70-06 Graduation

ADC General Slates Speech

The deputy chief of staff, Plans, Headquarters Aerospace Defense Command (ADC), is scheduled to be the featured speaker at graduation ceremonies for Class 70-06 at the base theater April 11.

Brig. Gen. Jimmy J. Jumper assumed his present position at Ent AFB, Colo., after serving as command inspector general (ADC). He has served in a number of key aircraft maintenance positions at many locations in the United States and in the Far East. In March 1954, General Jumper was assigned to the Air Defense Command as liaison officer for the North American F-86 Sabrejet "Pull Out" project which involved extensive modification of the Sabrejet aircraft.

Following an assignment as commander of the 5040th Consolidated Aircraft Maintenance Group at Elmendorf AFB, Alaska, he became commander of ADC's 48th Fighter Interceptor Squadron at Langley AFB, Va., equipped with Convair F-106 Delta Darts.

General Jumper returned to Hq., ADC in 1964 as chief of the Aircraft and Equipment Maintenance Division and later as director of operational inspection

in the office of the Command Inspector General. In July 1966, he went to Headquarters U. S. Air Force as assistant for colonels assignments, deputy chief of staff, Personnel. This was followed by an assignment as commander, 27th Tactical Fighter Wing, Cannon AFB, N.M.

General Jumper was graduated from the Air Command and Staff College in 1957 and the Air War College in 1961, both at Maxwell AFB, Ala. He is a command pilot with more than 4,800 flying hours.

HONORED AIRMAN—A1C Dennis M. Brent instructs a student pilot as part of his duties as an instrument trainer instructor in the T-37 section of the synthetic trainer branch. Airman Brent has been selected as the 3500th Pilot Training Wing's Airman of the Month for April. See story at right. (U.S. Air Force Photo)

April's Airman Honors Earned By Instructor

A Cessna T-37 instrument trainer instructor has been selected as the 3500th Pilot Training Wing's Airman of the Month for April.

A1C Dennis M. Brent, assigned to the synthetic trainer branch, instructs students in all phases of instrument procedures and techniques in the T-37 type trainer. He demonstrates various maneuvers to the student pilots and preflights the trainers for proper operation and performs minor maintenance on this equipment.

Airman Brent arrived at Reese less than two months ago from the Instrument Trainer Technical School at Chanute Technical Training Center, Ill. During his tour at Chanute, he served as a student class leader in his assigned student squadron. While serving as student leader, he was honored as Student Airman of the Month and was presented a letter of appreciation by his squadron commander for his outstanding contribution to the squadron. He was graduated from the school as the top student in his class.

After arriving at Reese, Airman Brent was placed in training to qualify for his duties as an instructor. According to CMSgt. Paul Jantzen, training devices supervisor, "Airman Brent approached this task with abounding aggressiveness and displayed initiative by practicing and studying many hours during off-duty time." The honored airman was qualified in half of the allotted training time.

Upon Completion of training, Airman Brent received one of the highest grades ever given an instructor in the section on an initial check.

Airman Brent has completed three years of college at Waterloo University, Ontario, Canada.

Pro Pay, VRB Cuts Made In Some Specialty Fields

WASHINGTON (AFNS)—Variable reenlistment bonuses will be paid in six less Air Force specialties in Fiscal Year 1971 and there will be 11 fewer proficiency pay specialties, major commands have been advised. The actions will leave the Air Force with 100 VRB specialties and 64 receiving pro pay.

The decreases are less than first anticipated by Personnel planners. The cutbacks, determined in an annual review of specialties, were attributed to impending force changes and strength reductions.

Specialties terminating P-2 pro pay on July 1 are: 30152/72, 30450/70, 30551/71/93, 31652/72, 34251/71, 30352/72/93, 30454/74, 31651/71, 32650/70, 46350/70/90

Also, 46250/70/90 in the P-1 awards.

Reductions in monthly payments were announced for a number of specialties in P-1 and P-2 rates. However, the 30650/70/90 skill will be increased from P-2 payments of \$75 monthly to \$100 in the P-3 group. Also scheduled for increase from \$30 in the P-1 to \$75 monthly P-2 rates are the 27250/70/90 and 40350/70/90 skills.

Officials explained that the decreases are necessary since the major portion of the strength reductions will be from the first-term force in the affected specialties, resulting in career-force manning exceeding Defense Department criteria for incentive pay or current award levels.

VRB terminations, effective July 1:

24150/70, 27550/70, 30352/72, 34251/71, 43150/70, 73330/70, 90930/70, 24250/70, 30152/72, 30553/73, 36350/70, 54550/70, 75132/72, 90932/72, 27350/70, 30251/71, 32650/70, 73231/71, 42250/70.

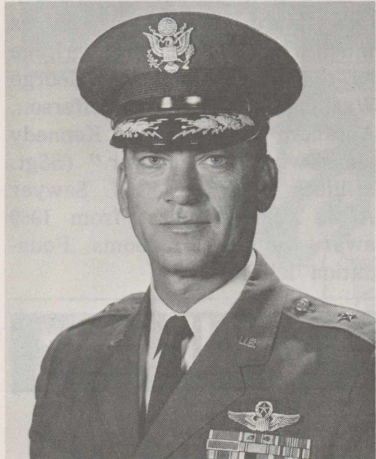

New VRB awards, effective July 1:

V-4: 47250/71, 47251/71, 99125; V-3: 23354/74; 36153/73, 36253/73, 42252/72, 53250/70, 53550/70, 60750/70, 62251/71, 90831/71, 91150/70, 98131/71;

Reductions, effective July 1: V-4 to V-3: 30551/70, 32450/70, 46430/70;

V-4 to V-2: 31651/71, 31652/72; V-3 to V-2: 23350/70, 27332/72, 30351/71, 30353/73.

