

## New Garage in Floydada

Will be Constructed on South Main St.—E. T. Green and Kent Foster Proprietors.

E. T. Green and Kent Foster are completing arrangements this week for the erection of a new garage on south Main Street, on the former gin site of the Malloy Gin, the erection of a 25x100 foot building started this morning being the first step toward its establishment.

Their plans include the installation of all modern appliances and conveniences necessary in an up-to-date garage including lathe, power, air station, etc. Fletcher Haines will be in charge of this department of the new garage.

They will also prepare to do automobile and vehicle painting, and will carry a line of accessories, likewise.

Mr. Green's tinshop has been moved to the rear of the new location and the tinning and tank building equipment will be a part of the business, as well as the contracting of painting, papering, etc., as has heretofore been Mr. Green's occupation.

The building should be completed the earlier part of next week. It will be of metal frame construction. W. A. Gound will superintend the work. As soon after its completion as possible the machinery will be installed and within 20 or 30 days they will be ready to take care of the business.

### Ankle Insured; Now Sprained.

New York, Mar. 23.—The news that Mlle. Anna Pavlova, the Russian dancer, suffered a painful accident during her performance on the stage of the Odden, in St. Louis, caused theatrical and operatic folk to speculate as to the amount of insurance the dancer would collect on the policy which insures her limbs and feet for \$200,000. Mlle. Pavlova's ankle has been badly sprained and she has been compelled to cancel a number of engagements. Mlle. Pavlova's ankle snapped while she and her partner H. Hovikoff, were dancing the Valse Caprice.

### Photo Play House Opens Monday

Messrs. McMillan and Young will open their Motion Picture Show in Floydada on Monday afternoon next, their initial entertainment being complimentary to all who desire to attend.

The afternoon show will begin at 3:30 and they will give a continuous show until all who desire to come have been accommodated.

Their machine, as well as their reel service will be of the very best. All precautions will be used for the prevention of fire, so that no danger to the building or their patrons are anticipated from accidental ignition of reels. Indeed such perfection has been reached in the building of the machines and operating cages that a reel might ignite and burn without the knowledge of the patrons of the show or the slightest damage otherwise.

The seating accommodations of the new house are excellent. Large roomy seats with plenty of aisle space are marked features.

Enjoy the afternoon or evening of Monday next with these gentlemen and see the conveniences they have arranged for the entertainment of the people of this vicinity.

### Moving Land Mark.

One of the oldest store and office buildings in Floydada is being moved out of town this week. This is the Duncan old building on the southeast corner of the square, which was moved here about 10 years ago.

It was first used as a drug store, later as an office building and for storage. Since the erection of their brick on the lot adjoining, the frame building has been a menace in the way of fire risk.

The building will be placed on Judge Duncan's land southeast of town. Walter Byars and John Livesay, of Lockney, have the contract for its removal.

### Uplift Plans for Farm Life.

Dallas, Tex. March—At a special called meeting of the Texas Farm Life Commission in this city recently, it was decided to continue the work of organization permanently. Chairman Lindsey, in calling the meeting to order, suggested that the work be continued as a student body addressing itself to economic problems of the farmer and that the work of the Commission should be educational in its nature. He recommended that the Commission be enlarged and that active members be substituted for those who had expressed their inability to give the proper consideration.

Mr. Peter Radford, Manager of the Commission, told the meeting of his success in undertaking to organize the farmers throughout the state for the purpose of securing their co-operation with the Farm Life Commission.

Mr. E. J. Kyle of the A. & M. College stated that the college was planned to send out organizers to encourage co-operation in all forms of community life. Boys and girls hog and corn clubs will be organized and also clubs for the study of production and marketing.

The Commission will devote itself largely to the problem of credits, during the coming year, this matter having been thoroughly investigated by Chairman Lindsey and Edwin Chamberlain while on a special tour in Europe for this purpose last summer. The following members were in attendance at the meeting: S. A. Lindsey, Tyler, Chairman;

## To Confer in Floydada; Early Assumption of F. P. A. Plant Probable

Dr. R. A. Burroughs, All-Texas Manager of Methodist Orphanages Will be Here Friday morning to Confer with Citizens and Trustees.

The important announcement was made Wednesday afternoon that Dr. R. A. Burroughs, of Waco, superintendent of the Methodist Orphanage at Waco, and manager for Texas of all Methodist Orphanages, will be in Floydada Friday forenoon to confer with the citizens of Floydada and the trustees of the Floydada Presbyterian Academy with reference to taking over the Academy plant by the Methodist Church, operating it as an orphanage.

The announcement is that he will motor to Floydada with Rev. O. P. Kiker, presiding elder of the District, and desires to meet as many as possible of the citizens of Floydada at the Daily Hotel Friday A. M., for the purpose of discussing the project.

W. M. Colville is responsible for the statement that at least three of the Board of Trustees of the Academy are willing to release the plant to the Methodist people; it is his opinion that the majority of the board will concur in this. In all probability a majority of the board will be present and go over the matter officially with Dr. Burroughs.

This is an especially important announcement; it means that the idea of the establishment of an orphanage at Floydada advanced only a few weeks since, has met with instant favor in the eyes of the people responsible in the Methodist Church and that what might have been a wait of several months may be compassed within a much shorter time.

But your presence is desired at this meeting. The interest the citizenship demonstrate may mean securing this important institution in west Texas or it may mean the loss of it. Be on Hand.

The fact that the Methodists have shown instant interest in the move to the West Texas Methodist Orphanage established in Floydada, assuming the ownership of the Presbyterian building and grounds, should be a matter for congratulation on the part of every citizen of the town; it should also be the intent of every citizen to see that the matter does not fail to go through on account of a lack of interest on the part of the people of the town.

There is at present an approximate outstanding indebtedness against the Academy of \$6500. The Trustees of the school are willing, —three of them at least, more than likely all,—that the Methodist Church take over the property after satisfying the indebtedness against it. Floydada citizens may be called on to take care of a part of this indebtedness, possibly all. In comparison with the price that numerous other cities and towns have paid for similar institutions this is small.

A town not a hundred miles distant at the present time has a standing bonus for a similar institution to be established by a certain fraternity, of upwards of \$20,000. Other cities have paid more.

Some may object to reference to money before the bridge is approached; but there is always a time "to count the cost;" that time is before the time for action. The sure reward should also be considered.

Remember these two things and meet Dr. Burroughs and the Trustees of the Presbyterian Academy at the Daily Hotel lobby Friday A. M.

Peter Radford, Fort Worth, Manager; J. T. S. Grant, Wichita Falls; H. Laas, Brookshire; W. F. Proctor, College Station; E. J. Kyle, College Station; S. D. Streetman, Hagerman and J. A. Arnold, Fort Worth.

