## VARIETY

By NEAL ESTES

MR. and MRS. JACK REID and children POLLY and BUSSY, Greeley, Colorado, have been visiting relatives and friends in Stanton. JACK was in the office to renew the family subscription. He is a brother of STANLEY REID and is in the barbering profession in Colorado.

I picked this gem out of AARON EDGAR'S column in THE MUNDAY TIMES. "He who has an hour to waste wants to spend it with someone who hasn't." To that, I will say Amen. If there is anything more disgusting than for some person to drop in to chat with a businessman when he is working or for some individual to come in and take the time of an employee away from duty it is the individual who is too dumb or unconcerned to give a hoot.

We picked this choice item up from THE PLAINSMAN — a column authored by Publisher CHARLES GUY in the AVALANCHE - JOURNAL. "That Girl on Broadway says we may find out that it's easier for poverty to wipe out a government than it is for a government to wipe out poverty."

Several prospective draft-dodgers wound up late Thursday trying to buy marriage licenses before LEJ's deadline stopping draft exemption to married men following the August 26 time set to stop giving such exemptions from military service. I understand the clerks in Alabama, Georgia, Mississippi, Louisiana, South Carolina, Virginia, and Tennessee, closed up the courthouses early to avoid the "marchers" from running down for licenses. And there was nothing the feds could do about it — nobody could claim the violation of a civil rights law. Besides, didn't the order come directly from the tongue of the Potentate of the Pedernales — the champion of the "Great Society?"

A press report from Dallas this week announces the city authorities plan to charge visitors a fee at famed Marsalis Park Zoo. I hate to see this pay-to-look policy instituted at the Zoo. Many of us were once privileged to view the animals there and stroll around on the grounds munching on popcorn. With all the federal money going for programs to try and remake the tums and I - will - not - work bunch, it does seem only fair that the money needed to support the zoos of the country could come from that source too. I had rather feed (Continued on page 8)

## Waldrop Rites Conducted In Dallas Thursday

Funeral services were conducted in Dallas last Thursday for Alfred L. Waldrop, 4726 Lake, that city. Waldrop was a retired guard for the United Bankers Life Insurance Company. The final rites were held in the Maple Lawn Baptist Church. Burial was in Crown Hill Memorial Park.

Mr. Waldrop was a native of Alabama and a resident of Dallas for 33 years. He was the brother-in-law of Mr. and Mrs. Buck Boon of Stanton. They attended the funeral services held in Dallas. The deceased was a member of the Baptist Church, and former owner of the Airway Motor Freight Co., a truck leasing firm.

Survivors include his wife, mother, Mrs. Sara L. Waldrop of Northport, Alabama; three sisters, and one brother.

## Dollar Day To Be Observed September 7

Stanton merchants will observe Dollar Day on Tuesday, September 7.

The first Monday in the month of the fall season comes on Labor Day, September 6, and many of the stores are planning to close on that date.

Labor Day was one of the holidays voted for by the local Chamber of Commerce members in January when ballots were passed out to them.

Dollar Day is an established value day in Stanton, and the merchants have many values listed in advertisements throughout the newspaper this week.

## Airport Project Meet Held

The Martin County courthouse was the sight of a meeting of county and city officials chamber officials and interested parties Monday night. The purpose of the meeting was to discuss the feasibility of an airport for Stanton and for Martin County.

C. Dieter Ufer, of the firm of Bernard Johnson Engineers, Inc., Houston, was the speaker.

Ufer outlined the necessary steps to take in order to obtain an airport.

The firm Mr. Ufer represented at the meeting is in the airport building business. He made many interesting points in his talk why a town needs an airport.

Mr. Ufer estimated that seventy-five percent of the funds needed for the airport would come from the federal and state governments. He also added that it would take from 12 to 18 months to plan and build the airport.

The Martin County commissioners promised full cooperation but declined to sponsor the project. There will be a special meeting soon of the city council to decide whether or not they wish to sponsor and airport, according to a statement given the press by Dr. Allen Fisher, chamber president.

The Stanton Reporter will run in toto an article on the airport in the next issue of (Continued on page 8)

## Cross Funeral Rites Conducted In City Friday

Mrs. J. G. Cross, 72, Martin County resident since 1926, died last Wednesday in a Rotan nursing home and funeral services were conducted for her in Stanton on Friday afternoon.

Services were held at 3 p.m. in the First Methodist Church here, with the Rev. Alton Watt, Petersburg, and the Rev. C. R. LeMond, officiating. Burial followed the last rites in Evergreen Cemetery, under direction of Newline W. Ellis Funeral Chapel of Midland.

A native of Alabama, Mrs. Cross moved to Colorado City in 1910, then to Martin County in 1926, where she and her husband farmed.

Mrs. Cross was a member of the First Methodist Church. Survivors include the husband (Continued on page 8)

## Dallas Man Drilling Test SW Ackerly

By JAMES C. WATSON  
Russell Maguire of Dallas has spudded and is drilling below 270 feet where he set 13 3/8 - inch surface casing in the - o. 1 Dyer, a 1/2 - mile south outpost to the Martin County sector of the Ackerly (Dean sand) pool.

It is projected to a possible total depth of 9,500 feet and is 23 miles north of Stanton, five miles southwest of Ackerly, 650 feet from north and 1,980 feet from east lines of section 19, block 34, T-3-N, T&P survey.

Penroe Oil Corp. of Midland has staked location for the No. 1 Tom, an outpost on the northwest edge of the Gordon Street (Wolfcamp) pool of Northwest Glasscock County.

It is seven miles south of Stanton, 1,000 feet from south and 1,640 feet from west lines of section 43, block 35, T-1-S, T&P survey. Contract is for 5,800 feet.

## Funeral Rites Held Saturday For W. K. Willey

Funeral services were held for Woodrow Keith Willey, former Stanton resident, at 10:30 a.m. Saturday in the Thomas Chapel in Midland. The Rev. Bill Uhlman, pastor of the First Baptist Church in Stanton, officiated. Burial was in Evergreen Cemetery in Stanton.

Willey had been a resident of Midland the past five years, moving there from Stanton. His death came last Wednesday night in a Midland hospital.

He was born in Demmerer, Wyo., and was a member of the Stanton Masonic Lodge. He was employed by an Odesa, Okla. company at the time of his death.

Survivors include the widow of the home; two daughters, (Continued on page 8)

LEAGUE OF WOMEN VOTERS  
Midland County  
Midland, Texas  
3206 Sentinel  
Midland, Texas  
August 27, 1965

Mr. Neal Estes  
Stanton Reporter  
Stanton, Texas  
Dear Mr. Estes,

Enclosed is a copy of the Voter's Guide of the League of Women Voters of Texas for the September 7 election. This is strictly nonpartisan pro and con information so that the individual voter may be better informed when he goes to the poll. We hope that you might publish this for the information of Stanton residents.

The Midland League strives to keep the people of Midland informed on such issues, but we find that there are many towns without Leagues which we are unable to reach.

We will send you a copy of the Guide for the November election when we receive our copies.

Sincerely,  
Pat Vernon  
Mrs. Bruce Vernon  
President

(Editor's Note: The article submitted for publication by Mrs. Vernon appears elsewhere in this issue of the paper.)

