### Philosopher Pleased To Learn That Russian Missiles Can Fizzle Out The Same As Ours

Editor's note: The Martin County philosopher on his grass farm on Mustang Draw seems cheered by news out of Russia this week.

over there have weeds growing in their crops, that newspapers misspell names and their presses sometimes break down, that Russian shoe laces break and their shirts wear out, that insects bother their crops and that bad colds are common over there too.  
 In the world of space, guided missiles are sort of like child direction. Sometimes it works, sometimes it doesn't, and you can't be sure ahead of time what the results will be.  
 Yours faithfully,

### CRMWD Looks To Pass Nine Billion Mark

Consumption will top the nine billion gallon mark for the Colorado River Municipal Water District, it was apparent today on the basis of November figures.  
 The 561,883,000 gallons taken by member cities and oil repressuring units ran the year's total to 8,775,883,000 gallons. The final figure for 1960 could be close to nine and a quarter billion. The gain and for the 11-month period it was for November was 3.84 per cent.  
 The member cities of Odessa, Big Spring and Snyder showed 336,758,000 gallons, a gain of 5.96 per cent for the month. The repressuring units used 225,125,000 gallons, a gain of 14.1 per cent, reported O. H. Ivie, assistant general manager-production.  
 Here is the way consumption stacked up by cities and units during November:  
 Odessa 166,843,000 (up 9.7 per cent over November 1959); Big Spring 134,075,000 (up 4.78); Snyder 35,840,000 (down 5.45); SACROC 162,117,000 (up 27.52); Sharon Ridge 32,279,000 (down 25.69); Lion Oil 26,468,000 (up 6.21); Texas Gulf Producing 4,261,000 (up 67.68).

THE MEMPHIS DEMOCRAT-COTTON classing figure this week rose to 135,750 samples according to A. E. Anthony, officer in charge of the USDA Classing Office here, which serves a 12-county area. Mr. Anthony said that the cold weather has not slowed down the flow of samples so far; however, he felt there would be a slack off in the next few days. He said the office was still about three and a half days behind on classing the samples and that eight classifiers are working.

THE EDEN ECHO: "Eden has a population of 1,436 and Concho County's total population, according to the 1960 census is 3,672. Final official figures were released this week by the Bureau of Census. The report shows a total of 2,186 for all rural areas outside of Eden city limits. Eden's 1960 population count was 1,993 and that for the county was 5,078."  
 THE GRAHAM LEADER: "A 15-year-old Graham High School boy and member of a prominent Young County ranching family, Richard Whitteburg, walked away with the Grand Champion ribbons in the Fat Steer Division and the Junior Breeding Female division at the annual Young County Livestock Show. The big event was held in the newly completed Agriculture building that is located south of Firemen's Hall."

THE POST DISPATCH: "Post's 1960 building permits climbed to within less than \$11,000 of the million dollar mark, this week with the start of construction of a modern office building for the Southwestern Public Service Company. The new building will have a drive-in window for utility customers stopping to pay their electric bills and a Reddy Room available for civic and club group use."  
 THE LIBERTY VINDICATOR: "An Equalization Program for tax valuations in the Liberty Independent School District has been proposed by the board of trustees. In letters to taxpayers in the district, Board President Reuben A. Allison emphasized this is 'not a reevaluation program' and asks school patrons to 'examine this proposal before any official action is taken.' School tax rates were increased in September from \$1.50 per \$100 assessed

valuation to \$1.68 under provisions of Senate Bill 118 which voters in the district okayed."  
 THE FORT STOCKTON PIONEER: "Fort Stockton's newest industry started as one thing, wound up as another and is using raw material that is an estimated 200 million years old. It's a salt mine. The company uses a hydraulic mining process to recover brine from plain old rock salt to the type used on any kitchen table. Young Ed Foreman, who heads the company, has 25 such operations scattered over the Permian Basin oil drilling area of West Texas and New Mexico."  
 THE SEMINOLE SENTINEL: "Seminole was moving ahead today compiling studies aimed at justifying a railroad for the city, a short line which would extend from Odessa to Seagraves. Twenty-nine Seminole businessmen and women met Wednesday night at the courthouse to hear short line executives plead for Seminole help in establishing justification for the railroad."  
 STAMFORD AMERICAN: "The slow, gentle rain which began falling in the Stamford area Tuesday afternoon was a welcome sight to farmers and ranchers. Winter grain was badly in need of moisture and some farmers were about ready to remove grazing cattle. It was the first measurable rainfall in more than 30 days, there being but a trace in November. It was reported that the total rainfall to 8 a.m. Wednesday was .35 inch."

