

These Things We Note

By ED PIEL

Don't knock the weather: nine-tenths of the people couldn't start a conversation if it didn't change once in a while.

Speaking of the weather, I've been told quite often that all the wind and blowing dirt we've been getting lately is unusual. It seems unusual weather must follow us around, for when we first moved to Nedoeha, Kansas, it was hot, with very high humidity. Well all the folks in Nedoeha told us that it a most unusual summer. . . . next, when we went up to Emporia, Kansas, the winter was cold with lots of snow and what did the local folks have to say about it. . . . you guessed it. . . . it was a most unusual winter.

Our thanks to the anonymous writer who sent in a short note informing us that the hospital was not the only place where pant suits were not allowed to be worn. . . . seems the Stanton First National Bank also does not allow female employees to wear them at work. We might have found this out for ourselves. . . . but with the counters being so high at the bank it's difficult to see what the ladies are wearing below the waist.

I wonder who moves around more. . . . athletic coaches or newspaper men. . . . I think a weekly newspaperman, judging from my own experience. There's one big difference though, we usually leave of our own accord and coaches, while submitting resignations, many times are more or less forced into resigning.

We don't envy the coaches lot. . . . if they don't want they're on their way elsewhere. . . . and sometimes even if they do win. . . . they are still on their way.

Which is a round-about way of saying we hate to see Jerry Bethel, eighth grade coach, submit his resignation as announced in last week's Reporter. We haven't known Jerry long, but in the short time we have, his ability and his work with the kids has left us with the feeling that Stanton is losing someone they should have tried harder to keep.

Advertisement in personal column of a university town newspaper, about an old lady wishes to correspond with young male student, preferably her son.

Sometimes I wonder. . . . We're supposed to be a civilized people, but as you look around it's hard to believe.

War is raging in Vietnam. . . . tension mounts on the Israel-Arab borders. . . . another government falls in South America. . . . more shootings and riots and killings here in the U. S.

People starving in every corner of the earth. . . . and in Ireland, the height of civilization is showing through. . . . there we see the Protestants battling the Catholics, and the British not sure of just what's happening on either side.

They say man is just one step removed from an animal. . . . but I wonder which way that step is. Up or down?

Watched President Nixon Monday night being interviewed by Howard Smith, and one of his remarks struck us as particularly catching. The President was talking about how the average person felt about government, and he said, "They (us) think it costs too much. . . . doesn't work right. . . . and they (us) really can't do much about it." That about sums up the problem accurately.

Much has been written and heard about the President's "low-profile image" (whatever that is), but watching Monday night, we didn't seem to feel that his profile or image was (Continued on page 3)

CONTEST PLAY PRACTICE—Pictured above from left to right, are Pam Petree, playing the part of Mrs. Frank, Kim Douglas, as Margot; Steve Douglas, Mr. Frank; Debbie Lambert, Miep; Carla Perry, Mrs. Van Dann; and Larry Adams as Mr. Van Daan. The play will be presented for the public on April 13, at 8 p.m., in the High School Auditorium, and the group will go to Coahoma on April 15, for the contest.

2 Extensions Completed In Sulphur Draw Area

Collier Diamond C Oils, Inc., of Fort Worth, completed two extensions to the Sulphur Draw (8,790 Dean) field of northwest Martin County.

No. 1 J. M. Meek finished to pump 78 barrels of 38.1-gravity oil and 41 barrels of water on 24-hour potential test, through perforations at 8,729-8,917 feet, which had been acidized with 2,500 gallons and fractured with 101,000 gallons and 200,000 pounds. Gas-oil ratio was 713-1.

Well site is 1,320 feet from south and east lines of section 27, block 36, T-3-N, T&P survey, 13 miles north of Stanton.

No. 1 Alma Brown, finished on the pump for 68 barrels of 37.3-gravity oil and 23 barrels of water, with gas-oil ratio of 705-1.

Production was through perforations at 8,727-8,924 feet, after acid treatment with 1,500 gallons and fracturing with 80,000 gallons and 160,000 pounds.

Location is 1,320 feet from north and east lines of section 3, block 36, T-2-N, T&P survey.

Operators have completed five new producers in Martin County's part of the Spraberry Trend Area.

John L. Cox, Midland, was responsible for four of the completions.

No. 1 Lynn Henson, located 1,320 feet from north and east lines of section 18, block 37, T-2-N, T&P survey, one mile east of Tarzan, finished for a daily potential of 147 barrels of 40-gravity oil plus 35 barrels of water. Gas-oil ratio measured 622-1.

