Announcement of the college publications committee at McMurry in Abilene this week revealed that FRANCES JOYCE (PUG) DEAVENPORT, this city, had been named editor of the McMurry War Whoop. The War Whoop is the college newspaper. PUG, our protegee in journalism for four years while a student at Stanton High School, is indeed a talented and pretty young lady. She is the daughter of MR. and MRS. BOB DEAVENPORT. PUG wrote an interesting column for her hometown newspaper covering school activities and never missed a deadline. She has also helped us out on special assignments since her graduation and since she has been a freshman at McMurry. PUG was named a staff member and had a by-line story in every issue of the War Whoop during her freshman year in college. With her elevation to the editorship of the college paper in her sophomore year, the students are in for a good publication. As PUG gets her paper out in Abilene next year I am looking forward to re-living some of my old college days in Commerce when I served as editor of the East Texan by reading all of her issue. The East Texan was and still is, the official publication at East Texas University.

It is real nice to know that the generation gap is not so wide that some of the graduating seniors of various Texas high schools forget about those of us who finished our early scholastic careers in the "Roaring Twenties." I am proud of every single graduation invitation I have received to date. They have rolled in from Stanton, Commerce, Longview, Lubbock, and Dallas.

May, the third month of springtime, is fading fastly away and in about twenty days the summer season will make its debut. It has been an unusual spring. Things have greened up a lot but the lack of moisture has delayed cultivation a lot. Flower beds have been left unworked and unplanted due to the hardpan top covering of the soil. It would take a "Kelly Blue" plow point — the kind they used to make in Longview, to penetrate the crusty earth in some localities.

Plans are due to be made for the Old Settlers Reunion celebration to be held in Stanton the second Tuesday in July. BOB HANSLIP has called the opening meeting for the planning committee and a notice appears in this issue of the paper.

Baccalaureate Services Set For May 17

Baccalaureate services have been announced for the Stanton High School Senior Class. Ceremonies will be held at 8 o'clock p.m. on the evening of May 17, in the school auditorium. Rev. Richard Payne, pastor of the First United Methodist Church, will deliver the sermon. Eighth grade graduation exercises will be held Friday, May 22, at 7 p.m. in the auditorium. Commencement exercises will be held on Saturday evening, May 23, at 8 p.m. in the school auditorium.

Flower Grove Honor Grads Announced

Beth Holcomb, with an academic average of 94.077, was named valedictorian of Flower Grove Senior High School. Virginia Pribyla, with an average of 92.210, received salutatorian honors. Parents of the girls are Mr. and Mrs. E. D. Holcomb, and Mr. and Mrs. Raymond Pribyla, both of Star Route, Tarzan, Texas.

Miss Holcomb has participated in many curricular and extra-curricular activities, where she has maintained a leadership role throughout her high school career. For four years she has served as class officer. The Outstanding Mathematics Student Award has been presented to her for the past three years. During her senior year, she has served as class president, president of the local chapter of National Beta Club, editor-in-chief of the "Dragon Trail," (yearbook), head cheerleader, and co-captain of the Girls Basketball Club.

Miss Pribyla has been active in all phases of the school program. She has served as FHA officer, and as class officer for four years. The Outstanding English Student Award has been presented to her for the past two years. During her senior year, she has served as assistant editor of the "Dragon Trail," vice-president of the local chapter of the National Beta Club, and captain of the Girls Basketball Club, where she was an outstanding forward. She will participate in the state track meet. Also, in 1970, the student body elected her "Most Beautiful."

In September, 1970, Miss Holcomb will be enrolled in West Texas State University, where she plans to major in mathematics. Miss Pribyla will pursue a journalism major in Texas Tech University.

Lions Club To Hold Zone Social

The Stanton Lions Club will be host to a zone social Friday, May 15, at 7:30 p.m. in Cap Rock Auditorium in Stanton. Lions from Grady, Big Spring, Sand Springs, and Sterling City are expected to attend. District Governor A. E. Prugel, Sonora, will be present to install all new officers in the zone for the 1970-71 year.

District Governor - Elect Harry Wisheart, Junction, will be the guest speaker for the affair.

Entertainment will be provided by the "Colors." This group is made up of Stanton youths, Mark Eiland, Bruce Stanley, Dennis Stevens, Gordon Eiland, and Jimmy Jones.

Honor Students Named In Grady Eighth Grade

Valedictorian and salutatorian of the 1970 eighth grade class of the Grady School have been announced. Valedictorian is Nancy Pribyla, daughter of Mr. and Mrs. Raymond Pribyla, Box 36, Tarzan. Nancy's average is 95.59. Salutatorian is Rosalind Welch, daughter of Mr. and Mrs. Eldon Welch, Route 1, Stanton. Rosalind's average is 94.86.

