**... Forage Loss
Deadline**

(Continued from page 1)

"Prolonged drought conditions have created a need for livestock disaster assistance programs in Coke and Sterling Counties," said CED Sturm. "I encourage all affected livestock producers to contact the Coke/Sterling County FSA Office to schedule an appointment to enroll in the program before the Feb. 1 deadline."

Livestock producers must complete the LFP application and required supporting documentation no later than Feb. 1, 2016, for losses that occurred throughout 2015. Producers who already have appointments scheduled require no additional action to meet the deadline.

Eligible livestock includes alpacas, beef cattle, buffalo, beefalo, dairy cattle, deer, elk, emus, equine, goats, llamas, poultry, reindeer, sheep or swine that have been or would have been grazing the eligible grazing land or pastureland.

For more information about LFP, contact the Coke/Sterling County FSA Office at 325-453-2751 or the Tom Green County FSA Office at 325-653-1246.

**Wreaths make a
difference**

"When we drove up this year, to the Fairview Cemetery, we were immediately greeted by the big Christmas Wreaths on the entry way arch. How very welcome we felt." These words came from family members who come every year at Christmas to place wreaths on their families graves.

They checked at City Hall to see who was responsible for the good deed. The Coleman Family was told that the Sorosis Club with the help of the City Hall staff were responsible. And with that information, the Sorosis Club received a wonderful Thank You note.

Action was taken to donate \$500 from the Sorosis Club to go to the Bronte Cemetery Association Fund for helping with the upkeep. This is a fund

Bronte Independent School District today announced the release of a new, Bronte ISD-wide app from SchoolWay, a leading developer of mobile applications for K-12 school systems and institutions. Brought to the Bronte ISD by Jostens, the free mobile app is available for Apple and Android mobile devices and keeps the entire school community connected to the Bronte ISD's information they need delivered directly to smartphones and mobile devices.

Understanding the busy schedules of students and parents, the Bronte ISD's official app from SchoolWay allows mobile users to keep track of

"Bronte ISD's official mobile app empowers anyone in the community to stay connected with the information they want and need right on their mobile devices," said superintendent, Tim Siler. "The release of this app for the Bronte ISD is an example of our commitment to provide our community members all of the district's information conveniently and easily, while making it more accessible than ever. We are excited about how our school's app will lead to a stronger, more connected school community."

The SchoolWay mobile app is a simple, secure and reliable way to send protected one-way mobile and web messaging to Bronte ISD students and homes through SMS/text and email

applications. The secure and flexible communication platform allows the Bronte ISD to easily manage, control and deliver content that enhances the school-to-community communications process. Features for Bronte ISD's official mobile app include:

Sidney W. Burns

for Commissioner, Precinct 1

Water has been and will continue to be a crucial problem for our entire county. This has also been the main focus of mine while serving on the Robert Lee City Council. Needless to say, our county has been brought to nationwide attention for the lack of water with Robert Lee "running out of water" and an emergency pipeline being built to Bronte. It was inspiring to see the county, cities and residents jumping in and working together to solve this crisis.

Robert Lee has been actively drilling water wells and is continuing to pursue leads to secure water for Robert Lee and the rural water customers. Lake Spence is continuing to catch water but we all know that CRMWD's main focus is to let the water downstream to Ivey Reservoir. Bronte's water source of Oak Creek Lake is currently at a low stage and along with their water wells continue to supply both entities.

We need joint cooperation to continue between the county and cities to pursue sources for water for our citizens. If we have water, we can advertise that fact and entice businesses and individuals to relocate to our county.

PLEASE VOTE March 1st

Millican Sees Tax Revenue Needs

Marshall remembers the mid to late 1960's during the completion stages of the dam that created E.V. Spence Reservoir. Marshall recalls the Colorado River Municipal Water District. Some of these properties were acquired by condemnation that caused many Coke County tax payers to relocate and move their families from their homes.

The Colorado River Municipal Water District (CRMWD) pays no county property taxes on land or improvements owned by the water district. CRMWD owns several hundred acres around Lake Spence that is above the 1,912 foot elevation which is the flood stage level of the lake. These properties should be sold at any price and be put back on the county tax roll. There are many changes that could be made by CRMWD that would benefit Coke County and Robert Lee. Some of these changes may need to be done by our Texas Legislation.

Marshall says, "If going to Austin is what it takes to get this done, I'm ready. I'm sure that Coke County is not the only county that has these problems where CRMWD has holdings"

"I am aware of many properties in Coke County that are delinquent on our tax rolls. If I am elected Commissioner of Precinct 3, I will be aggressive in working with the delinquent tax attorney firm for collections or sales of these properties to return them to active status on the tax roll."

Vote Marshall Millican

for Coke County

and churches and continue to serve beyond their retirement. Paul Gothard urged all school personnel to take advantage of the important legislation and information through Texas Retired Teachers Association's web site at trta.org. The on-line newsletter is a current source of news concerning effects of legislation and retirement income.

It was decided to present each elementary school in Coke County with \$50 donation of new books, and a memorial to June Gully, as well as to support Project Graduation at each high school.

All retired school personnel are encouraged to lend their support to TRTA by joining the Coke County group for good company and good food, as well as keeping on top of retirement

concerns. The next regular meeting will be at noon at the First Baptist Church in Bronte on Monday, February 15.

Free Online Program Helps Farmers and Ranchers with Conservation Efforts

As winter weather continues to hit large areas of Texas, the USDA-Natural Resources Conservation Service (NRCS) wants to remind farmers, ranchers and others about the ease and convenience of using the agency's online Conservation Client Gateway to work with NRCS personnel and local field offices.

"The Conservation Client Gateway web based tool came about because the Natural Resources Conservation Service saw an opportunity using web based technology to be able to expand its client base and not only that, but to facilitate opportunities for our clients and non NRCS clients to have easier access to NRCS services and programs," says Salvador Salinas, Texas NRCS state conservationist.

For farmers and ranchers who do not live close to their local NRCS office, the Conservation Client Gateway offers numerous benefits. For instance, producers can go online and see all their NRCS contracts. They can also digitally sign their contracts online through the secure Conservation Client Gateway

website. And, technical assistance from an NRCS employee is just a click away 24 hours a day, seven days a week online.

Rick Castello of Fayette County was one of the first NRCS producers to adopt the Conservation Client Gateway technology.

"The ability to use this website and to go online and find the forms and make things happen that way allows me to save in many cases 280 miles, which is a lot of time and with the gas prices the way they were, a lot of money, so there is a significant savings monetarily and timewise from it," says Castello. "The other part is it allows me to get things done quicker and frankly more accurately because it's on paper and we know what we are trying to go do."

Castello farms in Fayette County, but lives near Houston and travels for work. He has found that using Conservation Client Gateway not only saves him time and money, but when he travels it allows him to sign paperwork on the go, to access his conservation plans and financial contracts and track payments easily. He can also message the local office if he has questions or needs to set up an appointment during times that he will be at the farm.

For more information about Conservation Client Gateway, visit your NRCS office.
