FINEST CLIMATE ON EARTH WHERE HEALTH HAPPINESS AND PROSPERITY AWAIT THE HOMESEKER

Vol. LVII—No. 20

STANTON, MARTIN COUNTY, TEXAS (79782). THURSDAY, MAY 11, 1967

8 Pages—Price 10c

By NEAL ESTES

A member of a Pulitzer prize jury has charged that the prizes are "tainted to a very serious degree." PAUL SANN, executive editor of the New York Post and a member of the national prize reporting jury, made the charge. We are in complete agreement with the complaining juror. The jury once recommended a Pulitzer for DREW PEARSON and JACK ANDERSON. They never received the prize because the jury was overruled. Incidentally, their story concerned the exposure of the activities of SENATOR DODD. The Connecticut solon was reprimanded by his fellow Senators later. In our estimation the Pulitzer prizes are becoming as confusing as the Nobel awards. We drew this conclusion on the basis of the MARTIN LUTHER KING nomination a few years back for the Nobel prize for peace. KING may be a pacifist at heart but his public statements have a tendency to incite law-breaking in those who are less educated and have a worshipping belief in his every statement. His recent advice to his flock to refuse to serve in Viet Nam is a case in point.

The editor has established a new set of personal "rules" during the daylight saving period. Our lunch hour, for the benefit of those who wish to call our home, SK 6-3444, is from 1 p.m. until 2 p.m. It seems that is the best time to take off for an hour because the entire town apparently slows down for that particular 60 minutes. Really, as our readers know, the sun dials of the olden days would mark the hours as noon to 1 p.m. We are getting accustomed to the DST and find it great to get down to the office and on the job early. Once in the swing, the day gets off with a refreshing boom.

The good rains — two short ones—but they looked mighty good the past week-end—measuring over a half inch together delighted the farmers, ranchers and merchants. The blast blowing in hurriedly last Friday really rocked the boat around town. Fortunately, very little wind damage was reported. A few trees were blown over by high winds and some trash cans were rolled from their moorings but little other damage was reported. We had some hail too but nothing serious resulted.

Sunday, May 14, is Mother's Day. Make a special effort to be with your mother is she is living. If she is not and has gone on to her heavenly reward remember her with some sort of memorial. A contribution to the church of her choice, a donation to the library, hospital or some worthy organization would be fitting and proper.

Seniors are looking forward to graduation. Some of the invitations to ceremonies have started arriving in the editor's mail. Schools are naming the top honor students too. We send our congratulations to CATHY WORKMAN, daughter of MR. and MRS. DAVID WORKMAN, and to BRENDA HIGHTOWER, daughter of MR. and MRS. PRENTISS HIGHTOWER. MISS WORKMAN was tapped for valedictorian of the Stanton High School class and MISS HIGHTOWER was named salutatorian. These splendid young women both come from fine local families. Their heritage, coupled with intelligence and talent will send them on and on in life.

Workers are steadily making progress on the enlargement program at FRIENDLY FOOD STORE. We dropped by one afternoon

City Election Slated For Tuesday

McMeans Announces Stanton High School Honor Students

Cathy Workman and Brenda Hightower has been announced as 1967 Stanton High School honor students by

Cathy Workman

Brenda Hightower

Superintendent Russell McMeans.

Miss Workman's grade average was 96.04 and Miss Hightower's was 94.57. The valedictorian is the daughter of Mr. and Mrs. David K. Workman and the salutatorian is the daughter of Mr. and Mrs. Prentiss Hightower.

Cathy has been a member of the Future Teachers of America for four years and has served as the club's vice-president and president. Elected to the National Honor Society her freshman year, she has since served the offices of secretary - treasurer and vice-president.

Cathy has also been active in the Pep Squad, the Spanish Club, and the Gordon Stone,

the high school paper and the SHS yearbook.

Cathy was elected to the faculty's Who's Who this year. During her freshman and sophomore years, Brenda was a member of the Future Teachers of America, the Commedia dell Arte, the Pep Squad, and the Future Homemakers of America.

Her junior and senior years, she participated in the National Honor Society, the Spanish Club, the Science Club, the Pep Squad, the Powder Puff football team, and the Gordon Stone, Jr., Math Club. Her extra curricular senior activities included the folk-singing group, "The Individuals." She is also an active member of the First Baptist Church.

FFA WINNERS—Stanton Future Farmers of America won third place honors in the Grass Judging Contest held at Texas Tech in Lubbock recently. Members of the team and their teacher are from left to right: Jim Louder, Nolan Parker, vocational instructor, Claud Straub, and David Adkins.

Father's Signature _____ Date _____

Mother's Signature _____ Date _____

Applications will not be accepted after May 15, 1967.

Legislature Passes Martin Hospital Bill

The State Senate passed the Martin County Hospital Bill by a 30-0 vote last week authorizing the creation of the hospital district.

Governor John Connally signed the measure, HB 1320. Since the bill passed both the House and Senate on record votes, it will become effective immediately.

The district will not be actually created until the qualified voters approve it. At that same election, the voters also be asked to approve an ad valorem tax for the district, not to exceed 75 cents per \$100 property valuation.

Representative Randy Pendleton of Andrews sponsored the bill.

Mrs. M. Eiland Returns From Study At A&M

Mrs. Mildred Eiland, county home demonstration agent for Martin County, has returned from a weeks study at Texas A&M University, where she attended a "Management" school for home demonstration agents.

The theme of the workshop was "Management Today In Our Changing Environment," with emphasis on "Individual Spending Plans and Consumer Credit." Dr. Margaret Liston, head of the home management department at Iowa State University, and Dr. Helen McHugh, professor of the home management department at the University of Tertiary, were the instructors.

This information will be used in the home demonstration program in Martin County.

Martin County Operation Completed Near Tarzan

By JAMES C. WATSON
An exploratory operation in Martin County, No. 1 Hyatt well has been completed 12 miles northwest of Tarzan by Southwestern Natural Gas Inc. of Midland and for proration purposes has been placed by operator in the Glass, North (Wolfcamp) pool.

The project, located 15 1/2 miles northeast of the opener and nearest producer in the area, is 3,300 feet from south and 5,247 feet from west lines of league 254, Ward County School Land Survey. It was a re-entry of a former 12,260-foot Devonian dry hole drilled by Champlin Petroleum Co.

and plugged in December 1958.

No. 1 Hyatt, the pool's fifth well was finished for a daily flow of 243 barrels of 41-gravity oil after the perforated pay section between 9,281 and 9,720 feet was acidized with 2,000 gallons and fractured with 60,000 gallons of fluid. The crude came through an 18-64-inch choke with gas-oil ratio of 1,100-1 and surface pressure of 190 pounds.

Texota Oil Co. has finished No. 2 C. M. Smith as an addition to the Martin sector of the Ackerly (Dean sand) pool, six miles southwest of Ackerly. (Continued on page 4)

Little League Play To Open Here May 22

Little League baseball will get off with a bang in Stanton on May 22 and the schedule calls for a conclusion of play on June 5.

To qualify as a Little League player boys must be 8 years old on or before September 1, 1967, and will not have reached their 13th birthday by August 1, 1967.

Parents desiring their sons to play will complete a form returnable to their teacher not later than May 15. No applications will be accepted after (Continued on page 4)

Bell To Mail Service Cards To Customers

A simple post card will soon be used for an unusual job, helping Southwestern Bell Telephone Company improve its service in Stanton.

In the next few days, every telephone customer here will receive a post card from Harry Sawyer, local manager for Southwestern Bell. On one half of the double post card, the customer will be asked for comments and criticisms.

The other half of the card can be torn off, filled out and returned — postage free — to Sawyer.

"We're not seeking compliments," the manager pointed out. "If any of our customers have criticisms or service difficulties, we would like to know about them so we can try to remove the causes. Comments and criticisms help us give customers the kind of service they want."

The manager said everyone who replies unfavorably will be contacted in an effort to clear up the source of dissatisfaction.

You may recall that some time ago you expressed to me your interest in the proposed Petman Basin Railroad. I know you shared my pleasure over the favorable action (Continued on page 4)

Stanton Plans Wide Clean-up Campaign

The City of Stanton will sponsor a widespread clean-up campaign this month.

M. H. White, acting on instructions from the city council, made the announcement this week.

The campaign to rid the town of trash will open on May 22 and continue through May 29, White said.

The secretary advised the newspaper that trucks would run free through that period of time picking up piles of trash, junk, throw - away-items, and other articles to be discarded and hauled off.

The only requirement is for residents to pile the debris in alleys where the city workmen can gain ready access to it, White announced.

Stanton Soldier Decorated

Phu Loi, Vietnam (AHTNC) — Army Specialist Four Valentino H. Sotelo, 21, son of Mrs. Paula H. Sotelo, Stanton, recently returned to the 1st Infantry Division base camp near Phu Loi from "Operation Junction City," the largest military operation to date in Vietnam.

During the operation, large enemy encampments along the Cambodian border were found and controlled. These were considered to be national Viet Cong political and military headquarters.

Spec. Sotelo is an armored personnel carrier driver in Troop C, 1st Squadron of the division's 4th Cavalry.

Spec. Sotelo entered on active duty in October 1965 and was stationed at Ft. Carson, Colo., before his arrival in Vietnam last June.

Spec. Sotelo attended Stanton High School and holds the Bronze Star Medal with V Device for valor.

County Posse, Rangers Plan Trail Ride

The Martin County Sheriff's Posse and the Stanton Rangers will sponsor a trail ride on Saturday, May 13.

The posse truck will be loaded at the rodeo ground at 9 a.m. and the usual \$3 fee will be collected at that time.