It pumped through perforations at 8,456-8,613 and 9,001-9,205 feet, which had been fractured with 80,000 gallons. Total depth is 9,250 feet, where 4 1/2-inch casing is set.

No. 1-B Woody Brothers, finished on the pump for a potential of 159 barrels of 38-gravity oil plus 14 barrels of water per day, gas oil-ratio measured 642-1.

Production was through perforations between 8,388-9,193 feet, which had been fractured with 80,000 gallons.

The producer is located 1,320 feet from south and 800 feet from east lines of section 6, block 37, T-1-N, T&P survey, five miles southwest of Tarzan.

No. 1 Matthews, 1/2-mile north extension, spots 1,320 feet from north and east lines of section 29, block 36, T-2-N, T&P survey, two miles northwest of Lenora.

Production was from perforations at 8,370-9,166 feet, which had been fractured with 80,000 gallons.

It spots 1,320 feet from south and west lines of section 4, block 37, T-1-N, T&P survey, four miles south of Tarzan.

Adobe Oil Co. No. 3-A Lenora-Epley, 1,320 feet from north and west lines of section 2, block 37, T-1-N, T&P survey, is 10 miles northwest of Stanton.

It finished to flow 264 barrels of 39.7-gravity oil per day, through a 14-64-inch choke and perforations between 8,067-9,111 feet, which had been treated with 2,000 gallons of acid, and fractured with 80,000 gallons and 240,000 pounds of sand. Gas-oil ratio measured 680-1.

Petroleum Exploration & Operating Corp. of Abilene, has dually completed No. 1 Jackson, recent extension to the Midland County portion of the Spraberry Trend Area, as a 1/2-mile south and one-mile north link to Devonian gas production in the Azalea multiphase field.

Calculated, absolute open flow was for 3 million cubic feet of gas per day, with gas-oil ratio of 4,828-1. Gravity of the distillate was 56. degrees.

Production was through perforations at 10,289-10,302 feet, which had been acidized with 5,500 gallons.

Drilled to 10,450 feet, it has 4 1/2-inch liner hung from 9-157-10,450 feet, and was plugged back to 10,302 feet.

Completion from the Spraberry was effected in December, 1970 (to pump 110 barrels of 39.1-gravity oil per day, through perforations at 8,176-

9,170 feet. The project, 1,320 feet from north and east lines of section 30, block 37, T-1-S T&P survey, originally was scheduled in the Mid-Mar (Strawn) field.

C. R. Gallagher, Jr. of Lubbock, (formerly Jouret Oil Corp.) completed No. 1 Free, Howard County Jo-Mill oil discovery, four miles southwest of Knott, to pump 150 barrels of oil per day, gravity unreported.

Production was through perforations at 7,460-7,503 feet, which had been treated with six barrels of acid. Gas-oil ratio measured 850-1. Fracture treatment was 30,000 gallons and 60,000 pounds.

Drilled to 7,664 feet, it has 4 1/2-inch casing set on bottom. Top of the Spraberry was picked at 6,820 feet, and Jo-Mill at 7,418 feet, and derrick floor elevation at 2,540 feet.

Well site is 1,320 feet from north and east lines of section 40, block A, Bauer & Cockrell survey.

Sheldon Petroleum Co., Lubbock, has filed application to drill an 8,200-foot wildcat in Howard County, four miles southwest of Knott. It is No. 1. O. B. Gaskins.

Drill site is 660 feet from south and east lines of section 41, block A, Bauer & Cockrell survey.

It is 1/2-mile northeast of Gallagher's No. 1 Free, Jo-Mill discovery.

Texaco Inc. plugged No. 1-E, H. N. Reed, a wildcat venture in Howard County, at a total depth of 8,995.

It spots 519 feet from north and east lines of section 33, block 30, T-1-N, T&P survey, four miles northeast of Coahoma.

Stanton FFA Wins At Sweetwater

The Stanton FFA Chapter won the Sweepstakes Trophy in the Sweetwater judging contest held Saturday, March 20. The Sweepstakes Trophy is awarded to the school winning the most points in the overall team standings out of the nine different contests.

The Stanton chapter teams won 1st place in land judging; 2nd place in dairy products judging; 4th in cotton classing, and 5th in wood judging. Points are awarded for the first ten teams in each contest on the basis of 10 points for 1st; 9 points for 2nd, through 10th place, getting 1 point.

