## Variety

By NEAL ESTES

The well attended Martin County 4-H Club sponsored horse show held last Saturday has been announced a successful event by BOBBY KELLY and other adult sponsors. The show was the second one held and promises to grow in prominence annually.

MRS. JIM (CRYSTAL) WEBB, one of three Martin County ladies on the tour in Europe, mentioned the fact that MR. ROBINSON, a 30-year veteran in the services of the Midland paper before his retirement, came over to take MAC McKAY'S place in the operator's chair while MAC was in the hospital, elsewhere in this issue. When ROBBIE went to leave the other afternoon, after having some trouble getting straight matter out of the Linotype for an hour or so, he said: "That machine has a personality and MAC understands it." I don't think I ever heard a thing said better than ROBBIE said it. When MAC sat down in the operator's chair the mats started falling right and the steady symphony or metallic music made all of us mindful that another master—MAC—had applied the Midas touch that made the bulky machine, "with a personality," as ROBBIE phrased it, start strutting and shindigging like a circus show stallion in a sawdust ring.

Stanton is getting a new chief of police today. He is C. L. ROGERS, Big Spring, and the announcement of his acceptance of the place was made Tuesday. The new officer is well known in West Texas law enforcement circles, having served as chief in Big Spring at one time.

A very important meeting has been arranged for Friday night, June 19, at HIGGINBOTHAM-BARTLETT by the official family of the Martin County Old Settlers Reunion. The group will work toward finalizing plans for the celebration of the annual reunion to be held here on July 11.

John William Tucker, 86, died at 9:15 p.m. Sunday in a Stanton hospital.

Services are pending at Rose Hills Mortuary in Whittier, California. Local arrangements were handled by Gilbreath Funeral Home.

Mr. Tucker was born Oct. 28, 1883 in Georgia, and came to Stanton in 1948.

Survivors include three sons: Bill Tucker of Midland, Ezra Tucker of Culver City, Calif., and Joe Tucker of California; two daughters, Mrs. Lillie Mae Baird of Linwood, California, and Mrs. Dorothy Love of Bellflower, California, and a sister and brother.

Services are pending at Rose Hills Mortuary in Whittier, California. Local arrangements were handled by Gilbreath Funeral Home.

### John W. Tucker Died Sunday

John William Tucker, 86, died at 9:15 p.m. Sunday in a Stanton hospital.

Services are pending at Rose Hills Mortuary in Whittier, California. Local arrangements were handled by Gilbreath Funeral Home.

Mr. Tucker was born Oct. 28, 1883 in Georgia, and came to Stanton in 1948.

Survivors include three sons: Bill Tucker of Midland, Ezra Tucker of Culver City, Calif., and Joe Tucker of California; two daughters, Mrs. Lillie Mae Baird of Linwood, California, and Mrs. Dorothy Love of Bellflower, California, and a sister and brother.

### C. L. Rogers Named Stanton Police Chief

In a special meeting here Monday evening Stanton city councilmen named C. L. Rogers, Big Spring, as the next chief of police here.

Rogers, former police chief in Big Spring, is to assume the duties of the Stanton job on June 18, according to an announcement made by Bob Deavenport, member of the council.

After serving in the top law enforcement place in Big Spring, Rogers was associated with the Las Cruces, New Mexico police department.

He is 60 years of age, married and plans to move to Stanton in about two months.

Rogers told the council Monday evening that during the next few weeks we would "look them and the town over and the councilmen and citizens could look him over and if they liked the situation he would be happy to become a permanent part of the Stanton scene."

Rogers is well known in Texas and New Mexico police circles.

### Martin County Horse Show Was Held Saturday

Martin County 4-H Club's second annual horse show was presented Saturday, June 13, in the Bobby Kelly arena. The show was termed a huge success according to its sponsors.

The show drew participants from Midland, Odessa, Big Spring, Lamesa, and Stanton. Approximately 150 horses were entered in the competition.

The grand champion mare was Poco Dorados, shown by (Continued on page 6)

**SUNSHINE MUSIC CAMP PARTICIPANTS** — Among the several hundred secondary school students participating in the 23rd annual Sunshine Music Camp at Eastern New Mexico University are six West Texas high school students. The students are receiving instruction in senior and junior high band, dance band, orchestra, choir, music theory, and conducting, and will conclude the camp with a series of three concerts. The West Texas students are (standing, from left) Steve Hill, Amarillo, Texas, violin; Patricia Ray, Odessa, Texas, cello; and Charlie Templeton, Odessa, Texas, cello. Seated are Alta Reasonover, Seagraves, Texas, choir; Carol Smith, Stanton, Texas, percussion, and Kim Durden, Canyon Texas, choir.

**WINS 4-H AWARD** — Mrs. W. T. Wells of Stanton, was the recipient of the Texas 4-H Youth Development Foundation Adult Leader Recognition Award of the state 4-H Roundup held at Texas A&M University on June 3-4. On the left is Dr. John F. Hutchison, director of the Texas Agricultural Extension Service, and on the right is Nathan Donsky of San Angelo, a trustee of the Texas 4-H Youth Development Foundation.

### Miss Baugh To Attend Baptist World Meeting

Miss Patsy Baugh, daughter of Mr. and Mrs. Albert Baugh, Jr., Stephenville, granddaughter of Mr. G. A. Bridges and the late Mrs. Bridges, Stanton, and niece of Mrs. Walter Graves, will be leaving June 24 on a tour to Japan which will be directed by Dr. W. H. Jackson, a professor from the New Orleans Baptist Seminary.

The Baptist World Alliance will be held in Tokyo, Japan, this summer.

While in Japan, Miss Baugh will also go to Osaka to the World's Fair. For the past two (Continued on page 6)

### Water Panel Sets Meeting In Abilene

The Texas Water Resources Study Committee, created by the last special session of the Texas Legislature, will conduct hearings at Abilene Thursday and Friday of this week.

State Representative John Allen, Longview, is chairman of the interim committee and has issued an invitation inviting testimony dealing with Texas water problems.

The hearings will be conducted beginning at 9 a.m. at the Starlight Motel.

The West Texas Chamber of Commerce is honoring the committee with a "dutch treat" luncheon on the first day of the hearings. Attendance will be by advance ticket (\$3.50) purchase only.

Rep. Allen has invited testimony on area water requirements for the future, state water law, research related to water resource development and willingness at the local level to bear a fair share of the costs for implementation of the Texas Water Plan. Witnesses appearing before the committee are free, however, to cover any points of water resource development they would like.

Findings of the committee will be used in formulating water legislation proposals.

### District 6 4-H Leadership Camp Be Held In June

District 6 4-H Leadership Camp will be held June 23-26, at Scott Able 4-H Camp, Lincoln National Forest, New Mexico. The theme for this year's camp is Leadership in a Changing Environment. Workshops will be conducted in Wildlife Ecology of West Texas, Leadership Development, and Recreation.