V-1 to V-3: 68550/70; V-2 to V-3: 42153/73, 53150/70; V-1 to V-2: 42152/72, 90150/70.

Brig. Gen. Jumper

PTA Planning Spring Carnival

The Reese Parent-Teachers Association will sponsor a Spring Carnival April 18 at the Reese Elementary School, 3 to 6 p.m.

Various games and events are planned and everyone is invited to attend. Hot dogs, soda and coffee will be available in the snack area.

The next PTA meeting meeting will be held April 21 at which time an election of officers will be held.

EGG HUNT — Col. Clyde J. Morganti, wing commander, at right, gives the Easter bunny a hand at the annual Easter egg hunt Sunday on the soccer field near the wing commander's quarters. Some 500 Reese dependent children scurried about finding a total of 5,400 eggs during the hunt sponsored by the base Youth Center. The bunny? A well-kept secret, but known as "Fuzzy the rabbit". (U.S. Air Force Photo)

FOR THE COMMANDER

Reins Of Command Provided By Unit

Col. Clyde J. Morganti
Wing Commander

By Lt. Col. W. L. Brower
2053rd Communications Squadron Commander

"The mission of the Air Force is to fly and to fight and don't you ever forget it!" This maxim came out of the war in Vietnam and, indeed, is entwined in the very history of the U.S. Air Force. The fighting force of the USAF, like most modern military operations, depends on a large number of the supporting functions and far more people are in the support end of the business than in the fighting.

A majority of Air Force personnel hear an occasional reference to the local communications squadron, and know it is a service agency but have little knowledge of the responsibilities of Air Force Communications Service (AFCS), the parent organization. This command as a supporting function ties the global mission of the Air Force together by "Providing The Reins of Command." AFCS is charged with the responsibility for providing and operating on-base and global communications, air traffic control services,

and air navigational aids for the Air Force and other Government and civilian agencies. Through its more than 600 operating locations around the world, AFCS provides five principal services essential to effective command and control. These services are:

(1) On-base communications — Services are customized to the needs of each of the more than 200 USAF bases throughout the world, providing telephone service, teletype and data communications, maintenance of supply computers, intercom, fire and crash alarm, air police and security alerting systems and on-base closed circuit television, all an AFCS responsibility. Many stateside bases such as Reese have leased commercial telephone services managed by AFCS.

(2) Long-line communications — Long-haul or inter-base communications facilities and operations constitute the major portion of the overall Defense Communications System (DCS). The DCS complex provides the Department of Defense with a global system of teletype, facsimile, data and voice communications necessary for command and control of military forces. These systems are also designed to support specific requirements of the nation's aerospace force. Transoceanic systems, such as radio, teletype, telephone and data circuits and special networks providing communications for aircraft and missile early warning systems are part of the long-line system.

(3) Air Traffic Control — Operate and maintain air traffic control facilities and navigational aids world wide. Provide point to point and ground to air radio stations, airdrome control towers and precision radar control services permitting aircraft landings and takeoffs under all weather conditions. USAF and Federal Aviation Agency (FAA) air traffic controllers use the same basic procedures manual and FAA writes the basic air traffic control regulations under which AFCS operates. The two organizations work closely on air traffic control matters and in some locations facilities are manned jointly by FAA and AFCS.

(4) Navigational Aids — This service involves electronic aids to air navigation (the signposts of the sky necessary for flight crews to determine their position). Air navigational aids include tactical air navigation aid (TACAN), VHF omni direction range (VOR), co-located VOR and TACAN site (VORTAC), direction finders (DF) and home beacons, radar beacons, marker beacons, instrument landing systems (ILS), radio homing beacon (RBN), and mid-range radar and radio.

(5) Emergency mission support — AFCS has five mobile communications groups spotted strategically around the world and equipped with nav-aids, air traffic control equipment and mobile communications gear which can quickly be air transported to any part of the world in response to contingency or disaster requirements.

Although a thumbnail sketch of a highly technical service, AFCS is manned with highly skilled professionals who are dedicated to provide service wherever required. Its people are well traveled as 60 per cent of the command is overseas at all times. Comparatively, a small command but one that truly ties the USAF together.

Not As It Appears

Newspaper Serves As Tool For Commander

By SSgt. D. A. Cardonita
Editor, ATC Press Service

The Roundup looks like a newspaper, reads like a newspaper, and folds like a newspaper, but it is not really a newspaper.

Although called a "paper," it is actually a vehicle for Col. Clyde J. Morganti in giving you the "straight poop."

Believe it or not, the commander has your best interests at heart. True, mission accomplishment is paramount; but he realizes that people, all races, all ranks, are the Air Force's greatest asset. Without people, B-52s, F-111s and Apollo rockets would be just so much metal.

In its likeness to a newspaper, the Roundup strives to inform to educate and to entertain you.

Base newspaper standards are outlined in Air Force Regulation 190-7. If you've ever wondered why the Roundup runs certain stories and not others, a perusal of this USAF document will give you the answer.

