Midland Rock Show To Feature Special Room

The fluorescent room will be one of the special attractions at the third annual Rock Show sponsored by the Midland Gem and Mineral Society, Oct. 23-24 at the National Guard Armory.

The display will be assembled and narrated by Mr. and Mrs. Marshall Keathley. Core Laboratories Inc. will furnish the long wave ultra-violet lights.

The Keathleys will give a description and explanation of fluorescence and phosphorescence. Ultra-violet light enable one to see beautiful, glowing, spectacular colors and weird designs in rocks and minerals not visible under ordinary white light.

They will demonstrate the types of luminescence in mineral and rock specimens excited by long and short wave ultra-violet lights.

Rough specimens, contributed by R. V. Hollingsworth, Jim Turner, and club members, will include calcite, fluorite, willemite, spalerite, hydrozincite, opal and ascheelite; polished specimens and slabs of agate, chalcedony, chert and jasper.

term lease. Lynn White. 12-t

Petroleum Prod., Farms, Ranches

M-6

Texaco petroleum products, farms, ranches, commercial, and industrial. Roy C. Alford, Box 6326, Midland, Texas, LO 3-2620. 3-5-tnc

Oil specimens from the major producing horizons in West Texas will show glowing colors under ultra-violet lights. Not all rock and mineral specimens will fluoresce, but all oil samples will to a certain degree. For this reason ultra-violet light, often referred to as black light, plays an important role in oil exploration.

Working demonstrations under the direction of Charles McCamey, will be another feature at the show. One may see the actual cutting of a rough rock into a gem stone. Mr. McCamey will explain the procedure while members of the club work with rocks — saw or slab, trim, grind, sand and polish — an turn out cabachons of agate, Jasper, pertified wood, etc. Several tumbler will be in operation to show the method of polishing many pounds of small lstones at one time.

Visitors will have the opportunity to see the method by which diamonds are cut while Mrs. C. R. Webb and Leslie Ann Page facet. Quartz and other crystal material will be used in the facet demonstration.

Gerald Galge and R. J. Casin will do silversmithing, i.e., making sterling mountings and jewelry. A rockhound's jewelry is not the most expensive but it is usually the most precious with sentiment.

Advanced tickets are now on sale and may be purchased from members of the club, according to Jack Darden, show chairman.

Library Lines

MRS. RALPH CAFFEY,
Librarian

Library Hours: Monday 1 - 8 p.m.; Tuesday, Wednesday, Thursday, 1 - 5 p.m.; Saturday 10 a.m. - 3 p.m.

The library is becoming more of a community center for various activities as well as for reading and research, which is as it should be.

Monday the Beta Sigma Phi Council met here, Tuesday a 4-H group met here, and as it goes each week. Thursday morning Miss Elizabeth Karle, field consultant of the Texas State Library, was here to advise and help me with any questions and problems I had.

Saturday night my family and I had the pleasure of attending the Martin County 4-H Achievement Night, and I had the pleasant task of accepting a donation for books from the Courtney Girls 4-H Club. The title, "Public Relations," might be added to the task of the librarian, which I like.

This past week the Midland Library sent another group of books for our benefit. Mrs. R. H. Kelly and family gave two books in memory of Mr. R. H. Kelly and Charles Kelly entitled, "The Whole Armor" by Faith Baldwin, and "The Living Faith," by Lloyd C. Douglas. She also sent all of the Reader's Digests for the first eight months of 1965, for which we are grateful. Mrs. Windell Thomason gave six books.

The only problem I have is getting the books given processed and on the shelves as fast as I would like to.

Introducing the tuned car. 1966 Buick.

What makes a car a car is styling, performance, ride and handling. Only when they're all tuned together is the car a Buick. Like this 1966 Riviera Gran Sport.