FIRST WAR CASUALTY — George William Tom, Specialist 5, son of Mr. and Mrs. L. G. Tom, became Martin County's first war casualty in Vietnam on April 27. Funeral services were conducted for the fallen serviceman at St. Joseph Catholic Church, at 3 p.m. last Wednesday afternoon. An honor guard from Ft. Bliss, El Paso, is shown above removing the casket from the funeral coach to the interior of the church. Ronnie Gilbreath, funeral director, is shown leading the way up the steps. Full military rites were recited for the Vietnam victim. The account of young Tom's death and the funeral article appeared in the last issue of the paper. Flags on the courthouse lawn, the postoffice, and at the Texas Electric Service Company were flown at half mast during the funeral services.

Four Teachers Hired, Coach Jennings Quits

High School authorities have advised the county newspaper that four new teachers have been added to the faculty and Coach Bill Jennings has resigned.

Jennings tendered his resignation to accept a coaching position at Kress, Texas. New teachers employed include: M. Alice Payne, Betty F. Wright, Willa Jo Petree, and Pamela Bass.

Miss Bass will teach physical education in high school. Betty Wright will be a first grade teacher, and Willa Jo Petree will be assigned to a place on the junior high school faculty.

Four coaching places are now open in the public school system, officials said this week.

Parrish Rites Held Wednesday In Midland

Mrs. Maude Parrish, 72, died early Tuesday morning in a Midland rest home. Services were held Wednesday, May 13, in the Ellis Funeral Chapel, Midland. Roy Phemister of the Clyde Church of Christ officiated. Burial was at Resthaven Cemetery in Midland.

Survivors include her husband, J. Harry Parrish, Midland; three sons, Owen of Midland, J. C. of Odessa, and Harold of Tokio, Texas. Two sisters, Mrs. Lillian Bevers of Stanton, and Mrs. J. D. Shewmake of Odessa. Also five brothers, three sisters, four grandchildren, and three great-grandchildren.

Mrs. Parrish was reared in Roby. She married J. H. Parrish in 1916 in Roby, and moved to Brownfield in 1929, where they were engaged in farming for 30 years. They moved to Stanton in 1959, and then to Midland. She was a member of the Church of Christ.

Old Settlers Plan Meeting
There will be a special meeting in helping plan this year's Old Settlers Reunion, on Friday evening, May 15. The Texas Electric Service

(Continued on page 6)

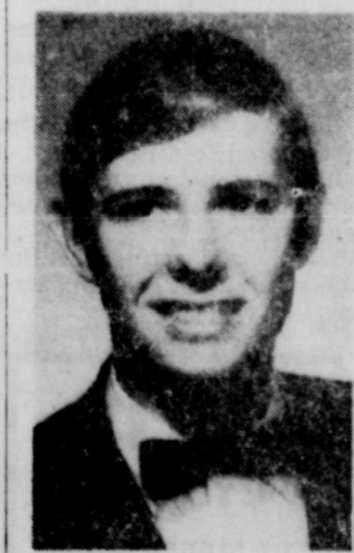

Resolution Of Respect In Honor Of George W. Tom

Whereas, Our comrade in arms, George Tom, has given his life in the defense of his country, and whereas his parents, Mr. and Mrs. Glenn Tom, have been saddened by the loss of their beloved son in our war in Viet-Nam, we of the American Legion send our sympathy in their great loss, and in addition add our praise and adulation for the bravery of their son, George, for his zeal and fervor in defending his country, and its sacred honor in a foreign land, for it is this brand of valor which will keep our country a free nation, where everyone has the right to determine his own destiny in life.

May Our Heavenly Father accept his contribution to his family, his country, and his friends, and receive our Buddy to that home where there will be no more war and strife, no more heartaches and separation from family and friends.

Stoeger-Estes Post No. 429
The American Legion
Be it further resolved that a copy of these resolutions be given to The Stanton Reporter, and a copy entered in the minutes of this Post.

Workman, Fisher Named Top SHS Honor Graduates

David Workman, Jr.

Scotty Fisher

David Workman, Jr., son of Mr. and Mrs. David K. Workman of 804 W. Broadway, is the valedictorian of the 1969-70 senior class at Stanton High School.

Salutatorian is Scotty Fisher, son of Dr. and Mrs. Allen Fisher of 405 W. Fifth Street in this city.

Workman ends his high school career with a 97.2 grade average, while Fisher's average is 93.3.

Workman has received the Outstanding Bandsman Award, the West Texas Scholar Award, and was elected to the National Who's Who this year. He is now serving as president of

the band and president of the National Honor Society. He has been a member of the FTA for four years, and is past president of both the Math Club and Science Club. He has received four "S" achievement awards, and was elected Most Intellectual by the student body.

Fisher has been on the football team four years, and is a member of the National Honor Society. He is a member of the Math Club, Future Teachers Association, Science Club, Spanish Club, and the school annual staff. He is a member of the Student Council, and Who's Who.