Also, put yourself in the editor's chair. He's trying to reach a diversified audience. From colonels and generals, to the airman, plus their dependents and civilian workers. Should he use multi-syllable words to impress the brass? He could—but he'd probably be writing over the heads of the so-called "average" reader. Should he then write to the educational level of that average individual and possibly insult the intelligence of the more educated? What would you do?

They say it takes all kinds to make a world—that's certainly true in today's ultra-sophisticated military establishment. To reach this diversified grouping of people is no easy matter.

So the next time you pick up a copy of the Roundup think of the editor. His only business is to inform, to educate and to entertain you. Also, think of the commander and his vast responsibilities. The Roundup is his vehicle for letting you know what's going on here.

If you've got any suggestions on how to improve the Roundup, call James Comeaux, ext. 2578. He'll be happy to hear from you.

Remember—it's your paper too!

On The Line

What Do You Mean?

By Chaplain (Captain)
Clyde F. Pressley Jr.

"Hell"! Profanity, philosophy or geography?

"Hell" is definitely profanity. It represents strong emotional re-

lease when it is spoken. With this word we associate connotations of all that is unbearable and frustrating. Count the times you use, or hear used, this one word in a day's time.

One day I was frustrated about something and I said, "good heavens". A lady overhearing remarked, "Chaplain, what strong words you use." Whereupon I replied, "Well, I try not to promote the other place." The "other place" gets too much promoting as it is.

"Hell" is philosophy. As I stated above with this word, we associate all that is unbearable and frustrating. You have heard the phrase "hell on earth." Many people, because of poor disciplines, morals and self controls and some because of circumstances beyond their control, experience this "hell on earth." When we equate an experience, a place or a situation to "hell", we have assigned it a place in our lowest esteem.

"Hell" is geography. Because of our sophisticated knowledge of what constitutes "the up" and "the down" of our physical world, "heaven" and "hell" is not important. If we only accept the

philosophical "hell on earth" concept, it is clear that this is also geographical.

Most religions, especially the Judean-Christian religions, speak of evil and its corresponding end product of corruption and hell, a place to avoid.

"Hell" is all three, profanity, philosophy and geography. It depends upon what, in the word "hell", you mean.

Quote of Note

(An AFNS Feature)

"It is not ironical that I respect and honor America; because only in America could my race have been able to make the progress that it has made in the last decade or so, considering the fact that we were slaves only a little over a hundred years ago. I have a large stake in America's future, and I am just as much a part of her rich heritage as the descendants of George Washington, Thomas Jefferson, Abraham Lincoln, John Kennedy and Dwight Eisenhower." (SSgt. William H. Gunn, K. I. Sawyer AFB, Mich., excerpt from 1969 award-winning Freedoms Foundation letter).

Understand All Deposits When Beginning Rent

Tenants should have a clear understanding of any deposit required when renting a house or apartment. Better yet, this information should be obtained in written form and retained as a matter of record.

The deposit sometimes simply holds the apartment until a firm decision is made whether to rent. The deposit protects the owner from loss of rental fee while the apartment is held for the prospective tenant.

Sometimes the deposit is used as an advanced rent payment, often for the last month of the lease. If this is the case, the deposit should not be forfeited for breach of other terms of the rental agreement, like cleaning or repair.

If used as a "cleaning deposit," the money should be limited for that purpose. Does it cover normal wear and tear? Repairs? Does it cover other breaches of the lease?

The tenant should see that the purpose of any deposit is fulfilled. Base legal assistance offices can assist in questions arising over use of rental deposits.

Safety A Vital Concern

(An AFNS Editorial)

The human suffering and economic waste caused by accidents are principal concerns of the Nixon Administration. The President has directed that Federal, Civil and military personnel and the public must be protected; governmental programs must be efficiently run.

These goals can best be realized by a unified, dedicated and on-going program of accident elimination in government.

In 1965 when Mission Safety-70 was begun, the disabling injury

frequency rate was 7.7. The rate for 1968 was 6.9 and preliminary estimates show further improvement attained in 1969. Through this effort more than \$12,210,000 was saved and 16,200 disabling injuries were prevented.

The Federal government works with labor unions representing government employees, with state and local governments and with appropriate safety organizations. Through this united effort, sound accident prevention principles and practices are developed.

There is still great progress to

be made. Department or agency heads play a major role in the elimination of accidents. If a department or agency has an effective program in this area, it should be continued; if it does not have an adequate program, one should be developed; if the program needs the necessary resources to make it effective, resources should be provided.

Everyone in a department or agency should know that a safety program is effective only to the degree that it is supported and participated in by employees.

Tweety Topics

By Capt. Gerald T. E. "Speedy" Gonzalez

The 3501st Student Squadron's newest addition is SSgt. Homer E. Nash who takes over the personal equipment shop. Coming from an assignment in sunny Spain, Sergeant Nash is a native of southeast Kansas. Eager to take his place in the squadron, among his first questions was: "Who do I see about getting a squadron coffee cup?" He must already be anticipating early and late hours! Sergeant Nash and his wife, Lynn, have two children, Kathy and Michael.

Losses

Capt. "Scotty" Scott — our C Flight Royal Canadian Air Force exchange-type — will be leaving our squadron for the "Spooks" sometime in the middle of April. He will leave behind a set of bridge cards and a treasury of

stagbar and cross-country games. First Lt. Rich Null left for "charm school" Sunday. When he returns he will not only officially be an academics weenie, but he'll also be cleared to stand behind a podium.

