Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

VOLUME 11

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, JUNE 29, 1933

NUMBER 22

PATRIOTIC PROGRAM SPONSORED BY BUSINESS MEN WILL BE MAIN FEATURE OF JULY 4 CELEBRATION

Prominent Speakers, Music, Horse Racing Stunts and Athletic Events of Various Kinds to Be on Day's Bill.

A celebration program for the Fourth of July which bids to be of exceptional attraction and interest to all people has been prepared by the committee on arrangements and will be carried out in enthusiastic manner next Tuesday. It has been widely advertised for the past two weeks and hundreds of people coming from many miles around, and many of the neighboring towns and communities will be present to participate in the patriotic fun of the occasion. Two blocks will be roped off on Main street for many of these events.

Beginning about 10 o'clock in the morning there will be a number of athletic events, races of different kinds carrying prizes to first and second winners, also, prizes for various other events.

String band and other music will be furnished throughout the entire day.

The "Barter day" feature will also be in order, and anyone having anything to sell, swap or trade or otherwise dispose of, is urged to bring it on the lots regularly set aside for that purpose.

First in the afternoon will be a patriotic address to be given by Hon. Clark M. Mullean, district judge from Lubbock, and who is also a colonel in the U. S. Army Reserves. There will also be other literary events, all to be held in the new Moeller theatre.

At 3:30 o'clock there will be a baseball game between Muleshoe and Earth teams. These teams being quite evenly matched, the game bids fair to be a hard fought one.

Following the ball game there will be horse races of various kinds. A track is this week being scraped off for these races.

Beginning at eight o'clock in the evening there will be boxing and wrestling matches put on, after which will be a big pyrotechnical display of fireworks.

In fact, there will be something interesting going throughout the entire day—something that will be appealing and interesting in this wide varied program that will be attractive to both old and young. Everybody is urged to lay aside their regular routine of duties and come to this big celebration.

Fourth of July Program
10:30 A. M. Athletic Stunts.
Pat Men's Race: First prize, \$20; second prize, \$10.

Potato Race: First prize, \$20; second prize, \$10.

Three-legged Race: First prize, \$20; second prize, \$10.

Girl's race: First prize, \$20; second prize, \$10.

To the largest bunch of folks coming to the celebration in a Chevrolet automobile, a prize of \$100.

To the oldest, ricketiest Ford car driven to the celebration, a prize of \$100.

To the person coming to celebrate from the farthest distance, a prize of \$100.

To the oldest person attending the celebration, a prize of \$100.

To the person bringing the largest amount of cream for sale on that day, also the largest amount of eggs, a prize of \$100 each.

1:30 P. M. Patriotic speaking.
Principal address by Hon. Clark Mullean, district judge, Lubbock.

Other addresses.
Girl Scout and other literary events All to be held in Moeller's theatre.

3:30 P. M. Baseball game, Muleshoe vs. Earth.

5:30 P. M. Shelhand pony, larger pony, male and two horse running races. Suitable prizes for each to be arranged by committee.

8:00 P. M. Wrestling and Boxing matches.

Fireworks under direction of American Legion.

WANT UNEMPLOYMENT FACTS

Assistant State Highway Engineer H. N. Roberts last Tuesday received a telegram asking him to furnish the Highway Commission with facts as to status of unemployment for Bailey, Castro, Lamb and Farmer counties.

The data obtained by Mr. Roberts indicates there are an average of 350 heads of families in this county without regular employment.

It is understood this information may have some bearing upon the highway contracts to be let in the near future, since much of this construction work is designed to give employment in needy cases.

17,000 Acres Bailey And Cochran Co. Land To Go On The Market

More than 17,000 acres of land in Cochran and Bailey counties belonging to Childress County as school land is to be thrown on the market in a short time, the commissioners' court has decided. About 60 per cent of this land, or approximately 10,200 acres is located in Bailey county, most of it classifying as among the best land in the county. The date of sale has not yet been made public and it is not now known whether the sale will be of a private or public nature.

V. E. Hafner, county agent, and Leonard White, who recently visited the land, classified it into three groups. Good improved land and good unimproved land was placed in Class A, medium improved and medium unimproved land in Class B and poorer land in Class C.

