with modern light for living ...

The lighting in your home can do much more than merely dispel darkness. Good light in the living room, for example, can add an atmosphere of charm and cheer. It can bring out the beauty of your furnishings. It can make the room a hospitable background for entertaining . . . and an inviting center for your family's leisure hours. To enjoy both beauty and eye comfort in the living room, you need three kinds of light: (1) general lighting for overall room illumination; (2) local lighting at chairs and sofas for close visual tasks; (3) accent lighting for decorative purposes. Your lighting dealer will gladly help you choose the lamps and fixtures you need for modern Light for Living. Or call our office and we'll send a lighting specialist to help you with suggestions.

8-THE STANTON REPORTER, THURSDAY, OCT. 1, 1964

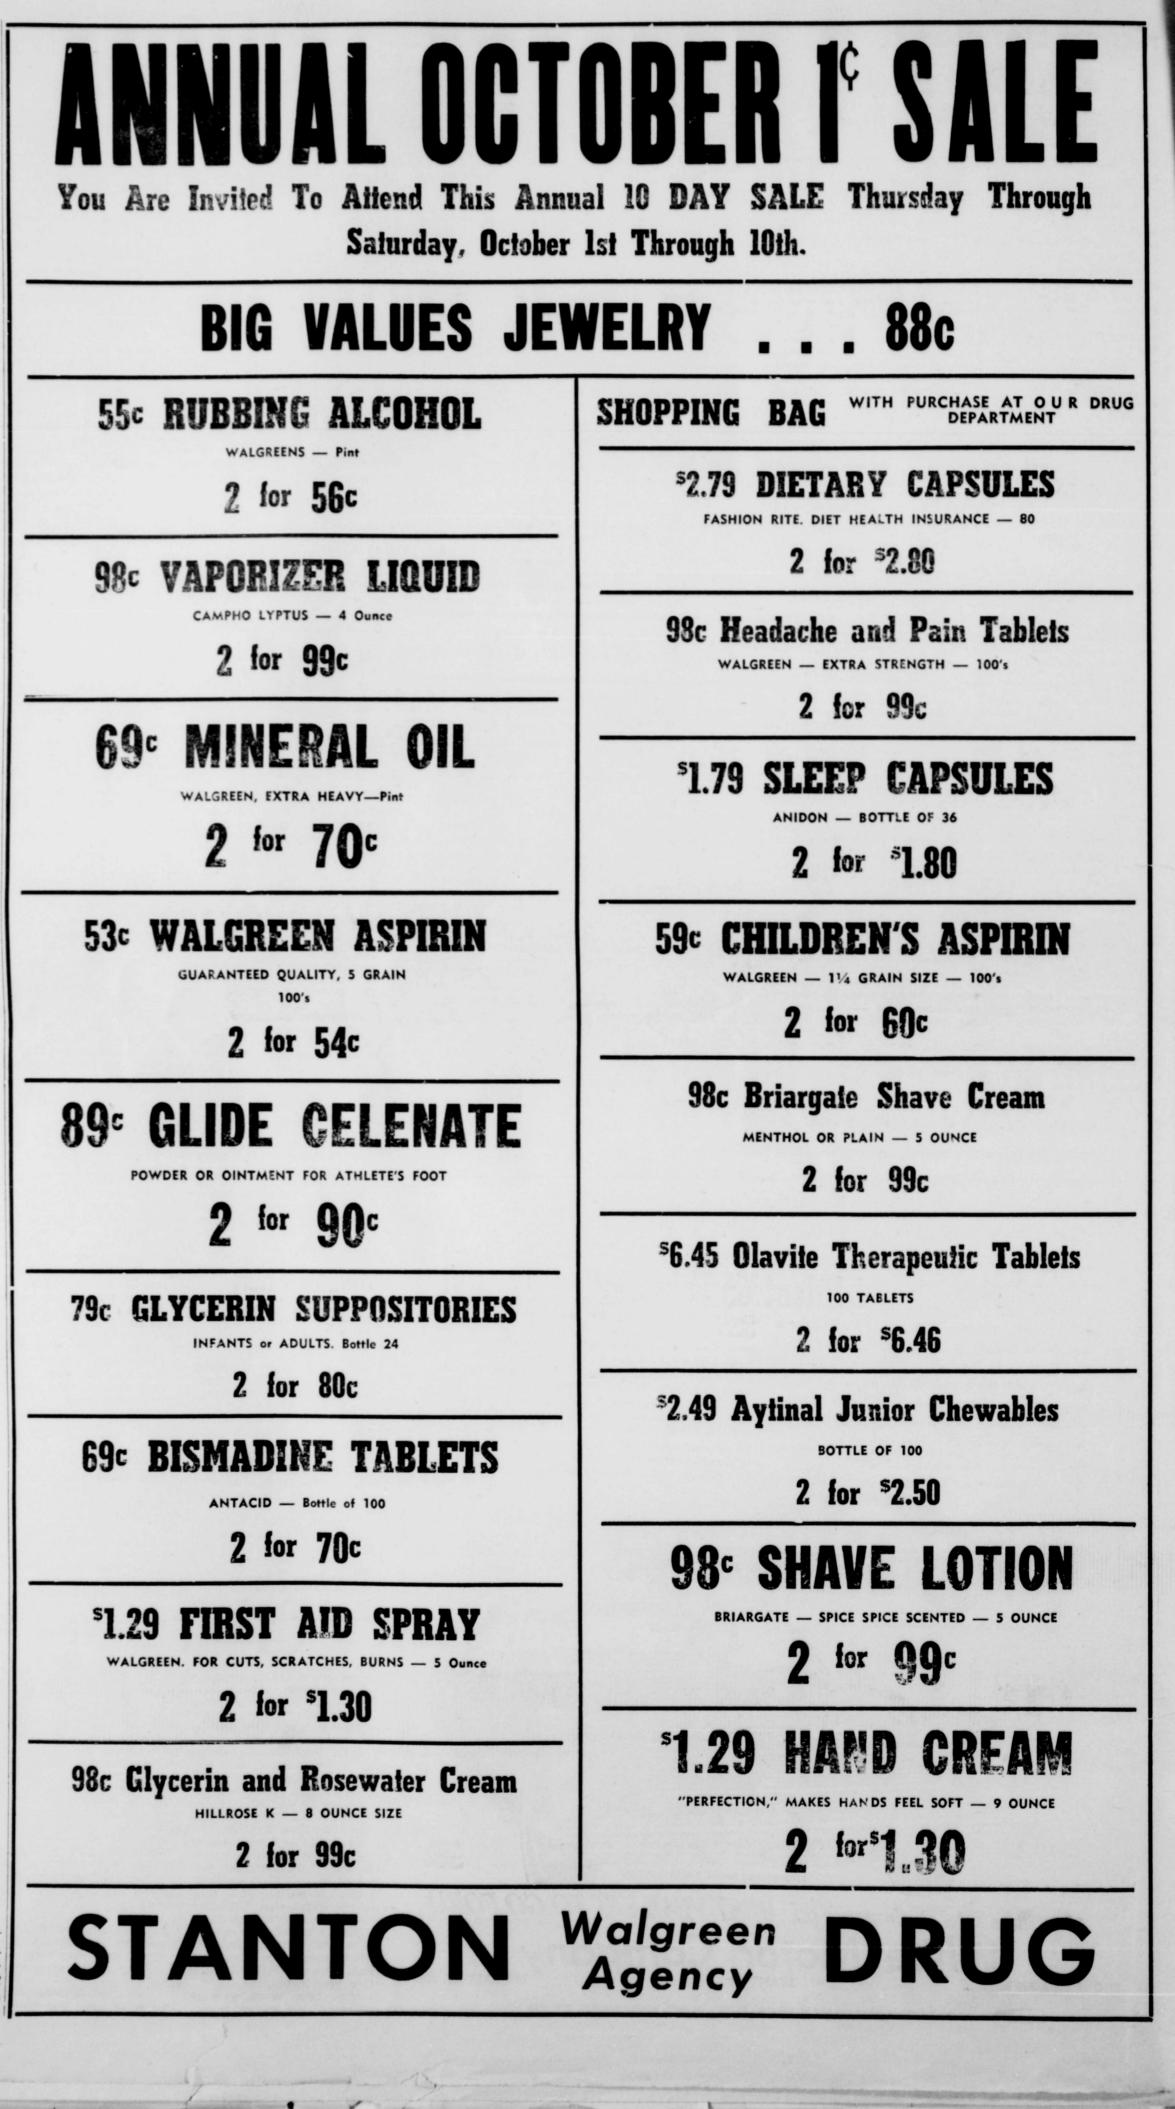

# The Launching Pa

A few days ago, GOLDWATER said: "the pres-tige of the White House should be thrown behind local police in a drive to eliminate violence in the big city streets." This week, LBJ did just that. JOHNSON is to be congratulated on taking the planks from the GOLDWATER platform one-by-one. BARRY said something should be done about Viet Nam and LYNDON ordered our cruisers to shoot back. We did on one occasion and the Communist retreated and went underground for awhile. This has happened on more than one time. We could really have a fine government with LYNDON and BARRY working together-GOLDWATER doing the thinking and LYNDON dramatically putting on the public showmanship he has a natural flair for. LBJ, protege of FDR, likes that high drama - elevated emotion saturated stuff. Remember when FDR paused in the very middle of a fireside, wartime talk, to announce the appointment of young COLIN KELLY, then 2 years of age, to West Point when he attained the age of 21? ROOSE-VELT rode the crest of the high tide of sentiment in honoring the boy a few hours after his dad had died in battle. Is was a heart gripping gesture, but no doubt, LIT-TLE COLIN would have preferred that there had been no war in the first place. A good father is more important to his son than a military appointment of any kind at anytime.

