By NEAL ESTES

Automobile insurance rates will be increased August 1. Insurance will cost Texans approximately \$55 million a year more. HUNTER McCLEAN, friend of GOV. JOHN CONNALLY, and chairman of the State Insurance Board made the announcement. He said that due to steady increase in both the size and number of claims caused the rise in premium rates. We still contend the last legislature should have found a sensible way to protect the careful driver from being penalized along with the reckless crowd.

The people of Muleshoe finally got their memorial to a mule erected the past Monday. Hundreds helped Muleshoe dedicate a life-size fiberglass statue of a mule as a tribute to that off-contry and cussed beast who had become an unsung hero in America's history. A friend of ours who lives in the Muleshoe area told us recently that not a single mule is to be found in the town today.

One of the main streets in downtown San Marcos was renamed a few days ago in honor of a long-ago student of San Marcos Southwest Texas College. Austin Street was changed to LYNDON JOHNSON DRIVE, and two residents announced that they planned to move as soon as possible, according to information from that town. LYNDON recently designated an old army camp as a beach head to fight a poverty pocket in the area. He made the offer while addressing a graduating class in San Marcos. The suddenness of this type of community "progress" caught the town leaders asleep in the audience at the graduating ceremonies. The town didn't ask for the program—but they reluctantly accepted it.

Texas' war on poverty grew this year from a handful of state programs to a \$20 million package of locally initiated, federally financed projects. TERRELL BLODGETT, director of the opportunity office in Texas under the 1964 Equal Opportunity Act, says: "\$45 million will be budgeted for Texas to fight poverty when the state fiscal year begins in September and the federal government will provide 90 per cent of the money." My friends, the federal government means the people—the taxpayers. It is time that someone started pulling the pretty spread from atop the bed and get down for an examination of the springs and mattress. The old propaganda line that the "federal government will pay, etc" just means and YOU and I are paying the bill.

### Martin County Cancer Drive Exceeds Goal

Mrs. Owen Kelly, Cancer Crusade chairman for Martin County for 1965, reported to The Stanton Reporter this week that additional donations had been received which carried this county \$126 over the goal set.

A special drive was held at Tarzan recently in which \$185 was collected. This brought the total amount received to \$976. The goal, which had been set, was for \$850.

Mrs. Kelly expressed her appreciation to all who gave so generously of their time and money to help make the drive a success in Martin County.

### Chief Smith Submits His Resignation

Stanton Police Chief Robert (Bob) Smith has submitted his resignation to the city council.

Smith offered no reason to the press for his decision to resign. He presented the paper with a copy of his letter of resignation for publication. It follows:

To the Honorable Mayor and City Councilmen, Stanton, Texas.

"I am hereby submitting my resignation effective July 21, 1965. I have enjoyed working for the City of Stanton as police chief, and I am very sorry to have to leave. Thanking you for your consideration, I am, Sincerely yours, Robert C. Smith."

Chief Smith announced no immediate plans for the future.

### Rotary Officers Installed At Night Meeting

New officers were installed Thursday night, July 1, when the Rotary Club met with the Rotaryans for a backyard barbecue supper at the home of Mr. and Mrs. Woodford Sale.

Stanton White, who has served as president for the past year, turned the gavel over to Beryl D. Clinton, the new president. Other officers are Elmore Johnson, vice president; Arthur Wilson, secretary-treasurer; sergeant at arms, Philip White, and program chairman, Floyd Smith. The group was entertained by a quartet from the Stanton Music Club, composed of Mrs. Arthur Wilson, Mrs. Glenn Brown, Mrs. James Jones, and Mrs. Jesse Burns. They sang several selections, including a patriotic number with the entire group joining in.

President Clinton named the committee chairmen who are to assist him. They include International Service, Rev. Victor Ortiz; Community Service, Stanley Wheeler; Vocational Service, Stanton White, and Club Service Activity, Martin Gibson. Coats Bentley was named to edit the club bulletin.

Mrs. Beryl Clinton was again named Rotary Sweetheart, and will serve as accompanist at Rotary meetings.

Guests were Mr. and Mrs. Jesse Burns, Mr. and Mrs. James Jones, and Mrs. Glenn Brown. Rotaryans and Rotaryans present were: Mr. and Mrs. Stanton White, Mr. and Mrs. Martin Gibson, Mr. and Mrs. (Continued on page 5)

### Cities Service Stakes Wildcat Test In Martin

By JAMES C. WATSON  
Cities Service Oil Co. has staked a site for a new wildcat operation in Martin County, the No. 3-K Scharbauer, to drill to 4,800 feet for tests of the San Andres formation 19½ miles northwest of Stanton.

It is four miles east of San Andres production in the Mabey field of Martin and Andrews Counties and spots 660 feet from north and east lines of labor 11, league 324, LaSalle County School Land survey.

Welcome Old Settlers

It is that time of year again to prepare a cordial welcome for our returning Old Settlers to Martin County on July 13 for their annual reunion.

For thirty-two years, editors of this publication, the Ole Reliable Stanton Reporter, have helped roll out the royal red carpet for those distinguished sons and daughters born and reared in the county named for Wylie Martin, Texas patriot.

The illustrious history of this county and its people, have been preserved through the years in the columns of the county newspaper. The Old Settlers Reunion Association is responsible for the annual celebration.

Reunions to the individuals who attend mean going back through the years and lingering long in the lane of memories. Stories, legends and events of another generation, are revived. Fellowship and friendship is rekindled and for a few hours happiness and goodwill cloaks the community.

Welcome home sons and daughters of Martin County for your thirty-second reunion!

### Big Spring Firm Wins 8 Classroom Contract

The Stanton Independent School District board of trustees met Monday night and awarded a contract to the J. D. Jones Construction Company of Big Spring in the amount of \$102,595.00 for building eight classrooms at Stanton elementary school.

Every member of the board was present for the meeting. J. D. Jones and his son, Jimmy of Big Spring, and Olen Puckett, architect, were also present.

Construction of the additional rooms is expected to start immediately. Approximately 165 working days will be needed to complete the buildings.

The classrooms will be of underground location and designed to take care of the

needs of first and second graders.

The school board announced plans to occupy the new facility about the middle of the approaching school year. Supt. Beryl D. Clinton expressed hope that the new rooms would take care of the present condition at the elementary school.

Clinton also gave a report to the board members on a three-day superintendent's workshop which he attended in Austin June 27-30. It was conducted at the University of Texas.

In other action, the board accepted the resignation of Mrs. Joyce Woody, home economics teacher. Mrs. Woody has announced plans to teach at Grandfalls next term.

### Music Club To Present Monday Night Program

"Fun and Frolic Day Before Yesterday" is the title of this year's special musical presentation sponsored by the Stanton Music Club of the Texas Federation of Music Clubs. The program will begin at 7:30 p.m. on Monday, July 12, at the high school auditorium.

Community scenes include such things as "The Last Day of School," "Brush Arbor," "Play Party," "Square Dance," "Fourth of July," "Quilting Party," "Campfire," and "Community Christmas Tree." Special music will be presented before the program and during scene changes.

Dress rehearsal will be on Friday night, July 9.

Mrs. Jesse Burns is in charge of arrangements for the program. This is an annual fund-raising event held in connection with the Old Settlers' Reunion.

All residents of Martin County and surrounding areas are invited to attend the program, which will mark the beginning of the Old Settlers' Celebration.

### Sheriff's Posse Places Third At Pecos Parade

The Martin County Sheriff's Posse took part in the Pecos rodeo parade last Thursday and won third place. This gave the posse their 37th trophy since they began as a uniformed group.

Originally organized as a roping club in 1949, they became a uniformed group in 1953 and since that time have won 13 first-place trophies, 14 second place trophies, and ten third place. They operate as a self-supporting organization, and in emergencies they are on call to help wherever they may be needed. Each member has a horse and trailer at his disposal, and the group has a disaster trailer standing by in case it is needed during any sort of disaster.

Sheriff Dan Saunders leads the group, and they have done very well in competition this year. They won first place at Andrews, second at Big Spring, Lamesa and Rotan, and brought home third place trophies from Sweetwater and Pecos. They also rode in the

(Continued on page 5)

Mark Bentley, son of Mr. and Mrs. Coats Bentley, is working in the printing department of The Stanton Reporter while Roy (Buster) Lamb is on vacation.

Mark will be a junior at Stanton High School when the fall semester opens. He is an honor student, an enthusiastic rock-hound and has participated in many other activities in the school and in his church.

Mark started observing the mechanical operation of the newspaper a few days before taking over in the vacation role and his ability to grasp the composing room and printing task has been remarkable.