Those that will be attending from Martin County are: Lisa Hopper, Elizabeth Flanagan, and Kim Durden, Canyon Texas, choir. (Continued on page 6)

### Graduate Courses To Start July 27

The Permian Basin Graduate Center is announcing four courses to be offered by Sul Ross State University starting July 27-Aug. 14, 8:30 to 11:30 a.m. Location of the classes will be announced at a later date.

Ed. 3302 (Ed. 334) — Educational Psychology; Ed. 4308 (Ed. 436b) — Teaching of Reading; Eng. 3303 (Eng. 333) — Structure and History of the English Language; and Ed. 4320 (Ed. 439) — Education. (Continued on page 6)

### Ackerly Girl Loses Battle For Her Life

Diane Billingsley, 17, daughter of Mr. and Mrs. James L. Billingsley of Ackerly, lost her battle for life the past Thursday.

Miss Billingsley was awaiting an operation scheduled for September in Denver, Colorado, when death claimed her while a patient at an Abilene hospital.

The young girl had lapsed into a coma on May 28 from the effects of a kidney malady and was rushed to the hospital in Abilene where she was put on a kidney machine. She had recovered in recent days to the point where she was able to sit up and talk with relatives.

As a child she had experienced a kidney infection which later became chronic and disabled the organs.

Diane Billingsley was born in Lamesa April 17, 1952. Although in later years her health failed, she kept up her school work to within two months of graduation. Recognizing her achievement, the Sands school board issued her a diploma in the May commencement exercises.

### Tarzan Man Gets Degree In Nursing

Alan Craig Tate, son of Mr. and Mrs. A. H. Tate of Tarzan, was one of the 28 nursing students who received diplomas in the spring commencement at John Peter Smith Hospital School of Nursing.

Tate will go on active duty (Continued on page 6)

## Annual Parade Kicks Off The Town Festivities

Bobby Haislip, president of the Martin County Old Settlers Reunion organization has announced plans for the annual day to be celebrated on Saturday, July 11, 1970.

The reunion officials will hold a special meeting on the evening of June 19 at Higginbotham-Bartlett in Stanton at 8 o'clock p.m. to finalize plans for the Saturday festivities.

It has already been announced that the parade launching the annual affair will be held at 10 a.m.

The parade will feature floats, entries from local clubs and organizations, merchants, riding groups, and several out-of-town groups will also participate.

The theme for this year's reunion celebration is "From Wagons To Rockets."

Plans are being made for downtown window displays, and prizes will be given for the best costumes worn by store employees and reunion visitors.

A rodeo for the young people will be on the day's bill, and this feature was one of the added reunion highlights of last year.

A barbecue supper, traditional feature, will be held at City Park at 8 p.m. on Saturday evening. It will be catered by a well established out-of-town company of food handlers. Tickets for the barbecue are on sale presently.

Following the serving of the barbecue meal the regular memorial services will be held, and election of officers will follow before adjournment.

The evening program at the park will be interesting as usual, and at that time recognition will be given visitors and prize winners.

## Four Extensions Completed In Martin Spraberry Area

John L. Cox of Midland completed the Dean, No. 1 Jones, Martin County wildcat re-entry project, 20 miles southwest of Lamesa, and has proposed it be assigned as a 2 1/2-mile east extension to the Sulphur Draw (8,790 Dean) field.

On 24-hour potential test, it pumped 76 barrels of 40-gravity oil, with gas-oil ratio of 460-1, through perforations at 9,079-9,405 feet, after 50,000 gallons and 100,000 pounds of fracture.

A re-entry project, originally drilled by Cities Service Co. to 12,457 feet in 1966, it was cleaned out to 9,527 feet, where 4 1/2-inch casing is seated.

Location is 660 feet from north and 4,200 feet from east lines of League 252-Ward CSL survey, eight miles east-northeast of the most northerly well in the La-cuff (Dean) field.

Four extensions have been completed in the Martin County part of the Spraberry Trend Area, and location staked for another.

Nor-Am Petroleum Corp. completed No. 1 Jones as a 2 1/2-mile east-southeast extension, eight miles northwest of Stanton.

It pumped 199 barrels of 36-gravity oil, plus 32 barrels of water, with gas-oil ratio of 500-1, through perforations at 7,999-8,711 feet, which had been acidized with 500 gallons and fractured with 100,000 gallons and 220,000 pounds. Operator ran 4 1/2-inch pipe to 8,970 feet, total depth.

It is 1,320 feet from north and east lines of section 9, block 35, T-1-N, T&P survey. John L. Cox of Midland completed three producers in the area. No. 1 Dickenson, 2 1/4 miles northwest, flowed 146 barrels of 40-gravity oil daily, plus 15 barrels of water, through a 16/64-inch choke and perforations at 8,350-9,075 feet, which had been fractured with 100,000 gallons. Casing (4 1/2-inch) was seated at 9,200 feet, total depth.

It spots 1,320 feet from north and east lines of section 19, block 37, T-1-N, T&P survey, 12 miles northwest of Stanton.

No. 1-C Meek, 5 8-mile southwest and southeast, pumped 139 barrels of 40-gravity oil on 24-hour potential test, with gas-oil ratio of 829-1. Production was through perforations at 7,468-8,225 feet, in 4 1/2-inch casing set at 8,270 feet, total depth, after the section had been fractured with 90,000 gallons. Well-site is 660 feet from north and 1,960 feet from west lines of section 3, block 35, T-1-S, T&P survey, six miles northeast of Stanton.

Cox's No. 1 Wells, one mile northeast and south extension, seven miles northeast of Stanton, was completed to pump 24 barrels of 38-gravity oil daily, through perforations at 6,540-8,130 feet, after fracture treatment with 120,000 gallons. Gas-oil ratio was 615-1. Drilled to 8,160 feet, 4 1/2-inch casing was set on bottom.

It spots 1,320 feet from south and east lines of section 37, block 35, T-1-N, T&P survey, which on some maps, spots in Howard County.

Adobe Oil Co. of Midland plans No. 1 Hastings as a 1 1/2-mile north offset to production, eight miles west-northwest of Stanton.

Slated for 9,200 feet, drill-site is 1,320 feet from south and 1,470 feet from west lines of section 39, block 37, T-1-N, T&P survey.

Two sites have been planned in the Martin County portion of the Spraberry Trend Area, by John L. Cox of Midland.

No. 1-D Meek, a 5 8-mile south offset, is 1,980 feet from south and west lines of section 3, block 35, T-1-S, T&P survey, and is scheduled to 8,500 feet. It is five miles east of Stanton.

Cox will re-enter and clean out to 9,500 feet at No. 1 Henderson, a 12,621-foot wildcat failure, for completion attempt as a 5 1/4-mile northwest extension to the Sale Ranch portion of the Trend, two miles northwest of Tarzan.

Originally drilled by Sunray Mid-Continent Oil Co. (now Sun Oil Co.), it was abandoned in September, 1961.

It spots 1,980 feet from south and 660 feet from west lines of section 13, block 37, T-2-N, T&P survey, two miles northwest of Tarzan townsite and 1 mile southeast of the depleted one-well Key (Spraberry) field.

