VARIETY

By NEAL ESTES

GOV. NELSON ROCKEFELLER of New York declared himself out of the presidential running "forever" this week. The Republican Party declared him out a long time ago and the people of New York will more than likely replace him with FRANKLIN ROOSEVELT, JR., come next November, as governor of that state.

Battery for the ultra-liberals was announced this week by the extremists who helped split the GOP two years ago. ROMNEY and JAVITS — both turned coat on the nominee of their alleged party in 1964. In our opinion JAKE JAVITS, the darling of the Harlemites and big civil rights man, really belongs in the Democratic party or in that new one the new leader is calling for all colored folk to form before the next presidential election. JAVITS has about as much business in a conservative party as a ice cube has in the furnace.

In case you were one of the ones anticipating sending a wedding gift to LUCI and PADDY think this over. Some of the gifts are being sent back. Other more expensive gifts from people not known to the family are going to be returned. Press reports say that unless one knows the JOHNSON family gifts of the expensive variety will not be accepted. I'll bet they won't have any trouble with sending gifts back from Watts, the government supported poverty pocket in California, and certainly no gifts of great value or significance will go to Washington for the wedding from Alabama.

LYNDON asked people awhile back to buy cheaper items in the meat line in an effort or bid to drive high prices down. What's happened since his request was made public? Why, hamburger and baloney have increased in price while porterhouse and t-bone steaks have remained the same. You can't win for eating.

Martin County may be small and have just a few hundred votes but they could be really important in the run-off election set for June 4. Look what happened in the sprawling 25-county senatorial race between PETE SNELSON and HARDEMAN. With big cities in the district and all, one small voting box registering as many as 65 votes could have changed the decision in that race. We note where CRAWFORD MARTIN, one of the run-off candidates, said this week: "Get out and vote on election day, otherwise, my opponent may spring a surprise victory by delivering a 'hard-core' minority vote of 300,000 on election day."

Stanton and Martin County experienced one of the hottest days of the year Monday but Tuesday brought about a twelve percent drop in the temperature and early morning winds cooled the community. After the quick 100-degree weather we are grateful for this respite from the heat.

DR. JACK WOODROW was by the office Tuesday to tell us that JULIE and the children would accompany him to Fort Worth for a trip and that he would not be in his office from May 28 through June 2. JULIE and JACK WOODROW and their children are some of our favorite people. We trust they have a nice trip to Ft. Worth and return to Stanton rested and refreshed.

VOICE: "Facts concerning inflation are being used in the same manner that a drunk man uses a light post — for support, rather than illumination."

Little League Season Opens May 31

Mr. and Mrs. J. C. Epley announce the engagement and approaching marriage of their daughter, Joanna, to William Coy McMahan, son of Mr. and Mrs. Coy McMahan, 120 Holly Street, Levelland.

Miss Epley is a senior secondary education major at Texas Technological College. Her fiancé is a graduate of Tech with a Bachelor and Master of Science Degree in electrical engineering. He is employed by the Defense Department, Washington, D. C.

The couple will marry at 6 p.m. August 16 in the First Baptist Church, Stanton.

Mahon Says River Project To Get Money

Congressman George Mahon announced today that the additional sum of \$3,500,000 is being made available for the continued construction of the Canadian River project for the current fiscal year. Congress had appropriated \$17,000,000 last year for the project and the additional funds have been made available as a result of the unanticipated speed of construction which has taken place.

Mahon, who heads the House Appropriations Committee, said that the budget estimate now before the committee for continuation of the project next year totals \$14,215,000. This will bring total appropriations for the project to about \$83,000,000 and will substantially complete it. Mahon said he anticipated no (Continued on page 8)

Tarzan Girl To Graduate At Wayland

One hundred twenty seniors will be graduated from Wayland Baptist College during fifty-fifth commencement exercises on May 28 in First Baptist Church, according to Wayland president, Dr. Roy C. McClung.

Among candidates for the B. S. degree is Francis Anne Graves, daughter of Mr. and Mrs. L. R. Graves, Tarzan. A 1962 graduate of Stanton High School, she is majoring in physical education and minoring in biology.

Miss Graves has been a member of the Flying Queens women's basketball team, Delta Chi social group for women, Physical Education Major and Minors Club, Biology Club, and Athletes for Christ.

She plans to teach in a secondary school. (Continued on page 8)

Editor's Mail

WAGGONER CARR
Attorney General of Texas
May 19, 1966

Mr. Neal Estes
Reporter
Stanton, Texas
Dear Mr. Estes:
Attorney General Waggoner Carr will speak Sunday, May 29, at the Memorial Day Services on the grounds of Big Spring Veterans Hospital.

Mr. Carr has requested that I extend a personal invitation to you to attend the ceremonies.

Inasmuch as the Big Spring services annually are the largest held by America's VA Hospitals and the current high interest in our country involvement in Viet Nam, it may be that you will want to cover the event.

This will be of local interest to your readers. Probably your local veterans organizations already have made plans to attend the services. Also, the families of four West Texas servicemen killed in Viet Nam will be honored.

Should you decide to send a representative and desire additional assistance or information, please contact me at GR 8-9811, Area Code 512, Austin, Dr. Hal Hansen, AM 3-3324, Big Spring, or Mr. Van Meter, Director of the VA Hospital.

Press facilities will be available during the program, which begins at 2:30 p.m. Thank you for your consideration.

Yours very truly,
Jerry Flemmons.

State Hospital Supervisory Helpers Needed

Mrs. Jim Tom has advised The Stanton Reporter of the need for supervisory help for the patients in the Big Spring State Hospital.

Helpers needed in particular are trained in specialized field to aid the hospital. Patients need supervision and women willing to devote a portion of their time to this worthy project are invited to call Mrs. Tom at SK 6-3645.

Transportation for those volunteering to help direct the activities of the Big Spring patients will be arranged. Women from the Stanton area will work on Tuesday (Continued on page 8)

Texas Electric Service Shuffles High Command

Burl B. Hulsey, Jr., executive vice president of Texas Electric Service Co., has been elected president and general manager of the company.

Beeman Fisher
Chairman Of Board

manager of the company, succeeding Beeman Fisher, who becomes chairman of the board.

Fisher, who has been president and general manager of Texas Electric since 1961, has been with the company since 1938. He also is a director of Texas Utilities Co. and of the Texas Atomic Energy Research Foundation.

The new president and general manager has served as a vice president since 1962 and as a director since 1964. Prior to becoming administrative assistant in the executive department in 1959, he was superintendent of transmission and had wide experience in operations of the company system.

Hulsey, a graduate of Texas A&M, served five years during World War II in the army and spent 28 months in the South Pacific. He was released from active duty in 1946 with the rank of major. He is a registered professional engineer and a member of the American Institute of Electrical and Electrical Engineers.

Memorial Day To Be Observed Here Monday

Many Stanton merchants will close Monday, May 30, for the observance of Memorial Day.

Among the merchants announcing closing plans were: Deavenport's D r y Goods, Friendly Food Store, Thriftway, and Harvard's Dress Shop. Other stores who are members of the Martin County (Continued on page 8)

Burl D. Hulsey, Jr.
President and General Manager

Two new directors of the company also were elected. They are W. K. Stripling Jr. of Fort Worth and Charles N. Prothro of Wichita Falls.

D. E. Kelch of Fort Worth was elected secretary and assistant treasurer. Other company officers include R. K. Hanger, vice president and general counsel; F. W. Rogers, vice president and treasurer; and W. G. Marquardt, O. G. Carlson and W. P. Portwood, vice presidents.

Re-elected as directors in addition to Fisher, Hulsey and Hanger, are W. P. Bomar, J. P. King, J. A. Gooch and Paul Leonard, all of Fort Worth; J. L. Rhoades, Odessa; Charles C. Thompson, Colorado City; John P. Butler, Midland, and G. L. MacGregor of Dallas.

Leo Fields Of Crest, Texas Lions Guest

Stanton Lions Club met Tuesday noon at Belyue Restaurant. Lion John Wood and Lion Bob Cain alternating as presiding officer.

Leo Fields, of Crest, Texas, was a guest of Lion Paige Eiland. Fields was athletic coach at Stanton High School in 1951. Lion Allen Fisher reported (Continued on page 8)

Three Games To Blast Lid Tuesday Night

The Stanton Little League will open the season's play here Tuesday night, May 31, with the Black Caps meeting the Red Caps.

Three games are on the opening night schedule as real lid blasters. The Sophomores will kick things off in the starting game scheduled for 5:30 p.m.