### Wells Fargo Will not Quit.

Fort Worth, Tex., Mar. 24.—In reply to a communication as to whether or not the Wells Fargo Express company would quit business on account of the Parcel Post, B. D. Caldwell, president of the company, made the following statement:

"The company has no intension of retiring from the field of express business. When the Parcel Post was inaugurated we took the position that there was room in the public interest for both the parcel post and the express. A year's experience has demonstrated that we were right in our contention. A majority of the nation's industries have built up their business upon express service and will continue to depend on express for an expedient movement and personal care in handling their merchandise. We are adjusting our business to

new conditions and are endeavoring to maintain and increase the efficiency of our service. We believe that the commercial industries of the country 90 per cent of which are patrons of the express companies will continue to support our efforts to maintain one of the most vital agencies of transportation."

The Wells Fargo Company has been in business more than half a century and operates over 100,000 miles of railroad in the United States. This company is also the pioneer of the Texas field. There are three companies operating in Texas, not including the United States company which has announced that it will soon discontinue business. The Texas express companies employ 3,300 men whom they pay \$1,500,000 annually and expend more than two million dollars for other operating expenses in Texas each year.

J. A. Botts and wife, of Ralls, were in Floydada last Monday on business.

Mr. Botts is dry goods dealer in Ralls.

### To Vote on School Tax.

Citizens of Common School District No. 30, recently formed by the Commissioners' Court out of Providence, Bobbitt and Meteor Districts, have petitioned for an election to determine whether a school tax of not exceeding 50 cents shall be levied in the district to supplement the state school fund apportionment for the school.

Judge Duncan issued the order Wednesday for the election to be held on the 25th of April.

### Want full Crew Law Repealed.

Austin, Texas, March—Word has been received here that the next New Jersey Legislature will be asked to repeal the full crew law recently enacted in that state. The announcement is of special significance here, as the New Jersey law is similar in character to the bill introduced and defeated in the lower branch of last Texas Legislature. Every railroad operating in New Jersey, and many of the leading business men and farmers favor the repeal of the law.

About twenty states have enacted full crew legislation and an equal number have considered and refused to regulate, by legislative enactment, the number of men to be employed in railway train crews. New York recently passed a law of this character and Governor William Sulzer was one of its champions. It is rumored that Governor Glynn's views are not in harmony with the law as it now stands.

Governor Lee Cruce of Oklahoma vetoed a full crew bill at the last session of the lawmaking body of that state and Governor Foss of Massachusetts recently vetoed a similar bill.

E. T. Green and W. R. Cope made a deal the first of this week whereby Mr. Green transferred his residence in the east part of town to Mr. Cope, and becomes the possessor of Mr. Cope's 17 Buick in the deal.

Mr. Cope will take up his residence at his new home at an early date.

## West Texas Normal Burned

Institution in Flames Wednesday Morning—Meager Reports of Actual Damage.

Word has Reached Floydada that the West Texas State Normal at Canyon City burned Wednesday forenoon with total loss of building and equipment. The fact of the total loss has not been verified but reports are all to this effect. At least much damage was done to the building.

Parties who had students in the institution attempted to reach that city by telephone Wednesday afternoon but the telephone service was demoralized temporarily and the exact facts cannot be obtained.

From reports obtained the fire started in the basement where a gasoline torch in the hands of a plumber exploded causing instantaneous combustion. The fire rapidly spread to proportions too large to check. The Wells-Fargo messenger running through Canyon on the Santa Fe is reported to have seen the walls of the building falling in which tends to confirm the report of the total loss of building and equipment.

An attempt will be made to continue the normal work in buildings which will be temporarily turned over to the school authorities for the purpose.

If you haven't already subscribed to our club of four magazine do it now. You will enjoy reading these splendid magazines. We will sell you the four magazines with The Hesperian all one year for only 18c extra.

M. E. Thomson, of Gasoline, spent Wednesday afternoon in Floydada transacting business.

### Marriage License Issued.

### Boss on 10 Million Acre Ranch.

"J. D. Reid, Bulwago, South Africa," is the post office address of young J. D. Reid, representative of the British South Africa Company, who is in Fort Worth attending the Cattle Raisers' Convention. Reid is a cattleman and belongs to the company that Richard (Dick) Walsh manages. He is in Texas buying registered Hereford bulls to put on the range in South Africa and will ship a consignment in a short time.

The British South Africa Company has a ranch nearly as big as Texas. It has title to 10,000,000 acres and is protected in its holdings by the British Government. Mines, railroads, farms, cities, factories and cattle ranches are operated by this syndicate and the boss over any one department has a job that is bigger than being governor of Texas. Dick Walsh is manager of the cattle department and Reid is one of the ranch bosses.

Reid is Scotch but he has spent a number of years in Texas. He worked with the Matador outfit and is a practical cowman and ranchman. When Dick Walsh went to South Africa from the J. A. Ranch he picked some of the best of the young cowmen of Texas to go with him and Reid is among the number.

Reid has bought twenty of the best bulls J. E. (Boog) Scott, of Coleman, could find for him and he will continue his purchasing until orders from Walsh say for him to quit. He comes to America from England, having gone there direct from South Africa. — Fort Worth Star-Telegram.

between the two great states, but to arouse interest in the Colorado-to-the-Gulf highway, which is now being developed as the great north and south highway of the trains-Mississippi region. For about a year Texas has been bending its energies to the development of this route, and Colorado and New Mexico have joined in the work.

The definite itinerary has not been settled, but final arrangements will be made at a meeting in Pueblo on April 4. The cars will leave Colorado Springs, according to present plans, on Monday May 4, and will be joined at various Colorado points along the line and possibly also at Raton, New Mexico, by additional cars, until a party of ten or fifteen machines is assembled.

### Peculiar Family Name.

A current newspaper item is as follows: "The wife of a Methodist minister in West Virginia has been married three times. Her maiden name was Partridge, her first husband was named Robbins, her second Sparrow and the present one is Quale. There are now two young robins one sparrow and three little quales in the family. One grandfather was a Swan and another Jav but he is dead now and a bird of Paradise. They live on Hawk avenue, Eagleville, Canary Islands, and the fellow who wrote this is a Lyre bird and a relative of the family."