We are happy to have him with us and are hopeful that he goes on to develop his talents still further — this time — in the printing department of his hometown newspaper.

### The Mail Box

EL PASO CHAMBER OF COMMERCE

El Paso, Texas 79944  
June 30, 1965

The Stanton Reporter  
Stanton, Texas  
Dear Staff:

On behalf of the more than 700,000 citizens of the "International Sister Cities" of El Paso, Texas, and Juarez, Mexico, we extend to the West Texas Press Association a hearty WELCOME to El Paso. We know The Stanton Reporter will be represented here.

Your hosts are working overtime to ensure the success of the 1965 convention (August 13-14, 1965). Their work and the varied opportunities for amusement, entertainment, and sightseeing available in the International City will, we believe, make your El Paso meeting one that each of you will long remember.

El Paso — the Sun City, the Fun City — is proud that you selected our City for your convention and extends its hospitality to the West Texas Press Association.

Sincerely yours,  
Donald W. Holmberg  
Executive Director

### Stanton Lions Hear Talk By Udell Morris

The Stanton Lions Club heard a talk by Udell Morris when they met for their regular noon meeting Tuesday, July 6, at the Motel Belvue.

Morris described points of interest they visited on their trip which took them to Colorado, Utah, Idaho, California, among other states.

The invocation was given by Rev. C. R. LeMond.

The pledge to the flag was led by Euel Ferguson, and the singing was led by Finley Rhodes. Mrs. Pauline Wood, Lion sweetheart, was accompanist.

Bob Cain, president, presided at the meeting.

### Parade To Highlight Big Event

The thirty-second annual Old Settlers Reunion promises to bring new changes and new interest to the colorful affair.

The big day will be next Tuesday, July 13. Registration of visitors and guests will take place on Monday, starting at 2 p.m. with Mrs. Joe Stewart in charge at Stallings Insurance agency.

### Brown Certified Election Winner

Roger Brown, 28, Big Spring lawyer, was certified Monday as the winner of a June 26 special election for state representative from the 78th District.

Brown was sworn in Tuesday.

In an official state canvass of votes, conducted in Sec. of State Crawford Martin's office, Brown was shown to have 1,381 votes. Frank Hardesty, Big Spring druggist and former Howard County Democratic chairman, received 1,276, and Harold Hall, a Republican, and operator of auto parts store, got 925.

The district has Coke, Glasscock, Howard, Irion, Martin, Reagan and Sterling counties.

The election was called after the May 11 death of Ed Carpenter.

The grand parade will really be something. It will highlight the whole deal and will start promptly a four o'clock p.m. from the First Methodist Church. Floats and cars and horses and a lot of interesting compelling entries will feature the march through downtown Stanton.

The big parade feature of the parade will be the appearance of a "Mystery Rider." It could be male or female, but the spectator identifying the rider will win a nice award.

Judges will also pass out cash for the first, second, and third place prize winning floats entered in the parade. The top winner will draw a \$15 bonus; the second place winner will get \$10 and the third place winner will be given \$5.

At 7 p.m. the reunion will be officially opened at City Park, adjacent to Shelburne Baseball Park, with Bernard Houston acting as master of ceremonies.

The invocation will be voiced (Continued on page 5)

### 4-H Dress Review Entries Judged On Tuesday

The Martin County 4-H Dress Review was held on July 6 at the Cap Rock auditorium. Judging of the entries was held at 9:30 a.m. by Mrs. Norma McGrew and Lillian Kosh, home economists for Texas Electric Service Company in Midland.

Winners were announced at the public review of the group, which was at 8 p.m. At that time, Cindy Britton served as narrator, and the girls paraded across the spotlighted stage, which was decorated with garden flowers.

Mrs. Mildred Eiland, county home demonstration agent, announced the winners. Blue ribbon winners were Lova Beth Stewart, Darla Sawyer, Ann Haggard, Brenda Holloway, Deborah Holloway, Bonnie Hill, Dianna Mims, Judy Mims, Terrylyn Hazlewood, Cindy Pickett, Doris Howard, Deborah Hazlewood, Suzanna Brown, Patricia Haislip, Elizabeth Flanagan, Vickie Graves, Carolyn Holloway, Patti White, and Cathy Hazlewood.

Red ribbon winners were Darlyn Jo Stewart, Carletta Pierce, Rhonda Kuhlman, Janice Haggard and Pam Roper.

Cathy Hazlewood, daughter of Mr. and Mrs. Cliff Hazlewood, Jr., was selected the senior division winner. She modeled a three piece cotton ensemble featuring a red and white striped jacket worn over a white skirt and overblouse. Dianna Mims was chosen winner in the junior division, with her multiple-colored plaid wool skirt and sleeveless jacket, worn with a tan crepe blouse.

Refreshments were served at the end of the program. Cathy Hazlewood and Patricia Haislip were in charge of those arrangements.

Both Cathy and Dianna will take part in the 4-H district dress revue which will be held at McCamey on Thursday, July 15.

### Our Subscription Honor Roll

### Holiday Violence Kills 654 To Shatter Record

The traffic death toll for a three-day Fourth of July holiday weekend soared to a record Monday night as the holiday period ended at midnight.

The total of violent death victims in Texas during the lengthy 4th of July holiday mounted to 654. Twenty-six traffic deaths and six drownings were reported.

Over the nation traffic deaths took 508 lives by midnight Monday — the end of the three-day celebration spree. The highest death toll for any Independence Day weekend was 557 persons in 1957. But that year the Fourth was observed for four days. This year's observance broke the 1964 record which climbed to 504 last year. A spokesman for the National Safety Council said "it's still a possibility that the total could go over the 1964 total."

**Philosopher Comes Out With Plan For Avoiding Grass Mowing Without Hurting Economy**

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw considers the economics of lawn-mowing in his letter this week.)

Dear editor:

On an average weekend during the summer I estimate there must be at least 20 million lawnmowers running in United States, and while it's no concern of mine, the noise doesn't bother me, I can't hear it from out here on this Martin County grass farm, and I don't own one myself, I let a cow do the mowing, it's cheaper, no breakdowns, requires no fuel and you can do it while sitting in the shade on the front porch, still I was interested in an item I read in a newspaper last week while my cow was cut-

ting the grass.

According to it, some scientists have developed a new lawn grass that grows solid but only three inches tall. Stays the same height, no matter how long you let the sprinkler run. Never have to mow it.

I was discussing this with a friend of mine in town who mows his lawn every week and is good at figures and sells lawnmowers.

"Look," he said, "say there are 20 million lawnmowers in this country and they average about \$50 each. That's a billion dollars worth of lawnmowers. Also, they must use

**The Exchange Desk**

MORTON TRIBUNE: "Morton city council heard the May report on water pumped in the city at the council meeting Monday night in the city hall. According to the report 877,850 gallons were pumped per average day with one day going to 1,794,000 gallons. As far as is known this is an all time high for one day's water usage in Morton."

THE FORT STOCKTON PIONEER: "A tired, but pleased group of Fort Stockton Jaycees heard a Monday evening report from Harvey Wells that the club's big effort of the past weekend — the Joycee Carnival — had made a net profit of \$1,777.00."

MATADOR TRIBUNE: "A Matador landmark, the Mission service station at the northwest corner of the courthouse square, is being demolished and materials salvaged. The station long identified with the late Bob Roberston, was built in the later 1920's."

WINKLER COUNTY BULLETIN: "Winkler County Memorial Hospital was hit by a power failure that lasted for nearly 12 hours this week, but had ample electricity for operation of all critical equipment and lights from the institutions auxiliary generator."

THE McCAMEY NEWS: "McCamey ended its 40th Birthday Celebration on a note of success. McCameyites feel it was one of the best celebrations ever held. Out of town visitors numbering several hundreds coming from all over Texas, about seven other states, and one foreign country were on hand to take part in the activities."

THE BIG LAKE WILDCAT: "Jeanne Wright and Margaret Friend, both members of the Reagan County High School 1965 graduating class, are entrants in the Miss West Texas Beauty Pageant in Odessa Saturday, July 3, a part of the festivities celebrating Independence Day."

THE COMANCHE CHIEF: "Billy Albin and Sue Albin have earned the right to enter in the NIRA National College Rodeo Finals to be held July 6-10 in Laramie, Wyoming. They will be accompanied by their sister, Lou Albin. To qualify for the trip, entries had to end the rodeo season as one of the three top individuals in one event or be a member of the two top teams. Top team in the region was Texas A&M, with Tarleton State College coming in second. Billy and Sue qualified on both counts."

at least \$100,000 worth of this country moving forward." After listening to a speech that long, I didn't argue, but he has a point, although an application of modern thinking can get around it.