Old Settlers Group Names Committees

Members of the Old Settlers Reunion met at Cap Rock earlier in May to make plans for the annual reunion to be held in Stanton in July.

Hoot Tom was appointed to make arrangements for a catering service to feed the anticipated crowd.

Committees were named and a second meeting will be held on May 31 at Cap Rock.

Committees included: Special Recognition, Johnnie Estes, and Edythe Kelly; Finance, Miller Self (Fiddler) Estes; Memorial, G. B. Shelburne; Costumes, Jendo Turner; Program, Mary Katherine Bristow; Welcome, Bess Stewart; Flowers for Shuttles, Hattie Estes; Parade, Billy Houston, Morgan Hall, Ohmer Kelly, and Mrs. Bob Cox.

A total of 78 ball games will be played and it is hoped that all parents and Little League fans will be in attendance. The support of the fans and the sponsor insures the continuation of the Stanton Little League program.

Five Simonek Children Own School Record

The five children of Mr. and Mrs. Louis Simonek have an unusual and outstanding school record. They have a combined total of 22 years perfect attendance, and have received a combined 22 certificates.

The local paper will also publish the complete player roster in the next issue if it can be prepared by that time. For the past several years, The Stanton Reporter has been warmly congratulated for publishing game results. It is the only weekly newspaper in this area carrying complete scores. (Continued on page 8)

The Launching Pad

By NEAL ESTES

HAZEL and EZELL McKASKLE are still talking about their recent vacation visit to the native state of Louisiana. Truly, having worked in the native state for a number of years myself, I can say that the state is one of the most progressive in the union. People really live in Louisiana. The state is rich in history, rich in minerals, good roads, good water, good fishing places, good colleges, and in good people. The McKASKLES brought your editor a souvenir brochure from Winnfield, Louisiana. Winnfield is the birth place of the late HUEY PIERCE LONG, and his brother EARL LONG, both former governors of Louisiana. A third governor also claimed Winn Parish as his home—the late O. K. ALLEN. Louisiana is truly blessed with able men who now hold important seats in Congress and in the United States Senate.

LBJ CALLED for unity in South Viet Nam this week while the war within a war continued to mount. The Viet Nam people are now fighting a civil war between two factions. On one side we find the government troops of GENERAL KY and the rebels on the other. Calling for our allies to "cut it out" is about as effective as a man standing on the top of a burning pile of paper with a bucket of gasoline in his hand.

HERMAN, Texas turned down a school bond issue Saturday. Among the three rejected propositions was one for a new high school building. Sherman is in Grayson County, Fourth Congressional District. It is in the old SAM RAYBURN District. It appears bond issues are dying about as fast as they are proposed these days. With inflation upon us, the war running briskly in Viet Nam and prices continuing to soar, the people are in no mood to vote another tax of any kind.

Oil Activity Continues Brisk In Three Sectors Of County

By JAMES C. WATSON
Connally Oil Co. Inc. of Abilene has completed two stepouts to the Gordon Street, South (lower Wolfcamp) reservoir in Glasscock County.

No. 1 A. L. Houston, 3/4 mile southwest of the firm's No. 1 Stone, a recently completed two-mile east extension to the pool, flowed 215 barrels of 49-gravity oil plus 3 per cent water per day through a 12-64-inch choke from perforations between 9,592 and 9,708 feet after a 20,000-gallon fracture. Gas-oil ratio was 1,420-1.

Location is 1,000 feet from north and west lines of section 4, block 35, T-2-N, T&P survey, 13 miles southeast of Stanton.

No. 1-A Ed Tom, five miles southeast of Stanton, is a 1/2-

mile southwest flanker to the producing area. It spots 1,000 feet from south and east lines of section 48, block 36, T-1-S, T&P survey.

On the 24-hour potential it flowed 237 barrels of 56-gravity petroleum liquid through a 30-64-inch choke from a series of perforations between 9,695 and 9,900 feet. Gas-oil ratio was 1,650-1 and surface pressure was 220 pounds. The pay section had been stimulated with 15,000 gallons of acid.

Jake L. Hamon of Midland continues test No. 1 Pollock, Martin County wildcat, 11 miles northwest of Stanton, in an attempt to complete a Wolfcamp discovery.

While being drilled the explorer encountered a favorable show for production —

including 1,413 feet of free oil in a drillstem test at 9,320-9,500 feet. The section also carried a slight quantity of gas.

After drilling to 11,547 and finding the lower zones barren the operation plugged back to 9,724 feet inside the 7-inch casing which is set at 9,828 feet.

That pipe was perforated in the Wolfcamp between 9,009 and 9,412 feet and the hole load with brine. It swabbed naturally for an extended period and recovered brine water and some oil.

Now the perforated section has been stimulated with 11,000 gallons of acid.

Following that the well was opened up and flowed 42 barrels of load oil in 1 hour and died. The section then was

swabbed 12 hours. Recovery during that period was 28 barrels of load oil and 660 barrels of acid water with a slight show of gas.

During a following 12-hour period it swabbed 29 barrels of acid water which was cut with 10 per cent oil.

After a 13-hour shut in the fluid in the hole stood 6,000 feet below the surface. After being opened up the project swabbed for an unreported period. On the first pull of the swab the recovery was 100 per cent oil with the amount not gauged or estimated. During the remainder of that session of check the total fluid recovered was 75 per cent oil and it carried out a strong blow of gas.

The next testing reported was 11 hours of swabbing from

which 15 barrels of oil and 16 barrels of acid water was returned. There was a fair blow of gas.

The project was left open 13 hours on a 20-64-inch choke. The fluid was 6,000 below the surface. Then from two hours of swabbing 19 barrels of fluid — being from 50 to 75 per cent oil was recovered. At the end of the two hours the perforated zone swabbed dry.

Operator again shut the venture in overnight and at last report was swabbing with no results being available.

The possible pool opener is 1,980 feet from north and 680 feet from west lines of section 48, block 36, T-2-N, T&P survey.

Cutting Horse Show Is Set For Coahoma June 25

Some of the most widely known cutting horses in the state are to be in Coahoma June 25 for the West Texas Cutting Horse Association Show. The Cutting Horse Show will follow the American Quarter Horse Show slated for the same date at the Coahoma Roping Arena.

The show will go on both afternoon and night. The general public is invited to attend.

Included in the famous cutting horses to be in Coahoma will be the 1964-1965 champion, Hollywood Lynn.

There will be five classes with prize money posted for each class. The classes are \$250 novice - novice; \$500 novice; \$2,000 novice and open class.

All entry fees, with exception of \$3.50 per horse, will be repaid in prize money. The \$3.50 goes to pay for the cattle used in the demonstrations.

Boley Cotton of Woodson, Texas, is the secretary of the Association and handling general arrangements.

Negatives Are Poison

The Texas Parks and Wildlife Department cautions outdoor folks using "instant picture" cameras that the discarded negatives are poisonous to animals.

The department said tests have shown that such negatives have killed deer.

It urged persons using this type of camera to keep the exposed negatives while afield and later dispose of them in a place inaccessible to both domestic animals and wildlife.

HAVE YOU DRIVEN A . . . 1966 PONTIAC?

IN ALL FAIRNESS TO YOURSELF — DO SO BEFORE YOU BUY ANY OTHER CAR
"DEALING IS ALWAYS FAIR" AT PERMIAN PONTIAC

2714 W. Wall Midland, Texas

What's the best 5-letter word for fertilizer?

And for cotton—NIPAK 45. Get better cotton production and earn bigger profits. Sidedress your cotton with NIPAK 45 right now — for greater yield. (You may get more than the average \$6 return for every \$1 invested in fertilizer, depending on your farm. Experiment station tests averaged this.) NIPAK 45 — 45% nitrogen fertilizer from Urea — gives you one-third more nitrogen per pound than any other form of solid nitrogen fertilizer —

which enables you to handle less fertilizer and cover more ground in less time. NIPAK 45 is uniformly prilled, too. It flows easily, won't cake, clog or corrode your equipment. NIPAK also dissolves in the soil moisture and moves quickly to the root zone where it stays put until your crops need it. So for more grow power, ask your local NIPAK dealer about NIPAK 45. He can help you plan a complete fertilizer program because he can provide a complete fertilizer service.

The Exchange Desk

THE GRAHAM REPORTER: "Thirty indictments, the greatest number in the past 15 years, were returned Thursday by a 90th District Court Grand Jury after considering evidence throughout the day, examining witnesses, and conferring with District Attorney T. J. Rogers. The indictments ranged from theft, mortgaged property, burglarly, embezzlement, perjury, fondling, to passing worthless checks."

