## Santa Claus Is Coming Friday

Christmas lights are going up. Holiday season is in the air.

"They have been putting them up every since I've been here, since 1949." This was a statement made by Bob Whippo, local manager of Southwestern Public Service Company, when he was asked how long the employees of his company had been putting up the Christmas lights for Seminole. He further stated that the city helped put them up and that the lights were stored in the city barn. There are between sixteen and eighteen lineal blocks of lights put up and something around one thousand bulbs. The bulbs are from twenty-five to forty watts. In addition to the lights, about six hundred feet of unlighted decorations are installed.

The Chamber of Commerce furnishes the funds for new bulbs, replacements, and repairs. The County is responsible for the decorations and lights surrounding the courthouse itself. Southwestern Public Service Company furnishes all the electricity for the lighting which stays up about five weeks. If any of you would care to know about the cost of the electricity, contact Junior Thornbury at Thornbury's Barber Shop. One string crossing the street was hooked onto his meter a few years ago. It was soon corrected.

There are overhead suspension wires that were put up in the past that the lights and decorations are hung on.

The company has a six-man crew working. They are: Wayne Thomas, foreman; Alfred Sims, lineman; Malcom Martin, lineman; Walter Ellison, driver; Jimmy Baker, serviceman; Norris Jones, meter reader. Other company employees are Jimmy Pierson, serviceman; Mrs. Porter Fitzgerald, office; and Mrs. Sue Cristy, office.

## School Board Meeting

The school board met Monday night with all members present. A group of Jehovah Witnesses had requested permission to use the high school auditorium and the cafeteria for a convention which will run Friday through Sunday, probably during April 1968. Mr. Carl Gummeson of Denver City was available to answer questions which arose.

Motion was made and carried unanimously "To adhere to school policy and regulation No. 701 and deny the request of the Jehovah Witnesses to use school facilities for circuit convention!"

Regulation No. 701 states: "The Seminole Board of Trustees is eager for the people of the school district to use the buildings, grounds, and equipment of the school system for educational and recreational purposes when not in use by the schools."

Bills were approved for the month of November by the board.

They approved the request of Miss Janice Glaze to resign at mid-term as she is getting married in March.

That Grand Ole Man of Christmas is coming to Seminole, Friday, December 8. Santa Claus will have a lot of candy to be distributed by the Lions Club members and will ride in the parade scheduled to start at 3:05. School will be dismissed at that time so that everyone can see the parade and participate. Besides Santa Claus, there will be eight floats, the choir, Odessa College Senioritas, Mrs. Lane's third grade room, the Peach Queen of Texas, implements, cars, and probably a horse group.

The parade will form at Avenue C and Fourth southwest, go north to the Hobbs Highway, east around the Courthouse, back south to Avenue D, and west to disperse.

The street decorations will be up, the courthouse lawn scenes completed, and merchants will be ready to roll out the red carpet.

NEWS ITEMS OF INTEREST TO FARMERS

Farmers in this area were reminded that annual reports of the earnings of their farm workers are due in the office of the District Director of Internal Revenue by January 31, 1968.

H. P. Thomas, Odessa Social Security District Manager, noted that the earnings of many farm workers are covered under social security. A farm employee, to be covered, must be paid at least \$150 in cash wages during the year by his employer, or work for the employer on 20 or more days during the year for cash wages figured on a time basis (rather than a piece-rate basis).

For 1967 the social security tax rate is 4.40 percent each for employer and employee on cash wages up to \$6600. The tax amount must be entered on Form 943 (Employer's Annual Tax Return for Agricultural Employees) together with the total amount of cash wages paid to each farm worker.

The procedure to be followed in the treatment of water wells that have been tested by the laboratory and found to have "coliform present" is as follows: For the normal size well, mix 1 gallon of clorox or purex to 5 gallons of water, or drop 8 to 10 HTH tablets in the well, and let stand 12 hours.

