

In Gaines County there are very few of the old ranch houses still standing. The above home was built by Ulyass Dalmont in 1906 or 1907. The lumber was freighted from the old Burton Lingo Lumber Company in freight wagons. How many freight wagons it would take to freight this huge house through the sand is not known. The home still stands 20 miles east and approximately 1/2 mile south of Seminole on the Lamesa Highway. It was once owned by the M. S. Doss family and others and is presently owned by the Hardbergers of Lamesa. CONT. PAGE 3

THE PROPOSED MEMORIAL HOSPITAL FOR SEMINOLE

One hundred thirty nine interested people met last Thursday night at the 106th District Courtroom to discuss pros and cons of Proposition #1 and Proposition #2 concerning the vote on the new hospital. The question seems to be not whether to vote for #1 or #2, but how to vote for #1 or against #1, which is the 50 bed hospital proposition in Seminole. It was pointed out if Proposition #1 passed it would raise taxes on a \$15,000.00 home \$6.08 a year. Dr. Norman Cunningham from Menard, Texas, one time Seminole resident and married to the former Mary Lou Brown, a teacher, said, "We live at Menard. They wouldn't vote for a new hospital until they did without a doctor a year or two, then they were willing to vote for anything. Businessmen there will tell you when people leave town to go to the doctor and the hospital, they buy their clothing, they shop for groceries, and they buy their drugs other places. Menard almost dried up and blew away."

THIS IS WEST TEXAS

This is as much West Texas as the Plains can be. An eight foot rumble weed rolls across the Lamesa Highway.

How's this for a Christmas present? Albert McGuire admits this 4156 International tractor is a gift from Albert to Albert. Riding a Cub Cadet in the foreground is Elbert Medlin from LMH Truck and Tractor, Inc. The huge tractor has a draw bar estimated at 125 horses, 140 horses PTO (power take off). The industrial tractor has a four wheel drive and will be used in the farming operation on the McGuire farms. It will easily handle a 12 row planter or a large five disc Baker plow. It has power brakes and power steering.

Mrs. Joe Lomay of Meridian, Texas has been visiting in the Claude Chappell home.

The late Miss Ora Cobb bought the above Duncan Phyfe couch in approximately 1930. She bought it from a woman who said her parents started housekeeping with it in approximately 1900. Kermit Bishop covered the piece of furniture - "My last job after 25 years of reupholstering furniture here," he said. "I'm glad it ended up on this outstanding kind of furniture." He went on to say it was the first covering for the hand engraved piece. Dorothy Hargrove would be pleased to "show off" the newly covered, hand designed with the carved birds, that makes up the beautiful antique.

CONTINUED FROM PAGE 1

Huge cedar trees stand on the north and east sides of the house. A windmill can be seen in the background that sets in the corral area south of the old homestead. A huge concrete porch encircles the east, the north and the west sides. Twenty columns support the roof over the porch area. Weather vanes can still be seen, along with the chimney coming from the basement. More than one person thought that the house was purchased from Sears Roebuck but evidently that was the house across the highway, or the present Whitaker ranch that sets approximately 3 miles north.

"That was my room upstairs on the east side," said Dee Coker. "Actually it had four or five beds in it where the cowboys stayed. The O'Neal boys and myself worked there when they were dipping cattle. It was my job to keep the cattle moving in and moving out of the dipping area. We dipped thousands of head. I'll tell you, they fed good. They knew how to go out and pick up an 8 or 9 month old beef that was still sucking."

But, back to the house. On the west side a portion of the porch is screened in where the kitchen and the pantry are located. Three doors led off this enclosed portion to the office (den or library), to the kitchen and to the pantry. Besides the pantry, the kitchen and the office, there was the parlor downstairs, a living room, a huge hallway, a den or a bedroom and a dining room that would seat upwards to thirty people. The house had seven doors going outside. There was a cistern on the west side of the porch area and another cistern on the east side. There was a basement that opened up from the pantry area or could be entered from outside. The furnace in the basement evidently burned coal. It has long since been removed.