Amn. Bernard Salviejo, one of our dispatch section types, will be leaving around April 20. When anyone congratulates him on getting an assignment, all he does is smile and say "dozo."

Changes

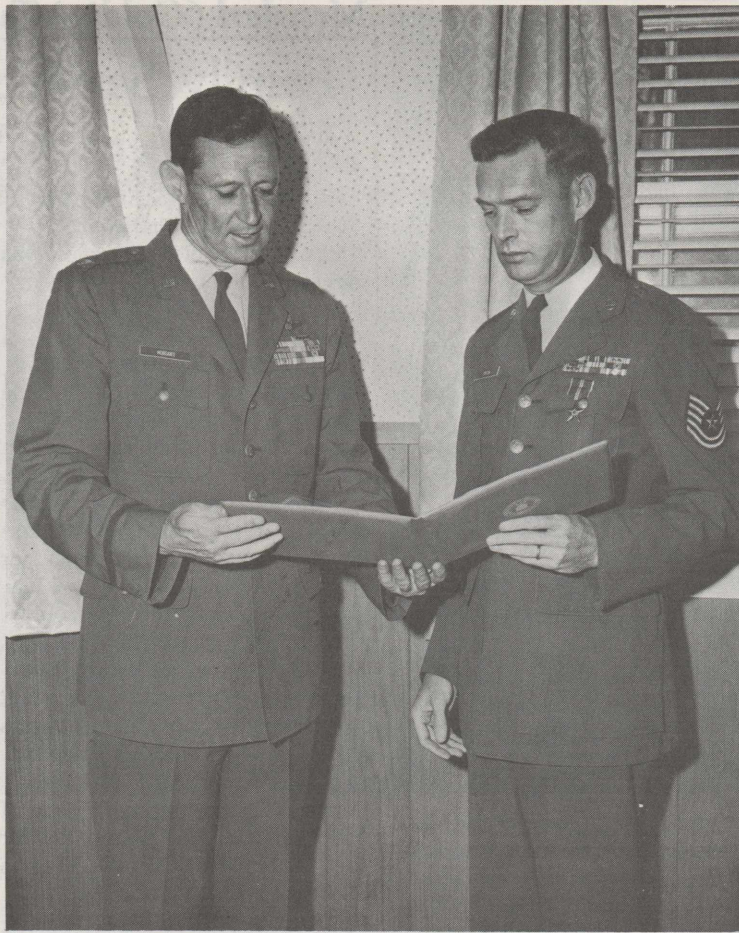

It is rumored that Captains Bob Nestor and Marvin Eichmeier will soon be going to E Flight in supervisory capacities.

Meritorious Achievements

Class 71-05 celebrated its first two initial student solos recently. Soloing the same day were 1st Lt. Ronald A. Johnson, 71-05 class leader, and 2nd Lt. Keith L. Cotner. Both are B Flight Bramas. The F Flight instructor pilots and students celebrated St. Patrick's Day March 17 with the "wearn' o' th' green" and a party at the Community House. It is said that the longer the evening wore on, the more the leprechauns were observed to be mingling among the company, and the greener things became.

Mentioned In Passing

Squadron tennis players see Capt. Bob Nestor — something about a 60-man squadron tennis team . . . The snack bar is now selling frozen breakfasts and the stagbar is selling cold suppers . . . The squadron is now the proud possessor of the second place trophy for intramural volleyball . . . First Lt. Jim Kennedy was the last column's quoteworthy individual . . . Squadron's noteworthy quote for this column: "Pilots are still the most inexpensive, non-linear computing system capable of being mass produced by unskilled labor."

BRONZE STAR—TSgt. Harry B. Tipton, Detachment 11, 24th Weather Squadron, Reese AFB, at right, receives the citation that goes with his Bronze Star Medal from Col. Clyde J. Morganti, wing commander, during Tuesday's wing staff meeting. The medal was awarded for services in the Republic of Vietnam between Jan. 23, 1969, and Jan. 20, 1970. (U.S. Air Force Photo)

Talon Talk

By 1st Lt. Wayne M. Schnell

G Flight goats were subjected to the lowest form of barnyard humility March 26 when the leader of the farm discovered that the infamous computer run-outs were not being given their due respect. An open ranks inspection seems to be the cure-all though. Respectful homage is now paid the computer every day before flying in hopes that it will never feel mistreated in the future.

A follow-up inspection was performed by the "studs" on the instructors immediately following the daily briefing. Needless to say, there were gross deviations from the expected norm and all instructors were instructed to shape up.

Second Balloon Solos

There he was, a second balloon, first solo in four ships. As usual, he was showing typical student aggressiveness. He promptly forgot about the basics of airspeed and power and before you could say "bailout" he was all by himself sitting above his leader. The following radio calls transpired:

"Lead got three."
"Three's got four."
"Four's got three."
"Negative, three has lead?"
Then the mysterious voice said: "Who has two?"

First Lt. James R. Bettcher, soon to become a new instructor, came to us from Moody AFB, Ga. He is now getting on-the-job training as a casual in check section. He is soon to leave for survival school and instructor pilot training. Spring will come very late in those mountains north of Spokane. Keep your long-johns unpacked.

