Californian Is Honored With Picnic Lunch

Mrs. J. T. Ballard of Kerman, Calif. was honored with a picnic lunch Sunday at the Big Spring city park.

Mrs. Ballard has been visiting for nearly a month with friends and relatives. Gifts were presented Mrs. Ballard.

Attending were Mr. and Mrs. Drew Ballard and Gary, Mr. and Mrs. Ersy Simpson, Mr. and Mrs. John Henry, all of Colorado City; Mr. and Mrs. Lewis Claxton and Hortense, Gayla Liles, Mrs. Tommy Thompson and Rocky, Mr. and Mrs. C. W. McGee, all of Lorraine.

Mr. and Mrs. Alvin Rashke of Austin, Mr. and Mrs. Andrew Perkle and son of Big Spring; E. L. Anderson of Dallas; Mr. and Mrs. A. P. Anderson, Mr. and Mrs. Bernice Calloway, all of Lenorah; Mr. and Mrs. J. M. Payne and Glenda of Tarzan; Mr. and Mrs. Leo Payne, Rodney and Phillip, Mrs. C. D. When we get tired smoking our pipe we don't disturb the live coals in the bowl, we lay it down so the live coals can amble at will over the top of the mahogany table.

Our pleasure in this "do it yourself" housekeeping we are our own boss. We can take a bath when we get darn good and ready. The fig-leaf was discarded back in Adam and Eve's time. People are now covered up to their necks in clothes. Nothing exposed to disclose the untidiness of the flesh except the face and hands, so why should we worry about taking a bath.

We can go to bed anytime its suits our fancy, and likewise we exercise the same right when we get up in the morning. We console ourselves when we donate liberally the skin off our shin to the rocking chair—there is no one there to yell out at us in the night, "What time is it?"

The fly nuisance is bothering us some. There are two kinds of flies taking refuge at our house. One is the size of a heel fly with a high C voice, and the other is termed the bottle fly with a bull frog voice. He's the kind, they say, appears on the scene when there is something "dead up the creek." He is sent as a warning to clean up things around the kitchen sink.

To solve the labor problem on yard work we let the sandstorms blow off the soil down to the hardpan. This way we save the price of water to sprinkle the lawn.

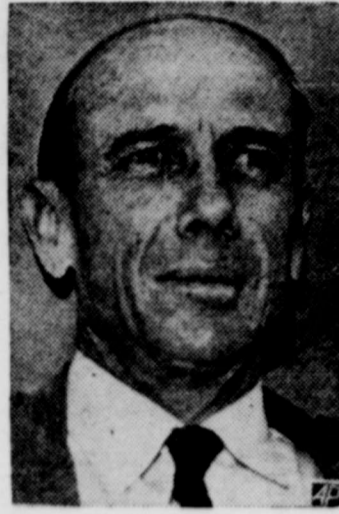

Well, we say, if you can beat this kind of living, it's not living.

City To Start Spraying 'War' On Insects Thursday Evening

Campaign To Rid Town Of Flies And Mosquitoes Begins At 10 P.M.

The City of Stanton officially launches a spraying war on insects Thursday evening.

The big campaign to rid the municipality of undesirable insects will start at 10 p.m., according to information given the Stanton Reporter by George B. Shelburne.

Shelburne stated the drive to kill all mosquitoes, flies and other insect life would not be concluded until every possible breeding place inside the city limits had been visited and a thorough dose of the deadly spray applied. The bulk of the spraying will be done by use of a Jeep. A spray machine will be attached and the Jeep will take the poison vapor into all alleys and hard-to-get places.

Shelburne requested the complete cooperation of the citizen-ship. He urged that all automobiles be parked away from the alleys so the Jeep powered machine could get close enough to leave a lethal dose of the killing mixture in possible breeding grounds. He also asked that all clothing be removed from outside lines to avoid being soiled.

REPORTER TO BE OPEN TO TAKE ELECTION RESULTS

The Stanton Reporter will be open Saturday night to take election results on all local, district and state races.

The Reporter will supply the Texas Election Bureau with the official Martin County tabulations in every race. The newspaper has been named the official reporting agency for the county by the manager of the Texas Election Bureau.

If you are interested in any political race telephone 4-3344 and you will be given the results in that contest.

23 Voters Cast Absentee Ballots

County Clerk Doris Stephenson advised the press Wednesday morning that a total of 23 absentee ballots had been cast at closing time Tuesday.