### \$600 for Failure to Answer Telephone.

A damage suit, styled H. C. Teague vs. The Southwestern Telegraph & Telephone Company was tried in the District Court here Wednesday and Thursday. The suit was for \$2,500 damage on the alleged failure of the defendant company to answer a telephone call last July to summon a physician to attend the bedside of the plaintiff's sick

### Advertising by Physicians.

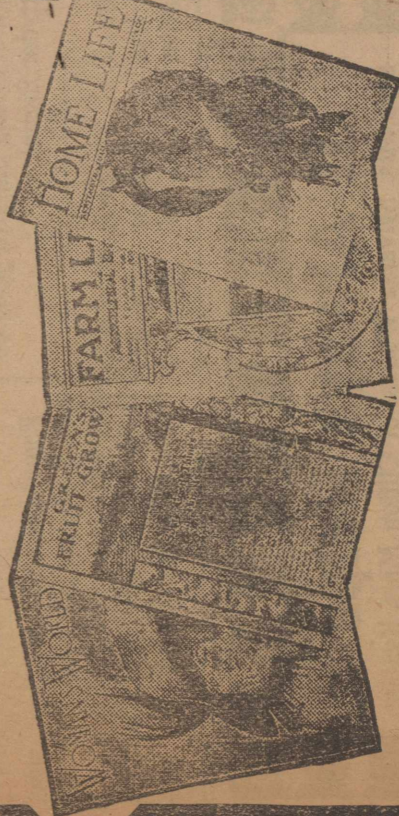

Following the mid winter Conference on Public Health, Legislation and Medical Education of the American Medical Association, held in Chicago, February 23 and 24, numerous news items and editorial comments appeared in the public press regarding one of the papers presented at the Conference. The substance of the newspaper items was that the American Medical Association was considering the revision of its principles of ethics with a view to removing or modifying the restrictions placed on individual physicians as to personal advertising. Some of the reports stated that revision of the principles of ethics would be taken up at once and, that an overwhelming majority of members of the Association were in favor of a change. So far as we know, says The Journal of the American Medical Association, there is no intension or indication of any change in the position of the American Medical Association on this question; the reports in the newspapers were due to a misapprehension of the character of the paper in question and the intent of the writer.

The paper was an argument for a better understanding and closer cooperation between the medical profession as an organization and reputable institutions which might seek publicity through the newspapers.

### SPECIAL SESSION DISCUSSED

Farmers' Union Officials Want No Politics.

Ft. Worth, Texas.—The suggestion that the Legislature meet in a special session to enact, among other measures, laws needed by the farmers emboldens us to make a few observations concerning the proposed session and its work.

The Farmers' Union has had considerable experience as an organization with legislatures, having had representatives at Austin during the sessions for the past dozen assemblies or more, and our observations prompt us to suggest to Governor Colquitt that in addition to the exactions he has made he also require the members to promise their constituents that in the event the session is called they agree not to commit grand larceny upon the tax payers by playing to galleries or to sand-bag Father Time by making political speeches during the session. We already have too many political aviators darkening the skies with their queer crafts and any member inclined to rise and fly in search of office while the legislature is in session should be regulated and restrained, for it is not in the interest of the farmer to turn loose a flock of parliamentarians in the legislative halls while agricultural matters are under consideration.

### A Tremendous Task.

We leave the question of calling an extra session with the Governor without comment, but we want to take this occasion to impress upon legislators present and future the magnitude of the task they are undertaking. The subjects of warehouse bills, rural credits and kindred matters have been receiving constant study by the Farmers' Union for the past ten years and they are by no means solved to our entire satisfaction. We are entering a new rural civilization and the problem of agricultural legislation is as big as the continent and one that requires master minds and years of experience to deal with successfully. It is easy to throw a few words together in the form of an enactment, but quite another matter to put a workable law upon the statute book containing native ability to germinate activity and distribute energy throughout the agricultural life of the State. There is already too much agricultural gossip upon the statute book; we want laws that can live and labor. A law that a politician can run for office on and one that a farmer can run a farm on, are entirely different propositions.

### Law Makers Follow the Sap.

It is refreshing to find the legislators getting back to the soil. We have been legislating downward. We are now beginning at the soil and going upward and for the first time following the direction of the sap. Many efforts have been made to legislate in favor of the farmer by building subsidiary industries and to assist the farmer by retraining the manufacturers, traders and carriers but such legislation has been comparatively worthless so far as the farmers are concerned. To meet the situation successfully will require a code of laws adapted to the business of farming.

### War At Any Price.

War at any price has been the slogan of some people for the past few years and now let us have peace without price. The agricultural problems now confronting us call for statement—not warlike, but the improvement of our educational system demands students—not warriors. The expansion of our industries demands diplomats—not warriors. The real elimination problem in this campaign is to get rid of liquor warriors—pro and anti. If they cannot earn a livelihood during the next four years at peaceful pursuits they should be either chloroformed or pensioned.

The State Democratic Prohibition convention held before it the pleadings of the Farmers' Union for peace and they chose war. The opposing forces will make their final declaration on April 14th. If they have the welfare of the farmer at heart, they will take no part in the liquor controversy but will sign the treaty of peace promulgated by the Farmers' Union. We will wait patiently to hear what they have to say.

W. D. LEWIS, President.  
PETER RADFORD, Ex-President.  
Farmers' Educational and Co-Operative Union of Texas.

Where the Exercise Came in. Even doctors are not always literal in their prescriptions. "You must take exercise," said the doctor to a patient. "The motor car in a case like yours gives the best exercise that—" "But I cannot afford a car on insurance pay," the patient growled. "Don't buy one, just dodge 'em!" said the doctor.

One Kind of Dyspepsia. You will notice that the man who would rather fight than eat always has dyspepsia when he gets into a jam.

### May Establish New Orphanage

M. E. Church Considering Purchase of F. P. Academy Plant for New Orphan's Home.

For some three weeks the matter of the purchase of the Floydada Presbyterian Academy plant from the Panhandle Presbytery of the Southern Presbyterian Church by the Methodist Church, has been under advisement.

The matter was first brought up for consideration in Methodist circles in Floydada; it has since been talked in Methodist officials circles and among the Presbyterian Church and an exchange of the property is not at all improbable, though at this time no definite steps have been taken according to the best information.

Should the Methodist church secure this property for an orphanage it would constitute the first institution of the kind in the panhandle and south plains and would serve this purpose for the church in a wide scope of territory.

Rev. G. W. Shearer, pastor of the Methodist church, is working on the matter and officials of the Presbyterian Academy say that their people are lining up on the proposition.

Be measured at Glad's by Tues. day for Easter clothes. Itc.

Rev. Bone and wife passed through Floydada Wednesday remaining over night with Rev. R. A. King. They were enroute from Rockwall to Halecenter, where Rev. Bone has taken the pastorate of the Presbyterian Church, U. S. A. Rev. Bone is a brother of Mrs. King.

