Bronte Park Restoration meeting set for September 14

Bronte Park Restoration will hold a meeting Monday, September 14, 2015, at 7 pm in the Williams Building in downtown Bronte.

The group met for their first park workday in July where they tackled the old bridge, trimmed trees, swept, picked up trash, pulled weeds, and attempted to remove graffiti. They also put up a beautiful rock bench and added rock barriers at the entrance. New swings were added to the current poles at the park with missing swings. Among the swings installed were two toddler swings and three regular swings.

The current projects include:

-501c application completed and submitted. It will take approximately three months for the approval process and then the group will be able to apply for large foundation grants.

-Quotes were received on resurfacing the basketball and tennis courts; a fence around the courts, and a disk golf course.

There has been some confusion regarding the park organization and the Restoring Bronte Foundation. RBF is a

separate organization from the park. The goals of RBF are city/community wide projects, not just the park projects. Some of RBF goals include tearing down dilapidated houses, assisting community members with help cleaning up their lots or making repairs to their homes, and encouraging new development.

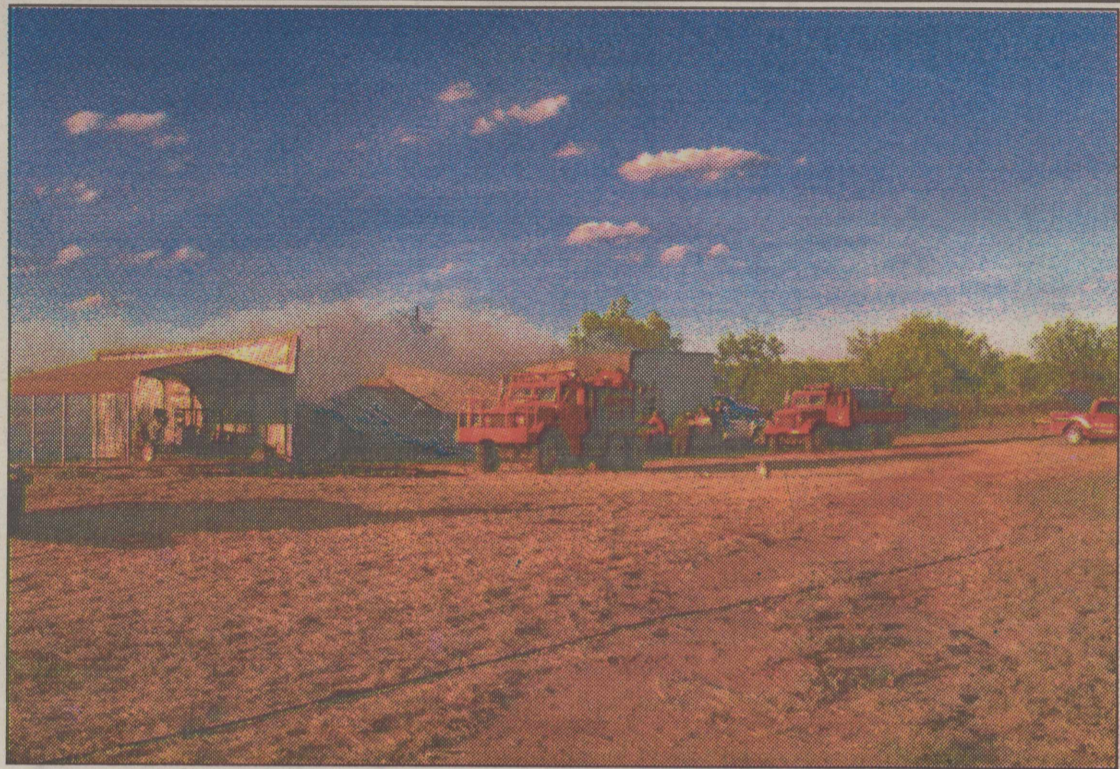

Robert Lee Street Affair set for September 19

The annual Robert Lee Street Affair is slated for Saturday, September 19, 2015. There will be a washer pitching contest during the Street Affair. Books will open at 10 am and the pitching starts at 1 pm. Cash prizes and trophies will be given. Call (575) 415-7454 for more information on the activity.