Tuesday was the last day voters could vote absentee. With almost 1,500 poll tax receipts and exemption certificates issued this year before the January 31 deadline, the vote in Martin County could approach that figure.

There is no official opposition in any of the races on the precinct and county level in the county this year. The lack of this opposition will undoubtedly tip down on the number of votes cast in Saturday's Democratic primary election.

Rev. E. B. Coon Brings Message To Baptist Group

Rev. E. B. Coon taught the Bible study lesson when the Women's Missionary Union met Monday afternoon at the First Baptist Church.

"Believing and Achieving" was the topic of study.

Attending were Mesdames B. F. White, E. B. Coon, Harry Billington, J. R. Sale, Roy Martin, Guy Eiland, W. H. Yater and Miss Carrie Alvis.

Texans Will Trek To Polls To Cast Ballots Saturday

Voters To Name Next Governor, Lieutenant Governor And Other Officials July 28

Voters throughout Texas trek to the polls Saturday, July 28, to cast ballots for their respective candidates in the various state and local races.

In Martin County the ballot is short with all candidates running without opposition.

Major interest will be focused on the gubernatorial contest where six men are asking for the office. They are W. Lee O'Daniel, Ralph Yarborough, Price Daniel, Reuben Senterfitt, Evetts Haley and J. J. Holmes. All six candidates have conducted vigorous campaigns and heated words have been exchanged from time to time but the voters appear to have remained in a state of lethargy. Election talk has been sparse and unless a sudden interest surge is shown here before the Saturday Democratic primary election the state total will undoubtedly be down from two years ago.

The manager of the Texas Election Bureau in Dallas has predicted that more than 100,000 fewer votes will be cast this year than two years ago when a total vote of 1,250,000 was recorded.

The gubernatorial candidates have been bringing out a lot of talent and entertainment all the way from Hollywood to Texas to get the voter interest up. Some candidates have injected a circus atmosphere into their election week appearances, others are still touring with the road shows featuring hillbilly tunes that they started out with.

In the lieutenant governor's race four Texans are making bids for the second place honor. These men are Ben Ramsey, John Lee Smith, C. P. Johnson and A. M. Aikin Jr.

In the race for Attorney General only three men are pitted against each other. Will Wilson, Ross Carlton and Tom Moore are the candidates.

Riley is a native of Midland and served 20 years in the U. S. Army before retiring the past year.

The new owners wish to invite the old customers of the shop and new ones to read their opening ad in this issue of The Stanton Reporter.

Annual Cap Rock Meet Here Aug. 4

The ambulance shown above is oxygen-equipped, air-conditioned, carries all first aid necessities and a two-way radio. No finer or faster ambulance can be found in West Texas. YOU CAN'T CLIP A TV PROGRAM . . .

Dorothy Kilgallen, the columnist and television star, recently had something pleasant to say about newspapers as reading matter.

"You can read on a train crossing the desert or on a plane 17,000 feet above the Atlantic—no static, no fading, no blips," says Miss Kilgallen. "You can read in a bathtub or while hanging on to a pole in a crowded bus. You can read as much or as little as you want, as fast or as slowly as you want."

"And if you read something you like, you can tear it out and read again some day. I enjoy radio and television, and I am gainfully employed by both, but I must admit they have their drawbacks. Did you ever try to clip a television program and paste it in your scrapbook?"

Here's why the newspaper holds its dominant place in the homes and hearts of Americans. And here's why — to touch on the world of commerce from which all of us draw our living — the newspaper remains an unsurpassed means of advertising goods and services.

A Safe And Sane Vacation . . .

The Texas Safety Association reminds us that vacation travel is big business these days. Our vast network of highways is dotted with vacationers exploring the countryside and seeing America.

But for many, the slogan that started out as "See America First," turns out to be, "See America and Die."

Judging from the experience of past years, many of the thousands of vacationers already on the road and many of the thousands of others getting ready for the takeoff will die in traffic accidents. Many others will be crippled. Families will be broken, and grief will enter many an otherwise happy home.

The great tragedy is—these deaths and injuries are unnecessary. A little more time given to planning before the takeoff . . . a little more alertness and attention to safe driving rules along the way . . . would bring these vacationers home safe.

But vacationers are usually in a hurry to get where they're going. They're not willing to spend that "little more." They pile the car full of vacation miscellanea, plan a gruelling schedule, hit the road ready to do or die.

Sometimes it's die!
YOU can help stop this mass suicide. It's simple. YOU can REFUSE to be part of it.