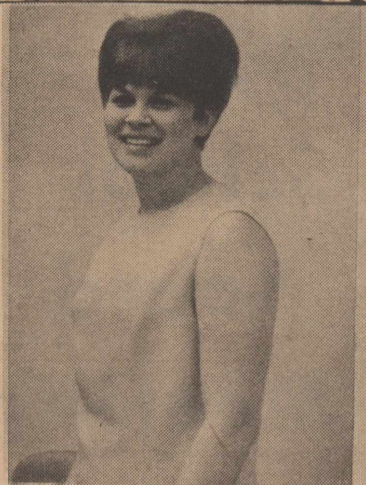

Pour your liquid into well, then open each hydrant one at a time and let the water run until the smell of chlorine comes through, cut hydrant off. Then cut pump off and let it stand 8 to 12 hours.

DO NOT DRINK THE WATER IN THE PROCESS OF TREATING IT. Water should be used for the bath room only. After 8 to 10 hours, open hydrants, and let water run for 1-1/2 to 2 hours or until chlorine odor is gone. Now the well is ready for normal use. After this procedure has been followed, take another sample in four days to make sure the water is safe to use.

## Personal

Bro. Bill Klingsmith and family are moving from Three Rivers to Ft. Worth. He will attend the Baptist Seminary there.

Josie Fox received a letter with their new address, 1916 Spurgeon Street, Ft. Worth, Texas. They thanked her for sending Seminole News as they enjoy reading it very much. They look forward to the paper each week. Bro. Bill was pastor of Fairview Baptist in 1965. I know they would enjoy letters and cards from their old members and friends.

DARLENE GILLISPIE IN CAMPUS BEAUTY PAGEANT

Miss Darlene Gillispie, a Seminole High School graduate, was one of 24 contestants chosen to compete for Campus Beauty of Wayland Baptist College.

Judges for the Pageant were Mrs. Natalie Russell, Amarillo College, Miss Jan Glenn, Miss Lubbock of 1967, and Robert McKinney, champion golfer and nominee for the title of most handsome man among Texas Texas students. At a tea in the Home Life Building, twelve semi-finalists were chosen. Selections were made on the basis of outstanding conversational ability, beauty, poise, and charm. Miss Gillispie was one of the semi-finalists.

Darlene is the secretary-treasurer of the Sophomore Class and is the reigning Wayland track team sweetheart. She is active in many campus activities and is employed in the Business Office at Wayland. She is the daughter of Rev. and Mrs. John Gillispie of Crowell, former residents of Seminole.

The Seminole Volunteer Fire Department was called out at 3:57 p. m. Sunday to Farmers Gin, 3 miles North on the Seagraves Highway. Buster McCullough is shown as he finishes extinguishing the fire.

The "Red Carpet" was out for the people who toured the home of Mr. and Mrs. Roberson at 601 S. W. Avenue E for the Tuesday night "Tour of Homes" arranged poinsettias, satin Christmas balls and foliage in an antique gold epergne. The arrangement of silver and white was featured in the living room of the home.

"Carol of Dreams" was the theme used in the Chester Roberson Home for the Tour of Homes Tuesday night. Mrs. Roberson, an accomplished artist and musician, played selections of Christmas music on an antique organ. Candles accented with seasonal decor and a hand-painted china vase complimented the musical setting.

An old fashioned holiday in "A Houseful of Dreams" was depicted in the Parker home. Mrs. Parker (in anticipation of the arrival of their grandchildren) decked their tree with garlands of popcorn and tinsel. One feature in the family room of the home was an arrangement by Mrs. Bill Oswalt which had a pair of spectacles and an old-fashioned lamp placed in front of an open Bible. The Bible was opened to the Christmas story. A white dove was suspended from the ceiling.

Lovely golden bells backed by Christmas greenery and interspersed with pine cones and ribbons, was fashioned by Mrs. Bill Cravy. The gala holiday arrangement was one of the highlights in the Elton Parker home. Tuesday night Seminole residents (and many from out of town) were delighted as they toured the homes of local artists.

Here we accept what no one else wants. Caliche is hauled out, refuse is dumped in, burned, then covered and the process started over. Note in the background the Dumpster truck and the Seminole towers.

**SEMINOLE SANITATION DEPARTMENT**

The Sanitation Department of Seminole requires five trucks to haul off our trash and refuse. One of these trucks works only on Monday and Friday. The other four trucks work five days per week.