## Cap Rock Scholarship Winner Announced Here

Darlene Wright, daughter of Mr. and Mrs. Dalton Wright, Rt. 1, Ackerly, and Keith Howard, son of Mrs. A. J. Howard, St. Rt. Lenora, were recipients of Pep Club, and secretary of her freshman, sophomore and junior classes. She was a majorette in the band and played volleyball and basketball four years. She was captain of the basketball team her junior and senior years, and was on the "All District" basketball team her junior and senior years. She competed in interscholastic league four years and track one year. She was in the cast of the junior and senior plays, and was class editor of the school annual her senior year. She was enrolled in 4-H (Continued on page 8)

Darlene Wright

lents of scholarships to Howard County Junior College, presented at the annual meeting of the Cap Rock Electric Cooperative, Inc. on Saturday. Darlene lives in the Brown Community, and was salutatorian of the 1965 graduating class at Sands High School, with a grade average of 93.84 on all high school courses. Her school activities and offices held including the following: President of FHA, pre-

ketball four years. She was captain of the basketball team her junior and senior years, and was on the "All District" basketball team her junior and senior years. She competed in interscholastic league four years and track one year. She was in the cast of the junior and senior plays, and was class editor of the school annual her senior year. She was enrolled in 4-H (Continued on page 8)

## Impact Of New Laws Hitting Texas Voters Hard This Week

While most Texans maintained a don't-care attitude during the legislative months, the Legislature really put some dilly - type measures through.

In addition to almost doing away with capital punishment they adopted a new criminal code that is destined but for one end — repeal when a new group of faces are elected to public office the next go around.

If you don't like any of the laws, don't poke your state representative in the snoot. Effective the past Monday, the maximum fine for committing an assault was increased to \$200.

Pinball machine operators had a right to be happy and a lot of District Judges benefited from raises along with other state executives.

Almost 400 state laws, which involve subjects ranging from pinball machines to cross-country trucks, go into effect this week.

Most were "90 - day bills" passed by the Legislature this year. Some became effective Monday and laws which involve state spending were effective Wednesday, when the state's financial year started.

The pinball machine law allows owners to allow free (Continued on page 8)

## Community Disaster Plan To Be Printed

Dr. Allen Fisher has submitted a rather lengthy disaster plan to be followed in case the community suffers an external or internal disaster.

The plan covers approximately a score of detailed and well explained sections or subjects and will be published in its entirety next week.

The Stanton Reporter is running the Hospital Disaster Plan as a public service. We suggest it be clipped from the newspaper and placed in the home in a conspicuous place. There is no substitute for the printed word.

In addition to the community disaster plan the editor of the official county newspaper has already arranged to keep the state and nation informed as to the extent of any major disaster occurring in our community. With full authority as an accredited correspondent for all major wire services, all area publications, radio stations and television outlets, the people can rest assured that national attention will be focused on the community in the event of any major disaster.

## Reed Services Held In Big Spring Sunday

Funeral services for William F. (Bill) Reed, 54, who died Friday in a Big Spring hospital, were held at 4 p.m. Sunday in Rosewood Chapel. Interment followed in Trinity Memorial Park with Nalley-Pickle Funeral home in charge of arrangements.

Elmore Johnson, minister of the Stanton Church of Christ, and Richard Williams, minister of the Birdwell Lane Church of Christ, Big Spring, officiated.

Mr. Reed, an automobile mechanic for several years, associated in the Reed-Thompson garage in Big Spring, was born Oct. 22, 1910, in Knox County. He had been a resident of Howard County since 1930. He was a member of the (Continued on page 8)

## Voters To Visit Polls September 7

On Tuesday, September 7, the day after Labor Day, the people of Texas will have an opportunity to vote on a proposed amendment to the State Constitution which will be stated on the ballot approximately as follows.

FOR the Constitutional Amendment to increase the number of Senatorial Districts in Texas from 31 to 39.

AGAINST the Constitutional Amendment to increase the number of Senatorial Districts in Texas from 31 to 39.

During the 59th session of the Legislature this year, a Senatorial Redistricting bill was passed apportioning the State of Texas into Senatorial Districts on the basis of population according to the Supreme Court ruling handed down in June of 1964. If the Senatorial Districts provided under this bill are allowed to stand, big city areas will gain eight senators for a total of 12.

County Judge Jim McCoy has advised the press that Martin voters will ballot in all nine boxes in the four precincts. The League of Women Voters of Texas have prepared a statement based on neutrality in the upcoming election and listing four reasons why voters are expected to approve the SJR 44 amendment and four against. We are submitting the pro and con statements here.

Those who are FOR say: 1. Each Senator now serves on from 7 to 10 committees which meet from 1 to 3 times each week plus serving on several sub-committees, but because of the large workload, the chairman usually finds he is a one - man committee, has to work out important legislation on his own initiative and time. A larger Senate would mean more effective work by all members.

2. With a smaller constituency a Senator can com-

ment more effectively on the needs of his constituents. Local motorists with good driving records will be given the opportunity to participate in a carefully planned program designed to make motoring safe and less costly, Stallings explained.

An advertisement concerning the Nationwide Motorists Association appears elsewhere in the paper.

## Cap Rock Electric Annual Meeting Held Saturday

Members of Cap Rock Electric Cooperative met at 2:00 p.m. Saturday in the Stanton High School auditorium. They heard reports on the operations of their cooperative during the past year and received the good news that \$207,390 in capital credits will be returned to them in October.

During 1964, the Cooperative gained 189 net connections — 39 rural residents, 111 irrigation wells, 36 small commercial, and 3 large commercial units. Net increase in revenue amounted to \$179,623 for the year.

The meeting opened with Manager O. B. Bryan presiding. The Reverend Claude LeMond gave the invocation, and James Eiland introduced special guests. The business meeting was called to order by Glenn Cantrell, president of the board of directors, who also presented an engraved watch to O. B. Bryan, marking his completion of 25 years as manager of the Cooperative. Five - year service pins went to J. C. Sale, director from District 8, and to Robert K. Hudson, Midland attorney for the Cooperative.

Miss Arach Phillips, secretary of the board of directors, read the minutes and presented college scholarships to Howard County Junior College to two students — Darlene

Wright, daughter of Mr. and Mrs. Dalton Wright, Route 1, Ackerly, and to Keith Howard, son of Mrs. Vivian Howard, Star Route, Lenora.

J. R. Cobb, manager of Texas Electric Cooperatives, Austin, congratulated the members on the continuing progress of their organization and its excellent record of service and sound financial condition. The financial report was given by A. B. Segars, certified public accountant, Lubbock. Bob Murphey, Nacogdoches, served as master of ceremonies.

Entertainment was provided by The Texas Plainsmen of Midland. Door prizes were given and there was a free movie for the children.

While the meeting was attended by 220 people, voting members fell short of the 150 needed for a quorum, and no business could be transacted. The three directors whose term of office expired, will remain in office until the next annual meeting. They are J. C. Sale, Raymond A. Pribyla, and Edgar Phillips.