The formula for a safe trip doesn't cost a thing. Plan your journey ahead of time . . . allow plenty of time for leisurely driving . . . pack safely . . . stay alert every minute you're on the road . . . obey traffic laws and the dictates of common sense and courtesy.

That's it! If you follow it, you'll have a safe, sane, and enjoyable vacation . . . one that won't cost you your life.

Philosopher Voices Opposition To Aid For Fence Building

(Editor's Note: The Martin County Philosopher on his Johnson grass farm on Mustang Draw is writing about fences this week, instead of mending his own.)

Dear editor:
Occasionally I like to look over the international news, to get my mind off of farm problems, and while I don't understand much about foreign affairs, I notice there are a lot of experts in the same boat with me. In fact, probably the more foreign affairs you know about the less you understand.

At any rate, I read in a newspaper last night where the Prime Minister of India, a man named Nehru, was complaining because he said, "the United States expects other countries to take sides and leaves no room for any country to sit on the fence."

This just goes to show how little that Prime Minister understands about the United States.

In this country, we believe in private initiative, and a man, doesn't make any difference whether he's a justice of the peace or a state office holder or a Congressman, who can't find room to sit on the fence, just ain't trying.

I'll admit that at times the fence gets a little crowded, but I've always had faith in politicians and believe that when they can't find a fence to straddle, they'll build one.

Now you don't mean to tell me India and the other foreign countries are now going to expect the United States to build their own fences for them so they'll have something to sit on? Isn't that carrying foreign aid a little far?

I say it's one thing to lend them money, send them weapons and ammunition, ship surplus food to them, but if they can't manage to find enough fences to sit on, let em sit on the ground or, if they're afraid of catching cold, take sides and declare themselves.

In the United States, when a man can't find a fence to sit on, he just doesn't have any business running for office, and as far as I'm concerned foreign countries are going to have to build their own if that's where they want to sit.

I say not one dime of U. S. money to build fences for foreigners to sit on.

Yours faithfully,
J. A.

BIBLE COMMENT

NEW BIRTH MEANS LIFE OF PEACE, LOVE, FAITHFULNESS

The mystery of New Birth is associated with the baptism of the Holy Spirit. We cannot understand the mystery of God or the nature and relationship of Father, Son and Holy Spirit; but we see the operations of God's spirit in human life and we know, as the early disciples knew from practical experience, that the Holy Spirit is present with men to be their guide and helper.

To come to the plain, practical side of all this mystery, the baptism of the Holy Spirit is not in some miraculous thing that men can claim to have experienced that has no relation to daily living. If a man has been baptized of the Holy Spirit and the Spirit of God is in him, the fruits of that indwelling will be seen in his life and character.

"The fruits of the Spirit," Paul says, "are love, joy, peace, long-suffering, kindness, goodness, faithfulness, meekness, self-control." Against these, there is no law. They are the positive expressions of the good life and the God-guided life that all who seek God's guidance can develop without limitation. Here there need be no restraint, and if all men had this experience of the New Birth we should have no need of laws, or of law officers, except to direct the normal ways and relationships of men.

The higher one rises in this new life in Christ, and the more conscious he is of God's presence and guidance, the humbler is

his spirit and attitude. Men of the world may glory in their wealth or success, but the richer and better the Christian becomes, the less will he boast about it. It is in this spirit that Paul admonished the Christians at Galatia: "Let us not become vainglorious, provoking one another, envying one another."

What Was The News Of Note? -Twenty-Five Years Ago-

From Files Of The Stanton Reporter — July 24, 1931

Flying in tight formation, the THUNDERBIRDS will perform such daring flight maneuvers as their famous "Bomb Burst," barrel rolls, loops, "cork-screws" and many other precision aerobatics, all of which are based on training received in the flying program, coupled with fighter tactics used in combat by USAF fighter units throughout the world.

The Super Sabre, or F-100, has a wing sweepback of 45 degrees, 10,000 pounds of thrust. It is capable of reaching and maintaining a supersonic speed reach an altitude of 50,000 feet with a range of over 1,000 miles.

The THUNDERBIRDS have thrilled millions of spectators in more than 200 performances in the United States, 12 Central and South American countries, during their three years of operations.

Members of this internationally famous precision flight team are: Major Jack Broughton, leader; Captains Edwin Palmgren, slot-position, and Billy Ellis, solo; Lieutenants Bill Pogue, left wing and Bob Anderson, right wing; and Major Donald J. Ferris, utility member of the group. Broughton and Palmgren are the only remaining members of the original THUNDERBIRD quintet; the other former members having gone on to other Air Force assignments.