DENVER CITY PRESS: "Yookum County will be represented at the September 20, State Democratic Convention by six delegates and two alternates chosen at Saturday afternoon's county Democratic convention at the courthouse. Yookum County's delegates will be armed with two resolutions—one supporting President Lyndon B. Johnson and Texas Gov. participating in the May 7 primary to support party nominees in the November general election."

THE FORT STOCKTON PIONEER: "Three Pecos County banks had deposits of almost 14 million dollars on April 5, date of a call for report on condition issued by federal and state regulatory agencies. Comparative figures show that both Fort Stockton banks had increases both from a year ago in April and from the December 31, 1965, statements."

THE FOARD COUNTY NEWS: "The Texas Highway Patrol investigated seven accidents on rural highway in Foard County during the month of April, according to Sgt. Floyd Etheridge, Highway Patrol supervisor of this area. These crashes resulted in one death, three persons injured, and an estimated property damage of \$5,410.00."

Question-And-Answer

(This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.)

Q—I got a letter from the service center about my return. Should I send the information requested to the service center or the district office?

A—In most cases, your reply should be sent to the service center. If the letter does not indicate where the information should be sent then look at the top of the notice. Send your reply to the office listed on the letterhead or masthead. If a return envelope was sent too, it should be used for your reply.

Q—I've been asked to send some tax records in to back up a deduction I claimed on last year's return. Can I bring them in, rather than mail them?

A—Yes, you may. However, most taxpayers prefer the convenience of handing the matter by mail instead of in person. To guard against loss of your records, photostats or other copies can be submitted so that originals are not sent through the mails.

Q—Who has to pay self-employment tax?

A—This tax applies mainly to those who work for themselves rather than for an employer. Anyone engaged in a trade, business or profession for himself is liable.

Exceptions to this are public officials, clergymen and Christian Science practitioners, non-resident aliens, and members of certain religious sects opposed to the acceptance of any private or public insurance (including Social Security benefits.) They do not have to pay this tax.

Q—How much do you take when a person hits a big pay-off at the race track?

A—In most cases, the government does not actually withhold tax when the tickets are cashed at the track. What happens is that the track obtains the identification of the winner, including Social Security or tax account number, before payment is made.

The information on track winnings is then handled like dividend and interest payments. The payer, in this case the race track, files an information return with IRS showing the amount paid and the name and social security number of the taxpayer. This information can then be compared with what the taxpayer reports on his return.

The winner often is required to file a declaration of estimated tax since the winnings are not subject to tax withholding. Only when the winner is a nonresident alien is the track required to withhold on the winnings.

Q—I'm paying Social Security tax on cash tips I receive. Is my boss matching this as he does on my regular salary?

A—No. The law provides only for employee contributions to Social Security on tip income. Your employer is not the source of your tip income; for that reason he is not required to pay Social Security tax on tips.

Q—My wife and I are getting a divorce. What expenses will I be able to deduct next year?

A—Alimony payments may be deductible but legal fees to get a divorce and child support payments are considered personal expenses and are not deductible. If there are children and you provide more than half their support, you may be able to claim them as dependents.

Q—My return was audited and some of my expenses were disallowed. I have a report showing that I will owe additional tax. Is there anything I can do about this? I still think I'm right.

A—You may request a district conference to discuss the disallowed deductions. Procedures for requesting this conference are explained in the notice you received with the explanation of adjustments proposed.

By requesting this conference you receive an independent review of the items questioned. Legal counsel is not needed for this conference but you may bring a lawyer

Bible Comment—

Character Is Great Theme In Bible

What the Bible has to say about character is not to be found in one place, it permeates the Great Book from Genesis to Revelation.

After its supreme theme—the message concerning the character of God, and the glorious Gospel of His grace, it is the Bible's greatest theme of Man's relationship to God and to his fellow man.

Nor are these greatest themes of the Bible in any sense separate or unrelated. Jesus said to His disciples: "Be ye perfect, even as our Father in heaven is perfect." It is in being godly, like God, that man attains his highest and best.

This close linking of man and his God is the distinctive quality of Judaism and Christianity. Most other religions have been characterized by fear, not in the sense of awe and veneration in the presence of a Perfect Being, but in abject, appealing fear and humiliation.

Philosopher Wants To See A National Program Of Tractor-Care, Auto-Care, Etc.

Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw apparently has tractor trouble, his letter this week indicates.)

Dear editor: I was out of newspapers yesterday and nothing to read and nothing else to do so decided to do a little tractor work, as I understand the surplus is being reduced and a man can now plow without feeling guilty.

My intentions were good but the tractor wouldn't start, and I got to thinking. That tractor I'll admit is 17 years old but it's still got some good years ahead. I know a neighbor who has a 28-year-old model, and it runs all right. Probably what it needs is a carburetor, new spark plugs, new points, a new battery, a new generator, and possibly the valves need grinding and to tell the truth probably a complete over-haul would help.

But then runs into a lot of money. Then I got to thinking some more. Why should a tractor, just because it's old, have to be mortgaged to the future to stay off the junk heap?

What's the matter with Congress? Why not a Tractor-Care Program? To shorten it, you could call it Tractor-

Nineteen Years Ago

Lela Boyd of Dallas, spent the weekend with her mother, Mrs. Charles Ebbersol, and Mr. Ebbersol. Miss Boyd, who is a Spanish major and now teaching in Highland Park, has been chosen one of five persons from Texas to attend a summer session at the University of Mexico, as guests of the Mexican government.

Mr. and Mrs. Henry Hull of Hobbs, N. M., are visiting in the Lomax community.

The annual American Legion Memorial Service will be held Thursday night, May 30, at the First Methodist Church. All veterans of World War I and II and their wives are to be present.

Mrs. George Tom of Fort Worth, is visiting in Stanton with her mother, Mrs. Flanagan; her son, Hoot Tom, and daughter, Mrs. Sam Wilkison. Later she plans to go by plane to California to spend the summer with her daughter, Mrs. Ernest Epley, and Mr. Epley.

Mr. and Mrs. Joe Bell have returned to their farm southwest of Stanton from Capitan, N. M.

Yvonne Atchison and Henry Minton were married May 11, at the home of the bride's grandmother, Mrs. Lou Annie Henson. Ellmore Johnson, minister of the Church of Christ, read the double ring ceremony. Miss Atchison is the daughter of Mr. and Mrs. C. F. Atchison, and Minton is the son of Mrs. G. B. Minton.

George F. Hogg and family have moved from Lamesa to a farm in the Courtney community.

Mary George Morris, daughter of Mrs. Flora Morris, was married Thursday, May 1, to W. E. Neill, Jr. at Van Horn. The only attendants were Mr. and Mrs. Neill, parents of the bridegroom. Immediately following their marriage, the couple came to Stanton for a short visit with the bride's mother, and then went to Laredo.

Beta Delta and Xi Theta chapter of Midland, were hostess to the first pre-war area council meeting of Beta Sigma Phi in the Crystal Ballroom of Hotel Scharbauer Sunday afternoon. Organization of an area council was completed following a luncheon. Stanton women were among those attending. Sammie Laws reported on work of the Stanton chapter.

Lady, you'll just love flameless electric cooking...it's so cool

You'll love your flameless electric range most of all during hot weather. Your kitchen stays cooler because electric surface units transfer heat by direct contact with utensil bottoms. They send their heat through the utensils and into the food, not the kitchen air. The oven is

Insulated all around, including the bottom, to keep heat inside where it belongs. There's no flame, so no intake and exhaust of air is needed to support combustion. The big difference in kitchen comfort is one of the many reasons why you'll just love flameless electric cooking.

TEXAS ELECTRIC SERVICE COMPANY
CORN BRIDGES, Manager SK 6-3371

Of Mince Meat And Marinades

Chicken never need become commonplace no matter how often it's offered. Simply pique the family's interest with a marinade of mince meat in Italian—sautéed with wine vinegar and salad dressing mix. The Borden Kitchen topped this Pollo Maria with juicy whole tomatoes for a hearty dinner that's sure to intrigue.

Pollo Maria
(Makes 4 servings)

- 1 (5/8-oz.) envelope low-calorie Italian dressing mix
- 1/4 cup red wine vinegar
- 1-1/3 cups (one-half 28-oz. jar) None Such Ready-to-Use Mince Meat
- 1 broiling chicken (about 1-1/2 lbs.), split in half
- 1 medium-size onion, finely chopped
- Salt to taste
- Pepper to taste
- 1 (1-lb.) can Italian whole tomatoes

Prepare Italian dressing mix according to package directions. Stir in wine vinegar and mince meat. Remove skin from chicken. Place chicken in a shallow dish; pour mince meat marinade evenly over top. Marinate chicken at room temperature for one hour. Remove chicken from marinade. Place, cavity side up, in a 12 x 7-1/2 x 2-inch baking dish. Sprinkle onion over chicken; cover top of dish tightly with aluminum foil. Bake in a slow (325°F.) oven 30 minutes. Remove from oven. Turn chicken over. Sprinkle with salt and pepper. Spoon about 1 cup (half the amount) marinade over chicken. Carefully spoon whole tomatoes over all. Replace aluminum foil. Bake 30 minutes longer, or until chicken is tender.