Let the scientists go ahead and get the grass ready, but don't sell it. Rent it.

Big business half the time doesn't own its big electronic calculating machines. They're rented.

You don't own your telephone, do you? Of course not, you just rent it for so much a month. When you get down to it, most people just rent their automobiles.

Get one of those rented calculating machines to figure up what the average man pays for mowing his lawn, then rent him this new grass on those terms. Add it to his telephone bill. Two billion dollars worth of lawn mowing money will still flow into the economy, nobody will be hurt, the economic index won't waver, and people can sit on their lawns on weekends and enjoy their tax cuts.

Yours faithfully,  
 J. A.

Dr. E. B. Chain, co-discoverer of penicillin writes in Medical World News: "I cannot visualize how the industrial pharmaceutical laboratory could be replaced adequately by any nonindustrial structure. Those who wish to abolish it by nationalization, or to impede its freedom of action, are conjuring a major health hazard. For in the future, the pharmaceutical industry has the potential of surpassing its contributions of the past."

**Bible Comment—**

**Paul Spent Months In Corinth Helping Church**

Athens and Corinth were the two outstanding cities of ancient Greece. Athens had a background of long history of culture and in Paul's day it was the university city of the Roman world. Corinth, which aspired to rival Athens, was the city of commerce. It was noted more for the luxurious living of its inhabitants rather than for its culture.

It was in Corinth that Paul spent one of his longest visits. It lasted 18 months and was his first to the city.

Apparently the church at Corinth was composed mostly of Gentile converts, although there adhered to the Christian way a few noted Jews. There was Crispus, the ruler of the synagogue, and Aquilla and Priscilla with whom Paul lived and worked.

As the Corinthian Church grew in numbers and dissensions appeared, Paul found it necessary to rebuke those who

were fostering the feelings of division. Some of the finest chapters in his Epistles deal with the nature of Christian unity.

Partisans foolishly made certain rivalry seem to grow between the two men. Some people said, "I am of Apollus." Others claimed, "I am of Paul."

Paul rebuked this thoughtless partisanship vigorously. "Is Christ divided?" he asked. "Was Paul crucified for you?" He wanted no glory for himself but he was stirred by these unChristianlike divisions as much as he would be by the unChristianlike divisions of today.

It is not enough to name the name of Christ or to profess fellowship in His name.

"If any man have not the spirit of Christ, he is none of His." This description applies as much to churches as it does to individuals.

**Four Busloads Farm Bureau Leaders To Make Field Trip**

Four busloads of Farm Bureau leaders from all parts of Texas will depart Sunday, July 11, on a 2,300-mile field trip through several midwestern states to gather ideas for building stronger Farm Bureau units in this state, according to an announcement by Texas Farm Bureau President C. H. DeVaney.

Some 145 persons, including key leaders from 83 counties and several state directors and staff personnel, will make the week-long swing through Oklahoma, Kansas, Iowa, Missouri, and Illinois. They will be part of an "Institute on Wheels" involving some 500 persons from three states — Texas, Oklahoma, and Arkansas — who will be conducting a first-hand study of county Farm Bureau structure and operations in the several states.

Some of the counties they will visit have upwards of 3,000 members each (twice the membership of Texas' largest) and have been operating many years longer than any of the county FBs in this state, DeVaney said. The heaviest concentration of Farm Bureau members in the nation is in the Midwest. Illinois, with 193,788 members, is the largest state FB, and Iowa is third, with 92,552, ranks fifth, following Alabama.

The mobile training school, a part of the TFB's "acceler-

ated program of work" for 1965, is being financed completely by the county organizations participating. It and a series of seven regional training schools held earlier are replacing the traditional three-day institute usually held each summer.

A highlight of the tour will be on Wednesday evening, July 14, at Bloomington, Ill., where all of the state delegations will rendezvous for a rally. American Farm Bureau Federation President Charles B. Shuman will speak. The following evening, the group will attend a baseball game in St. Louis between the St. Louis Cardinals and the New York Mets.

Connie Jones of Wilcox, Arizona, is visiting here with her grandmother, Mrs. Lila Flanagan, and her aunt, Mrs. Ed Robnett and family.

Mr. and Mrs. Pruitt Jones and family of Petersburg, spent Sunday with Mrs. J. D. McCreless. Their daughter, Gail Lynn Byrd, remained for a two weeks' visit.

Mr. and Mrs. David Pinkerton and daughter of Lovington, New Mexico, spent the holiday weekend with her parents, Mr. and Mrs. Owen Kelly.

Smart people buy at home and save!

**Nineteen Years Ago**

Juanita and Verla Anderson, and Raymond and Marjorie Moore have returned home from Dallas, where they attended the Stamps School of Music. Mr. and Mrs. Mike Anderson went to Dallas and attended the all-night singing given by the Stamps school at the Sportatorium.

Mr. and Mrs. Phil Berry and Betty, and Mr. and Mrs. Sherman Smith of Big Spring, have returned home from a vacation trip to New Mexico.

Delta Omega chapter of Beta Sigma Phi entertained their families and friends with a picnic in the city park. Attending were Mr. and Mrs. Leo Turner, Mr. and Mrs. Lewis Roten, Mr. and Mrs. John Connell, Mr. and Mrs. P. M. Bristow and Marsha, Mr. and Mrs. Fillmore Epley and Jimmie, Mr. and Mrs. Bill Simmons and son, Mr. and Mrs. J. A. Wilson, Jr., Misses Margie Richards and Sammie Laws, and guests, Mrs. Lenora B. Epley, Mrs. Willingham of Ballinger, and Mrs. Hollis Ford.

Curtis G. Flanagan, who has been serving in the U. S. Navy, received his honorable discharge at Norfolk, Virginia, on June 26 and is home with his parents, Mr. and Mrs. W. C. Flanagan.

Gene Davis, Betty Ruth Gibson, and Sue Patton have gone to Dallas where they are employed as nurses' aides for the summer at the Scottish Right Hospital.

Late last Sunday evening hail fell in Martin County. To the North and Northeast of Stanton, hail destroyed several hundred acres of cotton.

Jack Turner, who has been serving in the U. S. Army almost two years, has returned home from Germany. Mrs. Turner and son made their home in Coahoma with her parents while he was in Germany.

Mrs. H. C. Burnam, Jr. was honored with a miscellaneous shower in the home of Mrs. Noby Hamilton. Hostesses were Mesdames Flora Morris, James Jones, Dee Rogers, Harvey Baker, Jim Webb, Cecil Bridges, H. A. Houston, Noby Hamilton, and Miss Lela Hamilton.

All arrangements are rapidly being completed to entertain the pioneer settlers of Martin County by the Old Settlers' Reunion committee. The Old Settlers' Reunion will be held July 9 in the city park. Officers are Joe Hall, president, and Mrs. Morgan Hall, secretary.

The Stanton Reporter job department printed and delivered this week to John F. Priddy, chairman of the County Democratic Executive Committee, ballots for the primary election to be held July 27. Absentee voting starts Sunday, July 7 and ballots are at the county clerk's office for those qualified to vote and who will not be here on July 27 to cast their vote. There are 1,360 voters in the county this year.

Walter Lippmann writes: "Whether we are dealing with Viet Nam, the Dominican Republic, or with the foreign aid program in general, there is one common problem which is crucial and central for all the many things we are undertaking. It is to find governments that we can support which are reasonably honest, efficient and progressive, and are trusted by their own people."

For all the local news read The Stanton Reporter.

**Red, white, & blue retirement plan**

Sure, you'll have social security. Maybe an insurance plan, company pension and money in the bank to boot.

But buying U.S. Savings Bonds is also an excellent way to prepare for that day when you start taking it easy full time.

If you buy one a month at \$37.50 for 7 1/2 years before you retire, you'll have \$50.00 a month coming in for 7 1/2 years after. (That's just an example. You can adjust the dollars and the years to suit yourself.)

Something else to think about: Bonds can help make sure you'll have a future to retire to in the first place. The money does a lot to strengthen Uncle Sam's hand in the free world.

Why not make it a habit to buy Bonds regularly where you bank, or on the Payroll Savings Plan where you work? See if you don't feel pretty good about it—now and later.