Cap Rock Electric Cooperative has 2,464 miles of rural electric lines serving 5,658 meters in a 13-county area. During 1964, operating revenue amounted to \$1,633,948. Electric power purchased from Texas Electric Service Company (Continued on page 8)

**Bible Comment—**

**Church Grew From Experience Of New Life**

The Christian Church did not arise out of plans of some promotional organizer. There was no advance projects or blueprint of a proposed organization. The church definitely grew out of experience. It was not a matter of organization awaiting or developing life; it was life leading to organization.

Although Jesus did not formally organize the Church, there was more organization associated with his ministry than is commonly supposed. He gathered about Him the apostles, to whom were committed special privileges and responsibilities, and with whom He communed concerning the deep things of the Kingdom, so that he developed an inner band of disciples—a sort of Christian cabinet—to carry on His work. Also,

He organized the "seventy" who went through the villages teaching and preaching, two by two.

The Church, as I have said, had its origin in the experience of the new life. It began as these experiences found expression in the remarkable events of the Day of Pentecost. Here, as the disciples were gathered together in one place, there came a strange outpouring of spiritual power. Peter, who formerly had denied his Lord, preached with great boldness and courage about the reality of the Christian way, and brought home to the hearts and consciences of his hearers the realization of their sins. The result was that many were brought into the Christian way.

In his letter to the Ephesians, Paul sets before us a noble ideal, that of the church as a body incorporating the spirit of Christ.

**Public Notice**

Public hearing on the Martin County Budget for 1966 will be held in the Commissioners Court Room in the Martin County Court House at Stanton, Texas, on the 13th day of September, 1965, at 10:00 O'clock A. M. until 2:00 O'clock P. M. on said day and date.

410 WEST FRONT

STANTON

Another towering structure takes shape on the West Texas horizon near Colorado City as construction progresses on Texas Electric Service Company's 500,000 kilowatt generating unit at the company's Morgan Creek Power Plant. The boiler structure, shown at left in the photo above, is more than 150 feet tall, and when the unit is in full operation the boiler will consume about five million cubic feet of natural gas fuel an hour from the Permian Basin area. The new unit will be capable of producing almost three times as much electric power as the big unit located adjacent to it and completed in 1959. In mid-1966 when the new generator goes into operation the total net generating capability of the Morgan Creek plant, which is centrally located on the company's strong power system, will be 833,000 kilowatts. This will make it the largest of eight steam electric power plants in the Texas Electric system in North Central and West Texas.

**Longview Plan Has Federal Court OK**

**Rattlers Ripped By Westexan**

Mrs. Jim Cave, living in west Fisher County, read a story recently about a man successfully baiting a fish hook for a rattlesnake under his house.

And allowed as how they would make way for the star slugger in this sport!

Because Mrs. Cave, in one year, caught 18 rattlers under her house by using a Number 3 coyote trap.

There was some slight strategy in that when the reptiles began using an air vent in the house foundation Mrs. Cave pinched the hole with a rock so that they would have to slither over the traps. HONG!

Mrs. G. A. Bridges has returned home from Howard County Foundation Hospital, where she underwent surgery recently. Visiting with her during her confinement were Rev. J. R. Williams of Welch, Charlie Vest and Mr. and Mrs. Hershel Vest of Brownfield, Henry Bridges of Seminole, Mr. and Mrs. Albert Bauch of Stephenville, Mr. and Mrs. Preston Bridges, and Mrs. Mary Bridges, Bud and Mike, all of Big Spring.

division, and W. J. Durham of Dallas, attorney for the negro students in the original suit, told Judge Sheehy they had no objection to the plan at present.

Both, however, requested that the court retain jurisdiction in case evolution of events should make desegregation of all grades desirable before September 1967.

In approving the voluntary plan of the Longview School Board, Judge Sheehy commended all parties interested in the matter, saying, "I believe that is the best way to solve the problem. I don't like rule by court injunction."

Under a federal court stipulation ordered two summers ago, the school system was to have integrated its first through third grades this year.

Last week, however, the Justice Department, as intervenor for 3 negro students who had filed the original suit in 1963, requested a show cause hearing calling for a speed-up of integration in Longview under the civil rights act of 1964.

Federal Dist. Judge Joe Sheehy had set the hearing for Tuesday.

At the beginning of the Tuesday hearing, Henry Harbour, attorney for the Longview School Board, submitted the new plan, saying the board recognizes the necessity to "upgrade activities" in view of the court action.

The plan which was filed with the court also declares that "race, color or national origin of pupils" will not be a factor in the assignment of teachers, administrators or other employees beginning with the school year in 1966.

John L. Murphy, chief of the western section of the Justice Department's civil rights

FBI Director J. Edgar Hoover writes: "Experience shows that swift and impartial justice is one of the most effective deterrents to crime. Yet, swift justice, with all the technical loopholes and unwarranted delays in the law, is almost passe in several jurisdictions, and the rights of peaceful citizens are taking a terrific beating from the impartial justice meted out in some courts. Crime causations are many and varied. Few, however, are more serious misguided leniencies, including abuses of parole, probation, and suspended sentences. A young bank robber recently blamed such leniency for his turn to serious crime."

Trade at home and save!

**CREAM-PUFF**—Quilted cotton checks are transformed into a charming duster. It's trimmed in ruffles edged with double rows of baby tickrack. Fashion bonus: matching scuffs at no extra cost. By Evelyn Pearson.

**Business Moves To Hurt Negroes**

Further evidence that agitators in predominantly negro sections of the major Northern cities are damaging their own race is provided in a Wall-Street Journal survey.

An increasing loss of jobs for negroes is feared if more business firms join in a trend toward removal of their facilities to areas not under the constant threat of violence.

While the survey finds that a mass exodus apparently is not planned, it shows that more and more businessmen are taking new precautions to protect their property from rioters and looters. The added expenses just one of their problems. A major one is that insurance firms are either canceling or refusing to un-

derwrite policies for businesses and residences in negro areas.

"In Cleveland," the Journal notes, "where police were pelted with bricks and bottles in racial incidents earlier this year and in 1964, Cle-Ware Industries, Inc., an auto parts distributor, will move its headquarters from the negro east side to the white west side within two months. 'We've got to,' declares Harry Adelman, president. 'This Los Angeles outbreak has scared the pants off us, and our vandalism costs this year have already mounted to \$5,000 from \$3,500 for all of 1964.'"

Numerous moves, for similar reasons, are reported in other communities, including Chicago, Philadelphia and Cambridge, Maryland. In the latter, the effect on jobs has been most noticeable. One auto repair shop owners, for example, formerly employed negroes but does not now, because "they are either afraid or unavailable to work for me."

In Los Angeles, many jobs were destroyed right along with property. And negro businessmen suffered losses

as well as the whites. There are many other reasons why violence and unthinking "protests" are working so strongly against the best interests of negroes. But the economic damage done to the law-abiding majority of them must rank among the foremost.

It is a violation of the law to either carelessly or deliberately set on fire the lands of another. In 1961 the Legislature made it a felony for a person to deliberately set fire to grass or forest land owned by another. They also enacted a law making it a misdemeanor to negligently set, or cause to be set on fire, the lands of another. The Texas Forest Service is primarily responsible for enforcing these statutes.

