a program on every station in District Two.

The four clubs represented were Progress, Muleshoe, Watson and Enoch.

The council representatives and the local H. D. Agent, Mrs. Corington, enjoyed Miss Hill's visit very much and extended her an invitation to visit with them again.

The council will have their regular council meeting February 21.

The beautiful lace covered table was decorated with a lovely centerpiece of white stock and six white candles.

The gifts were displayed in a room decorated with red and white carnations.

The punch bowl was presided over by Mrs. George Treider and Mrs. Juel Treider and the cake was served by Mrs. Melvin Treider.

The hostesses presented the bride and her mother with beautiful corsages of carnations.

The bride received many lovely and useful gifts.

Those present were: Mesdames Ed Steinbock, Judd Clark, Bose Abrams, Perry Barnes, Jr., Jimmy Seaton, Walter Steinbock, McCurdy and sister Myrtle, Douglas Gonsler, Roy Daniels, Ben Foster, Demp Foster, Rhiney Steinbock, Henry Ivy, Charles Gustin, Juel Treider, Melvin Treider, Willie Steinbock, Laura Treider, Ophel Jennings, Joe B. Jennings, Glen Dunn, Roy White, Gene White, Harold D. Hutchinson, and the hostesses.

Sending gifts were: Mesdames Walker, Pete Kaiser, Harry Jesko, Gus Priboth, Ab. Carol, Freddie Wagon, Earnest Nowell, John L. Seaton, Earnest Merriott, Joe Jesko, Tot Bewley, Perry Barnes, James Robinson, A. H. Wilson, Geo. Crain, Jay McDonald, Burford, Tun Foster, Carl Maurer, W. S. Menefee, Rosamond Sherley, Raymond Treider and Hugh Wheat.

Treider-Brown Marriage Read In Church Service

Miss Clara Treider, daughter of Mrs. Laura Treider of Lazbuddy, became the bride of Dave Brown, son of Mr. and Mrs. Seth Brown of Brownfield, on Thursday, December 23.

Pastor of the Lariat Lutheran church read the service in the church at Lariat.

The bride was attired in a two-piece dress of off white gabardine, with brown accessories. Her corsage was of yellow carnations.

The bride graduated from the Lazbuddy high school, class of 1945, then attended West Texas State College at Canyon.

The groom graduated from the Brownfield high school, spent eighteen months in the merchant marine and after being discharged

he attended Draughon's Business College in Lubbock.

The couple was attended by Beatrice Tarter and Junior Clark.

A reception was held at the home of the bride's mother. The bride cut the three-tiered wedding cake.

The couple left immediately for a short honeymoon in Albuquerque and other points of interest.

Those attending the wedding were the bride's mother, Mrs. Laura Treider, Mr. and Mrs. Juel Treider, Mr. and Mrs. Melvin Treider, Ted, Jeanette, Larry and Imogene Treider, Betty Jo Tarter, Sugar Glase and Mr. and Mrs. Wesley Krey and daughter Cheryl of Leoti, Kansas.

The couple is at home in Eastland, Texas, where he is employed by E. G. Briggs Contracting Co.

Instead of learning just the tricks of the trade, why not actually learn the trade?

Half Century Club Meeting Held Feb. 3

The Half Century club met with Mrs. J. H. Engram on February 3, with seven members and three visitors present. The club always enjoys having visitors meet with them.

After a short business session was held, those present enjoyed playing "42".

The host then served a refreshment plate to all the members and visitors present at the meeting.

The next meeting will be held February 17, with Mrs. Walter acting as hostess.

1947 Hubam Clover Crop Is Still Paying Grower Dividends

COLLEGE STATION, Feb. 8.—A hubam clover seed crop that was harvested in 1947 is still paying dividends. This time it's in increased cotton yields per acre, according to Jack Davis and the results on his Ika community farm in Ellis county.

cotton following hubam clover, and four more rows in the same field of cotton following cotton reports County Agent W. M. Love. Both plots were planted and cultivated the same way. Here's what the record book shows. The cotton following hubam yielded 750 pounds of seed cotton on an acre basis. The cotton following cotton yielded 540 pounds per acre. So the hubam-cotton plot beat the other by 210 pounds.