**Quick facts about Series E Savings Bonds**

- You get 3 1/2% more money when they mature (7 years, 3 months)
- You pay no state or local income tax and can defer the federal tax until the Bonds are cashed
- You can get your money when you need it
- Your Bonds are replaced free if lost, destroyed or stolen

# Tower Report

Shortly after the Forth of July holidays the Senate will begin debating the Administration's medical care plan. Since it now appears that the plan is shaped in almost its final form — as far as flood action in the Senate is concerned — I want to give you my thoughts on the matter in order that you may understand my vote when it is cast.

First, of course, there is a possibility that we will be able to attach amendments on the floor of the Senate that will make it more acceptable. But a candid analysis of the situation as it now exists indicates to me that in all probability we will be called upon to cast our final vote on a plan that differs very little from the bill that is now in committee. And that medical care proposal is, to me, completely unacceptable.

I offered in the Senate a bill that I believe is far better than the medicare proposal made by the Administration. My own bill would have provided medical care when and where needed, and it would have given the states more authority and responsibility in running the program. And what is of extreme importance is that my own bill would not have been financed under our Social Security system.

The Administration's Medicare plan, as you know, will be financed through our Social Security system, and, of course, will call for an increased tax burden on all who pay social security. It could, in my estimation, place such a burden on our social security system that the system itself would be endangered. This is the chief danger of medicare. The enormous expense of medicare will push Social Security taxation beyond 11 percent on employer and employee, and perhaps even higher. Even then funds likely will not be sufficient to meet all the promises of care provided for under the bill, primarily because the medicare bill seeks to provide care for persons who do not need it as well as for persons who do need it. In short the Medicare plan provides tax-supported medical care for millionaires as well as the poverty-stricken. I do not believe this is the proper approach. I do not believe we should endanger the Social Security system, on which so many of our senior citizens now depend for their daily necessities — on which increasing millions of our citizens will someday depend — when there is a far better way of solving the problem before us.

Texas is one of the states, for instance, that has a medical care program for our elderly citizens. By and large, it has been well-received by the people in our state. From all the reports I received, it is a well-run program under the administration of the State Department of Public Welfare.

Other states could have this program, or a similar program, if they wished. But many have not seen fit to adopt a cooperative state-federal ap-

proach, because they thought that eventually we should go to a strictly federal program, such as medicare.

Our state program is not perfect, of course. There are areas where improvements could be made, particularly in aid to persons who have long-term or catastrophic illnesses. And it was in these areas that my own medical assistance bill would have been particularly beneficial. But rather than improve upon what we now have, the Administration has taken a radically new approach — in which the cost of the Medicare program is saddled directly to the Social Security system. This means, without question, that young wage earners, just beginning their long years of productive labors, will be called upon to contribute to the tax-supported medical care of the exceedingly wealthy, as well as the poor. This, in my estimation, is not the proper approach, and unless we are able to change it on the floor of the Senate, I shall vote against Medicare.

I am very pleased to report that we were successful, this week, in reversing the Administration's proposal to reduce from \$100 to \$50 the amount of duty-free goods that can be brought back into the United States by our tourists abroad. I felt that the Administration's proposal would have been particularly harmful to Texas, since we share a long border with Mexico and because many tourists from other states pass through Texas on the way to Mexico. Anything we do to discourage this travel is going to harm Texas, and I am particularly pleased that I was able, in some measure, to influence the Senate to turn down the Administration's proposal.

Mexico earns more United States dollars from tourism than from any other single source. Those dollars are used to purchase goods in the United States, and since we sell more to Mexico than we buy, it seems to me that it is just good business to protect our investment.

And beyond that, there is the all-important factor of our good-neighbor policy to be taken into consideration. Without doubt, our trade and cultural ties with Mexico are of benefit to both our countries. This would not have been benefited by the Administration's proposal to restrict the amount of duty free goods that could be brought back from Mexico. I am very happy that we were able to maintain our relations as they are now.

## Lenorah 4-H Group Meets At Clubhouse

The Lenorah 4-H Club met Thursday, June 17 in the Home Demonstration Clubhouse in Lenorah.

Members attending were Ann Haggard, Beth Holcomb, Deborah Holloway, Janice Haggard, Deana Holcomb, Bonnie Hill, Brenda Holloway, Darla Sawyer, and Charlotte Martin.

Mothers attending were Mrs. Bob Hill, Mrs. E. D. Holcomb, Mrs. Glenn Holloway, Mrs. Jimmy Sawyer, and Mrs. Mildred Elland, home demonstration agent.

Some of the girls worked on dresses they are making for the dress review, while others did embroidery.

Mrs. Elland explained how to start and keep a record book.

Alford and Jimmy, Palestine; Mr. and Mrs. Wendell Thomason and daughter from south of Stanton, and Mr. and Mrs. Tom Estes and family from near Patricia. They all enjoyed a delicious lunch on July 4th at the ranch home of Mr. and Mrs. Estes.

Mary Jo Hufferd, Yakima, Washington, accompanied by her parents, Mr. and Mrs. Charles Hufferd, visited in the home of Mr. and Mrs. Carl Leonard, Jr., the past two weeks.

## Murder Rate Increasing But Capital Punishment Fading

Capital punishment is as old as the cup of hemlock, and the crimes for which it has been imposed range from murder to consorting with gypsies.

Last year, 9,270 men, women and children were murdered in this country. Only 15 murderers were executed. Thirty years ago, in 1935, 199 criminals were executed, from a much smaller population.

Legislation to do away with capital punishment has made a lot of headway in the country — even in view of the rising crime rate. The recent adjourned Texas Legislature had the "fair-haired" boys who wanted to legislate it out of business. Every name of everyone of them ought to be announced and their names published in every newspaper in Texas.

Just a few hours ago we here in West Texas saw a good sheriff shot down by a culprit who had no cause to pull the trigger on a peace officer out trying to protect a member of society who had summoned him to the scene. Incidentally,

## Patients Admitted Week of June 28 Through July 4:

Sandra Adele Morris, Mrs. Allie Schuelke, Mrs. Marcelle Graham, Mrs. Philippe Saenz, Mrs. Viola Parker, Mrs. Bertha Burnam, all of Stanton; Mrs. Rhoneta Jean Matthews, Mrs. Doris Grun, and Mrs. Marie Clemmons, Odessa, and Leonard Thomas Ward, Midland.

## Funeral Rites For Aunt Of Stanton Woman

Mrs. Viola Elizabeth Tyler, 82, died at 3 a.m. Friday, July 2, at the Medical Arts Hospital in Brownwood. She was an aunt of Mrs. Edna Davidson of Stanton.

Funeral services were held at 3 p.m. Saturday at the First Baptist Church in Cross Plains with the Rev. Charlie Myrick, pastor at Sipe Springs, and the Rev. Roger Butler, pastor, officiating.

Burial was in Rising Star Cemetery under the direction of Higginbotham Funeral Home.

Mrs. Tyler had lived in the Cross Plains area for 42 years. She was a member of the First Baptist Church.

Born July 27, 1882, in Eastland County, she was married November 5, 1902 in Eastland County to Nathan Tyler.

Survivors are two sons, Oscar of Cross Plains, and Ray of San Antonio; two daughters, Mrs. Juanita Rhodes of Cross Plains, and Mrs. Irene Morris of Dayton; 11 grandchildren, 17 great-grandchildren, and four great-great-grandchildren.

Mrs. Davidson and her grandson, Jerry Baugh, attended the funeral from Stanton.

## Editorial - - - No Guarantee

There's an old saying that once a fellow gets on the federal payroll it's almost impossible to fire him.

A member of Congress even went so far as to say that in order to get rid of a government worker you have to catch him committing murder on the front steps of the Capitol.

Fortunately, a recent report from the Civil Service Commission proves that this isn't exactly true. Last year, the Commission says, a total of 8,800 federal employees were dismissed for cause.

Despite the red tape and complicated procedures that protect government workers, it still is possible to eliminate inefficient ones. That's the way it should be, of course. A guarantee shouldn't go with a federal job any more than with a job in private business or industry.

Taxpayers should be relieved to know that Uncle Sam has a business-like philosophy in this regard. With millions of people on the government payroll, it would be too bad if he didn't.

## Tips For Outdoorsmen

### WORM FINDER

Take a bundle of hay and spread it where the earth is low and moist. Stomp down well. Toss some coffee grounds

into the pile from time to time. Now when you want worms, you know right where to find 'em. They'll be under hay.