Upstairs were four huge bedrooms, most of them having three windows each, looking out three directions. There was a large landing above the stairway and a seating area, plus the only bathroom in the house. In the bathroom in a closet was a ladder leading to the attic. One lighting system used in the home, it may have been the original system, was carbide with copper and/or brass fixtures and chandeliers.

On the south side of the highway the ranch was thought to cover 37 to 40 sections. It was believed to cover 12 to 15 sections on the north side of the highway. The business of dipping cattle for all area ranches set just north of the highway where the ranch foreman lived. (The house still stands.) The dipping vat was built about 40 feet long, approximately 2 feet at the bottom and 3 feet at the top. Cattle were jumped off into the vat and swam toward the other end to a gradual incline where they walked out. Mr. Coker said, "A lot of times we had two or three herds laying out ready to come in and be dipped."

People who cook with pride cook with GAS. Mrs. Viola Jordan does.

Some of the world's best cooks are found in the kitchens of America, and they give themselves every cooking advantage, like gas range cooking. Good cooks like Mrs. Jordan and nine out of 10 professional cooks agree that precise temperature control makes the difference in good cooking, and with gas you get exactly that. Gas also gives immediate response and constant temperature, so important in oven cooking.

So, give yourself every advantage and cook with gas. Remember, people who cook with pride cook with gas.

Here's one of Mrs. Jordan's favorite recipes.

CHICKEN CHOW MEIN

Mrs. Viola Jordan, Gray County Courthouse, Pampa

- 5 lb. chicken (I sometimes use a large, fat fryer)
- 1 medium sized onion
- 1 small can mushrooms (chopped)
- 1 small package spaghetti
- 1 no. 2 can tomatoes
- 1/2 cup ripe olives (chopped)
- 3 tbs. Worcestershire Sauce
- 1 button garlic
- 3/4 lb. grated sharp cheese

Cook chicken with one button garlic until tender. Cool and bone chicken. Cook spaghetti in plain water. Saute onions, add tomatoes with a pint (2 cups) of broth. Make a paste of 2 tablespoons of flour and cold water and add to onions and tomato mixture and simmer 30 minutes. Add chicken, mushrooms, olives, spaghetti. Sprinkle grated cheese on top of mixture and bake in a large baking dish for 30 minutes in a hot, gas oven (400 degrees). Serves 10 to 12.

VOTE NO

DECEMBER 19 ON BOTH HOSPITAL BOND ISSUES BECAUSE OF THESE FACTS

SEAGRAVES AND LOOP RESIDENTS ARE NOT AGAINST PROGRESS. THEY ARE FOR THE FINANCIAL AND MORAL BENEFITS WHICH ARE BEST FOR OUR COUNTY. HOWEVER THEY ASK EACH VOTER TO USE REASON AND FACTS BEFORE BACKING ANY ISSUE. WE OPPOSE THE HOSPITAL ISSUES BECAUSE:

1. The present hospital in Seminole has 28 beds. According to the Seminole Hospital Administrator the average occupancy for this medical facility is 18. Does this merit a 50 bed hospital for Gaines County?
2. Mr. and Mrs. Gaines County - Have you seen the plans for the hospital facilities? Why not take the time to go to the courthouse and see the plans.
3. How do you feel about a 50% increase in taxes on your land Mr. Farmer-Mr. Rancher? Go to the courthouse to see if this statement is true.
4. Has H. E. W. approved the present hospital in Seminole? If not, why not? Will H. E. W. approve a new hospital in Gaines County? What assurance do we have?
5. Mr. & Mrs. Voter: Do we want tax paying, private enterprise in this county or do you want the government to build a hospital?
6. Do you, as a Gaines County tax payer, know how much county money was spent on the two hospitals last year. Why not go to the courthouse and find out.
7. Can a 50 bed hospital be operated with the same staff as a 28 bed hospital? Why not check at the courthouse and get the facts.
8. Why should either hospital not be approved by H. E. W.? What has H.E.W. said about these present hospitals? Have either of them been disapproved?
9. What happened to the idea of building a hospital half-way between Seminole and Seagraves. Is Seminole truly the center of the populated area of the county?
10. Why can't Memorial Hospital be built on to, if the county and Seminole need a larger hospital? Is the figure quoted on cost authentic?
11. Will the people in Seagraves and Loop use a 50 bed hospital in Seminole? Will the citizens in the north part of the county go elsewhere? Can Seminole support a 50 bed hospital alone?
12. When the first plans were being formulated to do something about hospitals in the county were the citizens in the Seagraves and Loop areas consulted?
13. Will a two million dollar hospital attract more doctors or registered nurses to Gaines County? Has this been the case in other areas? Why not check around our area and see.
14. A spokesman for the hospital issue said that adding on to the present facilities would be prohibitive and would cost \$1,700,000, but the survey which Seminole proponents of the issue build their case upon stated that the addition and remodeling of the existing hospital at Seminole, adding 18 new beds, would cost \$787,500 which is 1 million dollars less than the proponents claim.