Texaco Inc. scheduled No. 276-A-1 J. E. Mabee in the Mabee field, 665 feet from south and 1,277 feet from east lines of section 32, block 39, T-2-N, T&P survey, 22 miles southeast of Andrews. Scheduled depth is 4,745 feet.

Petroleum Exploration & Operating Corp. of Abilene, completed No. 3-B Turner, 1/2 mile north of the nearest producer in the Midland County part of the Spraberry Trend Area, 12 miles southeast of Midland townsite.

On 24-hour potential test, it pumped 82 barrels of 38.1-gravity oil, plus 50 barrels of water, through perforations (Continued on page 6)

LEGAL NOTICE

THE STATE OF TEXAS TO ANY SHERIFF OR ANY CONSTABLE WITHIN THE STATE OF TEXAS—GREETING:

You are hereby commanded to cause to be published once each week for four consecutive weeks, the first such publication to be at least 28 days before the return date thereof, in a newspaper printed in Martin County, Texas, the accompanying Notice and Citation of which the hereinbelow following is a true copy:

NOTICE AND CITATION BY PUBLICATION THE STATE OF TEXAS

TO: All Persons Claiming any Title or Interest in the Surface Estate of the Land Described Herein under Devise in the Will Dated February 12, 1959, and Codicil dated November 4, 1960, of John E. Mabee, Deceased, recorded in Volume 8, Page 169, Deed Records of Martin County, Texas, and under the Division of Partnership Property dated July 11, 1961, recorded in Volume 98, page 76 et seq., Deed Records of Martin County, Texas, and The Last Will and Testament of Lottie E. Mabee, deceased, also known as Lottie Jane Mabee, L. E. Mabee, and Lottie Estella Mabee, Recorded in Volume 106, Page 148, Deed Records, Martin County, Texas;

TO: The Unknown Owners and Claimants and the Unknown Remaindermen Now or Hereafter is Being Constituting or Comprising "The Sons of Joe Guy Mabee" under the Above Listed Instruments;

TO: The Class of Persons Now or Hereafter in Being Constituting and Comprising "The Sons of Joe Guy Mabee."

Notice is hereby given that Santa Fe Pipeline Company, Petitioner, has filed its Petition for Condemnation with the Judge of the County Court of Martin County, Texas, on May 25, 1970, seeking to con-

demn certain rights of way and easements in and to certain lands which are more particularly described in Exhibit "A" to this Notice and Citation by Publication through eminent domain. Said petition seeks to condemn a permanent easement 30 feet in width across the S/2 of Section 1, Block OH; Sections 6, 11 and 22, G&M&MB&A Survey, Block 39, T-2-N, Martin County, Texas; Sections 22 and 27, G&M&MB&A Survey, Block 39, T-2-N, Andrews County, Texas; Sections 12, 13 and 14, T&P Ry. Co. Survey, Block 40, T-2-N, Andrews County, Texas; and Sections 35, 34, 33 and 32, G&M&MB&A Survey, Block 40, T-2-N, Andrews County, Texas, all of which is more particularly described in said petition and exhibits attached thereto on file with the County Judge of Martin County, Texas, to which reference is here made for all purposes, and also to condemn a temporary easement 60 feet in width across the above lands for use during the period of laying and construction of such pipeline. Said petition seeks to condemn said easement together with the rights of ingress and egress and subject to the restrictions on the use of surface of such property over and adjacent to said easement as set out in said petition for condemnation which is on file with the County Judge of Martin County, Texas, and to which reference is hereby made for all purposes. Said petition seeks to condemn said easements for use in connection with the construction of a common carrier pipeline, for the transporting of oil, oil products, liquefied minerals, or other mineral solutions, and the above named or designated persons or classes of persons are named as parties defendant herein because the record title to said lands discloses that they may own or hereafter acquire an ownership interest in said lands.

Notice is hereby further given that the undersigned special commissioners have been appointed by the Judge

Couple United In Marriage

Mrs. Rodney Michael Robinson

The wedding of Miss Vicki Jo Glynn and Rodney Michael Robinson was solemnized Saturday morning in St. Ann's Catholic Church of Midland with the Rev. J. Franko officiating for the ceremony.

The bride's parents are Mr. and Mrs. George T. Glynn of Stanton and the bridegroom is the son of Mr. and Mrs. R. V. Robinson, Route One, Midland.

Mrs. Charley Welch, organist, played traditional selections as the wedding party stood before an altar lighted with candles and decorated with basket arrangements of white gladioli, carnations and greenery.

WHITE GOWN

The bride's gown was an A-line design of white peau de soie satin with a scalloped overlaid front panel of lace. A band of matching lace trimmed the ring collar and also

the long sleeves. A large bow with streamers, overlaid with lace, extended down the back from the Empire waistline. Her headpiece was of flowerets and crystals holding a long tiered veil. The bridal bouquet was of white carnations topped with a butterfly orchid with white streamers.

Miss Debra McMeans of Stanton was maid of honor, and Miss Nancy Glynn, sister of the bride, was bridesmaid. Their dresses were lilac peau de soie satin with white overlaid lace front panel and lace sleeves with Empire waist and a large bow with streamers in back. Their headresses were lilac veils accented with white flowers, and they carried bouquets of pink carnations with pink streamers.

BEST MAN

Mike Hall of Stanton was best man, and Tommy Glynn, also of Stanton, brother of the bride, was groomsman.

Tim Glynn of Stanton, another brother of the bride, was ring bearer and lighted the candles.

The couple was honored with a reception at the Holiday Inn where the serving table was laid with a white cloth overlaid with lilac net, and the centerpiece was an arrangement of white flowers and greenery.

The wedding cake was trimmed in pink and lilac roses, topped with a miniature bride and groom.

Miss Debbie White of Stanton was in charge of the register. Miss Debra Robinson of Midland, sister of the bridegroom, and Miss Debra Barr of Brownfield served the cake and punch.

The couple will reside at 501 W. Louisiana, Midland, after a wedding trip to New Mexico.

A rehearsal dinner was held at Furr's Cafeteria, hosted by the bridegroom's parents. The couple presented gifts to their attendants.

Martin County Philosopher Says Despite The Shape The World Is In, Most People Seem To Like It

Editor's note: The Martin County Philosopher on his Mustang Draw grass farm, takes an optimistic view of things this week, more or less.

Dear editor:

Some people are saying the world was never in as bad a shape as it is now, but as I sit out here on this Martin County farm and examine it through the newspapers I wonder about that.

For example, take the astronauts. No sooner do they get a good look at what's outside the world out there in forlorn space and get safely back than they take a desk job in Washington or run for some office, here on the good earth.

Things have a way of balancing out. Take the colleges. According to an article I read last night, over 300 college presidencies are vacant, just not enough capable men willing to take on the job, even with combat pay. Yet what happens? College riots shut down about that many universities and so, what's the problem?

Or take government employees. For years they dread-

ed to see Washington's birthday for example fall on Saturday or Sunday, thus knocking them out of what otherwise would have been an extra holiday.