Prices for land will range from \$25 an acre on down to \$8. The top price is for good improved land, \$22.50 for good unimproved and for medium improved land, and \$20 for medium unimproved land. Poorer lands will range down from the lowest price.

There are 42 farms grouped in Class A, 30 in Class B and 10 in Class C. Each tract comprises 177 acres. There are due \$7,200 in back taxes for 1931 and 1932 on these tracts. The court will take care of the taxes.

The court hopes to lease the land. It believes that enough income from rentals can be had to insure \$2 to \$4 scholastic per capita tax.

June 30th To Be Tax Deadline For Second Half Fees

Friday, June 30, is the last day on which the second half of split-payment 1932 taxes may be made without the addition of penalty and interest, according to an announcement made by employees at the tax collector's office.

On July 1, the taxes become delinquent, and second half payments were not provided for by the recent act of the legislature which removed the penalty from delinquent taxes. A penalty of 10 per cent will be assessed against taxes not paid before July 1, and interest will be charged at the rate of six per cent until they are paid. Only those taxpayers who paid the first half of their 1932 taxes before November 30, 1932, are eligible to pay the second half of their taxes now.

No penalty of interest will be charged to delinquent taxes if paid before September 30, provided the taxes became delinquent on or before January 30. A one-per cent penalty will be assessed to pay expenses. It is not believed that the legislature will vote to remove the penalty on delinquent taxes after this year.

New Mexico is to get between seven and eight million dollars of Federal funds for highway construction work.

Heat Wave Over Southwest Running High, Rains Needed

Friday, Saturday and Sunday past were exceptionally hot days throughout the entire southwest area, plenty of temperature running as high as 102 to 104 degrees above the zero mark, according to newspaper reports, and in some particular sections the mercury shot up as high as 111 degrees.

Temperature on the Plains also went higher, there being plenty of it reported as high as 94 to 100 degrees above zero. While sunstrokes and overheats are freely reported in various spots east and north of here, yet the Plains country remains quite safe from the health standpoint. There being little humidity in the atmosphere at this altitude no serious consequences have been felt.

During the past week there have been various thundershowers over this area, but the country generally is in a dry condition. Cotton and feed crops that have sprouted and come up, seem to be getting along fairly well, and some cotton is reported in excellent condition. Lack of recent rain at planting time is cutting down considerable acreages which otherwise would now be growing crops. Irrigationists of this section, however, feel quite safe and are running their pumps as needed.

Monday afternoon there were light showers in this section.

\$2,200,000 To Come To Texas Growers Of Wheat, Prices Rising

Wheat prices are gradually rising, according to market quotations, and present indications are that this grain will go to \$1.00 per bushel, as has been freely predicted by leading grain men. Last week several carloads of wheat sold on the Ft. Worth market for as much as 93 1/2 cents per bushel.

It is now being freely estimated that the Texas short crop, estimated at around 15,000,000 bushels, will bring growers double what it did in 1932, since the price is now more than double that paid last year.

Many farmers now harvesting are holding their grain in prospect of still further rise in prices, though most grain buyers are not recommending such procedure because of storage cost and damage liabilities including that of weevil infestation. West Texas grown wheat is said to be high in protein, yet this fact does not yet seem to be considered in price paid. Wheat grown in this area in the past has rated as high as 20 per cent protein, and bringing as much as 10 cents per bushel premium.

On the basis of the Federal processing tax, it is expected the allotment coming to Texas wheat growers this year will run in the neighborhood of \$2,200,000.

VERNON PORTER KILLED WHEN MOTORCYCLE CRASHED IN WIRE FENCE ON HIGHWAY 7 SATURDAY

Two Others Budy Cut on Wire When Wheel of Side Car Breaks Off Axle, Porter Buried At Dallas, His Home

Vernon Porter was almost instantly killed while G. B. Stevens and Wm. Lawler more or less seriously injured Friday afternoon when the motorcycle they were riding left the road going through the barbed wire fence on the Santa Fe right-of-way about three miles north of Muleshoe on state highway No. 7.

Porter, who was driving the machine was almost decapitated, the cycle evidently striking the wire fence, at an angle of about 45 degrees, breaking off one of the fence posts, and sliding down the barbed wire for 20 feet or more. Blood stains on the top strand of wire indicate the drivers head was literally sawed off when it came in contact with the wire, only the vertebrae and about one-half inch of skin at the back of the neck remained intact when he was afterwards picked up.