SOIL CONSERVATION DISTRICT NEWS

MARTIN-HOWARD SOIL CONSERVATION DISTRICT Present Supervisors— Edgar Phillips, Laurence Davis, J. T. Flowers, Ollie Robertson

Soil is the farmers bank. It won't stand too many primisroy notes.

Mr. L. T. Graves, one mile south of Stanton is planning to plant barley following cotton for a cover crop. Graves says his cotton doesn't wilt and shows better growth where an abundance of crop residues preceded the cotton.

The Lord placed man in this vineyard to care for it. What are you doing?

Floyd Martin of Tarzan is making his small irrigation well do a big job. Martin pumps into a 12 br. reservoir continuously and irrigates twice per day. He is able to irrigate 20 acres of cotton and garden this way from a 50 gallon per minute well.

America has undergone more than a century of land use and abuse. Approximately 100 million acres of formerly good cropland has been ruined by erosion for any further food production. Another 100 million acres of cropland has been seriously damaged. Topsoil is still being destroyed faster than it is being repaired or created. Crop production has been increased in the United States, largely by increasing crop acreage.

Homer Howard is installing a concrete line to tie in a new irrigation well into the present system of underground laterals.

AUGUST 5 IS C-DAY

(Change Day)

ALL STANTON TELEPHONE NUMBERS CHANGE SUNDAY, AUGUST 5, AT 1:01 A.M.

At that time, the Metropolitan Numbering Plan will be placed in operation and all telephone numbers will have two letters and five numerals. The five numerals of the number will be preceded by the first two letters of the central office name—SKyline (SK).

Just as easy — only different

Beginning August 5, dial two letters and five numerals of the new telephone numbers. For example, to call SK yline 6-5111, you will dial S-K-6-5-1-1-1.

When you give a telephone number to the operator or a friend, the easy way to say it is to break it up like this:

"SK yline-six . . . five-one . . . one-one."

This is the best way to say it — to understand it — to remember it.

Use your new telephone directory

Many Stanton telephone numbers will have the same last four numerals they now have — and simply be preceded by the first two letters of the central office name and a number.

For technical reasons, however, some numbers will be changed entirely.

All numbers will consist of two letters and five numerals.

Use your new telephone directory beginning Sunday, August 5. All numbers will be new numbers on Sunday, August 5.

tion reports the Texas highways are much more lucrative for Texans than ever the old-time cattle trails were. State Highway figures show that nearly 10-million out-of-state tourists spent \$412 million in Texas last year. That figure is \$26 million more than the cattle crop for 1955. Out-of-state visitors are increasing at the high rate of about 10 per cent annually.

It stands to reason that Stanton shared in receiving some of the \$412 million dollars for one of the main transcontinental highways affording tourists travel from coast to coast splits the town in half. The motels, the cafes, and the filling stations in Stanton feels the effects of tourists dollars spent.

FROM THE CHILDRESS INDEX comes: "An American and a Dutchman were talking. 'What does your flag look like?' asked the American. 'It has three stripes,' replied the Dutchman, 'red, white and blue.' We say they have a connection with our taxes: we get red when we talk about them, white when we get our tax bills, and 'pay until we are blue in the face.' 'That's just how it is here,' commented the American, 'only we see stars, too.'"

COULD THERE BE A MORE inviting or a more persuasive inducement sent any one to attend an event than the one we received last week from our Presbyterian Church in Midland. We are advised the event is to be a "SEED SPITTING"

CONTEST." The invitation reads: "The men'll pay for 'em, the children will supply the entertainment at a big ALL Church watermelon cuttin' to be held on the church lawn at 7 p.m., Tuesday, July 24. Y'all come and bring the brats! Nursery attendants will be alerted. Spit seed at somebody you don't know and make a new friend."

EDITOR DOUGLAS MEADOR of The Matador Tribune, together with his wife recently boarded a plane at Amarillo and flew to Miami Beach, Fla., to attend the Lions International convention.

The room at the hotel at which the Meadors stopped was priced at \$12 per day. If the Meadors wanted to look out upon the Atlantic Ocean, the room would cost them \$14 a day. The Meadors faced the Atlantic for the first night's stop. During the winter months Meador said the room would cost the occupant \$40 a day.

Liberal with his furnishings, the hotel allotted the Meadors one small towel each.
