

# THE ROUNDUP

The ROUNDUP is an unofficial newspaper published weekly in the interests of personnel at Reese Air Force Base of Air Training Command. It is published by Randall Abernethy, a private individual, in association with Boone Publications, neither of which is in any way connected with the Department of the Air Force. Publisher's mailing address: 2832 66th St., Lubbock, Texas; Phone SW 9-8806. Opinions expressed by publishers and writers are their own and are not to be considered an official expression by the Department of the Air Force. The appearance of advertisements in this publication does not constitute an endorsement by the Department of the Air Force of the products or services advertised.

Volume XIII  2 Lubbock, Texas, Friday, March 30, 1962 Number 20

## Library Week Observance Planned Here

The Reese base library will join all other libraries throughout the nation the week of April 8 in observance of National Library Week.

A committee headed by Lt. Col. Robert G. Bowman, 3500th USAF Hospital, has formulated plans for the event here. Committee members are Capt. Richard W. Kimball, information officer; 1st Lt. Clarence J. Doane, assistant personnel services officer; 2nd Lt. Billy B. Beck, M&S Group; and TSgt. Stanley E. Southerland, wing headquarters.

With the assistance of Mrs. Helen Fuller, base librarian, the committee outlined plans for open house festivities and exhibits throughout National Library Week. Theme for the event is, "Read and Watch Your World Grow."

A number of exhibits depicting various areas will be on display on the second floor of the library. Two open house periods at which refreshments will be served are also planned.

Since its inauguration in 1958, National Library Week and its various programs have been aimed at promotion of interest in reading and in use of civilian and service libraries.

The observance emphasized the importance of libraries to the cultural and educational progress of the nation.

In general, the week seeks to focus for community development programs throughout the year, to attract attention to libraries, to increase awareness of libraries as community resources, to foster reading activities and to inspire people to thoughtful reading.

"I hope very much that National Library Week will have widespread citizen participation and . . . serve to encourage all of us to improve libraries and to stimulate reading throughout the nation," said President Kennedy.

## Call Films Stress Mission Of ATC

Emphasis on the Air Training Command objectives will be featured in Reese Commander's Calls for April. The monthly meetings have been allocated in the Air Force program to major air commands.

Scheduled for showing is a film, "Prepare the Man," a 28-minute color production dedicated exclusively to the ATC mission. Also scheduled for showing is the film, "New Line of Sight," issued by USAF.

Clearance and production difficulties may delay arrival of the films at Reese.

## Air Force Highlights

### OPTION OPEN

Certain project 20-10 reserve officers scheduled for release this summer can remain on active duty until March and July, 1963, simply by applying to their major air command and getting approval there. No additional screening or referral to USAF headquarters is necessary, USAF has stated. The extension option for field grades is March 31, 1963, and for company grades, July 31, 1963.

### BATAAN REMEMBERED

(AFNS) — Air Force personnel will be among those taking part in the convention marking the 20th anniversary of the Fall of Bataan and Corregidor in World

FIVE YEARS AGO—In March, 1956, Admiral J. W. M. Eaton, commander in chief of the British Atlantic and West Indies Fleet visited Ellington AFB and reviewed the color guard. Aviation Cadet Paul M. Schnucker, navigation student, and Col. L. C. Hess, wing executive officer, accompanied him in the review. In May Colonel Hess presented navigator wings and a commission to Lt. Schnucker. Today the colonel awarded his second wings to the then cadet, now Capt. Paul Schnucker, at graduation of Class 62-F.

## Colonel Hess Presents Second Wings To Graduate In 62-F

Captain Paul H. Schnucker today received his second pair of Air Force wings from Col. L. C. Hess and became possibly the only man in the service to be awarded wings twice by the same officer.

On May 21, 1956, the captain, then a cadet, received his commission and wings as a navigator at Ellington AFB, Houston. Colonel Hess, executive officer of the base, made the presentation. Today Colonel Hess, wing commander, presented silver pilot wings to the captain, a member of the first class to complete undergraduate pilot training.

Captain Schnucker completed advanced navigator training at Mather AFB, Calif., after leaving Ellington and then served as a navigator for the 6th Bomber Wing at Walker AFB, N. M., first in the B-36 and later in the B-52. He entered pilot training from Walker.