F Flight got into the news with a sterling night flight. After one-half hour on the radio, the crew decided to land with a gear check, full stop and reload.

"Be advised I have stuck mike button." All other comments have been censored.

Pinkies Pantry Patter

This week we find Class 71-06 with a scant two weeks remaining of the allotted six of Phase I. We also find the class still sitting around making mistakes as usual. However, over half the class has yet to make their first solo flight. As the wind continues to blow, the class continues to sit. About once a week some of the

class is able to fly for part of a morning or late in the afternoon. On these days it is not unusual to see students pondering which door of the plane to use. Many of the students have gone over 10 days between flights. This makes it difficult for even the best students to show improvement from flight to flight. In fact, it proves very challenging to even remember what happened on the last flight.

It is becoming increasingly apparent that the class will have difficulty finishing on time. However, the class morale has not been hampered by this prospect. The men have come up with many suggestions to aid in the completion of the T-41 phase. One of the most promising of these advocated renting the Astrodome for the remainder of the training. The status of this suggestion is somewhat uncertain at present.

No one really worried about the weather problem until the instructors started looking more familiar than the wives.

ATC Delivers Computer Tape On Promotions

HQ. ATC (ATCPS)— Air Training Command was the first major command to deliver its computer tape information on promotion eligibles to the U. S. Air Force Military Personnel Center, Randolph AFB, Tex. Submitted to MPC's Weighted Airman Promotion System (WAPS) Division, the tape contained information on more than 27,000 ATC airmen eligible for promotion in the June 1 promotion cycle.

According to MPC promotion officials, tape data from the other major commands has now also been received and is presently being worked.

AF Nurses Attend Medic Symposium

LACKLAND AFB, Tex. (ATCPS) — Four-hundred and seventy-one nurses from throughout the United States gathered at Wilford Hall U.S. Air Force Medical Center, here, recently for the 13th Annual Clinical Nursing Symposium.

Air Force nurses from 66 bases, Army nurses from 5 installations and representatives of 12 civilian institutions attended the conclave which had as its theme Maternal and Newborn Nursing.

Mrs. Jerl (Goldie) Turner

Family Services Names Top Volunteer Of Year At Meeting

**By Mrs. Marvin Eichmeier
Publicity Chairman**

Mrs. Jerl (Goldie) Turner was named "Volunteer of the Year" and a new coordinator and assistant coordinator elected at a March 25th meeting of the Family Services Advisory Council at the Family Services center.

Mrs. Turner barely edged out Mrs. Gerald Hammer in the voting among the council members present. Mrs. Turner, who has since departed Reese AFB for her home in Arkansas while her husband is in Southeast Asia, was cited for her more than 700 hours contributed toward Family Service volunteer work last year and her many contributions while serving in a number of offices. She was spotlighted by Family Services in the March 13 issue of the Roundup. Also nominated for the honor were Mmes. Marvin Eichmeier and Marvin Helms.

Mrs. Charles W. Buck, the current assistant coordinator under Mrs. Hammer, was elected to fill the coordinator's job for the next six months, while her assistant will be Mrs. Thomas B. McKee. They assumed their new jobs Wednesday.

Presiding over the meeting was Col. William C. Sipes Jr., 3500th Air Base Group commander.

Reports were heard from SMSgt. J. W. Anderson, personal affairs section, Mrs. Geri McQueen and Mrs. Hammer.

A great deal of discussion cen-

YWCA Offers Three Classes

Reese women, who are members of the Young Women's Christian Association (YWCA), will

have the opportunity to enter classes in stitchery, bridge and golf beginning next week.

The stitchery class will begin 1:30 p.m. Tuesday at the YWCA with the cost of 10 lessons set at \$12. The golf lessons begin 10 a.m. Monday at Meadowbrook Golf Course under the direction of Jay McClure, the golf professional there. Charge will be \$12 for the five lessons. Intermediate bridge lessons will begin at 9:30 a.m. Tuesday at the YWCA with the cost set at \$10 for six two-hour lessons.

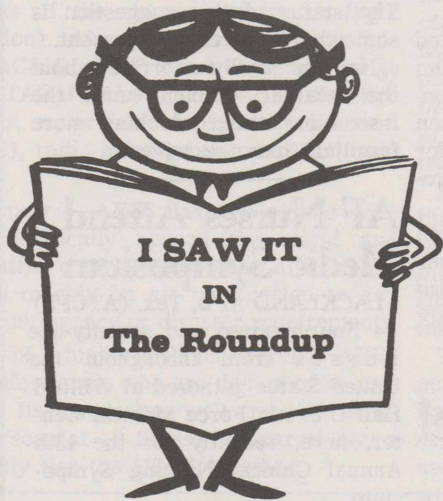

Further information may be obtained at the YWCA office, 3101 35th Street, phone 792-2723.

Kiddies Game Day Set For Sunday

**By Mrs. Marvin R. Helms
Publicity Chairman**

Last week we published a notice that Kiddies Game Day would be held March 29th at the NCO Open Mess. That was an error. Kiddies Game Day will be held Sunday (April 5) at the mess with all base personnel—officer and enlisted—invited to attend. Prizes will be awarded winners and a chance to win a \$25 U.S. Savings Bond.