### Argentine Meat Exports.

Official reports show that Argentina exported 366,229 tons of frozen and chilled beef in 1913, which was an increase of 23,378 tons over 1912. Exports of frozen mutton and lamb were 45,928 tons, or 24,247 tons less than 1911, or 36,505 less than the year before. Exports of sheepskins, hides, wool, tallow and melted fat were all less than in 1912.

Faise Alarm. They were in the country. The little girl had heard that a hen catches every time an egg is laid. All of a sudden the cow "moored," and she exclaimed: "Ah! Another egg, I bet."

### Heetorian acts bring results

### May Do Good Work Unknown.

Chemists show us that strange proportion white unrefined sugar, which enables a substance while unrefined itself to incite host or hostesses around it. So a little of those concerned may, as a social switchboard, bring together the halves of pairs of selectors, men and women who marry and are happy husbands and wives.

### What Astonished Legal Expert.

"The Declaration of Independence is a wonderful document," said the patriotic citizen. "Yes," replied the legal expert. "It's one of the ablest documents I ever saw. And the most remarkable thing is that with all the ability it represents, nobody appears to have received a cent for drawing it up."

THE BEST

# GLAD

### Their Expression.

Nothing is to me more distasteful than that entire complacency and satisfaction which beam in the countenances of a newly-married couple—in that of the lady particularly; it tells you that her lot is disposed of in this world; that you can have no hopes of her. It is true I have none, nor wish, es either, perhaps; but this is one of those truths which ought, as I said before, to be taken for granted, not expressed.—Charles Lamb.

### Aid for Short-Sighted.

A German doctor has devised a revolutionary method of correcting poor eyesight. It is a telescope spectacle and is claimed to be the best and healthiest method for a near-sighted person to bring objects close to the eyes and thus see well at a distance. The glasses are a combination of a convex objective with a concave eyepiece and have to be fitted most carefully to each person.

### Warm Enough?

While coaching a class of children for a little play, the teacher told the boys that in the third act they would have to wear their heavy overcoats, as that would be the snow scene. At a short silence a little fellow about seven years old raised his hand and said: "Teacher, father can't finish my overcoat in time because he works late; but will it be all right if I wear my heavy underwear?"

This map shows the United States divided into four climatic zones. Paint must be made to fit the climate in which it is to be used. Paint for Florida won't do for Arizona or Colorado.

When you buy Lincoln Climatic Paint you can be sure it is exactly suited for this locality. It will not crack, check or peel with the various changes of weather, because it's made especially to withstand this climate.

We have a booklet which tells all about Lincoln Climatic Paints, a 15c booklet telling how you can do the "Home Painting Jobs" yourself.

Ask for these books—they are free.

Chas. H. Veale,

Geo. L. Mayfield

For Com. Pre. No. 1:

Rev. H. E. Smith.

For Justice Peace Prct. No. 1.

J. C. Gaither.

For County Surveyor

G. A. Linder.

A FEW weeks ago Peter Radford and W. D. Lewis came out in an address to members of the farmers union requesting them to refuse to participate in the prohibition elimination conventions. For this effort they were severely censured in some of the smaller and extremely prohibition papers over the state. These men were charged with trying to make a political machine of the farmers' union

are appealing to the farmers in the same manner to take no part in the proceedings of the anti in their efforts to eliminate all but one candidate. This not only refutes the unjust charges of those few radical prohibition papers but places Peter Radford and W. D. Lewis on the exalted plane of trying to keep the farmers out of the political schemes of both sides and verifies the opinion that most men have ever held of these two men, stamping them as men of too high a type to be understood by the small bore politician, who can see no further than the prohibition question, whether pro or anti.—Childress Post.

It is ever the view point. Some papers in the Panhandle refused to print for their readers the statements of Messrs. Radford and Lewis, but did print things about these two pro leaders that were positively absurd. Messrs. Radford and Lewis believe that the prohibition question should rest and that legislation looking to the farmers' interest should have the fore ground for a time. The fact that their view point will not be accepted by many of the members of their organization, and that these two gentlemen will be ground between the upper and lower millstones.—pro and anti-pro,—makes their stand none the less on a high plane.

Prohibition will be the "parry-mount" issue in the campaign without a doubt, but why should Farmers' Union leaders be read out of decent society for having pronounced views looking to the interests of their organization?

It is rumored that in case of Ball's election as governor that Homer Steen of the Floydada Hesperian, will be an applicant for inspector of bathing suits at Galveston.—Plainview News.

It is always in order to get on the winning side of any race, whether for governor or constable. It is also good business policy to be a winner. We are for Ball and shall write him a letter about it. Then when the plums begin to fall, if he should see fit to drop one in our pastepot, where's the damage? The only draw back to accepting an appointment at Galveston would be leaving Floydada.

#### How One Home Merchant Put outside Competitors "On The Run".

This is no theory framed up in some city guy's office. Here is something that actually happened. That is, here is how one merchant put his out-of-town competitor on the run.

It happened in a country town

were standing on the side track. They had been shipped in from Dayton to fill a demand, supplied by an outside salesman who had happened to be in town with the proper bunco to "get away with the orders,"—and that, too, at prices a shade higher (plus the freight) than the local merchants quotations on the same articles delivered at the customer's door. This struck me as rather amazing and I thereupon investigated the cause of the unfortunate situation.

Dropping into the leading grocery store of the town, I inquired why, they didn't stop this intrusion into their trade. "How are you going to stop it," growled the "boss." "Advertise!" I retorted. "Advertise?" replied the grocer, "why, I'm one of the best customers our local paper has. I think I've had something in every week for nigh on twenty years, but I don't see as I realize any difference. My name is known anywhere within trading distance of here anywhere." Then I lit into him, "Now, my friend, that is just it. Your name is known well enough. But how about your goods? You know there is advertising and then there is advertising. One kind spreads your name all over everything until your goods are hidden behind your name. There is no use of your paying the local paper for telling the people what your name is. What you want to do is to stimulate an interest in your goods. Put out a 'Leader' every week. Make the price on one particular commodity so attractive that it will draw customers into your store. Once in, they will see something else they need, won't they?"

"Feature your 'Leader' in the local paper in a different setting. Be sure now. Make it different. You know, the people never think of looking for your old Ad, and they couldn't find it if they did. It is obscured by its uniformity and utterly buried, in a crowded mass of other matter of identical type and general appearance. And then what's the use. The people already know your name. Therefore, just for a trial of six weeks, buy four times the space. Leave a good vacant margin around yourself just for accentuation, that is, just to make 'em see you. And above all things, give prominence to the article and the special price. Make it appeal to the shopper's frenzy for bargains, and they will come with a rush. Never mind your name. They won't miss your store. Here's why: This same special 'leader' will monopolize your whole front window. They can't get by without noticing that your store looks different.

