West Coke County Hospital Board Meeting discussed

By Pat Stephens
 The Board of Directors of the West Coke County Hospital District met in regular session July 26, 2016: President Pat Stephens called the meeting to order and declared a quorum was present. Board members present were Sarah Green, Patsy Cason and Noel Tinkler. John Rainbolt, Administrator and Janie Munoz, BOM, were also present at the meeting. The Board welcomes Patsy Cason back to her official duties as an active member of the Board after her leave of absence to temporarily assume the duties of the DON. The invocation was given by Pat Stephens. Minutes from the previous meeting were approved, and there were no absentees from that meeting. There were no visitors.

The census count shows there are currently 32 residents in the facility, with one addition pending, as of the meeting date.

In the staffing update, the facility is currently advertising for a van driver/CNA, and prn CNAs. Diane Deramus has been hired for the DON position. The Board and staff welcome her to the facility and are looking forward to working with her.

Receivable/Collections were discussed, and an update was given to the Board.

The financial statements were discussed and accepted as presented.

The Administrator gave his report, sharing that the facility is in its yearly survey 'window' and everyone is working hard in preparation. New mattresses will be purchased for the facility, and some cosmetic painting will be done outside. All the painting, electrical work, and deep cleaning have been completed on the west side rooms.

The Board set up a budget workshop Aug. 9, and a budget hearing August 30, at 9:30, preceding the regular meeting.

Future agenda items were discussed and the next regular Board meeting will be July 26. The public is invited and encouraged to attend.

As we're entering the 'Dog Days' of summer, a look at the August calendar shows that in addition to all the regularly scheduled activities, the San Angelo Cloggers will be performing in the facility on the

8th, at 6:30 in the evening. There will be a Country Classic Concert presented by Harvey McFadden on the 12th, at 2:30. On Thursday, the 18th, at 3:30, Jim Gross will be entertaining the residents with some good music. The monthly birthday party will be hosted by the Southside Church of Christ at 3:30, on the 23rd. Those celebrating birthdays are Jim Skinner and Karlos Moore. Happy birthday, Jim and Karlos!!

Check Out Coke County Library

Everyone who has donated books, magazines, printers, time and money to the library needs to be applauded. Your generosity is so very much appreciated.

The library offers a story time on Wednesday mornings at 10. We read a book, sometimes two, and then do a simple craft that often involves coloring and stickers!

There is a new bookcase in the library where you can find books for sale. I'll also have a book sale table at the Street Affair on September 17 that will include some special books.

Come in and see our display of iron pyrite and beautiful quartz rocks from Tennessee. You might also find some newer books by your favorite authors on the shelves.

The library hours are still Tuesday 8-12, Wednesday 8-4, Thursday 1-5, and Friday 8-12. Please come and visit!

Protect your family from Mosquito-borne disease

Submitted by Morgan Runyan, Texas AgriLife Agent

The recent rains have been a huge blessing to Coke County but not everything that comes after is a blessing. The puddles that have formed and the various containers that have filled with water are great breeding grounds for that pesky mosquito. The *Aedes aegypti* mosquito has been identified as the primary vector for transmission of Zika, dengue, chikungunya, and West Nile. The Zika virus has had a large spotlight in the media recently and for good reason. Zika virus is the cause of the increased cases of microcephaly. Microcephaly is a condition affecting unborn children where the baby's head is much smaller than expected due to the underdevelopment of the baby's brain. So far there have not been any confirmed cases of Zika caused by mosquito populations in the state of Texas. Those that have been infected by the bite of an infected mosquito have either traveled to an area with Zika carrying mosquitos or their

... Zika

(Continued from page 3) partner has. Zika is very serious and experts are unsure what the future holds for the Zika virus in

the US. Please consider these tips to help protect yourself and your family from mosquito borne diseases:

1. Dress in long, loose-fitting, light colored pants and shirts
2. Drain any standing water from containers, tires, gutters, etc. around the home.
3. Use mosquito dunks in standing water that cannot be drained. (A mosquito dunk is a small, brown donut-looking object that floats on water and slowly dissolves, releasing a bacterium that kills mosquito larvae.
4. Reduce outdoor activity during dusk and dawn. I understand with long days and lots of summer activities this can be difficult, so if you are going to be outdoors during this time of day be prepared with a bug spray containing DEET approved by the EPA or CDC to

protect yourself and all of your family from those pesky mosquitos.

For more information about traveling to areas that are affected by the Zika virus please go to <http://wwwnc.cdc.gov/travel/page/zika-travel-information>.

Addition information on Zika can be found at these websites for the Texas A&M University