So what happens? They convince Congress it's the holiday, not the birthday, that counts, so now if the birthday falls on Saturday they get Friday off; if on Sunday, they get Monday off. I don't care what the problem is, if a man thinks long and hard enough, there's a solution, although I don't know what would have happened if Washington and Lincoln had been born on the same day of the month, or if Columbus had arrived here on Christmas. I presume, however that Washington has a commission drawing up emergency plans in the event some future holiday-worthy hero gets born on an established holiday.

The problem wouldn't come up however if they'd put me in charge of declaring holidays. I declare one whenever I feel like it, having no patience with a man who waits till Congress tells him when to go fishing. What does Congress know about when the fish are biting.

Yours faithfully,  
J. A.

The U.S. Army Reserve.

Hattie Estes and Tom Estes attend the funeral of Mrs. Barnett in Levelland this week.

### 10th Anniversary

Mr. and Mrs. H. P. Morrison, Mr. and Mrs. Ronald Riley of Portales, New Mexico, and Terry Britton will be host and hostesses to a 25th wedding anniversary celebration for Mr. and Mrs. Johnny Britton

Sen. William E. Borah was known as the "Lone Lion of Idaho," because his views were his own and not those of any party or group.

### Workshop June 19

Florine King, homemaking teacher at Stanton High School, and Mrs. Billy Mims left Wednesday for Lubbock where they took several area girls to the FHA Officer's Leadership Workshop College of Home Economics. The meeting will be held Thursday and Friday, June 18 and 19.

### Mrs. E. Barnett Died June 13

Mrs. Edylea Hill Barnett died June 13 in Levelland with burial there also. Survivors include her husband, Bill Barnett; her son, Kenneth Barnett; one sister, Mrs. Dorothy Riley of San Angelo; two brothers, David Hill of Big Spring, and Bob Hill of Lenora; and her father, Belton Hill of Lenora. Mrs. Hattie Estes is an aunt of the deceased.

### Bon Voyage Party Honors BSP Members

Members of Xi Epsilon Delta honored two of its members, Tince Ory and Alyne Kelly, and Crystal Webb, of Mu Lambda, June 5, with a bon voyage party at the home of Mary Payne. Helen Thrallkill was assistant hostess. The honorees left June 6 for a two week Beta Sigma Phi tour of points in Europe. The table was decorated with a miniature runway with planes ready to fly toward a map of Europe. Bon voyage napkins were used. Refreshments of iced tea and cookies were served. Those present were: Obera Angel, Allie Anderson, Corne Manning, Lois Powell, Bert Schwalbe, Doris Stephenson, the honorees, hostesses, and Patricia Stribling of Odessa.

SEARCH IS ON — Nominations are due by September 1 for Texas Rural Minister of the Year. Nominations and supporting material should be sent to Reagan Brown, Extension sociologist, Texas A&M University, College Station.

### First Baptist Church News

The Bethany Sunday School Class of the First Baptist Church met June 4, for a luncheon and business meeting at the church.

Mrs. G. H. Elland, teacher of the class, presided. Mrs. W. H. Yater brought a devotion taken from the book of Ruth.

Minutes were read and approved, and the treasurer's report was given.

Mrs. John Pinkston gave the opening prayer. Those present for the luncheon were: Mrs. John Pinkston, Mrs. Roy Martin, Mrs. G. H. Elland, Mrs. W. H. Yater, Mrs. Clyde Geurin, Mrs. Hattie Estes, Mrs. Oma Womack, and Mrs. Ruth Holloway, who dismissed the meeting by prayer.

### Column

If you see a triangle of fluorescent orange and reflective red ahead on the highway, it means slow down and drive carefully. It's a Slow Moving Vehicle emblem, and was placed on the machine as a warning to motorists to slow down, points out County Agent Billy Reagor.

The emblem was developed by agricultural engineers to warn drivers when they are approaching a slow-moving vehicle. The emblem can be seen and recognized up to 500 feet away at any time of the day and under almost all driving conditions.

Many accidents are caused simply because the motorist often does not realize that the object ahead is moving so slowly until it is too late to avoid a collision, explains the county agent. If the emblem is in place, an is duly noted, there is time to slow down or even stop, Reagor says.

The center of the emblem is fluorescent yellow-orange, the most visible color in daylight, and the outside border is reflective to show up at night. The emblem is intended for vehicles designed to travel 25 mph or less, and can be easily mounted on most farm equipment.

It's inexpensive, durable, and movable, and doesn't interfere with the machine or its operator.

Martin County farmers who must move farm equipment and machinery on highways, should attach the SVM emblem on the back of the tractor or implement being moved. The emblem is being used nationwide, and motorists should be familiar with it. Its use is cheap insurance against rear end collisions, believes the county agent.

Now is the time to renew your subscription to the Old Reliable!

### Activities

Stanton Chapter No. 409, Order of the Eastern Star, installed Mrs. Daisy Wilkes and John A. Wilkes, Jr., as worthy matron and worthy patron, Tuesday, June 2, in Masonic Lodge.

Other officers installed were: Mrs. Erlene Petree and M. A. Petree as associate matron and associate patron; Mrs. Lucia Pickett, secretary; Mrs. Clara Hay, treasurer; Rev. T. L. Pond, chaplain; Mrs. Viola Pond, associate conductress; Mrs. Obera Angel, marshal; Mrs. Pauline Wood, organist; Mrs. Leona Hightower, Ada; Mrs. Roxy Coggin, Ruth; Mrs. Hazel Hamm, Esther; Mrs. Reva Koonce, Martha; Mrs. Exa Rasure, warder, and Ross Hay, sentinel.

Installing officers were: Mrs. Hazel Hamm, installing officers; Mrs. Billie Pinkerton, installing marshal; Mrs. Opral McCann, installing chaplain; George Medley, installing organist; Mrs. Leta Eidson, installing secretary; Mrs. Ruth Gibson, installing warder, and Mr. McCann, installing sentinel.

# Farm & Ranch Review

**THE DAIRY COW** — June is Dairy month and an appropriate time to pay tribute to an animal that contributes so much to American agriculture and the well being of the nation's population. The dairy cow, says A. M. Meekma, Extension dairy specialist, is a marvelous animal. She has the ability to convert grass and other feeds into nature's most nearly perfect food — milk, a produce which is the foundation of the nation's great dairy industry.

**NATIONAL FARM SAFETY**

**WEEK**—President Nixon has proclaimed the week of July 19 as National Farm Safety Week and calls attention to the needless loss of lives and crippling injuries to thousands of farm residents each year. Farm safety, points out the Texas Farm and Ranch Safety Council, should be a year-round program on each of the state's farms and ranches, but notes special observances during the designated week can help call attention to the problems that must be solved.

## Pulitzer Prize Winners Head TPA Program

Texas Press Association's 91st Annual Summer Convention, June 18-20 at Houston's glamorous Astroworld Hotel in the Astrodomain, will feature some of the nation's most eminent newsmen as guests, said TPA President George Hawkes, publisher of the Arlington Citizen-Journal.