The land team was composed of Dennis Jones, Ricky Mims, Mark Hursh, and Roy Kelly. Dennis Jones was first high individual, and Ricky Mims was second high individual.

The range and pasture team was composed of Jackie Rudd, Brad Hull, Lynn Romine, and Gary Posey. Jackie Rudd was second high individual, and Brad Hull was third high individual.

On the dairy products team were Dennis Ireton, David Standefor, Gene Louder, and Mark Greenhaw. David Standefor won second high individual. This is the highest a Stanton team has placed in dairy products at Sweetwater.

On the cotton team were Mikel Adams, Danny Saunders, and Jerry Kennedy.

The wool judging team was composed of Jimmy Walker, Ricky Kennedy, George Prado, and Clark Ray.

Lions Club Beauty Contest Scheduled For April 16

Invitations have been sent out to local clubs and organizations inviting them to enter a contestant in the annual Lions Club Beauty Contest. The annual affair will be held in the high school auditorium, April 16th, beginning at 8:00 p.m.

Any club or organization may enter a contestant, and if a group has not received an invitation, they are asked to contact Paige Elland for information concerning entering a representative of their group.

Girls will be judged on

poise, beauty, and personality, and the local winner will then compete in the regional contest to be held in Midland on May 7th and 8th. Should she win in the Midland contest, she then will proceed to the state finals.

Entry fee for contestants is \$3.00, admission to the contest is \$1.00 for adults, and 50 cents for children.

Paige Elland and Chuck Elmore are in charge of the contest, with Al Smith arranging entertainment between judging events.

Crusade For Christ Starts Saturday

The jointly sponsored Stanton Crusade For Christ gets underway Sunday. Activities are planned throughout the week by the three sponsoring churches. Churches joining together in the Crusade are, The United First Methodist, First Baptist, and St. Joseph Catholic Church.

Morning meetings will be conducted at the United First Methodist Church each day at 7:00 a.m., evening services will be held at the high school auditorium. The First Baptist

Church will provide baby sitting for those wishing to leave the children to attend the services. On Saturday, March 27, there will be a 12-hour prayer vigil at St. Joseph's Catholic Church.

Ed Robb of the Ed Robb Evangelistic Association, will be here to conduct the services, with Gene and Bobbie Moore appearing to provide the singing. Both Robb and the Moores have traveled extensively participating in Crusades.

Dewey Anderson Services Held Monday, Mar. 22

Dewey Anderson, 73, died at 5:45 a.m. Saturday in a Stanton hospital after a long illness.

Services were held at 2:00 p.m. Monday in Stanton Church of Christ, with burial in Trinity Memorial Park in Big Spring, under direction of Gilbreath Funeral Home.

He came in Stanton 47 years ago from Atascosa County. Born Nov. 8, 1897 in Dallas County, he was married to Estell Faye Gunter in Wilson County Dec. 12, 1939. She died Oct. 27, 1961. He was a retired farmer, and a member of the Stanton Church of Christ.

Survivors include a son, Dewey Anderson, Jr. of Stanton; a stepdaughter, Edna Dardis of Midland; three sisters, Mrs. Emily Harrell, and Mrs. Bessie Ward, both of Stanton, and Mrs. Alta Gary of Sabinal; a brother, Raymond Anderson of Seminole; three grandchildren, and a step-grandchild.

Chamber Survey Shows— Industrial Development No. 1 Concern In County

Industrial development is the number one priority project that most people in Stanton would like to see worked on, according to the results of a survey conducted by the Martin County Chamber of Commerce.

The chamber several weeks ago sent out a list of subjects to members asking them to rate them according to what they thought were the most pressing needs of the community. Over 100 of these questionnaires were sent out.

The list sent out included the following topics that the recipients were asked to rate: Agricultural Diversification, Downtown Improvement, Industrial Development, Water Supply Study, Housing, School Plant Facilities Study, Recognition of Existing Industry, Establishment of a Nursing Home, Recreation Facilities, Paved City Roads, Paved County Road, and Airport Development.

Chamber president Bob Deavenport said that the idea be-

hind the sending out of the questionnaires was to determine what the area felt was the most important project or projects to begin work on. It was felt that the chamber could not hope to tackle all of the subjects listed, but that if they (the chamber) knew what the people wanted most they would proceed from that standpoint.

There were twelve subjects listed, and points were awarded on the basis of the one listed number one received 12 points, the number two choice, 11 points; number three, 10 points; and on down the lines to the last choice receiving one point.

