The reunion group marked their silver anniversary in Stanton last year, and with the successful 26th reunion behind, they are already looking forward to a giant Golden Anniversary celebration in 1985. Old Settlers Day was celebrated with a lengthy parade, visiting, a barbecue at the city park, election of new officers, and memorial services. The day was concluded by Old Settlers and others attending the opening performance of "Jubilarama," the historical pageant depicting Martin County's history and future. The parade got underway promptly at 4 p. m. with the local police leading the group. Next came the color guard of Stoeger-Estes Post of the American Legion and the Stanton High School Band. First place float in the parade was entered by the Stanton Home Demonstration Club. Its theme was "Aunt Dinah's Quilting Party." Second place went to the Stanton Garden Club. Gracie Welch, Martin County Diamond Jubilee Queen and her attendants were featured in the first float. Next came a float bearing Sandra Kelly, princess, and her attendants. DOWNING GREETS GRACIE—Delbert Downing, popular Midland Chamber of Commerce Manager, is shown taking a wooden nickle from Gracie Welch, when the Martin County Diamond Jubilee Queen visited in the Headquarters City of the Permian Basin Empire recently. Gracie was a member of the caravan which made trips all over West Texas advertising the county's seventy-fifth birthday event in full swing here this week. Downing is an artist in the queen crowning business, and from that twinkle in his eye, the old master must have had an inside feeling that the pretty Martin County girl would occupy the throne during Jubilee Week. Gracie won the honor after votes were counted here Saturday afternoon.

Gracie Welch Wins Martin Queen's Race

Miss Gracie Welch, attractive Martin County girl was declared the official winner in the Martin County Diamond Jubilee Queen's race here Saturday afternoon at four o'clock when all votes were tabulated.

Miss Welch, a 16-year-old student in Stanton High School, and daughter of Mrs. Mattie Welch of Tarzan, led the contest in every vote count.

Miss Sandra Kelly, daughter of Mr. and Mrs. Owen Kelly of Courtney, placed second and won the right to wear the title of Jubilee Princess.

Others in the top ten in the race and the order in which they finished are: Liz McCurdy, Dorothy Hull, Josephine Lander, Shirley Henson, Nancy Johnson, Patricia Miller, Nina West and Fran Britton.

Credit Association Tabs Cattleman For Director

Stockholders of Western Production Credit Association in annual convention Saturday in Stanton elected a Crane County cattleman to the board of directors.

George Clark of Crane replaces the highly esteemed A. G. Bohannon of Midland as a director. For eight years Bohannon served as president of the board for the 25-year-old organization. "There comes a time," Bohannon said, "when younger men should be brought in." He had asked not to be re-elected. The nominating committee, composed of a representative from each of 12 counties served by the association, recommended Clark.

Clark gives the cattle industry voice on a board of directors whose members engage in dryland and irrigation cotton farming and sheep raising. Other members are Jim Franklin of Stanton, president; Ed Guy Branch of Rankin, vice president; and Ben W. Golladay of Midland and Walton Poage of Rankin, directors.

W. D. Howell of Martin County submitted a resolution expressing gratitude to Bohannon for his zeal and leadership in an organization admittedly pretty broke two years ago. Motion to pass the resolution was made by Walton Harral of Rankin and seconded by J. D. Crawford of Midland. Bohannon received a standing ovation from approximately 300 persons present in American Legion Hall.

Amazement at the progress made by Western Production, whose offices were in Midland until May of last year, was expressed by Tom Merril of Houston, secretary of the Federal Intermediate Credit Bank.

"Looking at it from a distance, your progress in the last few years has been amazing to us," Mrs. Grace Nance of Medina, formerly of Stanton, visited this week in Stanton with relatives and friends and attended the Old Settlers Reunion.

Plans for the new year include remodeling the association's office in Stanton. Named to the 1960 nominating committee were Crawford for Midland County; Howell for Martin; Carl N. Grant, Howard; Bob Glenn, Glascock; Joe Barton, Reagan; Norman Elrod, Upton and Esza Trotter, Crane. Still to be selected are members from Ector, Andrews, Ward, Winkler and Loving Counties.