G. B. Stevens, who was riding in the side car of the cycle, suffered a cut about six inches on the left side of his neck which required several stitches to close. There were also cuts on his shoulders, breast and a deep one on his left ankle just below the joint bone. His trousers were torn nearly off of him.

Wm. Lawlis escaped the easiest of the unfortunate trio. He sustained a cut about three inches long across his forehead and another of similar length on the left fore arm and still another on a leg, together with several minor cuts and abrasions.

Porter lived at 1061 Dale street, Dallas while Stevens and Lawlis resided in Los Angeles, California. Porter had been in Los Angeles visiting a brother and sister who reside there, and at the time of the accident was returning to his home in Dallas, where his parents reside, accompanied by his two friends. They had left Los Angeles, Wednesday, June 14, coming across the country in easy stages, taking their time from choice and also because of many bad roads. When the accident occurred, Lawlis, who was riding on the cycle behind the driver jumped as he came in contact with the wire fence, thus probably saving himself from a similar fate met by Porter.

The tragedy happened about 3:30 o'clock in the afternoon. Sheriff Jim O'Cook, Highway Engineer H. N. Roberts, Dr. A. B. Matthews and T. E. Arnold had gone up the highway. They had gone some caliche beds in connection with the improving of state highway No. 7 and were returning to town about three miles northwest of Muleshoe, or probably 500 yards beyond the D. L. Butts home, when they were passing by the motor cycle when riding the tire cycle men were riding. Cook estimated that he was traveling about 25 miles per hour at that time and said the motor cycle and side car was not going fast. Lawlis, one of the occupants, estimated they were traveling 35 miles per hour, at most not over 40 miles per hour.

Highway No. 7 had been recently dragged following the rains the first of last week and considerable loose dirt had been drawn up on the road bed. Lawlis said his first intimation of danger was when the car skidded into the loose dirt alongside the road bed. Porter had considerable difficulty in pulling the cycle back into the roadway and when he did succeed in doing so could not guide it at all, the machine taking a tangent across the road and heading into the barbed wire fence of the railroad right-of-way.

When the accident was over, it was discovered that the right wheel of the side car was broken entirely off, whether it was sprung as they came out of the loose dirt on the roadway or broken off coming in contact with one of the fence posts which was broken off a few inches above the ground by impact of the car. Lawlis said he did not know, but he said the car acted peculiar from the time it started in a tangent direction diagonally across the highway. The motor cycle was an "Indian" make and belonged to Porter who was driving it.

The body of Porter was brought into Muleshoe shortly following the accident, being taken to the Sneed undertaking parlors where it was given attention by the embalmer. Porter was about 25 years of age, of a rather slender type build, had curly brown hair and blue eyes. He weighed about 140 or 150 pounds.

The body of Porter was taken to Clovis, N. M., Friday night for embalming, Saturday evening a brother living in Dallas arrived to take it in charge. It will be taken to Dallas Sunday for burial.

GUPTON MAKES IMPROVEMENTS
C. D. Gupton, local grocerman, last week completed some very desirable changes in his store appearance.

The shelving along the sidewalls has all been rebuilt and repainted together with several of the show cases. Several window displays have been erected and a general rearrangement put in effect throughout the entire store, furnishing more desirable accommodations to patrons and greater efficiency in handling of goods as well as improving appearance of the store.

"Not What You'd Call Broke" By Albert T. Reid

THE REAL FIGURES

The U.S. RETAIL BUSINESS is \$31,500,000,000, which is nearly 3 times the WORLD'S EXPORT BUSINESS of \$12,125,000,000.

Our SAVINGS BANK DEPOSITS are \$24,250,000,000, almost half greater than those of ALL OTHER NATIONS COMBINED, of \$17,000,000,000.

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of this Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

Beast not thou tomorrow; for thou knowest not what a day may bring forth.—Proverbs, 28:1.

Where boasting ends, there dignity begins.—Young.

THE GLORIOUS FOURTH

It's still a great old country and it's still a grand old flag. It's still entitled to a birthday celebration, and it's a poor sort of citizen who can't put his heart into the celebration.