"Next week focus your forces on some other special leader, and so on for six weeks. Sequel: He did just as I told him. Other live merchants did likewise. Consequence: Not another carload of foreign goods has been shipped into that town since! "Naf said."

Sequel: He did just as I told him. Other live merchants did likewise.

Consequence: Not another carload of foreign goods has been shipped into that town since!

Sequel: He did just as I told him. Other live merchants did likewise.

#### Railroads Want Trained Men.

The job of the men who manage railroads is to make the property in their care a better paying investment to its owners; and when the Santa Fe system lately passed a ruling that in the future only college graduates among its engineering corps would receive advancement in salary and position the men higher up said pretty plainly what they thought of college training. Their experience in the business of running railroads

has taught them that when they want bridges built or roadbeds graded or rails laid it pays to get men who have had a four years' course in civil engineering.

The Secretary of the University of Texas is just in receipt of a letter from a young man now doing engineering work for the Santa Fe. He says that he has had one year of college training, but now finds that he must give up the idea of advancement in his profession or finish his college course; and he proposes to resign and to come to the University if he can find enough work to support him while he is a student. About two-fifths of the State University students are hard-working young men and women who are supporting themselves or who have earned the money that is paying their expenses, and some scheme of self-support will doubtless be found for this young engineer as well.

Meanwhile, the Extension Department, which attempts to take the University to the people of the State who cannot attend its classes at Austin, is doing what it can to meet the need of the engineers by offering courses by correspondence.

#### New Opinion Ware House Law.

The new warehouse law of the State of Texas does not apply to warehousemen who do not see fit to come under its provisions, but likewise they are eliminated from doing business as public warehousemen unless they do so under the provisions of the law. In a dispatch from Austin of date the 21st the Attorney General's Department held as follows:

"It appears that the law contemplated that the several classes of persons may engage in the same character of business, yet it is held that only those who engage in the business under the provisions of the act are public warehousemen.

"This eliminates private warehousemen who do not do business under this law."

#### Buys 960 in Crosby.

G. W. Gilley, the land man, bought 960 acres of land in Crosby county last week, spending last Friday and Saturday in Crosbyton where the deal was closed.

"I found a bargain and when I found I couldn't sell it to the otherman I decided it was too good a proposition to let get by," was Mr. Gilley's reason for buying. He will improve the land with buildings and fences, and will break it out for crops this year.

Mr. Gilley is also improving his land in the Lakeview community in this county. He has the larger part of 400 acres ready for cultivation and will have the rest broken out in time for sod crops.

#### Improving the Park.

The park in Floydada has been planted in trees this week,—about 60 trees total. Gates have been put around the park to protect the trees and other improvements from promiscuous trampling of unimpaired stock or careless persons, and preparations are being made to plant some hardy flowers where they may be conveniently watered from the park well.

If the civic organizations and the citizenship of the town will continue to give the park needed attention within a short time it will be a thing of beauty and a joy forever.

# The Biggest Hat & Oxford Sale

## That has ever been put on in Floydada

We have about \$500 worth of Hats for men & boys that we will sell at 1-2 price.

Miss Maggie Warren is spending this week in Roaring Springs.

When renewing your subscription to the Hesperian don't forget to remind us of the big magazine offer.

Mrs. Tom Nolan joined her husband in Floydada this week coming from their home at Hamlin. Mr. Nolan is working in Cox's Barber Shop.

Judge A. P. McKinnon and G. W. Gilley spent last Friday and Saturday in Crosbyton transacting business.

Last call for Easter rags. Glad. 1tc.

If your subscription to The Hesperian is due, better pay up now and get four big magazines, all one year, for only 18 cents extra.

Mrs. J. M. Hughes returned Tuesday from Fort Worth. She had been visiting in that city for two weeks.

Mrs. P. H. Flynn has been very ill the past few days.

Be ready for April 12th. New Clothes at Glad's. 1tc.

Something new all the time at Mathis-Martin's. 1tc.

The biggest bargain we have ever offered our subscribers is The Hesperian and four magazines, all one year, for only \$1.18.

### Restaurant Changes Location.

The Roel Cafe, under the management of Sam McCleskey and Carter Andrews, the latter having bought an interest in the business the past week, will change its location the first of April from the Farris Building to the Owens Hotel, which they have leased from Mrs. J. S. W. Owens.

They will continue their business in the same manner as heretofore, serving short orders and using the upper floor as a rooming house.

Tell your neighbors about our big club offer. They surely would like to get the Hesperian and four magazines, all one year, for only \$1.18.

Buy your new kicks and glad rags now at Glad's—something going April 12th. 1tc.

### A Car of Distillate.

J. A. Nickell, of the Lee County neighborhood, received a carload of distillate this week for use in his plowing operations on his 1000-acre field. He has had large storage tanks constructed in which to store the distillate, which he will use in his tractor engine as he needs it.

### Amarillo Names City Manager.

Amarillo has the commission form of government, having recently adopted a very progressive charter.

Their commissioners chose a City Manager on the 22nd of this month. Their new manager, who is likewise the first, is M. H. Hardin, who has been a resident of Amarillo for about four years. He is serving his second term as district clerk in the Amarillo Judicial District, which position he will resign to accept the position of City Manager of Amarillo.

His salary will be \$2500 a year. His duties and responsibilities will be many and varied, having

all the affairs of the city under his control.

### SOME "FIDDLE" PLAYING

Old "Hog" Forgets His Whereabouts when Whine of Fiddle Tells Story.

The following account of "fiddle playing" written by a Texas & Pacific engineer should prove interesting:

"That fellow with the fiddle came slowly out of the Baird roundhouse and dropped down over the end of the repair track switch, working as little steam as possible. In a minute the conductor gave him the signal to get out of town. He pulled her about half open and she did the prettiest lot of barking you ever heard. He tried the air about a mile and she was perfection. He then hiked her back a couple of notches and cleared out the cylinder cocks. The frost on the rail made her slip a few times, but shucks in the next minute telegraph poles looked like a picket fence. He came through Elmdale at seventy miles an hour, whistling at every curve and calling every block. When we supposed he was to the limit he pulled her wide open and told the fireman to get back in the tank and hold her there. He reached out of the cab window and patted her on the sides with his cap and she looked back and smiled at him. The high places came thicker and faster. One of the women tried to pull the bell cord on him, but shucks, his eyes were like the eagles and the white smoke fell low down over her sides. We could see now that he was making a run for Rainy Creek hill. Down and down she dropped like falling into a well. The fellow set his eyes like old Cyclone Jim was when we took him out from under the old 334. The bridges were hit hard and the curves seemed like he had broken a spring hanger, but there was nothing to it. He slipped up Sweetwater hill like greased lightening, and snakes alive! At Sweetwater they had the semifore on him, but begosh, he was looking out for the board at Roscoe, and came through that place like a falling star. She began to slip a little on him over above Loraine tank, but he opened the sand pipe and the sparks flew right and left, and some coyotes thought the lightning had hit the high ten-

OVERLAND DISTRIBUTORS

## S. Civil Service Exam

Carrier Applicants for Floyd Co. to be Examined Saturday, April 11.