Stanton Youth Will Attend Symposium

Kenneth Simonek, a student at Stanton High School, has been selected to attend the Tenth Texas Nuclear Science Symposium for High Schools at the University of Texas at Austin, June 2-5.

He will be accompanied to the symposium by John J. Anastasio, science teacher at the high school.

They will be sponsored by Texas Electric Service Company, a member of the Texas Energy Research Foundation, which is joining with the university in putting on the symposium. The foundation is made up of ten investor-owned electric power companies in Texas.

Some 550 outstanding science students and their teachers selected by their schools will attend the four-day meeting. Scientists and engineers from industry and education will discuss nuclear physics and related topics, according to Cecil Bridges, company manager.

Two afternoons will be spent touring the science laboratories at the university, including those where experiments sponsored by the Texas Atomic Energy Research Foundation are being carried on in thermonuclear (fusion) research.

"Attending this symposium provides an excellent opportunity for students interested in careers in engineering and science to learn more about the latest achievements in nuclear science," Bridges said. "We are pleased that we can make this opportunity available to them."

Dr. Theos J. Thompson, a member of the United States Atomic Energy Commission in Washington, D. C., will give the commencement address that concludes the symposium.

Other noted speakers will include Dr. R. J. Seeger of the National Science Foundation in Washington, D. C.; Dr. J. R. Maxfield, Jr., head of the Maxfield Radiological Center in Dallas, and chairman of the Texas Radiation Advisory Board, and Dr. Harlan J. Smith, director of the McDonald Observatory of the University of Texas.

Dr. John R. Silber, dean of the College of Arts and Sciences at the university, is chairman of the symposium.

"Texas Electric Service Company is vitally interested in the thermonuclear research program which the Texas Atomic Energy Research Foundation is sponsoring at the university," Bridges said. "Nuclear fusion is an important potential source of energy for electric power generation, and it also offers the promise of being able to generate power with minimum effect upon the environment."

"Our association with the university in this program is providing a field of research for some 80 graduate and undergraduate students from all over the state, and it has also furnished the opportunity to sponsor these annual high school science symposiums."

Martin County Water Unit To Be Organized

A county wide meeting that has been described by one spokesman from the group interested in Water, Incorporated, as "perhaps the most important meeting in the history of Martin County," has been called for 8 p.m., Tuesday night, May 19. The vastly important meeting will be held at Cap Rock Auditorium.

Summer School Program Set For May Start

Stanton Elementary School will sponsor a summer school program for Mexican-American children who do not speak fluent English. Classes to begin May 25, at 8:30 a.m. in room 2 of the Stanton Elementary School building.

To be eligible to attend this pre-school program, the child must be six years old before September 1, 1970, and not have attended school last year.

A major part of the class periods will be devoted to learning English; however, the children will be afforded an opportunity to participate in group activities that enable them to better adjust to the regular school program in the fall.

You may register your child any time by contacting the Elementary principal's office, or bring them to the pre-school roundup Wednesday, May 13, at 2:30 p.m. in the primary building.

New Production Confirmed, Re-Entry Wildcat Test Set

A Martin County field confiner was seen, a re-entry was slated as a wildcat and an offset staked in another field.

Also, the Sale Ranch area of the Spraberry Trend gained a producer and several offset locations.

Second producer and 3/8-mile southwest extension to the recently opened Lacuff (Dean) pool has been indicated with the flowing of 24 barrels of acid water and new oil on breakdown, at the hourly rate of eight to 10 barrels at Texas American Oil Corp. of Midland, No. 1 Mabee, 24 miles northwest of Stanton.

The flow developed after one pull of the swab, through perforations at 9,203 - 9,546 feet, in 5 1/2-inch casing seated at 9,606 feet, on total depth of 9,607 feet. The section had been acidized with 1,000 gallons and some ball sealers. Plugged - back depth is 9,571 feet.

Operator was preparing to fracture and resume testing. The operation spots 660 feet from south and east lines of league 318, Pramer CSL survey.

The field opener, Texas American's No. 1 Fay Holt Flynt, was finished Dec. 9, 1969, to pump 213 barrels of 40-9-gravity oil daily, plus two-tenths of 1 per cent basic sediment, through perforated in-

Business and professional men and women, farmers, and every interested resident is invited to attend.

A Martin County Unit of Water, Inc. will be organized. About 200 circular letters will be mailed out issuing personal invitations in addition to this page one banner announcement concerning the meeting. The special letter will carry the signatures of M. D. Coggin, J. C. Epley, Jim McCoy, W. J. Atchison, Eldon Welch, Cecil Bridges, Charles D. Elmore, and R. O. Anderson.

Financing for implementation of the Texas Water Plan was rejected by voters in a statewide constitutional amendment proposition last August. The defeat was by the slimmest of margins. It will be one of the purposes of Martin County Unit of Water, Inc., to join other county units in the presentation of a united voice to gain passage of a similar measure in the future.