We've come a long way since the first Fourth of July celebration, and since Betsy Ross made the first flag. We've taken a lot of bumps and fought a lot of fights, but we've always managed to come out on top.

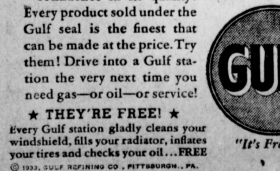

Each wants a different motor oil —and Gulf makes an oil for each!

YOU know best what kind of an oil you want. You know best how much you want to pay for it.

3 Great Gasolines: Gulf Traffic—A dependable, white anti-knock gas. LOW PRICE.

4 Great Motor Oils: Gulf Traffic—Safe! Dependable! low priced oil. 15¢ a quart (plus tax).

must be very fashionable, or else the country is worse off than first thought. But who started knitting the way back? Did Mrs. Roosevelt and her inseparable knitting bags do it? Are folks knitting and quilting to economize?

Not since the World War, when women and girls made sweaters and socks for the boys at the front have so many nimble fingers turned out so many pretty and useful things. It seems like old times to see so many people knitting and quilting, and we all hope it is another good sign of the times.

PRICES GOING UP

For some time Muleshoe merchants have anticipated a rise in the price of various commodities which is expected at an early date, yet the average person has been skeptical.

Auto tire prices have increased from 7 to 10 percent in the past three weeks; cotton textiles are higher than a month ago, and clothing men are advertising that an increase of 40 percent in wool prices will make the new fall garments more expensive.

AD INCREASE 20%

Radio advertising was for a while an attractive fad, but more and more business is coming to realize there is really nothing that takes the place of newspaper advertising.

KNITTING COMES BACK

Journeys Journalettes

One thing that puzzled a lot of Muleshoe people, and something even the preachers haven't been able to satisfactorily explain about the flood is how Noah and his family stock the small of the animals in the ark for 40 days.

Nature knows best. She gives most of the children to the poor so the race won't get too soft to survive.

There are some Muleshoe men who don't believe in the Santa Claus or stock stories and yet they believe some of the big Wall Street bankers will be sent to jail. We're doubling all of it!

As the average Muleshoe citizen sees it, a gentleman farmer is one who loses his own money instead of the mortgagee's.

As a means of evening recovery, almost everybody in Muleshoe is willing for everybody else to make some sacrifices.

Pavement Pickups

Who said Irvin St. Clair wasn't up to date. This is an ideal time for 5 and 10 cent stores to put in a supply of stocks and bonds, and it is reported he will carry such a stock in his variety store.

Thrift note by Alex Paul: "When you go to a bad cold smoke alfalfa. You can't tell the difference anyway."

Ocell McLaury, who has always been interested in the cartoon, "Bringing Up Father," and consequently formed quite a liking for corned beef and cabbage, is one disappointed father now days, for since the arrival of the actions of his superiors in government affairs, it is time for fellow citizens to remind him he's just a little 2x4 scantlin.

Mitchell Buys Registered Premium Winning Guernsey

Jess Mitchell last week purchased a pure bred registered Guernsey bull, Rhea's Noble of Basin View, No. 19272, bred by D. L. Williams, prominent Guernsey breeder of Waukesha, Wisconsin.

"We don't have many fleas or mosquitoes out in this country," says Neil Rockey who smokes without notifying his mother, "but occasionally we get some humbugs that are a worse pest."

Neil Rockey says he can remember when mother used to keep the children out of the jam by locking the pantry door, but now she does it by hiding the key to the car.

SNAP SHOTS

Results of the past three years prove that a depression is a period when fewer people play the fool.

A child specialist is one who tells everybody how to train children except the mother of his own.

An Iowa man recently found \$10,000 in a graveyard. Maybe somebody took it there so the ghost could walk.

A twentieth century statesman is often a man who knows how other countries should be managed and wishes he had the job of managing his own.

HAS THE MEASLES TWICE

J. H. Maxwell, local citizen, is this week recovering from a second attack of measles.

\$9,000,000 LOANS RECEIVED

BOOM!

It's time to prepare for fire crackers and sky rockets; time to be making plans for the big Fourth of July celebration which will soon be a reality. Notwithstanding depressed financial conditions during the past two years, we still have great reasons for rejoicing and thankfulness that we are American citizens rather than residents and participants in one of a dozen or more other nations where conditions are still worse than they are in the good old U. S. A.