Along with a set of graduated measuring cups for dry ingredients, it's a good idea to have a measuring cup for liquids in your kitchen. The latter will have the 1-cup marking below the rim to avoid spilling in measuring liquids. Read the classified ads!

Beta Sigma Phi Activities

The Rho Xi chapter of Beta Sigma Phi held their last meeting for the year Thursday, May 18, in the Martin County Library. The business meeting was called to order by Mona Elmore, chapter president.

The yardstick for this year was filled out and names were drawn for Phi Pals for the coming year. Nona Cain announced the different committees, and told who was on each committee.

A salad super was served to Pat Miller, Linda Bess Angel, Joyce Bergstrom, Sara Blocker, Janie Boyd, Fijl Brandt, Wanda Bryan, Nona Cain, Johny Conner, Mona Elmore, Patsy Jones, Doris Green, Janis Harrison, Edwenna Tom, and Claudene Sorley.

Gifts were exchanged, and Phi Pals were revealed.

Valley View HD Report

The Valley View Home Demonstration Club met at 2 p.m. Thursday, May 12, in the home of Mrs. U. H. Butler in Stanton.

There were eight members and four guests present. The business meeting was called to order by the recreation chairman, Mrs. Delmar Hamm, as both president and vice president were absent. Roll call was answered with a suggestion for a program for the 1967 yearbooks.

A report was given on the "42" party held in April to raise funds for the Cancer Crusade. The exact amount collected can not be determined at this writing, as several donations had not been turned, but had been pledged. The turn-out for the party was small, as so many of the club members could not make it due to the very muddy roads. About \$28.00 was donated at the gathering. Those unable to attend may still contribute to the fund by contacting Mrs. O. D. Green, Valley View club treasurer.

The program at the May 12 meeting was given by Mrs. Lila Flanagan. She displayed examples of styles, fabrics, and weaves in lingerie, and led a discussion concerning the use, care, and qualities of the various fibers used in modern lingerie. Many of the man made fibers are blended with natural fiber known to all of us here in West Texas, the old stand-by, COTTON.

Guests attending were Mrs. W. Clements, Mrs. Bess Herring, Mrs. D. M. White, and Mr. Lila Flanagan, and the club extends and open invitation to anyone interested in home demontsarton club activity to visit at any time. Meetings are held the second and fourth Thursday of each month, usually at the clubhouse in Lenora.

Woman Talk

By TEXAS TAMMY

After an absence of several weeks Tammy returns for a visit with all the wonderful people who read The Stanton Reporter. We do hope you haven't forgotten that such a person exists.

If you haven't been out in the farming area lately you are surely missing some pleasant sights, smells and sounds. There is the pleasant perfume of new mown alfalfa and freshly turned furrows; there is the hum of busy tractors, and the feeling of promise in the air. I could go on and on, but one must visit the places to appreciate the lushness of West Texas after rain has fallen in large quantities, as was the case recently.

And have you noticed the lovely yards? It seems that beauty is everywhere. The roses have been, and are, especially elegant this spring. This reminds us that there are always those who desire to show off the beauty of the flowers to the best advantage inside the house, as well as in the yard. For those of you who enjoy a few flowers inside, we pass along a few hints on the arrangement and care of cut flowers.

The charge in the past did not cover the two days a week that the library was not open, but every day will be counted now.

The library will be closed Monday, May 30, for Memorial Day.

First select a sharp knife rather than scissors for cutting the flowers. Early morning or late evening is the best cutting time. Take a container of water outside with you, and put blossoms into it as soon as cut, as blooms lose moisture rapidly immediately after being cut. Cut stems at an angle so that there is more surface to absorb water. When enough flowers are gathered for whatever number of arrangements you want, take them inside and if possible let them set for an hour or so in a cool dark place, then proceed with your arranging. We might take note here that some flowers are better looked down into and others are more effective at eye level.

For example, glads are eye-level type, and pansies are better on a low table so they can be looked down into. Containers should suit the flower and also the surroundings. Zinnias, a coarse type, are suited to heavy containers, such as crockery, and they would look out of place, no matter how artfully arranged, in delicate crystal, whereas a rose, delicately formed and graceful, would be perfectly at home in such a vase or bowl.

If you are expecting overnight guests, a small bouquet on the bedside table shows hospitality and a thoughtful hostess. Your guests will appreciate the extra effort you

have made.
 —WT—
 Springtime and gardening go hand in hand, and closeness to nature inspires most of us rededicate ourselves to greater effort toward a fuller life. Out of such meditation the following poem came into being. It is offered with the hope that you will enjoy reading something a little bit different.

HOW WOULD YOUR GARDEN GROW?

By Texas Tammy

If all of your thoughts and actions and deeds were tossed on the winds like a handful of seeds, When they settled at last in a heart somewhere; Would that heart be filled with worry and care? Or would there be fruits and flowers so rare?

Would your garden be filled with love's soft glow? Tell me, Friend, how would your garden grow? Would your careless whisper of gossip or malice bring shame, And reflect on your heart the burden of blame? Or would the seeds of kindness blossom and glow Like a rose, in the heart of some one you know? If you drop a bad thought or do a bad deed, It will flourish and grow just like a weed. Whatever you do, you surely must know, That someone will reap the seeds that you sow. Tell me, Friend, how would your garden grow? If good deeds were flowers and bad ones were weeds, And your garden was fenced

with all human needs; When life's summer faded and so did the fall, Would your fence stand fast and sturdy and tall? Or would it be weak, and crumble and fall, And leave you alone on an island small?

If all of these things could actually be, And you could look out on your garden and see All it produced, from the seeds that you threw; Would you be thankful and glad that they grew? Or would you feel sorrow and guilt when you knew? Would the good plants be so many and weeds be so few, That your garden would be blessed and a honor to you? If the best things in life, from your garden you'll know, You must sort all the seed, with care, as you go . . . Tell me, Friend, how will your garden grow?

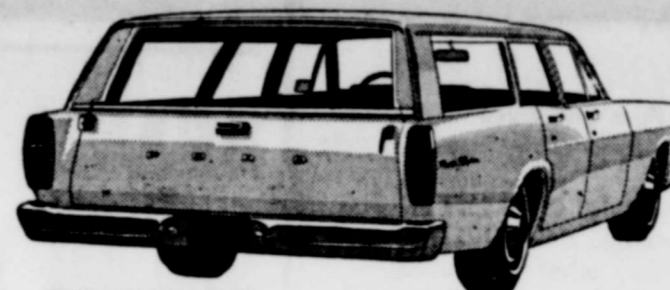

—WT—
 Seriously, Friends, it is something to ponder upon when you feel the need of a bit of deep thinking. Isn't it? Bless you all,
 Texas Tammy.

Stretch rubber bands across tops of trays in your tackle box. Small stuff doesn't fly around and mess things up. Bands can be easily pushed aside to remove items.

The South American hoatzin bird can swim and climb trees, but cannot fly 100 yards.

J. C. Jones Celebrated First Birthday

John Clayborn Jones celebrated his first birthday with a party at the home of his parents, Mr. and Mrs. John Calvin Jones Saturday, May 14.

His sister, Jenifer Jones, Mrs. Calvin Jones, Mrs. Earl Bragewitz, Mrs. T. Y. Allen, Mrs. Paul K. Jones, Mrs. L. D. Snell, Denby and Daryl, were also present for the occasion.

Elizabeth Ann Wagner

Elizabeth Wagner, Fred W. Houston Will Be Married In Robstown Church

The engagement of Elizabeth Ann Wagner of Corpus Christi to Fred Wayne Houston of Midland is announced by her parents, Mr. and Mrs. C. M. Wagner of Corpus Christi.

The bridegroom-to-be is the son of the late Mr. and Mrs. A. R. Houston of Stanton.

The couple plans to be married at 7 p.m. July 2 in St. John's Catholic Church in Robstown.

Miss Wagner attended Del Mar Junior College in Corpus Christi and now is a student at Texas Technological College. She is a member of the

Women's Service Organization, American Institute of Interior Designers and American Home Economics Association.