While at Reese he was promoted to captain and is being reassigned to Stead AFB, Nev., as an H-21 helicopter pilot. He has a daughter, Deborah, 2½, and while here became the father of a son, Paul Mark, now six months old. He is a former all-around athlete at Kirksville High School in Missouri and is the son of Rev. and Mrs. F. V. Schnucker of Clinton, Wis.

USAF personnel with entertaining ability will have an opportunity to display their talents at the annual Air Force Worldwide Talent Contest at Shaw AFB, S. C., June 4 to 9.

## Officers Begin T-38 Training

First Lts. Alexander M. Milligan, IV, and Charles H. Schaufler, Jr., have been selected as the first Reese instructor pilots to begin T-38 training.

They will enroll April 16 in Class 62-K in the instrument pilot instructor course at Randolph AFB to prepare for future duty as instructor pilots in the new supersonic trainer expected to be assigned here late this year or early in 1963.

The T-38 Talon is replacing the T-33 as trainer in the undergraduate pilot training program and the first class of pilots using the aircraft was graduated today at Randolph. Reese in May will send another instructor pilot to the instrument course and a fourth is scheduled to begin training in June.

Lieutenant Milligan came to Reese in June, 1960, from pilot duty at Luke AFB, Ariz. He has been in service almost five years and is a graduate of Penn State University.

Lieutenant Schaufler has been a Reese instructor pilot since November, 1957, being reassigned from Goodfellow AFB, San Angelo. He is a former radar operator.

## Cub Scouts Prepare For Book Collection

Members of Reese Cub Scout Pack 548 will start collecting books next week to assist with the Lubbock Good Neighbor project of sending books to Mexico. All types of books are sought and persons living in the government housing area are asked to have volumes ready for the Cub Scouts. There is increasing interest in reading in Mexico where efforts are being made to combat communism.

The 1962 USAF Model Rocketry and Airplane Championships will be conducted from July 9 to 13 at Lackland AFB, Tex.

# Base Awarded ATC Trophy By Gen. Briggs

Reese Air Force today was awarded the Air Training Command rotating maintenance trophy for the best program and production in aircraft maintenance in the command during 1961.

Lieutenant Gen. James E. Briggs, ATC commander, presented the trophy during a wing review in connection with graduation of Class 62-F as the first class to complete training in the Air Force's undergraduate pilot training program.

Reese won the trophy in 1960 and also was awarded the Daedalian Maintenance Trophy for the best aircraft maintenance program in the Air Force. The base is representing ATC in competition with other major air commands for the Daedalian Trophy for 1961.

Entering into consideration in selecting winners are economy and efficiency in maintenance, safety records, flying hours, personnel production, speed in production, aircraft in commission at all time, and many other factors.

General Briggs also presented Air Force Commendation Medals to Maj. Conrad C. Johnson and SMSgt. Warren O. Hastings during the wing review.

Major Johnson was honored for meritorious service as operations staff officer of the 3500th Pilot Training Group from Sept. 11, 1957, to Feb. 6, 1961, and from July 18, 1961, to Feb. 15, 1962, and as executive officer of the Maintenance and Supply Group from Feb. 7, 1961, to July 17, 1961.

"Through his ingenuity, professional knowledge of the training program, understanding of accident cause and prevention, and cooperation with flying safety agencies, Major Johnson contributed immeasurably to the excellent flying safety record of the 3500th Pilot Training Wing," the citation stated.

Mayor Johnson retired today after more than 28 years service.

Sergeant Hastings was honored for service as non-commissioned officer in charge of production control in the M&S Group from Dec. 11, 1957, to Jan. 24, 1962.

"During this period," the citation stated, "the leadership, initiative and ceaseless efforts of Senior Master Sergeant Hastings were instrumental factors in welding the production control section into a highly qualified and professional operating unit. His devotion to duty, superior job knowledge and outstanding ability to achieve superior results reflected credit upon himself and the United States Air Force."

## Reese School PTA Names New Officers

First Lt. Bethel Larey has been elected president of the Reese Elementary School Parent-Teachers Association, with TSgt. T. G. Grice as first vice president.