The results were Industrial Development leading with a total of 296 points. Next in order were: Agricultural Diversification, 251; Downtown Improvement, 218; Water Supply Study, 210; Housing, 203; Nursing Home, 193; School Plant Facilities Study, 192; Recognition of Existing Industry, 189; Recreation Facilities, 143;

Paved County Roads, 132; Airport Development, 109, and Paved City Roads, 78 points.

Deavenport said, "The response we received from the questionnaire form was most encouraging. It shows that the people of Martin County are interested in our future, and that they are prepared to work for the betterment of the county. Many of those returning the letters signified that they would be willing to serve or various committees to start planning and working towards the accomplishments of some of the goals listed on the letters sent out."

"We realize that we cannot hope to complete many of these in one year, but we plan to make a strong start on several of the projects listed, and lay the groundwork for some long range planning for the county," he said.

Next item is for committees to be appointed for the projects receiving the most votes, and for studies to begin to see what can be done.

Local FHA Observe National FHA Week

Future Homemakers of America in Texas will join with the 600,000 FHA members across the country in observing National FHA Week, March 28 through April 3, 1971. The 1,000 chapter in Texas will carry out special projects, and activities during the week focused on the theme of FHA CARES.

According to Judy Mims, high school junior, and president of the local chapter of FHA, members of Future Homemakers of America care about a lot of things.

The 31 members of the Stanton FHA Chapter have scheduled a number of activities for this week. Plans outlined by Judy Mims include: Sunday — Attend Church of choice; Monday — FHA Color Day; Tuesday — Teachers Appreciation Day; Wednesday — Dress-up Day; Thursday — Citizenship Day; Friday — Decorate Easter Eggs for Day Care Center, and Saturday — Parent Appreciation Day.

Future Homemakers of America is a non-profit, self-supporting organization officially sponsored by the U. S. Office of Education, and the American Home Economics Association, and is correlated with the home economics program in the secondary schools. High school home economics teachers serve as advisors to the 12,000 local FHA chapters throughout the country. Na-

tional headquarters are located in Washington, D. C.

Officers of the Stanton chapter are: Judy Mims, president; Zanna Angel, vice-president; Jackie Cook, secretary; Rosa'v'n Louder, treasurer; Susan Vest, reporter; Carol Smith, historian; Carol Anderson, song leader; Diana Payne, parliamentarian, and Mrs. Florene King, serves as chapter advisor.

High School Honor Roll

The following list of students has achieved the "A" honor roll for the third nine weeks in Stanton High School.

Seniors: Cindy Avery, Sandra Chandler, Mary Mashburn, and Susan Vest.
Juniors: Doyle Doggett, and Charlotte Morris.
Sophomore: Marc Briggs, and Tommy Deavenport.
Freshmen: Dale Henson, and Trica Shoemaker.

Monday evening, March 29, immediately following the revival meeting in Stanton High School Auditorium, the United Methodist Youth Fellowship will have a coke party in the Fellowship Hall at the United Methodist Church for all youths attending the revival. Refreshments will be served. Everyone is welcome.

GOING OVER THE SONGBOOK—R. O. Anderson, right, and three other members of the Permian chapter, Society for the Preservation and Encouragement of Barber Shop Quartet Singing in America, Inc., are discussing plans for the "Weekend of Harmony" coming up this weekend in Midland. Shown with Anderson, are from left, Jack Stone of Midland, Dr. C. L. Brady of Odessa, and Jim Womack of Midland. The annual songfest will take place Friday at 8 p.m. in the Lee High School auditorium, to be followed by the Southwestern District convention of the S.P.E.B.S.Q.S.A.

Guy Story Brown—

Local Boy Editor Of New Magazine Publication

Guy Story Brown, son of Mr. and Mrs. Glenn L. Brown, and a 1967 graduate of Stanton High, is the editor of a new monthly magazine published in Abilene, Brown, a senior at Abilene Christian College, heads a new literary magazine named "Golgotha."

All articles appearing in "Golgotha" are written by students attending one of the three colleges in Abilene; Abilene Christian, Hardin-Simmons, and McMurry.

In an interview appearing in "The Optimist" publication of Abilene Christian College, Brown said: "The purpose of the magazine is to provide a forum and an outlet for the more creative energies of some of the students on all three of the Abilene campuses. No single publication, and probably not even combinations of these publications, on any other college campuses here in Abilene provide that kind of forum."

In a story appearing in the Optimist, it was reported that the magazine was denied permission to publish by the administration at Abilene Christian. The staff of "Golgotha" state that there never was any question of the group starting the new publication going to any of the three college administrations to request per-

mission, since they feel that the colleges have no jurisdiction over the venture.