The group will proceed motorcade style to a point one mile east of the Howard County Junior College at the intersection of 11th Place and farm road 700. The group will mount and ride to Moss Lake.

A picnic lunch will be served and the riding group will then ride over some of the property near the lake, before loading up for the return trip (Continued on page 4)

3 Propositions To Be Decided By Local Voters

Qualified Stanton voters will visit the polls Tuesday, May 16, to decide three water bond propositions rolled into a complete package.

The election will be held in the basement of the First Methodist Church with T. W. Haynie presiding as judge. He will be assisted by Mrs. Haynie and two clerks. The polls will open at eight o'clock a.m. and close at 4 p.m.

West Texans Approve Bill By Pendleton

All five senators from West Texas were among the 19 who voted for passage of the consumer credit code by Rep. Randy Pendleton of Andrews.

The bill has been signed into law by Gov. John Connally. Sens. Dorsey B. Hardeman of San Angelo, David Ratliff of Stamford, J. P. Word of Meridian, H. J. (Doc) Blanchard of Lubbock and Joe Christie of El Paso all voted for the code which called for regulations of all consumer finance companies, banks, savings and loan institutions, and anyone else who makes installment loans of up to \$2,500, and charges more than the former constitutional limits of 10 per cent interest.

The bill also calls for regulations of auto dealers, home improvement contractors, and retail installment contracts.

Many of the eight senators voting against the bill did so because they felt the 240 per cent maximum interest allowed on loans from \$30 to \$100 was too high.

George Walker To Serve On Camp Faculty

George A. Walker, director of music for the Stanton Schools, has been selected to serve on the faculty of the Big Bend Summer Music Camp, which will be conducted on the Sul Ross State College campus in Alpine.

The band camp dates will be June 4 to 16. Heading the band organizations will be Gene Witherspoon from Arkansas Tech and William H. Hill from Arizona State.

Mr. Walker will teach flute privately and coach the flute sections of the bands. He has previously served in this capacity at Hardin - Simmons University, McMurry College, Midwestern University, and Eastern New Mexico University. The local director has had extensive experience as a solo, ensemble, and band contest judge in state music activities.

Several of the local band students are planning to attend the camp activities with their director, while others plan to attend camps on other college campuses during the summer months.

A qualified voter is a resident of Stanton who owns taxable property within the city, and who have duly rendered same for taxation.

Election Judge Haynie has advised that voters will also be required to present their registration slips before casting ballots.

The following propositions will be on the official ballot.

PROPOSITION NO. 1

SHALL the City Council of the City of Stanton, Texas, be authorized to issue \$225,000.00 of revenue bonds of said City for the purpose of constructing extensions and improvements to the City's waterworks system, said bonds to mature serially over a period of years not to exceed twenty-five (25) years from their date, and to bear interest at a rate not to exceed five (5%) per cent per annum, said revenue bonds to be special obligations of the City of Stanton, payable as to both principal and interest from and secured by a lien on and pledge of the net revenues from the operation of the City's combined waterworks and sewer system?

PROPOSITION NO. 2

SHALL the City Council of the City of Stanton, Texas, be authorized to issue \$100,000.00 (Continued on page 4)

Cub Scouts Talent Show Is Successful

The Stanton Cub Scouts report a very successful talent show held Saturday evening at 8 p.m. at the High School auditorium.

A number of acts were presented. Winners included: Mike Springer, first place; Bobby Hamm, second place; Mel Rae and Eom Ed Angel, third place.

Cubs and their leaders have expressed appreciation to all parents and merchants, who made the show possible through their support.

Following the presentation of the show Saturday, a monthly meeting was held Monday night Dr. Pepper Bottling Company. The Cubs planned an ice cream party at the park, Friday, May 12, at 7:30 p.m.

The Cub Scouts will not hold monthly meetings this summer.

Committeemen attending the final monthly meeting included: C. W. Brumley, Billy Barnhill, and Don Shupe. Women attending included Mrs. Cox, Mrs. Shupe, and Mrs. Barnhill.

Charter Asked For Golf Course

Cecil Bridges, president of the Martin County Chamber of Commerce, announced the approval of Stanton for a modern golf course and club house today.

Bridges stated that a meeting was held in the chamber office this week for the purpose of making tentative plans

to seek approval of a charter. The location of the golf course has not yet been determined, Bridges said.

The chamber chief said that Jimmy Gamewell professional from Midland's Hogan Park course would design the course in Stanton if everything goes as now planned.

Approximately 100 local citizens subscribed \$100 each to get the golf course project off the ground. Federal funds and other sources of revenue are in the picture if the charter is granted for the establishment of the local links. A tentative slate of corpora-

tion officers have been elected. They include: O. B. Bryan, president; Paige Eiland, vice president; Ronnie Glibreath, secretary, and Paul Briggs, was named treasurer.

Directors chosen included: Horace R. Blocker, Jack E. Hodges, and Cecil Bridges.

Tax Man Sam Sez:

The folks at Internal Revenue work hard at giving taxpayers all the information they need to file their tax returns. In Texas and the seven other community property states, the tax education job becomes a little tougher. The tax instructions sent to taxpayers throughout the country are correct only for common law states. The community property law definitely affects the amount of tax you owe in Texas. Be sure to check on community property instructions on dividend exclusions, capital loss, and retirement income credit before you cost yourself tax dollars.

Trade at home and save!

4-H Club News

The Ranch Hands 4-H Club met at the home of Mr. and Mrs. Buddy Roper April 22. We finished our craft projects that we started several weeks ago. We cut the tops out of two barrels that we are going to use for trash barrels along the highway. Cookies and ice cream were served.

Mr. and Mrs. L. M. Durham have returned home after spending three weeks in Bedford, Indiana, visiting Mr. and Mrs. O. H. Wilcox and family.

More than four-fifths, or 87 per cent, of milk is water; the remainder is fat, protein, carbohydrates and minerals.

The Exchange Desk

THE McCAMEY NEWS: "Mayor B. A. Epley, Claude W. Brown, and Kirby Dakins have copies of the new report on small towns, 'The Small Community in West Texas' and pledged to institute 'PROJECT STEP' in McCamey. 'PROJECT STEP' is the implementation of the recommendations made in West Texas Chamber of Commerce Small Town Task Force study, which was introduced at the organizations' 49th annual convention in Del Rio on April 25."

THE MERKEL MAIL: "Merkel's Fire Chief Waymon Adcock and Fireman Chester McWilliams were in Hendrick Memorial Hospital from injuries received from the explosion of what was believed to be a dynamite truck on Interstate Highway 20 Wednesday about 6 a.m."

MORTON TRIBUNE: "Negotiations are still continuing between the newly formed Morton Development Corporation and principals of a products company. The discussions are presently centered around financing and the formation of a corporation. Van Greene, agent for the MDC, said that stock is still available in the local corporation. The MDC is trying to get industry located in Morton."

THE BIG LAKE WILDCAT: "Radio Station KBLT in Big Lake officially underwent a change of ownership and new management Monday, May 1. Paul Huffman, who moved here recently from Eastland County is the new general manager of KBLT, and associated with him is George Fox, Jr. who has moved here from Abilene. They have formed the Southwestern Broadcasting Co. which will own and operate the station."

THE MUNDAY TIMES: "During the first quarter of 1967 the citizens of Knox County purchased \$10,353 in Series E and H United States Savings Bonds, according to a report received from Mr. W. E. Braly, chairman of the Knox County Savings Bonds Committee. 40 per cent of the 1967 goal of \$160,000 has been achieved."

STAMFORD AMERICAN: "Despite the recent tight money situation the Rolling Plains Production Credit Association made more loans last year than at any time in its history it was reported to members at the annual meeting of stockholders here Saturday. Loans now are in excess of \$11,000,000—where we thought we would be in 1970," one official said. The total loaned last year reached \$20,000,000."

THE ALPINE AVALANCHE: "A 2-way U. S. 90 highway system through Alpine was assured when the Texas Highway Commission approved the new routing last Thursday. East-bound traffic will be routed on the present U. S. 90 (Holland Avenue) while west-bound traffic will be carried on Avenue E."

SEMINOLE SENTINEL: "Gaines County Judge Charles Lawrence said today that a special law to allow counties to appoint a temporary justice of the peace has passed both houses of the Texas Legislature and was awaiting the governor's signature."

Bible Comment—

Suffering Brings Fellowship In Christ

When Jesus hung upon the cross, one of the two thieves between whom He was crucified reviled Him, urging Him to save Himself and them. The other thief rebuked his fellow, reminding him they were suffering justly for their misdeeds, where as Jesus was suffering for His in-nocence and goodness. The penitent thief had the reward of hearing Jesus say, "This day thou shalt be with me in Paradise."

It is the distinction between two kinds of suffering which Peter emphasizes in his writings that does so much to encourage suffering Christians. The Christian who suffers is partaker of the sufferings of Christ. Instead of being embittered, he may well glorify

God. Certainly as we observe life, we can not very well say that the ideal is entirely free from suffering.

We have seen those who who have accepted the way of suffering into the realm of Christian faith and practice, emphasizing the part of humility and strength that comes to men through casting all their cares upon God.

The mystery of pain has never been solved. We do not know why the innocent suffer with and for the guilty. We do know, however, that there is a fellowship in Christ's suffering which has brought to suffering Christians happiness and peace. And this too, is a mystery.

Philosopher Gets Rid Of Some Assorted Ideas Accumulated In Recent Months

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw does some house cleaning this week, he claims.)

Dear editor:
I was cleaning out a stack of old newspapers which had accumulated in a corner of my work room out here and while I was at it the thought occurred, why not clean out some of the old ideas which have stacked up in a corner of my mind, so I would I will send them to you and you can stack them in some corner somewhere around your office, or throw them out entirely. I'm through with them.