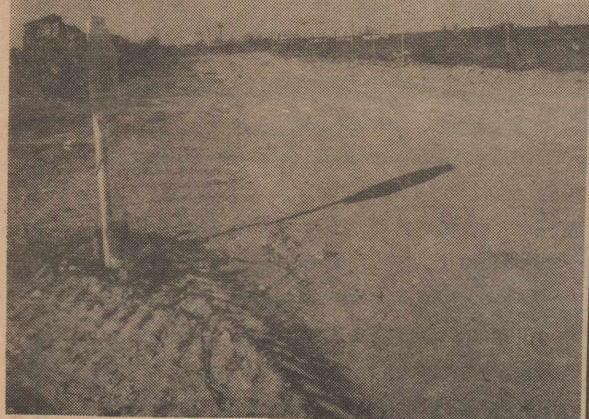

One is a flat bed. One handles the Dempster Dumpsters and the other three are pack-mors.

There are 37 Dumpsters ( the big metal containers that they pick up and carry to the dump ground) in Seminole. These are dumped on an average of three time a week or 18 - 20 loads a day, five days a week.

The oldest one of these trucks will soon be 13 years old (1955 International). The youngest is near five years old (1963 Chevrolet). The three pack-mor trucks (with the big hydraulic cylinder that continually packs the trash as they load) loads two to three times a day. The 1960 model flat bed truck varies to the amount it carries off. So Seminole's refuse amounts to 30 or 40 loads a day besides what individuals carry out to the dump grounds.

As we Americans demand better foods we demand better packaging, as we demand better packaging we have more throw aways. This takes more trucks and more men. IF YOU CARRY REFUSE TO THE DUMP GROUND, PLEASE DUMP IT IN THE PIT AND NOT ON THE ROADSIDE.

How easy it is the night before to get up early the next morning.

## EDITORIALS

On December 12, I am going to vote for a city one percent sales tax for the following reasons:

1. To grow, a city always needs more money.
2. I think it is the fairest tax that can be paid.
3. The city needs new equipment.
4. The city needs the streets repaired.
5. The water field and water equipment needs up-dating.
6. It is the first relief from ever-increasing ad valorem taxes.
7. Seminole and Gaines County taxes have always been small in comparison to other places where I have owned property.

W. W.

Five more Texas cities have given overwhelming approval to one per cent city sales tax levies.

Huntsville, Uvalde, Seguin, Commerce and Llano voters asked for the tax by margins ranging from two-to-one to eight-to-one.

So far, 33 cities have approved the local revenue-raising method passed by the Legislature this year although it was believed to be highly controversial. Only two, Lufkin and Electra have turned it down.

Norton, filled in. Ronnie's grandmother, Mrs. A. R. Robinson, of Post was a special guest. Mrs. Norton and members of the houseparty wore blue net corsages with a small handy kitchen item featured.

Guests were registered by Mrs. Robert Bice.

The refreshment table was covered with a white lace cloth over blue. Crystal and silver appointments were used. The centerpiece was an elegant arrangement of white carnations and daisies, featuring a picture of the bridal couple with gold wedding rings forming the background for the arrangement.

Presiding at the serving table was Misses Nila Norton and Connie Golden. Bride's punch and white cake squares topped with a blue flower was served.

Gifts were on display in the bedrooms of the Golden home. Hostesses for the happy occasion were Mmes. Glenn Brown, Weldon Smith, Charles Shelton, Leon Foote, A. C. Stanley, E. B. Baker, Marshall Somers, J. L. McCrummen, R. W. Bice, George Earle, James L. Jones and Raymond C. Golden.

It finally happened in Seminole. Jackie Gotherd, an Indian in years gone by, brought back a talent-laden group of Golden Cranes and beat Seminole handily, 56-69.