Water, Inc., has been working for more than two years to assure adequate water for future years. County units such as the one proposed for Martin County will strengthen the hand of this dedicated organization.

Those planning to attend the meeting are requested to bring their wives and friends along to the May 19 meeting.

Interval at 9,203-9,284 feet, and 9,451-9,490 feet.

John L. Cox of Midland, filed application to re-enter and clean out to 9,700 feet as a wildcat at No. 1 Jones, wildcat failure, 20 miles southwest of Lamesa.

Originally drilled by Cities Service Oil Co., it was abandoned Nov. 26, 1966, at 12,457 feet.

It spots 660 feet from north and 4,200 feet from east lines of league 252, Ward CSL survey, 1 1/8 miles southeast of the depleted Wolcott (Wolfcamp) and Devonian pool.

Southwestern Natural Gas Inc., operating from Midland, staked No. 1 Pan American as a 1/2-mile south and very slightly east offset to the most northerly well in the Glass, North (Wolfcamp) area.

Drill site is 1,200 feet from south and 6,000 feet from west lines of league 254, Ward CSL survey, seven miles south of Patricia. It is scheduled to be drilled to 9,800 feet.

The field has four more wells approximately 15 miles to the southwest.

Western States Petroleum Co., Midland, filed No. 1 Jones, as a 1 1/4-mile east outpost to the Sale Ranch portion of the Spraberry Trend Area.

Drill site is 1,320 feet from south and east lines of section (Continued on page 6)

Philosopher Thinks He Has Found The Main Cause Of All The Miseries Of The U. S.

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw surveys the world situation this week, we think.)

Dear editor:
After reading every newspaper I could get my hands on during the last few years and after long hard thinking I have figured out why the United States is constantly getting into hot water all over the world, and furthermore I've figured out how to put a stop to it.

The way to put a stop to it is to stop teaching geography. It's a knowledge of geography that gets us into trouble. According to a newspaper I read last night, the United States has less than 2 per cent of the world's population, and yet we have protective agreements and aid programs with countries scattered all over the globe. Nobody with that small a percentage should be spending himself so thin, and we wouldn't if the schools would stop teaching geography. It's too late for the next new

Presidents, but what we eventually need is a President who never has heard of most of the countries on earth.

What we need is somebody who, when the White House gets a telegram from say Afghanistan asking for help before its government topples, turns to a secretary and says, "Afghanistan? Whereabouts in North Dakota is that? Let the Governor handle his own problem."

It's too late to get Congressmen born in a log cabin, but it looks like we ought to be able to find some who grew up without television, and never heard of Kubango, and don't know whether it's a river or a principality. Don't ask me which either.

We need somebody who, when a delegation arrives in Washington from some unpronounceable foreign country asking for help and advisers, says, "Well, you see, we got this note to meet ourselves, but I hope you have a good trip back to Mississippi."

It's getting financially harder and harder to get to the moon, and Southeast Asia at the same time. I don't want to sound like a protester, but I say down with geography. Yours faithfully, J. A.

Bible Comment—

Assembled Worship Fills Human Need

"We gather together to ask the Lord's blessing." Thus begins a famous old hymn, which expresses the spirit and reality of Christian worship.

"Why should we go to church?" someone might ask. Can we not be equally good Christians in our individual way, seeking to live well toward God and our fellow men?"

It is much easier to have a vague and general love for all men than it is to have a particular and very real love for the neighbors, or toward one's associates.

The "bond of fellowship" is of the very essence of Christian worship, much as faith and devotion have their beginning and rise in the individual soul. In a community in which the church represents a

bond of fellowship among those who live within its area, it becomes a mighty force for mutual encouragement in all that is best.

But there can be danger in emphasizing too much the social activities of the local church.

One essential definition of the church is that it is "the body of Christ." This means that if the spirit of Christ be not in the body, no matter how fine the organization, it is not the Church of Christ. And when that first, deepest, essential nature of the church is attained, all its social activities are of great value. For churches are, and ought to be, places of fellowship; social institutions as well as places of formal worship.

County Agents Column

By BILLY REAGOR
County Agent

External parasites of livestock and poultry are profit robbers. They lower the production of meat, milk, and eggs by sucking blood from animals, transmit diseases, and cause loss of energy from annoyance and a waste of feed.

They can be controlled, and their profit-grabbing greatly reduced through planned control programs, says County Agent Billy Reagor.

Insecticides are of major importance in control programs. Livestock insecticides are formulated as wettable powders, emulsifiable concentrates, smears, dusts, and aerosols. And, cautions the county agent, all insecticides are toxic to warm-blooded animals. They should be handled with care, and used only in the recommended amounts and in accordance with label instructions.

He emphasizes that only insecticide formulations prepared specifically for livestock be used on livestock. Formulations for plant use should never be used on livestock, he warns.

In order that livestock producers may have the latest available information on control methods with insecticides, MP-691, "Texas Guide for Controlling External Parasites of Livestock and Poultry," is available at Reagor's office. It is revised periodically in order to keep the information current, he said.