For example, here's one: man is taking the long way around to blow up cities. Instead of developing missiles that'll hurtle halfway around the earth and come down on top of a city, why not drill holes through the earth to fire rockets through and let them explode underneath? Avoid air pollution that way.

Or, why hasn't some insurance company come out with a policy to insure you again-

Thirty-Three Years Ago

The H. T. and Y. Bridge Club members enjoyed a lovely party Thursday evening at the home of Mr. and Mrs. Kenneth Cox. The friendly rivalry among the four tables resulted in high score going to Mr. and Mrs. Edmund Tom, and low score went to Ode Hazlewood for men, and Mrs. R. I. Knox for women. Mr. and Mrs. Cliff Hazlewood will entertain the club at its next meeting, which will be in June.

From all reports the play given Tuesday night under the auspices of the Women's Missionary Society of the Methodist Church, was a grand success. Miss Helena Price directed the play, Mrs. Phil Berry played the lead, and Delbert Sale the supporting cast.

The editor of The Stanton Reporter is indebted to the Southwestern Engraving Co., Fort Worth, for the gift of a small money change purse in which to carry his pennies, nic-do is for our belated subscribers to "kick in" a dollar in small do is for our belated subscribers to "kick in" a dollar in small change so we can put it in our purse.

In a special election held last week, Seagraves, in Gaines County legalized the sale of 3.2 beer. Out of a total of 167 votes cast in the election, 114 voted for beer to 53 against.

A. M. Sullivan of Coahoma, was in Stanton Wednesday in the interest of Tom Hunter for governor. Along with him was Mr. Bishop, of Big Spring, campaigning for C. C. McDonald for governor.

Monday afternoon Jess Whitson celebrated his 13th birthday at the home of his parents, Mr. and Mrs. E. P. Whitson. Guests were Sterling Stamps and Stanton Stamps, James Zimmerman, and James Albert Wilson.

Mr. and Mrs. J. A. Wilson drove their son, Cullen Wilson and his wife and son, to their home in Colorado last Sunday. They had been in Stanton helping the J. A. Wilson Variety Store with their sale.

Methodist Church News

The youth of the First Methodist Church will hold a bake sale at Thriftway Grocery, Saturday, May 13, from 9 until 12 noon. Cakes will be \$2.00 and pies \$1.50. Proceeds will go to the MYF.

4-H Club News

The Do and Learn 4-H Club met Friday, May 5, at the county court house, and worked on their sewing projects. Refreshments were served

Mrs. C. A. Merchant of Has-kie, has been here visiting her sister, Mrs. S. E. Jones.

Mrs. Jake Hodges, Jane and Gene, visited in Eldorado over the week-end with Mrs. Hodges sisters, Mrs. C. N. Shaw, and Mrs. Dee Love and family.

by Linda Woody, to: Lynette Haggard, Peggy Barnes, Susie Hopkins, Darla Caffey, Fawn Briggs, Patty Klein, Debbie Wallace, Ruth Thomason, Linda Woody, and a guest, Gaye McIntyre, and leaders, Mrs. Simpson and Mrs. Barnes.

Health And Safety Tips

From The American Medical Association

Ever wake up, or at least about half awake, in the night with a splitting head-

ache? Or a pain in the tummy? And stumble into the bathroom and reach for a bottle in the medicine cabinet. And gulp down a pill or two, or a spoonful of medicine?

Sure. All of us have. And we are risking serious trouble in taking medicine carelessly. The medicine was prescribed by your physician, and he included specific orders for size and frequency of dose and how to take it. The American Medical Association reminds that there is a good, sound reason for these orders, and they're meant to be followed.

A few simple rules for taking medicine can help to avoid an accident that may make your minor discomfort a lot worse.

* Never take medicine in the dark. Be certain you can see the bottle or pill box, to make certain it's the right one.

* Read the directions carefully before taking. Those directions are there because they're needed.

* Don't increase the dosage or take more often than directed without checking with your doctor.

* If the label says "Shake well before using," it means what it says. Shake it.

* Don't take medicine prescribed for someone else. Just because it helped your husband's cough doesn't mean it's right for you.

* Keep medicine out of reach of children. The small child who is rushed to the hospital after eating a whole bottle of sugar-coated tablets is an all too common occurrence.

* Put the cap back on the bottle. Some medicines change strength if exposed to air too long.

* Keep the medicine in its original box or bottle. Shifting sleeping pills into an aspirin bottle, for instance, could produce dire effects for someone else in the family.

A bakers' association says practically all bakery products are produced, wrapped, distributed and sold within a 24-hour period.

Masons Slate Area Workshop For Monday

Two Masonic Lodges in this area will be honored during a Workshop to be held Monday, May 15, at 7:30 p.m. in Acacia Lodge 1414 in Midland.

Midland Lodge 613 and Acacia Lodge 1414 in Midland will receive Honor Roll Awards, which are given by The Grand Lodge of Texas in recognition of outstanding attendance during the fall series of Masonic Workshop programs. Officers and members of Garden City Lodge 971 are also invited to attend.

J. H. (Jake) Loader, Jr., of Odessa, chairman of the eleven-county Masonic Workshop Area F-6, will present the awards and conduct the Workshop.

He said the Workshop is part of a semi-annual program held for the quarter-million members of nearly 1,000 Texas Masonic Lodges. The Masonic Fraternity is noted for its activities in the field of charity and in the self-improvement of its members.

Baptist Church News

The Bethany Class held their regular luncheon at the First Baptist Church, with Mrs. Ruth Holloway offering the opening prayer. Mrs. John Pinkston gave the devotional on "Faith in God."

Those attending were: Mrs. Oma Womack, Mrs. Hattie Estes, Mrs. Eureda Towery, Mrs. Vivian Tippet, Mrs. Warner Haynie, Mrs. L. C. Stovall, Mrs. Ruth Holloway, and Mrs. John Pinkston.

Mrs. Floyd H. Jones of Fort Worth, is visiting her mother, Mrs. J. W. Wells, and other relatives here.

Lady, you'll just love flameless electric cooking

You'll love flameless electric cooking when you try it—that's the best way to discover just how modern and convenient cooking can be. You'll love the automatic controls that cook dinner while you're away . . . the accurately measured heat settings that make possible the same fine results, time after time . . . the freedom from extra kitchen cleaning.

because electric heat is as clean as electric light. And you'll love electric cooking most in summer, when electric surface units heat the utensils, not the kitchen air. Whisper to your husband that you'd just love a new, flameless electric range. And remind him that he will, too, when he discovers how economical electric cooking really is.

Mrs. June Reid Gives Program On May 4

Mrs. June Reid presented the program on "Opportunity and Reward of Nursing," when the Lakeview Home Demonstration Club met April 4, at the home of Mrs. Roy Price.

Mrs. Reid discussed nursing from Florence Nightingale days to the present time, the gift some people have for nursing, the opportunity and improvement the different fields of nursing offered, and discussed the acute shortage of nurses.

Mrs. E. P. Madison, president, presided over the business meeting. Roll call was answered with "A Helpful Hint for the Sick Room."

Plans were completed for a "42" party to be held May 19, at the Doc Bryant home, with proceeds to go to the Cancer Fund.

Two guests, Mrs. Charis Sprinks of Midland, and Mrs. Billie G. McIlvain of Burley, Idaho; Mrs. Reid, and seven members were served refreshments of cherry pie and coffee.

Mrs. Reid was presented with a gift of appreciation. The "It" gift was won by Mrs. Alfred Franks.

The next meeting will be May 19, at the home of Mrs. Roy Russell.

25th Anniversary Celebrated By Springers May 6

Mr. and Mrs. Denver Springer of Lenora celebrated their silver wedding anniversary, Saturday, May 6. They were married in Big Spring in 1942, and have lived in Lenora since 1945.

Mrs. Springer was the former Martha Puth Stout, from Shreveport, Louisiana.

They are the parents of four children: Mrs. Glen Ward of Abilene, who is a student at Hardin - Simmons; Denver Allen Springer, II, who will graduate from high school this year; Janet Virginia Springer, who will graduate from Junior High School, and John Preston Springer, who is a student at Grady.

(Continued from page 1) a while to watch the doors go in. When the program of expansion is finished our city will have one of the finest grocery operations in West Texas. Best wishes for continued good business will stand our repeating here to ALTON and O. C. TURNER. Such an investment requires faith in their community and these local fellows belong to us and we'll continue to support them all the way down the line, both with friendship and patronage.

In addition to Mother's Day, May has two more to remember. May 20 is Armed Forces Day and May 30 is Memorial Day. Stanton and Martin County residents always have appropriate problems planned for celebration of both of these significant days. The STOEGER - ESTES POST of the American Legion hold services annually at Evergreen Cemetery and at St. Joseph Cemetery.

Martin - - -

(Continued from page 1) From perforations between 8,433 and 8,585 feet, it flowed 182 barrels of 38.9-gravity oil through a 20-64-inch choke daily. Gas-oil ratio was 621-1 with surface pressure registrations 150 pounds. The pay zone was fractured with 100,000 gallons of refined oil and 200,000 pounds of sand.

The producer is 660 feet from south and east lines of section 35, block 35, T-3-N, T&P survey.

M. R. Koger of Big Spring No. 1 J. S. Walker has been potentialized as the reopener of Spraberry production in the Bond pool of Howard County, 12 miles northwest of Big Spring.

From perforations at 6,665-75 feet, it pumped 30 barrels of 41-gravity oil and 30 barrels of water daily. Gas-oil ratio was too small to measure.