THE BIG LAKE WILDCAT: "Monday evening, December 19 has been announced as judging night for the residential Christmas Decoration Contest sponsored annually by the Reagan Garden Club. Judging time will be from dark till 9 p.m. and first, second, third and honorable mention awards will be given."  
 THE ANDREWS COUNTY NEWS: "More than 4,600 ballots were mailed to Andrews residents Wednesday seeking public approval for construction of a new city hall and fire station. In a last minute change of plans, a list of city residents was compiled from the poll tax list and property tax roll. Originally only the city roll was to be used."

### This Dachshund Makes Retriever

Dog lovers will find the December issue of Texas Game and Fish magazine a very interesting edition, according to the director of information and education, Game and Fish Commission. There are two illustrated dog stories.  
 One of the stories deals with the bench and brush champs which came out of the South Texas wolf hunt held on the Perez Ranch near San Diego in October. This is an annual event that attracts top hounds from all over the Southwest.  
 The little animal, which is only a half-dog high and a dog and a half long, looks like a drowned rat when it emerges from the water, but according to Swiggert it always brings in his birds.  
 He says it is wonderful as a retriever when shooting doves around a water tank.

### TB Cure Possible If Treatment Started In Time

Here are the questions people most often ask about tuberculosis, with the answers.  
**If I get TB, what are my chances of a cure?** Excellent, if your illness is found early enough and you complete the treatment your doctor prescribes. There are 1,750,000 people living today who once had active TB.  
**Can TB be cured at home?** In a few cases, yes. But most TB patients should start treatment in the hospital, where there are laboratories to make all the necessary tests, a staff of doctors to plan treatment, and good nursing care.  
**How long would I have to stay in the hospital?** There is no one answer to this question, since each TB patient is different. TB cure may take several months in the hospital and continued treatment at home for a year or two.  
**How is TB cured today?** TB is treated mostly with drugs, to help bring the germs under control. Good food and rest are also important. Surgery may be needed to remove part of a damaged lung.  
**Once I am cured of TB, can I get it again?** It's possible, unless you are careful to eat the proper food, get enough rest, avoid emotional stress, and keep your resistance high so you don't get frequent infections.  
**How can I tell if I have TB?** You can't, because in its early stages TB causes no symptoms that anyone could notice. But a tuberculin test and, if the test is positive, a chest X-ray, can tell your doctor if you have TB.

### Bible Comment—

#### Jesus Taught The True Worth Of Giving

When Paul was leaving Miletus after having called the elders of the Christian Church of Ephesus to hear his words of farewell, he bade these Christians to remember the words of the Lord Jesus: "It is more blessed to give than to receive."  
 No words could express more accurately the spirit of all that Jesus had said and exemplified in His life and death. Nor could any words express more pointedly the challenge of Jesus and His teaching to the ideas and actions of what He called "the world."  
 Getting and receiving is such a normal process of life and is so natural to happiness and welfare that we might well ask whether Jesus was right in declaring that it is more blessed to give than to receive.  
 We may ask but there is only one answer. And the answer is found not only in some spiritual blessedness that compensates for the giving or renunciation of some material possession or treasured thing.  
 Jesus offered men rest: "Come unto me . . . and I will give you rest."  
 Yet rest is the thing that men, rich, poor, old, young, sick or well, cannot do without. That offer of rest by the Master was supreme in its insight into human need.  
 So, in this matter of the blessedness of giving in any large and spiritual reality, the assertion that it is more blessed to give than to receive is an extension of much that is true in normal living. The giving of parents to their children, the giving to loved ones, the innumerable acts of graciousness and self-sacrifice in which men and women find supreme satisfaction, bear witness to the testimony of Jesus.

### 11 Texas Cities In 100,000-Plus Population Group

Eleven Texas cities now are in the 100,000-plus population group in the United States, the Census Bureau reported. Only 130 cities in the nation are in that rank.  
 Four Texas communities reached that class for the first time. They are Amarillo, Lubbock, Beaumont and Wichita Falls.  
 The 11, with 1960 national rankings first and 1950 rankings second:  
 Houston 7, 14; Dallas 14, 22; San Antonio 17, 25; Fort Worth 24, 38; El Paso 46, 76; Austin 67, 73; Corpus Christi 74, 98; Amarillo 88, 156; Lubbock 94, 164; Beaumont 161, 119; and Wichita Falls 128, 172.