That didn't satisfy Davis enough so he took the cottonseed to a laboratory and had them analyzed to see if the hubam caused any difference in the chemical make-up. And when the last analysis had been run, he found that the cottonseed from the hubam plot was a little higher in everything but moisture content. Here's how the seed analyzed that were grown on the hubam land: 19.9 percent oil; 4.34 percent ammonia; 4 percent free fatty acid in the oil; and 7.50 percent moisture. The grade calculation on this bunch of seed ran 110.5, and the estimated yield of oil and cake was 335 and 975 pounds respectively.

The cottonseed from the cotton following cotton plot came out slightly lower in nearly all cases. The report showed this batch of seed had 18.9 percent oil; 3.55 percent ammonia; 3 percent free fatty acid in the oil; and 8.30 percent moisture. The grade calculation was 886 pounds.

TAKE TRIP TO COLO.

Mr. and Mrs. W. S. Thomson and Mr. and Mrs. O. C. Thomson made a trip to Fowler, Colo., this weekend to return Mr. and Mrs. Courtney Thomson to their home and visit other relatives there. Mr. and Mrs. Courtney Thomson have been in Muleshoe a week visiting his mother, who fell on the ice and broke her hip.

VISITED THOMSON'S

R. B. Bruce Jr., and his mother, Mrs. Edna Bruce, visited in the W. S. Thomson home last week. Mrs. Bruce was returning to her home in Ingleside, Texas, after a month's visit with her son in Santa Rosa, N. M.

Try Journal Want Ads Today!

F. C. Elliott, extension cotton work specialist of Texas A. & M. College, says agronomists had already found that better quality planting seed can be had from the hubam-cotton combination. Germination generally runs at least 80 percent, as compared to 80 or 85 with the other types.

George Chance and T. D. Wilson, cotton growers in Brazos county, have reported as high as 98 percent germination with cottonseed grown on land that was in hubam the season before, says Elliott.

Grasshopper Plague Is Expected To Cover Western United States Again This Year

The grasshoppers are coming again. That is the doleful warning from the Agricultural Research administration of the U. S. Department of Agriculture, whose entomologists (insect chasers) have found increasing indications that severe outbreaks of the pests may occur this year in much of the nation's food producing area, from Texas to Canada, and from Michigan to California.

At present, everything points to the worse, because the hoppers have been steadily increasing for the last three years, and records show that the peak of such plagues is reached about every ten years. The last big hopper scourge was in 1940.

Probable Areas Shown
A chart showing probable infestations, based on surveys in 1948 and involving generally the same areas where the hoppers were showing increasing activity in 1947, shows the main forces of the plague branching out in a giant wedge shape from southeast Texas to the Canadian border northeast and northwest, extending along the border from Michigan through Montana.

For any consolation it might be to farmers and others on the Texas high plains, the main indicated infestation misses this area, starting in the coastal prairies north and northwest of Houston.

The northwest prong of the wedge is several counties east of here, taking the eastern one-third of the Panhandle. The other prong goes northward through the western cross timbers (Fort Worth and Dallas), and thus almost the whole state of Oklahoma is enveloped.

Heaviest infestations in Texas are indicated in the belt south of Dallas and Fort Worth. Considerably severe scourges are indicated in western Kansas, eastern Colorado, western Nebraska, Wyoming and Montana. Spotty infestations in varying degree, are indicated also in all other western states except Oregon and Washington.

Losses Unnecessary
To the east, the corn belt states are also scheduled for heavy plagues, as are also Minnesota, Wisconsin and parts of Michigan. In fact, outbreaks of possibly less intensity than in some of the states, are indicated in nearly every state west of the Mississippi river.

Irrigated portions of Utah, Arizona, New Mexico, and California also show spots of considerable infestation. In northwestern Nevada and in adjacent areas across the Oregon and California lines, egg bags of a single species cover more than 100,000 acres, the survey shows. This species has only recently reached areas of cultivation, after a long history of migration in central Nevada, where little agricultural damage was caused.

The entomologists point out, however, that farmers need not take heavy crop losses from hoppers, for two good reasons. First, bad weather at hatching time, or parasites, predators, or disease could reduce hopper numbers.

numbers quickly and effectively. Second, two new insecticides, chlorodane and toxaphene, have been found highly effective against the pests. They kill grasshoppers more rapidly, and continue to kill them over a longer period of time than anything farmers have had before.