Captain Richard W. Kimball has been named second vice president, Mrs. R. O. Kinion secretary and MSgt. H. R. Say, Jr., treasurer.

The new officers will direct PTA activities during the next school years.

Ice Island T-3 in the Arctic Ocean, abandoned four months ago when it merged with coastal ice near Point Barrow, Alaska, is floating free again. A three-man crew from the Arctic Research Laboratory was dropped on the island on Feb. 17.

## Landing Aid To Be Installed

Material for a new aircraft landing aid, the Visual Glide Slope Indicator, has been received at Reese and will be installed as soon as funds are made available. Lt. Col. Victor C. Correll, Civil Engineering Group commander said Thursday. Installation will be on the primary instrument runway.

VGSI, the new system, is optical and will allow pilots to fly approaches on a pre-determined glide path while guided by light signals from the ground. Six sets of lights, three on each side of the runway, indicate whether the aircraft is high or low on the glide path through graduated red and white color changes in the lights as viewed by the pilot from varying positions on the final approach.

The system, being installed at 390 U.S. and overseas bases, was selected by the Federal Aviation Administration's bureau of research and development after an evaluation of five systems over the past two years. The system has been adopted as the national standard for both civilian and military airports.

The VSGI system has a wide application as a visual aid to reduce undershoot and overshoot landing accidents by positioning aircraft over a fixed touchdown point on the runway.

The system will give accurate guidance in sunlight at ranges of four to 5 nautical miles and from seven to eight miles at night.

## Ohio Officer Top Graduate In Class 62-F

Captain John E. Hernandez, a navigator, was honored at today's graduation of Class 62-F as the outstanding graduate in his class. He received the Commander's Trophy from Col. L. C. Hess, wing commander, and a letter of recognition from Lt. Gen. James E. Briggs, Air Training Command commander, who was the day's principal speaker.

The captain entered pilot training from duty as a navigator at Biggs AFB and ranked highest in all phases of training in the first class to be graduated in the Air Force's undergraduate pilot training program. From Cleveland, he is being reassigned to fly C-135 transports with the Military Air Transport Service.

Colonel Hess introduced General Briggs in the exercises in the base theater. He also presented diplomas and wings to the graduates. Colonel Charles W. Sawyer, pilot training group commander, assisted in presentation of wings. Master-of-ceremonies was Lt. Col. DeMay H. White and Lt. Col. James D. Taylor, wing chaplain, gave the invocation and benediction.

## Democratic Power Hailed

WASHINGTON (AFNS) — A working democracy is a nation's strongest weapon against the inroads of communism, Air Force Secretary Eugene M. Zukert told members of the Connecticut State Chamber of Commerce recently.

Scoring the Soviet practice of misusing words like "democracy" and "freedom," Mr. Zukert, in an address in Hartford, urged members of the group to resist in every way efforts by Soviet propagandists to weaken our concept of American freedoms.

"The Soviets," he pointed out, "seek to replace any machinery of society and government based on democratic principles, or on the self-determination of peoples."

"What the communists want is any form of government with a communist patterned machine responsive to Soviet domination."

"Opposing the Communist threat," Secretary Zukert said, against infiltration, subversion, and false propaganda, but also that our operational military requirements must be continually matched to a racing military technology."

# Dangers Heavy

Reese last year was quite fortunate in its record on highways in that death did not come to its drivers. But the dangers were there and continue to be.

The 1961 traffic "death book" contained 60 more persons in Texas than the year before. That's a three per cent increase. In addition to the 2,134 deaths last year, there were 132,570 injuries in 324,149 reported motor vehicle accidents.

Deaths and injuries far outnumbered the population of most Texas towns.

There were only four days last year when no fatal accidents occurred and only 14 counties had no traffic deaths, of the 254 counties in the state.

A sobering fact in the picture is that Lubbock county, in which Reese is located, had the largest increase in traffic deaths last year, an increase of 20.7 death for each 100,000,000 miles traveled. The Texas figure was 4.8. Many Lubbock County fatalities were people from outside the area.

The whole picture adds up to the fact that Reese drivers must be very, very careful on the roads and highways. The danger is greater than that of most places. Alertness must be more pronounced.

"Air Training Command trains more people every year than the total 1940 strength of our Armed Forces — more than the total population of the State of Nevada."