Heading the list will be Texas' own Pulitzer Prize winner, Kenneth Towerly, now assistant director of Press and Publications, U.S. Information Agency, Washington, D.C., and Hal Boyle, Associated Press news correspondent and one of the all-time greats among feature writers, who won a Pulitzer Prize for his coverage of three wars.

Towerly received his prize for his part, as editor of the *Cuero Daily Record* in 1955, in exposing corruption in the Veteran's Land Program of the State.

Boyle comes to the Houston meeting from AP headquarters in New York City, as do two other guest speakers — Mr. and Mrs. Bill Payette.

Payette, president of United Feature Syndicate, is nationally known as both a former writer and as regional director for United Press International. Mrs. Payette, the former Virginia MacPherson, noted for her Hollywood feature columns and currently a special writer for United Feature Syndicate.

Another out-of-state speaker is Robert E. Early, president of the Farmers Insurance group, Los Angeles. He is one of the nation's most distinguished attorneys, whose specialty is automobile insurance.

According to Program Chairman Ellie Hopkins, editor of the *Longview News-Journal*, guest speaker Colonel John Keeler, chief of information for Headquarters Air Training Command, Randolph Air Force Base, has been tagged by the AP in Vietnam as "the most quoted man on earth." Fighter pilot in three wars, Colonel Keeler was one of General Westmoreland's top press spokesmen.

Discussing open meetings, a subject important to all newspapermen and the public in general, said Hopkins, will be Mike Kingston, a young editorial writer from the *Dallas Morning News*. Kingston, who specializes in editorial feature writing, is considered an expert on the problem of open meetings.

Morris Frank, famed "Cabages and Kings" columnist for the *Houston Chronicle* and former sports editor of the *Houston Post*, will add the humor to the speakers list. He is a punster-funster, known as one of the funniest men in Texas. Frank is acclaimed throughout the nation, said Hopkins, as one of the most popular after-dinner speakers.

Entertainment for TPAers, their guests and families, is centered around the Astrodomain and NASA, said President Hawkes. They will be guests of Judge Roy Hofheinz for a tour of the Astrodome and for refreshments.

The *Houston Chronicle* will be host for a group tour of the National Aeronautics Center, on Friday afternoon.

Other hosts for such events as receptions, parties and dinners, will be Jack Francis of Humble Oil & Refining Co., Houston; Darby Hammond, Southwestern Insurance Information Service, Austin; C. B. Alexander, U.S. Brewers Association, Texas Division, Austin; Ted Read, Licensed Beverage Distributors, Austin; and Richard de Costa, Licensed Beverage Industries, Inc., Denver, Colo.

Included in the "business" of the convention will be election of officers, board meetings, committee reports and representation of the 1970 Texas Newspaper Contest Winners.

Assisting Hawkes in supervision of the convention will be TPA First Vice President Ellie Hopkins, *Longview News-Journal*; and Second Vice-President Rigby Owen Sr., *Conroe Courier*.

## County Agents Column

BILLY REAGOR  
County Agent

Large amounts of crop residues are valuable by-products of a good farming operation, and should not be burned, reminds County Agent Billy Reagor.

Good residue management

## Questions And Answers

This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

**Q) What should I do about the estimated tax notice I got in the mail? I did not have to file Form 1040ES.**

**A)** If you did not have to file an estimated tax declaration for 1970 and your tax situation is unchanged, ignore the reminder notice. These reminder notices were sent to all taxpayers who received the estimated tax form packages in February.

**Q) I've been called in for an audit of my return. Can I have the person who prepared it come in with me just to help explain things?**

**A)** Yes, you may have the person who prepared the return accompany you. Keep in mind, however, that you are responsible for the accuracy of items listed on the return. Also, it is your responsibility, not the person who prepared it, to provide whatever proof or substantiation might be required to support income and expense figures.

**Q) My refund is being held up because I forgot to send in Schedule A, Form 1040, when I filed. How long will it take me to get the refund after I supply this missing form?**

**A)** It should take about four to six weeks from the time you supply the missing information for processing to be completed on your return and the refund issued. Be sure to send back the notice from IRS about the missing item so that the Schedule A can be associated with your return.

**Q) Do you have any publication about taxes that would help someone just starting up a business of his own?**

**A)** Yes, our publication, "Tax Guide For Small Business," should be helpful. A copy may be obtained from your IRS District Office or the U.S. Government Printing Office, Washington, D.C. 20402, for 60 cents.

In addition, you will find our "Mr. Businessman's Kit," Publication 454, of interest to you. Call the local IRS office to request your free copy.

**Q) Are the meals and lodging you get as a camp counselor taxable?**

**A)** In camp situations, room and board are generally not taxable. Your room and board are excluded from gross income if they are furnished on the employer's premises for his convenience, and in the case of the lodging, you are required to accept it as a condition of your employment.

**Q) Can someone who is self-employed take advantage of the moving expense deduction?**

**A)** Yes, the new tax law permits self-employed persons who meet certain tests to deduct moving expenses.

**Q) Is a gardener considered a household employee?**

**A)** Yes, he usually is. If you pay him cash wages of \$50 or more during a calendar quarter, you are required to file a Form 942, *Employer's Quarterly Tax Return for Household Employees*, and pay social security taxes.

Income taxes, however, do not have to be withheld from wages paid gardeners and other household help.

is one of the better soil and water management practices leading to increased crop production. The term "residue" refers to the recognizable remains of plants, such as stem, stalks, and leaves. The term, explains the county agent, is often confused with "organic matter," which is unrecognizable plant remains, and "humus," which is the relatively stable end product of decomposed plant and animal residues.

According to the county agent, residues disked or plowed into the soil help keep the soil open, thus allowing good aeration and water infiltration. Martin County farmers who are interested in providing the necessary raw materials for residues should keep their land planted to close-growing or high residue crops half to two-third of the time, advises Reagor.

Incorporation of residue into the soil provides an added bonus because this is an effective way to prevent the carry-over of disease organisms. Cotton root rot, for example, can be substantially reduced by a combination of deep tillage and the incorporation of large amounts of raw residues deep in the soil.

For those interested in more facts on residue management, an extension publication, MP-807, "Crop Residue to Improve Texas Soils," is available at the county agent's office.

FOR ACCURATE MEASUREMENT THROUGH A PRINTING METER

## IS THERE A SKELETON IN YOUR CLOSET?

It may be lots of fun if there is, provided the skeleton is the right type. Studying the human frame, or a reasonable facsimile thereof, can easily provide a delightful, not at all frightful time for youngsters.

Bones are the scaffolding on which the rest of the body hangs. Together with cartilage, joints, and muscles, they make up the musculoskeletal system. The system is held together, giving shape to the body, by bands of fibrous tissue called ligaments and tendons.

There are approximately 206 bones, nearly 700 muscles, and about 250 joints in the human body. Except for tooth enamel, bone is the hardest tissue in the body. The densest part of a bone is on the outside; the inner portion is more spongy.