Houston attended Howard County Junior College and West Texas State University and now is a student at Tech. He is studying for a bachelor of science degree.

The Clement Standefers, long time residents of Stanton, have moved to Abilene to make their home there.

Baptist Church Activities

The Junior and Intermediate Girl's Auxiliary of the First Baptist Church, met at the church at 5:30 p.m. Wednesday, May 11, in the Fellowship Hall for their Mother-Daughter banquet.

Glenda Adams gave a talk on "Why I Like GA's." Linda Adams gave a talk on "What It Means To Be a GA."

The YWA's served the approximately 30 members. After the banquet, the GA's met for their regular meeting. They discussed plans for the coronation to be held May 25.

The YWA's of the First Baptist Church, had a covered dish supper Monday night. The program, "The Language of Their Hearts," presented the study of making known the Gospel to the different language groups in their native tongue.

Those present were Eunice Stephenson, Lila Phillips, Charlene Bevers, Margaret Clardy, Lydia Cagle, Lu Ann Louder, Beverly Clements, and Mrs. T. R. Louder.

The next meeting will be June 13 at 7:30 p.m.

The Women's Missionary Society met at the First Baptist Church May 10, at 10 a.m. The business meeting was conducted by Mrs. Bob Johnson.

Committees to decorate and assist in the GA coronation were appointed. Reports were heard, and prayer for missionaries was given. Mrs. Bill Uhlman was in charge of the program "The French in Louisiana." The setting was a sidewalk restaurant, the tables having red checked cloths and red roses. Refreshments of French pastry and coffee was served to provide a starting point.

Louisiana as seen through history from 1845 Baptist missions and the poet Longfellow was presented to the following members: Mrs. Roy Martin, Mrs. Wyle Clements, Mrs. Eula Eubanks, Mrs. Alice Stripling, Mrs. H. R. Caffey, Mrs. T. R. Louder, Mrs. Ralph Caffey, Mrs. Bill Uhlman, Mrs. Gene Butler, Mrs. W. H. Yater, Mrs. R. O. Anderson, Mrs. Eugene Byrd, Mrs. Bob Johnson, and guests, Mrs. S. E. Cross and Mrs. Clara Vaughn.

The Vivian Hickerson Circle met May 17, at 10:00 a.m. at the First Baptist Church to study "Meet the American Jew."

Attending were Mrs. E. Butler, Mrs. Ralph Caffey, Mrs. E. Byrd, and Mrs. T. R. Louder.

The morning study was concluded with a luncheon.

The Vivian Hickerson Circle met for Bible study May 24, at the First Baptist Church. Mrs. Gene Butler introduced the program, "Immortal Missionaries of the Old Testament."

The history of the prophet Amos, was related by Mrs. Bob Johnson.

The prophet Jonah was discussed by Mrs. Bill Uhlman. A parallel between Jonah and the people of today was given.

Attending were: Mrs. Gene Butler, Mrs. Bob Johnson, Mrs. R. O. Anderson, Mrs. Bill Uhlman, Mrs. E. Bryd, Mrs. Ralph Caffey, and Mrs. Tull Ray Louder.

HD Club Activities

The Friendship 4H Club met in the home of Mrs. Bob Johnson, Friday, May 20, with Theodor Wells presiding at the business meeting. Willie Wells and Leslie Butler lead the pledge. Rosalyn Louder reported on the food show. Darrell Wells was elected a new member.

County Agent Bob Johnson, gave the program on science projects.

Mark Elland served refreshments of punch and cup cakes to: Leslie Butler, Steve Cook, Rosalyn Louder, Willie Wells, Ronny Johnson, Theodor Wells, Darrell Wells, Douglas Dowden, Mrs. A. T. Wells, Mrs. James Elland, and Mr. and Mrs. Bob Johnson.

The Courtney Home Demonstration Club met May 19, at the home of Mrs. Chalmers Wren, for the last meeting until September.

Mildred Elland gave a program on "New Things in Linen."

Punch and cookies were served to: Mrs. Albert Pitman, Mrs. Owen Kelly, Mrs. L. D. Stripling, Mrs. Harry Echols, Mrs. W. E. Kelly, Mrs. Joe Stewart, Mrs. Chalmers Wren, and five visitors: Miss Ima Kelly, Mrs. Roy Lee Barnhill, Mrs. Ohmer Kelly, Miss Melvia Cross, and Mrs. Charlie Smith.

Anastasio Honored

John Anastasio, teacher at Stanton High School, is among 20 high school biology teachers from eight states that have been named to a nine-week summer institute at North Texas State University, sponsored by the National Science Foundation.

The teachers, from Ohio, Florida, Michigan, Missouri, Illinois, Arkansas, Oklahoma and Texas, will spend June 2 through Aug. 3 studying principles of modern biology and recent advance in experimental biology.

Each will be enrolled in two courses during the first six-week session and one course during a second three-week period. The first session will include study of unity and di-

Rev. and Mrs. C. R. LeMond and family left Sunday afternoon, May 22, to be in attendance in Abilene for the McMurry College baccalaureate service that evening. Alfred LeMond, the younger of the two LeMond sons was a member of the spring graduating class. The commencement was held Monday morning.

The dolphin was symbolic of love and diligence or speed, to early Christians.

Knight's Tri-Matic IRRIGATION SYSTEM

GET TOP IRRIGATION PERFORMANCE

Knight's Tri-Matic Sprinkler Irrigation System was designed to give you better water distribution and conservation. With the Tri-Matic you can apply 3 1/2" to 4" of water to 160 acres in a period of ten days, and you can do it with one man who can move the entire system himself from one location to another in a short time. Well "shut down" time is reduced to a minimum.

The Tri-Matic propels itself forward, backward or endways. It can be pulled endways by a tractor to a location in an adjoining field or to a field several miles away. Let us show you how Knight's Tri-Matic System can help you solve your irrigation problems.

Living Costs Soar

Pocketbooks Hit Again

Climbing living costs put another big dent in the American consumer's pocketbook in April, capping the biggest 3-month price jump since the Korean War, the government said Friday.

The consumer price index, measuring typical family purchases from shoes to automobiles, rose four tenths of one per cent last month, with only food prices showing relative stability, the Labor Department said.

The 1.4 per cent price hike from January to April was the biggest for that period in any year since 1961, said Assistant Commissioner Arnold Chase of the Bureau of Labor Statistics.

At the same time, the bureau reported a drop in the

average earnings of some 14 million factory workers because of cutbacks in manufacturing reflected in earlier government reports indicating a general downturn in the nation's economy.

Chase refused to comment on what effect the newly reported increase in prices may have on the economic policies of President Johnson, who reportedly has been considering possible tax hikes or some other means of taking the inflationary steam out of the economy.

The April increase brought the consumer price index to 112.5 per cent of its 1957-59 average, showing that goods worth \$10 in the earlier period cost \$11.25 last month.

Speculation that Mr. Johnson may not have to resort to a tax increase followed government reports earlier this week of declines in such key economic indicators as manufacturing orders, housing construction, industrial production and employment, retail sales and personal income.

All major items in the consumer price index — food, clothing, housing, transportation and medical care — were up in April, but Chase said the major factor was an eight tenths of one per cent increase in consumer services that range from excise taxes and interest rate to barbers' and babysitters' fees.

"We got a near levelling-off of food prices," which edged up a relatively slight one tenth of one per cent, Chase said. It was the only reasonably bright spot in the report.

Mobile Lab Tests For Harmful Farm Chemicals

Safe food and water supplies for Texans is the goal of a new anti-contamination mobile laboratory now traveling the agricultural areas of the state.

"The public has become so aware of the possibilities of harmful effects from farm chemicals that official assurance work is an absolute necessity," and Agriculture Commissioner John C. White. "The Texas Department of Agriculture is now a pace-setter for all states in making scientific analysis of all types of crops, food supplies and water sources with this ultra-modern laboratory on wheels."

The mobile lab is equipped to find even minute traces of possibly harmful chemicals in liquids such as milk, drinking water, livestock ponds and streams. Tests are also designed to assure consumer that no dangerous residues are present in food products, White pointed out.

Operated by Texas Department of Agriculture chemists, the 46 x 10-foot scientific trailer was put into action in March in the Lower Rio Grande Valley. It will follow the maturing crops northward as the growing season progresses, covering all sections of the state. The mobility of the lab permits fast and accurate examinations of agricultural products and liquids as they become ready for national and international markets.

"Work of the laboratory will serve a two-fold purpose," Commissioner White explained.