The project, 660 feet from north and east lines of the southwest quarter section 27, block 33, T-2-N, T&P survey, is the original opener to the pool and previously was completed by A. K. Turner of Big Spring.

It was a re-entry of a Canyon reef lime failure drilled by Sunday DX Oil Co. and plugged in July 1951.

Spell Quiz

Correct Answer is: Independent

Possible 1st Graders To Register

Superintendent Russell McMeans of Stanton High School announced the date for pre-school registration for all prospective first grade students.

The pre-registration date has been set for May 15, from 2:30 to 3 p.m.

Superintendent McMeans said all children will be required to be accompanied by a parent and birth certificates will be required. Registration will take place in the primary school building.

Little - - -

(Continued from page 1) that date.

Players will be assigned to a team by a draft conducted by the managers. Last years assignment will not be considered in the coming seasons assignments.

Paige Elland, Little League Commissioner, asked that the newspaper inform the prospective players to refrain from asking for special team assignments.

As a courtesy to the League officials and by request of the commissioner, The Stanton Reporter is publishing the proper registration form elsewhere in this issue of the newspaper.

City - - -

(Continued from page 1) of bonds of said City for the purpose of constructing extension and improvements to the City's waterworks system, said bonds to mature serially over a period of years not to exceed twenty (20) years from their date, and to bear interest at a rate not to exceed five (5%) per cent per annum, and to levy a tax sufficient to pay the interest on said bonds and create a sinking fund sufficient to redeem them at maturity?

PROPOSITION NO. 3
SHALL the City Council of City of Stanton be authorized to enter into a contract with the Colorado River Municipal Water District for the purchase of water from said District for municipal and industrial purposes?

Editor's - - -

(Continued from page 1) which was taken by the Interstate Commerce Commission in Washington a short time ago.

I was glad to have an opportunity to cooperate in connection with this important project. You may be sure that I shall continue to seek to be of service. I would be pleased to hear from you at any time.

Best wishes to all.
Cordially,
George Mahon.

It's what's inside that counts

Southwestern Bell installer trucks carry more than 150 different items—from half-inch nails to telephones to coils of wire. Also on board is a careful driver trained to understand the why's and wherefore's of modern communications.

Throughout the nationwide Bell System, each type of telephone truck is equipped with its own standardized parts and equipment. The same equipment that works in Southwestern Bell also works in any other Bell territory. If trouble strikes—flood, tornado,

hurricane—telephone men from one company can be rushed to another company to aid in fast, efficient service restoration. There's no delay because of equipment that won't work or men who don't know what to do.

In time of emergency or during a regular work day, Southwestern Bell's goal is to provide the best telephone service possible. Our expert craftsmen and a fleet of 8,000 well-stocked trucks help us do just that.

ENGAGEMENT ANNOUNCED—The engagement of Judy Joann McKinley of James Michael Moffett, son of Mr. and Mrs. J. M. Moffett of Snyder, is announced by her parents, Mr. and Mrs. Herbert McKinley of Midland. The wedding is slated for July 15, in St. Andrews Presbyterian Church. Miss McKinley and fiance are students at West Texas State University. The bride-elect's grandmother is Mrs. Mints of Midland, formerly of Stanton. Moffett is a grandson of Mrs. T. E. Bentley of Snyder, also formerly of Stanton.

SHS News

BY PUG DEAVENPORT

Activity at SHS is at its peak with only three short weeks left in the school term. On May 1, the graduating seniors received their graduation invitations. Caps and gowns were distributed on Friday, May 5.

Junior class members were thrilled with the arrival of their senior rings last week. This is the first year that the Juniors have received their rings before their final school year.

—SHS—

The Band and Choir held a joint banquet Friday, May 5, at the Ramada Inn, Midland. The invocation was given by Mike Springer. Band President, Mark Bentley, recognized the band and choir director, George Walker. Mr. Walker was given a standing ovation for his accomplishments during the year. Entertainment for the event was provided by a folk-singing group, "The Individuals." Members of the group are: Brenda Hightower, Judy Kokel, Eunice Stephenson, Gary Reid, and Butch Robnett, Stanton High seniors. The benediction was given by Bobby Hamm. Over 100 choir and band members, their parents, and guests attended.

—SHS—

A representative from Webb Air Force Base spoke to the Student Council last week about the Armed Force Day to be held at the base on May 20. A Wing Commander and Armed Forces Day Queen Contest is open to students in five area high schools. Schools competing are: Stanton, Coahoma, Big Spring, Forsan, and Sands. Entry blanks are in the office and everyone is invited to participate. The Student Council plans to tour the base in the near future.

—SHS—

Copies of the school paper, The Buffalo Rumble, were sold May 5. The paper is sold every other week by the Journalism class. Cathy Workman served as the editor this year. Mrs. Haislip is instructor and sponsor. Members of the class are: Bobby Hamm, Judy Pruitt, Martha Brashaw, Jerry Cox, Gene Wheeler, Jackie Walker, Pat Springer, Patricia Hamilton, Robert Roten, Manuel Delgado, Shirley Webster, and Kathryn Stewart.

—SHS—

Members of the National Honor Society met Monday, May 8, to elect officers for the upcoming year. Those elected were: President, Bill Wilson; Vice - President, Kathy Biggs; Secretary - Treasurer, Sandra Merrifield. Outgoing officers are: President, Mike Springer, vice - president; Cathy Workman, and Secretary-Treasurer, Eunice Stephenson. The officers will be installed in the near future. A NHS banquet is being planned for May 19 in Big Spring.

—SHS—

Work on the 1967 Buffalo Roundup has been completed. Editor for the annual was Cathy Workman. Sue Walker served as assistant editor. Other members of the staff include Mary Ramos, Janelle Tate, Dinna Mims, Sherry

T&P Railway Set To Fight PB Railroad

Texas and Pacific Railway has begun a fight to overturn an Interstate Commerce Commission authoring construction to the Permian Basin Railroad from Odessa to Seagraves.

The ICC March 21 gave its okay for promoters to begin construction of the short-line route that would join T&P rails in Odessa with the Santa Fe line in Seagraves 78 miles away.

Texas and Pacific, a long-time foe of the new railroad, released a brief now before the ICC asking it to reconsider its decision.

Prepared by Tom Farmer, Dallas, general attorney for T&P, the brief cites nine alleged errors on the part of the ICC and submits lengthy arguments on each point.

Farmer said he could not estimate when the brief would be considered by the ICC, and he said there is no time requirement.

"They move at their own speed," the attorney said.

Texas and Pacific's allegations are broken into three categories, one dealing with the new line's possible revenues; one concerning its expenses and potential profits, and the third outlining the line's effect on existing rail carriers.

The commission erred, according to the T&P, in finding that the PBRR's estimate of sugar beet traffic was not "unduly optimistic"; in finding that its grain hauling potential was much larger than T&P contended, and in ruling that T&P's estimate of traffic in metallic oil field supplies was too low.

Also, the brief argues that the ICC overestimated the line's potential for receiving traffic in miscellaneous commodities, estimate of a first year's revenue of approximately \$600,000 is not supported by evidence.

It goes on to allege that a \$9 million estimate of construction costs, as of 1963, is unreasonable and it takes issue with the contention that the PBRR would lose no more than \$100,000 during its first year of operation.

Another point, singled out

Vest, and Pug Deavenport. Sponsor is Mrs. Boyd, and business manager is Mrs. Pruitt. The annuals are expected the last day of school. All reserved annuals must be paid for in order to distribute them.

—SHS—

Three PFA teams traveled to Texas A&M, May 6, for state contests. Those attending were: David Matteson, Roger Graves, Stanley Louder, Ronnie Graves, Johnny McIntyre, Bill Huff, Weldon Posey, Wilbur Casbeer, Jimmie Jones, and Larry White.

—SHS—

The Cheerleaders and Annual Staff are planning to attend summer training schools. The cheerleaders will go to East Texas State at Commerce. The annual staff is making plans to attend the publications workshop held at Texas Tech in Lubbock.

Redistricting bills are ready for test votes in the House.

A court reapportionment measure which would add 16 courts, eliminate two and provide for district realignment, was reported favorably by the House Committee on Judicial Districts.

Bill would provide two new courts each for Dallas, Harris, Bexar and Tarrant Counties. Single courts would go to these districts: Hidalgo County, 200th District; Comal and Guadalupe Counties, 201st District; Duval, Jim Hogg, Zapata and Starr Counties, 202nd District; Randall County, 203rd District; Collin County, 204th District; Gregg County, 205th District; Crockett, Schleicher, Menard, Sutton, Kinble, Edwards, Real, Kerr and Bandera Counties, 206th District; and Wharton, Fort Bend, Matagorda, and Brazoria Counties, 66th District.

It would combine district courts serving Hill and Freestone Counties with other counties. It provides for abolishing the 88th District Court, effective January 1, 1970, and the 82nd District Court, effective January 1, 1971.

Candidates for the new judgeships would run for office next year, taking over on January 1, 1969.

A congressional redistricting bill, required by an order of the federal court, is complete. But it has been held back due to controversies.

Congressional redistricting as drawn by the House Committee would require no incumbent congressmen to run against another incumbent. Committee Chairman Gus Mutscher of Brenham said the bill would carve 23 new districts which vary no more

than five per cent in population.

Mutscher indicated that the redistricting measure for House seats is virtually complete and will follow congressional reapportionment by about 10 days.

Horses Gallop Again — In less time than it takes a fast stepping thoroughbred to romp a mile, the House Committee on Counties approved, on a local-option basis, a bill to legalize pari-mutuel horse race betting in Texas.

House sponsors said they are not sure when they will ask for a floor vote.

