

## Young Dairymen Need Encouraging

### TEXAS

Corsicana has industry, agriculture and manpower, commanding the resources of a \$100,000,000 trade territory, with 53 factories, 67 wholesale houses, and many manufactures' representatives. Corsicana saw the first gushers of the Mid-Continent, and three of the nation's largest oil companies originated there—the Magnolia Petroleum Company, the Texas Corporation and the Gulf Company. These are some of the achievements and possibilities of the City of Corsicana which furnish the material for an enlightening narration published in the May number of Texas Opportunities, a magazine issued in interest of Texas development by the Texas Power and Light Company.

In addition to development industry, Corsicana has furnished the world her quota of captains of industry, the magazine story relates. Among its notables in the business world are E. R. Brown, president of the Magnolia Petroleum Company; J. S. Cullinan, organizer of the Texas Company; E. H. Buckner, president of the Houston Oil Company; H. L. Stone, general attorney of the Gulf Company; John W. Carpenter, president of Texas Power and Light Company; Alma McAfee, originator of No-Nox gasoline; W. C. Proctor, Ben H. Stephens, and other prominent officials of the Magnolia Company; H. G. Johnston, originator of the first rotary grilling rig; J. Doak Roberts, president of the Texas Baseball League; E. E. Plumy, Magnolia Refinery superintendent; B. D. Johnson, treasurer of the Federal Land Bank, and others.

In the Corsicana Cotton Mills of 15,000 spindles, Corsicana has one of the most profitable textile enterprises in Texas. In addition, there are a number of modern cotton gins, two large cotton seed oil mills, two warehouses and a high-density compress. The Corsicana cotton area produces half a million bales annually.

Against this snowy background stands 7,000 Jersey cows that are making the dairy movement in Navarro County a thing of rapidity and importance. Fifteen dairies and two creameries do business in Corsicana. A variety of grains, fruits and vegetables lend variety to the crop routine. The city is crisscrossed by railroads and electric lines, and highways, and its two newspapers—the Corsicana Daily Sun and the Corsicana Semi-Weekly Light, give support to every worthy effort and expression of public sentiment.

Small wonder, with such incentive and support, that Corsicana ranks as an outstanding Texas city in every respect, as the story of its remarkable record outlines.

### HERMLEIGH WINS OVER ROSCOE IN FAST GAME

In one of the fastest games played on the local diamond this season, the strong Roscoe Busters went down under the Hermleigh Flyers in a 5-4 game played here Tuesday.

The main feature of the game was a picturesque battle between pitchers, Pat Bullock represented Hermleigh, and Bob Potter represented Roscoe, the latter going down in defeat. Very few errors were made, and several fast plays were turned sure hits into put-outs.

Hermleigh was defeated by Roscoe on their ground last week and now we have turned it back on them in what was considered the best game played in the country this year. There have been league games played this season which was not as close as this one. With the single exception of a few incidental errors, the game was perfect. Look out for the third game!

### M. E. S. HAS PICNIC

The Supt. and members of the Methodist Sunday School here, enjoyed a big evening picnic outing Wednesday evening. The pretty lawn of Mrs. J. I. Chorn's was used as a picnic ground. Ice cream and cake were served, games of croquet were played, and various other amusements were enjoyed.

The older ladies grouped themselves together and discussed, the reporter doesn't know what; the older men grouped themselves together and discussed the weather and current theology; the youngsters happy stood out in the lawn lights and admired each other, while the smaller tots had a real picnic time.

Grandmother Leslie 90, was the oldest person present, and little Miss Elsie Pauline Vernon was the youngest.

### MINUTES CITY COUNCIL MEETING JULY 17, -29

The council of the City of Hermleigh met with Mayor Mueller in regular session, July 17, 1929. Aldermen present, J. I. Chorn, W. E. Louder, R. S. Norman, and J. F. Drennan. Secretary W. C. Fargason and Marshall Mims being present.