Material Plentiful
The insecticides have been given thorough tests for three years, and have shown their superiority over other materials. They have been found particularly effective when applied as spray or dust on succulent growth along roadsides, railroads, canal banks, and field margins, or crops such as alfalfa, young cotton or corn.

Both materials are reported to be plentiful, and can be purchased as emulsions, wettable powders or dusts. Sprays have been found to give somewhat higher rates of kill, and last a little longer than dusts containing equal amounts of active ingredients.

Sprays are recommended to contain one pound of technical chlorodane, or one and a half pounds of technical toxaphene per acre. Dusts should be stronger by a half pound per acre on either ingredients. They can be applied from ground equipment or from airplanes.

Must Be Applied Right
The specialists warn, however, that to be effective, the new insecticides must be applied properly at the right time. Infestation area should be located in relation to croplands and should be sprayed or dusted about the time the young hoppers are moving away from their hatching beds.

Hoppers that damage row crops usually hatch along field margins and timely spraying will destroy them before they can damage crops.

Users are warned, however, to not feed forage treated with either of the new materials to dairy animals or to animals being finished for slaughter. If used on fruits or vegetables, do not apply them to parts of the plants that will be eaten or marketed unless residues can be washed or stripped off. Avoid applying them to legumes in bloom. It is suggested that if control measures become necessary during this period to save the seed crop, spray early in the morning or late afternoon.

When bees are inactive. Sprays are less harmful to bees than dusts. Farmers are advised to watch for indications of infestations, and consult the county agent or other authoritative source for suggestions and help in controlling the pests.

Fair Wheat Crop Is Predicted After A Poor Start In The Fall

More wheat likely will be harvested in the Muleshoe country than was considered possible two months ago, thanks to the fine January moisture precipitation. Although only 2.34 inches of moisture was received here, the ground has been soaked to per good depth and young wheat additionally have something to go word. Str. a long time.

Read The three times before harvest in the Plains country. But FARM who have been about the report that in the section immediately north of Muleshoe wheat is showing fine prospects just now.

During the fall months very little moisture was received in this area so that the wheat crop was almost given up for lost. Some wheat was blown out by the hard winds about that time but this was only a small percentage of the total acreage. One farmer told The Journal that he has 900 acres of wheat that looks as good as he ever had, and that practically no blowing occurred during the fall. He planted just after a nice rain had fallen in September.

Reports from various parts of the Plains indicate the present moisture will last until mid-March or early April, when another rain will be needed to carry the fast growing plants along, then in early summer, when plants begin to head out further moisture will be needed.

People of the Muleshoe country are hopeful of having a fair wheat crop to "tide over" from last fall's short feed and cotton crops and start the money to rolling. However, crops of alfalfa, beans, etc. will be coming off about that time, so that it is only a matter of a very few months until cash crops will be coming out of the fields of this territory.

CARROLL BLACK HOME IS SCENE FOR SUPPER

Charlene Black and O. D. Spitzer were honored at a birthday supper of enchiladas Monday evening, February 7, in the home of Mr. and Mrs. Carroll Black. A beautiful cake with ice cream was enjoyed and many nice gifts were opened followed by several games of forty-two. Those present were Charlene Black, O. D. Spitzer, Mr. and Mrs. A. W. Black, and the host and hostess, Mr. and Mrs. Carroll Black and their daughter, Beverly Jean.

TO TEMPLE

Otis Collier spent the last week in Temple, Texas, visiting his family and friends. He is an operator employed at the Santa Fe depot.

Hospital News...

Mr. W. D. Curtis was in for medical care. He has gone home. Mrs. Don Seales was a medical patient. She has been discharged. Loretta Sullivan, daughter of Mr. and Mrs. J. E. Sullivan was a medical patient. She has gone home.

Mrs. J. A. Thomas has gone home after spending several days for medical care.

Mr. A. P. Stone was in for medical care. He has been discharged to Lubbock for additional treatment.

Mrs. Beulah Bivens was in for medical care. She has gone home. Mrs. Lola Sanders is in for medical care. She is resting fair.

Mr. J. F. Broyles was a medical patient. He has gone home.

Mrs. C. B. Kelley is a medical patient. She is resting fair.

Mr. E. D. Mitchell who suffered a broken arm on the ice is doing fine.

Mrs. Virginia Thomson who suffered a broken hip due to falling during the ice storm is doing fair.