Here's what the House bill proposes: Racing would be permitted in counties where voters want it, with 85 per cent of the betting pools going to betters, two per cent to counties where tracks are operated and 13 per cent to be split between the state and track operators. State would, in turn, divide half of its share (on a population basis) among the counties having no tracks. Bookmaking and off-track betting with bookies would be made a felony.

Senate bill has been out of committee since February but, so far, the sponsors haven't broke it to a floor test.

"Open Meetings" — A bill to outlaw closed-door meetings of government agencies passed the Senate unanimously.

However, an amendment would exempt departments, agencies and political subdivisions not supported by or spending tax funds.

Misdemeanor fines are provided for violations, and "any interested person" may launch court action for mandamus or injunction against closed meetings.

Sen. Chet Brooks of Pasadena handled the measure in Senate. It now goes to the House where Rep. Bill Rapp of Raymondville is sponsor.

Revision Plans Advanced — House overwhelmingly passed a resolution proposing a method of state constitutional revision. A 20-member commission assisted by a 20-member citizens advisory committee would report recommendations to the next Legislature for submission to voters.

Rep. R. H. Cory of Victoria is author of the House resolution.

Senate State Affairs Committee approved a bill to establish a 45-member constitutional revision commission. Under this bill, by Sen. A. R. Schwartz of Galveston, the commission would be limited mainly to recommendations. It would offer suggestions to the Legislature for eliminating obsolete and repetitive sections.

Pollution Measures Cleared

House passed the Senate bill to strengthen water pollution control and establish a new Texas Water Quality Board as a separate agency. Amendments will send the bill back to Senate.

Meanwhile, the Senate has approved a bill to provide the mechanism for enforcing air pollution control measures. An amendment would allow the Air Control Board to set different standards for agricultural processors (including cotton gins) than are set for industries.

Grant Approved—U. S. Public Health Service has approved a \$315,659 grant to Texas for a statewide immunization program.

Funds will be used for immunization campaigns in cooperation with local health agencies and medical societies against measles, polio, diphtheria, tetanus and whooping cough. Project will continue through April 30, 1968. An additional year has been tentatively provided for with a \$325,000 grant. Supplemental budget of \$35,775 for polio vaccine has been requested.

Occupational Safety — House and Senate both have passed the compromise occupational safety bill. It now awaits Gov. John Connally's signature.

As finally passed, the bill is a compromise among labor, management and the governor. It would create a Division of Occupational Safety as a part of the State Department of Health.

DOS would have the power to make and enforce rules and regulations on safety, plus authority to inspect places of employment. A qualified safety engineer would be hired to administer the program.

Regulate Rainmakers—Senate has passed and sent to the

House a licensing bill to regulate weather modifiers — or would-be modifiers — under the Texas Water Development Board.

Apparently the bill is aimed more at encouraging research and development in their field of legitimate weather modifying than at bogus rainmakers.

Board would be given full control over the entire field of water modifying including annual licensing and permits.

Water District To Approve City Contract

If Stanton citizens approve a contract with the Colorado River Municipal Water District on May 16, they will know that there will be no slips.

Directors of the CRMWD are meeting today (Thursday) in Big Spring for the primary purpose of formally approving the contract. President Charles B. Perry, Odessa, will open the meeting.

Previously the board had approved a tentative contract subject to contacts with Stanton. The contract was entirely acceptable to Stanton city officials, hence the meeting in Big Spring to formally approve the contract if Stantonites vote yes for the water bond proposals here next Tuesday, May 16.

Basically, obligates the district to furnish up to 2,000,000 gallons in any one day to meet Stanton's water needs. The price is the same as that under the contract to the City of Midland. Stanton, however, has no minimum contract quantity.

House a licensing bill to regulate weather modifiers — or would-be modifiers — under the Texas Water Development Board.

Apparently the bill is aimed more at encouraging research and development in their field of legitimate weather modifying than at bogus rainmakers.

Board would be given full control over the entire field of water modifying including annual licensing and permits.

Legal Notice

BY ORDER OF THE BOARD OF EQUALIZATION.

In obedience to an order of the Board of Equalization, regularly convened and sitting, notice is hereby given that said Board of Equalization will be in session at its regular meeting place in the School House in Town of Flower Grove, County of Martin, Texas, at 10:00 o'clock A. M., on Wednesday, the 24 day of May, 1967, for the purpose of determining, fixing and equalizing the value of any and all taxable property situated in Flower Grove Independent School District, Martin County, Texas, for taxable purposes for the year of 1967-68 School year and any and all persons interested in or having business with said Board are hereby notified to be present.

BY ORDER OF THE BOARD OF EQUALIZATION.

Bob Hill,

Chairman of the Board

Flower Grove Independent School District, Martin County, Texas, 9th day of May A. D., 1967.

OUTDOORS IN TEXAS

BY VERN SANFORD

Surf fishing along the Texas Gulf Coast is fun . . . especially in balmy weather.

But . . . sometimes even the hardest surf fishermen want to cast beyond the surf without getting their feet wet. This time comes to all of us when the air and water temperature both are too cold for wading out.

Ability to fire that lure or bait far beyond the seaward breakers rests not in the physical build of the fisherman but in the build of his tackle.

In good surf casting all the work of whipping out the lure is done by the rod. Like the little motor that starts your car engine the fisherman merely puts the acting act into operation.

Before the advent of glass rods, true surf rods were frequently seen in use along the Texas coast. Just about every rod was made from a calcutta pole and ranged in length from nine to 12 feet.

These calcutta rods had a lot of whip. Unfortunately, however, they had a bad tendency to take a set. And even the most beautifully wrapped calcutta was never a rod of true beauty in appearance.

Attractive glass rods simply knocked calcutta into oblivion.

Except for fly-fishing, most glass rods were five to seven feet in length. They were ideally suited for general bay, pier and boat fishing. But not for surf casting — where a combination of a whippy rod and length is the answer to a long cast.

Fortunately, rod makers again are catching up with the specialized needs of fishermen today. A number of reputable companies now make good surf rods—glass ones—ranging from nine to 13 feet in length.

Man, when you hitch one of these rods to a heavy-duty spinning-reel, you can get casts out of this world. Or, like the old salt says: "You can chuck it out where the big ones are."

Conventional free-spool reels will cast nicely with a surf rod. But the casts will not be as long as those with the open-face salt-water spinning reel.

Another advantage of the spinning reel is that lighter line, smaller in diameter, can be used. You'll find there's much less current drag when using small diameter line. Due to this fact the sinker will hold the bait in place and virtually eliminate currents "rolling" the line back to the shore.

Today's glass surf rods are made in one piece or in several sections.

One-piece rods are great . . . except for the problem of hauling around. If you buy one of these longies the best thing to do is to have some rubber rod-holders attached to the roof of your car. Then carry the long rod on top where it's less likely to be broken. One thing for sure, it's dangerous to drive around with one of these long rods sticking out a car window.

Two-piece surf rods solves the portage problem. They can be broken down to fit nicely inside the car. But, remember, the two-piece rod isn't without its drawbacks. It doesn't have as much spring-like action. And you have those metal ferrules to consider. They take a beating from the salt water.

Even the finest metal will corrode unless proper care is taken. So, after every trip take the rod apart and thoroughly clean the ferrules. Then coat the ferrules with a light film of oil.

But be sure to remove the oil before assembling the rod for use. Oiled ferrules will cause a "cushion" when fitted together and such a "suction" is quite hard to break.

When a ferrule corrodes or begins to show specks of pitting, these corisions can be removed by polishing away with Jewelers' Rouge. This is a fine polishing compound that will not scar or scratch.

While you're checking the ferrule, be sure to also check the rod guides and tip-top. Guides and tip-tops, especially on spinning rods, take a beating since line pressure is applied directly to them.

A pitted or grooved guide or tip-top can result in your line breaking at a most embarrassing time.

A&M Produces Pecan-Harvesting Unit

Texas A&M University has produced a mechanical pecan harvester that may eliminate much of the hard labor in gathering the crop.

The university said the new unit picked up 500 pounds of nuts per hour in test. An 8-hour harvest day would result in about 4,000 pounds, where a man can harvest only about 150 pounds a day.

There is more to the fast harvest than the saving of labor.

The harvester can help get nuts to market earlier for the Thanksgiving and Christmas demand. And it means less chance of loss to squirrels and crows.

Surprisingly, also the machine is more efficient than hand labor. In one test reported by W. H. Aldred of the university's department of agriculture engineering, the machine picked up 94 per cent of the pecans on the ground.

A laborer picking pecans by hand gets only about 70 per cent.

Before using the harvester, an ordinary mechanical tree shaker is used to bring the nuts to the ground.

The picking unit is tractor pulled and driven by power takeoff. It looks something like a cross between a corn picker and a hay baler.

It has flexible 20-inch rubber fingers mounted that rotates near the ground. The fingers sweep the pecans from the ground up into the machine and a fan immediately blows away leaves and trash.

The nuts and heavier trash travel on a conveyor and the nuts drop through slots while the larger trash falls on the ground. The nuts are carried to a burlap bag.

The nuts still have some trash. An additional cleaning process is necessary. A stationary cleaner seems to work best and where needed, one person can remove any remaining foreign material.

The unit can be a 1-man job, but it works best with two. The second man rakes pecans away from the tree trunks and other obstacles.

A precleaning of the ground beneath the tree by mechanical means may increase efficiency.

In check areas where no precleaning was done, the machine picked up 80 per cent of the nuts.

In precleaned areas, the machine pickup nearly 93 per cent.

In further test, the harvester was run over the ground a second time to determine how many of the missed pecans would be picked up with a second harvest. In two operations, it picked up as high as 99.3 per cent of all the nuts.