TRCS GRADUATE—Col. William C. Sipes Jr., 3500th Air Base Group commander, at right, presented certificates of course completion to 18 Reesites attending a training course for technical representatives of the commander on March 27 at base procurement office. At left is TSgt. James Jatras, and in center-foreground is MSgt. J. W. Byrd, both instructors from the Lowry AFB Procurement School, who conducted the course. See story below. (U.S. Air Force Photo)

Training School Graduates 18 Reese TRCs March 27

Certificates of course completion were awarded to 18 base military and civilian personnel attending a training course for technical representatives of the commander (TRC) March 23-27 in the base procurement office. The certificates were presented by Col. William C. Sipes Jr., base commander, March 27.

Personnel completing the course were: Captains John H. Wilson, William E. Marshall and Vincent P. Murphy; 1st Lt. Robin T. Campbell, 2nd Lt. Kenneth A. Nelson, SMSgt. John S. Connell, MSgt. Bernard J. Connors, TSgt. Darrell B. Ragsdale, Staff Sergeants Jack W. Schlee, Nilen E. Birdsong and Charles W. Buck.

Also the following civilian personnel, Joe Greer, Horace L. Johnson, Ronald F. Thompson and Harlen Mayberry; Mmes. Louise G. Davis and Annie L. Sasser. TRCs are the commander's personal representatives and are members of the Air Force quality assurance team.

'Space Odyssey' Heads Weekly Theater Billing

A stunning off-beat drama, "The Rain People," leads the week's theater schedule at the base theater tonight. The movie stars Shirley Knight, James Caan and Robert Duvall and is suggested for restricted audiences.

"King Kong Escapes" is slated as tomorrow's matinee. Starring Rhodes Reason and Linda Miller, the return engagement is suggested for general audiences.

Terence Hill and Frank Wolff are featured in tomorrow's evening movie, "God Forgives — I Don't." Billed as a suspenseful outdoor action drama, the movie is rated GP, all ages admitted with parental guidance suggested.

"The Happy Ending" will be Sunday's movie at the theater. Starring Jean Simmons, John Forsythe and Shirley Jones, the feature is rated GP.

William Holden and Virna Lisi are featured in Tuesday's heart-warming drama at the theater. "The Christmas Tree" is rated for general audiences.

The Academy Award winner for best special effects, "2001: A Space Odyssey" will be featured Wednesday and Thursday. An adventure which spans the whole history of the human race, the movie stars Keir Dullea and Gary Lockwood and is suggested for general audiences.

Base Education Office To Offer Reading Course

The base education office has announced the summer term scheduled for the on-base education program and the beginning of another speed reading course to begin later this month.

Provided by the Extension Division of Texas Technological University, the on-base program will begin April 27 and 28 with final examinations slated for June 24-25. Tuition will be \$15 per semester hour for all students and military personnel may receive tuition assistance at the rate of \$11.25 per semester hour.

Registration for the courses should be done in the education office by April 16. All interested personnel are encouraged to pre-register as soon as possible. The university requires an overall average of 15 students per class.

Those classes to be offered on Mondays and Wednesdays, 5:30 to 8 p.m., include: College Rhetoric I (freshman English), History of the U.S. to 1877, Elementary Accounting I, General Psychology I, College Algebra and Masterpieces of Literature.

Classes offered on Tuesdays and Thursdays, 5:30 to 8 p.m., include: Introduction to Philosophy, College Rhetoric II, History of the U.S. since 1877, Elementary Accounting II, American Government Organization, and Introduction to College Math.

The speed reading course will be offered for six weeks beginning April 20. Applicants should contact the education office for a reading test to determine which class and times for the course.

SAFETY FACTOR — Miss Billye Smiley, 3500th Supply Squadron, shows Fred A. Flewollen, executive secretary of the Suggestion Awards Program, the window she suggested as a safety factor. Miss Smiley received \$25 for her suggestion. See story at right. (U.S. Air Force Photo)

Suggestors Net \$1,110 In Cash For Ideas Saving Base \$10,875

The Military-Civilian Incentive Awards Committee met March 19 and awarded a total of \$1,110 to six recipients, including one for \$575 to a Reesite whose suggestion saves the Air Force \$10,875 annually.

The top award went to Robert B. Davis of the 3500th Field Maintenance Squadron for a suggestion concerning reclaiming brake disc assemblies for Northrop T-38 Talon aircraft.

Two Reesites, Edgcar Davis and Dale Wright, 3500th FMS, were awarded \$160 each for their manufacturing of an ejector shroud reshaping tool that saved the Air Force \$5,393 annually.

An award of \$105 was approved for TSgt. Charles A. Ashcraft, 3500th FMS, for a suggestion concerning the repair of aircraft navigational lights. The suggestion saves the base \$1,100 annually.

Frank Marney of Civil Engineering was awarded an additional \$85 for a suggestion concerning a sludge pump installation that saves the base \$2,046 annually.

And, Miss Billye Smiley, Supply Division, was awarded \$25 for a suggestion concerning the placing of a window in a door as a safety factor. (See picture above.)

Three other suggestors receive

ed Suggestion Certificates for their ideas. They are MSgt. Milton J. Siretiak, Operations; 2nd Lt. William P. Evans, now in Southeast Asia; and Mrs. Lavada P. Petty, 2053rd Communications Squadron.

560 Officers Promoted

WASHINGTON (AFNS) — Promotion of 560 Air Force officers Wednesday reduced the waiting list for fiscal 1970 selections to 5,231. The April 1 quotas call for 54 promotions to colonel, leaving 408. Also, 287 to lieutenant colonel, with 1,739 left, and 219 to major, leaving 3,084.