Reserved seating is available for the Street Affair dance featuring Rick Trevino, Rough Creek & Romaldo y Grupo Fuerzo. Tables seat 8 people and include rustic lighted centerpieces, ice, cups, water and sodas. These tables are limited.

Vehicle Fire! At approximately 1 am, Tuesday, September 1, 2015, a 2003 Chevrolet Trailblazer caught fire near the intersection of Highway 70 and FM 3399 (Lake Dam Road) north of Bronte. The woman driving was from San Antonio in route to Sweetwater and suffered no injuries in what is thought to be an electrical fire. Coke County Sheriff's Deputy Russell Johnson, Precinct 2 Constable Marty Boyd and two units with the Bronte Volunteer Fire Department responded. The vehicle was a total loss and ignited a small brush fire.

Explanatory Statements for the November 3, 2015 Constitutional Amendment Election

Proposition Number 1 (SJR 1)

SJR 1 - Current law provides an exemption of \$15,000 from the ad valorem taxation for public school purposes of a residence homestead. The proposed amendment would increase this exemption to \$25,000, starting in the tax year beginning January 1, 2015. In order to reflect the increased exemption on the homestead of a person 65 years of age or older or a disabled person, the proposed amendment would provide a reduction to the current limitation on the total amount of ad valorem taxes. The proposed amendment would protect school districts from all or part of the revenue loss by authorizing an appropriation of funds according to formulas set by the legislature. In addition, the proposed amendment would authorize the legislature to prohibit a political subdivision from reducing or repealing a homestead exemption adopted by the political subdivision. Finally, the proposed amendment would prohibit the imposition of a tax on the conveyance of real property, but would not prohibit the imposition of a business tax measured by business activity, a tax on the production of minerals, a tax on the issuance of title insurance, or a change in the rate of a tax in existence on January 1, 2016.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment increasing the amount of the residence homestead exemption from ad valorem taxation for public school purposes from \$15,000 to \$25,000, providing for a reduction of the limitation on the total amount of ad valorem taxes that may be imposed for those purposes on the homestead of an elderly or disabled person to reflect the increased exemption amount, authorizing the legislature to prohibit a political subdivision that has adopted an optional residence homestead exemption from ad valorem taxation from reducing the amount of or repealing the

exemption, and prohibiting the enactment of a law that imposes a transfer tax on a transaction that conveys fee simple title to real property."

Proposition Number 2 (HJR 75)

HJR 75 - In 2011, voters approved a constitutional amendment to allow a surviving spouse of a 100 percent or totally disabled veteran an exemption from ad valorem taxation from all or part of the market value on the disabled veteran's residence homestead, as long as the surviving spouse had not remarried. The amendment did not apply to surviving spouses of veterans who died before 2011. This amendment would extend the exemption in such cases. The proposed amendment would apply only to ad valorem taxes imposed for a tax year beginning on or after January 1, 2016.

The proposed amendment would appear on the ballot as follows: "The constitutional amendment authorizing the legislature to provide for an exemption from ad valorem taxation of all or part of the market value of the residence homestead of the surviving spouse of a 100 percent or totally disabled veteran who died before the law authorizing a residence homestead exemption for such a veteran took effect."

Proposition Number 3 (SJR 52)

SJR 52 proposes a constitutional amendment to repeal the requirement for the Comptroller of Public Accounts, the Commissioner of the General Land Office, the Attorney General, and any other officers elected statewide to reside in Austin, Texas, the state capital. Under current law, these statewide elected officers are required to reside in the capital of the State of Texas while in office. This amendment would not apply to the residency requirement for the Governor.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment repealing the requirement that state officers elected by voters statewide reside in the state capital."