Some 400 students from eighteen schools of New Mexico and Texas competed in the 6th annual Hobbs invitational speech tournament last Friday and Saturday. Student from Seminole, Andrews, Kermit, Midland High, Midland Lee, Hobbs, Santa Fe, Los Alamos, Alamogordo, Albuquerque, Taos, Odessa High, Muleshoe, Lamesa, Denver City, Palo Duro, and Clovis competed in seven different events.

Dixie Mercer and Billy Earp were kept busy. Mercer entered debate, extemporaneous, and humorous speaking. Earp entered debate as Mercer's colleague, and he competed in oratory and oral interpretation. Mercer and Earp placed 4th in the tourney in debate and were beaten out of the finals in each of the other events by only one point.

Janis Huggins teamed with Ann Berry for duet acting. Another duet team were Rita Robinson and Cherri Norris, who were edged out of the finals by one point. Rita Robinson, also competed in memorized drama and again, was edged out of finals by only one point.

Esther and Estella Quintanilla tasted the sweetness of success in girls debate, but were unable to make finals. Other unseccessful but hard-fighting contenders included Mark Thompson in extemporaneous speaking, and Nancy Hunt and Travis McDonald in Oral Interpretation of Prose. Larry Woods alone represented Seminole in Oral interpretation of poetry; He got good critiques, but not a chance for the finals.

Accompanying the speech squad to Hobbs and lending much appreciated moral support was Mrs. W.E. Berry, Jr. The speech coach and his wife, Mr. and Mrs. Jack Norris, acted as sponsors on the trip. The next competition will be in Dimmit on Saturday, December 19th.

Editorial

I feel there's a number of things that need to be discussed concerning the new hospital.

1. A fifty bed hospital can house patients for a staff of four or five doctors. Hence, the findings of the original firm that studied the hospital needs for Gaines County.
 2. The story that's been circulated that other people will be glad to come in and build a hospital is a bunch of baloney. It is true that Hospital of America, Inc. has built hospitals in some areas. If my information is correct, there's been many guarantees made for them which spells nothing but dollars.
 3. It is true that the hospital in Seminole has lost money. It was not set up to make money. The court that set it up decided it would be better for the many residents of the area to share in the cost of people unable to pay hospital bills than it would be to divide the cost among only the sick and the users of the hospital. This came about this way - if one hospital bed being used was unable to pay, the court felt it unfair for the other beds to make up that share. Hence, a loss will keep on occurring under such an arrangement. Originally it was set up if 100% paid, the hospital would break even. It is unfortunate that our times are causing small businesses to go broke, small schools to close and small hospitals to cease operation. It may not be good in every case but unfortunately it is still so.
 4. Another false statement concerning a new hospital is the amount it would cost in taxes. Taxes would not go up 25%, as has been stated many times, but would only go up a small percent of the county taxes only. Example: An estimated \$6.08 for a \$15,000 home, a 160 acre farm at \$300 an acre - \$28.36. It was pointed out that at the present time Medicare and Medicaid pay 27% of the overall operation and cost a running hospital. It is estimated by 1975 that this will raise to 66%. The hospital is at present collecting 86½% of all charges made.
- The group of people representing the Seagraves Chamber of Commerce stated at the public meeting Thursday night that they did not want a new hospital. Seminole people will vote Saturday on a proposition that will increase the facilities for the sick, where there will be room for four doctors.