### White Bass Move

The white bass are beginning to move, according to reports coming in from many of the Texas lakes. Their annual migration upstream starts about this time of the year and will continue through January. Some big catches already are being reported below the Marble Falls dam.

Recent guests in the home of Mr. and Mrs. G. A. Bridges were their granddaughters, Delene Bridges, who is a student at Baylor University, and Mrs. Johnny Campbell of Amarillo.  
 Mr. and Mrs. Granville Graves, Terri and Craig of Coshoma, visited last week with his parents, Mr. and Mrs. Walter Graves.

## Fifteen Years Ago

Considerable interest is being aroused among eight of the rural schools of Martin County over the plan of consolidation. The schools are South Plains, Lenora, Goldsmith, Moores Hill, Badgett, Wolcott, Myrick and Valley View. Within the boundary of the planned consolidated district are 400 sections of land creating a valuation of about a half million dollars. Plans are to build a \$150,000 school plant somewhere at or near the center of the district.  
 Electric service will be extended to many additional farms in Howard, Martin, Midland, Glasscock and Dawson Counties during the next three years. O. B. Bryan, manager of the Cap Rock Electric Co-operative, Inc. announced as the cooperative this week began its sixth year of operation. It now serves 1,100 consumers.

and Henry Holmes.  
 C. V. (Cloddie) Shelburne has arrived home on a 40-day furlough. He is a radar man on a destroyer and has been in the Pacific.  
 Traffic lights for Stanton have been ordered. The lights will be placed at the east and west approach to Stanton on Highway 69, in the center of the highway at the railroad crossing on Main Street and in the center of Main Street at the First National Bank corner.  
 John W. Turner of Stanton has been discharged from the U. S. Army. He is the son of Mrs. Cora Turner.  
 R. K. Rogers has been discharged after serving four years in the U. S. Army. He is the son of Mr. and Mrs. D. Rogers.

### Miss Sorley Makes College Honor Roll

Veronica Sorley, daughter of Mr. and Mrs. Floyd Sorley of 601 No. St. Paul, Stanton and a freshman at Howard Payne College, Brownwood, is one of 21 students named to the college's honor roll for the first nine weeks of the first semester with 39 honor points.  
 Miss Sorley earned three A's and two B's during the nine weeks. Students must have at least 36 honor points to make the honor roll.

## THEY WORK HARDER BECAUSE THEY RIDE EASIER!

Because they ride easier they last longer, too. They take better care of payloads and they make a long day's work a lot more pleasant for the driver. All that—primarily because of Independent Front Suspension (I.F.S.). If you think it's stretching a point to attribute that many advantages to a suspension system, you haven't driven a new Chevy with I.F.S. Take the wheel and feel its road-leveling ride, its almost total absence of shimmy and wheel fight, its ease of steering even in the big rigs. Spend hours behind the wheel and you're not nearly as tired. You're not and neither is the truck. That Independent suspension soaks up the worst shock and vibration—the kind that can twist sheet metal and loosen joints and increase your maintenance costs. That's why Chevy trucks keep on working and saving for extra thousands of miles.

## Highlights and Sidelights FROM YOUR State CAPITOL

By VERN SANFORD

Texas will need \$215,000,000 in new money during the next two years to pay its debts and make needed improvements.

This is the conclusion of the State Finance Advisory Commission. To get the money, the Commission is officially recommending a one-percent state-payroll tax as a revenue source that would grow as the state grows. Half the tax would be paid by employers, half by employees.

The Commission made a six-month study of the state's fiscal problems at Gov. Price Daniel's request. It is made up of leaders from the fields of business, labor, and the professions.

As a second choice, the Commission proposed increasing selective sales taxes. Main emphasis, however, was on the payroll tax which, it was noted, both employers and employees could deduct from federal income taxes.

In addition, the Commission endorsed several secondary methods of fattening the treasury. Among them: increasing college tuition, enacting the governor's abandoned property measure, halting refunds of gasoline taxes to non-highway users.