Fred Lewis And Little People To Perform At Mathis Sunday

The Mathis Service Club will present one of its biggest and best shows of the year Sunday.

The show will feature "The Little People", masters of pantomime, eccentric dancing, comedy, juggling and novelty unicycling with Fred Lewis, billed as the one-man concert. The show will begin at 8 p.m.

Children under 16 years of age must be accompanied by parents or sponsors. Refreshments will be served immediately following the performance.

The schedule at the club for the week is as follows:

Today — Ceramics, 9:30 a.m. and 7 p.m.; table games, 7:30 p.m.

Tomorrow — Ping pong tournament, 3 p.m.

Sunday — Coffee call, 2 p.m.; pool tournament, 3 p.m.; shuffleboard tournament, 7 p.m.; Special show, 8 p.m.

Monday — Game night, 8 p.m.

Tuesday — Table games, cards, 7 p.m.

Wednesday — Ceramics, 7 p.m.

Thursday — Table games, pinochle, 7 p.m.

Roll-Off Forms Bowling Team

A three-week long base-wide roll-off ended at Reese Lanes March 22 with four of 20 bowlers gaining berths of the Reese AFB team that will compete in the ATC Bowling Championships at Chanute AFB, Ill., May 4-9.

The four team members and their collective scores through the entire 24 games bowled are as follows: Jim Shutt, 4535; Bill Festa, 4377; Bert Soule, 4356; and Ken Hyde, 4263.

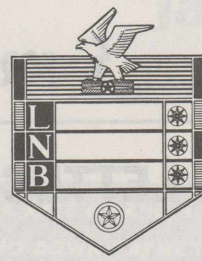

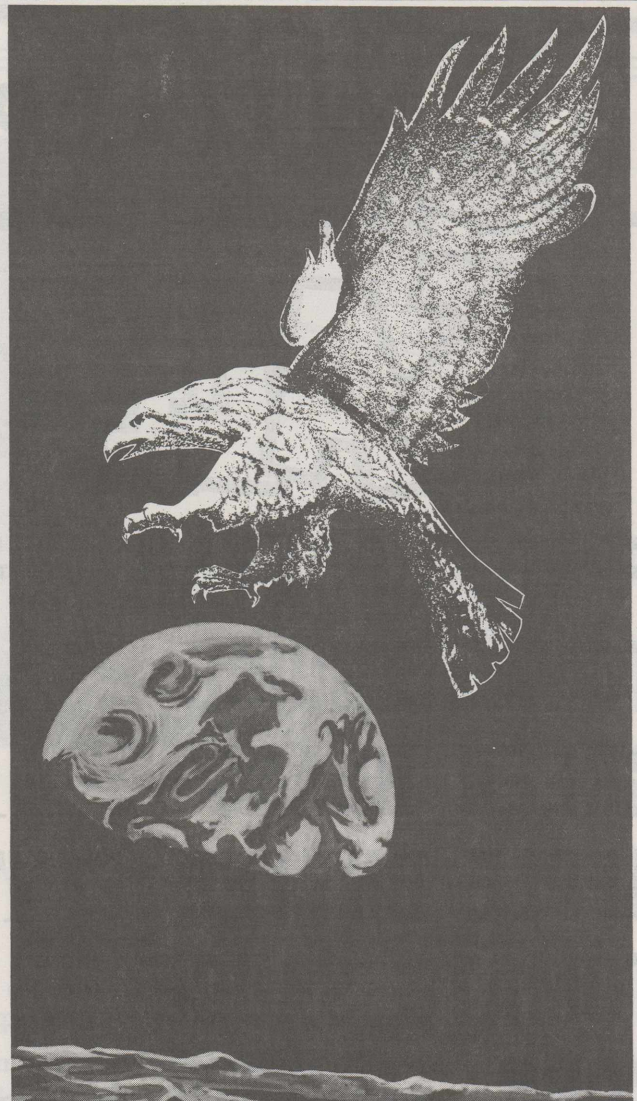

The roll-off had gotten underway at Reese Lanes March 7 with the contestants rolling over the next three weekends.

Invitational To Be Partnership

Golf Council Approves Several Tournaments

The Reese AFB Golf Council has paved the way for several golf tournaments, including the prestigious Invitational, which this year will be played as a partnership June 5-7 at the base golf course.

The council approved the Invitational, along with a pro-am for May 8, and a special Armed Forces Day tournament which will be played May 16th—Armed Forces Day. In addition, they gave approval to two match play tournaments in April.

Most discussion surrounded the Invitational, which has—for the past few years—drawn some of the area's top amateur golfers to the Reese links for individual competition within flights. This year, the tournament will differ in that two-man teams will enter, limited to 64 teams, at the rate of \$35 per team—or \$17.50 per man, the same rate as last year's tournament.

Individual golfers may compete for medalist honors on June 4 (a Thursday) with the low shooter being presented a dozen golf balls.

Team play will begin Friday, June 5, with all the teams being placed in flights—championship, first, second and third flights—following Friday's play, based on the scores shot during the opening round of play. Play will then continue within flights, 18 holes on Saturday and a final 18 holes on Sunday to end the meet.

The usual party held in connection with the tournament will be held on Friday evening instead of

Saturday with some extracurricular activity planned at that time.