### CARP BAIT

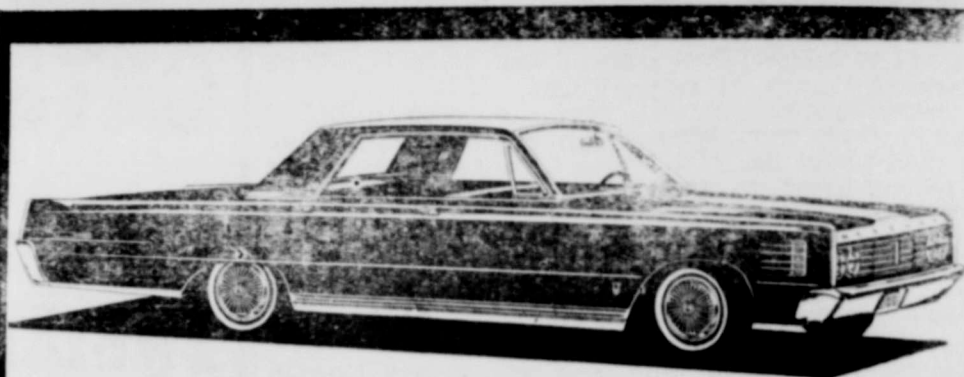

Make regular corn cereal into a moist dough, sprinkle with cinnamon, add a slight amount of cotton for body and roll into inch-size balls. See if that isn't the best carp bait

### MASKING TAPE

A small roll of masking tape in your pocket will perform many chores. Seal small boxes, tape cuff legs, mark legal fish length, hold small reel parts. Can you add a few?

**Veterans Administration**

(Editor's Note: Veterans and their families are asking thousands of questions concerning the benefits their Government provides for them through Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.)

Q — Are members of veterans' families admitted as patients to VA hospitals? A — Not unless the members are also veterans in their own right. VA hospital care is for veterans only except, naturally, in cases of emergency that happen in the vicinity of the hospital. Q — Can World War II or Korean Conflict veterans get college or similar educational training under the law? A — The educational programs for both World War II or Korean Conflict veterans have come to an end. The only educational program now being carried on by VA applied to the children of deceased or totally disabled veterans. Note: Vocational rehabilitation of veterans with service-connected disabilities is a permanent program still going on and is not to be con-

cluded with the educational programs. Q — I was retired from the Air Force because of disability in December 1964 after 3 years service. Will I be eligible for the National Service Life Insurance which went on sale May 1? A — No. This insurance is available only to disabled veterans who had service between October 8, 1940, and December 31, 1956. You might be eligible for a special type of insurance available to veterans with disabilities incurred in service after April 25, 1951. You would have one year after the VA notifies you that your disability is service connected in which to apply. Mr. and Mrs. P. M. Bristow and Mr. and Mrs. Glenn Gates spent Sunday in Stanton with Mr. and Mrs. Hughlyn Todd. Mrs. Todd is the Bristow's daughter. They were joined by Gay Gates, a student at Texas Tech in Lubbock.

## Sterile Flies Working In Sterling, Glasscock

Prompt action by the Southwest Screwworm Eradication Program has put under control the outbreak of screwworm cases in Sterling and Glasscock counties.

"We began emergency measures as soon as the first case was confirmed the week of June 14-19," said Delmer Deterling, information specialist for the Southwest Screwworm Eradication Program in Mission.

Emergency measures include dropping about 100,000 sterile screwworm flies by airplane over the infected area, inspection of livestock by Texas Animal Health Commission inspectors and spraying by the inspectors of infected animals and other livestock near them.

The basis of the program is the watchfulness of individual livestock producers. When worms are found in a livestock wound, samples are collected and sent to the program's laboratory in Mission. Containers for this purpose are provided all ranchmen and farmers by the program.

The Mission lab puts the larvae under microscopes to determine whether they are screwworm or only common blowflies or fleeceworms. If the sample turns out to be screwworm, an inspector moves in immediately.

He maps out the co-ordinate where the confirmed case was located, and communicates the location to the pilot who will drop sterile screwworm flies in the area.

The inspector then checks out the farm or ranch where the case was located and proceeds to check adjacent properties. If he deems it necessary, the inspector sprays all cattle near the infected one.

The air drop continues — 100,000 sterile screwworm flies per week for at least three weeks.

Individual livestock producers and the inspectors stay on the alert looking carefully for new cases.

This program has been effective in the current West Texas outbreak.

"Sterling County is one of the hotter spots right now," said County Agent Arthur Barlemann Jr. of Sterling City. "We've had a total of 15 cases confirmed since the 14th of June."

But Dr. James Henderson of Coleman, area veterinarian for the Texas Animal Health Commission, has been hard at work with his inspectors in Sterling County.

"Both the eradication program and the Animal Health Commission and the ranchers have been most cooperative," said Barlemann. "They're going out after it, inspecting and spraying the cattle. They'll get it under control."

"They cleared it up all right in 1963."

Glasscock County has reported five screwworm cases in the last couple of weeks, all of them along the North Concho or its tributaries. Area veterinarian Dr. R. M. Zirkle of San Angelo has been at work with his inspectors, according to Glasscock County Agent Oliver West of Garden City.

"They've been dropping flies and spraying cattle in the pastures where they've found screwworms," West said. "An inspector told me they were making weekly drops all along the North Concho."

West, too, expects the outbreak to clear up soon.

"The weather's had a lot to do with it," said Barlemann. "We've had a few weeks of rain and high humidity — all that's in favor of the screwworms."

The screwworm flies seem to like a cool, damp environment, which is probably why they broke out along the river, according to Delmer Deterling of the eradication program.

How did they get to the North Concho in the first place? "We don't know how they go this far north so soon,"

## Area Riders Join Headin' West Group

The Headin' West Trail Riders had nine members from Stanton and Martin County when they made their much-publicized ride from Andrews to Pecos last week. After observing sunrise church services Sunday morning, the group began their westward ride. On Wednesday at about 5:30 p.m., four days later, they arrived in Pecos.

There were 87 riders and two covered wagons on the trail, and the riders covered about 114 miles on horseback. They camped Sunday, Monday, and Tuesday nights, making their camps at Goldsmith, Kermit, and Wickett.

Matrin County riders were Hugh Lawson and his son, Glenn, Randy Huckaby, Johnny and Jimmy Miller, and Mike Anderson of Stanton; Leroy Mattingly, his son, Randy, and Raymond Kingfield of Tarzan.

The group entered the Pecos Rodeo parade, which was held at 10 a.m. on Thursday morning, and attended the rodeo that evening, before returning to Stanton.

Barlemann, "and the Mission people don't either."

Deterling thinks he knows, however.

"Those flies were obviously migrants from Mexico," he declared. He explained that there were no U. S. cases reported in February or March, which indicates that screwworms in this country had been pretty well wiped out.

"The first cases this year were in border counties," Deterling said, "and we can trace them fairly well as counties farther north reported cases."

Experiments have shown that a screwworm fly can migrate as far as 180 miles in 11 days.

"In order to completely wipe them out, we are going to have to get to the source — Mexico," said Deterling. Some eradication work is being done in that country, but it is not as extensive as that in the United States.

Officials of the Southwest Screwworm Eradication Program express pride in what they have accomplished in three years.

"At this time in 1962 there were 50,000 screwworm cases in the Southwest," Deterling said. This year only 225 have been reported.

"As long as the livestock producers stay alert and do not neglect preventive measures, we'll do all right," said Deterling.

"But," he cautioned, "now is not the time for the ranchers to relax."

Water remains very much in the spotlight over the state. As June ended, cattle were in better than average condition, says the U. S. Department of Agriculture. Pastures and ranges continued to furnish good grazing and rising cattle prices have resulted.

On the High Plains heavy showers boosted range prospects, but grass growth was slowing in many areas because of high temperatures which sapped soil moisture.

In the Trans-Pecos ranges some farmers and ranchers were forced to begin supplemental feeding.

Some farmers have been combating the rain problem by irrigating their crops. A joint study by the USDA, the Texas Water Commission and the State Soil Conservation Board indicates that irrigation in Texas rose significantly from 1958 to 1964.

Amount of water used increased nearly one third, to 12,500 acre feet or an average of 18 inches per irrigated acre.

Amount of irrigated land increased by about 15 per cent during the six-year period. Much of the gain occurred in the High Plains — in the upper parts of the Canadian, Colorado, Brazos and Red River Basins — but some of it also was in the basins of the Rio Grande and Nueces Rivers.

By next September studies to show how much water will be available in 2020 from Texas reservoirs and ground water strata already in use will be complete.

Then will come the job of finding additional sources to match yields to needs. This will involve searching for new surface water supplies as well as desalination of poor underground water.

When in-basin sources are checked out against the needs of each river basin, the planners expect to find some of the heavy rainfall regions will have more water than they will need, even to 2020, while other will not have enough.