The Commission outlined need for 1961-63 spending increases that would total approximately \$189,000,000. Extra money would go to: (1) public school improvements, including \$400 a year raises for teachers, (2) medical care for the aged, (3) faculty raises in state colleges and universities, (4) expansion of the state hospital and prison systems, (5) increasing legislators' salaries as provided by constitutional amendment, and (6) stepping up the state water program, parks development, tourist and industry promotion and several others.

Besides this \$189,000,000, the state will need an estimated \$70,000,000 to cover the deficit in the general revenue fund. This brings total new needs to \$259,000,000. But the Commission believes increased income from present sources could bring in as much as \$44,000,000, leaving only \$215,000,000 to be raised.

A payroll tax, according to the Commission estimates, would bring in \$217,000,000 in the two-year period ahead.

**HELP FOR RETARDED ASKED** — State Hospital Board has been urged to make another try at getting a new school for retarded children in the 1961-63 budget.

The Board had originally included a request for \$1,500,000 for a school in the Gulf Coast area in its budget, but took it out after budget officials said the Capital budget was too big. Harvey Phillips, president of the Texas Association for Retarded Children, said the school was badly needed. State schools for retarded children have long waiting lists of applicants.

At present the Board is seeking to expand present schools quickly with low-cost housing units. Phillips said the Association recognizes the necessity for this, but feels the state should move toward having smaller schools in more locations.

**BROKERAGE LOANS HELD ILLEGAL** — Austin Court of Civil Appeals upheld a district court decision outlawing a brokerage system for loan companies.

Atty. Gen. Will Wilson, who filed the suit against an Austin loan company and a Corpus Christi loan company, called the ruling "an important victory in the war against loan sharks."

According to the attorney general's charges, people who borrowed money from the Austin company had to pay a brokerage fee to the Austin loan company for obtaining the money from the Corpus Christi company. Appeals court agreed with the trial court that this was an illegal means of charging excessively for loans.

Attorney General Wilson said the

Corpus Christi firm has such brokerage arrangements with about 175 loan companies over the state.

**ADC TOTALS DROP** — Development of a corps of intensively trained case workers resulted in a 17-percent drop in aid to dependent children payments, says the State Welfare Department.

In the past fiscal year the number of families receiving ADC declined from 23,147 to 19,622 for a saving of \$2,105,614. The Department said specialization enabled case workers to help some of the ADC families overcome their problems.

The Department report also showed a decline in the number receiving old age assistance — from 5.29 per cent of the population over 65 to 5.29 per cent. Average monthly check for year was \$52.69.

**SCHOOL LEASES SOLD** — High bids totaled \$5,336,000 as the first sale of drilling rights on Texas school land since the U. S. Supreme Court affirmed state ownership of 10.5 mile-wide tidelands.

Twenty of the 243 tracts on which leases were sold are in the Gulf. Largest individual bid was \$1,091,100 for drilling rights on 1,490 acres in Kleberg County.

Money from the sale will be added to the \$40,000,000 already in the permanent school fund. Only earnings from the investment of this fund may be spent on the schools.

A sale of mineral leases on University of Texas lands has been scheduled for March, but has been postponed.

**LIBRARY LEADER QUILTS** — Guy B. Harrison of Waco resigned as chairman of the State Library Commission amid what he termed "a hodge podge of confusion" over rural library programs.

The five-member Commission has been divided over whether to merge the State Library's Extension Division and the federally financed Rural Library Service.

Stanley Banks Sr. of San Antonio will succeed Harrison as chairman.

**SHORT SNOOTERS** — Court of Criminal Appeals upheld the conviction of a Houston man for using hypnosis to treat illness. A 30-day jail sentence and \$500 fine were assessed in trial court.

Jerry Sadler, who is to become land commissioner January 1, announced he will appoint Tom Stillwell of Palestine as chief clerk of the land office. Stillwell is a former House member.

Abilene State School has failed to follow recommended procedures for keeping track of money, State Auditor C. H. Cavness said in his audit report. Cavness said he had suggested before that one employee open students' mail in the presence of another, removing any money and making a record of it before it leaves

## This Week In Washington With CLINTON DAVIDSON The New Japan

Last summer we reported that some of our friends in Japan did not believe the riots which resulted in President Eisenhower cancelling his visit represented the feeling of the majority of the Japanese people.