Muleshoe To Celebrate

CUT RURAL TEACHERS WAGES

The State Board of Education has cut the minimum of rural teachers salaries from \$5 to \$40 per month.

CONGRESSMAN BUYS REGISTERED ANOTHER DISTRICT IN STATE

Congressman Marvin Jones will be missed next year by many of his friends, acquaintances and staunch supporters in this section, due to the changes made in congressional districts by the legislature when the number of districts was increased from 18 to 21.

Only three presidents—Washington, Jackson and Garfield—have been honored with statues in National Statuary hall.

PLANTING SUBSTITUTE CROPS

It is stated that farmers who are contemplating withdrawing cotton acreage under the Federal government plan may plant higer and peanuts for some consumption. Peanuts, it is said will have plenty of time to mature, and should the fall be late, some of the sorghum grains might also mature, and at any rate would make good feed.

Virginia produces the greater part of the world's output of slab and black soapstone.

Education is a wonderful thing. After eight years in a medical school, a doctor can get a job writing a medical advice column for a newspaper and telling people there's no such thing as a cold.—Cleveland Press.

\$15,000,000 Worth Of Contracts Ready For State Letting

That the approximate sum of \$25,000,000 Federal funds allotted to Texas for highway construction purposes will soon be available, is the statement of C. H. Gilchrist, state highway engineer. Gilchrist also stated that plans were now being rushed toward completion for approximately \$15,000,000 worth of highway construction, much of this to be done in the Panhandle area of the state and to begin sometime in July. Officials and leading citizens of the area believe that U. S. Highway No. 70 and State Highway No. 7, passing through Muleshoe, will be included in the earlier letting of contracts, some even anticipating completion of these two roads will be in the contract letting of July.

COVER DEAD ANIMALS

Dr. A. R. Mathison, county Health officer, states some parties have formed the habit of dargging off dead animals and leaving them on vacant property without covering them. In the future, says the officer, all such animals must be covered, not only to obviate the odor of the carcass, but for health reasons as well, and those failing to do so will be made to feel the brunt end of the law.

BEST LAND BUYS
Our Business
We make it our business to select and offer for sale only the best of land available to our customers. Our observation is that investing extensively in stocks, bonds and other things on can't see or control eventually fails. Paid-for land never goes bankrupt nor disappears. We believe right NOW Bailey county land can be bought for less money than it will ever sell for again in this generation. Write us for listings, prices and terms.

Muleshoe, Texas

State Health Dept Urges Care In The Observation Of 4th

Austin, June 22.—On July Fourth Texans will celebrate the One Hundred and Fifty-Seventh anniversary of our National Independence. Thousands of people will lay aside their business cares and in various ways celebrate the occasion. The Texas State Department of Health believes in this observance but desires that it be as free from accidents as possible and have issued a warning in this connection. Perhaps it is asking too much of "Young America" to insist that the use of blank cartridges, firecrackers, and other dangerous noise makers be dispensed with, but certainly their use should be indulged in with great caution. If accident should happen with any of the above articles, the first thought should be of lockjaw or tetanus. Every wound should be cleaned thoroughly and all foreign matter removed. Every puncture or lacerated wound should receive prompt attention. A doctor should be consulted at once. Every wound should be disinfected if necessary. The use of this serum is a preventive of lockjaw. Care should also be used in case of burns. If swimming is to be a part of the day's activities, care should be taken to select a safe place. Of course pools that have guards are the safest places, but unprotected places will claim their number of bathers and those that cannot swim should be very careful and not venture beyond their depth. In case of accidental drowning artificial respiration should be started at once and continued until medical assistance arrives. According to the Vital Statistics records automobile accidents always show an increase on holidays as there are more people on the roads on those days. Care should be used in driving; keep on your side of the road, give the other fellow a little more than half the road, have lights all tested and inspect your brakes. If ever one would drive carefully and practice common courtesy a large number of accidents and deaths would be avoided.