**TPA Hires Ad Salesman For New Dallas Office**

Employment of an additional salesman to the advertising sales staff of the Texas Press Association was announced today by TPA General Manager Vern Sanford.

He is Jack Rodecap of Dallas, for the past 10 years a salesman for the Texas Daily Press League. Rodecap is based at the new regional sales office in Dallas, located in Suite 1452 of the Baker Hotel.

"Jack brings with him an abundance of energy and ad selling know-how," said Sanford, "and we're looking forward to his working with us in the development of additional lineage for Texas newspapers."

A new era in Texas journalism started in 1947 when TPA established a full-time central office in Dallas. It was moved to the capital city the following year and will remain there.

"Opening of the Dallas office is another step in the forward progress of TPA," said Winn Crossley, publisher of the Madisonville Meteor and president of the newspaper association. "Merchandising data will be assembled in the Dallas office for the conven-

Jack Rodecap

ience and guidance of potential newspaper advertisers."

"At either the regional office in Dallas or the central office in Austin, an advertiser or an agency may purchase space in one or all of the 696 dailies and weeklies in Texas," Crossley stated. "We will cooperate with national advertising representatives who have signed contracts with Texas newspapers by turning such orders over to them. Our one order - one check placement service makes it easier to publish display ads in Texas newspapers and encourages greater use of newspaper advertising."

Rodecap has a Bachelor of Journalism degree from Indiana University. A World War II veteran, he served three years of active duty in the South Pacific. He is 42 years of age, married and has three children.

Practically all of his newspaper experience has been in national advertising. Prior to his employment as national advertising salesman for TPA, he served as merchandising manager in the national advertising department of the Dallas Morning News and later in the special section and promotion department of the Dallas Times Herald.

Earlier Dallas employers included the Couchman Advertising Agency, the Southland corporation; Accurate of Texas (printers finisher); and the Municipal Contractors Association. It the latter job, he was house organ editor.

Rodecap has employed Mrs. Eleanor Owens as his secretary. Previously she had been with Tracy-Loeke in the media department; Whately Employment Service as an interviewer; and Avon Products as city manager for Dallas.

Crossley said none of the 16-member Austin staff will be transferred to Dallas. Mrs. Yvonne Justice will remain as manager of the central office in Austin and Vern Sanford will continue as general manager of the Association.

"The central office in Austin will handle political, institutional and state advertising, as heretofore, with the Dallas office as an additional contact point for candidates and others desiring to carry their messages in Texas newspapers," Crossley added.

New fall fabrics almost dare you to guess the fiber content without reading their labels. Washables such as cotton, acrylics, nylons and silks are disguised with coatings, bondings and new kinds of knitting processes to achieve a new look, explains Lynn Parks, Texas A&M University Extension consumer education specialist.

**Miss Adams Married To Alfred Johnson**

Janet Earlene Adams and Alfred Ellmore Johnson, Jr., were married Saturday evening in South 15th and Sewell Sts. Church of Christ in Abilene. The wedding ceremony was read by Ellmore Johnson, father of the bridegroom.

The bride is the daughter of Mr. and Mrs. Marvin T. Adams of Abilene, and the groom is son of Mr. and Mrs. Ellmore Johnson of Stanton.

Mr. Adams presented his daughter in marriage. Her empire gown was organza over peau de sole with reemboirdered lace accenting the neckline. A bow held the organza train, and her headdress was of organza flowers. Her bouquet was of white orchids and lilies of the valley.

Leta Johnson of Stanton, the bridegroom's sister, was maid of honor, and Marva Adams, the bride's sister, was bridesmaid. Marsha Davis and Nancy Kesler of Abilene, were honorary bridesmaids.

Their dresses were yellow organza over satin with empire waists. A yellow Dior bow held a brief veil and they carried Fugi mums.

Eddie Fore of Fort Worth, cousin of the bridegroom, was best man, and Joe Fore, also of Fort Worth, was groomsman. Elsworth Buttles of Abilene, and Guy Brown of Stanton, were honorary groomsman. Elgin Connor of Turkey, and Tommy Jeffers of Alice, were ushers.

A reception was held at the home of the bride's parents.

The bride is a graduate of Cooper High School in Abilene, and attended Abilene Commercial College. The groom was graduated from Abilene High School and attended Abilene Christian College. He is a minister for the Church of Christ, and has been working with the Sewell Street congregation in Abilene.

The couple left on a wedding trip to California.

Mr. and Mrs. Johnson were hosts to the rehearsal dinner on Thursday evening at Wyatt's Cafeteria in Abilene.

**Scout Scoops Lost Anglers**

A Boy Scout who knew his directions settled an argument involving two deadlocked fishermen "lost" on sprawling Lake Tawakoni.

The anglers appealed to the lad, uniform and all, after a futile north - south dispute. He glanced at the sun, looked at his watch, and grinning pointed out magnetic north.

Simple, lectured the Scout, by pointing the watch hour hand at the sun and determining that halfway between the hour hand and the numeral twelve was south, with the reverse due north.

The wage, with a game warden the arbiter, was settled on the scene, with the troop fund the beneficiary.

Mr. and Mrs. J. H. Parrish, and Mr. and Mrs. Owen Parrish of Midland, visited Mr. Mrs. Harold Parrish at Tokio recently.

**Patrol Needs Men**

It is regrettable that the Department of Public Safety's recruiting campaign for highway patrolmen, preceding a new training class late this month, was only partially successful.

Director Homer Garrison has announced that the class will have only 65 men instead of the desired 100, in spite of pay raises voted by the Legislature. New patrolmen now receive \$5,436 a year, but the salary will rise to \$5,616 on September 1, and will reach \$5,808 a year later. The department budget provides for 829 patrolmen during

the next year and for 904 the following year. Colonel Garrison was unable to give exact reason for the disappointing turnout, but noted that police organizations throughout the country are having similar troubles. A new Fall campaign is planned, with emphasis on the advantages of patrol service.

The advantages are many. Moreover, young men considering joining can be assured that they are wanted, not only by the department but by the general public.

—Lubbock Avalanche-Journal

**Last Holiday Fling**

The last long holiday weekend for the Summer season is drawing near. It will be the Labor Day weekend, September 4-6. For many it will begin on Friday afternoon and end on Monday night.

Because most vacations are out of the way and schools have started, and business ready to launch into the final four months of the year, this holiday period for many people will be the last fling of the Summer.

For some, unfortunately, it will be the last fling period. The Texas Department of Public Safety estimates 35 persons will die in Texas traffic accidents during the three-day holiday period.

In nine out of ten accidents which claim a life, a violation of Texas traffic laws will play a role, says Col. Homer Garrison, department director. He points out that in almost all accidents during the 1964 Labor Day weekend, which killed 39 persons and injured hundreds, violations of the law were contributing factors.

What was the most common violation? It was failure on the part of drivers to yield the right-of-way. Next most common violation was exceeding safe speed for existing weather and road conditions.

The Department of Public Safety plans to

conduct its annual special emphasis program, "Operation Motorcade," in an attempt to hold the death count.