The United States Civil Commission announces an open competitive examination on the date and at the place named above, as a result of which it is expected to make certification to fill a vacancy in the position of rural carrier at Floydada Texas and other vacancies as they may occur on rural routes at post offices in the above named county, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion. The usual entrance salary for rural carriers is from \$600 to \$1,100 per annum.

Age, 18 to 55, on the date of the examination. The maximum age is waived in cases of persons honorably discharged from the United States military or naval service.

An applicant must have his actual domicile in the territory supplied by a post office in the county for which the examination is announced.

The examination is open to all male citizens of the United States who can comply with the requirements.

Application Form 1341, and full information concerning the requirements of the examination, can be secured from the secretary of the local examining board or the postmaster at any of the places named above, or from the U. S. Civil Service Commission, Washington, D. C.

Eligibles on registers established prior to March 1, 1912, can be considered for appointment only at the office for which they were named. Such eligibles may be examined within one year from the date of their former examinations upon filing applications showing that they meet the requirements of the new examination, their old eligibility for their home offices not being canceled.

Applications should be properly executed and filed with the Commission at Washington. As examination papers are shipped direct from the Commission to the places of examination, it is necessary that applications be received in ample time to arrange for the examination desired at that place indicated by the applicant. The Commission will therefore arrange to examine any applicant whose application is received in time to permit the necessary papers.

An eligible register for the position of rural letter carrier

for each county will be maintained. A person must be examined in the county in which the post office that supplies his home is situated. As a result of such examination he may become eligible to appointment as rural carrier at any post office in such county. A rural letter carrier after one year's satisfactory service may be transferred to the position of clerk or carrier in a first or second class postoffice, to the position of railway mail clerk, or to other positions in the classified service, subject to such examination as may be required by the civil-service rules.

John A. McIlhenny,  
President.

### Tom Ball Club.

The Hesperian is in receipt of the following from the Campaign Headquarters at the Southland Hotel, Dallas, of Thomas H. Ball, candidate for governor:

"To the Democrats of Texas: "A mass meeting of Democrats who favor Hon. Thos. H. Ball for governor is hereby called for Saturday, the 28th day of March, 1914, to meet at their respective courthouses of each county at 2:30 o'clock, p. m., for the purpose of organizing a Tom Ball Club and selecting a county chairman and a precinct chairman for each voting precinct. Please send me the name and post office address of every officer elected.

A. W. Walker,  
Manager."

### Plan to Building New R. R.

Quanah, Tex., Mar. 19.—Amendments have been filed at Austin changing the name of the Quanah, Seymour, Dublin & Rockport railroad to the Central Railway company of Texas. The Railroad also filed an amendment to increase its capital stock from \$500,000 to \$550,000. If the present plans mature this line will be constructed from a point in the northwest corner of Hardeman county, through Wilbarger, Baylor, Throckmorton, Young, Stephens, Palo Pinto, Eastland, Erath, Commanche, Hamilton, Bosque, Coryell, Bell, Williamson, Travis, Bastrop, Hayes, Caldwell, Gaudalup, Gonzales, Karnes, Devitt, Goliad, Refugio, Neuces and Arkansas counties, connecting with the deep water terminals on Harbor Island in Neuces and Arkansas counties.

The proposed road will be 550 miles long and will penetrate a section badly in need of transportation facilities and heretofore untouched by steam railroads. English capital is behind the plan and it is the intention to construct large port and harbor works on Harbor Island.

## Guarantors Give Surplus to Park

Lyceum Course Funds to be Used for Tree Planting in Park.

There were thirteen guarantors on the local lyceum committee, who were responsible for the last year's course secured from the Dixie Lyceum Bureau, and after paying all expenses the course netted them about \$53.

At a meeting this week the committee met and apportioned the proceeds, 12 of them donating their part of the funds to a fund for planting trees in the town park.

The numbers on the Lyceum course the past year were well-attended in almost every instance, and notwithstanding the heavy cost of them, the committee was able to set apart the above amount over the expenses. The most expensive number on the list was Senator Jas. K. Vardaman, of Mississippi, whose appearance here entailed an expense of \$150. The other numbers cost from \$50 to \$90.

An excellent course for next season has been contracted. It consists of six numbers, and will cost about \$500, but the talent secured is of a high class and parties who attend will be sure of receiving full value for their time and money.

H. T. Owen spent last Friday in Roaring Springs on business.

## Fire Damage to Plainview Drug Store

The drug store of the J. W. Willis Drug Co., located in the Donohoo Building at Plainview, was almost totally destroyed by fire, smoke and water last Thursday night, when a gasoline stove exploded behind the prescription case.

The flames were held in control, but smoke and water damaged the goods in the front part of the building very much.

Plainview Merc. Co., Hotel Ware, Citizens' National Bank, are located in the same building, which is fire proof.

### Singing at Campbell.

The people of Campbell enjoyed an all day singing and dinner of the ground Sunday of last week. A large crowd attended and numerous people from other neighborhoods were invited to join in making the day a big event.

### 3000 Dozen Egg Shipment.

From the long-settled and established town of Sherman comes the announcement in big headlines that a shipment of 3000 dozen eggs out of that city was made last week, the news being deemed especially interesting from the fact that the shipment was a large one. Last week one dealer in Floydada shipped 54 cases of eggs which is 1620 dozen eggs.

When Floydada gets the size of Sherman,—not many years hence,—and has as thickly a settled country as around that

city, 3000 dozen egg shipments will be just old common every day occurrences.

## Tag Day For Panama-Pacific Fund.

\$100,000 is set as the amount necessary for a Texas Building at the Panama Pacific Exposition at San Francisco, in 1915, and the first Saturday in May has been named as Tag Day in Texas for the purpose of raising the amount.

Every commercial organization in the state is expected to aid in every way the raising of this amount.