Proposition Number 4 (HJR 73)

HJR 73 proposes a constitutional amendment that would grant the legislature the authority to pass statutes to allow a professional sports team charitable foundation to conduct charitable raffles under the terms and conditions imposed by general law. The laws passed under this authority may provide that the professional sports team charitable foundation may use proceeds from such charitable raffles to pay reasonable advertising, promotional, and administrative expenses. Any law enacted by this provision only applies to entities defined as professional sports team charitable foundations on January 1, 2016. Additionally, any law enacted by this provision may only allow charitable raffles to be conducted at games hosted at the home venue of the professional sports team associated with a professional sports team charitable foundation.

The proposed amendment would appear on the ballot as follows: "The constitutional amendment authorizing the legislature to permit professional sports team charitable foundations to conduct charitable raffles."

Proposition Number 5 (SJR 17)

SJR 17 proposes a constitutional amendment which would increase from 5,000 to 7,500 the maximum total population threshold of a county that is allowed to construct and maintain private roads as long as the county imposes a reasonable charge for the work.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize counties with a population of 7,500 or less to perform private road construction and maintenance."

Proposition Number 6 (SJR 22)

SJR 22 proposes a constitutional amendment that would add the right to hunt, fish and harvest wildlife, including by use of traditional methods, in the Bill of Rights of the Texas Constitution. This right would be subject to laws and regulations intended to conserve

and manage wildlife and to preserve the future of hunting and fishing. The proposed amendment would establish hunting and fishing as the preferred method of managing and controlling wildlife in Texas. The proposed amendment is not intended to affect any law or provision related to trespass, property rights or eminent domain, and would not prevent the legislature from authorizing a municipality to regulate the discharge of a firearm in a populated area in the interest of safety.

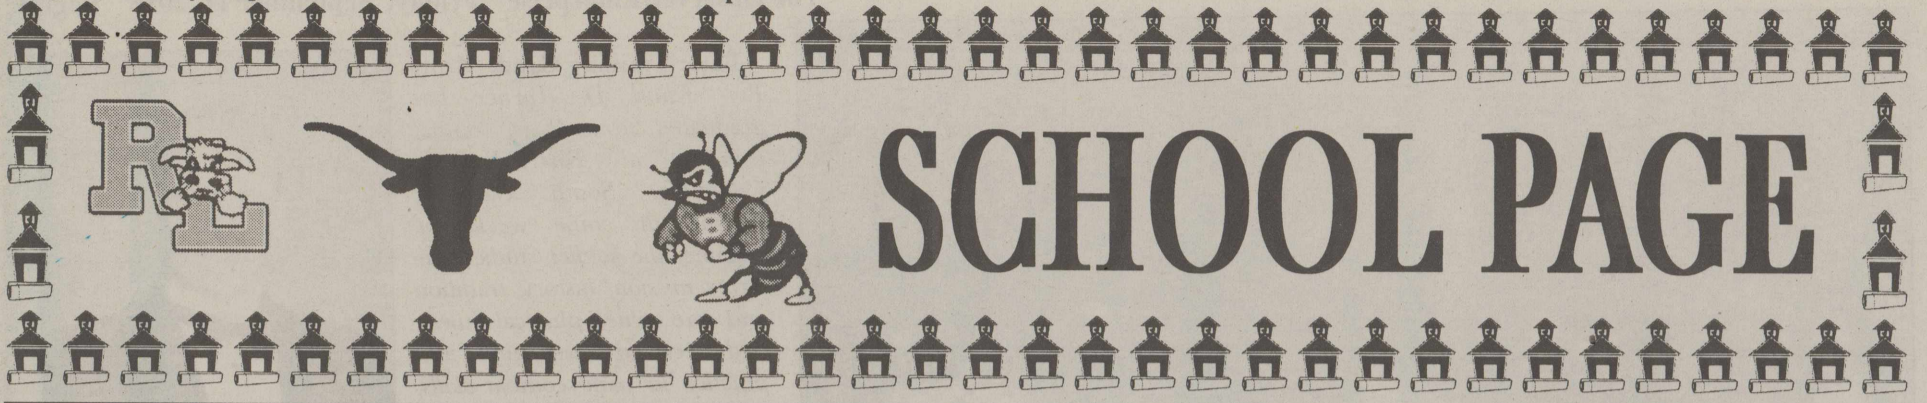

The proposed amendment will appear on the ballot as follows: "The constitutional amendment recognizing the right of the people to hunt, fish, and harvest wildlife subject to laws that promote wildlife conservation."