A more recent appraisal of what is happening in Japan, and what it means to us, has been written by another long-time friend, Charles W. Doyle, who has lived in Japan for many years.

He reminds us that the difficulties of American-Japanese relations grow out of the fact that each nation's views have been shaped by a different history. The Japanese are fearful of a return to the totalitarian police state that existed before World War II, he points out.

Many of them view the military alliance with the United States as increasing the danger that the Japanese army will again become so strong as to again rule the nation and destroy their new democratic government.

**Not Anti-American** — "It is definitely a mistake to explain the recent agitation as an outburst of anti-Americanism," Mr. Doyle writes. "On the other hand," he cautions, "to attribute it merely to the work of a noisy minority is misleading. Popular sentiment supported the demonstrators in their general aims."

The demonstrations, he contends, were not so much anti-American as they were anti-military. Mr. Doyle emphasizes that we need to understand the reasons behind the riots in order not to jump to the conclusion that Japan is turning against the U. S.

"Americans see international communism as the greatest threat to security, and all of our defenses are alerted in this direction," Mr. Doyle writes. "But the Japanese consider that the greatest menace is from the right."

"To them anything is preferable to returning to the totalitarian police state. This cleavage of thought makes Americans not as acutely sensitive to the signs of resurgent militarism in Japan as we ought to be, and it makes the Japanese somewhat naive in their evaluation of communism."

**Japanese Are Puzzled** — Because of their different background, Japanese find it hard to understand what the true aims of America are, Mr. Doyle says. "On the one hand," he says, "America destroyed the hated militarists; on the other she is now encouraging the creation of a new army. America made the present peace and prosperity possible, but now she seems to be jeopardizing

this by pushing measures that antagonize Russia.

"She gave Japan her constitution with the clause that renounces war, and now seems to be urging disregard of the constitution. She encouraged the Japanese to be politically active, but now freezes upon the political activity of students," Mr. Doyle says.

The article by Mr. Doyle emphasizes as point in our international relations which, it seems to me, is of paramount importance: We Americans need to make a greater effort to understand the viewpoint of others, and to take that into account before criticizing them for not seeing communism through the same eyes as we see it.

International understanding must take into consideration what others think, rather than our own views alone.

## 341 Pay Fines For Violation Of Game Laws

Game law violators paid fines and court costs amounting to \$3,304 for violations during the month of October, according to Capt. E. M. Sprott, director of law enforcement of the Game and Fish Commission.

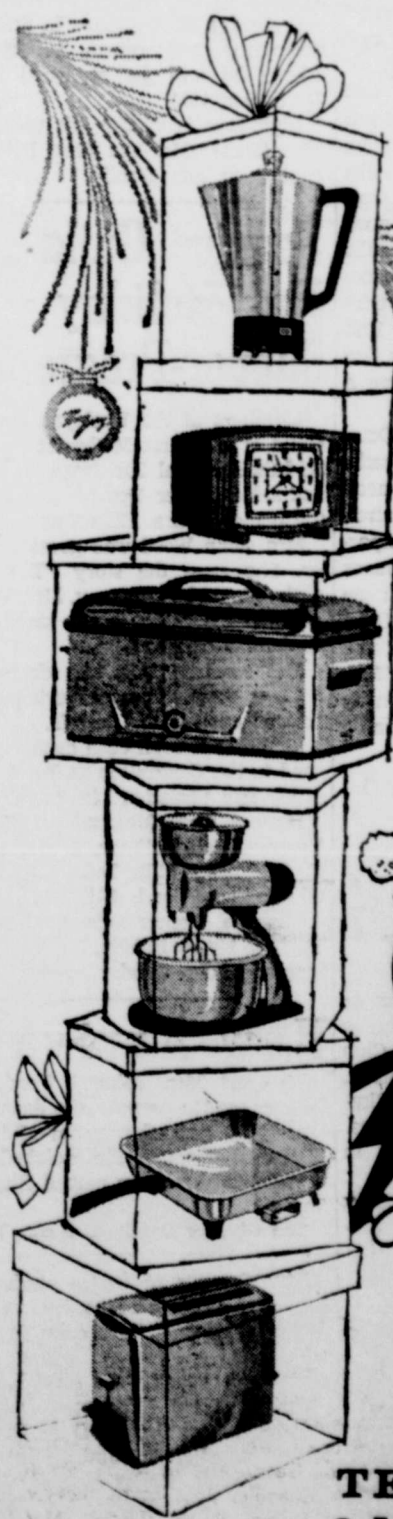

Of the 341 arrests, 102 paid fines for failure to buy their new fishing license, and 47 thought they could get by hunting without licenses. Season jumpers accounted for 37 arrests.