You know how well your car's engine runs after a tuneup? Buick tuning has the same effect on the whole car. Not just the engine. The whole Buick. Everything blends with everything else. Styling. Performance. Ride. Handling. All tuned to work together in harmony. That's what the tuned car is. A Buick. Only Buick is the tuned car. (And every Buick is the tuned car.) What the tuned car is is a masterful blending of all the things that make a great car greater. The Riviera for 1966 is the tuned car. It features six-passenger seating, disappearing headlights, a silently efficient new ventila-

ting system and the kind of roadworthiness you'd expect in a car that costs twice as much. (You can get a Riviera for your desk as well as your garage. Send \$1 in check or money order to Riviera, P.O. Box 68, Troy, Mich., for an accurate 1/25 scale model '66 Riviera.) But Riviera's not the only tuned car. LeSabre is, too. And Wildcat. Electra 225. Special. Skylark. Sportwagon. See them all at your Buick dealer's. The tuned car may not mean much to you now. But then you haven't had a chance to drive one yet. Wouldn't you really rather have a Buick?

There's an authorized Buick dealer near you. See his Double-Checked used cars, too.

'Indifference' Hit By TESCO Speaker

If America has any deadly disease, it is indifference, Dr. Charles E. Irvin told more than 600 Texas Electric Service Co. employees, their wives and guests Wednesday night in Odessa.

He was the guest speaker at the company's annual dinner honoring members of the Quarter Century Club, consisting of employes with 25 years or more continuous service. The dinner was in the American Legion auditorium and was followed by an entertainment program and dancing.

The speaker condemned those Americans who have adopted an attitude of "sophisticated moderation" and pleaded for his listeners to become emotionally involved in living.

"People who are aloof and detached from life may have an address," Dr. Irvin said, "but they don't live" there. America never would have become the nation that it is if our forefathers had refused to become emotionally involved in the establishment of the greatest nation on the face of the earth."

Dr. Irvin also urged that each individual learn the difference between accountability and responsibility.

"Accountability," he declared, "sets our standards at a mediocre level, just enough to get by. Employes who set for themselves only a minimum standard of effort and achievement can destroy a successful company. A similar attitude on the part of people has destroyed every nation that has followed it."

"Responsibility is giving something more than is expected, building a life that is vibrant and productive. The only difference between suc-

cess and failure is giving just a little bit more of ourselves. We've got to return to the resourcefulness that made this nation great."

Beeman Fisher, president of Texas Electric, presented a gold watch to W. S. Roberts of Monahans, who became a member of the Quarter Century Club this year. In his address to employes Fisher pointed out that public confidence has to be earned every day.

"The public expects our company to plan and build ahead to meet their growing demands for electric power," Fisher said, "but much of the confidence they have in Texas Electric Service Co. is because they know and respect you men and women. People are interested in other people, not in machines and steel and concrete."

Included among guests at the head table were Mr. and Mrs. J. L. Dhoades of Odessa and John P. Butler of Midland, directors of the electric company. Master of ceremonies was E. D. Scratch, manager of the company's western division.

Mel and Katy Dacus from Fort Worth's Casa mana entertained the group with songs, followed by a sing-song. The remainder of the evening was devoted to the music of Jess Gay and his orchestra.

The four H's in the 4-H emblem stand for Head, Heart, Hands and Health.

The 4-H Clubs are valuable training grounds for the nation's youth. More than 23 million men and women have been 4-H members.

 Deputy.

The complete convention program was confirmed and announced by a five-member committee which drafted it. Opening address for the big Baptist meeting at Houston's Municipal Coliseum will be delivered by Dr. W. A. Criswell, pastor of the First Baptist Church of Dallas.

Convention President Abner V. McCall, president of Baylor University in Waco, will share the opening night program, Tuesday, Oct. 26.

Each convention session will open with a Bible study led by Dr. Curtis Vaughn, professor at Southwestern Baptist Theological Seminary, Fort Worth.