Dr. Harlan Tells Kivans Slump Don't Stop Smokes

"Tobacco is an commodity that has not been greatly affected by the economic depression," was the statement of Dr. W. R. Harlan, of Richmond, Virginia, guest speaker at the Kivans meeting last Friday. Dr. Harlan is a son-in-law of Mr. and Mrs. J. C. Weaver, this city, and accompanied by his wife and small son, is visiting relatives here and in Las Cruces, N. M., his former home town. He is chief chemist for the Reynolds Tobacco Co., which fact backed by experience prompted his statement regarding the tobacco business. About the only change noticed, he said, was a shift from cigar smoking to that of pipe. Dr. Harlan himself a western native spoke very highly of the future of this section. "Rec'd in the past where it came from it is practically impossible for our farmers on their poor land which has been in cultivation from 100 to 400 years to begin to compete with the luxuriant bumper crops raised by the farmers of this western area on their extremely rich and highly productive soil," he said. Chas. Whitaker, Lubock Kivaniwan, to meet with Sterling P. Evans, district agricultural representative in the government cotton acreage reduction and Judge J. E. Adams and Mr. L. Brown voters at the meeting for information purposes.

Baileysboro News

Busy Bee Club Meet
The Baileysboro Busy Bees met again June 21. There were 23 members present. We have a total of 33 members now. At the last meeting Mrs. G. L. Blackshear, Mrs. J. S. Sears and Mrs. C. B. Wallis brought quilts. Next Wednesday Mrs. W. B. Wallis, Mrs. Eva Rogers and Mrs. Ruthie Blackshear will bring quilts. A new 18 quart cooker has been ordered for the club. The club already has a 25 quart cooker and sealer. Mr. and Mrs. J. M. Moore and family of Sudan, visited their son, Curtis Moore, and family this week. Mr. and Mrs. W. C. Wyatt and sons visited their daughters, Mrs. Rice and Mrs. Durham, of Baileysboro, leaving here to visit their daughter at Brownfield. Jack Woods and W. E. Renfrow made a business trip to Lubbock, Wednesday. Miss Faye Ruth Howard entertained with a birthday party Tuesday. Mr. and Mrs. Curtis Moore enjoyed a show at Sudan Saturday night. Mr. and Mrs. B. W. Wallis and family and Miss Lovella Applin enjoyed an ice cream supper Tuesday night in the W. B. Wallis home. Mr. Falker and family have moved to the 69 ranch where he will work for Mr. Starkey. Carmon Jones of Post, is visiting his uncle and cousins, W. B. Wallis and family and C. B. Wallis and family last week. Mrs. Dick Blackshear and Mrs. Bert Mathis, who are attending school at Tech, spent the weekend at home. James Davis and F. Miller left Monday for a visit with Mr. and Mrs. Bill Huckabee near Roswell, N. M. Miss Sybil Garth is visiting his sister, Mrs. Cecil Harvey, of Muleshoe. Mrs. Mae Shinn and children spent Saturday night with her parents Mr. and Mrs. W. Q. Chaney. C. L. Durham and Woodrow Freudinger returned from Roswell, N. M., Friday. "Red" Hilderbrand left for Oklahoma last Wednesday. Lunny Snow gave a party Saturday night. Charlie Garth left Monday for South Texas. Miss Patsy Nell McCary entertained with a birthday party last week.—Reporter.

Y L News Items

Fifteen members of the Y L Epworth League attended the union meeting at Sudan, Saturday and Sunday. They were: Rev. and Mrs. H. H. Allen, Mrs. T. H. Allen, David Beller, Mrs. David Beller, Cecil Buhrmann, Mrs. Cecil Buhrmann, Gail Willard, Albert Trawick, Dale' Buhrmann, Ransom Robinson, Misses Jean Willman, Olga Shofner and Mrs. Evans and Bertha Darnell. They report a good meeting. Bill Mellon of Clovis, N. M., is in the Y L community and is Saturday looking after the planting and irrigating of his potatoes. Mr. and Mrs. Earnest Shofner and daughter, of Levelland, visited in the home of H. M. Shofner of Y. L., during the weekend. Miss Lucille Brock attended a conference of the Nazarine church at Clovis, N. M., last week. Dr. T. W. Jackson, of Clovis, N. M., will render a musical program at Y L Friday night, July 14th. There will be no admission charges. He is well known here and we are fortunate in securing such an artist for this occasion. Rev. Matthews, of Lubbock, filled his regular appointment last Sunday. He announced a revival meeting to begin July 15. Attendance at Sunday school is increasing. We have more than 100 average attendance again. We are glad to see this increase. Everyone should go to Sunday school.—Reporter.