Bill Byerly Resigns Post With Scouts

Judge Perry D. Pikett, president of the Buffalo Trail Council, Boy Scouts of America and Earl McKeenan, Scout executive announces the resignation of William K. Byerly District Scout Executive of the Sunset Trail District, Odessa. Mr. Byerly has served as district executive of the Sunset Trail District since March 1, 1965. He is leaving the professional service of Scouting to enter YMCA work. He will assume the position of program secretary of the YMCA at Greenville, Texas on June first.

No successor to Mr. Byerly has been made as yet but records of men available have been requested from the personnel service of the Boy Scouts.

Congress became responsible for the administration of the affairs of the District of Columbia on June 20, 1874.

C. Burnams Honored With Farewell Party

Mr. and Mrs. Clayton Burnam were honored with a farewell party Wednesday night, May 18, by the Stanton Rebecca Lodge at the IOOF Hall at 8:00 p.m.

"Moments Like These," was sung by Miss Sandra Wilkes, accompanied by Mrs. John Wilkes, Jr., at the piano. Gifts were presented to the honored couple.

The refreshment table featured an arrangement of spring flowers on a white linen cloth, from which lemonade and cookies were served to approximately 25 guests.

'Lope Fawns To Get Tags For Science

The spring antelope fawning season in the Trans-Pecos will trigger an attempt to capture a number of antelope fawns with a 36-inch diameter net on a 10-foot handle, according to Tommy Hanley, wildlife biologist for the Texas Parks and Wildlife Department.

He said the technique has worked with deer fawns in other parts of Texas and is expected to function equally well with antelope.

The young animals will be tagged with plastic ear tags affixed with colored streamers for easy identification. Those sighted later by wildlife personnel will help solve the riddle of how far and how often antelope move. Biologists also hope to find out how barbed wire and net fences affect movement.

WesTex Doves Test Wings

The first crop of mourning doves already is fanning the fresh breezes hereabouts, according to Federal Game Agent Charles Heumier.

He reported to the Texas Parks and Wildlife Department the catching of a number of two-week old mourning doves in bait traps used to capture adult mourning doves for banding studies.

He estimated the doves hatched the middle of April.

The complete works of Robert Schumann comprise a total of 34 volumes.

Who says a flair with food means hours in the kitchen? Certainly not the Borden home economists who fashioned this Cherry-Cream Freeze. With convenience foods—the traditional sweetened condensed milk and the modern canned pie-filling—it's made in minutes. Just blend milk, cherry filling, and fruit with whipped cream, then freeze for the future. For that extra fancy occasion, flute top and base with whipped cream roses.

Cherry-Cream Freeze
(Makes about 2 quarts)

1-1/3 cups (15-oz. can) Eagle Brand Sweetened Condensed Milk	3/4 cup (9-oz. can) crushed pineapple, well-drained
1/4 cup reconstituted lemon juice	1/4 teaspoon almond extract
2-1/2 cups (1-lb. 5-oz. can) cherry pie-filling	2 cups (1 pint) heavy cream, whipped

In large-size mixing bowl combine sweetened condensed milk, lemon juice, pie-filling, crushed pineapple, and almond extract; mix well. Gently fold in whipped cream until evenly blended. Turn mixture into a 9 x 5 x 3-inch loaf pan. Cover tightly with aluminum foil. Freeze for 24 hours or until thoroughly firm. Unmold onto serving tray. If desired, additional whipped cream may be piped through decorators' tube to garnish top and base.

Social Security Column

Health insurance cards have now been mailed to over 15 million people 65 and older who have established their entitlement to hospital and medical insurance under the Social Security Act, according to Erven Fisher, Social Security district manager in Big Spring. The next large mailing in June. This mailing is being delayed since many among the 1,000,000 people who did not enroll for medical benefits initially have since changed their decisions, and Con-

O'Brien Announces Postal Planning

Plans to dot the nation with self-service post offices, clear the air of pollution from mail trucks and offer every mailer an advance course in ZIP code were announced Thursday by Postmaster General Lawrence F. O'Brien.

In the next nine months, he said, 100 self-service post offices will be constructed in shopping centers across the land. To date 58 cities have been designated for 66 of these centers, which have been tested for more than a year in four cities.

Control Device
After July 1, all gasoline-powered vehicles ordered by the Post Office Department must be equipped with devices to control air pollution. There

are about 56,000 government-owned postal vehicles throughout the nation, and 13,000 are acquired annually.

O'Brien told a news conference a national survey determined that most people who don't use ZIP code — about half of the population — omit the five-digit designation out of ignorance of other people's ZIP codes.

The postman soon will bring to every household in the nation a form to be filled out with a list of addresses now used in correspondence. The Post Office Department will supply, without charge, the ZIP codes for each address on the list.

ZIP By Phone
Postmasters are being ordered to supply ZIP code information by telephone on a regular basis during business hours and arrange for a special listing for ZIP code information in telephone directories.

O'Brien, who has been in office six months, said a rigid inspection of mail service this year shows that "there are still significant areas where further work is needed" to improve service.

But the postal chief said there has been a nationwide improvement in letter deliveries.

The self-service postal units include vending machines for stamps, postcards, envelopes

Rains Spare WesTex Fish; Lakes Flush

Abundant rain runoff is liberating game fish in West Texas lakes where they have been crowded into sterile lake bottoms for the last couple of years because of water shortages, reports the Texas Parks and Wildlife Department.

Field men say black bass are now frolicking in weedy shallows full of minute aquatic life on fertile soil that has been exposed to life-giving sunlight for several months.

The department observed that while rising and falling water lines may be a bother to lake shore homeowners, this occurrence is beneficial to fishermen because sunlight and air revitalizes stale lake bottom soil thus boosting lake fertility.

and parcel post insurance, as well as letter and parcel scales and machines to make change for coins and one-dollar bills. They will accept parcel post mailings and will offer free telephone service to the nearest post office so that customers may ask questions when necessary.

Kiosk-Type
The department also will soon test a kiosk-type postal unit on the campus of Michigan State University, O'Brien said.

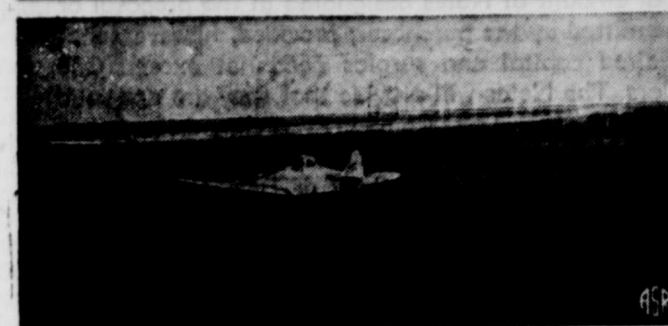

He also announced a reorganization of the department's research and engineering staff and called it the signal for "the greatest advancement in the area of research and engineering in the department's history."

The operation will be headed by Leo S. Packer of Rochester, N. Y., who has been engineering manager for the Xerox Corp., since 1962.

Plants need more rainfall in warm climates than in cool.

CROPS PROFIT NOTEBOOK

NEW METHOD OF COTTON INSECT CONTROL MAKES ALL OTHERS OBSOLETE

The idea that only ounces, rather than gallons of an insecticide can effectively control insects ravaging plants throughout the cotton belt seemed too good to be true when it was first introduced.

But three years of use on millions of treated acres in all parts of the country have proved the soundness of this new concept. In addition to outstanding insect control, fields can be treated faster.

So far, Malathion LV Concentrate is the only insecticide approved for this new method of low-volume cotton insect control. As little as 4 to 8 ounces per acre kills early-season thrips, leafhoppers and fleahoppers. 8-12 ounces protects against boll weevil damage.

To date, most of the Malathion LV Concentrate has been applied by airplanes which are mechanically converted to spray micro-droplets that are barely visible during application, but which provide excellent coverage of the entire leaf surface.

In doing so, planes fly at a safer, higher altitude of 20-25 feet, thus covering a wider 75-100-foot swath on each pass. And because Malathion LV Concentrate is not diluted with

water, planes can carry a bigger payload of the insecticide. These new advances enable an applicator to treat a field in one-fourth the time formerly required.

During 1965, many similar tests were conducted with various types of ground sprayers, and it is expected that a limited number will be commercially available to growers this year.

Scientists point out that several other factors besides effective insect control underlie the clearance of Malathion LV Concentrate for this new low-volume use. Most important is the well-known fact that Malathion is one of the least hazardous insecticides in use today. It can be used on forage crops on the day of harvest or grazing without worrying about residues in milk or meat. And the World Health Organization has approved direct application of Malathion on humans to control lice.