Three other seminary professors will speak on the program—Dr. Penrose St. Amant and Dr. Allen W. Graves of Southern Baptist Theological Seminary, Louisville, Ky., and Dr. Roy Fish of Southwestern Seminary, Fort Worth.

Dr. W. F. Howard, pastor of the Park Cities Baptist Church in Dallas, will deliver the annual convention sermon.

Three other Baptist pastors will deliver major convention messages—the Rev. C. A. Roberts of Tallahassee, the Rev. H. J. Flinders of Waco, and the Rev. Vernon Elmore of Corpus Christi.

A personnel associate for Southern Baptist Foreign Mission Board, the Rev. Sammy DeBord of Richmond, Va., will speak at the mission emphasis session; and the top executive for the Southern Baptist Sunday School Board, Dr. James L. Sullivan of Nashville, Tenn., will deliver the closing address.

Just prior to the big Baptist General Convention, two other state Baptist conventions will meet here—the Texas Baptist Brotherhood Convention and the Texas Baptist Woman's Missionary Convention, both slated Oct. 25-26.

More than 7,000 Baptists from throughout the state are expected to attend the three conventions.

Preceptor Mu Chapter Met Oct. 7

Preceptor Mu Chapter met in the home of Mrs. Louis Rotten October 7.

Mrs. Glenn Brown, president, was in charge of the business meeting. The chapter voted in favor of having a refresher course in the place of the regular spring book review. Mrs. Brown announced that the Children's Medical Center in Dallas had been chosen as the state project.

Mrs. John Wood, program chairman, gave the program on "The Role of the School in the Community."

Refreshments were served by the hostess, Mrs. Louis Rotten, to the following members: Mrs. P. M. Bristow, Mrs. Glenn Brown, Mrs. Helen Dawson, Mrs. Glen Gates, Miss Sammie Laws, Mrs. Bob Lattimer, Mrs. Elmer Long, Mrs. Stanley Reid, Mrs. Jesse Talton, Mrs. John Wood, and Mrs. J. N. Woody, Jr.

Cotton Samples Indicate Gain In Area

Cotton sample receipts from Glasscock, Howard, Martin and Miland Counties picked up considerably last week, according to B. B. Manly, Jr., In-Charge, Abilene USDA Cotton Classing Office. About 1,470 of the 7,058 samples classed last week came from this four county area, compared to 470 samples from the area for the previous week.

The classing total at the Abilene office reached 17,147 on October 8, 1965 compared to 59,857 at the same date last year. Grades showed a big improvement. Seventy-nine percent was white compared to 59 percent for the previous week. Grades were as follows: 11 percent Strict Middling white, 63 percent Middling

white, 5 percent Strict Low Middling white, 3 percent Strict Middling Light Spotted, and 18 percent Middling Light Spotted. Staple length continued about the same with 14 percent 15/16, 4 percent 31/32, 6 percent 1-inch, 3 percent 1-1/32, 2 percent 11/16, 18 percent 1-2/32, 40 percent 1-1/8, and 4 percent 1-5/32 and long-

er. Ninety-seven percent of the mike readings were 3.5 or higher. Pressley readings, supplied to the Texas Cotton Research Committee, improved considerably due to a large percent of the samples coming from the long staple cotton in Martin and Glasscock Counties. Readings were: 1 percent 70-

74, 6 percent 75-75, 17 percent 80-84, 22 percent 85-89, 3 percent 90-94 and 51 percent (long staple cotton) 95 and higher.

Prices received for white cotton in the short staple length ranged from even to slightly above loan price. Light spotted cotton brought even loan to about 75 points over loan on the lower grades. Long staple cotton having a high Pressley reading sold for 250 to 300 points over loan value. Cottonseed sold for \$45.00 to \$50.00 per ton.

U.S. Reds Must Pay Income Tax

The U. S. Tax Court has ruled that the U. S. Communist party must pay federal income taxes. It upheld an Internal Revenue Service finding that the party owes \$326,313 in income tax and penalties for 1951.