Most of the mineral substance of the body, notably calcium and phosphorus, is deposited in the bones and gives them their hardness. Bones are living tissue. Even the hardest is traversed by microscopic channels, through which blood, lymph fluid and nerves enter the bone.

Human bones are closely connected with a new game in which junior vampires try to build their skeletons bone by bone by spinning for the bones they need. Kids love to

pretend—and when they can pretend to be Barnabas Collins, the vampire—they love it even more. Barnabas is the star of ABC-TV's highly-rated daytime program, "Dark Shadows," and he's the key to this ghostly skeleton game by Milton Bradley Company. First player to finish building a complete skeleton wins. Intended for youngsters ages 6 to 14 and for two to four players, the game includes Barnabas Collins coffin, four scaffolds, four skeletons, a game spinner, eight vampire stakes and a bonus set of Barnabas Collins vampire fangs.

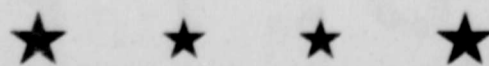

Boys and girls with bones to pick as well as bones of contention easily become attached to this bone fide activity, a bonanza in entertainment. No bones about it.

Aside from the possibility of nuclear conflict, hunger is probably the foremost problem of the world today. Approximately half of the world's 3.5 billion people suffer from malnutrition. The World Food Congress in 1963 was told that around 10,000 persons die every day from starvation. And the present outlook is that hunger will grow more and more intense with the passage of time.

The world's population increase is zooming along at almost 60 million souls per year. The population of the world reached the first billion by 1830, took only 100 years to reach 2 billion and only 30 more years, 1930 to 1960, to reach 3 billion. It is expected to pass 6 billion people by the turn of the century.

Almost every country in the world is searching, some desperately, for ways to increase agricultural production to feed the hungry people.

Meanwhile, in the U.S., where agriculture is using only about four-fifths of its productive capacity, consumers are enjoying the most sumptuous and varied diets in the history of the world. So it is not surprising that the urban population of this country scoffs at the possibility that the U.S. may not be immune to the problem of hunger.

But the idea may not be so far fetched, says Donald

Johnson, executive vice president of Plains Cotton Growers, Inc.

Johnson points out that the U.S. population is growing by leaps and bounds along with the rest of the world. The population in the U. S. increased from 13 million in 1830 to 123 million in 1930 and 179 million in 1960. It is now something over 200 million and expected to reach 300 million by 1990.

"That means the U.S. farmer in 1990 will be called upon to produce food and fiber for almost three people where he now produces for two," Johnson says, "and he will have to do it on considerably less land than is now available for cultivation."

Roads, cities and other non-farm uses for land are on the increase, eating up millions of acres of productive land each year. From 1944 to 1964 harvested cropland in the U. S. declined by 66 million acres.

Over and above population increases and reduced land area suitable for the production of agricultural commodities, Johnson continues, there must be people in the U. S. with the know-how and the incentive to feed and clothe the nation from the farm. He says, "Farmers can only continue to produce food and fiber above their own needs so long as they have a means to recoup production costs and realize a return on capital investments in land and equipment."

The nature of farming is such that the farmer is in a perpetual "buyers market," without the marketing muscle to demand a fair price for his products. Consequently the market price of many major farm commodities is now and has been for many years well below the cost of production. And the continued availability of these commodities to consumers has been dependent on farm income being bolstered from another source.

"Fortunately for agriculture, the consumers and for the nation, Congress has devised and enacted a series of programs to supplement farm income from public funds," Johnson goes on, "and for this reason and this reason alone U.S. agriculture and the U.S. diet is the envy of the world."

Now, however, there is danger that an unban-minded Congress either this year or sometime in the near future may kill this production incentive for farmers before a replacement has been found. "And when that happens, if it happens, it is not inconceivable that the population of the U.S. could feel the hunger pains so well known to the people of so many other countries of the world," Johnson concludes.

# SOIL CONSERVATION DISTRICT NEWS

## OUR SOIL ★ OUR STRENGTH

MARTIN-HOWARD-MIDLAND SOIL CONSERVATION DISTRICT

A laborer, 40 acres, and a mule composed a farming unit a half-century ago. A generation ago the farmer got a small tractor and farmed two or three times as much land. Now he has a mammoth tractor precision equipment and can till hundreds of acres.

That is, if he can run the large farming equipment on large fields that are relatively free of obstructions.

A farmer can't make a living today with 40 acres and a mule. He has been forced to mechanize because of labor shortages, high wages, and the narrowing gap between the cost of production and the price he gets for his product.

And thereby hangs a tale about the revolution in conservation farming in America. Practices installed through local soil and water conservation districts have revolutionized farming but now the requirements for large scale farming with big machinery are revolutionizing conservation planning and farm layout.

"Terraces snaking across the hillside could be farmed well enough with small equipment," Jake Hodges, District Conservationist with the Soil Conservation Service, points out. "Field arrangement is just as important to the modern farmer on sloping uplands as it is to flatland farmers," Hodges added. "Good, deep soil is just as important, too. All of this adds up to a better conservation program. The farmer plants thin soil and odd areas to grass or trees, benefiting wildlife. And the beauty of the countryside is enhanced by this new aspect of conservation farming—brought on largely by big machinery."

There will be new drainage ditches to conform to the new field arrangement. Open irrigation ditches may give way to underground pipelines to save space and remove obstructions. Even the surface of the land may be given a major treatment of leveling.

"The design for other farms in other areas is undergoing a transition, too.

## Bible Comment

### Love Is The Heart Of True Religion

The believer in every creed, to say nothing of those who belong to great historic churches or large denominations, might say, "My religion is the true one."

At the center of all religion, if it have any truth at all, are faith and sincerity. But faith and sincerity are not enough. The persecutor and the intolerant have faith. They evidently believe in that they profess, and they are sincerely intense in their advocacy of it.

But truth has to do with knowledge, and knowledge depends upon understanding, and understanding depends upon love.

So, it is in accordance with reality that the New Testa-

ment makes love the center and soul of true religion, and by that very fact sets up a profound contrast with the loveliness of some professions of religion.

The Prophet Micah gave his famous definition of true religion: "He (the Lord) hath showed thee, O man, what is good, and what doth the Lord require of thee, but to do justly, to love mercy, and to walk humbly with thy God."

And it is John who brought it out into all its fullness and inclusiveness in this manner: "He that loveth not his brother whom he hath seen, how can he love God whom he hath not seen?"

In these words is expressed the test of true religion.

**F**lag Day was appropriately observed in Martin County the past Sunday and it has been the intention of some proud owners of Old Glory to continue displaying the national colors throughout this week.

**"F**rom Wagons To Rockets," will be the theme of the Old Settlers Reunion to be held in Stanton Saturday, July 11. A parade through downtown Stanton will start the days festivities at ten a.m. BOBBY HAISLIP is president of the reunion association.