Keeping pace with other new cotton production techniques, the Malathion LV Concentrate concept of low-volume insect control promises to be of considerable assistance in further bolstering the producer's profits in the future.

U. S. Army Seeks Engineer And Signal USAR Captains

It is easier for eligible men to get U. S. Army Reserve commissions as captains in the Engineer Corps and Signal Corps as a result of relaxed eligibility requirements, Headquarters Fourth U. S. Army announced today.

Selectees will be given direct commissions as captains and concurrent call to active duty for a period of two years.

Men from civilian life with scientific, professional or technical skills and training, any type degree from a four-year college or university, and a minimum of five years' qualifying experience in the appropriate field may apply. Each year of graduate education in the field for which the applicant is requesting consideration may be counted as a year of qualifying experience.

Applicants must not have reached their 28th birthday at time of entry on active duty. A waiver of two years may be granted for captains. The age limit may be increased by the amount of prior commissioned service while on active duty.

Eligible individuals may request additional information and application forms from the Commanding General, Fourth U. S. Army, ATTN: AKAA-R, Fort Sam Houston, Texas. The telephone number is CA 1-1211.

Yarborough Blasts Locke Appointment

President Johnson has appointed a key member of Gov. John Connally's "inner circle" to an important diplomatic post and U. S. Senator Ralph Yarborough don't like it.

Yarborough, Johnson and Connally have been feuding for years. Their dissension with one another led to the visit of the late President Kennedy to Dallas and his death by assassination. Kennedy was in Texas at the time to try and get the Democratic team straightened out.

Johnson has now named Eugene Locke, husband of the woman now serving as National Democratic committeewoman from Texas, to the post of Ambassador to Pakistan.

Sen. Yarborough howled: "I ask you what diplomatic experience has he had."

"This (Pakistan) is a very tough area requiring vast knowledge," Yarborough continued.

Locke is the second man to be picked from the LBJ-Connally Axis in Texas politics. Recently a banker from San Augustine - Austin, was named to an ambassadorship in Australia. He was Ed Clark, a kind of East Texas, cornbread, catfish - eating aristocrat.

LEGAL NOTICE

Notice is hereby given by the Parks and Wildlife Department that a public hearing will be held at 8 P. M. on June 7, 1966, at the County Courthouse at Stanton, Martin County, Texas, for the purpose of gathering information concerning proposed hunting, fishing and trapping regulations for the above-named county.

As the result of action by the Texas Legislature, the Texas Parks and Wildlife Commission is responsible for the setting of season, bag limits, and means and methods to taking certain game, fish and fur bearer species in Martin County. All interested persons are urged to attend and comment upon the proposed regulations.

CRAWFORD MARTIN ATTORNEY GENERAL

Warden Duty Has Varied Opportunity

The rapidly expanding outdoor recreational field is counted on by the Texas Parks and Wildlife Department to attract an adequate supply of game warden trainees for the enlarged force.

This interest is expected to be manifested soon in connection with applications for the next class of trainees. The deadline is June 8.

Interested young men are invited to obtain application forms at department headquarters, John H. Reagan Building, Austin, Texas 78701.

If it is more convenient, the department suggests the inquirers contact regional or district offices located at strategic state points.

A department spokesman said that the varied appeal for service is attracting young men more interested in "just getting outdoors."

"Ours is a many faceted operation," he explained. "Our public contact now just about includes everyone. Not so many years ago our primary responsibility was to the hunter and fishermen."

"Now, the entire outdoor recreational field is our beat. The change was accelerated tremendously by broadening the old game and fish operation to include the already expanding routine of state parks."

He stressed the new activities centering around sharing enforcement of the new water safety code.

The spokesman noted that the beginners pay starts at \$384 plus retirement and many other features.

Applicants must be between 21 and 40, at least 5 feet 8 inches tall barefoot, and must weigh no more than three pounds for each inch of height. They must have a high school education, be a citizen of the United States and reside in Texas one year.

The next class of 20 trainees will enroll in the special Texas A&M University course preparatory to field assignments.

Tech Offers Grid Ducats

Texas Tech is currently taking orders for 1966 football season tickets.

"We're getting a good response from fans wishing to renew their season tickets," said Mrs. Mildred Wright, ticket manager. "This is one of the most attractive schedules we have had."

Teams coming to Jones Stadium this fall are University of Texas Sept. 24, Florida State University Oct. 15, Southern Methodist University Oct. 22 (homecoming), Oklahoma State University No. 5 (Dad's Day) Baylor University Nov. 12, and University of Arkansas Nov. 19. Texas, Florida State, and Oklahoma State are night games.

Both season and single game orders are being accepted now. Priority is being given season orders, which will be mailed out beginning July 15. Single game ticket orders will be filled starting Sept. 10.

Prices for six home games are \$30, \$33 (in the \$100 option area), \$36 (\$200 area), and \$42 (\$300 area). Single game tickets are \$5, \$5.50, \$6, and \$7. Mail orders, including a 50-cent mailing fee should be sent to the Texas Tech Athletic Office.

Williamsville, N. Y., Bee: "No matter how safe a car is made from the manufacturer's standpoint, no matter what is done to improve safety measures in them, the human element is unpredictable. The safest car manufactured is not safe so long as the driver does not pay close attention to his job. Human beings cannot be altered by manufacturers. They must be willing to assume the responsibility of watching their own driving and the driving of others on the highway. . . . Until human beings are willing to assume this responsibility, until they are willing to realize that it can happen to each and every driver, accidents will occur."

The surrender of Lord Cornwallis at Yorktown was on October 19, 1781.

Rhodes Motor Company

302 FRONT STREET

STANTON, TEXAS

Notice Of Sale

OF
\$600,000.00 PRELIMINARY LOAN NOTES
OF

Urban Renewal Agency Of The City Of Stanton

MAY 31, 1966

SEALED PROPOSALS will be received by the above-identified local public body corporate (hereinafter called the "Local Public Agency") at 400 North St. Peter Street in the City of Stanton, Texas, until, and publicly opened at, one o'clock P. M., Eastern Daylight Saving Time, on June 14, 1966, for the purchase of \$600,000.00 of notes of the Local Public Agency to be known as "Preliminary Loan Notes (First Series B)," being issued to aid in financing its Urban Renewal Project, designated Project No. Tex. R-81. The United States of America has agreed to make a loan under Title I of the Housing Act of 1949, as amended (42 U.S.C. 1450 et seq.), to the Local Public Agency to assist the latter in undertaking and carrying out such Project. By authority of said Act and with the agreement of the Local Public Agency, the said Notes are to be unconditionally secured as to the payment of both principal and interest by the United States of America. The full faith and credit of the United States will be pledged to such payment under an unqualified payment agreement endorsed on each of the Notes. Under said Act, such agreement is required to be construed by all officers of the United States separate and apart from said loan agreement and is incontestable in the hands of a bearer thereof.

THE NOTES will be dated July 12, 1966, will be payable to bearer on July 14, 1967, will bear interest from their date to their maturity at the rate or rates per annum fixed in the proposal or proposals accepted for the purchase of such Notes, will be issued in such denominations, and both principal and

interest thereof will be payable at such incorporated Bank having trust powers or incorporated Trust Company, as the purchaser designates in the proposal. Such Bank or Trust Company must be a member of the Federal Reserve System, or of the Federal Deposit Insurance Corporation, and must have an unimpaired capital and surplus of not less than the aggregate principal amount of Notes designated in the proposal or proposals submitted by the purchaser; provided, however, that such unimpaired capital and surplus need not exceed One Million Dollars. The Notes will provide that they are not valid until after such Bank or Trust Company has signed the agreement, appearing on each Note, to act as paying agent. The Notes will be transmitted to such Bank or Trust Company for delivery to the purchaser upon receipt and disbursement by such Bank or Trust Company of the purchase price thereof in accordance with instructions from the Local Public Agency. After taking delivery of the Notes, the purchaser shall obtain the signature of such Bank or Trust Company upon the Notes as aforesaid. All fees or charges, if any, of such Bank or Trust Company shall be paid by such purchaser.

SAID NOTES will be special obligations of the Local Public Agency and will be secured by a requisition agreement between the Local Public Agency and the United States of America under the terms of which agreement the United States of America agrees to lend the Local Public Agency prior to the maturity of said Notes an amount sufficient to pay the principal and interest of all said Notes and agrees to cause so much of the proceeds of such loan as shall be sufficient to pay the principal of and interest upon any of said Notes to be deposited at the respective Bank or Trust Company at which said Notes are payable for the benefit of the holder or holders thereof. Under the proceedings authorizing said Notes, the proceeds of such loan payment will be irrevocably pledged first to the payment, at maturity, of the principal of and interest on said Notes.