CONGRATULATIONS TO:-

Mr. and Mrs. A. H. Clary on the birth of a daughter, Louana Dale, February 3.

Mr. and Mrs. J. M. Parker on the birth of a son, Edwin Allen, January 29.

Mr. and Mrs. Troy Page on the birth of a son, Troy Wayne, January 24.

Mr. and Mrs. Clifford Tinsley, on the birth of a son, Eddie Douglas, January 26.

Mr. and Mrs. Bill Reecer, on the birth of a daughter, Jo Ann, January 27.

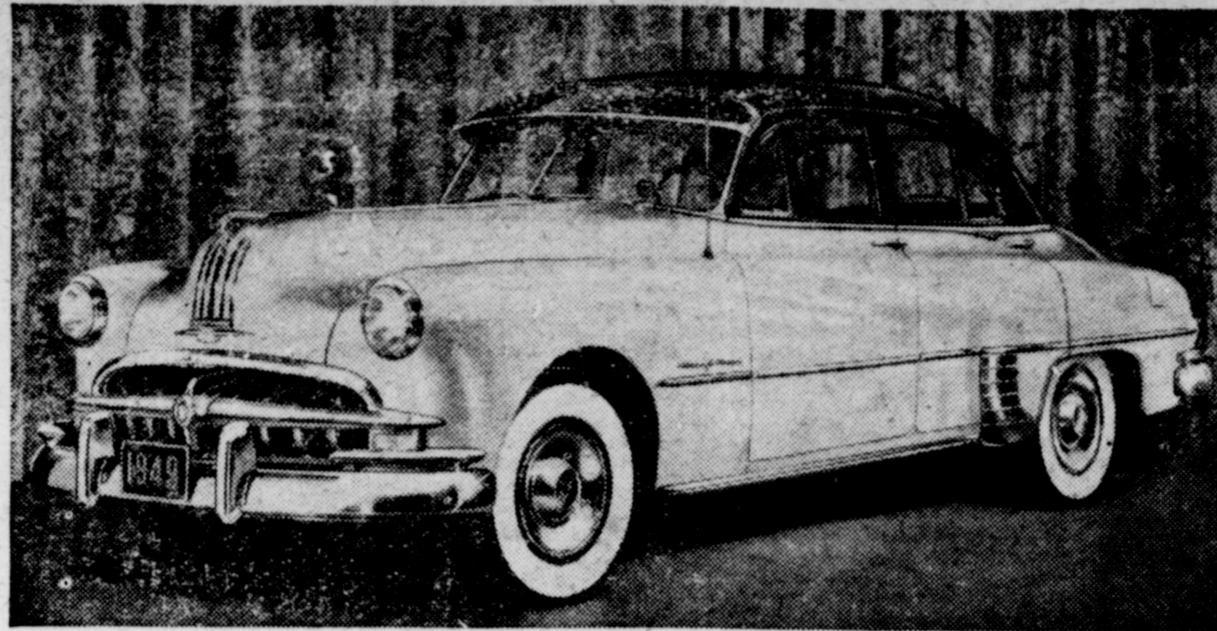

Mr. and Mrs. John Johnson, on the birth of a son, John Charles, January 28.

TO CANYON

Mrs. Claude Sanders and Mrs. H. Jay Wyer took Don Mickey and David to Canyon to enroll in WTST college there. Don re-enrolled for the spring semester while David was transferring from John Tarlton. The boys report that all is going fine.

Marine animals develop strong weapons of attack and defense.

Entirely New Pontiac For 1949

The Pontiac Chieftain line of which the four-door deluxe sedan is shown here has a 120 inch wheelbase. Roof lines have been lowered without sacrifice of comfort. Trailing pattern of the Chieftain series consists of two gracefully arched steps from roof crown to trunk deck to lower edge. Both Pontiac Streamliner and Pontiac Chieftain lines average 38 percent more glass area. Visor on car pictured is an accessory.

Peek Backstage

Charming Julia Meade, above, gets a peek backstage at the rainbow array of exciting new carpet colors being prepared for the first annual Carpet Fashion Opening scheduled March 1-10 in thousands of retail stores across the country. During this period the homemaker will see, for the first time, all the new 1949 carpet "models" in her favorite home furnishings store.