Then, the question will be: where to take the surplus? — \$100,000,000 Surplus — State government will begin the new fiscal biennium with a surplus of nearly \$100,000,000. But it will wind up with a balance of only \$4,200,000, according to estimates of the Governor's budget office.

In a recap of legislative spending, Gov. John Connally's staff totalled all appropriations at \$3,700,000,000, of which \$622,900,000 will come from general revenue. (Vetoes by the governor of \$2,600,000 from the spending bills are deducted.)

Figures put state cost of the average \$553 teacher pay raise at \$70,600,000,000 for the two-year period beginning September 1.

Total new revenue provided by the 59th Legislature will come to \$82,500,000, according to revised figures. Biggest portion of this comes from the three-cents-a-pack increase in the cigarette tax.

Hospital Transition Under Way — Texas' vast system for treating the mentally ill, mentally retarded and victims of tuberculosis is entering a vital transition period.

On September 1, realignment and reorientation of these facilities and services, as enacted by the 59th Legislature, will go into effect.

Separation of the tuberculosis hospital treatment program from the mental health and retardation services and consolidating it with the State Health Department, which now handles case finding and follow-up work.

Abolishing the existing hospital board — general policy-making agency for mental and tuberculosis hospitals and special schools for the retarded — and creating a new Department of Mental Health and Retardation. A new, nine-member board will replace the present Board for Texas State Hospitals and Special Schools.

Sweeping new concepts of care, spelled out in recommendations of statewide study committees named by Governor Connally, are expected of the reorganization.

Auto Insurance Hikes — Auto liability insurance rates will increase an average of 14.4 per cent on August 1. Rates will vary widely in the 26 rating areas in the state.

However, some coverages will go down in cost, by as much as 17 per cent. These

policies are for insurance losses not connected with accidents — such as fire and theft.

State Board of Insurance says it has carefully reviewed the loss data forming the basis of the range changes and finds that the new rates will be "adequate and reasonable as required by law."

In another area of insurance, Texas companies have had more than \$15,000,000 worth of claims from hail and storm damage. By this time last year, \$9,000,000 had been paid in such claims. Biggest blow came from the Wichita Falls storm of May 27.

Boundary Committee Named — Governor Connally has named a seven-member committee to negotiate with Louisiana in an effort to settle a long-standing dispute as to the Sabine River boundary between the two states.

Connally appointed his executive assistant Larry Temple, Land Commissioner Jerry Sadler, Atty. Gen. Waggoner Carr, Sen. Martin Dies Jr. of Lurkin, Sen. Jack Strong of Longview, Rep. David Crews of Conroe and Rep. Charles Wilson of Lufkin.

Recommendations as to location of the boundary line will be submitted to the state legislatures and the Congress of the U. S. for ratification.

Louisiana has claimed the boundary is the west bank of the Sabine. Texas maintains that the center line of the river is the correct line. Ownership of the area south of the mouth of the Sabine also is in dispute.

Valuable oil and gas are at stake.

Tourist Attractions Praised — University of Texas Bureau of Business Research credits tourist attractions with helping to keep the level of Texas' economy above last year's during the first five months of 1965.

However, business activity dipped 4.4 per cent in May.

January - May average index for 1965 was nearly 20 percentage points above the average for the same months in 1964. Bureau says there is "every indication" this will be a good year for the travel industry in Texas.

Hospital Funds Short — State Board of Health has 65 applications for federal Hill-Burton hospital aid funds totalling \$38,000,000 but expects an allotment of only about \$14,000,000.

Hill-Burton funds assist communities in building and equipping non-profit hospitals and related health facilities.

Allocations of the 1966 funds are expected in August.

Many applicants will not receive Hill-Burton money during the coming fiscal year, warns Jr. James E. Peavy, State Health Commissioner.

## School Checks To Be Made

Texas Education Commissioner J. W. Edgar served notice on local school officials that the Texas Education Agency will check complaints resulting from the Civil Rights Act.

Periodic reviews also will be made by TEA to ascertain whether or not districts receiving federal aid are abiding by non-discrimination rules.

Formal complaints will result in a hearing before Edgar, appealable to the State Board of Education and the courts.

## SHORT SNORTS

State Banking Board denied applications of Denison Bank and Trust Company and American State Bank of Pasadena. An application by the Frontier State Bank of Eagle Pass has been filed.

Third Court of Civil Appeals has held an oil company may redrill and straighten slanted wells in the East Texas field.

House Speaker Ben Barnes named five Dallas representatives to survey cost of modernizing State Fair of Texas facilities in Dallas.

Parks and Wildlife Commission will meet on July 16 to review local hearings in 149 counties now under the game and fish regulatory responsibility program. Special meeting will be held later to set rules for 34 counties and areas added to the regulatory program by the 59th Legislature.

Governor Connally has announced approval of application of the Wintergarden Tri-County Committee, Inc. for a \$9,445 community action program to combat poverty in Maverick, Dimmit and Zavala counties.

Only 10 of the state's parks will benefit from a capital improvement budget of \$1,900,000 provided by the General Appropriation bills.

A snake's tongue is a sense organ for touch and smell, not "for stinging."

# Editorial . . . 'Communist Line'?

A special committee of the Alabama Legislature has had no trouble in finding that there is an almost "line for line" similarity between current methods of the Communist party and its fronts and those of the extremist "civil rights" organizations.

Proving charges that the latter are "Communist-inspired" is something else again. Liberal Atty. Gen. Nicholas Katzenbach, for one, is certain that there is no connection in leadership.

However, there can be no argument

about the results of the bulk of the activities of the Congress of Racial Equality, the Student Nonviolent Co-ordinating Committee and the Southern: Christian Leadership Conference.

The Communist party is indeed well-served by those who promote racial violence, disrupt schooling, riot in the streets, encourage law-breaking and defiance of court orders and urge disrespect toward the Government and toward law enforcement agencies.

Regardless of who claims the "line," there it is. —Lubbock Avalanche-Journal

Mr. and Mrs. Neil Fryar, Danny and Stevie Don of Lomax, and Mr. and Mrs. Larry Shaw, Linda and Larry Don of Big Spring, made a trip to the Sonora Caverns last weekend.

Mr. and Mrs. P. M. Bristow and Mr. and Mrs. Glenn Gates spent Sunday in Slaton with Mr. and Mrs. Huughlyn Todd. Mrs. Todd is the Bristow's daughter. They were joined

there by Miss Gay Gates, who is a student at Texas Tech in Lubbock.

David Fisher of Snyder, is spending a few days with his grandparents, Mr. and Mrs. Herman Fisher.

Sammy Houston is a patient at Malone and Hogan Hospital in Big Spring.

## Family Reunion Honors Visitors

A family reunion honoring Mr. and Mrs. John Anderson, Elaine, Janet, Jack, and Dean, of Spartanburg, South Carolina, was held Tuesday evening, June 29, at the home of Mr. and Mrs. Mike Anderson.

Those present were the honorees; Mrs. Ivy Anderson, Big Spring; Mr. and Mrs. Bill Anderson, Lamesa; Mrs. Allie Barnett, Ellmore City, Oklahoma; Mr. and Mrs. A. L. Lindsey and Don and Deborah Robinson, Midland; Mr. and Mrs. Jess Miles, Mrs. Arlie Murphree, Mr. and Mrs. T. W. Haynie, Mr. and Mrs. Richard Doggett, Darla and Dinah, all of Stanton.

The group enjoyed a barbecue supper, and music which was furnished by Tom Castle and Arnold Loyd of Ackerly, Joe Dunn of Big Spring, and Mr. and Mrs. Miles.

Jack Ireton left Monday to attend a Ford salesmanship meeting in Dallas.

## Hoover Says Another "Long, Hot Summer" Due To Arrive

FBI Director J. Edgar Hoover sent the following statement to all law enforcement officials in this area and to the newspapers this week. His text appears below:

We can expect the coming weeks to present a stiff challenge to law enforcement. Predictions are prevalent throughout the country for a "long, hot summer" because of anticipated increases of disturbances and violent crimes.

We would hope the prognosticators of these ominous conditions are wrong; we would hope that a record-breaking summer of strife and lawlessness can be averted. But in addition to the annual seasonal increase of summertime crime — crimes of passion and violence — we can also expect difficulties and violations connected with protest marches and demonstrations occurring across the Nation.

Law enforcement officials know from experience that carelessness by the individual citizen is one factor in crime causation, especially during the summer. The relaxed atmosphere and carefree living are conducive to enjoyment and pleasure, but they also provide the criminal more opportunities to strike.