Symphoniet Class Finished Year With Program

The symphoniet class of the fourth grade, under the direction of Mrs. John Wood, finished the year with a program to the third and fourth grades.

J. M. Yater presented certificates of merit to the following pupils: Leann Biggs, Tracie Williams, David Stroud, Wayne Jones, Jana Petree, Paige Lou Eiland, Tami Briggs, Dee Dee Adkins, Dirk Perry, Tressa Hull, Cynthia Esparrza, Wayne Atchison, Mike Hanna, Mario Carrillo, Bonnie Barnhill, Connie Barnhill, Larry Johnson, Robert Cox, David Payne, Dorothy Clardy, Becky Webster, Tamy Trimble, Shelly Church, Perry Church, Roy Madison, Danny Ireton, Ricky McCurdy, Mike Swinson, Rena Koonce, and Daniel Navarro.

GRAY EXPECTATIONS IN DECORATING

Furniture in gray needn't make you sing the blues. For (goodness gray-cious!) gray can save the day in decorating. And using it judiciously can make much more than a shade of difference.

Gray is the dominant color in the attractive room pictured here. The print on the chair and repeated in the window treatment is called Tiger Lily. The background is gray; the foliage, white and beige. It's a no-color look that is very lively because of the splashy print. Without it, the room would lack spark.

This furniture comes from the Four Centuries collection by Thomastville Furniture and includes bedroom, dining room and occasional pieces.

In the foreground, the coffee table has a painted base. The color is called Brushed White with Grey Trim. The wood finish, Venetian, is a deep, richly hand-padded color which features handsome grain patterns highlighted by old world distressing.

The bookcase makes an excellent focal point for the room. Its size is only 26 inches wide, 12 inches deep and 81 inches high, making it especially decorative for halls and other areas where space is limited.

You, too, use your gray matter in decorating with discretion. And your guests will praise your ways with grays.

Make the happy cooking scene

with an electric range that cleans its own oven

If you like to cook but hate to clean, you'll love an electric range that has a self-cleaning oven. You just set it and forget it. Cleans itself automatically while you take care of other things.

Electric range surface cooking units clean themselves, too. And the outside of the range itself is as easy to clean as a china plate. Forget the scour and scrub routine. Buy an electric range and make the happy cooking scene.

NOTICE TO BIDDERS

Notice is hereby given that the Martin County Hospital District of Martin County, Texas, will receive bids until 8:00 P. M. June 8, 1970; for the purchase of a Refrigerated Air Conditioning and Gas Heating System for The Hospital.

By the Order of the Martin County Hospital District
Stanton, Texas.

SIGNED:

RAYMOND W. PRIBYLA,
Chairman, Board of Hospital Managers

4TC-20

It's cotton planting time on the High Plains, and officials of Plains Cotton Growers, Inc., figure farmers in the producer organization's 25 counties surrounding Lubbock will seed something like 2,270,000 acres to the area's number one income producer.

Acres available for planting to cotton, as indicated by the "sign-up" with Agricultural Stabilization and Conservation Service offices prior to March 20, total 3,522,890. And cotton industry people are agreed generally that at least 90 percent of this total will actually be planted to cotton. However, acreage that remains for harvest naturally will be reduced by hail and other adverse weather during the growing season.

In the past, abandonment of about 10 or 11 percent of planted acreage has been considered "normal" in the Plains, which would leave about 2,050,000 acres of cotton in the area. Last year the 25 counties planted about 2,150,000 acres to cotton, only to have hailstorms and other violence from the heavens cut that figure almost 28 percent, to an estimated 1,555,000 acres by November 1.

Assuming that harvested acreage in 1970 will total 2,050,000, and assuming a yield equal to the 478 pounds of lint per acre averaged from 1963 through 1968, production potential this year comes out to 2,045,720 bales, including 21 pounds each for bagging and ties. Cotton from the High Plains traditionally has averaged out to about three cents per pound below the base loan value for Middling-inch cotton. At this price, 17.25 cents per pound, the 1970 crop would be sold for \$176,443,350.

The "domestic" part of elements signed up with ASCS on the Plains (65 percent), comes to 1,639,878 acres. This is the acreage on which farmers qualify for price support payments of 16.8 cents per pound times an area average projected yield of 499 pounds. So price support payments on the Plains will total some \$137,474,250, bringing producer income from lint production up to almost \$311 million. Value of seed from the crop should add another \$32 million or so to the area economy.

Acreage originally allotted to the High Plains for 1970, including the area's portion of a 1 million acre increase in the national allotment, was only 2,461,914 acres. But considerable acreage was moved into the area through purchases and leases of unwanted cotton allotments from other parts of the State.