Flour Tax Is On Soon!
On or about July 5th the Government Process Tax of \$150 per barrel or 7 1/2 cents per 48 pound sack of Flour will be effective. It will be advisable for you to lay in a good supply before this tax becomes effective on our present supply.
Save Money On Your Flour
We have a big supply on hand and will give our customers the benefit of the saving in this advanced buying. With the increased price paid for wheat flour is rapidly advancing in wholesale prices. Dealers get 30 days exemption on sales of flour already purchased and we can now—
Save You 37c Per Sack
Other dealers want to buy our flour, but we are holding it for the benefit of our customers. We have about one and a half car loads of flour on hand now for your saving.

MULESHOE, TEXAS

POISON RODENTS NOW

Rabbits, both the cotton tail and jack variety, are being freely reported more numerous in this section than for many years past, and that much damage is being done to young crops because of them. Ground squirrels and other rodents are also reported to be numerous, all doing their part in the damage of crops and garden. Such damage runs up into hundreds of dollars in a year and much of it may be eliminated. Poison grain may now be secured at the court house here at actual cost for destruction of rats, prairie dogs, rabbits and other animal pests, and farmers and gardeners are urged to get their needed quantities while the supply is still available. Alex Paul will accommodate them. Indiana government cost the taxpayers \$71.08 per capita in 1930-1931.

GILBREATH'S NEICE DROWNED THURSDAY AT LAKEVIEW, TEX.

Mr. and Mrs. W. B. Gilbreath were called last Friday afternoon to Lakeview on account of the death of his niece Mrs. Mattie Isham, 39, who was drowned the day before while attending a fishing party at Fink Lake. Following a midnight supper, a number of the picknickers went in swimming. Mrs. Isham got beyond her depth in the water and called for help, but because of the darkness could not be located by rescuers until too late. Her husband, T. M. Isham was among the picknickers, but did not go in swimming with the party. The body was finally found about 15 feet from shore. Funeral services of the unfortunate woman were held last Saturday.

MASONIC PRODUCE FRI-NITE DR. JACKSON IS THE SPEAKER

There will be a public installation of local Masonic officers for the coming fiscal year held at the High school building here Friday night of this week, to which the public generally is invited attendance. Dr. W. A. Jackson, of Tech college Lubbock will deliver the principal address following the installation service, and there will be special musical numbers on the program of the evening. Refreshments will be served by a Masonic and Easter Star committee following the program. This will be the first program of this kind ever held in Muleshoe, and members of the various committees are bending every possible effort toward making it both interesting and instructive.

Domestic Mistake

When a woman breaks a treasured hand-painted dish while moving a bowl of roses from the radio to the dining room, she is not so angered at her own carelessness as she is disturbed by the thoughtfulness in not having asked her husband to do the job.—Fort Wayne News-Sentinel.

A NEW STORE!
BETTER ARRANGEMENTS AND BETTER ACCOMODATION
Well, you'll think it is new when you come in at the front door. It's at the same location, the same proprietor and clerks greet you friendly as you come in—but the appearance within is far different.
We have effected a complete and modern arrangement of the interior, repainted and redecorated everything in tasty style, changed departments for greater efficiency and added to our already large stock.
You will have still greater pleasure in trading with us. We can serve you much better and more satisfactorily.
Groceries Are Advancing
During the past week there have been many advances in Food Stuffs. Now is the time to lay in a supply not only for immediate needs but for the future, as well. Groceries are destined to go still higher!

Mrs. Bill Jordan, Estelle and Buford Bates returned home last Saturday from Tipton, Okla., where they spent last week visiting friends and relatives. Mrs. Geo. Powers, returned home with them to visit a few days.
Miss Evelyn Gummelt entertained a group of young people at her home Saturday night—Reporter.

A COMMITTEE TO REDUCE COTTON ACREAGE NAMED

(Continued from page one) The other plan calls for all cash payment ranging from \$7.00 to \$20.00 per acre, according to the average past yield of the land in the county.