The ruling by Tax Court Judge Graydon G. Withey is subject to review by a Federal Court of Appeals if the party chooses to appeal.

The Communist party had claimed tax-exempt status under a provision of the tax code exempting some charitable, religious, educational and fraternal groups.

But Withey said his examination of the code "generally failed to disclose any basis upon which we can determine that (the party) is among those entities determined by Congress to be exempt from income taxation."

The judge noted that the party never has filed a federal income tax return — nor any application for exemption from the tax.

Noting that the only financial records maintained by the party were payroll and Social Security records and unexplained checks, he said the Revenue Service was entirely justified in computing the party's taxable income from its bank deposits. The party had asked the court to rule that the Revenue Service had acted arbitrarily in determining the taxable income in that manner.

Withey also said in an eight-page memorandum that the party had failed to prove that its bank deposits represented the tax-exempt dues of its members.

The party is to go on trial here Oct. 20 on a criminal indictment charging it with failure to register as a subversive organization under the 1950 Internal Security Act. A conviction is a previous trial was reversed on appeal.

Congress Settles Feed Grains, Cotton Issues

House and Senate conferees agreed Friday on the feed grains portion of the administration's big farm bill, and on sale and lease of cotton acreage allotments.

The feed grains language in the Senate version of the bill was accepted, but an alternative method of production control known as Plan B was eliminated.

Differences between the Senate and House versions of wheat and milk programs are still to be settled.

The bill now would continue the present voluntary production controls of feed grains with the total support level at 65 to 90 of parity. Parity is a yardstick aimed at giving the farmer a fair return in relation to his costs.

Included in the support level under the new bill would be additional direct payments, pegged this year at 20 cents a bushel for corn. The new language means that the support price, now set at \$1.05 a bushel, could be lowered and the direct payments increased and the same support level would be maintained. This would increase the incentive for farmers to join the voluntary production control plans.

Jettison Secretary Plan
The Plan B, that was petti-

soned would have allowed the secretary of agriculture to cut out the direct payments in favor of bigger bonuses for diversion of more than 20 percent of the farmer's acreage. The choice of using this approach toward crop reduction would have been left to the secretary.

Turning to cotton, the conferees agreed on House language that would allow sale or lease of acreage allotments across county lines, but only after two-thirds of the county's growers approved in a referendum. This referendum would have to be held at least every three years.

To Protect Tenant
In no case could allotments be sold or leased over state lines, and the sale or lease within the state could not take place between Jan. 1 and June 1. Aides said this is to prevent a tenant who had already planted a crop from having the allotment sold out from under him.

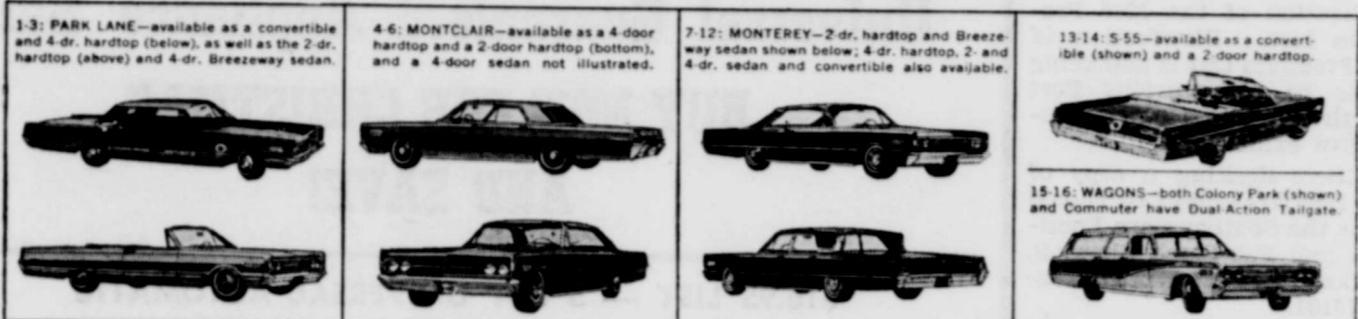

Agreement was reached also on the method of payment when a farmer puts his crop under a government price-support loan. The first payment could be made in advance of delivery of the crop second payment would be made at the discretion of the to the government, and the secretary.