Roy Bass Talks At PTA Meeting

The Muleshoe P.T.A. met Monday night, February 7th. The business was conducted by Mrs. A. J. Lenderson President of the association. Mrs. Boone's 3rd grade room won the attendance prize, and Mrs. Boone was presented an orchid by McWhorter's Floral Shop. Mrs. Boone was presented a corsage of yellow roses.

Mrs. Pat Bobo sang "How Ireland Got It's Name," accompanied at the piano by Mrs. Damron. Mr. Moore's High School chorus sang three numbers; "Red River Valley," "Deep River," and "Little David Play on Your Harp."

The guest speaker, Roy Bass of Lubbock, was introduced by Pat Bobo. The topic of Mr. Bass' very interesting talk was "The Home - The Democratic Unit for World Peace."

After the program the third grade room mothers presided as hostesses at a lovely refreshment table. Cakes decorated in hearts were served with coffee, nuts, and heart candies. A center piece of red roses and red candles decorated the table.

In their original habitat Chow dogs are used for hunting.

Theodore Roosevelt was given an honorary geographic luncheon upon his return from Africa in 1910.

WELDON McCARTY IS GIVEN BIRTHDAY PARTY

Mr. and Mrs. Delma McCarty gave their son, Weldon, a birthday party and dinner, Saturday night, in their home. It was his seventeenth birthday. His school friends Waneen Beller, Marion Davis, Peggy Julian, Jo Frank Cummings, Jimmy Clements, Melba Bryant, Don Fudge, Jack Bundy, Mack Ragsdale, Ted Lawler, Bette Guthrie, Woody Jackson, and La Quintas Whatley were present for the occasion. He received many nice gifts.

Early settlers in America cut down huge groves of black walnuts and used the wood for fence rails and other farm purpose.

Some people seem to have opinions that have been in their family for generations.

More Efficient Farm Production Is Answer To Price-Cost Squeeze

The price-cost "squeeze" is reaching out for the farmers. And there isn't much they can do about it. Farm operators can't plow off the cash outlay for labor, fertilizer and materials. But they can improve farm production and lower their cost of production.

Library School Opens At Texas U.

AMSTON, Feb. 7.—Attention high school seniors: The University of Texas Teacher Placement Service can give you a tip on a good vocational field to enter.

Dr. Gray says the greatest demand for teachers right now is in the field of library science, and he would recommend it as a study course with excellent employment possibilities.

There is a shortage of trained library science in this part of the country, Dr. Gray says. The University of Texas reopened its library school this fall.

In addition to a standing demand for high school librarians, Dr. Gray says the placement service has many calls for elementary education teachers (grades one to seven) and teachers of high school mathematics, science, commercial subjects, and health and

goods for workers. In the long run these added investments not only pay for themselves, but lower costs and increase net profits. High yields from crops help lower costs, too.

It takes good management to keep the farm factories humming. It's for levels better livestock, better land, and the right kind of machinery in the stables for making profits. These are planned on by planning and aiming for the best.

Most farmers can improve some phase of their operations. They need only to start to better utilize the same resources. Good livestock and modern equipment, says Butes.

SURPRISE HOUSE WARMING FOR BUTTS FAMILY

Friends and relatives of Mr. and Mrs. Buford Butts gave them a surprise house-warming Monday evening, February 7, at 7:30. Over sixty-one people attended and brought gifts and covered dishes. Mr. and Mrs. Butts moved in their new home the past weekend.

FINE FOR WHEAT

Boone Allison, Larkin elevator man, told The Journal Tuesday that the moisture has recently benefited wheat in his neighborhood and has set up the soil just fine for planting.

Elementary education for women. Supply has just about caught up with demand in the area of high school English and social studies teachers, he says.

CROSS BORDS ARRANGES PRIVATE DINING ROOM

Mr. and Mrs. Alton Turroune of the Cross Roads Cafe, announce they have arranged a small dining room for club meetings, committee meetings, organization get-togethers, or large family groups. The room is entirely private from the main dining room.

The newly furnished room will accommodate at least 25, and at a pinch as many as 40.

VISITED IN AMERILLO

Mr. and Mrs. Muel Brown and Kay spent the weekend in Amarillo with her parents, Mr. and Mrs. J. F. Wharton.

VISITED HERE

Mr. and Mrs. Lawrence Nickels of Littlefield visited Mrs. Lila B. Nickels and family Sunday.