Testing Work Progressing On McAlester 1-B

By JAMES C. WATSON

Results of testing now in progress at Texas Pacific Coal & Oil Company No. 1-B McAlester, possible wildcat discovery from the Strawn section of the Pennsylvanian and also from the Devonian, 10 miles southwest of Stanton will be watched with much interest. The prospect is 1 1/2 miles south and slightly west of the same concern's No. 1 McAlester, which opened the Germania (Devonian) pool more than a year ago. That operation originally showed as a good producer of both gas and petroleum liquid. However its oil yield has dropped off until it was producing only approximately 20 barrels daily. Its gas volume is holding up better — proportionally — than is its crude oil harvest. No. 1-B McAlester drilled to total depth of 11,548 feet in the Devonian. It set and cemented a 5 1/2-inch liner to 11,493 feet. That pipe is scheduled to be perforated opposite the Devonian and also opposite the Strawn, and both those horizons will be tested. Interesting shows of possible discovery production were encountered in both formations. However, in each case the petroleum bearing rocks also gave up some salt water. It is possible, that should either or both zones develop sufficient gas and or oil to justify completing the well, that the water can be handled so as not to cause any great amount of trouble. In Northwest Martin County, Pan American Petroleum Corporation was drilling ahead below 11,125 feet in lime at its No. 2-A Shook, slated 12,600-foot project to try for completion in the Devonian. This well, adjacent to a Devonian producer in the Breedlove, North (Devonian) pool developed good shows of possible discovery production in the Wolfcamp between 9,142 and 9,240 feet. Several of the wells in the Breedlove and North Breedlove areas, which have completed from the Devonian, logged shows of possible commercial production in the Wolfcamp — but so far none of those shows have (Continued on page 8)

FROM WHERE I SIT

THANKS A COUPLE OF million of "beards and bustles," for the many kind reactions and comments on my last week's column! Just wish I could call this column one of my weekly (weekly) assignments! But with each week's paper when I'm at home, I'll be thinking of all of you; so, by golly, "swap out" and think of me, too!

MARTIN — THERE HAS BEEN PLENTY food for thought and gossip! One of the classics, shall we say, was the statement of Alton Turner, President of the Old Settlers Reunion Association. He said that in his duty as Master of Ceremonies for the program, he was at a loss as to how he would meet the situation, for, as he stated, "when I stand up, my mind sits down!" We cannot say now what will happen, but when you read this, you will KNOW! (you see, this is Tuesday!)

COUNTY — ANOTHER CLASSIC STATEMENT which could or could not be considered thoughtfully, was made by Bill Wheeler. He said that his father, Stanley, had been so busy selling tickets, that everyone thought he was running for QUEEN! We don't know just how he could fill the place as a queen, for he has long been a king-pin of local activities in the development of Stanton and Martin County. Am bet-

ting on you, "Deacon!" — JUBILEE — LET'S HAVE A LOOK AROUND: all the gals are in their Pioneer ruffles, bustles and bonnets! The guys are hidden behind beards, mustaches, sideburns, and wild growth! Some are not easily recognized — take Mason Coggin, with whiskers, a white apron, a black derby—and delivering ICE! See a living Abe Lincoln in Valton Laird! Even his height is in keeping with the HONEST one! Jess Burns, Glenn Brown, H. M. McReynolds in trim mustaches; Jack Ireton with a black line of black around his chin (beard that is!); Morgan Hall with a mustache and Van Dyke beard, and heavens to Betsy, it is NOW dyed a beautiful golden brown! Stanley Wheeler with a mustache that could be worn all along, and with that Bulck straw hat — wouldn't be bad! Yuell Winslow with a good growth of some kind, which really changes his looks—it's sort of red! But, the prize of the crop (?) is the beard of our highly regarded County Sheriff, Dan Saunders! Just how long do you suppose it took him to get that way? He should be given that extra wagon wheel!

Big Spring Man Dies In Saturday Accident

The body of George Andrew Maletin, killed Saturday night in a one-car accident a few miles east of Stanton, was taken to Dallas Monday by Arrington Funeral Home. Maletin, a 50-year-old resident of Big Spring, was heading east on U. S. 80 when his car was flagged by State Highway Patrolmen working radar. The motorist evidently applied the brakes suddenly, and the vehicle swerved out of control, finally coming to rest on the railroad embankment. The driver, sole occupant of the 1948-model car, was dead on arrival at Doctor's Hospital in Stanton, where he was brought in an Arrington Funeral Home ambulance. Patrolmen investigating the accident were Kel Davis of Big Spring and Bobby Papanon of Stanton. From Dallas, the body will be flown to New Jersey for interment. Maletin had no known relatives in Texas.

Knott Fiddler Contest Winner

Tom Castle of Knott strummed out "Joe Turner Blues" and "Ragtime Annie" Monday afternoon to win the fiddlers contest held in downtown Stanton. Placing second in a field of seven fiddlers was Johnny Tunwell of Midland. Other contestants were R. P. Luce and W. M. "Bill" Thomson, both of Big Spring, D. B. Longley of Andrews, and Lonnie Latham and J. C. Bateman of Midland. Mrs. A. C. Fleming has returned home from a visit in Abilene and Clyde with relatives.