I thought I had a heart attack in 1966. I passed out. I came to and Dr. Koberg was running in and out of my room, making necessary arrangements for my relief. Fifteen minutes before I would have have paid any amount not to have driven to Brownfield, Hobbs, or Andrews. I hope there's enough of you who feel the same way that will cross in one square, voting Saturday and voting YES on Proposition #1.

Letter To The Editor

To The Editor:

I would like to express my "two cents worth" concerning the Hospital Bond Issue to be voted upon this coming Saturday, December 19th, by the citizens of Gaines County.

I speak as a citizen. Communities like persons, have character. In fact they are the sum-total of all persons who make up a community. Therefore, a community reflects the character of its people. If our community (Gaines County) had no churches, this would reflect our lack of concern for religion and morals. If we had no schools, this would reflect our lack of concern for education. If we have no hospital, this would speak of our lack of concern for the health and welfare of our people.

It cost money to build and maintain our churches. It cost money to build and maintain our schools. It cost money to build and maintain a hospital. Name one worthwhile thing that DOES NOT cost money. Can you think of a better way to invest money than in the institutions of a community... institutions that reflect your character of love and concern for the good of humanity.

Real Christian character is revealed in the deeds that bless the greatest number of people possible for the longest time possible. I pray that our COMPOSITE CHARACTER, as a community, will reveal our love and concern for people by an overwhelming majority vote FOR PROPOSITION #1 on Saturday, December 19th.

A trip to 'Never Never Land'. "Have you been taking dope?" the doctor asked. They said that I said, "Nope, no dope." He looked in my eyes, he looked in my ears, he looked down my throat and then he examined my arms very carefully for needle marks. The day came. The day was gone. Another day came and I awakened to the fact that I had made some sort of trip to 'Never Never Land'.

If a powerful man made chemical lysergic acid diethylamide, generally called LSD, that was developed in 1938 from one of the ergot alkaloids can send you on a trip such as I had, who would want to go. I don't want to go for "curiosity" again, I don't want to go for "kicks" again or in the quest of religious or philosophical insights. If marijuana, a drug found in the trees and leaves of the Indian hemp plant, leaves you with the kind of headache I had, no, thank you.

If heroin, cocaine, opiates or other drugs leaves a person as exhausted as the trip made

me, I hope someone else gets the enjoyment instead of me.

Last Friday or last Saturday while visiting in Kenville I went out to our quarters, a vacation trailer house, took a good hot bath, evidently dressed and fell across the bed for a nap. Some two hours later I was aroused and awakened to a new world. I moved, I responded, I talked, but without cognance of really what was happening. I asked Frances to drive the car. We drove over a road to the fishing hole over on Meeting House Creek without knowing it or realizing it. Thank goodness, I insisted on a driver.

If I were to try to relate to you some of the bad dreams I had you wouldn't believe them. There was death aplenty to the people I cared for on every side, even my brother-in-law had lipstick over one eye and I smiled to myself, thinking "he's dead and doesn't know it". But, there were no good dreams during that time and the best part about the trip was when I finally came to and was surrounded by people who cared.

Evidently, I had been partially asphyxiated. (I'll tell my story my way and you tell my story your way.)

How terrible it would be to wake up and be in jail or be surrounded by other people on similiar trips or be in a gutter. No wonder people on drugs hasten to make another trip because of the reality of surroundings. I was trying to come to and I began to realize their concern. Every time I would arouse, everything stopped. All ten members of the family were anxiously awaiting for me to assure them that I was all right. The doctor said I acted like a person on drugs. I responded like a person on drugs and came to like a person on drugs.

I cannot imagine anyone not wanting full command of their thinking facilities. How terrible it would be to worry about, when under full power, to realize some of the things you might have done. If I'm ever unfortunate enough to make another trip, I hope I'm fortunate enough to come to surrounded by those who care and it will be accidental again and NOT ON PURPOSE!

The Young Homemakers, with the help of the Seagraves Chamber of Commerce, sponsored a lighting and decorating contest of the rural and town homes at Loop.