"From 12:01 a.m. September 4 through 11:59 p.m. September 6, the department will use every means at its disposal to reduce traffic fatalities," says Colonel Garrison.

This will include adding 150 men to temporary duty with the State Highway Patrol.

Taking part in the Department of Public Safety effort to cut down on death and injury tolls during the holiday period will be the Texas Highway Department, Texas Safety Association, and Texas Junior Chambers of Commerce.

The Jaycees will operate rest stops along major highway for drivers and will serve coffee. The transportation association of the Texas Council of Safety Supervisors will sponsor an expanded holiday road patrol to assist stranded motorists.

Thus for this year, there have been 1,361 fatal accidents in Texas, claiming 1,644 lives. This is a decline of about 3 per cent from the same period of 1964.

Extra caution by drivers, planned now before the holiday period begins, can pay off in extra safety during what should be a most enjoyable holiday weekend.

**Census Clock Proclaims U. S. Now Country Of 195 Million Persons**

The government literally stopped the census clock to proclaim that the United States on Thursday became a nation of 195 million people.

The time was 10 a.m. EST, give or take a few minutes, when the official people counter which looks like an oversized cash register, rolled toward the round figure.

The big machine kept on counting as Undersecretary of Commerce LeRoy Collins stood up to speak about the country's "pride in its people."

At that point in a ceremony in the Commerce Department lobby, Director of the Census A. Ross Eckler ordered the counting clock stopped — not because the stork had ceased to deliver but to accommodate photographers.

One Every 12 seconds Except for the purposes of such ceremonies — the last was on Sept. 27, 1963, to observe passage of the 190 million population mark — the big device keeps up its ceaseless recording night and day. A light flashes every 7 1/2 seconds to symbolize 1 birth and every 7 1/2 seconds to mark a death. Other colored lights blink every 1 1/2 minutes to mark the arrival of an immigrant and every 23 minutes to show the departure of an emigrant.

round figure, retreats therefrom and after some whirling and clashing, a return to the orderly sequence.

But officials and newsmen and a gathering of tourists took this all in stride and Collins congratulated the Census Bureau for reaching a milestone of its own, noting that the first national census began just 175 years ago in August 1790.

That count, taken without help of machines, showed the then new United States as a nation of just under four million people.

## ET Solons Urge Bigger Membership

Five East Texas senators urged approval Wednesday of the proposed constitutional amendment to increase membership of the state Senate from 31 to 39.  
 A statewide vote on the proposal is set for Sept. 7.  
 Senatorial districts in the rural areas are so large, the senators said, "that it will be a practical impossibility for one senator to properly serve them."  
 The statement, by Sens. A. M. Aikin Jr., Paris; Galloway Calhoun Jr., Tyler; Martin Dies Jr., Lufkin; Ralph Hall, Rockwall, and Jack Strong, Longview, added:  
 "Texas has had a good, sound government through the years because the legislature was close to the people. Unfortunately, we will lose this closeness unless expansion of the Senate membership occurs."  
 The senators noted that the average senatorial district in Texas covers 8,624 square miles, the biggest average of any senatorial district in the United States except for Ala-

Mrs. Bertha Ebbersol and her daughters, Miss Lela Boyd of Dallas, returned last Thursday from a trip into New Mexico. They visited friends in Albuquerque, and then toured the Enchanted Mesa, Petrified Forest, Painted Desert, and a number of churches between Albuquerque and Taos, which were established during the 1600's. The also visited the museum at Lincoln, New Mexico, which they found very interesting.

### Bisons Journey To Roscoe For Opener With Plowboys

Coach Bill Milam and company will journey to Roscoe Friday to engage the fighting Plowboys of that city in a pigskin contest at 8 p.m. under the lights.

It is the opening game for each team but is not a district melee and both teams are pretty evenly matched. The outcome could go either way. Stanton won last year 12-8 on the home field.

Roscoe is expected to be improved, according to information delivered to Coach Milam. As a matter of fact, the Plowboys are counted on to give such district foes as Aspermont and Coahoma tough battles this season.

The Buffs scrimmaged with Iraan team last Friday night with the visitors outscoring the Buffaloes one point. Iraan put a veteran group on the field while just four returning lettermen found their way in the Buff lineup. Iraan could whip Big Lake in their district and wind up with the champion's laurels.

Some of the standouts for Stanton included dependable Buddy Shanks and Royce Powell. Powell gained consistently from the fullbacks spot. Last year's defensive halfbacks Dink Polson and Larry

White have been on the injured list but are expected to be back Friday night when the game opens in Roscoe.

Coach Milam reports a good team attitude, although only 21 men are out for the start-

ing slots. Allen Springer will not see service at Roscoe. He will be out for two or three weeks suffering with a fractured bone in his ankle.

The four returning lettermen expected to help carry the Stanton hopes into the game Friday night include: Buddy Shanks, Mike Hall, Dink Polson and Phillip Payne.

DID YOU KNOW THAT:

During the past 25 years Texas Forest Service tree nurseries have produced almost 400 million pine seedlings. Such a quantity is sufficient to plant a strip of land 100 feet wide, almost twice around the earth at the equator. Both pine and hardwood seedlings are sold to Texas landowners at a nominal cost each winter. They are made available only for reforestation and windbreaks.

The newly constructed courthouse tower at Six Flags Over Texas looks similar to the historic Parker County Courthouse (insert) built in Weatherford, Texas in 1885. The only difference being that the Six Flags courthouse in reality is an ice plant which produces 4,500,000 pounds of ice each season for the Park's usage. After Labor Day, September 6, Six Flags will be open on Saturdays and Sundays only until the season ends on November 28.

**ICE COLD AT SIX FLAGS**

The clock on the newly constructed courthouse tower at Six Flags Over Texas signals the beginning of two important changes for visitors to the famed tourist attraction located in Arlington, midway between Dallas and Fort Worth. Number one is that all decisions emanating from within the courthouse will be frozen as in reality this building now houses Six Flags' very own ice plant.

Theater set designer Peter Wolf of Peter Wolf Associates, who came up with the idea of building a replica of an old Texas courthouse to cover the ice plant, Park officials decided on historic Parker County Courthouse in Weatherford, Texas, which was built in 1885. Six Flags artists proceeded to make detailed sketches of the courthouse which were converted into building plans.

Former President Dwight D. Eisenhower commenting on is being atmosphered into a recent disturbances across the country: "The United States policy of lawlessness."

THE McCAMEY NEWS: "Upton County's producers and royalty owners are marketing some \$49.1 million in crude oil and natural gas a year, according to statistics released by Texas Mid-Continent Oil & Gas Association."

MATADOR TRIBUNE: "An old Matador cowboy, Ed D. Smith has a new pair of elegant stainless steel silver-mounted spurs. He won them at a prize Saturday at the Annual Matador Cowboy Reunion held in Channing. The veteran of more than 40 years in the saddle (now retired) never owned a pair of silver-mounted spurs before and he is proud of his award."

THE MEMPHIS DEMOCRAT: "One of the latest additions to the preparations for the 75th anniversary celebration of Hall County, scheduled for the weekend of September 19 is a beard and mustache contest."