**C**ONGATULATIONS to ARTHUR POSEY, one of the graduates of the POLICE SCHOOL sponsored by Area Four Police Chief's Association and held last week in Big Spring. CHIEF BOB SMITH is a member of the area group. POSEY has always been a dependable officer and with this extra special training will make the town a better officer.

THANKS to you JENDO TURNER for taking time out to express your appreciation to the press for publication of news concerning the 20-County Cancer Meeting held in Stanton Thursday. Too many times people just take for granted that the local paper has a staff large enough to cover all news events happening in the county. It's not so - and we don't claim to be all things to all people like some national politicians we know. Our's is a one-mar staff-lock stock and barrel and all the help we have is from a recently and quickly recruited trainee. In time, perhaps we will find a way to take a few hours off from our duties, but right now, we are working 16 hours around the clock. We might add that MAC McKAY is working even longer than that. We are not complaining-just explaining why we like to hear from women like MRS. TURNER when they think the paper is serving the community well.

W<sup>E</sup> are very sorry to hear of the critical illness of two of our county's long-time residents. Strokes cut down C. E. CROW and REV. C. R. MATHIS during recent hours. Our community was shocked and made sad by the news of the illness of these two men. BRO. MATHIS is in a hospital in Lamesa. MR. CROW in in a hospital in Big Spring. Medical Samaritans are working around the clock to relieve their suffering. Their friends know the power of faith possessed by these two stalwart individuals will bring them through provided it is the will of The Master.