The application blanks issued this week and which may be obtained from the Steering committee contain a questionnaire as follows: Name, address, own or rent farm and its location, cotton good, fair or poor, fertilizer used or not and how much, amount cotton harvested per acre in 1932, nature of lien on present crop, name and address of lien holder, consent of lien holder to take named land out of cotton production, contract for government option cotton if desired, agreement to not use more fertilizer on remaining cotton acreage than was used in 1932, agreement for government official to enter on land for investigation purposes, election of plan for government payment, signature, inspection blank filled out and signature of committee recommending the application.

It's hard to spread the truth but harder still to keep a lie from spreading.

Prof. and Mrs. C. B. James, superintendent and teacher of the Primary department, Fairview schools, were the recipients of a delightful surprise last Saturday evening when a large number of the friends, school patrons and citizens of that community gathered at the teacherage where they reside to show their friendship, good will and to express their interest in these two teachers who have resided and labored with the young of the community in an educational way for the past two years.

Without any formality of any kind the people gathered there following the recent closing of that school in just a cordial way to enjoy themselves during the evening. They brought plenty of ice cream and cake, all manufactured in the culinary departments of their various homes by their expert women chefs, and if anybody failed to get enough in their anatomy, even after the sideboards had been put on, it was their own fault.

Fairview Items

Among those attending were the following: Mr. and Mrs. E. T. Bates, Jack, Estelle and Bud Bates, Georgia Lee Clinton and Mildred Powers, all of Tipton, Oklahoma, Mr. and Mrs. P. Coleman, Dolores, Linzy and J. W. Coleman, Bettie and Ollie Bellar, Mr. and Mrs. E. D. Bellar and son, Waynon, Mr. and Mrs. W. P. Jackson and children, Mr. and Mrs. R. D. Gatewood and daughter, Mr. and Mrs. J. F. Nettles, Anna Lee and Sybil Nell Nettles, L. L. Gatewood, Mr. and Mrs. U. J. King and family, Mr. and Mrs. Jeff Tucker and family, Mr. and Mrs. Hascal Pierce and family, Mr. and Mrs. J. E. Dawson and Mrs. Dawson's mother, Mrs. Humphrey from Wink, Mr. and Mrs. Arthur Askew and family, Mr. and Mrs. S. R. Little, Mr. and

Citizens Urge An Increased Valuation Of West Texas Land

C. L. Geesey, Amarillo, representing the Panhandle Agriculture Association, with headquarters in that city, was in Muleshoe Tuesday afternoon conferring with local citizens relative to land values and crop production costs in Bailey county during the past few years.
The association represented by Mr. Geesey is endeavoring to obtain from the Federal government a more equitable and higher valuation on lands in this area as the basis of federal loans to farmers, many of whom are on the verge of losing their farms and homes.
Recently a committee of interested citizens and business men of Amarillo went to Washington, D. C., to confer with head officials there regarding an increased value for West Texas lands, and it is understood another visit to the national capital will be made in the near future after fuller required data has been obtained.

STOP GAS PAINS! GERMAN REMEDY GIVES RELIEF

Acting on BOTH upper and lower bowels Adierika washes out all poisons that cause gas, nervousness and bad sleep. One dose gives relief at once. Western Drug Company.

County Court Opens July 5

Bailey County court convenes here next Wednesday, July 5th, it being understood there are several cases on the docket coming up for adjudication, one or more being for retrial.
Fetit jurors summoned to appear on the opening day are as follows: J. E. Embry, Carl Hall, E. J. Calloway, R. L. Hobbs, H. W. Goolsby, Orval Fowler, R. D. McCormick, Roy J. Dunn, S. F. Cahill, J. C. Bighanham, O. V. Cooper, G. C. Gray.

Girl Scout News

Members of the local troop, Girl Scouts, met last Tuesday afternoon in the American Legion hall under direction of Commissioner Mrs. J. C. Weaver. Mrs. A. P. Stone, of the Court of Awards, was also present.
The girls utilized the lesson hour in practicing a drill they expect to give here on the Fourth of July.
After the drill Mrs. Stone took Mrs. Weaver and the 20 girls present to Mrs. Faulkner's swimming pool, her car so heavily laden it very much resembled the "old woman who lived in a shoe," of Mother Goose legend. All the girls can swim some, and a few of them have passed their swimming tests.
There was but one scout absent from this meeting, except those who are out of the city visiting. It was a fine attendance, and we hope it will be continued.—Reporter.