Bills allowed from water fund, Higginbotham-Bartlett Co., \$16.70. King Eagle Garage, \$4.95. From street funds, O. D. Runnels, \$10.00. From general fund, American LaFrance and Pomite Industries, Inc., \$390.47.

Motion to adapt street ordinance offered by Norman and seconded by alderman Chorn, carried unanimously.

The following resolution offered by Alderman Louder, and seconded by Alderman Drennan, was tabled by a motion prevailing in favor of J. I. Chorn, and R. S. Norman.

Motioned to recess the meeting prevailed.-- W. C. Fargason.

"Whereas, about 40 per cent of the citizen of the City of Hermleigh are organized against, and are fighting the incorporate government in the higher courts of the state; and

Whereas, near 40 per cent of the citizens of the City of Hermleigh are indifferent, unconcerned, inexpressive in word or action of any concern with reference to the maintainance of a city government, declining to perform any duty whatsoever in connection with the affairs of the city government of the aforesaid City of Hermleigh; and

Whereas, the city council can not handle the complicated affairs of the city, laboring thus alone, therefore

Be it Resolved, that the council of the City of Hermleigh petition the District Court for the appointment of a receiver for the aforesaid City, and all taxes and other accounts due the City of Hermleigh, and all warrants and other debts owed by the City of Hermleigh, be turned over to same for collection and settlement."

Mr. McGee, brother of our own Mrs. F. D. Mueller, was in town here Tuesday, attending the famous Hermleigh-Roscoe game.

Mr. Miller of Loraine was in town Wednesday.

### SNOWDEN'S GOOD RECORD GETS BACK HOME AGAIN

The Snyder News carried an article in the issue of the fifth, instant, clipped from the Sweetwater Reporter. The article was first published in the Herald, then in the Snyder Times Signal, recopied from the Times-Signal, we suppose, by the Sweetwater Reporter. The article is now making its way back to the Herald, the place of its birth.

The article in question was written concerning what an average farmer, A. E. Snowden, of the Hermleigh community is doing in the way of farm diversification. The Sweetwater paper was crediting the County Agent of the county with this accomplishment. Perhaps they are due the credit in part, but the newspapers of the country have done far more than the agents have done in the matter of encouraging diversification in Scurry, and all other counties. The Herald doesn't intend to speak disparagingly of the Agents work, but the above is cited as an example of how much the newspaper of the country are doing in this matter.

No community has an enterprise or an executive official who can take the place of the newspaper. The newspaper goes everywhere and never fails to carry something of encouragement concerning the state, county, towns welfare. Lindy's initial trans-atlantic flight didn't make Lindy famous, but the newspaper of the country did make him famous. Paint would be of little value to a building if it were not "smeared on."

The fellow who "sleeps on the job" not only loses the time spent in his reposing 'nap' but is drowsy the rest of the day.

"Awake thou that sleepesth."

"A man should stand erect."

### PRINT SHOP FABLES

Well, Look at the Ol' Busybody telling Ye Editor to Lambaste Crime and 'Team Up the Town. Ye Ed will say a Newspaper's Job is to Print News, not Act as Town Censor, and to Tell His Troubles to a Policeman. The Ol' Busybody is in the Wrong Stall again.

### OUR YOUNG DAIRYMEN NEED ENCOURAGEMENT

We are hearing some complaint concerning the cost of getting cream tested at the local cream stations in the country. A charge of 26 cents is being made for testing. On small amounts of cream this is cutting the local price considerably. It is caused, of course, by the fact of so many bringing small amounts of cream to the market. It requires as much time to test a small amount of cream as it does to test a large amount, but however true this might be, it is tending to freeze the smaller dairyman out. This should not be. The smaller dairyman should be encouraged instead of being discouraged. Dairymen have to crawl before they walk, too.

The Herald appreciates the situation, and honestly thinks some arrangement should be made to overcome this difficulty. We want to encourage the dairy business. The local creamery operators have plenty of time these long days which they are not using profitably otherwise, so why not give the young dairyman the advantage of it, and thus encourage the industry instead of discouraging it by this extra charge of 26 cts? We owe it to the new industry of the country to encourage it, and this will mean a lot. Can it not be done? People can ship their cream, but we do not want them to have to do this. We should afford this market.