**I**t was a genuine pleasure to welcome M. O. (MAC) McKAY home from Midland Memorial Hospital Tuesday morning. MAC has been hospitalized with an injury in the mecca of mercy over in Midland a few days, and I sincerely missed him around the shop. His replacement was the very efficient and now retired M. E. ROBINSON of Midland. ROBBIE recently retired from the staff of The Midland Reporter-Telegram.

**H**ERB SORLEY husband of our office dependable and society editor of the paper, PEGGYE, won a distinct honor at the Jaycee sponsored annual Abilene Softball tournament this past week-end. HERB hit 353 in tourney action, slammed out a home run to win one game for the Morton Chippers, Big Spring sponsors of his team, and was voted the best second baseman in tournament play. Congratulations HERB!

**C**ity councilman BOB DEAVENPORT called us early Tuesday morning to report that the municipal commission named a new police chief for Stanton in a called executive meeting held Monday evening. A story about the new chief, C. L. ROGERS, appears elsewhere in this issue of the newspaper.

**J**une is the traditional month for bridal announcements, and it is also the birthday month of three good friends of the editor. I salute my neighbor ERNEST PRICE, who observed his birthday on June 15. Congratulations are in order for FRANCHELLE MOORE, granddaughter of the finest small town editor we ever knew, the late JIM KELLY, who observed Tuesday, June 16, as her birthday. FRANCHELLE is the highly talented society editor of that fine West Texas daily, The Midland Reporter-Telegram. WALLACE KELLY will mark a birthday on June 19. WALLACE is an old friend of mine and we send him a happy salute. May all of our Gemini friends observe the many more joyous returns of the day.

**I** was discussing the weather with a friend this week and he remarked: "Saturday afternoon really hurt a lot—the humidity was so bad." Then he said: NEAL, what is humidity?" I faltered a moment with my answer and finally half-satisfied my inquiring friend but I decided to get a better explanation for humid weather patterns in the future. Here is how WEBSTER defines humidity: "Moisture, dampness, a moderate degree of wetness." In meteorology absolute humidity indicates the amount of vapor actually present in the air, and is expressed either in its expansive force, or in its weight in grains per cubic foot of air. The relative humidity is of greater importance it is the ratio of the vapor actually present as compared with the greatest amount of air could possibly contain at the given temperature.

**N**EAL'S NUUGE: A sometime dirty house can be cleaned up: a dirty mind remains status quo and causes the vendor of filth to stew in the juice of their own mental mixing."

**THE McCAMEY NEWS:** "The Mendoza Trail Museum will highlight a new collection of antique tools as their main attraction during the McCamey Birthday Celebration. Miss N. Ethie Eagleton has presented the collection of her father, Exile Eagleton, and her brother, Marvin Eagleton, to be displayed in the museum. New cases were built for the tool collection courtesy of Upton County and Miss Eagleton. This tool collection is an important addition to our museum."

E D

**ANDREWS COUNTY NEWS:** "Permian General Hospital board members discussed the possibilities of extending the present clinic when they held their regular monthly meeting Monday night.

"Physicians in the clinic requested the discussion, stating that they are asking several possible potential doctors to tour Andrews in the near future. They pointed out that several area towns will soon be without hospital service."

E D

**SEMINOLE SENTINEL:** "Departure day is drawing near for 37 members of First Baptist Church, Seminole, as they prepare to 'share their faith' with the Japanese this summer.

Led by Pastor Gene Hawkins, these 37 and four others will board a Northwest Airlines chartered flight June 24 in Amarillo and wing to the Orient for a two-week religious effort."

E D

**THE FORT STOCKTON PIONEER:** "A remarkable view of an average soldier's year in Vietnam was presented Monday to two Fort Stockton civic clubs, and will be presented again Thursday in Riggs Museum.

Capt. James C. Pitts, who recently returned from a year in Vietnam, spoke to the Sunrise Optimist Club Monday morning and the Jaycess Monday at noon."

E D

**MATADOR TRIBUNE:** "Long awaited opening of the Motley General Hospital is scheduled for Monday, June 15, it was announced Tuesday by Fred Wallace, administrator.

"The hospital is fully equipped and a qualfidie staff is on hand with the exception of a Registered nurse. Although it is essential that an RN be on the staff before the hospital can qualify for Medicare and Medicaid, it is also required that the hospital be in operation and all facilities checked, before approval by Medicare and Medicaid is made."

E D

**DENVER CITY PRESS:** "Nine Denver City residents have already embarked or will leave in the near future to visit and study in Europe for the summer."

E D

**THE BIG LAKE WILDCAT:** "Reagan County 4-H Quarter-horse Judging Team traveled to College Station for the annual Texas 4-H Roundup at Texas A&M University last week and come home with third place in this state-wide competition."

## Four . . .

(Continued from page 1) 7,218-9,246 feet, in 4 1/2-inch pipe set at 9,300 feet. The producing section had been treated with 5,000 gallons of acid and fractured with 200,000 gallons and 400,000 pounds. Well site is 1,320 feet from south and east lines of section 40, block 37, T-2-S, T&P survey.

Pegasus (Fusselman) — OW PB — Mobil Oil Corp. will re-enter and plug back to 12,300 feet to test the Fusselman No. 1001-3 Pegasus Field Unit, 1,993 feet from south and 1,980 feet from east lines of section 29, block 40, T-4-S, T&P survey, in the Pegasus field, 17 miles south of Odessa.

Linehan & Stoltenberg of Midland filed application to drill No. 1 Appleton as a 5.8-mile southwest offset to the Canyon reef opener and lone producer in the Sara-Mag field of northeast Howard County, 2 1/2 miles west of Vincent.

Drill site for the 8,000-foot test is 467 feet from south and west lines of the northeast quarter of section 14, block 25, H&TC survey.

The opener, Maguire Oil Co. No. 1 Chandler, completed in March, 1954, flowed 184 barrels of 42.8-gravity oil and 2 per cent water daily on potential test through perforations at 7,580-7,590 feet. It presently is producing 28 barrels of oil daily.

Palo Pinto and 7,515-foot Canyon production in the field have become depleted.

Colorado Oil Co. of Big Spring plans No. 1 Cities Reed as a 2.3 8-mile southwest outcrop to Wood, McShane & Thams No. 18 Chalk, recent middle Clearfork pay opener in the Howard-Glascock region of southeast Howard.

It spots 660 feet from north and 1,080 feet from west lines of section 141, block 29, W&NW survey. Scheduled depth is 4,000 feet.

The middle Clearfork opener was completed in February and tentatively assigned to Howard-Glascock, Northeast (middle Clearfork) field.

## EVERYTHING'S COMIN' UP ROSES — UNLESS . . .

People are not alone in their appreciation of roses. From bud tip to root tip, insects appreciate them, too, as food. And given the right conditions, a rose bush can soon be a fungus farm.

Let's take it from the top, because, clearly, a rose bush needs all the help it can get if it is to survive in a world that is literally crawling with enemies.

Get a truly effective aerosol spray or a dust. For example, Antrol Rose and Flower Spray is triple action. It kills chewing and sucking insects, stops the spread of disease and is easiest to use.