THE inaccuracy of the poll takers, the column writers, the announcers, et al, was plainly revealed this past Saturday on the nation's football fields. Both Mississipi and Oklahoma, placed one-two, by the national pollster were beaten. Oklahoma took a hard whipping from Southern Cal, 40-14. If these results in the world of sports are any indication of things to come, we can all look for another upset in November. As a matter-of- fact, the LBJ corps of newsmen, announcers, and commentators, including some former political hacks, have already wrapped the election up in a big burlap bag in landslide proportions. Yeah, that's what they said when California wasn't supposed to go to BARRY. But he sure cleaned ROCKY'S plow out there. Then they said it again before the GOP convention time-that the Golden Politician couldn't get the nomination. He won wtih 897 votes-great victory. Don't forget, Texas put BARRY out in front and over. If the pollsters knew what your writer knows about the poltical current running right now it Texas, they would catch the next boat to Cuba. This election is going to be the greatest upset in history. It's going to be bigger than the surprise when HARRY TRU-MAN roundly spanked TOM DEWEY.

TES sir, silence is GOLDEN and still WATERS run deep. Put those two axions together and it boils down to GOLDWATER.

\_1 P.

MRS. STANT DAVIS, a very wonderful lady, taiked with us briefly in the drug store the other morning. She advised us that her son, HAROLD, attended the COMMERCE COLLEGE with us, and that he was a CPA and living in Pasedena, Texas now. MRS. DAVIS is one of those fine, sturdy women cut from the type of cloth as my late mother. She is fair but firm in her opinions. MRS. DAVIS is a LYNDON JOHNSON supporter and she doesn't endorse your editor's support of GOLD-WATER. But she thinks we are publishing a pretty fair newspaper outside of our political views and the fact that we need to get more personals in the paper. We promise you, MRS. DAVIS, that after the election in November we will pray for the President daily, be it GOLDWATER or JOHNSON. And too, we'll have more time to get some of those missing personals back in the OLE RELIABLE.

> NEAL'S NUGGET: A GOVERNMENT BIG ENOUGH TO GIVE YOU EVERYTHING YOU WANT IS ALSO BIG ENOUGH TO TAKE EVERYTHING YOU HAVE AWAY FROM YOU.