J. B. BROWN IS NEW ELECTRIC CO-OP EMPLOYEE

J. B. Brown, recently of Portales, has accepted a position here with the Ball County Electric Cooperative Association, his place being that of material and work order man. Mr. Brown has been with the electric cooperative at Portales.

He and Mrs. Brown will move here as soon as they can get housing. A son, who is a student in ENMC, Portales, will remain there until the end of the present term.

Buy **Automatic Gas Ranges**

BUILT TO  STANDARDS

The Only Unbiased Buying Guide of Its Kind in the Major Appliance Field

The "CP" trademark indicates that the automatic gas range on which it appears is manufactured by a member of the Gas Appliance Manufacturers Association. These specifications are created by the Association on recommendations made by leading gas range manufacturers, gas utilities and home economists. Not all models bearing the "CP" trademark are alike but all models must be pre-tested by unbiased laboratories before they can bear the "CP" trademark.

Water Bill . . .

(Continued from page 1)

shall not be used to deny a landowner a permit to drill a well on his land under the conditions and regulations provided in this Act.

(6) To develop comprehensive plans, for the most efficient use of underground waters, and for the control and prevention of waste of such waters; which plans shall specify in such detail as may be possible, the Acts, procedure, performance and avoidances which are or may be possible, the Acts, procedure, performance and avoidances which are or may be necessary for the effectuation of such plans, including specifications of engineering operations, and methods of irrigation and to publish such plans and information and bring them to the notice and attention of the owners of land within the district.

(7) To carry out research projects, develop information, and to determine at what time, if any, limitations shall be made on the withdrawal of underground waters from the lands within the district; to collect and preserve information regarding the use of underground waters, the possibility of recharge of underground waters, and to develop projects for the recharge of such underground waters; and to make experiments of methods and means of increasing the recharge of underground waters.

(8) To require records to be kept and reports made of the construction of wells and the taking and use of underground waters; to require accurate drillers' logs and electrical logs where available to be kept on wells and copy thereof filed with the district and State Board of Water Engineers.

(9) To require all flowing wells within the boundaries of the district to be so capped or equipped with valves that the flow of water can be completely stopped when the wells are not in use for a beneficial purpose; to require both flowing and non-flowing wells to be so constructed and maintained as to prevent the waste of underground water through leaky casings, pipes, fittings, valves, or pumps—either above or below the land surface; Provided, however, that the withdrawal of reasonable quantities of underground water in connection with the construction, development, testing, or repair of a well shall not be construed as waste; also, that the inadvertent loss of such water owing to breakage of a pump, valve, pipe, or fitting shall not be construed as waste if reasonable diligence is shown by the owner or operator of the well in affecting the necessary repair. The district, in its rules and regulations, may specify the manner of construction of wells or other works adequate to accomplish the provisions of this

"Spooning" in The Kitchen

Pretty little Peggy Schuler feeds her dog the "one-dish-dinner" of meat food that is so easy to serve even a child can care for the family pet. Providing a completely balanced dog food from one can is an achievement of Swift & Company's research laboratories. According to nutrition experts, a can of Pard contains all of the high quality proteins, minerals, vitamins, and fat required in a scientifically balanced dog diet.

Section. (10) The district, in addition to all other powers, shall have the power to acquire lands for the erection of dams, and for the purpose of draining lakes, draws and depressions, and shall have power to construct dams, drain lakes, depressions, draws and creeks for the purpose of recharging the underground waterbearing strata.

It is expressly provided that no petition for the creation of a water control and improvement district to exercise the powers set forth in this Section shall be considered by Commissioners' Court or the State Board of Water Engineers, as the case may be, unless the territory included in such proposed district shall have been theretofore designated as a groundwater basin or a proper subdivision of a groundwater basin.

(11) The directors of all water control and improvement districts created to exercise the powers and perform the functions in this Section provided shall be selected according to the "precinct method" as such method is defined and provided for in Senate Bill No. 247, enacted by the 46th Legislature, Regular Session, 1939 (Ver-non's Statutes of Texas, Article 7880-38a); and all provisions of said Senate Bill No. 247 relating to the election of directors by the precinct method shall be applicable to districts created under this Act.

