WEATHER-RESISTANT INSECTICIDE:

New Bidrin[®] Insecticide penetrates cotton leaves, kills insects from inside out. Control lasts 7 days-rain or shine.

 $B^{\,\text{IDRIN}}$ is a powertul new kind of cotton insecticide. It gives an honest week's control of thrips, aphids, spider mites and fleahoppers. Resistant strains of fleahoppers are also controlled. Bidrin not only kills insects on contact -like ordinary insecticides-but also in a completely new way.

Is absorbed by leaves

Soon after spraying, most of the Bidrin you apply is absorbed into your cotton's foliage. Inside the leaves, where it is protected from rain and sun, Bidrin keeps on controlling insects for a full seven days.

Result: Bidrin Insecticide gives you long residual control of the insects that stunt young cotton plants and delay fruiting-and protects itself against

Bidrin enters foliage, makes it deadly to thrips, aphids, mites, fleahoppers, lygus bugs. The lygus bug above erces underside of leaf, will die even though Bidrin spray hit only on top.

weather at the same time. NOTE: Bidrin also controls boll weevil at time of spraying. It is compatible with most other insecticides.

commission in New York has attributed the long A string of riots, slayings, muggings, robberies, assaults, and general hell-raising in the north by roaming negro bands as the resentment over poverty, unemployment, housing and schooling. There was no mention in the commission's report about honest work, human dignity, self-help, personal will power, being some of the forces and ways of making a better life for individuals everywhere. It has been stated that many of the young are on the government for having been born out of wedlock and the old because they have reached the age of retirement and now that the middle-agers are going to be taken care of under the proposed poverty piggybank who is going to mind the store. Down in Mississippi the other day they passed a law making it a crime to have a second child out of wedlock. We need that law in Texas along with one making any person taking part in a riot, and causing property damage be automatically cut off the government relief rolls permanently. That will get 'em started hunting for a job faster than greased lightning. A recent survey made in Chicago indicated that 89 per cent of the marchers and sit-downers and doorway blockers at one business firm were "on the country." That's what the late SAM RAYBURN used to call people taking aid from the government.

LBJ pulled out all the stops Monday in Washington and broke White House precedent by extending full military honors to visiting Prime Minister LEVI ESHKOL of Israel. Under all other previous presidents TRUMAN, EISENHOWER, KENNEDY, and even ROOSEVELT, this treatment of the red carpet was usually reserved for heads of state. LBJ also advised the visiting prime minister that he could count on a bale of money from our country for the continued technical advancements made in Israel. If JACK RUBY is sane enough to read we hope he has read of the liberal statement by our Chief and understands that nobody in this country is persecuting the Jews.

WICK FOWLER, renowned Texas newsman, col-W umn writer, and former war correspondent wrote this week: "World trouble spots have been narrowed to three - Laos, Viet Nam and New York City's streets." We might add that since the liberal Republican governor of New York, NELSON ROCKEFELLER, has been out campaigning, his home base state has gone to pot. What's that saying about the kettle calling the pot black?

OUR mail brought a warning this week to be on the look-out and alert for the charity fund racketeers. People will do almost anything to attract attention and interest the public in making contributions to individuals who have cast themselves in "do good" roles for the innocent and suffering. Don't contribute to any group, organization, or individual who is raising money for this or that without he has approved credentials by reliable institutions. Better still-if you want to contribute to any good group always found aiding the oppressed and down trodden give it to the SALVATION ARMY. -LP-

Chamber Chatter

Hello, again. Last Wednesday day at 5 p.m this office was alerted to the arrival of Mr. Floyd Rood, who is driving a golf ball from Santa Barbara, Cal. to Miami, Fla. Mr. Rood is publicising his Youth and Sports Foundation, which is designed to train the youth of the country, who are headed in the wrong direction, for constructive work in society. He is accompanied by Maury Downs and Mike Downs, who are filming his trek across the country. They follow him in a trailer in which they camp

at night in roadside parks. Since there are no parks be-

WE visited with PORKY BRITTON awhile one day last week. The young fellow has always been one of our favorites. PORKY appared to us to be improving from injuries received in an auto accident several months ago. He shook our hand and flashed that oldtime smile that was his trademark in days of better health. Our wish is always the best for PORKY. All of his friends feel the same way we do.

THIS has been a busy, trying, but stimulating past week for us. The time to prepare for the West Texas annual newspaper contest was on us with a bang and it takes a lot of reading, working, assembling, selecting, and almost constant concentration to get the entrys prepared for mailing. We were forced to give up some opportunities of going places we wanted to go but after all, THE STANTON REPORTER enjoys the rating and standing it has today because of the kind of newspaper our subscribers, advertisers, and contest judges say we operate. We are proud of that combined opinion.