**Martin County Philosopher Not In Favor Of Hiring A Public Relations Expert For Farmers**

Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw claims he's found a new angle to the farm problem this week.

Dear editor:

As a lifetime student of the farm problem, not of what I think it is but what other people think it is, I'll have to admit that this week I have run across a brand new idea on the subject.

According to an article I read in a newspaper day before yesterday—I think it was the day before yesterday, when you don't do any more one day than the next, they all run together—the farmer "is suffering today because of bad public relations."

According to this fellow, since 88 per cent of the people live in towns or cities, the public has a grossly mistaken picture of the farmer and the farmer, if he's smart, will do something to "improve his public relations."

Right now, he continued, the people look on the farmer as (1) a hayseed, or (2) a profiteer responsible for the high cost of living, or (3) the biggest hog at the public trough, depending on the government to take care of him.

Now I don't know which one

of these images you city people have when you think of me, but the Number 2 picture is the one I wish was right. For one farming year, just one, I'd like to be a profiteer. You could throw Number 1 in, it'd be all right, I wouldn't mind, I wouldn't care if you thought I was a hayseed, just so long as I was profiteering. And as far as the government taking care of me goes, it's a beautiful dream, but I've never been able to swing it.

This man went on to emphasize that us farmers ought to do something about our public relations, do something to change the public's image of us. Well, I guess we could hire some of those Madison Avenue boys, they do a pretty good job of making a politician's image over in the public's eye, but I can't think of anyway I'd rather look in the public's eye that'd make me feel any better in my own eye. Besides, by the time I get through paying for my equipment, my gas and oil and tires and repairs and clothes and taxes, I don't have anything left for a public relations expert.

Appearing prosperous never did appeal to me. There's millions of those folks in the country now, especially in the towns and cities. Nothing less than the genuine article will ever suit me.

Yours faithfully,  
J. A.

**BIBLE COMMENT**

**'Obedience' Is Key To Conversion**

The history of religion shows many instances of sudden conversion. Often some tragic experience or danger enables a man to see for the first time the condition of his own soul. It may be likened to the view one attains when he suddenly ascends the crest of a hill and sees for the first time his real environment spread out before him.

It is doubtful, however, even allowing for the reality of a sudden experience, whether the whole story of conversion is confined to the apparent moment of change.

Oftentimes, either consciously or subconsciously, the man who is suddenly converted has been undergoing some preparation for the change.

One wonders, for instance, whether Saul, when he stood holding the garments of those

who stoned Stephen, would have been entirely unmoved when he saw the martyr speaking words of forgiveness to his dying moments. Could Saul have helped being impressed by the spiritual superiority of a man who could thus rise above his enemies?

We cannot know all that went on in the mind and heart of Saul before his conversion. But we do know that his conversion was complete and that the Saul who was intense in persecution became the Paul who was equally on fire with zeal for the truth.

Perhaps the most important thing in conversion is best expressed in words from a chapter in Acts—"I was not disobedient unto the heavenly vision." This is the secret of real conversion. Many men have heavenly visions, but it is only those who are obedient who find the way of the highest faith and life.

people who are at home with **QUALITY** choose **GAS** appliances

Enter the home where choices are made strictly on the basis of quality, and the chances are excellent that you'll find a built-in Gas range in the kitchen. That's because people who are concerned enough to evaluate, discover that a Gas range offers superiority in two ways. The range itself combines precision accuracy with complete automation. And GAS, as a live-flame fuel, does important things that no other fuel can do. It consumes cooking vapors so that you can enjoy closed-door smokeless broiling. With Gas there's no warm-up wait when it's turned on... no lingering heat when it's turned off. And only an instantly responsive Gas flame permits perfect control of the subtle variations in temperature that mean so much to the taste and texture of foods. Gas is the choice of people who insist upon quality at any price... and it's incidental that Gas costs from five to eight times less than any other fuel! Where the finest is truly appreciated... GAS belongs.

# Who Would Know Them By Their Hairy Faces?

"Brothers Of The Brush" they proclaim themselves. Their alliance dates back to May 15, when Judge Jim McCoy issued a proclamation calling on the male population of Martin County to grow facial adornment for the Diamond Jubilee, which officially opened Sunday. Approximately 750 Martin Countians answered the call, sprouting a wild assortment of full beards, side whiskers and mustaches. "Seems like every day I saw a new one," McCoy commented.