THE VALIDITY of the Notes and said requisition agreement shall be subject to approval by attorneys designated by the purchaser in the Proposal. Complete certified transcripts of proceedings, including organization transcript as required, evidencing the validity of the Notes and of said requisition agreement will be furnished such attorneys at least 5 days prior to the date of the Notes. The fees or charges of the attorneys shall be paid by the purchaser.

ALL PROPOSALS for the purchase of any of said Notes shall be submitted in a form approved by the Local Public Agency and shall be enclosed in a sealed envelope, addressed to the Local Public Agency, which should be marked on the outside "Proposal for Preliminary Loan Notes." Copies of such form of proposal may be obtained from the Local Public Agency at the address indicated above. Proposals may be submitted subject to completion pursuant to telegraphic instructions or proposal may be submitted in their entirety by telegram. Telegraphic instructions or proposal must be received by the Local Public Agency at or before the time above specified for the opening of proposals. A telegraphic proposal should identify and be made pursuant to the Notice of Sale, identify the Notes, and specify the principal amount, interest rate, premium, denominations, name of said attorneys, and place of payment of the Notes covered by the proposal. In view of certain statutory and policy limitations, no award of the Notes will be made at an interest rate per annum which is not less than four and three-eighths per centum (4-3/8%).

PROPOSALS may be for all or any part of the Notes, and separate proposals will be required for each part of said Notes for which a separate interest rate is bid. The interest rate specified for each part of said Notes shall be a multiple of one-hundredth (1/100) of one percent (1%). Said Notes will be awarded at the lowest interest rate or rates offered in the proposals, without reference to premium; provided, however, that, as among proposals specifying the same lowest interest rate, award will be made on the basis of the highest premium per dollar principal amount of Notes specified in such proposals. No bid for less than \$50,000 principal amount of said Notes or for less than par and accrued interest (which interest shall be computed on a 360-day basis) will be entertained, and the Local Public Agency reserves the right to award to any bidder all or any part of the Notes which such bidder offers to purchase in his proposal, upon the basis of such proposal; provided, that if less than \$50,000 principal amount of Notes is to be awarded to any bidder, such bidder will be relieved of the obligation to purchase such Notes upon written notice to the Local Public Agency within two days after notification of such proposed award. If only a part of the notes bid for in a proposal are awarded by the Local Public Agency, the premium, if any, offered in such proposal shall be prorated, and said Notes will be issued in denominations in the order of the lowest denomination specified in such proposal;

Kenneth Wayne has received seven certificates, Ronald and Donald five, Gloria Ann three, and Dennis Ray two.

provided that one Note may be issued in a smaller denomination than is otherwise specified. The further right is reserved to reject any or all proposals.

SECTION 102(g) of the Housing Act of 1949, as amended (42 U.S.C. 1452), provides as follows: "Obligations, including interest thereon, issued by local public agencies for projects assisted pursuant to this title, and income derived by such agencies from such projects, shall be exempt from all taxation now or hereafter imposed by the United States." In the event that prior to the delivery of any of the Notes to the successful bidder therefor the income received by private holders from obligations of the same type and character shall be taxable by the terms of any Federal income tax law hereafter enacted, the successful bidder may, at his election, be relieved of his obligations under the contract to purchase said Notes.

URBAN RENEWAL AGENCY OF THE CITY OF STANTON

Oil Activity - -

(Continued from page 1) open a new pool will be continued until a conclusive determination as to the producing ability of the zone has been established. Pan American Petroleum Corp. No. 1 Elma L. Slaughter, 11 miles north of Lenora, in central Martin, continues swabbing and testing to clean out and check the petroleum ability of the Strawn section through perforations between 9,106 and 9,442 feet. That interval had been stimulated with 1,000 gallons of acid.

At the time of the last report the operation had not been completely cleaned out so that any definite idea was expected from the venture which is 660 feet from north and 1,980 feet from south lines of section 77, block B, Sauer & Cockrell survey, 6 1/2 miles southeast of the depleted Wolcott (Wolfmap) pool.

The Pan American explorer is a re-entry and clean out to 10,510 feet where 5 1/2-inch casing is set of a 12,075-foot Ellenburger wildcat failure drilled by Shell Oil Co. and abandoned in May, 1952.

The Mayflower began its voyage to America on Sept. 6, 1620.

Patronize your hometown Ronald and Donald also made the honor roll this year.

Leo Fields - - -

(Continued from page 1) on Lions activities in the sight conservation program. Forty students were examined for sight deficiency and 35 of the 40 were fitted with glasses.

Carl Hyde, first vice president of the Lions Crippled Children's Camp, will be installing officer for the installation ceremonies of Stanton Lions Club, Tuesday, June 21, at 7:30 p.m. in the Cap Rock Electric auditorium. This event will be a ladies' night affair with a good meal and plenty of first class entertainment.

Tom Ed Angel and Cecil Bridges were awarded pens honoring them for the achievement of writing up new members in the month of March.

State - - -

(Continued from page 1) afternoons and all day Fridays.

Mrs. Tom said: "If a person can't go every Tuesday or Friday we want them to come when they can on these days, either twice monthly or even once a month."

Bridal Shower Given For Miss Joyce Allen

A bridal shower was given May 12 in honor of Miss Joyce Allen, bride-elect of Darr Huckaby at the home of Mrs. Pete Morrison.

The honoree chosen colors of blue and white were used in the table decorations and throughout the home.

Hostesses for the affair were: Mmes. E. L. Polson, Thomas Allen, Virgie Quaid, Harry Echols, J. S. Morrison, H. H. Doshier, Ralph Caffey, John Shanks, D. M. Costlow, Harold Brantley, Albert Johnson, H. P. Morrison, R. P. Odom, Ernest West, M. L. Koonce and Pete Morrison.

The house party included Cindy Britton, Brenda Stander, and Janetta Avery.

Out of town guests were: the bride's mother, Mrs. Winters, and sister, Selinda Winters. Approximately 30 guests registered.

The complete works of Robert Schumann comprise a total of 34 volumes.

Memorial - - -

(Continued from page 1) ty Chamber of Commerce will also close. Memorial Day was one of the days selected in January by retail merchants to observe. Other days selected for closing are: July 4, Labor Day, Veterans Day, Thanksgiving, and Christmas Day. The closing times were fixed after ballots were mailed to members.

Mahon - - -

(Continued from page 1) serious difficulty in securing approval of the funds requested. When the project was begun several years ago it was anticipated that the total cost would be \$90,000,000, but it is being built for the lesser figure. The project is expected to be in substantial operation by about June 1967.

Relax... and with your shoes on!

Everyone likes a comfortable shoe. Hush Puppies' casuals go one step further. Steel shanks are carefully hand-titted to your pair of Hush Puppies' casuals. The way you get extra support and casual comfort without sacrificing important foot support. But that's only half the story!

No. "break in" — just wear 'em! \$10.95

Closed Memorial Day Monday, May 30th.

DEAVENPORT'S

RANGER INSURANCE

1966 CROP HAIL PROGRAM

ONLY through Ranger can you get the most competitive, well rounded crop hail program at the lowest rates in the state of Texas. In addition to rate reductions up to 15% on the standard forms, the following low cost features are available ONLY through the Ranger Insurance Exchange.

RANGER INTRODUCES TWO NEW POLICIES

The RANGER ECONOMY FORM has been developed by Ranger to reduce your insurance costs and still provide protection during the critical stages of growth when the plant is most susceptible to hail damage. This form will save you money because you pay for only the insurance you actually need.

The COTTON PROGRAM COMPANION COVERAGE policy has been designed by Ranger which truly is a companion to the 1966 cotton program. Coverage begins where the cotton program ends. By combining this coverage with the cotton program you will have complete protection at a very low cost. Cotton programs change year to year to your crop's insurance needs change.

Your Ranger Agent will be happy to explain these NEW policies.

In addition to the two new policies Ranger continues to offer the following programs:

- ★ RANGER STAR STEPLADDER ★ is again offered and is becoming very popular.
- ★ FULL COVERAGE POLICY—100% in force on June 8th.
- ★ STANDARD POLICY FORMS at rate reductions of up to 15%.
- ★ ADDITIONAL INSURANCE ENDORSEMENT at less than half of annual rates.
- ★ EXTENSION OF POLICY TERM A 30 or 45 day extension is available at great savings and can be purchased at the beginning of the season or anytime during the season.
- ★ X330IP increasing payment provision under full coverage policy on cotton.