The Launching Pad

By NEAL ESTES

AMERICAN heiresses seem to follow a pattern in marriage. MAMIE REYNOLDS, 22, heiress to a \$30-million tobacco fortune, first tried a foreign fellow — LUIGI CHINETTI, Italian race driver. The day she divorced LUIGI she entered into a marriage with one plain JOE GREGORY, a dog handler from Louisville, Ky. We don't know what MAMIE is going to find out now but OLD JOE, 39, twice his young bride's age is bound to discover that it is a lot easier to handle dogs than women. Experience is by far the best teacher. I have always made out well with my dogs.

RICHARD CHAMBERLIN, the star of DR. KILDARE on tv, appeared in a western role one evening last week. Did you see him in his new image? There is a reason for his shifting to the boots, big hat and 'hoses' too. LYNDON, top White House wrangler and boss of the LBJ, underwent surgery in Bethesda Naval Hospital. Doctors and surgeons from all over the nation either performed or assisted in the operation, including a team from the Mayo Clinic in Rochester, Minnesota. Why shouldn't DR. KILDARE have been up there too with his boss in the remuda awaiting service when LADY BIRD beckoned if the Chief Executive had developed a crisis? One thing about LYNDON JOHNSON—he leaves not stone unturned—even in his stomach.

ALBERT A. JOHNSON, known to many friends as PEEWEE, is interested in organizing a flying club in the county. JOHNSON advised us the other evening that FRED CHURCH was also interested in setting up a club for Stanton and both are enthusiastic about the possibilities of such a group. If you are interested contact either man.

It was good to have JOE RIORDEN, Lubbock business executive, public speaker, former actor, humorist and one-time talent scout for a named dance band, in Stanton to talk to the local Rotary Club. He brought an interesting program and it was appreciated by those hearing him. MISS PANSY ODENEAL and HARRY SAWYER, officials of SW. BELL TELEPHONE accompanied JOE to our city. RIORDEN is the Public Relations Director of BELL in West Texas.

Iwent up to the hospital Tuesday to see if there anything I could do for our society editor, NANCY POWELL. I mean anything to cheer her up. DR. JIM SHY is in charge of the medical know-how for NANCY. I walked in to find AYLIN KELLY and JUDY DRIVER holding down the desk; found MAXINE McARTHUR in a wheel chair in the lobby, and BOB LATIMER coming out of one the doctor's offices with a bandaged hand. JUDY, one of my proteges of yesterday, directed me to NANCY'S room. I found that kiddo resting well but pretty worried looking. I accused her of trying to emulate LYNDON JOHNSON but advised that DOC SHY would call the correct shots if surgery looked possible. NANCY got a bang out of my conversation and I think I left her in better spirits. I told her to have her husband, KOVEY, call me or the office if anything bobbed up that I could handle. After visiting with NANCY, I talked with MAXINE. She had experienced an accident in her home—a needle was buried deep in her foot. She was racing across the floor to change the tv dial when she picked up a loose needle on the carpet. BOB LATIMER left before we could talk with him about his lame hand. I told AYLIN and JUDY that it might be a good idea to bring my desk and typewriter up to the hospital. Seem as if more is going on up there that is newsworthy than is passing by our desk here in the office.

Santa Paula, Calif., Chronicle: "The steady pressure of inflation is being felt in the pocketbooks of each of us. Inflation is not an abstract thing. The fiscal policies in Washington fan the fires, and we pay more for the goods we buy. Unbalanced federal budgets nibble away at the value of the dollar. Housewives are finding this out the hard way."