Just how many acres moved in by this means has not been officially tabulated. But it is obvious that in such counties as Dawson, Gaines, Lubbock, Lynn, and Martin, where the sign-up came to well over 100 percent of original allotments, several thousand acres were bought or leased. A total of 60,976 more acres were recorded in the sign-up for the 25 counties than were first allotted, so it is safe to say that at least

Garden Club News

Mrs. J. A. Wilson was hostess for the Stanton Garden Club recently. Mrs. Marie Wilson gave an interesting report on "Wild Flowers of America."

Mrs. J. A. Wilson discussed the history of Madonnas. She stated that the Virgin Mary has been used for models for Madonna carvings, moldings, chiseling, and sculpture. The Virgin Mary has been portrayed by artists was second only to Christ.

Madonnas are found in profusion in homes and churches in Old Mexico.

Mrs. Hazle McKaskle was greeted as a new member.

Members present were: Mrs. Ola Womack, Mrs. W. W. Clements, Mrs. James Jones, Mrs. Guy Elland, Mrs. Marie Wilson, Mrs. W. T. Wells, Mrs. Aldi-bibe Haislip, and the hos-

tes, Mrs. J. A. Wilson, —GC—
The Stanton Garden Club met April 28, with Mrs. Cecil Bridges as hostess. Mrs. W. T. Wells presided.

Senior Citizens To Be Honored

Martin County Senior Citizens will be given special recognition in observance of National Senior Citizen Month.

Every Senior Citizen is invited to attend the special program at Cap Rock Electric Auditorium, Tuesday, May 19, at 3:00 p.m. The program will include music, show and tell and games. Bring something you have collected or made for the show and tell. This should be a fun time for all.

So remember Tuesday, May 19, 3:00 p.m., Cap Rock Electric auditorium. If you need transportation call 756-3316, or 756-2588.

Mrs. W. T. Wells gave a very interesting report on "How to Keep Flowers Fresh." Some ideas given were: cut flowers early in the morning or late afternoon, using a knife with a slant position. To restore wilted flowers, Chrysanthemums, crush or burn stem, soak in water with eight drops of peppermint per quart of water. Gladiolas, use one tablespoon alcohol per quart of water; Iris, burn tips of stems

WEDDING SLATED — The engagement of Carol Beth Gresham to Stephen Earl Gwinn, son of Mr. and Mrs. Howard Gwinn of Stanton, is announced by her parents, Mr. and Mrs. Erlan Greshman of Levelland. The wedding is planned for 8 p.m. June 6 in the First Assembly of God Church in Levelland. Her fiancé is a freshman at South Plains College at Levelland and is employed by Furr's Supermarket in that city.

then plunge in cold water. Mrs. Cecil Bridges reported on the spring luncheon, which will be held May 5, at the Reddy Room of Texas Electric.

Mrs. Bridges served coffee, donuts, and muffins from a beautiful table using spring flowers in an arrangement. Members present were: Mrs. James Jones, Mrs. Aldi-bibe Haislip, Mrs. J. A. Wilson, Mrs. W. T. Wells, Mrs. L. G. Hazlewood, and the hostess, Mrs. Cecil Bridges.

Impeachment proceedings are brought by the U. S. House of Representatives.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH MARTIN-HOWARD-MIDLAND SOIL CONSERVATION DISTRICT

Fish ponds are accepted fish pond. All ponds will produce more fish. They will produce more if they are built right and managed right.

They should be free of water weeds and useless fish. The water shed above the pond should be protected with soil conservation measures that control erosion and runoff. A high yielding fish pond is a combination of the waters natural productive, added fertility, and man's management.

Many farms and ranches have a suitable site for a good

Castro County To Sponsor Grain Pageant

The Castro County Chamber of Commerce has extended invitations to girls 17 and older to become contestants in the Miss Grain Sorghum of the Nation Pageant. The two day affair will be staged in the Dimmitt High School Auditorium August seventh and eighth. Times for performances both nights have been set for 7:30.

Any girl who is of good reputation and who is endorsed by a civic club or business firm is eligible. Contestants must be single. This year, all contestants will be given an opportunity to present their talent acts before the judges. Previously, only the ten finalists presented their talent.

Fertilizing should be done during the growing season of the microscopic algae. This is from early spring well into the fall. You need to build up the ponds fertility quickly, and as early as you can in the spring. Otherwise you fail to benefit from the algae growing season. 16-20-0 is a good fertilizer to use in farm ponds for this part of the country. The average pond requires from 800 to 1,200 pounds of fertilizer per acre each year. No one can tell exactly how much fertilizer a pond will require. As the fertilizer is added, the water will change colors to a greenish brown, this color is often called the "bloom." A properly fertilized pond will have enough "bloom" to shade out a light colored object at about 18 inches deep.

The bloom should appear seven to ten days after the fertilizer is added. The fertilizer can be broadcast by hand around the bank of small ponds. It is best not to apply fertilizer in water over five feet deep, the wave action and under-surface currents will mix the fertilizer throughout the pond. The fertilizer added to a farm pond is not harmful to livestock. Fertilizer not only provides food for fish, but is very beneficial in controlling weeds, and mass by shading out the sunlight.