--Lt. Gen. James E. Briggs, ATC Commander

To some generations much is given; from others, much is demanded. This generation of Americans has a rendezvous with destiny.—Franklin Roosevelt.

## Vendors To Be Honored During Visit

The first annual Vendors' Day will be held at Reese, Tuesday, April 10, with representatives of about 200 firms expected to attend.

The day has been set aside to show firms doing business with the base just how the Air Force conducts its procurement program and the many products which are purchased.

The visitors will be briefed on various phases of the purchasing activities and will tour the base to visit areas in which locally purchased articles are used. They will be guests of Col. L. C. Hess, wing commander, at a luncheon in the Officers' Open Mess and will have opportunity to discuss

base programs with unit commanders and other key officials.

Reese, during the past six months, has spent upward of \$400,000 in local purchases. Items include everything from rubber bands and paper clips to parts for large machines. Contractors, after submission of bids, have completed many jobs of renovation and construction at Reese, also.

Captain Joseph V. Sullivan, procurement officer, is project officer for Vendors' Day and has been working with the Lubbock Chamber of Commerce in completing details of the visit of the South Plains businessmen.

## Reese Officer Leads Class

Captain Robert M. Opdycke, Reese academic instructor, was the highest ranking student in the Programmed Instruction Writer's course at Randolph AFB this month, with officers, airmen and civil service personnel of nine bases attending.

Lt. Gen. James E. Briggs, Air Training Command commander, presented certificates to graduates, pointing out a need exists for a breakthrough in training methods and that hope is held for programmed instruction to contribute to this breakthrough. He stressed the contribution that members of the Air Force can make not only to the service but to the nation by work in this new training field.

The class of 22 attended two weeks of schooling, with Dr. David J. Klaus of the American Institute of Research as instructor.

Programmed instruction is a pattern of presenting information one item or frame at a time, providing for a means for the student to answer or respond, indicating the correctness of the answer. The cycle is repeated over and over again with new items, each step following from and building on the preceding step.

Programmed or scrambled textbooks or teaching machines may be employed in the programmed instruction presentation. Randolph students learned the principles of developing and writing programs for courses varying

from principles of jet engine familiarization to supply responsibility.

Attending the course from Reese were Captain Opdycke and Capt. William F. McCall.

## Club Activities

### Mathis Service Club

TONIGHT: Game night at 7:30 p.m. Jam session at 9:30 p.m.

SATURDAY: U Cook It Time for all airmen from 1 to 10 p.m. Tournaments at 2 p.m. "Going Places" is free movie at 6 p.m. Dance lessons from 7 to 8 p.m.

MONDAY: Slimnastics at 9:45 a.m. Career Girl slimnastics at 12 noon. Game night at 8 p.m. Jam session at 9 p.m.

TUESDAY: Arts and Crafts, Photo Hobby, Pinochle and bridge at 7 p.m.

WEDNESDAY: Slimnastics at 9:45 a.m. Red Cross cancer bandage rolling from 10 a.m. until noon and from 1 to 3 p.m. Career Girl slimnastics at 12 noon. Photo Hobby group, Model club, Chess and Talent show practice at 7 p.m.

THURSDAY: "The Rialtos" will play rock and roll music from 8:30 to 11:30 p.m.

### NCO Club

The Bobby Durham combo will play popular music for dancing at the NCO Open Mess Saturday night.

## SPEAKING OF LIBERTY

"EVERY AMERICAN IS A FREE MEMBER OF A MIGHTY PARTNERSHIP THAT HAS AT ITS COMMAND ALL THE POOLED STRENGTH OF WESTERN CIVILIZATION--SPIRITUAL IDEALS, POLITICAL EXPERIENCE, SOCIAL PURPOSE, SCIENTIFIC WEALTH, INDUSTRIAL PROGRESS."  
...Gen. Dwight D. Eisenhower

## Parson-to-Person

### Lent Helps Man Shed Self, Draw Nearer To Lord

By Chaplain Jerry L. Rice

Is there, in this season of Lent, a need to renew our spirit? Only the fool will look at his life and say, "Well, Old Boy, we made it through another day without conforming to God's will; let's try again tomorrow." Jesus said, "Thou Fool, tonight thy soul shall be required of Thee."