### BAPTIST REVIVAL TO BEGIN HERE SUNDAY

The Central Baptist Church, led by their pastor, the Rev. G. W. Sparks, will begin their summer revival at the community tabernacle next Sunday the 21st. Rev. Parks will do his own preaching. While not a regular revivalist, the church thinks Rev. Parks is as capable for this work as any regular evangelist which they might secure. Rev. Parks has already established himself as a preacher here, having served the church for several months. There are few, if any, pulpit men in the country who are Rev. Spark's superiors, it is thought by the general public here.

Both the Central Church and the community at large are looking forward with good hopes to the beginning of the this meeting here Sunday.

General attendance at revival meetings here is always good. The community tabernacle has had a lot to do with developing this condition, it is thought.

Doris McMillan has returned from a visit in Amarillo.

**ONE CAN IF HE WANTS  
 TOO, SAYS SCHATTLES**

Our good friend, Emil Schat-  
 tles, is our authority for the fol-  
 lowing statement: "A man can  
 do anything, if he wills to, and  
 if he has the mind to work."

Mr. Schattles' ideas are in per-  
 fect accord with our own. The  
 whole mechanical universe has  
 been constructed by man. God  
 made the world and the people,  
 but all the mechanical conveni-  
 ences which adorn this universe  
 are products of mans hand. Men  
 have organized great empires,  
 have established laws, have  
 suited and maintained rulers;  
 man has made cities, schools,  
 roads; man has invented and  
 perfected wagons, buggies, rail-  
 ways, automobiles and airplanes.  
 Excepting the Christian idea of  
 God, there is no conception of a  
 greater power than that of man.

When we look upon the splen-  
 did world of our day with its  
 pretty cities, towns, schools,  
 roads, parks, etc., we wonder  
 why our people can't conceive  
 of an idea, why we can not gen-  
 erate ambition, why we can not  
 exercise pride, why we can not  
 build our town and community?  
 It is not for the lack of ability.  
 Men can do anything. Isn't it  
 strange that our citizens would  
 rather interfere with the plans  
 of his neighbor than to work  
 with him to the mutual good of  
 both? "Why will you lag, oh,  
 people of Hermleigh?"

Mr. Schattles is some several  
 years in advance of his time.  
 Twenty years ago the farmer  
 who had an automobile was con-  
 sidered rare, and he was. To-  
 day the farmer who has an air-

plane, his own private airport,  
 is in advance of his time. All  
 these Mr. Schattles has. He is  
 classed with the very most far-  
 ward people of his day. Herm-  
 leigh and Scurry County are  
 proud of this progressive farmer.

Yes, Mr. Schattles, anything  
 can be done if one only has the  
 "will" and the "do."

**THE HERALD RECEIVES  
 COMPLIMENTS**

Every one likes to hear some  
 one speak well of them. We all  
 like to be encouraged, but it does  
 not always come. Every greatful  
 person should take time to com-  
 mend the efforts of those who  
 try. We have labored here nearly  
 two years, beginning without  
 any experience, and last week  
 heard our first compliments.  
 Banker Lewis came in Friday  
 afternoon and said: "Norman,  
 I must compliment your last  
 weeks paper. It is the best  
 small town paper I ever saw."

We appreciate this compliment  
 because it indicates that he is  
 interested in his towns' hav-  
 ing a newspaper. If a man is  
 interested in his town, he is al-  
 so interested in the newspaper  
 which is published there.  
 Thanks Mr. Lewis.

Our good good friend, J. I.  
 Chorn, came in early Saturday  
 morning and said: "Your pa-  
 per this week is worthy of my  
 compliments, and of the best  
 wishes of the entire town and  
 community." It may be that  
 others are as appreciative of our  
 efforts as Mr. Chorn, but unless  
 a fellow comes around and places  
 his hand on your shoulder and  
 speaks thus to you, how are you  
 to know how he feels? We ap-  
 preciate this very much, Mr.  
 Chorn. We are doing our best,  
 and aim to continue to "drive at  
 full speed."