It is expressly provided that water control and improvement districts proposing to issue bonds for the sole purpose of carrying out

one or more of the powers, privileges and functions conferred by this Section shall not be required to submit their plans to, and secure the approval of, the State Board of Water Engineers as required by Section 139, of Chapter 25, Acts of the Regular Session of the 39th Texas Legislature, 1925.

Section 4. If any section, sentence, clause, or part of this Act shall, for any reason, be held invalid, such decision shall not effect the remaining portions of this Act and it is hereby declared to be the intention of this Legislature to have passed each sentence, section, clause or part thereof irrespective of the fact that any other sentence, section, clause or part thereof may be declared invalid.

Section 5. The fact that the unregulated construction of wells for the withdrawal of water in certain groundwater areas in Texas threatens the investments and economic well-being of a vast number of Texas citizens and creates an emergency and an imperative public necessity that the Constitutional Rule requiring bills to be read on three several days in each House be suspended, and that the same be put to passage on the first reading thereof; and, further, that the Act take effect immediately upon the passage hereof and the approval by the Governor of the State of Texas and it is so enacted.

Some watch springs are a third as thick as the average human hair.

Sheriff Report

Hello folks: Here we come again without any news of importance. Since last report we have had one case.

Last Saturday morning we had four batteries reported found near the Santa Fe stock pens hidden in weeds. Mr. Boone and myself checked on these and decided to just leave them and watch for the party or parties and find out where they came from for there had been several reported stolen. This all took place about noon Saturday.

In the meantime we both had to be at the Court House on other business and our batteries disappeared from the stock pens. But as dumb as we both have credit for being we stumbled up on two local boys that had just been joy riding out in mud half knee deep and found the batteries loaded them up and proceeded to sell them. The batteries are thought to have come from the B. F. Goodrich store owned and operated by Johnson and Pool.

On Wednesday morning a large crowd was here for their driving tests. There were two men giving the tests. The driver license man will be here three days next week Tuesday, Wednesday and Thursday. If you are in need of a driver's license he will try and fix you up.

We just received a phone call from our neighbor sheriff, Mr. J. C. Reese of Hereford, Texas. He had a man in jail that we want for (paper hanging) bad checks. Mr. Boone has left for Hereford and his man.

Folks we are gradually slipping

up on a few of these guys. It may seem slow to some of you, but we just can't run on to these guys in five minutes. We don't give up looking for them.

For the convenience of everyone in the south part of the county, we are going to try and set a date for the purpose of selling car tags at Enochs and maybe at Maple. I will take this up with the Commissioners' Court Monday, so watch this report for the dates.

Don't give your business to Herman Crockett for he already has more money than he can spend anyway.

I had several men in my office Monday in regard to a deputy for the south part of the county. Let me say here, I would like for the people to select a man for the job and we will try to work something out. Whoever you select can depend on my full cooperation.

Thanking each of you for your interest shown, and for your splendid cooperation in law enforcement.—It is greatly appreciated. In our tax end of the office we have 1905 poll taxes paid and a great percent of all taxes have been collected.

Until next time, I remain your sheriff, Hugh Freeman.

SIXTY YEARS A VOTER

J. M. Cash, of the Enochs community, could have voted 60 years ago. Mr. Cash, in The Journal office Wednesday to renew a subscription to the paper that he has maintained since shortly after it began publication, said the day was his birthday. He was 81.

Read The Want Ads. Every Week

Medical Prices Will Increase

Shortages always raise prices. The Texas Medical Association, restricting enrollment in Texas medical schools to barely enough to replace deaths and retirements has cut down our supply of doctors, especially in our rural areas thereby causing a shortage at higher fees for services, while 3,000 pre-med students find gates barred against them.

This same medical profession now plans to get control of all medical professions, so they will make replacements in these professions and make the shortage even more acute and thus raise the price higher than today.

The Basic Science Bill (S. B. 63) is designed to give the Medical Association complete control of all branches of the healing arts and it is being pushed by unlimited funds and a high-priced lobby. We, the people, do not write phone or visit our senators and representatives, we will have this infamous legislation forced upon us.

This is a call for action. If you want to know the names of your legislators, phone this newspaper. Address letters to them at Capitol Station, Austin. Stop that Basic Science bill. Write or phone today.

ATTEND FUNERAL

Grady Newman and family of Baileyboro, left Tuesday for Burnett to attend funeral services for a brother-in-law, Arthur Shepherd, who passed away there Monday.