Proposition Number 7 (SJR 5)

SJR 5 proposes a constitutional amendment to dedicate a portion of revenues from (1) the state sales and use tax, and (2) the tax imposed on the sale, use, or rental of a motor vehicle, to the State Highway Fund (SHF). Under current law, these funds would be deposited to the General Revenue Fund. Money deposited to the SHF is intended to be used only to construct, maintain, or acquire rights-of-way for public roadways other than toll roads; or to repay certain transportation-related debt.

The proposed amendment would appear on the ballot as follows: "The constitutional amendment dedicating certain sales and use tax revenue and motor vehicle sales, use, and rental tax revenue to the state highway fund to provide funding for non-tolled roads and the reduction of certain transportation-related debt."

The Many Faces of Medicine

A Look at the Benefits and Types of Massage

By Robin Roller

There are twelve meridians in the body, six on each side as mirror images of the other. When the body is asymmetrical, meaning not the same on both sides, the meridian containing the inconsistency gives clues to the probable location of the health issue. For instance, the lung meridian runs from the hollow in the front of each shoulder down the arm to the tip of the middle finger. You can affect lung issues by massaging

the front of the shoulders. If this area has pain then it is prudent to look at the health of the lungs. This can be deceptive though because the lung meridian is also affected by the health of the heart. This is why the Chinese treat the whole person meaning the mind, body and spirit. I do not have near the education I would like to have in Traditional Chinese Medicine, but only enough to open my eyes to options I didn't know existed.

I introduce as many people as will let me to the Zen Touch massage because I believe in it. I have seen it be effective in quieting the symptoms of Parkinsons disease, easing the sensitivity of neuropathy in the feet, both diabetic and otherwise. Doing this however takes an extremely light touch as to not perpetuate the problem. I have seen this style of massage even ease things like drug

withdrawal especially street drugs, like heroin specifically. Epilepsy can be positively affected by massage because it is caused by a misfire of neurons in the brain. Many times seizures are brought on by stress which is something massage addresses quite well. There are so many conditions that react favorably to massage that it is impossible to

list here all the ones I'm aware of, not to mention the ones I'm not.

There are some contraindications in massage. If someone has a condition that can spread internally, I need a doctors consent to work with them. Cancer is one of these. I also can't work on open wounds, however, there are other ways to affect the area without touching the damaged skin.

Reflexology is a method of massage that doesn't quite fit either parasympathetic or sympathetic criteria. It is the science of affecting an area of the body remotely. It is based on the theory that the whole body can be affected by manipulation of energy in the bottom of the feet and the hands. I have experienced the effectiveness of this but I have also seen cases where the results were inconclusive.

The bottom line when it comes to an individual's health is even with the same condition, two people may have extreme differences in what will help. The best I can tell you is.... try something, giving it ample time to do its job and if it doesn't work, try something else. I caution about trying too many things at once because you won't know what was successful. Most of all, it's YOUR body and you know it best. Trust yourself. Stay informed and Stay Healthy.

About Me...

After reading a few of my articles, I thought you might want to know who I am. My name is Robin Roller. I moved to the area in the middle of April after living in San Diego California, for 18 years. I grew up in west Texas, Marathon, Alpine and Ft. Stockton. I have lived on cattle ranches from the Big Bend area to Dripping Springs.

I went to the School of Healing Arts for my education in massage, 110 hours was the license requirements at the time, graduating in March of 2000. I've been working in this field ever since.

I am a firm believer in alternative medicine. I disagree with much of the established medical system. I believe there is a better way. "Medicine for profit is inherently evil".

The ancient Chinese method of paying medical professional makes more sense to me. They got paid only if the patient

stayed well.

I hope to inform people about the unethical practices of the big drug companies. There are a few things out there that kill a virus, yet the medical professionals tell you that there's not. Things like food grade hydrogen peroxide, colloidal silver and essential oils all are very effective at restoring balance to the body and maintaining health.

Stay well and stay informed.