LAND GIFT TO UNIVERSITY

The University of Houston has been authorized by the Texas Legislature to accept a gift of 50 acres of land to be used as the site of the university's Clear Lake City Center. Friendswood Development Company, a subsidiary of Humble Oil & Refining Company, will donate the land, which is near NASA's Manned Spacecraft Center southeast of Houston. John B. Turner, left, president of Friendswood, and Dr. Philip G. Hoffman, president of the university, examine the site on a photographic map. The University of Houston plans to construct a \$3 million building on the property in 1969 to serve personnel of NASA and aerospace firms, as well as other residents of the area.

How's Business?

EARLY WARNING BAROMETERS NOT YET OPTIMISTIC

By Roger W. Babson's Staff
Since our last review of the "leading" economic indicators, there has been a noticeable improvement in public sentiment with respect to business prospects. Perhaps this is partially the result of the further gains tacked on by the stock market, but another reason is the hope that the anti-recession monetary and fiscal stimuli can infuse new vitality into the economy.

Thus far, however, the crest-over pattern is still in effect, and we must still contend with the profit margin pinch as the year progresses. Another good - to - fair barometer is New Orders of Manufacturers, which is clinging near peak. The inflow of new business, however, not only lacks vitality but is eroding.

The trends of Factory Work Weeks, Wholesale Commodity Prices, New Business Incorporations, and Business Failures all continue to exhibit an underlying downturn. Hence we conclude that the "all-clear" signal must await more definite signs of economic improvement.

Of the eight economic indicators which in the past have tended to effect a major reversal of trend before similar major turns in economic activity, none can really be classified as a definite up-trend. The additional progress of the stock market recovery is a hopeful sign, but even here there is room for doubt. It may be that Industrial Stock prices still face a test

of last fall's low.

Another encouraging factor is the improvement in Building Contract Awards. These have picked up a little in response to the less acute stringency in the supply of mortgage credit, and in response to the reduction in mortgage borrowing rates. But the level of building plans can hardly be considered indicative of a new boom.

Corporate Profits in the first quarter of 1967 held up better than expected, on the whole. Nevertheless, the crest-over pattern is still in effect, and we must still contend with the profit margin pinch as the year progresses.

Another good - to - fair barometer is New Orders of Manufacturers, which is clinging near peak. The inflow of new business, however, not only lacks vitality but is eroding.

The trends of Factory Work Weeks, Wholesale Commodity Prices, New Business Incorporations, and Business Failures all continue to exhibit an underlying downturn. Hence we conclude that the "all-clear" signal must await more definite signs of economic improvement.

Abb Curtis Will Retire

Abb Curtis, athletic official and administrator in the Southwest Conference for almost half a century, announced his retirement effective in September when he reaches retirement age.

He will step down from the dual job of assistant to SWC executive secretary Howard Grubbs and as supervisor of officials.

Cliff Speegle, assistant football coach of the University of Texas at El Paso, was named to succeed Curtis. Speegle, football and basketball star at Oklahoma in his college days, was head football coach at Oklahoma State from 1955 to 1962. Speegle will report to his new assignment in mid-June.

Curtis was a football and basketball star at Texas in the early 1920's. He coached in high school three years before making officiating a career.

He officiated in the Cotton, Rose and Sugar Bowls in his long career.

He retired from office in 1949 and served the old Pacific Coast Conference a year before accepting a similar assignment with the Southwest Conference in 1950.

Pvt. Brown is a 1963 graduate of Midland High School. His wife, Lary Lyn, lives at 3500 Lockheed, Midland.

The cornerstone of the White House was laid on Oct. 13, 1792.

Hoover Defends Nation's Police

FBI Director J. Edgar Hoover Wednesday defended the integrity and decency of the vast majority of American policemen.

He felt some accounts of a recent study by the President's crime commission, which cited instances of police brutality and dishonesty, had exaggerated the extent of such occurrences. The commission document — "Task Force Report: The Police" — was published Sunday.

UPI asked the FBI director for his views of the task force's findings.

Emphasizing that he did not condone any excesses by any policeman, Hoover responded: "It is unfortunate and certainly unwarranted that the task force report should have been so interpreted and distorted as to over - emphasize alleged police brutality and corruption."

"The report specifically cautions against any effort to generalize upon the few instances—less than one-half of 1 per cent — where its staff members discovered excessive use of force by law enforcement officers."

"The danger of highlighting these infrequent acts of police misconduct is that it conveys an entirely false impression that such practices are common and widespread. This simply is not true."

Hoover said he was "confident that those who worked on the report will agree" that it was not intended as an over-all indictment of police.

"Even one instance of dishonesty or use of excessive force by a police officer is one too many," he continued. "But approximately 420,000 persons are engaged in law enforcement position in the United States today, and to cast doubt upon the decency, sincerity and integrity of the entire profession, base upon the regrettable actions of a very few — actions which are definite exceptions and not the rule — would be grossly unjustified and unfair."

The task force report issued last weekend warned against generalizations from instances it cited.

Question-And-Answer

(This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.)

Q — A fellow in my car pool filed his return after I did but he has already gotten his refund. How can I find out what happened to mine?

A — You should soon receive your refund or a letter explaining why you have not received it. An inquiry to our offices about the refund would not speed things up but only add to the workload of employees processing refunds.

There are a number of reasons why one particular refund claim might receive faster processing than another. Mistakes on a return, information omitted, or the selection of the return for audit before the refund is issued are common reasons for refund delays.

Q — Some travel and entertainment expenses I claimed are being questioned. What records do I need to back them up?

A — Your records should establish the amount, the time and place and the business

purpose of the expense. You should also be able to show your business relationship to persons being entertained.

A current, diary one in which entries are made close to the time expenses are incurred, supported by items such as cancelled checks, receipts and paid bills should be maintained to substantiate travel and entertainment deductions.

Q — I just moved and have a question about my return. Who should I contact, my present district director or the one in my old office?

A — Contact the district office serving you now. To help IRS identify your return, be sure to give your Social Security number, former address, and the district where the return was filed.

Q — Even with gratuated withholding and claiming no exemptions I still had tax to pay when I filed. Can I increase my withholding even further?

A — Yes. File a new withholding certificate — Form W-4 — with your employer indicating the additional amount you would like withheld from your paycheck.

Q — On a second job, is there any way you can get them to stop taking out for Social Security? My main job takes care of that with pen-

ty to spare.

A — The law requires each employer to withhold Social Security tax on the first \$6,600 of wages paid each employee. At year-end, a credit may be taken against income tax for any excess withheld due to have more than one employer.

Q — I plan to take in Expo 67 after a business conference in Montreal this summer. Will this have any effect on the deductibility of my travel expenses there and back?

A — Yes it might. Depending on the circumstance of your trip, only part of your travel costs associated with the business conference may be deductible. You would have to allocate the travel expenses to and from Montreal between business and non-business activity if the following conditions apply:

1. You were outside the United States more than one week.

2. Twenty - five percent or more of your time outside the U. S. was devoted to non-business activity.

3. You had substantial control over the arrangements for the trip.

4. A personal vacation was a major consideration in the decision to make the trip, and

5. You as a manager, are related to your employer, or you weren't reimbursed for your travel expenses.

Note that this business travel rule only applies to travel outside the U. S. If you went on a business trip to some U. S. city and then went sight-seeing, the amount of your business travel costs which would be deductible depends on the primary purpose of the trip. For detailed rules on traveling get a copy of Publication 463, by writing your District Director.

Q — Is there any way you can buy bonds for a child and avoid having to pay tax on the interest yourself?

A — Yes, have the bonds issued solely in the child's name or in his name with your name as beneficiary. Then the interest earned on the bonds should be reported as income by the child.

ONLY A THIRD OF CRIMES IN TEXAS CLEARED

Garrison Wants Tougher Criminal Laws

Homer Garrison, arguing for tougher criminal laws, said Saturday only a third of the crimes committed in Texas last year were cleared by arrests.

Revision

Garrison, director of the Department of Public Safety, joined Houston Dist. Atty. Carol Vance in recommending revision of the Code or Criminal Procedure. His remarks were to an interim House committee.

"Most major crimes go unsolved," Garrison said. "In two out of three cases the criminal is not apprehended. We therefore conclude that professional criminals are successful in two-thirds of their efforts. This indicates a high degree of professionalism."

Garrison recommended that juries be allowed to assess life sentences without parole and said that before punishment is assessed jurors should be informed of the defendant's

parole possibilities.

Other recommendation by Garrison included:

—That persons in custody be taken before a magistrate "without unnecessary delay" instead of "immediately" as required by the present Criminal Code.

—That officers be allowed to apprehend persons named in arrest warrants without having the actual warrants in their possession.

—That police should be

able to arrest persons for any violation of the law committed within their presence or view.

—That the legislature consider a law allowing courts to issue "no knock" search warrants under special circumstances. These would not require an officer to identify himself or give notice of his purpose in searching a premises.

—That police officers be entrusted with warning sus-

pects of their rights before making confessions. The present Criminal Code requires that a magistrate do this.

Crime To Resist

—That Texas could have a law making it a crime to resist a police officer making an arrest.

Garrison also recommended higher pay and more training for policemen, including college degree programs in police administration and police science.

Farmers Prefer To Make Crop-Production Decisions

There are signs that farmers, as a whole, are becoming increasingly capable of making their own crop-production decisions without the government telling them what to do under crop-control programs.

This year's prospective crop - production pattern certainly indicates as much. Plantings as a whole and for some crops will be somewhat

less than the Agricultural Department had suggested.