In Stanton, center of festivities, beards and old-time costumes worn by members of a sister organization, The Jubilee Belles, soon became old saw. Not

so in the surrounding areas visited by celebration boosters in motor caravans. A woman in Lamesa, eyeing a brushy creature passing out programs, finally exclaimed, "Well" and walked away shaking her head. In Midland, Bernard Houston, general chairman of the celebration, strolled unrecognized past a relative. Not often, but sometimes identities got lost. John Peters, who was born in Stanton in 1891 and is a second cousin of the town's founder, grew a full beard. "Who is that?" a Stantonite asked a bystander one day. "Why, that's John Peters," was

the reply. "Well, I'll swear," said the man.

**Side Whiskers**  
Side whiskers easily became the most popular styling. The results in a few cases surprised even the owners. Y. G. Winslow, for one, discovered his whiskers, if left to grow, naturally would curl. "Some of the women think I've had a permanent," he said and laughed.

Morgan Hall cultivated one of the few Van Dyke beards. Then there is a barber, John L. Bruton, who finally emerged with a handle-bar mustache, after frequent and critical study in front of an ever-present mirror in the shop.

One of the most impressive beards in the land was cultivated by Dan Saunders, Martin County sheriff. A description? "I look like a werewolf," he noted. He grinned. Burr, he may be right.

For men who wished to dodge the itch and the sidelong glances, admiring and otherwise, of the clean chined, shaving permits were made available. Friday, off will come the symbols of the past in a whisker shaving contest.

Saturday, odds are this segment of the male population come fact-to-face with traditions of the past will look to the future with at least a new countenance. That after all is the purpose, as Lehr Knowles, director of the Jubilee, sees it. "Look at the past," he says, "with its traditions to be cherished, but look also to the future and to the jobs that need to be done now." Jubilee time officially has begun in Martin County. Running through each of the day's events is this chord and from the whole will emerge for some people a new purposiveness.

## Mrs. S. Cox Hostess For Lawn Party

Mrs. Sam Cox entertained the Diamond Jubilee Cotton Belles and their families with an old-fashioned garden party recently at her home. "42" and other games were played. ## TELEPHONE TALK

King Cotton seems to be just a fledgling Prince in the fields around Stanton these days; but with good hot weather and enough moisture he will ascend his throne in November and reign supreme for another year. I've been noticing lately that cotton is being combined with man-made fibers like Dacron. A friend of mine showed me a wash and wear shirt that has 60 per cent cotton and 40 per cent man made fibers. He said the clothing industry is rapidly learning that man-made fibers need the natural strength cotton provides to make them work best. It looks as though Cotton is still King—even in this day of man made miracles. (Now if we could just find some way to grow cotton without growing weeds at the same time!)

## Vacations and Telephones

When you think of vacation, about this time of year, you probably think of fishing, swimming, visiting, or just plain relaxing at some nice vacation spot.

Well, I'm happy to say that more and more people are using the telephone to have more fun on their vacation trips. Here's how it works (and you can do the same if you're one of the lucky people still looking forward to a vacation): First, call ahead to reserve your accommodations, or to let the family know when you'll arrive.

Next, call ahead to make overnight reservations along the highway. This way, you can drive longer and still be sure of a place to stay.

I think you'll find that this "calling-ahead habit" will help you and your family have an even better vacation.

Why not give it a try? And remember, call station-to-station—it's about one-third cheaper.

## Ten Rings

With backyard barbecues so popular nowadays, people are spending more and more time outdoors. So when you call your friends, remember it may be quite a run from the backyard to the telephone.

Give them time to make the dash by letting the telephone ring ten times.

Who knows? They may ask you over, too, for some of those hamburgers on the grill!

Call by number. It's twice as fast.

The hoose-gow was filled with men and women in short time; trials began and many men were thrown in the large tank of water. Women were given lighter sentences, and "yours truly" was placed in the "stocks" with head and hands in their places, the given a balloon and was told to keep blowing until the balloon burst. It didn't work, for every time we tried to blow, the balloon flew away! FUN!

**— SUCCESSFUL —**  
I ACTUALLY BELIEVE THAT every one in Martin County would be happy to give Bernard Houston that "other wagon wheel" for his tireless efforts in working days and most of the nights for the success of the Diamond Jubilee! He said when the celebration was over, that he would "retire" to his work as farmer-rancher! Bless your heart, Bernard, we'll all for you!  
**— CONGRATULATIONS —**  
**THE TRUE COMMUNITY** spirit was expressed beautifully Sunday night, when singers of all denominations gathered in the football stadium for devotion in song. Ministers of the various churches had a fitting part in the program. This type of cooperative spirit is not easily found in this work-a-day life, and the "rat race" so many are running. My fervent hope and prayer is that Martin County never loses that united spirit! I love you all!

To this writer, who then was publisher of The Stanton Reporter, it seems only yesterday he saw Woodrow Wilson, a teen-age lad going to Stanton High School.