### Hereford Woman Wins Medal.

Hereford, Texas, March 19—Mrs. Clarence Smith, won the gold medal at the Rebekah assembly of the Grand Lodge at Fort Worth Monday night. The medal was awarded for the best rendition of the Past Noble Grand charges in the Rebekah degree. There were 15 competitors and Mrs. Smith won out over all of them. This is the second medal Mrs. Smith has won, the first being won at Anarillo in June 1912, at the convention of the Panhandle Association of Odd Fellow and Rebekah lodges.

### Want New School House.

A petition is being circulated in the Campbell school District east of Floydada, asking for an election to vote bonds for the erection of a school building to cost approximately \$1500 complete.

## Weather Hinders Mothers Club

Mammoth Clean Up planned for Saturday last Prevented by Snow and Cold.

The Mothers' Club of Floydada planned a mammoth clean up day for last Saturday, following the work during the days previous by individuals in raking, burning and the disposal of rubbish and cans, but the weatherman interfered and had the face of the earth covered with a slight snow and a brisk norther was blowing when Saturday dawned.

A big dinner-on-the-ground affair, with as many citizens as could be pressed into service, and the school children as participants, was planned to be held at high noon at the public school building.

Their well laid plans having gone awry the ladies have not determined on a new date for the "Clean-Up," but it will likely follow in this month or the earlier part of April.

O. P. Darsey is in Oklahoma this week transacting business.

If the right number of signatures are secured the election may be called at the next session of the Commissioners' Court.

Sandhill and Irick Districts are the only districts to date, outside of Floydada and Lockney, which have voted bonds for the building of modern school buildings.

# Makes Healthy Bowels

THIS simple rule of health is daily called attention to by every doctor in the land, whose first question to the patient almost invariably is, "Are your bowels regular?" Yet there's not one person in fifty who takes proper care of the bowels. And the result of this foolish neglect is nine-tenths of all ill-health. If today you are unable to free your body of waste matter at the usual time, or if the act causes straining, pains and discomfort, don't let that condition occur again tomorrow. Unless your bowels can carry away the waste materials left after food is digested, decay sets in, the poisons of which, taken up by the blood, increase the risk of Typhoid Fever, Appendicitis, and many other serious diseases.

In treating constipation, there is a right way and a wrong way. The wrong way is to take harsh purgatives which even though they do clear the bowels, cause griping and nausea, injure the delicate tissues, and so disturb the normal functions as to cause the return of constipation. The right way is to help Nature to produce natural movement, without pain or discomfort, by using

## Rexall Orderlies

More Than One Hundred Million Were Sold Last Year

This enormous quantity was used with good results by busy men who suffered from constipation, due to lack of exercise, or indigestion caused by overwork—by children whose parents realize the harmful effect of common purgatives—by old people whose systems cannot stand anything harsh—by women during pregnancy, and after childbirth, when any medicine with a violent action would be particularly dangerous. Many of these people are your neighbors and friends. Ask anyone who has ever used them—they'll tell you Rexall Orderlies satisfied and helped them.

—a gentle laxative in the form of a chocolate-tasting tablet. One of these tablets eaten just before going to bed will help to restore your bowels to normal activity at a time when, your body being at rest, the medicine can do its best work. As a result of taking that tablet (or say two, if your case is obstinate), your bowels will move easily and naturally in the morning. The use of Rexall Orderlies for a few days afterward will restore normal regularity. Even chronic constipation is benefited by them, and it is not necessary to continue the treatment for a long time, because, instead of driving Nature, they simply help her to help herself.

Sold only at the more than 7,000 Rexall Stores and in this town only by us. In vest pocket tin boxes, 10c, 25c, 50c

This Is Our Guarantee—You Risk No Money

If Rexall Orderlies do not make your bowels act right, tell us so and we'll give back your money without asking a single question. There is no red tape to this guarantee. It means just what it says. You sign nothing. We won't hesitate, or ask you any questions. Your word is enough. If Rexall Orderlies do not do all you expect them to—if you don't feel better after using them and find that they are the pleasantest-acting and best laxative you have ever used, we want you to tell us and get your money back.

## The 1914 Harley-Davidson

has every desirable feature to be found in the motorcycle field and in addition it is the only motorcycle with Step-Starter-Double Clutch Control-Ful-Floeing Seat—and free wheel control.

THE ONLY Motorcycle with a Step-Starter

The step-starter in case of an accidental stop of the motor, does away with the necessity of getting off in the mud or holding up traffic while the rider finds a level place in which to lift or lurch the machine onto the stand in order to pedal to start the motor. Instead, the rider, seated in the saddle gives either pedal a downward push—when the step-starter does its work, and the motor again begins to throb.

THE ONLY Motorcycle with a Double Clutch Control

The clutch can be operated either by a foot lever or by hand lever. It is no longer necessary to remove either hand from the handlebars in order to operate the clutch, a decided advantage in sand, mud, or on rough roads.

THE ONLY Motorcycle with a Full-Floeing Seat

A device which assimilates all the jars, jolts and vibrations due to rough roads, etc.

I want to tell you all about these many improvements

Call and see me or telephone for literature or demonstration

**Wm. Salisbury**

Floydada, Texas

Phone 99

It's the only motorcycle with Protected Selective Two-Speed

A two-speed that the rider can shift from low to high, or high to low, or neutral at any time, whether the machine is standing still or in motion. A Two-speed that shifts only when the rider shifts it, a Two-speed that is located in the rear hub, away from dirt, dust or damage, and withal the most efficient two-speed ever manufactured.

It is the only motorcycle with automobile control

The brake, the clutch and the step-starter can all be operated by the feet, leaving only the spark and throttle for hand operation, making the control the same as that of the highest priced automobile.

Then there is the Free-wheel Control, Folding Foot-boards, and nearly forty other refinements which help to make the Harley Davidson the greatest motorcycle value ever offered.

## Church Notes

### Why Go to Church?

In many cities of Texas, a "Go-to-Church" Campaign is being waged, that is a certain Sunday is set apart as a day on which an attempt is made to have everybody in the town go to church, at least this one day.

In the campaign just waged in Dallas the Pastor's Association of that town, issued the following statement as to why everybody should attend church:

"Why not go to church? Few persons think things through. If everybody reasoned this matter of church-going to its logical conclusion, there would not be many vacant pews, and a widespread demand for more churches would speedily arise.

"The reason is simple: People do not stay away from church because they are opposed to religion or to the church. Far from it. Nearly everybody believes that the Christian church is absolutely necessary to our civilization. If its existence were threatened, the great mass of people would fight for it.

"But by some curious kink in their mental processes, many non-church-goers fail to perceive that if everybody else followed their example—and every honest person grants others the right to do as he does—the churches would quickly pass out of existence.

"Every nonattendant upon religious services virtually votes for the elimination of the institution from society.