Anyone who would like more information on pond management should contact the Soil Conservation service, assisting the Martin - Howard - Midland Soil and Water Consolidated District.

George Mahon Notes In Demand For Libraries

Rep. George H. Mahon, D-Texas, chairman of the House Appropriations Committee since 1964, is a note keeper. And that's of interest to a lot of Texans, including Lyndon B. Johnson.

"I started keeping notes and unusual events in a 400-page notebook in 1917 after graduation from high school and before entering Simmons (now Hardin-Simmons University)," Mahon said. "I'm now in my fourth notebook."

Mahon, of Lubbock, ran for and won the 19th Congressional seat when it was first created in 1934. No other person has ever held that office. He earned a law degree in 1925 and has been in public office since 1927.

Mahon is in his 36th year as a member of Congress, and his eighth year as chairman of the House committee.

"The notes in these books mean something to me, but the way they are written and scattered about I don't see how they could mean anything to anyone else," Mahon said.

Yet, the notebooks and other personal papers of Mahon are being sought by LBJ for the Johnson Library, and by Texas Tech officials for the Lubbock school's library.

As more persons become aware of the papers more libraries are expected to seek the collection.

Top prize in the pageant will be a \$1,000 college scholarship. Money may be used at any school of the winner's choice, provided the scholarship is used within one year. If not used, the Castro County Chamber of Commerce retains the funds which are made through generous contributions from grain sorghum related industries.

Along with the title and scholarship the contestant chosen Miss Grain Sorghum of the Nation, will be the special envoy one year of the grain sorghum industry. Past appearances by winners have been made before the National Grain Sorghum Producers' Conventions, chamber of commerce dinners, and on regional television hookups.

JULY WEDDING — Mr. and Mrs. James N. Biggs of Stanton announce the engagement of their daughter, Kathy, to Gene Hodges, son of Mr. and Mrs. Jake Hodges of Stanton. The wedding is planned for 8 p.m. July 10 in the First United Methodist Church of Stanton. Miss Biggs is employed as a secretary in Midland by the Texas Department of Public Safety. Her fiance is a junior at Texas A&M University.

Beta Sigma Phi Activities

Mu Lambda Chapter No. 4001, of Beta Sigma Phi, met at Judy Thompson's home. A delicious buffet supper was served by the hostess before the meeting. Opening ritual was led by Robbie Graves, president. The meeting opened

in regular form with a short business meeting. Several reports were given.

There will be an ice cream and cake supper for the members and their families on Monday, May 11, at 7:30 p.m. at Cap Rock. Games will be played afterward.

Robbie Graves, in a beautiful ceremony, installed the following officers for the coming year 1970-1971.

President, Gene Nowlin; vice president, Maxine Kelly; recording secretary, Judy Thompson, treasurer, Dorothy Smith, and city council representative, Polly Atchison.

Closing ritual was given by Carroll Anderson, Polly Atchison, Maxine Kelly, Gene Nowlin, Marilyn Glaspie, Glenna Mims, Dorothy Smith, Robbie Graves, Crystal Webb, and the hostess, Judy Thompson.

—BSP—
The annual Mother-Daughter Tea for Beta Sigma Phi was held Sunday, May 3, at the Cap Rock Auditorium. Rho Xi was the chapter hostess to the combination tea, and fashion show. The hostess chapter and their children were the models for the style show. Commentator was Edna Linder.

Corsages were presented to the mother traveling the farthest distance. Mother of Judy Reagor, Mrs. J. W. Johnson, traveled from Austin for the tea. Beverly North, the youngest mother, was also presented a corsage. A door prize was awarded and won by Mrs. Troy Pierce.

Gifts were presented to Edna Linder, Latrel Welch and Patsy Odom for their participation in the program. Punch and cookies were served to the approximately 70 guests attending.

—BSP—
Rho Xi Chapter of Beta Sigma Phi met Thursday, May 7, at Marilyn Newman's. Twelve members and one guest were present.

The chapter made plans to hold a garage sale Saturday, May 16, in the old Long Motor

The Launching Pad

By NEAL ESTES

One of the most important meetings of the year is scheduled for next Tuesday evening, May 19, at Cap Rock Auditorium at 8 p.m. The purpose of the meeting is explained in the banner story in this issue of the newspaper. Be present and bring your friends with you for this very vital session.

The Stanton Future Farmers chapter will hold their annual awards banquet here at 7:30 p.m. at Cap Rock tonight, May 14. A personal invitation to attend the affair arrived in our mail Monday afternoon. The editor is an honorary member of the local chapter of FFA having been declared an Honorary Farmer a few years ago at the direction of local vocational ag teacher, NOLAN PARKER and his charges. If everything works out right, this is one meeting I sincerely hope to attend.