If you have too many roses to make an aerosol practical, get a hose-end spray. 50% Malathion in liquid form provides a wide spectrum insect and mite kill and solves your problem.

Now we're down to the soil. Use 72% Chlordane and you destroy underground enemies that attack roots. And there are two more things to remember about soil.

First: feed it and you feed your bushes. The easiest way is with a 10-10-10 non-burning, liquid fertilizer. A 10-10-10 formulation is strong enough, but not too strong and Antrol makes one that is guaranteed to work or you get your money back.

Second: water that ground and not the bush. One school of thought holds that deep watering encourages deep rooting and it certainly can't hurt your rose bushes to go along with an idea like that.

The Antrol Lawn and Garden Bureau has published a free, 8 page booklet that can be a great help to you, both in spotting trouble and wiping it out. The booklet is called EVERYTHING'S COMIN' UP ROSES and you get it by sending a self-addressed, stamped envelope to: Antrol Rose Book, Box 2255, Philadelphia, Pa. 19103.

## MORE SCREW-WORMS

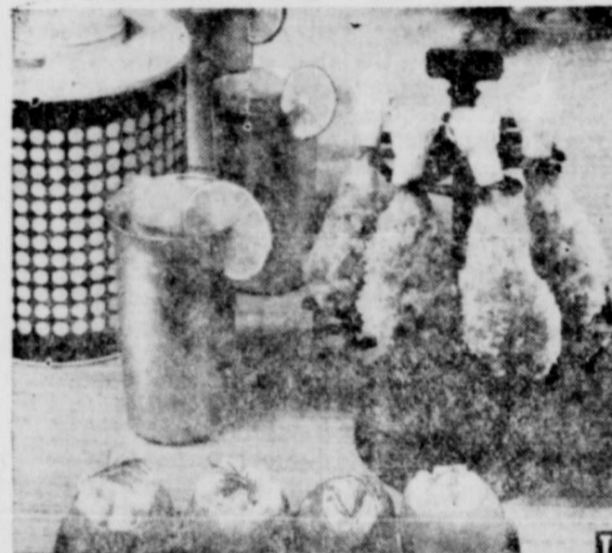

Positive identification of new screwworms cases in far West Texas, hundreds of miles west of previously identified cases, emphasizes the importance for stockmen over the entire state to be on the alert for this livestock pest. Mission Screwworm Eradication Pro-

## PORTABLE MEAL FOR A PICNIC

When a beautiful day lures you outdoors to sup under the sky, you want a meal that travels with ease.

Whether you pack a basket for a trip to a picnic site, or tote a meal to your own patio or backyard, plan on food that is easy to carry, and easy to eat out-of-hand. Include a generous jug of cool and refreshing drink.

- Devil-Crusted Chicken Legs**
- 10 chicken legs, or 5 legs and thighs
  - 1 cup butter
  - 1 tablespoon prepared mustard
  - Salt and pepper
  - 1/2 teaspoon Worcestershire sauce
  - 3 cups fine bread crumbs
- Season chicken with salt and pepper. Brush with oil. Cook in skillet 5 minutes, turning once, to firm flesh slightly. Combine remaining ingredients and press evenly and firmly on chicken. Bake for 25-30 minutes at 325° F. Cool before packing for picnic.

- Lime Cooler Jug**
- 1/2 cup sugar
  - 2 cups (16 oz.) whiskey
  - 1/2 cup lime juice
  - 1 bottle (26 oz.) soda water, chilled
- Chill cooler, liquor and soda before making. Stir the lime juice and sugar together well. Then add whiskey and soda. Chill in cooler and carry to picnic site or patio. Pour over ice cubes in tall glasses or tumblers, and garnish with lime slice. Yield: 8 glasses, 6 oz. each.

**ONCE UPON A TIME!**  
 THE HEAVIEST NEW-BORN CHILD RECORDED IN MODERN TIMES WAS AN INFANT BOORN TO A WOMAN IN SOUTHERN TURKEY, THE BABY WEIGHED 24 POUNDS!

THE LOWEST BIRTH WEIGHT ON RECORD FOR A SUPPINING INFANT IS 10 OUNCES. IN THE CASE OF A BABY BORN IN ENGLAND IN 1928, SHE FEED THROUGH A FOUNTAIN PEN FILLER!

OUR SMALLEST CITIZENS ARE AMONG OUR BIGGEST EATERS. SINCE 1945, STATISTICS SHOW THAT PROCESSED BABY FOOD PRODUCTION INCREASED ALMOST 500 PERCENT!

**YOUNG YUMMIES.**  
 CONTAINERS OF DELICIOUS, HIGHLY NUTRITIOUS BABY FOOD USED PER DAY IN THE UNITED STATES NOW TOTAL MORE THAN 11,000,000 ACCORDING TO A SPEAKSMAN FOR THE NATIONAL CANNERS ASSOCIATION.

**AMERICAN LEADERS**  
 WILLIAM DENIS FUGAZY, AT 40 YEARS OLD IS A TRAVELING MAN, AND SPENDS MORE TIME IN THE AIR THAN THE AVERAGE AIRLINE PILOT. AS PRESIDENT OF PINERS FUGAZY TRAVEL AGENCIES, HE GOES-TWO'S CONTINUOUSLY, MAKING ARRANGEMENTS FOR WORLDFLY VOYAGERS.

FUGAZY TRAVEL, WHICH BECAME PART OF PINERS CLUB IN 1967, WAS THE FIRST TRAVEL AGENCY TO BE BORN IN AMERICA. IT IS NOW AN INTERNATIONAL NETWORK CELEBRATING ITS 100th ANNIVERSARY WITH OVER 200 OFFICES HERE AND ABROAD.

WHEN OTHER TRAVEL OFFICIALS WERE FRESHENING UP THE BOOKINGS FOR THE FINAL CROSS OF THE QUEEN MARY, BILL FUGAZY BECAME THE EXCLUSIVE AGENT FOR THE 29-DAY VOYAGE AND—WENT AN EXTENSIVE ADVERTISING CAMPAIGN—SOLD IT OUT IN ONLY FOUR WEEKS.

A GRADUATE OF CORNELL UNIVERSITY, FUGAZY SERVED IN U.S. NAVAL INTELLIGENCE DURING WORLD WAR II AND IS NOW ACTIVE IN MORE THAN A DOZEN CHARITABLE VENTURES. IN 1965 HE FOUNDED THE DONALD M. FUGAZY MEMORIAL FUND FOR CANCER RESEARCH AT ST. MARY'S HOSPITAL IN NEW YORK AND IS CURRENTLY THIS FUND'S CHAIRMAN.

ABOUT THE DYNAMIC GROWTH OF HIS TRAVEL ORGANIZATION, BILL SAYS, "THIS IS ONLY THE BEGINNING. EACH YEAR PEOPLE HAVE MORE FREE TIME, MORE MONEY TO SPEND, MORE PLACE TO TRAVEL AND WILL GET THERE THROUGH FUGAZY."