"If a person believes that the world needs the church, he has but one clear, unmistakable and unanswerable way of stating his position—that is by regular church attendance. The man who goes to church stands for an indispensable institution, even as a good citizen stands for the state by voting.

"Absenteeism from the ballot box and absenteeism from the church are kindred failures in duty to society.

"Of course, that is not the best reason for church attendance. We go to church, primarily, to express our belief in God, and to do him reverence. The loftiest truth about man is that he is made in the image of the Divine, and has a capacity for fellowship with the Infinite. Worship is the highest function of which human nature is capable.

"The world does not know much about creeds, but when it sees a person attending divine worship, it understands him to say, by his action, 'I believe in God.'

Thoughtful persons stand for the church, also, because the church stands for the best things. The churchgoer lines up with the forces which make for righteousness. He is on the side of the people who want to live the noblest lives themselves, and who are trying to help this needy world to do the same.

"The most efficient agency of human service on earth is the Christian church. The churchman is a sharer in all the worldwide beneficences of the organization.

"They who would make their lives count, should be counted among those upon whom the church may count."

Announcements of church services made last week were recalled Saturday when the cases of scarlet fever in town were announced by the medical fraternity.

Unless further developments follow services will be held as usual, though next Sunday is Fifth Sunday and no special appointments are made for this date.

Rev. L. H. Davis will fill an appointment at Petersburg next Sunday.

Sunday School Institute.  
A Sunday School Institute will

### The Knockers Prayer.

"Lord, please don't let this town grow. I've lived here for thirty years and during that time I've fought every public improvement; I've knocked everything and everybody; no firm or individual has established a business here without my doing all I could to put them out of business. I've used every underhanded method known to the knocking fraternity to injure their business; I've lied about them and would have stolen from them if I had the courage; I have done all I could to keep the town from growing; never have I spoken a good word for it, but instead I've knocked hard and often.

"It pains me, O Lord, to see that in spite of my knocking this town is beginning to grow. Some day, I fear, I will be called upon to put down sidewalks in front of my property, and who knows but what I may have to help keep up the streets that run by my premises? This, Lord would be more than I could bear. It would cost me money, and I could not afford to put out my money, though all I have was made right here in this town.

"Then too more people might come if the town begins to grow, which would cause me to lose some of my pull. I ask, therefore, to keep this town at a standstill, that I may continue to be the chief knocker, Amen, amen."—Ex.

### Ancients' Idea Concerning Dreams.

Plato, Aristotle and Cicero believed that dreams foretold future events if rightly interpreted. Artemidorus of Ephesus, who lived about the middle of the second century, wrote books of elaborate rules telling how to interpret dreams. Among other things he says that he who shall dream he has lost a tooth shall lose a friend.

E. C. Nelson, Jno. N. Farris and Harry Weatherly spent Wednesday in the Quitaque Country.

be held with the Methodist Church in Lockney on the first and second of April, according to announcements made this week.

The presiding elder of the district will be present and numerous pastors and delegates will attend the meeting.

### Indian Matrimony, Old and New.

The matrimonial advertisements accepted by the Indian papers occasionally bring out the contrast between the old order of things and the new. Here, for example, is an invitation from a paper in the Punjab illustrating the old: "Wanted, a suitable match for a Sareen boy of thirteen of a highly respectable family. The girl must be between seven and eight years of age, and should be well connected." By the side of this may be put an example of the other kind, an advertisement inserted in the same paper by one Ram Singh Ray of Dharamsala: "My good friend, an educated, young, possessing robust health, wealth and independent livelihood, aged thirty-two, bachelor, wants to marry a girl decorated with education, civilization and sound health; no distinction between Hindu castes."

### Have Your Credentials Ready.

Well doing is determined, not so much by what we do as by what we do it with. An artist can show with a piece of charcoal that he is one.

### Echo of the Circus.

"Oh, mamma," shouted little Eddie, as he ran to his mother in great glee, "what do you think? I was just over there where they're putting up the circus, and they're filling the ring all full of breakfast food."

### The Way.

"I get my lunch from one of these street waffle wagons." "I see—a la cart."

### Overheard.

Miss Ouldgirl—"Now, if I should find a man under my bed, I'd simply tell him to marry me or I'd shoot." Miss Petite—"Then you would simply be arrested for murder."—Judge.

### Anger is not Manly.

Let this truth be present to thee in the excitement of anger—that to be moved by passion is not manly, but that mildness and gentleness, as they are more agreeable to human nature, so also are they more manly, for in the same degree in which a man's mind is nearer to freedom from all passion, in the same degree also is it nearer to strength.—Marcus Aurelius.

## Livestock Market Report

Kansas City, March 23, 1914. Cattle receipts here last week showed the customary shortage of 5000 head from corresponding week last year, but the market failed to act in accordance with this shortage, closing with a small net loss. Fat grades made up a fair share of the supply, and outside of some show of strength Wednesday, killers acted in line with their statements that beef channels are clogged. Imports of Argentine beef are considerable, and word came Friday that the equivalent of 15000 cattle was being loaded for New York, to arrive three weeks hence. This and other shipments promise to affect April beef markets adversely. Argentine beef that sold in Chicago last week corresponds to the beef from native steers that sell at \$8 to \$8.40. Prospects are therefore better for steers that sell above \$8.50. Receipts today were 8000 head, a considerable reduction from recent Mondays, and sales were largely steady, cows higher in some cases. Native steers have not exceeded \$8.80 in the last week, Oklahoma steers 8.70, Colorados 8.60. Bulk of the natives sell at 7.75 to 8.60. Colorados today 7.50 to 8.35, quarantine receipts today only 19 cars, consisting mostly of meal fed Texas steers at \$7 to 7.40. Nothing is here to compare with the \$8.30 Oklahoma quarantine steers here a week ago. Stockers and feeders sold some lower at the close last week, and trade lacks dash. Sales are largely at \$7 to \$8, with some cattle on either side of that range, and the greatest call is for stock grades. Hogs are fluctuating on a slightly higher plane than a few weeks ago, several loads selling at 8.80 Friday, which is the high figure for this year. The market today is 5 lower than Friday, top 8.75, bulk 8.50 to 8.70. Light hogs are selling better than a short time ago, and occasionally reach the top figure. Hogs apparently have more latent strength at this time than either cattle or sheep. The sheep

market remains strong, but lambs exhibit occasional weakness. Receipts have been running very light, but there is a fair supply today, 12000 head, market steady on both sheep and lambs. Heavy and middle weight lambs sold at the top today, 7.70, medium lambs 7.35 to 7.65, five cars feeding lambs 6.50, wethers worth 6.25, yearlings \$7, ewes \$6.