The tornado striking Lubbock Monday night just before ten o'clock caused a great deal of concern in Martin County among the friends and parents who had loved ones either attending college in the Hub City or now living in Lubbock County. Communications were impossible and many of us here in Martin County spent anxious hours of waiting to hear news of our neighbors. The Waco tornado, hitting in that city in 1953, took more lives but I questioned whether the storm damage bannered the property loss suffered in Lubbock Monday night.

On May 11, 1953, I was enroute by train from Longview to Temple. It was necessary to change in Dallas from the T&P to the MK&T—the Katy line. My business in Temple was to keep an appointment I had at SCOTT & WHITE CLINIC. About fifteen minutes out of Waco, a city along the route, a tornado struck that town and 114 persons were killed. Our train finally made it through Waco and on to Temple after a great deal of debris was removed from the track as The Texas Special crawled through McClennan County. Just 17 years to the day, another tornado struck Lubbock, and we all know the story of the death, damage and destruction reported there Monday night, May 11. There is no question about the fact that the month of May seems to be the ideal time for spawning tornadoes.

Stanton High School News

Only seven more days until the end of school. The time is near, and is just around the corner. Everyone in SHS is ready for the final bell, but they are surely dreading those final tests.

—SHS—
Marking the end of a very fine year for the FFA, a banquet will be held in their honor. The annual event is marked to take place Thursday, May 14, at 7:00 p.m. This barbecue supper will be held in the Willie Wire Hand Room in the Cap Rock building. Awards will be presented to those high individuals who have contributed their talents to the chapter.

—SHS—
David Workman and Scotty Fisher have been named the valedictorian and salutatorian

of the 1969-70 graduating class. David, son of Mr. and Mrs. David Workman, won this award as having the highest marks on a four-year average. Scotty, son of Drs. Allen and Sue Fisher, won the honor of coming in second. Both of these seniors should be commended for their accomplishments.

—SHS—
Baccalaureate services will be held Sunday, May 17, at 8:00 p.m. in the high school auditorium. Rev. Richard Payne will be speaking to the seniors and the general public. Graduation will also be held at 8:00 p.m. in the auditorium the following Saturday, May 23. This will be one of the largest moments in the lives of the graduating seniors of 1969-70.

GRADUATING SENIORS, MOTHERS HONORED WEDNESDAY, MAY 6

Area graduating seniors and their mothers were honored Wednesday afternoon at 5:00 p.m., with a tea given by Mrs. James Eiland.

An arrangement of red poppies centered the setting table which was covered with a white linen cloth.

Gifts were presented to Karen Holescher, Judy Hayden, Sharon Fysak, Eulene Ledbetter, Deborah Halzewood, Robbie Halzewood, Deborah Holloway, Doris Allen, Rita Ringener, and LaWanda Glaspie.

Old Settlers - - -

(Continued from page 1)
Reddy Room will be the scene of the meeting. Those planning to attend will be expected to be present by 8 p.m. The Old Settlers Reunion is held each year in Stanton in July.

THE FIRST NATIONAL BANK

Stanton, Texas

Notice of the Names of Persons Appearing as the owners of Unclaimed Accounts Held By:

THE FIRST NATIONAL BANK

Stanton, Texas

This notice is given and published pursuant to Section 3, Article 3272b, Revised Civil Statutes of the State of Texas, in an effort to locate persons who are the depositors or owners of amounts in accounts that have remained inactive or dormant according to the provisions of Article 3272b for more than seven (7) years.

Gomez, P. R., 1510 North 1st, Hurley, H. M., Unknown, Midland, Texas
Childress, Mr. or Mrs., Un-Williams, Lelia, Unknown, known, Unknown
Estorga, Benita L., P. O. Box 1022, Stanton, Texas

The unclaimed amounts due the depositors or owners listed herein will be paid upon proof of ownership at the office of the named depository within nine (9) months, and if unclaimed thereafter they may be subject to report to and conservation by the State Treasurer in accordance with said Article 3272b.

AFFIDAVIT OF DEPOSITORY OFFICER

THE STATE OF TEXAS, COUNTY OF MARTIN

Before me, the undersigned authority, on this day personally appeared Howard Gwinn, who, after being by me duly sworn, deposes, and says and certifies as true the following:

1. That he is Vice President and Cashier of The First National Bank, Stanton, Texas, the Depository named in the above Notice.

2. That the foregoing is a full and complete list of the names of all depositors and creditors for whom dormant deposits or inactive accounts have been held for more than seven (7) years and whose existence and whereabouts are unknown to the Depository.

3. That such listed depositors and creditors have not asserted any claim or exercised any act of ownership with respect to their deposits or accounts during the past seven (7) years.

HOWARD GWINN

Sworn to and subscribed before me this the 8th day of May, 1970.

(SEAL)

BONNIE ALLRED
Notary Public
Martin County, Texas.