Prizes will be offered winners in each flight: merchandise prizes of \$100 to each team member winning first place; \$75 to each second-place winner and \$40 to each third-place winner. Flights will be made up of 16 teams. In the other tournaments plan-

ned at the course, two matches are scheduled this month: an eight-man team of active duty golfers is due to take on a similar number of retired golfers in a head-to-head match tomorrow. An eight-man team of active duty golfers, captained by Jamie Gough, will take on a team from Webb AFB, Tex., later this month.

TROPHY PRESENTED — Maj. Charles C. Gaylord, (left), chief, Special Services Division, presents the winning trophy in the Reese AFB Intramural Volleyball League to Capt. Wayne C. Benesch, captain of the Air Base Group team. The team won the championship by two games over 3501st Pilot Training Squadron. (U.S. Air Force Photo)

Base Volleyball Loop Decided

Air Base Group added six victories over the past two weeks in Intramural Volleyball League play and won the base championship by two games over second-

place 3501st Pilot Training Squadron.

The winners and runners-up were presented trophies in ceremonies March 26 at the base gym. (See picture above.)

The final standings in the league are as follows:

TEAM	W	L
Air Base Group	16	2
3501st PTS	14	4
Class 71-02	13	5
3500th PTS	12	6
Students #1	11	7
Class 71-03	9	9

MANAGEMENT GRADS—Four graduates of a Management Course for Air Force Supervisors, conducted from Feb. 18 to March 25 at building 820 received their certificates of completion on the final day of the course from Col. Victor J. Fraley, deputy commander for Operations, second from left. From the left are Maj. Robert F. Walton, command post, Colonel Fraley, Capt. Harold L. Hiner, Detachment 13, Western Aerospace Rescue and Recovery Detachment, SSgt. Jean P. Escalera, 3500th Organizational Maintenance Squadron, and Jesse A. Freeman, 3500th Field Maintenance Squadron. (U.S. Air Force Photo)

Fund Drive Is Nearing Finish

Base personnel still have an opportunity to contribute to one of all of 17 health and service agencies in the combined National Health Agencies fund drive being conducted on base.

The Reese campaign combines such agencies as the March of Dimes, American Heart Association, Easter Seals, Muscular Dystrophy and others.

Also a part of the drive, the International Services Agencies campaign provides methods of helping people overseas. The great white hospital ship, SS HOPE, is called the "most wel-

come ship in the world." To countless millions, she symbolizes medical knowledge, good health and good will. Through CARE, millions receive food, clothing, medical care, tools and seeds. Other agencies are the American Korean Foundation and Planned Parenthood-World Population.

Those Reesites who have not returned their contribution envelopes to the key workers are urged to do so in order to reach the goal of 100 per cent participation.

Golf Council Nixes Street Shoe Play

The Reese AFB Golf Council clamped down on players touring the base course in street shoes.

In action taken at a special meeting March 26, the council voted to turn away any player not wearing golf shoes or approved tennis shoes.

It was explained that street shoes, especially those with hard heels, were damaging the greens.

Banquet Set Monday For Youth Hoopsters

Members of the Reese AFB youth basketball team will be honored at a banquet Monday at 6:30 p.m. at the Officers Open Mess.

Players and coaches will be guests of the Youth Center.

TOPS Awards To Two Units

HQ. ATC (ATCPS) — Winners of Air Training Command's two highest safety awards for Calendar Year 1969, the ATC Undergraduate Pilot Training TOPS (To Promote Safety) Trophy for Flying Safety and the Commander's Award for Ground Safety, were announced this week by command Safety officials.

Winners of the flying safety trophy is the 3630th Flying Training Wing, Sheppard AFB, Tex., while the ground safety award winner is the U.S. Air Force Recruiting Service, headquartered at Randolph AFB, Tex.

The flying safety award is pre-

sented to the UPT wing having the lowest accident rate for the calendar year. The 3630th FTW, which conducts undergraduate pilot training for German Air Force students, flew more than 54,000 hours without a major or minor accident. All other UPT wings experienced at least one accident, ATC Safety officials explained.

2,478 Airmen Promoted Under USAF's Whole Man Concept

WASHINGTON (AFNS) — Air Force officials have identified the 2,478 airmen selected for promotions to staff, tech and master sergeants as a supplement to the final cycle under the "whole man" concept.

Approval for the additional promotions were granted by the Department of Defense in January. Quotas were gained by "mixing" DoD authorized strength ceilings in each of the NCO grades.

Selected were 1,254 to staff, 213 to tech and 1,011 to master, to be promoted after depletion of the original fiscal year 1970B cycle lists. Promotions in this cycle are scheduled to be completed by the end of May and officials say they expect to meet this schedule.

Added to those remaining on the FY 1970B selection lists would call for 14,522 noncommissioned officer promotions on May 1. The combined selection lists consist of 9,382 to sergeant; 2,679 to staff; 1,216 to tech; and 1,241 to master.

Achievement of this goal would enable Air Force's new weighted airman promotion system (WAPS) to effect its first promotion on June 1 without carryovers that have plagued the promotion system following reductions in force

and budget cuts announced last fall.

The Air Force Military Personnel Center at Randolph AFB, Tex., is processing computer-tape information on promotion eligibles submitted by the major commands. Selection objectives for all grades are expected to be sent to commands in early April. Selection lists will be announced in mid May.