Wardens also made it hard on persons shooting from automobiles, and wrote tickets for 27 for this offense. Despite heavy arrests in recent months of "telephoners," another person was arrested for using an electrical device for catching fish.

## Bird Book Sells

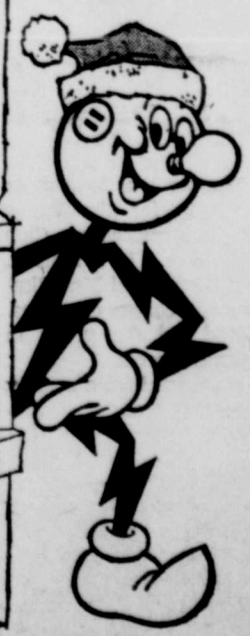

There has been heavy buying of the Field Guide to the Birds of Texas, prepared by Dr. Roger Tory Peterson, for Christmas presents, according to the Game and Fish Commission. These books, listing all the birds of Texas, with many pictures in color, are being sold by the Commission at \$3 each, which is the actual cost of production. The first printing of 25,000 is almost gone.

#### COUNTY OF KENT

Notice is hereby given to all persons concerned that the County of Kent of the State of Texas will receive at the office of the Kent County Judge, located in the Courthouse, in the City of Jayton, Kent County, Texas, up to the hour of 10 A.M. o'clock, on December 26, 1960, oral bids for Oil, Gas and Mineral Leases on the following described property in Dawson and Martin Counties, Texas, to-wit:

BEING all of Labor Seven (7), in League 263, Kent County School Land in Martin and Dawson Counties, Texas; Labor Five (5) in League 264, Kent County School Land in Martin and Dawson Counties, Texas; Labors Four (4), Seven (7), Ten (10), (Kent County owns 1/2 of the minerals under Labor 10); Twenty-Two (22) and Twenty-five (25); League 265, Kent County School Land in Dawson County; Labors Four (4), Five (5), and Six (6), League 266, (Kent County owns 1/2 minerals under Labors (4), (5), and (6) League 266) Kent County School Land, Dawson County, Texas; and containing 1,770.20 acres of land, more or less.

Each labor to be leased separately under separate bids. Each of such leases shall have a primary term of five years, and shall provide for an annual rental of \$177.12 for the privilege of deferring drilling operations, and shall provide for the usual and customary one-eighth royalty on oil, gas and other minerals with a 40 acre pooling provision. Such leases shall be awarded in accordance with the applicable provisions of the Constitution and Laws of the State of Texas governing the leasing of County School Lands.

At the expiration of the time specified for receiving bids, a public hearing will be held in the Commissioner's Court Room of Kent County Courthouse, in the aforesaid City and County. Any bid or bids received will be considered by the Commissioner's Court and the highest bid accepted, provided, however, that said Commissioner's Court reserves the right, if in its judgment the bids submitted do not represent the fair value of such lease, to reject the same.

D. J. YOUNG,  
County Judge, Kent  
County, Texas.

## Public Death Record Down In Wiex Area

"The motoring public of our region are to be congratulated," said Captain Ray B. Butler, Commanding Officer of the 24 county Midland Highway Patrol District today as he reviewed the October 1960 rural traffic accident summary. "Through October, we have recorded four deaths less than for the same period of time last year," Butler said. "And this certainly was not the case a couple of months back, for during the summer months our total deaths was far ahead of last year. Our motorists have done an exceptional good job of driving the last two months which is responsible for this reduction. Through October 1960 111 traffic deaths have been reported. Had they maintained the record of a few months back we would now have a dark year traffic accident-wise."

Nine deaths were reported in October 1960 as compared to 24 deaths during October 1959. 125 traffic accidents were investigated by patrolmen during October 1960 as compared to 174 in October 1959. 95 persons were injured last month with an economic loss of \$92,692.00. In October 1959 94 persons were injured with a property loss of \$187,215.00. Ward County was the only county that reported more than one traffic death during October 1960.