This type of life seems to be like a nightmare; running as fast as we can, not going anywhere, with death catching up to us. Wouldn't it be terrible if that was all there was to life; To feel as Adam did in George Bernard Shaw's play, "Back to Methusalem," "We have to live here forever. Think what forever means. It's the horror of having to be with myself forever. That is what makes me sit brooding and silent and hateful . . . I like you; but I do not like myself. I want to be different; to be better; to begin again and again; to shed myself as a snake sheds its skin."

We all know what he is talking about. We, too, have longed to shed ourselves. Well, this is the season; the season of renewal, leading to the resurrection. I hope and pray we all take advantage of its opportunities.

### RESEARCH WIDE

The American Cancer Society launched its nationwide research program to find causes and new cures for cancer 17 years ago. Since that time, the society has spent more than \$90 million on cancer research.

## From The COMMANDER'S DESK

By Col. L. C. Hess, Wing Commander

Spring is traditionally the time of year when housewives give the home a thorough cleaning from top to bottom. Spring cleaning, however, is not limited to the home and the housewife alone. Every building and office at Reese should receive its share of attention.

Spring cleaning serves many purposes. It makes the home a better place for living and the office a better place for working. It also is a big factor in the elimination of fire hazards.

Fires breed in accumulated piles of trash and debris. Spontaneous combustion or the carelessly tossed match or cigarette are special dangers in an untidy area.

We have an excellent fire prevention record at Reese. Let's do a thorough job of spring cleaning so that we may maintain this fine record.

Hill, Engineering safety NCOIC.

**Officer Promotion Criteria Puts 26,000 On Eligible List**

WASHINGTON (AFNS) — The entire officer temporary promotion criteria for Fiscal Year 1962 released here March 22 makes 26,000 Air Force officers eligible for primary or secondary zone consideration from captain to colonel.

The primary zone criteria makes about 7,600 first lieutenants eligible for captain; 4,500 captains for major; 3,100 majors for lieutenant colonel; 1,900 lieutenant colonels for colonel.

The secondary zone covers 14,000 captains to major; 5,100 majors to lieutenant colonel; and 2,600 lieutenant colonels to colonel.

The primary zone cutoffs are: lieutenant to captain, two years in grade and TAFCS/PLSD (total active federal service date/promotion list service date) June 30, 1958; captain to major, two years and Dec. 31, 1958; major to lieutenant colonel, two years and Dec. 31, 1945; lieutenant colonel to colonel, two years and Dec. 31, 1941.

The secondary zone had these options: to major, six years in grade or three years in grade and TAFCS/PLSD Dec. 31, 1953; lieutenant colonel, six years in grade or four years in grade and TAFCS/PLSD Dec. 31, 1948; to colonel, four years in grade with TAFCS/PLSD Dec. 31, 1943. Both criteria refer, of course, to line officers. The components complete within their own professional grouping under a similar criteria.

The anniversary date for which to compute the time-in-

grade criterion, is Dec. 31, 1962. Primary zone quotas are 100 per cent to captain; 95 per cent of the newly eligibles to major; 78 per cent of the total eligibles to lieutenant colonel; and a numerical line and component number of 650 to colonel.

As customary, the secondary zone quota was permissive with these maximum allotments: 84 per cent to major; seven and one-half per cent to lieutenant colonel; and 20 per cent to colonel.

Officials in Washington said in announcing the criteria, "Officers who have served in higher 'spot' appointments or who were promoted in the first increment of their year group will not be considered ahead of their contemporaries whose effective date of promotion may have been delayed because of lack of vacancies."

Selection board dates already have been announced as July 9 for captain, Oct. 1 for major, Jan. 28 to lieutenant colonel, and Jan. 14 to colonel.

**Nine Additional Suggestions Approved**

Additional management improvement suggestions made by five military men and four civilians at Reese Air Force Base have been approved and are in use on the base, Col. L. C. Hess, wing commander, has announced.

Adoption brought annual savings of more than \$7,000 to the base and brought other non-monetary benefits.

A1C Dan Lewis proposed a new records form which has been approved by Air Training Command and saved \$244 in manhours at Reese.

