Variety Soil Soaking Rain Falls In County

By NEAL ESTES

The Fall season was officially ushered in a few days ago and the cool, crisp evenings and the recent wet weather have combined to make the public aware of the fact. As if by some sort of magic the Summer season vanished on the very day it was supposed

direct from the manufacturer

Natural gas is the healthiest, most economical way to heat your house this winter. Gas is economical because it's the direct way to produce heat - you don't pay to convert heat to another energy source and then back to heat. And with gas you can afford to bring clean outside air into your home this winter instead of having to re-heat the same old stale air time after time.

So, If you're building or remodeling, be sure to specify gas heating. Gas is the "natural" fuel. It's like buying direct from the manufacturer. Call your heating contractor, plumber, or Pioneer

School Teams Attend Drug **Education Meet**

Awareness and involvement were the key factors in the Drug Education Workshop presented by the West Texas Education Center, September 21-24 in Midland, School districts within Region XVIII were invited to send a local team composed of an administrator, a teacher, and a student. Representatives from Stanton ISD included: Susan Vest, John Anastasio, and Jimmy Conner, Those attending from Flower Grove were: Jewel Fleming, David Pribyla and M. H. Ross.

The training during the workshop emphasized community skills, team work, the laboratory method of group processes, decision making, and an introduction to new materials available in drug education. Dr. Weldon Elbert. Administrator for Occupational, Technical and Adult Education, and Mrs. Jan Reed, Education Consultant with the WTEC, conducted the workshop with the aid of Richard Gartner, Drug Education Consultant from the Texas Education Agency

House Bill 467 passed by the Texas Legislature, requires that crime prevention and drug education be taught in grades 5 through 12, beginning this fall. A total, school wide program will be implemented throughout the state

1971. Buick introduces a new set of values.

Value, not gimmicks or ornamentation, sells cars. More people have been coming to Buick each year for just that reason. Buick concentrates on value.

And this year, Buick introduces a new set of values. Fatures that will help make your new Buick perform better,

last longer and get you more of a return on your investment

Only a Buick dealer can offer you our new set of values. So, test your values against our new ones. Then ask yourself this simple question. Wouldn't you really rether have a Buick?

Something to believe in.

An Important Improvement. Every new Buick engine is now designed to run smoothly and efficiently, and with lower exhaust emissions, no-lead and low-lead gasolines. And every Buick V-8 engine will have exclusive nickel-plated exhaust valves for smoother operation and longer valve life, and a new time-modulated choke to help give quicker warm-up and a more consistent fuel mixture

BUICK MOTOR DIVISION