## Mrs. Kemper Hostess To HD Club Party

Mrs. Ray Kemper was hostess to a Christmas party for the Valley View Home Demonstration Club Thursday, December 8 in her home. Mrs. Delmar Hamm and Mrs. Jimmy Sawyer were in charge of games. Mrs. Bill Allred led the group in singing Christmas carols. Gifts were exchanged from a gaily decorated Christmas tree.

## ABOUT YOUR HEALTH

A weekly public service feature from the Texas State Department of Health, HENRY A. HOLLE, M.D., Commissioner

Statistics indicate that this year we can expect approximately 560 Texans to die from injuries sustained in falls. In 1959 there were 395 such deaths—down from 627 in 1958. There is no guarantee that the downward trend will continue.

The sad fact is that these are not injuries to workmen on telephone poles or oil derricks. Except for a few they are mostly same-level falls occurring to older persons. Final tabulations are not available for 1959, but in 1958 a majority total of 429 accidental deaths from falls involved persons between the ages of 70 and 94.

This same pattern evolves year after year. Most deaths occurring among the rest of the age span are also the result of home accidents from falls.

Older people are naturally more prone to falls because of varying degrees of infirmity accompanying the aging process.

However, many home falls are preventable provided a sound plan of battle is followed to combat this number one home-accident killer.

For instance: in stairwells and hallways adequate light must be provided night and day to avoid tripping or missing a step. A lamp or flashlight should be handy for the bedside. Another safety factor is to have hand rails even for a one or two step stairway.

Carelessness with electric cords make ideal trippers for old people and high-heeled ladies. Make sure no cords are exposed in walking areas.

Many a throw rug has thrown someone for a permanent loss. They should be tacked down or have non-slip pads underneath to prevent this all too common accident.

Spilled liquids need to be wiped up immediately. There is nothing slicker than a kitchen floor with bacon grease spilled on it.

Many accidents occur in the bath-

## D. R. Hightower Arrives Home From Africa

PFC. Donald R. Hightower arrived in Stanton Friday from Africa, where he is stationed with the U. S. Army.

Hightower has been in Asmara, Eritrea, Africa for six months. He will spend a 30-day leave in Stanton and then will return to Africa, where he will be stationed until November, 1961.

Hightower is visiting his wife and his parents, Mr. and Mrs. Prentiss Hightower and family.

## Service Guild Has Holiday Supper-Program

Members of the Wesleyan Service Guild of the First Methodist Church held their annual Christmas program and salad supper Monday evening at the home of Mrs. Ellis Todd.

Mrs. John Wood was guest speaker. She gave the story "The Gift of the Magi" by O. Henry. Mrs. Wood also led the group in the singing of Christmas carols.

The serving table was decorated with an arrangement featuring gaily colored candles and angels.

Members brought cash donations to send to the Committee on World Literacy and Christian Literature.

Present were Mesdames Edmund Morrow, Bob Latimer, Leo Turner, F. O. Rhodes, Ellis Todd, Lois Powell, James Eiland, Fiji Brandt, H. J. Barbee, Homer Schwalbe, G. R. Phillips, Harry Haislip, Jimmy Stallings and John Wood.

## New Arrivals

Mr. and Mrs. John Neal Wood of Odessa are the parents of a daughter born at 9 p.m. Sunday in Midland Memorial Hospital. She weighed 7 1/2 pounds and has been named Rhonda Shaun.

The Woodys also have a son, Ken.

Refreshments of frozen sandwiches, potato chips, olives, pecan cake and fruit cake topped with whipped cream, coffee and strawberry punch were served.

Present were Mesdames Delmar Hamm, George Cathey, O. D. Green, W. D. Chandler Jr., Jimmy Sawyer, M. T. Hursh, Rellos Hopper, Marvin Lamb, L. C. Morris, J. T. Mims, Bill Allred, G. T. Baum, and Ray Kemper.

Roy and Stacy Matthis will visit during the Christmas holidays with their parents, Rev. and Mrs. C. R. Matthis. Roy Matthis is a student at West Texas State and Stacy Matthis attends Baylor University.

Kathy Phillips of Muleshoe will arrive in Stanton Sunday to spend Christmas with her parents, Mr. and Mrs. G. R. Phillips. Also visiting in the Phillips' home will be Mr. and Mrs. E. J. Hill Jr. and sons, Keith

and Kirby of Wichita, Kansas.