MSgt. Garrett Tackett proposed accounting for daily inspections which provides \$1,708 savings in manhours and materials.

SSgt. Virgil C. Ohler suggested a shroud ring sizing jig which provides a \$5,020 annual saving.

SSgt. James H. Lahage suggested an improved office procedure and SSgt. Ansel B. Ives, Jr., proposed use of an accumu-

lates proves health, welfare and safety labor sump drain bottle which improves mechanics.

Improvement in handling of commercial vehicle parts was suggested by Fritz Wisdom and Charles G. Newsom. Savings in materials resulted from the suggestion of Tom Squyres for improvement in carpenter kits. Randall Shindler suggested a switch boot for toggle switches.

**Silo Builders Win Outstanding Award**

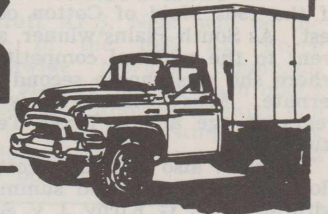

(AFNS) — USAF missile silo builders have been acclaimed as being in the same league with the constructors of the Et. Lawrence Power and Seaway Project.

The American Society of Civil Engineers presented its coveted award, citing our Intercontinental Ballistic Missile building program in 14 states as the "Outstanding Civil Engineering Project of the Year."

The digging of the Atlantic Ocean to Great Lake cities via the St. Lawrence river was a previous winner of this award and shows the high professional honor involved in winning.

### Club Planning Fashion Show

Miss Ethel Ann Glasscock, South Plains Maid of Cotton, will be a featured attraction of the Cotton Show scheduled for 8 p.m., April 4, at the Mathis Service Club.

She will model the \$1,000 cotton wardrobe awarded her as winner of the 1962 Maid of Cotton contest. As South Plains' winner, she went to the national competition where she was chosen second alternate. Miss Glasscock is 20 years of age and a Texas Tech student.

The show also will show cotton clothing for spring and summer, with Mmes. E. G. Kirby, J. V. Sullivan, H. A. Vehlewall and Hal Green as models. Background or-

gan music is to be provided by SSgt. John Abrams.

MISS GLASSCOCK

### Woman's Chatter

By Mrs. Joseph W. Roberts

The 3500th Pilot Training Squadron is sponsoring a Roaring Twenties party at the Officers' Club Saturday night. Everyone is invited. Costumes are preferred, but not mandatory.

The Wing Wives have planned a Japanese dish, Sukiyaki, as the main course for the Officers' Wives Club luncheon April 5. Mrs. Harold T. Babb is senior hostess and Mmes. Hanford Wright, Joseph Burdick, E. W.

Nutting, Joseph O'Connell, Ernest Wilkerson, Joseph Sullivan and Basil Parker are junior hostesses. Reservations should be made by April 3 with members of the new telephone committee.

The M&S Group will honor Maj. and Mrs. Russell Hainline and CWO and Mrs. Donald Heskett with a farewell party Sunday from 6:30 to 8:30 p.m. in the Officers' Club. The Hainlines leave April 4 for Washington, D. C., where the major will attend language school before going to Bolivia. The Hesketts leave in early summer for Europe.

Flight 6 wives hosted a coffee and style show March 28 in the Club. The women made garments they modeled.

Mrs. John E. Martin hosted a coffee for Flight 7 March 21 in her home.

Mrs. Joseph Payne has returned from a visit in San Antonio where she visited Colonel Payne in the Lackland AFB hospital.

Mr. and Mrs. Earl C. Rummel of South Bend, Ind., is visiting their son and daughter-in-law. Capt. and Mrs. Marshall Norris.

Mrs. Joseph Burdick and Mrs. Thomas Tuttle were hostesses for the OWC Newcomers Coffee March 27 in the Club.

Anyone living in Lubbock with news for the Roundup or Breeze may call Mrs. John F. Gardner, SW 5-1265.

### Sodality Aiding In Cancer Work

The Sodality of Our Lady will receive communion at the 9 a.m. Mass Sunday, followed by breakfast in the NC OClub.

Last Thursday the Sodality met for the Rosary and a business meeting, with refreshments served.

Profits of a recent bake sale are being used to provide baptismal robes for babies and all babies baptized in the Blessed Sacrament Chapel are being given a robe.