The MUNDAY TIMES: "Congressman Graham Purcell announced by telephone from his Washington office last Thursday that due to damages suffered from drought conditions in Knox County, the Farmers Home Administration has been authorized to make emergency loans to established farmers and ranchers who are not able to obtain needed credit from other established sources."

JAYTON CHRONICLE: "The Jayton School board tonight will open bids for the purchase of equipment for the science department, Supt. R. N. Pierce said on Thursday."

THE ALPINE AVALANCHE: "Valle H. Convalescent and Nursing Home — the first institution of its kind in the Big Bend-Davis Mountains country — will open September 1, according to Dr. A. R. Ponton."

THE FORT STOCKTON PIONEER: "Plans for water exploration on two sections in the Six-Shooter Draw area nine miles southeast of Fort Stockton was discussed by the Fort Stockton City Council at its Tuesday night meeting."

THE COMANCHE CHIEF: "William C. House, Jr., assistant professor of business administration, will receive the PhD degree in business administration from the University of Texas in August. Dr. House has been a member of the A&M Business Administration faculty since 1962. A native of Comanche. Dr. House attended Tarleton State College."

WINKLER COUNTY BULLETIN: "Winkler County Development Corporation was organized at a meeting in Wink last Thursday, and plans were made for selling shares in this non-profit corporation, which will have as its chief aim the bringing of industry to Winkler County."

THE BIG LAKE WILDCAT: "O. C. Lawler, general contractor, of Lamesa, was awarded the contract for remodeling the second floor of the Reagan County courthouse last Thursday."

**NO AUTOMATIC DEFERMENT**

**Draft-Age Men Who Marry Now Are Subject To Draft**

President Johnson has ordered any man who gets married after midnight Thursday to be subject to the draft — the same as any single man.

Since Sept. 10, 1963, married men have been in a special category and not subject to the draft as long as single men were available.

The White House said the President signed the order on the recommendation of Defense Sec. Robert S. McNamara.

The revised regulation will have no effect on the draft status of men now married or who were married before midnight Thursday.

If a draft-age man gets married after midnight and becomes a father before being called into service, he will then go into the same deferred class as other fathers.

Married men without children, while not formally deferred, have been passed over for induction so long as

they were living with their wives.

With draft quotas increased due to the war in Viet Nam some of the President's advisers advised him there had been an increase in draft age marriages.

A survey last week showed such marriages were on the increase in many major cities.

The American Meat Institute reports that the word "barbecue" comes from the Spanish word "barbacoa." This is the name natives of the West Indies gave to the wooden framework they use in grilling smoked meat and fish. French-Canadians borrowed the word "barboka" from the western Indians. French explorers of the Mississippi Valley twisted it into the modern "barbecue."

**Philosopher Thinks He Thinks Up Another New Idea For New Source Of Tax Revenue**

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw won't get far with his idea this week, we predict.)

Dear editor: As important as every new break - through in science is, none of them can hold a candle to anybody who thinks up a new source of tax revenue.

I have thought up several in the past, like taxing rainfall in a drought area and sunshine in a rainy area, so the government would have tax money coming in, rain or shine, but haven't gotten very far with them. Yesterday I thought up another one.

According to the newspaper, the U. S. mint is now making a quarter without any silver in it, but it does have a copper band around its edge so it'll have the proper electrical properties to work in the nation's 12 million coin-operated vending machines. Money that wouldn't work in a coin machine wouldn't be worth much nowadays.

At the same time, I read that four and a half million young people will be in college this fall.

I don't know why somebody hasn't thought of it before, but why don't colleges and universities set up some coin-operated machines in the hall

outside every class room door furnishing answers to examinations?

Where is the student who wouldn't at one time or another give two-bits an answer for questions on an examination?

With over four million students as a prime market, the colleges could collect a million dollars on every examination. Any time a college needed to add a few books to the library or a few seats to the stadium, ask the faculty to give a special examination.

With a graduated scale, say two - bits for weekly exams, four-bits for monthly exams, and at least a dollar for finals, the coin-operated answer-machines would do a land-office business.

I'm not suggesting this, but it's well also to bear in mind that there will be nearly 13 million high school students this fall and 36 million elementary students, and the field there for coin-operated answer-machines is vast, in case it costs more to get to the moon than we figured.

Of course, though, about the time hey got these machines going and bringing in the money, somebody in Washington would think up the idea of federal aid in quarters to help students keep paying for the answers, and everybody would be back on the same merry-go-round.

I doubt if this idea will work.

Yours faithfully,  
J. A.

**Tax Man Sam Sez.**

We have reached the age of education in our country. As a Nation we demand that all our people not only graduate from high school but get a college degree. Many companies want most of their key men to have a Ph. D. My advice to every taxpayer is to get as near a Ph. D. on your personal tax affairs as possible.

The U. S. Army says Count Ferdinand Zeppelin, the German developer of lighter-than-air aircraft, made his first balloon ascent in 1863 while visiting the U. S. Army's Ft. Snelling in Minnesota.

Famed silversmith Paul Revere made the copper bellers for Robert Fulton's historic steamboat, the Clermont.

Ignorance costs you in getting better jobs and in saving on your taxes.

# The Launching Pad

By NEAL ESTES

**A**S Martin County campaign chairman for ATTY. GEN. WAGGONER CARR it is also one of my assigned tasks to send a delegate or two to the YOUTH CONFERENCE in Austin each year. A civic group or organization is supposed to send a boy or girl to the conference annually. Individual sponsors are discouraged. Last year DAVID HICKS and TIM BRISTOW attended the youth meeting held in Austin and your writer and CECIL BRIDGES sponsored their trips. This year the MARTIN COUNTY 4-H group sponsored CINDY BRITTON and MILDRED EILAND handled all the details. We are sure CINDY enjoyed her trip and next year we hope it is possible to send two more MARTIN COUNTY representatives to GENERAL CARR'S YOUTH CONFERENCE.

**N**OW that school has started community activities are due to get back in swing. That means more news for the paper. We will be on the phone calling you for your items and in the meanwhile call in and report them. We want our phone line kept busy with people calling in to report their news items. We might add that we would appreciate reports from club reporters the day after the meeting. It is easier for all concerned that way. Reporters put their notes into story form while it is fresh in their minds and the page gets a head start on type-setting.

**O**NE of the biggest things LYNDON JOHNSON has done since becoming President happened Sunday when he actually placed credit for the successful space flight we are now repeatedly experiencing in the U. S. with the two men most responsible. He credited GEN. EISENHOWER and the late President KENNEDY with starting the space program and giving it a paramount place in their respective administrations. Really, our space program was instituted seven years ago in the EISENHOWER years. Possibly JFK deserves the most credit, however, for it was his administration who stepped up the space work—authorized the long range program—and the successful jaunt into space by COOPER and CONRAD is almost a direct result of KENNEDY'S work. LYNDON was kind enough to put the credit where it belongs and for this statement of truth we are all grateful.