For years, the basic argument in behalf of government crop - control measures has been the contention that farmers, if left alone, would overplant recklessly and bury themselves and the farm economy with price - depressing surpluses.

This argument still is being made by advocates of the Johnson administration farm policies and programs which include both mandatory and voluntary crop control measures.

But some questioning of this argument has bobbed up in recent weeks because Agriculture Department reports indicate farmers will plant several million fewer acres of important livestock feed grains than the government had suggested.

This year's federal feed-grain program sought an increase in production because big surpluses of recent years have been used. Under the program, farmer participants get government payments and price supports. The prospective cotton acreage also is below the level farmers could plant under controls.

Likewise, department surveys indicate that the total acreage to be devoted to crops this year may be around 15 million acres short of the approximately 330 million which officials had said could be planted.

Why this failure to take advantage of the possibility to grow more under farm programs? Several explanations have been given by farm leaders and officials. The most significant appears to be farmers' fear of new surpluses. Having gotten out from under the price-depressing supplies of the last decade, producers apparently do not want a return of economic problems that come in the wake of surpluses.

All this does not necessarily mean, however, that farmers are ready to kick out the farm programs. Many are not yet ready to have agriculture go it alone. But it does seem to indicate that there is a growing feeling among farmers that the course of "self-help" must be taken if agriculture is to attain an equality of income with non-farm groups.

Of course, the American Farm Bureau Federation, the farm organization reporting the largest membership, long has refused to accept the theory that farmers need government production guidance provided in present programs. It contends that farmers, if left alone by the government, would do a better job adjust-

ing their production at profitable levels.

The Farm Bureau argues that government farm programs, rather than a blind farmer tendency to overplant, brought on the surpluses. It holds that government price supports encouraged more production than was needed and hence kept agriculture from making realistic adjustment of supply to demand.

The farmer fear of new crop surpluses — particularly of grains — is reflected in the fact that strong opposition has developed among producers to suggestions for the creation of reserves of crops to assure the nation ample supplies. They fear such reserves could and would be used to hold down their prices, much as the surpluses of recent years did.

Cancer Society Holds Annual Meeting May 1

The Martin County Unit of the American Cancer Society held its annual meeting at Cap Rock Electric Monday night, May 1. Mrs. P. M. Bristow presiding in the absence of the president.

Mrs. John Roueche reported \$380.39 had been received through the crusade, and \$369.00 through memorials for the year.

Those present were: Mmes. Bob Latimer, Glenn Gates, P. M. Bristow, Ross Hay, Stanley Reid, F. O. Rhodes, P. M. Bristow, John Wood, John Roueche, Roy Pickett, Eunice Stephenson, and Judy Kokel.

Daniel May Run For Place On Supreme Court

Former Gov. Price Daniel is "considering" a race for the Texas Supreme Court next year.

He probably would seek the position now held by Associate Justice Meade F. Griffin, whose present term will expire next year and who is not expected to seek re-election.

Election to the Supreme Court would round out a long career of public service for Daniel, who served as state representative, speaker of the House, attorney general and U. S. senator before his three terms as governor.

He was defeated in his unprecedented bid for a fourth term as chief executive in 1962. Since that time, he has been in private law practice, dividing his time between Austin and his ranch home near Liberty. He maintains law offices in both Austin and Liberty.

Daniel, now 56, completed 23 years in public office on Jan. 15, 1963, when he was succeeded by Gov. John Connally.

A native of Dayton, Daniel was a graduate from high school in Fort Worth and received a Journalism degree from Baylor and was admitted to the bar.

He began law practice in Liberty and, in 1938, was elected to the first of three terms in the House of Representatives. At the age of 32, he was elected speaker. His legislative service was interrupted by World War II during which he rose from the rank of private to captain in the Army.

Daniel was elected Texas attorney general in 1946, 1948 and 1950, winning national attention for his fight to retain the Texas tidelands. He was elected to the U. S. Senate in 1952 when the late Tom Connally retired. Four years later, he won the race for governor and resigned from the

Egg Plan Could Save Whoopers

The United States and Canada have embarked on a bold new program to save the vanishing whooping crane from extinction by taking eggs from their Northern Canada nesting ground and hatching them in captivity.

The plan, resulting from a six - year research project, was announced by Interior Secretary Stewart L. Udall.

Udall said the program is urgently needed to increase the survival rate of young whooping cranes. During the last 25 years, the flock has dwindled because so few young birds have returned each year from the remote nesting ground near Canada's Great Slave Lake to the Aransas National Wildlife Refuge in Texas.

Many eggs don't hatch, many of young birds die before the return flight, and others don't survive the trip. By this spring, there were only 43 whoopers left.

Under the plan, Canadian pilots will fly teams of U. S. and Canadian biologists into the nesting area. The biologists will remove eggs with as little disturbance as possible to the parents.

The eggs will then be flown to Fort Smith, Northwest Territory, where they will be placed in portable electric incubators.

Later, biologists will transport the eggs to the Patuxent Wildlife Research Center near Laurel, Md., some of the Bureau of Sports Fisheries and Wildlife endangered species research station.

The eggs will be watched around - the - clock and be hatched by bantam hens or in incubators. The baby birds will be taken to Aransas.

Udall said the program was developed by the bureau and Canada's Wildlife Service and has the support of eminent ornithologists and agriculturalists.

The Launching Pad

By NEAL ESTES

JOHN BEN SHEPPERD, former attorney general, went back to his home county of Gregg last week to address the Longview chapter of the National Honor Society. He had this to say about character in his address: "It is important to recognize that while we mass produce everything in this country, we cannot mass produce character, because that is a matter of personal identity. It belongs to those who have found the part they are to play, who are doing the work for which they are best endowed, who are satisfied they are filling a vital need and to those who are meeting their obligations and standing up to their tasks. Character is a positive thing."

AMERICAN people are asking a serious question about a great college. What's happened to DARTMOUTH COLLEGE? An invited guest on campus, former governor GEORGE WALLACE of Alabama was just about mobbed by a group of yelling, howling, threatening rioting students. College officials sent WALLACE an official apology for the student action, declaring it a minority group's idea. Why allow a single student in the college with such anti-American feelings? A tour of duty in uniform in Viet Nam might be the medicine those bearded pinkos need. Perhaps if they saluted the flag daily more respect for Old Glory and what it symbolizes might be what the flag burners need. WALLACE had this comment after the incident: "They were trying to turn the car over and knock in the top. That's academic freedom. That academic freedom will get you killed."

WARNER HAYNIE telephoned the editor Monday afternoon to seek our cooperation in helping remind all prospective voters in the city bond issue election next Tuesday to be sure and bring along their registration slips. Exemption certificates will also be required. People over 60 can vote free, of course, but they have to have a registration slip if they have just attained the age of 60 in the past year, HAYNIE said.

YOUR writer glanced over the files in the newspaper a year ago and found that the weather pattern in May, 1966 followed the same as we have experienced here this year. Monday afternoon, May 16, 1966 the mercury in Stanton ranged to a warm 99 degrees. On Monday afternoon, this week and year, the mercury again soared to 99 degrees. Midland reported 96 degrees this May and on May 16, 1966, our friends over in Midland County experienced some even 100 degrees. On Monday afternoon, this week and year, the on Tuesday. The temperature rose to 98 here. Window fans are due to hum and homes cooled by refrigerated air are in for a long summertime run if this hot stuff continues.

OUR good friend H. M. McREYNOLDS has submitted his resignation to the board of directors of the Martin County Chamber of Commerce due to ill health. The genial gentleman recently suffered a physical setback that caused him to be absent from the office for several weeks and his condition will not permit a return to his duties as manager of the chamber for sometime to come. The board of directors employed MRS. LETA B. EIDSON, former Stanton postmistress to take over the duties at a meeting here Tuesday. The editor extends to MRS. EIDSON the complete cooperation of the paper. We have worked with her before in a business relationship and always found her very congenial and cooperative.

TUESDAY, MAY 16, is election day in Stanton. We might add it is a most important election day for all of us because we are going to be voting on the very future of our city in a manner of speaking. The water bonds are vital to our community growth. We would like

Members of the Area-wide and Steering Committees of the High Plains Diapause Boll Weevil Control Program have unanimously endorsed continuation in 1967 of the fall spraying operations which began in 1964 and have reduced overwintering populations of boll weevils in 9 infested counties to about two per cent of previous numbers.

At the same time the group voted for increased efforts toward perfecting eradication methods which would remove the weevil threat from the Plains once and for all. There is a possibility one or more of these eradication techniques could be ready for a test run in the spring of 1968.

"There is no acceptable alternative to continuing the program," according to Ed Dean, Field Service Director for Plains Cotton Growers, Inc., the High Plains cotton producer organization which initiated the program.

"If left alone weevils would immediately build back to the huge numbers present in the 1964 growing season and would shortly overrun the entire High Plains area," Dean said.

He also said that if this area is to be in position to take advantage of male sterilization or other eradication techniques, it is necessary that weevil numbers be kept down to the current low level. Entomologists estimate that no more than an average of three or four weevils per acre will emerge from hibernation this spring, and it is estimated that the release of sterile males would require a ratio of about 100 to 1 to disrupt the reproductive cycle.

The release of 400 sterile male weevils would not be enough to do serious economic damage to crops. But if weevil populations were even 100 per acre, the 4,000 sterile weevils that would have to be released would make the technique prohibitive.

Some 30 people will be used in surveys this June, July

to see the voters give the proposal a highly complimentary affirmative. Our Chamber of Commerce is strongly backing the issue and our mayor has detailed some mighty sound reasons in public appearances before clubs and organizations why Stanton stands at the crossroads of progress. MAYOR WHEELER has pointed out to us personally and to many other persons how badly our city needs a permanent water supply. To go further and recite the truth, we find the community in an almost MUST situation for the continued good health of our city population, for protection of our homes and business places against fire damage and for the growth of our town. The least any of us can do is visit the polls and cast a ballot.