The Sodality also has started to assist the American Cancer Society in its work to provide bandages for cancer victims. Members are working with Mrs. John Slaughter, base chairman, in making bandages each week in Mathis Service Club. Members having old newspapers, worn sheets, stockings or other items which will assist are asked to take them to the homes of Sue Trask or Dolores Dutton.

### GENERAL ELEVATED

In special ceremonies in his office, Dwight O. Monteith, Amarillo AFB commander, was promoted to major general on recommendation of President Kennedy.

Brig. Gen. Charles H. Terhune, Jr., is the new commander of the Electronic Systems Division of the Air Force Systems Command, succeeding Maj. Gen. Kenneth P. Bergquist.

### School Lunches

Lunches planned for next week for the Reese Elementary School are:

MONDAY: Baked ham, potato salad, green beans, apple sauce, hot bread, milk.

TUESDAY: Pork pie, English peas, baked potato, fruit or pumpkin pie, hot bread, milk.

WEDNESDAY: Fried chicken, mashed potatoes, blackeyed peas, hot bread, sheet cake, milk.

THURSDAY: Hamburgers, french fries, buns, bread.

FRIDAY: Baked macaroni and cheese, spanish rice, buttered asparagus, muffins, milk.

Say you saw it in The Roundup.

CHAMPIONS—The 3501st Student Squadron volleyball team poses with trophies awarded after it had won the championship of the Air Training Command squadron level tournament. From left to right, members are; front row, 2nd Lt. John Dates, Iranian Cadets Hassan Vaezi and Ahmed Fard, and 2nd Lt. Joseph Campbell. In the back row are, SSgt. Klaus Auschner, 2nd Lt. Alfred Richardson, Capt. Jimmy L. Wood, 2nd Lt. Richard Day and 2nd Lt. Tom Linnevers. (USAF Photo)

### Students Win Volleyball Title Of ATC Through Loser's Route

Getting a measure of revenge and winning the "hard way," the 3501st Student Squadron of Reese captured the squadron level volleyball title of Air Training Command last weekend.

Two weeks ago the Reese players won second place in the District 1 tournament here. Playing at Perrin last weekend the Reeseites defeated Perrin, district champion, in fighting back in the loser's bracket after dropping a match in the double-elimination tourney.

Aviation Cadet Ahmad Fard, Iran student at Reese, duplicated his district honors by being selected as outstanding player of the ATC meet.

Reese won its first match with Randolph and then slipped to the loser's bracket by losing to Webb. The Students then defeated Perrin, Webb and Lackland and rallied to win four consecutive

games from second-place Lowry in the final two matches of the tournament.

The Students were awarded the team title and individual trophies.

Reese won over Randolph in a two-game match, 15-10 and 15-9. It lost to Webb, 14-16 and 6-15.

Against Lackland, Reese won 15-12 and 15-4 games and then took on Perrin, losing the first game, 13-15, and winning the next two, 15-7 and 15-6. Webb was taken, 15-11 and 15-8.

Lowry, which finished third in the district meeting here, was upset in four straight games in the semi-finals and finals by the determined Reese Students.

The Reese base team, composed of best players of various teams in the intramural league, will play in the district base-level volleyball tournament next weekend at Perrin.

### Base Forming Baseball Team

Reese for the first time since 1953 will have an official base baseball team this year and will enter Air Training Command competition.

Plans have been taking shape for several weeks and have reached the stage where candidates for the team are being sought. All officers and airmen wishing to play are asked to sign up immediately at the gymnasium.

Plans call for the Reese team to become a member of the Lubbock City League and to play a regular schedule, with entry into the National Baseball Congress tournament a possibility. The team also will enter the ATC tournament at the proper time.

SSgt. Vic Zarembo of personnel services Moday night will attend a meeting in Lubbock to work out plans for the city play.

Players will furnish their own equipment for the try-out period, but all equipment including shoes, will be provided for the league team. Try-outs will start as soon as sufficient players appear, the sergeant said.

In the early days of Reese, the base had a strong team which met teams from many other service installations of the Southwest.

Plans call for similar meetings this spring.

Four years ago Reese was represented in the Lubbock city league, but the team was not officially sponsored by the base.