**M**A RTIN GIBSON called us the other day to advise that a total of \$225 had been subscribed and collected by three local organizations to provide the purchase of a wheel chair for a local little girl. The STANTON ROTARIANS, STANTON LIONS, and LEGIONNAIRES all contributed equally to the fund. In the meantime the girl had been accepted for treatment in a state clinic and the money was returned to the organizations. This gesture of big heartedness continues to emphasize the statement we have made many times in print—that the soul of Stanton is really strong when it comes to taking care of its own and helping strangers who deserve help along the highway of life.

## Impact Of . . .

(Continued from page 1) games to skillful players so they won't have to upset the tilting device.

The lawmakers decided to give district judges a raise of \$4,000 a year throughout the state.

Another new law provides fines for tattoo artists who decorate customers under 21.

If a teenager wants to get drunk as well as tattooed, he may also have trouble with his parents. A law now specifies that only a parent, guardian, or adult husband or wife may furnish beverages to anyone under 21. The minor can drink it only in the presence of the adult.

A violator risks a fine of up to \$100, Texas Liquor Control Board officials say the law is a good one because it will help them prosecute persons providing intoxicants to minors.

The Legislature also passed a law allowing truck tractors to tow double trailers on Texas highways. One trailer was allowed in the past. In view of a stepped up safety drive to cut down on highway accidents, this law could contribute to accidents.

The State Board of Hospitals and Special Schools was abolished. A new Department of Mental Health and Retardation was created. The Texas Commission on Higher Education was abandoned. A coordinating board with broad powers over courses, degrees and financing of state colleges and universities was created.

A beefed-up Texas Water Development Board will become responsible for water planning and the financing of dams and pipelines to carry water from one part of the state to another. The Texas Water Commission will concentrate on deciding claims.

The Legislature voted to buy the governor's office a new twin-engine airplane.

A new law also calls for regulation of professional sanitarians, water well drillers and lie detector examiners.

A new law raises the maximum compulsory school attendance age from 16 to 17 years. Judges in county courts are now permitted to free defendants on good behavior after they are convicted of drunk

Mr. Reed was a brother-in-law of Elmo Pinkerton of Stanton.

driving, aggravated assault and other felonies.

You can also find the police knocking at your door if you telephone any person and either threaten, bother, harass or disturb his rest and a complaint is made. The telephone caller can be put in jail, fined, and even lose the right and privilege of having the use of a telephone if he tries the phone harassment stunt.

## Record Books Judged At Fort Stockton

Five members of Martin County 4-H Clubs were awarded first places in the District VI record book judging in Fort Stockton on Wednesday, August 25, according to Bob Johnson, county agent for Martin County.

Winners in that competition are to have their record books considered in the state contest, which will be held in College Station the first week in September. Winners in the state contest will go to the 4-H Club Congress in Chicago, where scholarships and other awards will be given to the national winners.

The senior division is made up of members who are 14 years and older. Winning first place from Stanton were Cindy Britton, girl's leadership; Tim Bristow, national electric award; Butch Robnett, citizenship; David Howard, field crops, and Johnny McIntyre, agriculture.

Others competing from this county in the senior division were: Gary Reed, Santa Fe award; Donnie Jones, boy's achievement; Cathy Hazlewood, clothing, and Cindy Pickett, girl's achievement.

In the junior records division, made up of members 13 years and under, blue award ribbons were given to Don Roper, beef; Steve Robnett, poultry; Willie Wells, field crops; Ronny Johnson, achievement; Dianna Mims, achievement; and Doris Howard, home improvement.

Red awards were given to Deborah Hazlewood, home economics; Leslie Butler, safety, and Curtis Howard, agriculture.

There were 355 record books considered in the Fort Stockton competition, and Johnson and Mrs. Mildred Eiland, county home demonstration agent, were on the committee chosen to judge the record books.

Sen. George Murphy reports that growers in California lost \$10 million when 8,000 acres of asparagus went unpicked. Tomato growers lost an estimated 521.5 million when the shortage of available labor forced them to cut back their planting.

The economics of states as far north as New Hampshire are now affected by the Wirtz order. New Hampshire Congressman James Cleveland reports that termination of the bracero program has "curtailed the use of Canadian woodchoppers who traditionally and necessarily assist us in harvesting the pulp."

Sen. McIntyre says that Wirtz's refusal to permit the use of Canadian workers will cost the state \$200,000 a day. Some aides to the Labor czar suggest that inmates of state mental institutions be used to gather the apples instead of the Canadians.

Managers of two West Texas Chamber of Commerce offices were named to posts of the CC Executive Association in El Paso last week.

Brownwood manager Elton Ables was elected secretary-treasurer, while R. D. Thompson of Sweetwater was elected as news editor.

Others elected included Sias Ragsdale, Jr., of Denton, president; and John Logan of Lubbock, vice-president.

Don Goodall, assistant manager of the U. S. Chamber of Commerce legislative department, told the group chambers face competition for leadership in community development from labor unions. "Organized labor intends to replace chambers of commerce and other voluntary action groups as the focal point for community leadership," he said.

## Variety . . .

(Continued from page 1) the domesticated monkeys here at home and send our money to those monkeys in the Congo. And we might add a few cents to Marsalis Park Zoo and put some of those Dallas politicians in them out there.

## Special . . .

(Continued from page 1) municate with those he represents more easily and will also have more time to communicate with those he represents more easily and will also have more time to communicate with fellow Senators to facilitate the legislative process.

3. Senators in recent years have had to hire additional employees to accomplish the work of the Senate; this also has meant delegating work which a Senator would rather attend to personally.

4. Under the 2 1/2 rule of the Senate, any 11 members now can block passage of any bill at any time they choose. Under the 30 member plan, 14 votes would be necessary to block a bill, thus making it harder for a minority to hinder the wishes of the majority.

Those who are AGAINST say:

1. Enlarging the Senate would dilute and weaken the quality of men coming to the Senate. The larger the number of people voting the stronger a person must be to gain election.

2. The present ideal electorate of a Senatorial District is 309,000 which is over 100,000 less than a Congressional District and should not be smaller. This is the approximate number in each District under the 31 member districting plan passed by the 59th Legislature.

3. An increase in membership will not appreciably increase either rural or urban representation. The purpose of this amendment is to perpetuate a small number of the Senate in office. The Senate seats belong to the people of Texas, not any Senators.

4. The voters do not know what districts they will be getting if this passes. The 59th Legislature did not pass enabling legislation anticipating a 39 member Senate; therefore, a special session of the Legislature will be necessary if this passes. The 59th Legislature did not pass enabling legislation anticipating a 39 member Senate; therefore, a special session of the Legislature will be necessary if this passes. The 31 member plan was passed.

At Howard County Junior College, she will major in English and plans to make teaching her career.

Keith lives in the Grady community. He was salutatorian of the 1964 graduating class of Flower Grove High School. He was an FFA member for three years. He raised pigs for his FFA projects. Keith was chapter reporter for one year, and was also reporter for his sophomore, junior and senior classes. He entered the science contest and participated in the regional interscholastic competition his senior year. He played football and participated in track events his junior and senior years. He was active in the Grady 4-H Club for eight years, raising capons for his demonstration.

Keith will be a sophomore at HCCJ, where he is majoring in business administration. After completing his work there, he will attend Texas Tech. This marks the second year the scholarship; from Cap Rock has gone to Howard.