**NEWSPAPERS ARE OUR  
 BEST PUBLICITY AGENTS**

The following lines were clip-  
 ped from the Star-Telegram.  
 We reprint them with the fol-  
 lowing comments.

"Russia Bolshevism under  
 Stalin; Italian autocracy, under  
 Mussolin, made the same dis-  
 covery.

"Prosperity can be found only  
 in work. All that the worker  
 can ever have is what he, him-  
 self, produces, minus the "rake  
 off" paid to captial and brains."

While this is represented as  
 the view of Bolshevists of Rus-  
 sia and Japan, it is also the pri-  
 vate view of the less fortunate  
 in America. It looks like this  
 is true. It is true. But while it  
 is true, there is another side to  
 the question.

What has the common folk,  
 such as we, ever done to promote  
 human society? Why, we have  
 done it all. Yes, we have done  
 it all; i. e., we have done all the  
 work. We have feed the rest of  
 the world while the work was  
 under way. But if it were left  
 to us to invent machinery for  
 manufacturing purposes, and to  
 finance the work of such con-  
 struction, would it ever be done?

Here is where "brains and  
 capital," of which we have nei-  
 ther, play their part. If brains  
 and capital had never planned  
 and constructed manufacturing  
 plants which in turn have af-  
 forded a market for what we  
 produce, we should still be cling-  
 ing to the habits of John the  
 Baptist of old, "He had his  
 rament of camels hair, and his  
 meat was locusts and wild hon-  
 ey."

If the machanical geniuses of  
 the world had not furnished the  
 "brains and money" to invent  
 and manufacture buggies, auto-  
 mobiles, and air planes, we should  
 still be "riding on donkey back"  
 like the ancient Egyptians.  
 "Honor to whom honor is due,  
 custom to whom custom is due,  
 and tribute to whom tribute is  
 is due." Let the world go far-  
 ward!

**REVIVAL STARTS SUNDAY**

The annual revival meeting under auspices of the Central  
 Baptist Church, will begin at the community tabernacle here  
 Sunday, the 21st. instant. The pastor, Rev. Parks, assisted  
 by singing evangelist whom he shall choose, will have charge

There will be preaching at the regular evening and morn-  
 ing hours through out the week. You will want to have a  
 part in these sevicees, and hear the good sermons.

**CENTRAL BAPTIST CHURCH**

## FIRST BAPTIST CHURCH

C. E. LESLIE, PASTOR

"Then sayeth David to the Philistines, thou comest to me with a sword, a spear, and a shield, but I come to thee in the name of the Lord of hosts, the God of the armies of Israel, whom thou hast defied (1st Samuel 17:45).

One can not fight the devil with his own instruments, with his own weapons. I have heard of some churches which seem to think they can cast out the devil with music. I like good music, but one can not meet the devil that way. When Goliath said to David, "Come to me and I will give thy flesh to the fowls of the air, and to the beasts of the field," it was no vain boast; and if David had been foolish enough to try to fight Goliath with Saul's sword and armour, he should have gone down in defeat.

No, one can not battle against satan with carnal weapons. "The Weapons of our warfare are not carnal, but spiritual and mighty through God to the pulling down of the strongholds of the devil." It is a serious conflict—this battle against sin! There are giants on the devil's side.

David went to meet the giants who defied God, not in his own strength, but in the strength of God. So must you, my brother, if you would win. God is never in want of instruments of warfare, He can use you and me if only we are willing to be used.

This whole story of David was most fascinating to me as a boy, and I have never grown out of it. Look at the scene. That great Philistine is stepping out to show himself to Israel. He flings down his challenge saying, "send me a man to fight with me." God accepted the challenge and sent him a man. This man was little David. Where did he get his strength? The answer is plain. "I come to you in the name of God." He, as the greatest of all champions, met the huge enemies of souls on the summit of the everlasting hills. He laid him low. Some day satan's head shall be severed from his body. We shall tread him under our foot shortly.