Each summer, countless Americans unwittingly conduct "open houses" for thieves. They depart for vacation sites without providing proper protection of their homes while away. On return, they are aghast to find their dwellings ransacked and valuable property stolen. A few simple precautionary measures to secure the premises and leave them with an "occupied" appearance often discourage and prevent burglaries.

Watch for spot prices in the weekly ads.

## Tax Man Sam Sez:

The Automatic Data Processing of tax returns has captured the imagination of the American taxpayer. Internal Revenue reports that millions of dollars have been paid by taxpayers who conveniently forgot to file a tax return until they got skereed that the machine was going to get them. Most of us take this modern life — including the data processing machines — in our stride. Of course we would likely tell Internal Revenue that we were perturbed if the machine made a mistake and sent us a bill for a million or so. This sort of thing can and will happen, but most of us can cope with the machine simply by putting our correct social security number on our tax return at 11:00 p.m. on April 15.

## Car-Scooter Crash Kills Ackerly Youth

A 12-year-old Ackerly youth was killed almost instantly late Saturday when a motor scooter on which he was a passenger collided with a pickup truck one mile north of Ackerly.

Dead at the scene was Victor Gomez, a student at Ackerly, who was riding on a motor scooter driven by Jesus Menjarez, 17, of Ackerly, a farm laborer.

Menjarez was rushed to a Big Spring hospital and the extent of his injuries was not immediately determined.

The Department of Public Safety said the collision occurred at the intersection of U. S. 80 and FM 2212.

Driver of the truck, Alvis Truman Pickett of Brownfield, was not injured.

Funeral services for Victor Gomez, 12, were held Monday at 3 p.m. in the Baptist Mission Church in Ackerly.

Officiating was the Rev. Isaac Longoria. Interment was scheduled in the Ackerly Cemetery with funeral arrangements under the direction of Branon-Phillips Funeral Home in Lamesa.

The two youths were returning from church when the accident occurred.

Survivors include the parents, Mr. and Mrs. Pablo Gomez, who live on the Jack Griggs farm seven miles north of Ackerly; seven sisters, Mary Louise Gomez of Amarillo and Juanita, Fannie, Helen, Eida, Antonia and Emelia Gomez, all of the home, and two brothers, Joe Jr. and Richard Gomez of the home.

## Air Force Officer Promoted

Thomas Leon Payne, son of Mr. and Mrs. Leo Payne of Route 1, Stanton, has recently been promoted to the rank of major. He is presently serving in the Air Force in Viet Nam.

Payne has been in service for 12 years, and has been in Viet Nam since last August.

He is married, and his wife and two children are living in Fort Worth.

## Girl Scouts Day Camp Concluded

Approximately 110 Girl Scouts of the Big Spring, Coahoma and Stanton area participated in a 5 day session of day camping recently. The camp, "Camp Morita" was conducted at the site of the old Quinn Ranch, through the courtesy of Gordon Stone.

Director of the day camp was Mrs. J. D. Poe of Stanton. Mrs. Lester Goswick of Big Spring was the registrar and business manager. Mrs. John Currie of Big Spring was the camp nurse.

A highlight of the session was a visit by two Colombian Girl Guides, Carman Land and Cecilia Davila. They were accompanied by two Senior Girl Scouts, Judy Bell and Cathy Dodson, from Abilene, who are hosts to the Colombian girls during their visit to the West Texas Girl Scout Council. All four will be a part of two patrols from this council to attend the Girl Scout Roundup in Idaho in July. The Colombian Guides are visiting Girl Scouts in the council during their three week visit.

Other activities included setting up unit homes, learning knot tying and lashing, nature study, hikes, games, singing, cookouts, sketching, making leaf prints on blue-print, laying and following trails and learning other camping skills.

Other adults assisting were Mesdames Harold Morgan, Henry Thames, D. J. McGuire, John H. Day, Eldon Byrd, Robert Steger, Raymond L. Garner, and David Roberts from Big Spring. Mrs. James Fryar from Coahoma, Mrs. Franklin Lowe from Sand Springs, and Mrs. Billy Vaughn from Fort San also assisted. From Stanton were Mesdames Stanley Barnes, J. B. Mashburn, R. P. Odum and John White. Supervising the young sons of camp staff was Scoutmaster Lester Goswick of Big Spring.

Mrs. Charles Ebbersol returned last week from a three-week visit in Dallas with her daughter, Miss Lela Boyd. Miss Boyd brought her mother home and remained for a weekend visit.

## The Launching Pad

By NEAL ESTES

THREE band leaders who made reputations during the "Roarin' Twenties" have been heart attack victims in the last two months. Those who have passed on are: SPIKE JONES, RED NICHOLS and CLAUDE THORNHILL. The syncopated rhythms of these famed musicians set toes tapping across the country at the height of the big band era in the late '30s and early '40s. I used to travel to Shreveport when SPIKE JONES brought his group to the north Louisiana city for an appearance and many nights it was at the Muehlback Hotel in Kansas City that RED NICHOLS and his FIVE PENNIES sent their melodies bouncing off into space. RED was almost a fixture at the hotel and possibly played more dates there than anywhere else. Back in my salad days I used to travel lots of miles to hear the big bands. Another of our favorite band leaders was JIMMY JOY. JIM was born JAMES HARRY MALONEY in our home town, Commerce. JIM'S vocalist when he appeared at the BAKER HOTEL in Dallas for an engagement once was PATTI PAGE. And do you not-so-young people anymore remember JAN GARBER—idol of the airwaves; FRED WARING and his Pennsylvanians; and when GUY LOMBARDO used to set the radio waves on fire with his music from the EDGEWATER BEACH HOTEL "on the shores of beautiful Lake Michigan."

HEIRESS GAMBLE BENEDICT got back in the news last week with the second marriage to a New York policeman. She recently divorced Romanian ANDRE PORUMBANU. GAMBLE created a storm when she married the foreigner. This time wedding plans were kept secret until the ceremony to prevent GAMBLE'S former husband from "making a scene." The question is now whether the heiress to half a \$50 million Remington typewriter fortune married the policeman for love or protection.

THE state tax on a carton of cigarettes went up 30c July 1. The 59th Legislature raised the tax from 8c to 11c per pack to raise \$70 million annually to pay a teachers pay raise. In the olden days when a teacher smelled cigarette smoke on a student's breath he was sent to the principal's office for punishment. Although not many teachers will award higher grades to the smoking students it does not follow that the practice will be frowned on either. After all no smoke—no tax—no raise. This entire riddle is crazy. We were fighting possible cancer caused from cigarette smoking a few months ago and now the only way our teachers get a raise is for increased sales in cigarettes. That theory fits the pattern of thinking some of our officials and elected officers are following these days.

I was amused to read the statement from a colored educator and member of the BISHOP COLLEGE faculty in Dallas recently. He said: "We need better qualified teachers and more responsive students, because there is no such thing as an 'instant negro' and perhaps he is right."

ACCORDING to the 1960 census there were 158,832,000 white and 18,872,000 colored in the United States. From some of the recent legislation enacted by the Congress one gets the impression that the tail is wagging the dog.

THE crazy gyrations of the stock market these days makes us suspicious. Could it be that BOBBY BAKER is the bug under the rug up there? Or maybe some bird is cleaning up by building a more beautiful nest out of sight from the thoroughfares.

PORFIRIO RUBIROSA, internationally known playboy and former husband of two American women generally conceded to be among the world's

richest, died in a car crash in France Monday. The scene of his death was less than half-mile from the point where the late ALY KHAN crashed into eternity. RUBIROSA was sometimes called the "Remeo of the Carribean." Outside his unsuccessful marriages to five rich women—RUBY accomplished nothing in life. He lived wildly and he died wildly. His quick date with death cancelled the career of one of the old headline makers of the yesterdays. But it is doubtful that WOOLWORTH stock dropped any at news of his demise. The reference to the store comes from the fact that one of RUBY'S former wives was BARBARA HUTTON, heiress to the five and ten cent store stock. By-the-way, OLD DORIS has been up and down the rose petal aisle several times herself. As a matter-of-fact, she probably stands up instantly when she hears the strains of the wedding march. Just like a retired fire horse that dashes out of the barn everytime she hears a bell sound.

THE federal government which has spent \$640 million in the past 10 years helping states fight water pollution, has been ignoring a lot of dirty water in its own backyard. That is the gist of a congressional survey which found that 68 federal installations, mostly Defense Department bases, are dumping millions of gallons of sewage into streams and rivers daily. Continued bureaucratic foot-dragging is not expected to improve the situation.