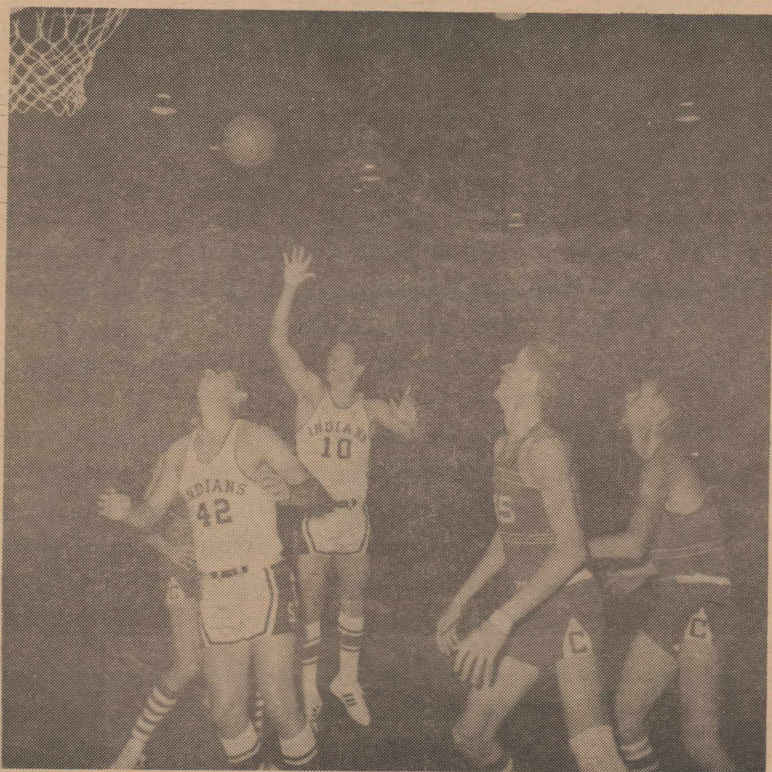

His team was slow, graceful, tall, and when they put the ball up the scoreboard changed.

Ray and Cottrell led Seminole with 17 points each. Wall went out early with an injury and scored only 2 points, Anderson - 5, Patton - 2, Spencer - 4, Shuler - 1, Allen - 4, and Nelson - 4.

We hope the Indians are wound up for the Snyder Tigers Tuesday night.

Mickey Ray led the Indians in a losing cause Tuesday night in Snyder with 13 points. Cottrell scored 11; Spencer, 9; Nelson, 8. Snyder led in every quarter. They led by 2 at the end of the first quarter, 3 at the half, the score was 35-50 at the end of the third; the final score was 59-62. Three boys went out with bad ankles, Ray, Nelson and Wall. Seminole hit 39% of their shots.

The B-team won 60-48. C. J. Danley was high point man with 20 points, followed by McDonald with 14.

Ray scores as Nelson, No. 42, looks on. Notice the height of the Cranes.

Jay Anderson is shown in the act of shooting. No. 45 is the boy that kept shooting over our heads for 2 points. Look at his height and you will know why.

# A Story About Your School

## SPECIAL READING PROGRAM

In every school there are normally intelligent children who do not learn to read and spell satisfactorily by the regular classroom methods. Children learn all skills in ways unique to themselves. Therefore, reading methods suitable to the majority of pupils completely miss some hard working intelligent children. For many years these children were reproached for their lack of industry or ability. Increasingly, conscientious teachers and parents are realizing that these children often learn to read if given special help.

The Special Reading Program in Seminole Primary School was organized this year. It was designed to help children attain their fullest potential in reading. The principal, John Golmon, and teacher, Mrs. Gerry Hunt, selected materials and methods that lend themselves to individual needs of the pupils. The program serves second and third grade pupils who are reading both below grade level and believe ability. Classes are kept small since individual attention is the key to success of such a program.

**Spelling:** These children are "coding" sounds into words. The purpose is to help the child hear the sequence of sounds that make up words. The steps are (1) Hear the word, (2) Repeat the word, (3) Say the sounds in sequence heard, (4) Write the word repeating each letter as it is written.

**Games:** These children are reinforcing vowel sound recognition through a game: Minnie Gauna, Cathy Kelley, Ernest Ramirez, Johnny Escabedo, and Robert Sinclair.

**Words in Clay:** Forming letters out of clay is one method of helping children associate the sounds with their symbols. Besides the sensory channels of seeing and hearing, those of feeling and movement are involved. This is called a multi-sensory approach. Those pictured are: Samuel Vela, Ramon Montanaz, Francisco Gonzales, and Ramira Garza.