Cap Rock Electric Cooperative presents two scholarships to Howard County Junior College each year. One goes to a boy and one to a girl, whose homes are served by the Cooperative's electric lines. Each scholarship pays for tuition, fees and books for two semesters.

Mr. Reed was a brother-in-law of Elmo Pinkerton of Stanton.

## New Hampshire Apple Growers Hurt By End Of Bracero Rule

The headstrong attitude of Secretary of Labor Willard W. Wirtz now threatens New Englanders with economic crisis.

Wirtz instigated the end of the contract between the United States of Mexico concerning the employment of braceros in this country last December 31. He argued that unemployed Americans, union members would gladly take the place of the missing Mexican laborers. He was wrong. The Americans are not going to do stoop or any other kind of field labor as long as the long arm of the "live off the country" programs exist.

Growers of fruit in California and Florida, and of cotton in Texas, tried in vain to recruit workers throughout the country, and finally Wirtz relented some and allowed special workers to go to California. But the damage had been done.

Sen. George Murphy reports that growers in California lost \$10 million when 8,000 acres of asparagus went unpicked. Tomato growers lost an estimated 521.5 million when the shortage of available labor forced them to cut back their planting.

The economics of states as far north as New Hampshire are now affected by the Wirtz order. New Hampshire Congressman James Cleveland reports that termination of the bracero program has "curtailed the use of Canadian woodchoppers who traditionally and necessarily assist us in harvesting the pulp."

Sen. McIntyre says that Wirtz's refusal to permit the use of Canadian workers will cost the state \$200,000 a day. Some aides to the Labor czar suggest that inmates of state mental institutions be used to gather the apples instead of the Canadians.

They are tasty, meaty, and just perfect for a change in the family menu.

## Buck's Barbecue

In Old Ice House Building In Downtown Stanton.

Must be able to use typewriter; well — spell accurately — handle news items over the phone — supervise a simple set of books.

## Stanton Lions Hear Discussion On Communism

John Wood presided when the Stanton Lions Club met for its regular Tuesday noon meeting at the Motel Belvue.

The singing was led by John Roueche, and the invocation was given by Claude LeMond.

Bobby Hamm, who attended a Farm Bureau Citizenship Seminar at Sam Houston State Teacher College this summer, spoke to the group on "The Threat of Communism."

A short discussion was held by the group on the Teacher's Appreciation night, which will be held September 14.

His parents and Francis and Ronnie, attended the commencement exercises along with Mrs. W. M. Wozencraft and Mrs. I. T. Graves.

West Texas State University is one of the former Texas colleges changing its name to university status.

## Bobby Graves From West Texas Gets Degree

Miss June Stehman of St. Jo, formerly a teacher in the Stanton schools, and a friend, Mrs. D. R. Brown of Fort Worth, spent Saturday and Sunday in Stanton visiting Mr. Mrs. M. L. Koonce and other friends.

Mr. and Mrs. Joe Stewart visited last weekend in Plainview with their son - in - law and daughter, Mr. and Mrs. Gerald Smith and family.

## West Texas Men Named To CC Positions

Managers of two West Texas Chamber of Commerce offices were named to posts of the CC Executive Association in El Paso last week.

Brownwood manager Elton Ables was elected secretary-treasurer, while R. D. Thompson of Sweetwater was elected as news editor.

Others elected included Sias Ragsdale, Jr., of Denton, president; and John Logan of Lubbock, vice-president.

Don Goodall, assistant manager of the U. S. Chamber of Commerce legislative department, told the group chambers face competition for leadership in community development from labor unions. "Organized labor intends to replace chambers of commerce and other voluntary action groups as the focal point for community leadership," he said.

## Funeral . . .

(Continued from page 1) Mrs. Melba Robinson of Big Spring, and Mrs. Mary Beff Lynes of San Bernardino, Calif.; two sons, William Loyd Willey of Ontario, Calif., and Keith Wayne Willey; one sister, Mrs. Myrtle Morris of Stanton, and five grandchildren.

Palbearers were Claude Treadway, Andrew Dorner, J. D. Youngblood, Emory Walker, and W. W. Boyd, all of Midland, and S. L. White, Stanton.

## Library Lines

MRS. RALPH CAFFEY, Librarian

Library Hours: Monday, 1 - 8 p.m., Tuesday, Wednesday, Thursday, 1 - 5 p.m., Saturday 10:00 - 3:00 p.m. Please note the new library hours effective September 7, 1965. These hours will be an experiment to see the response of the public. The library will be closed for Labor Day.

The Reading Club Program is over, with 30 boys and girls reading and reporting on at least 12 books, 16 having read over 12. There were 68 who read and reported on at least one book. The requirements were harder this year, but more books were read than last year. A check with last summer's program finds that 39 read at least one book, and 22 completed the required number. Sharon Elaine Graves, seven years of age and in the second grade, read 63 books. Stacy Payne eight years of age and in the third, read 49. We are very proud of each one who read and received a certificate and their pictures will be in the next issue of the paper if nothing happens, along with the complete list of names and the number of books they read.

The library would like to recognize the following girls who helped any at all in the library or in the selling of books: Doris Allen, Beth Ward, Faye Ringener, Joyce and Brenda Standefer, Linda Manning, Linda Caffey, Anita Woody, Cindy Pickett, Christine Woodrow, Susan Vest, and Terry Sue Lively. Evelyn Parker put S&H stamps in the books for us. Every bit of volunteer help makes it possible for me to get more books on average farm consumer used the shelves for your pleasure. 56 kwh per month at a cost of 6.15 cents per kwh. In 1964, Ethel Koonce of Pecos, was the same consumer was using a visitor in the M. L. Koonce home one day last week.

The Stanton Rotary Club met August 25 at the Motel Belvue for its regular noon meeting. Olen Puckett, Big Spring, presided at the meeting.

The invocation was given by Victor Ortiz, and the pledge to the flag and the songs were led by Coats Betnley.

Guests introduced by O. B. Bryan were Worth Peeler, Big Spring; Doyle Corder and Bill Vaughn of Stanton; and A. C. Fleming of Lenoreh.

Claude LeMond, program chairman, introduced Dr. Allen Fisher, who told of plans to take care of patients at the hospital in case of any disaster.

The benediction was given by Philip White.

## Cap Rock Elec . . .

(Continued from page 1) pany cost \$669,945. REA was paid \$116,089 on principal that was due and \$600,000 in advance payments, making a total of \$716,089 paid on indebtedness during the year. The Cooperative made a d e interest payments of \$89,021 and taxes amounted to \$15,503.

The Cooperative has returned to its members \$837,153 in capital credits since 1957. The \$207,390 to be paid in October will make a total of \$1,004,543 returned to members of the Cooperative.

Use of electricity has shown a steady increase through the years while the member's cost per kilowatt hour has dropped spectacularly. In 1944, the for me to get more books on average farm consumer used the shelves for your pleasure. 56 kwh per month at a cost of 6.15 cents per kwh. In 1964, Ethel Koonce of Pecos, was the same consumer was using a visitor in the M. L. Koonce home one day last week.