WHILE talking about dirty backyards, etc., we must admit we got quite a bang on July 5 out of an interview participated in by BRUCE FRAZIER on Channel 4. BRUCE, capable character and man of many talents, has a fine sense of humor too. In tracing part of the history of the Big Springs in Big Spring, BRUCE said that a recent report told of the springs running again. He visited the scene with a band of companions and all consumed some of the dripping water. A little later—too late in fact—the group discovered that the liquid flowing at the spring site was some sewage overflow. Although the water was treated chemically, there was some stomach distress reported by the drinkers from the "spring."

WHILE moving about the city Monday, July 5, we noticed MARTIN GIBSON busy building a gate and in about three hours after he started his project the peace justice had it hanging gracefully in place. We observed PHIL BERRY out mowing his yard. Looked to us like PHIL was causing more dust to fly instead of grass. It sure is dry. In BOB DEAVENPORT'S store we encountered JACK IRETON who was making a purchase prior to leaving for Dallas where he will enter a special FORD school. We also learned of the illness and hospitalization of SAM HOUSTON in HOGAN-MALONE CLINIC in Big Spring. SAM is going to be in for a spell with all that traction treatment. We are thinking of you SAM. Wish we could invent some air-cooled device to aid your comfort but our talents in the creative line are dim indeed. We talked with Sheriff DAN SAUNDERS on the phone and reported peace and tranquillity in the community. His wife answered our call to the office and advised us that DANIEL was kind of "under the weather." He was more fortunate however, than the sheriff of Floyd County, who was almost slain on July 5 by a cunning Latin American youth who pulled one of the oldest tricks in the book on the officer. The youth started running then abruptly turned and shot the sheriff in the chest. That boy knew the sheriff had no intentions of shooting him in the back. Maybe the incident will serve to wise up other peace officers not desiring an early demise though. With every courthouse in the land being turned into a Sunday School room for delinquents under the newly adopted code of criminal procedure, an officer has only one out—shoot first when necessary and explain to the justice department you just didn't have time to ask a magistrate for instructions before the incident took place.

WE observed WALTER GRAVES working on his new home. It is going to be a real show place—a beauty—brick and all the nice trimmings inside and

out when finished. PAULINE and WALTER have really launched an expansion program and we know they are going to enjoy their new home.

WE noticed the Methodist preacher out in the yard playing catch with his son, NEIL. BRO- THER LeMOND is a pretty fancy catcher and the pitch we witnessed him hurl back to his boy was an old-fashioned out-drop—least that's what it looked like to us while driving by. Your writer used to play third base. That position is known as the "hot corner." While guarding the base pretty closely in the big game of the year— Westward vs Central played in Commerce in the city park and with our best girl friend watching from the stands above third base we allowed a ball to trickle through our legs and a run scored. GUY DOUGLAS RUTHERFORD, our team catcher, now an official with the HEMPHILL-WELLS stores in this area, really lowered the boom on the writer but his blistering verbal attack meant nothing to us in our embarrassment over making that error right in front of our best girl.

NEAL'S NUGGET: LUCI JOHNSON, daughter of LBJ, quit the Episcopal denomination and joined the Catholic faith recently. In her case, it might be said that the President didn't lose a daughter but gained the Boston vote.

## Sapp Says Jehovah's Witnesses To Converge On Odessa July 29

Robert L. Sapp, circuit supervisor of the Stanton area congregation, one of 16 congregations of Jehovah's Witnesses in West Texas and Eastern New Mexico, has been called into Odessa to help make preparations for the district convention July 29 - August 1. This convention will be held in the Ector County Coliseum.

Sapp serves the congregations in Kermit, Monahans, Midland, Big Spring, Andrews and Odessa that are playing host to the delegates from across the Nation. He is to assist in the oversight of acquiring rooms to supplant the available motel and hotel accommodations.

Sapp stated the program will be packed with thought provoking subjects that will develop the convention theme "Word of Truth." "In visiting the homes of people of all faiths, comments are frequently heard about problems of modern day living," Sapp remarked, "and this one discussion 'Applying the Word of Truth to the Problems of Life' will show how Bible principles can help in meeting these problems."

Sapp is a graduate of the Watchtower Society's Kingdom Ministry School located in South Lansing, New York. Since his attendance there in 1963 he has served congregations in California and Texas.

An American Medical Association release observes that many questions remain about the effects of smoking on health. Some of the complicated problems still to be solved by scientific investigators are: How does tobacco smoke produce damage to the human body? Why do some people appear to tolerate the effects of smoking better than others? Is there a single factor involved in the tobacco smoke danger or are there several factors? The medical profession is taking an active role in attempting to answer these questions. The AMA's Education and Research Foundation alone is supporting more than 40 research projects in the United States and Europe.

Mr. and Mrs. Lewis King of Stephenville, visited with Mr. and Mrs. L. F. Clark, Mrs. C. E. Crow, and Mr. and Mrs. John A. Wilkes, Jr. and family Monday. Mr. King is the brother of Mrs. Clark and Mrs. Crow.

## Library Lines

MRS. RALPH CAFFEY, Librarian

Library hours: Monday, Tuesday, Wednesday, Thursday 1 - 5 p.m. Saturday 9 - 1 p.m.

The library is now open for your convenience again after my vacation. The reading club program is still available and it isn't too late to read at least 12 books by the last of August.

The plans are all made for the beginning of the Story Hour on Wednesday for the month of July. If your child missed the first one on July 7, they still have the opportunity to attend the next three Wednesdays. Again the ages and times are: 4, 5, and 6 years old may attend from 2 - 2:30 p.m., those who were in the first and second grades this past year may attend from 2:30 - 3:00 p.m.

## WHO HATH A BOOK

Who hath a book  
Has friends at hand  
And gold and gear  
At his command.  
And rich estate,  
If he but look,  
And held by him  
Who hath a book.  
Who hath a book  
Has but to read  
And he may be  
A king indeed;  
His Kingdom is His  
Ingenook;  
All this is his who hath  
a book.

By 1985, the U. S. Census Bureau reports, the nation's population will climb to some-

## Last Rites Held For Area Rancher

William Wiley Clements, 47, who lived six miles west of Garden City, died at his home at 6 a.m. Wednesday, June 30. He suffered a heart attack about the first of June. He was a farmer and rancher.

Mr. Clements was born June 17, 1918 at Putnam, and moved to Glasscock County in 1952 from Stanton. He was married to Billie Bibby in Big Spring August 25, 1945. He was a Baptist.

Funeral services were held Saturday afternoon at 2 p.m. at River-Welch Funeral Home in Big Spring. Rev. D. D. Smith of Garden City officiated, assisted by Rev. W. H. Uhlman of Stanton. Burial was at Garden City.

Survivors include the widow, Mrs. Billie Clements; three daughters, Mrs. Linda Casey, Brenda Clements, and Pattie Clements, all of Garden City; a son-in-law, Robert L. Casey, Ellendorf Air Force Base, Anchorage, Alaska; his parents, Mr. and Mrs. W. H. Clements, Stanton; three sisters, Mrs. Frances Poindexter Reehights, S. D., Mrs. Pat Craton, Roswell, N. M., and Mrs. Bobbie Vutech, Corpus Cristi; a brother, W. T. Clements, Miller, S. D.

OUR JULY CLEARANCE STILL IN PROGRESS.

## DEAVENPORT'S

## New Caparol controls weeds in cotton at layby without residue problems in crops planted next spring.

You can spray new Caparol\* at layby for control of most annual broadleaf weeds and grasses, without fear of a soil residue carryover to harm crops planted in the spring of 1966. Just apply Caparol after your cotton is up six inches or more and before weeds are two inches high.

Spraying Caparol at layby will give you control until your cotton is up high enough to shade out any weeds that may germinate late in the summer. You can even apply Caparol where other herbicides have already been used and you find weeds breaking through.

Caparol is easy to handle and apply. Just direct the spray at the base of the cotton plants. You'll get quick knockdown of the young weeds and grasses. Then the action of Caparol continues to control

weeds and grasses through the roots as they germinate for the next several weeks.

With Caparol on the job, you won't have weeds to compete for moisture and plant food. And you won't have rank weeds to foul up harvesting... to stain and downgrade lint.

So plan now to use Caparol at layby. It's available through your local supplier.

\*CAPAROL is a trademark of the Geigy Chemical Corporation for its brand of PROMETRYNE® herbicide.

Geigy Agricultural Chemicals, Division of Geigy Chemical Corporation, Saw Mill River Road, Ardsley, New York.