When the question is asked in that day, "What think ye of Christ, whose son is he?" There can be but one answer, The son of David, the son of God. There is victory for all in Christ.

### CHURCH OF CHRIST CLOSES MEETING HERE

What was one of the most successful revival meetings held by the Church of Christ here in many years, and what was perhaps one of the most successful held by any other church in recent years, came to a close here Sunday night. The spacious community tabernacle was filled to its fullest capacity, and many cars were filled near the tabernacle windows.

Attendance and attention was good throughout the week. Elder Foster was at his best. A goodly number were added to the church, besides a great revival within the church, it is reported.

A non intentional deadness is just as stiff as an intentional deadness.

# Man Power Moves The WORLD

## MEN, JOIN WITH US IN THE MAKING OF HERMLEIGH

When Ancient Rome saw that a compact between each of her seven hills was to the advantage of each hill, they signed a treaty, and Rome soon became ruler of the world.

No chain is stronger than its weakest link. No town is stronger than the organization of its business men.

No business can make much money in any town until the town is made. Making the town, then, is essential to good business.

## New Heart Stimulant

Dr. H. G. Cameron of Saskatoon Saskatchewan, is the discoverer of "cardassin," a chemical product calculated to prolong human life. The material, obtained from the super-adrenal glands of cows, accelerates the heart in spite of anoxemia, and it is said that it may be of use in cardiac failure in pneumonia cases. It also counteracts chloroform poisoning and may render some operations less dangerous.

## CITY ORDINANCE

AN ORDINANCE ESTABLISHING THE RIGHT OF THE CITY OF HERMLEIGH, TEXAS TO COLLECT STREET TAX; DEFINING THOSE SUBJECT TO STREET DUTY; REGULATING THE USE OF STREETS, ALLIES AND VACANT LOTS AGAINST OFFENSIVE JUNK OR RUBBISH; PROTECTING PUBLIC HEALTH, AND FIXING A PENALTY FOR VIOLATION THEREOF.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HERMLEIGH, TEXAS.

Section 1. That every male person living within the city limits of the City of Hermleigh, be subject to regular street duties, according to the regular road laws of the state of Texas; members of the gospel, members of the fire boys organization, members of the city council, and ex-soldiers who have federal exemptions from such road or street duties, being excepted.

Section 2. Any person violating the provisions of section 1 of this ordinance, shall upon conviction be fined in any sum not less than \$10.00 nor more than \$100.00.

Section 3. That no rubbish, junk, or other waste material such as are, or might become offensive to the human eye, or injurious to public health be allowed to lie, or accumulate, on any street, alley, or vacant lot within the city limits of the City of Hermleigh.

Section 4. That no open back privies shall be allowed within the fire limits of the City of Hermleigh. These being most dangerous to public health, and hurtfully offensive to the human eye. All privies must be placed over cavities in the ground not less than four feet deep and large enough to care for the purpose thereof.

Section 5. No prosecution shall be brought under Sections 2 and 3, until persons violating same shall be properly notified, and wilfully fail or refuse to comply with same.

Section 6. All persons found guilty and convicted of violating any provision of Sections 2 and 3 of this ordinance, shall be deemed guilty of misdemeanor, and upon conviction shall be fined in any sum not exceeding \$100.00, and each day shall constitute a separate offense.

Section 7. The fact there is at this time no adequate provision for the collecting of street tax, providing a fund for the maintenance of our streets, defining those subject to street duty creates an emergency, requiring that the regular rule that ordinances be read on more than one day, be, and is hereby suspended, and that this ordinance be in effect and full force from and after its passage, approval and publication.

## MCQUAID OFFERS HELP

Bill McQuaid is interested in a better kept cemetery. He says it isn't practical to have this without water. He is suggesting that the water from the city be piped down. This is practical and more economical than the erection of a windmill. Think it over.