YOUR correspondent has lived in major cities, in middle sized cities, in small cities and in two cities under 5,000 population. We like the people and the atmosphere in Stanton best of all. In this country we know practically everyone personally. When a brothe or sister resident receives an honor we publish it. So, with unfeigned humility, we want to tell our friends about the second bit of recognition passed on to your country editor. A few years ago we were appointed an honorary colonel of then GOV. JIM ALLRED's staff, the later named to the Texas Industrial Advisory Commission by GOV. PRICE DANIEL and more recently made an honorary colonel on appointment of PRESTON SMITH, while GOV. JOHN CONNALLY was out of the state. We naturally appreciate the fact that some friends of our in Austin knew us in the past and some remember us in this decade. But of all the titles we like the best is plain NEAL, country editor. We get real pleasure out of having some individual drop by the office and tell some member of the staff to "let NEAL fix it for the paper." We have telephone calls from people all the time telling us what they want in the paper and then closing out the conversation by saying: "Go ahead and fix it for me or us—anything you say will be alright." You simply can't beat that kind of friendship, backing and loyalty. It is priceless to us.

Beta Sigma Phi News

Mrs. T. R. Louder of 403 West Second Street, was hostess to a meeting in her home of Preceptor Mu Chapter of Beta Sigma Phi Thursday evening, May 4. Mrs. J. N. Woody, Jr., president, presided during the business meeting. Plans were made for the Mother - Daughter Luncheon to be held Saturday, May 13, at 12:00 noon at the Cap Rock auditorium.

The Program Chairman, Mrs. Stanley Reid, introduced Mrs. T. R. Louder, who presented a program on the Philippines. Mrs. Louder introduced her husband, T. R. Louder, who gave an interesting talk on the Philippines. Also Mrs. Louder introduced Mr. and Mrs. Charles Armsden of 2404 Cheyenne Drive, Big Spring, who recently returned from the Philippines after having been stationed in that country while serving in the Air Force. Mr. Armsden recently attained the rank of Technical Sergeant, and is serving at WAFB. He and his wife showed color slides of the Philippines. Philippine art objects were displayed.

Before the meeting Mrs. Louder served a typical menu of the Philippines consisting of: fruit punch, potato salad, Lumpia, fried rice, fruit cocktail, soda pop, pineapple cake, and coffee.

Those attending the dinner and program were: Mrs. P. M. Bristow, II, Mrs. Elmer J. Long, Mrs. Glenn Gates, Mrs. Bob Latimer, Mrs. Glenn L. Brown, Mrs. John Wood, Mrs. Stanley Reid, Mrs. John Rouché, Mrs. Louis Roten, Mrs. Helen Dawson, Mrs. Juil Reid, Mrs. Jesse Talton, Mrs. J. N. Woody, Jr., Miss Sammie Laws, the hostess, Mrs. T. R. Louder, and guests, Mr. and Mrs. Charles Armsden and children, T. R. Louder and Jimmy.

Members of Preceptor Chapter will serve the Ex-POW dinner Saturday evening, May 13, at the Cap Rock auditorium. Mr. and Mrs. Armsden will show color slides of the Philippines.

Mu Lambda Chapter of Beta Sigma Phi met May 4, in the home of Gene Nowlin. Obera Angel, vice - president, conducted the business meeting, in the absence of Tince Ory. In the absence of Tince Ory, read for Gene Nowlin and Danella Parnell. Robbie Graves gave the program on "Architecture." Dorothy Pinkston gave the second part of the program on "Home Building and Planning."

Installation of officers will be held May 16, in the home of Tince Ory.

Members present were: Allie Anderson, Obera Angel, Robbie Graves, Gene Nowlin, Danella Parnell, Dorothy Pinkston, Bonnie Faye Sorley, and Crystal Webb.

Rho Xi Chapter of Beta Sigma Phi met in the home of Mrs. Billy Reager on May 4. President Claudeen Sorrells, called the meeting to order, and conducted a short business meeting.

An invitation to attend a Mother - Goose Mother - Daughter luncheon on Saturday, May 13, was read.

It was announced that next year Rho Xi will be in charge of presenting the spring book review for all chapters.

Installation of officers for next year was conducted by Claudeen Sorrells. They are as follows: President, Mrs. Bob Bryan; Vice - President, Mrs. Stanley Bergstrom; Secretary, Mrs. Charles Elmore; Treasurer, Mrs. Bill Terry; Director, Mrs. Tom Ed Angel, and Sp-

and August to both study weevil population dynamics and delineate the area to be sprayed this fall, Dean states.

In 1964, the first year of the program, base acreage to be treated was almost 300,000. Last fall, it was necessary to spray only a base area of about 185,000 acres, and it is hoped this can be reduced to an even smaller acreage in 1967.

"This fact, together with other economies effected in the program, will make it possible for Plains producers to meet their obligations without an increase in the 40 cents per bale contribution," Dean said, "and the committees agreed that this figure would not be changed this year."

The program is jointly financed by the State and cotton producers in the area, with matching Federal funds.

Guthion, newly approved for use in ultra low volume form, may be used this year in a pilot project. If it prove satisfactory for use in the entire program, an even more economical and effective program might be possible in 1968.

Low volume Malathion is the chemical used for the past three years. It will be used for the bulk of spraying in 1967 pending proof that Guthion would do a better job, Dean reported.

"I have never been associated with anything so exciting, stimulating, or offering greater potential for the South Plains than the prospect of importing water to the area for agricultural and other uses," says J. D. Smith of Littlefield.

Smith is President of Plains Cotton Growers, Inc., and a member of the organizing committee for Water, Inc., the formation of which is one of the first steps toward bringing water to West Texas from areas of surplus.

"Engineers and others who have studied the situation have convinced me that import water for this area is not only possible, but practical," Smith said, and added "It has often been said that with plenty of water the Plains could be the garden spot of the world, and I now expect to see it become just that."

The organizational meeting of Water, Inc., will be held at the KoKo Palace in Lubbock at 2:00 p.m. May 24, and members of the organizing committee are urging that people from all walks of life be on hand.

A charter and by-laws for the organization have been drawn up and approved by the organizing committee and these will be submitted for membership approval May 24.

"Too many people are looking on imported water as a pipe-dream," according to Smith. "They just don't realize how close we are to the day when the Texas Water Development Board, the U. S. Bureau of Reclamation and the U. S. Corps of Engineers may say 'the water is available, we can get it to you at a reasonable cost, and if you want to sign this contract to pay for it.' And if we are going to be ready when that day comes, we've got to start now."

The TWDB, Bureau of Reclamation and Corps of Engineers along with three prominent engineering firms, have conducted engineering and cost studies already that indicate the feasibility of transporting water up the hill to West Texas and Northeast Texas and areas outside the State. Other studies are now in progress to outline possible storage site in the area, a distribution system and other details.

These will be discussed at the May 24 meeting, as will the possible cost of the water once it arrives and the economic impact on the area.

Initial studies indicate the definite possibility of importing from three to five million acre-feet each year to the Plains within the next 10 years, followed by another 10 to 15 million acre-feet annually in about 20 years.

This compares with about 5 million acre-feet now being pumped annually for agricultural use from the Ogallala formation which underlies the area.

Smith said "This is something which could mean tripling the irrigated acreage on the Plains, extending the life of our irrigation indefinitely, broadening the range of practical crops to be produced and other benefits. Just the announcement that a contract would be signed for imported water would cause an immediate jump in land values. So I feel PCG, as a producer organization, should do all in its power to move the project forward as fast as possible—which is just what we are doing."

ANNOUNCE MARRIAGE — Mr. and Mrs. Oren D. Albright Jr. of 3521 W. Illinois St., Midland, announce the marriage Friday of their daughter, Deborah, to James R. Billington, son of Mr. and Mrs. James H. Billington of 2411 Cuthbert St., Midland. They will be at home at the Spanish Manor Apartments, 2900 W. Ohio St., Midland.

nsor, Mrs. Fiji Brandt. After the business meeting, a pink and blue shower was given in honor of Mrs. Nolan Sorrells and Mrs. Corky Blocker.

Refreshments were enjoyed by Mrs. Tom Ed Angel, Mrs. Fiji Brandt, Mrs. Corky Blocker, Mrs. Bryan Boyd, Mrs. Bob Bryan, Mrs. Charles Elmore, Mrs. Nolan Sorrells, Mrs. Billy Reager, Mrs. Waid, Mrs. Tommy Blackwell, Mrs. Bill Terry, and Mrs. Eddy James.

Xi Epsilon Delta Chapter of Beta Sigma Phi met May 4, for their regular business meeting and program at the home of Mrs. Bob Thrailkill.

Correne Manning presented the program on "Enjoyment of Man."

Plans were made to have a party after the next meeting,

FHA Club Activities

The Future Homemakers of America met May 9, and elected new officers. They are: Cathy Hazlewood, president; Dianna Mims, vice-president; Luan Louder, secretary; Mary Bradshaw, treasurer; Cindy Davis, reporter; Cyndi Clements, historian; Melrae Angel, song leader, and Shelia Manning, parliamentarian. Cindy Pickett led the group in singing songs.

which will be the last one for the year.

Those present were: Mrs. J. M. Payne, Mrs. Euel Ferguson, Mrs. Homer Schwalbe, Mrs. Correne Manning, Mrs. Bob Thrailkill, Mrs. Henry Louder, and Mrs. Wallace Kelly.