### Bowling Results

#### Officers League

The Bad Guys continued their hold on first place in the Officers Bowling League this week with 32 wins, 12 losses, with the Golfers in second place on a 26-18 record. Tied for third were the Dust Devils and Brainwashers, each with 25-15.

The Golfers rolled a 2,560 series and 903 and 881 games Wednesday night. The Offcasts had a 2,482 series and Flight 3 had 2,342. The Offcasts turned in an 847 game.

Lieutenant Col. Charles Merritt hit a 597 series, with Capt. Bert Langford 558 and Capt. Leonard Niski 543. Maj. John McConkey had a 234 game, Col. Merritt 214 and Capt. Niski 212.

#### Intramural League

MSgt. William Hill of the Civil Engineers rolled a 232 in taking last week's high individual game in the Intramural League bowling tourney. A1C Thomas Hughes of the "Split Pickers" was close behind Sgt. Hill with three points less, 229.

A member of the top Organizational Maintenance team, A1C Dwayne Green, toppled 572 pins in taking the lead for the week's high game series. Hughes of the "Split Pickers," again was close behind with 565.

Both high team game and team series went to Organizational Maintenance with 965 and 2,641, respectively.

Standings still show Organizational Maintenance out in front, while the rest still hold positions they held last week.

Last year about 2,200 children died of leukemia, cancer of the blood-forming tissue. The American Cancer Society supports research in all phases of leukemia.

### Safety Training Meeting Planned

Firearm safety, marksmanship, and hunter safety training will feature the National Rifle Association registered small arms course for boys and girls from 12 to 18 years of age at 3 p.m., April 21, in the Reese Rod and Gun Club Building.

Registration for dependents if from 7:30 to 9 p.m. April 2, when the program will be explained. Parents are welcome.

The course is offered in efforts to reduce shooting accidents which last year included 72 hunting accidents in Texas, 11 proving

fatal and 31 involving persons younger than 21 years.

A meeting of dependents has been called for 7 p.m. next Tuesday to discuss the program for the Junior Rifle Team.

#### OFFUTT HOST

Offutt AFB, Neb., will be the scene of the 1962 Air Force Worldwide bowling championships May 24 and 25. Each major command is allowed to enter one men's team consisting of six bowlers and one women's team of four bowlers.

**Contest With Reds Likened To Lengthy Marathon Race**

(AFNS)—The current struggle with Soviet technology has been likened to a marathon race, says Gen. Bernard A. Schriever, commander of the Air Force Systems Command, 1960 Armed Forces Day speaker at Reese AFB. Speaking to members of the Aircraft Luncheon Club in the nation's capital, Gen. Schriever called attention to the Soviet's "single-minded effort to attain

military superiority through the use of science and technology." "The Soviet emphasis on military technology," he said, "has placed our nation in an intensive and serious technology competition. It is a contest that we dare not lose. "To put it in other terms, we are neither taking a leisurely walk in the countryside nor sprinting in the 100-yard dash. "We are in a different kind of race — a marathon race. This is a contest that demands not only speed, but also patience, determination and endurance."

Stressing the value of management in the weapons program, General Schriever said, "Our goal is to make advances in management techniques concurrently with advances in weapon technology." In this way, he pointed out, "we can insure the most rapid and efficient translation of technology into operable weapon systems."

Information was hailed by General Schriever as one of the keys to effective management. Reporting systems such as PRESTO which provides individual reports on weapon system status, CHAMPION, a field system for ballistic missile hardware management and CRAM, a control system for following all procurement actions from purchase to completion of contract, all aid in the advance of effective management.

"All of these techniques will enable us to manage more effectively," he told his listeners, "which is another way of saying that they will help us to win the race with time. But improved techniques alone will not solve our management problems. We need people who will make them work."

"Dedicated people who know their jobs and are committed to getting them done will help to close the time gap as the Communists drive toward world domination."

"We are in for a prolonged and severe test of the democratic system, and the ability of our democratic system to cope with problems of a complex and changing world."

**RATE GROWING**

About 45,000 Americans now living eventually will have cancer—one in four persons—if present rates continue. The American Cancer Society says that at least one-half of these can be cured with present skills.