Those involved stress the fact that "Golgotha" is not to be confused with many of the underground papers and magazines now being distributed, since "Golgotha" does not fall into that category.

"Golgotha" is a journal of student thought, and was conceived as a forum permitting and encouraging a free play of discussion, controversy, and counter position of ideas. It is free from organizational

Wesleyan Fellowship Class Held Social

The Couples Wesleyan Fellowship Class from the United Methodist Church, held a covered dish social Friday evening, March 19 at 7:30 p.m. in the Fellowship Hall at the United Methodist Church.

After supper, games of Pass-word, 42, and 40minos were enjoyed by the following couples: Mr. and Mrs. Don Tollison, Mr. and Mrs. Bob Cox, Mr. and Mrs. Nolan Simpson, Mr. and Mrs. Billy Reager, Rev. and Mrs. Richard Payne, Mr. and Mrs. Jimmy Conners, Mr. and Mrs. Billy Blalock, and Mr. and Mrs. Bobby Blalock.

commitments and inhibitions, and will, ideally, offer an opportunity for all legitimate student views from right to confer our time and place, but each other and their critics.

Brown won a literary award for his work on "Fugue" while attending school at the American College in Paris. He also has written articles which have appeared in various student publications, and The Stanton Reporter.

Where's The Fire

Fire department calls made between March 17 and March 23:

Wednesday, March 17 — Grass fire east of town. Saturday, March 20 — Fire in shed back of house at 506 W. 4th.

Only as a signal of distress may the American flag be flown upside down.

A free tomorrow. Insured today by the U. S. Army Reserve.

Stanton Home Demonstration

The Stanton Home Demonstration Club met Wednesday, March 17, at the home of Mrs. W. W. Clements. Mrs. Crystal Webb, president, presided.

Seven members answered roll call with their favorite family games. Mrs. Jess Angel gave the program on family games and

WPCA Holds Annual Stockholders Meeting

Western Production Credit Association held its thirty-seventh annual stockholders meeting Thursday, March 18, in Stanton. One hundred-sixty stockholders and guests attended.

tin County, and A. C. Teinert Midland County.

At the organizational board meeting following the stockholders meeting, J. W. Broughton was elected chairman of the board, and Jim Franklin, elected vice-chairman. Broughton farms in Howard County, and has been a member of the board since August 1963. David K. Workman was re-elected president; Mrs. D. B. Keaton, secretary-treasurer; Mrs. R. P. Simpson, bookkeeper, and J. C. Epley, inspector.

Western Production Credit Association is a locally owned

corporation making short and intermediate term loans to farmers and ranchers in a 12 county area reaching from Howard County to the Pecos River. The association loans some six million dollars annually, and has a net worth in excess of \$813,000.00.

Temik, a new insecticide that came into commercial use last year, has been described as the best soil-applied systemic chemical available for cotton.

Dr. R. L. Ridgway, leader of the USDA's cotton insect research at Texas A&M University, said Temik (the registered trademark for aldicarb pesticide) is particularly effective against such pests as the cotton fleahopper, lygus bug, leaf perforator, and boll-weevils.

He said Temik can be applied in the furrow at planting time for control of early season pests, or as a side-dress

These . . .

(Continued from page 1) low . . . rather that he is doing a pretty good job under what at best can only be called extremely trying circumstances.

application for mid-season insects.

For side-dress applications to be most effective, Ridgway recommended placing Temik granules in moist soil. If moisture is lacking, the cotton should be irrigated after treatment.

"When moisture is limited, application of Temik in two bands per row is best. But with ample moisture, one band per row is adequate," he pointed out.

Ridgway also reported results with new experimental, slow-release Temik formulations which further improve effectiveness by extending control and providing more plant safety.

He added that the chemical, like most other insecticides, will reduce certain beneficial insects. Consequently, the farmer should try to balance maximum pest control with minimum effect on beneficial insects.

Ridgway emphasized that Temik is highly toxic to mammals and other warm blooded animals.

"Although the granular formulation containing 10 percent Temik is safer to use than many liquid preparations of highly toxic insecticides.

"Although the granular formulation containing 10 percent Temik is safer to use than many liquid preparations of highly toxic insecticides, special care should be taken to assure that granules are not

left exposed on top of the soil, since birds and other wildlife may be killed if allowed to feed on the granules," he explained.

The entomologist urged farmers to follow label instructions carefully to get safe and effective use of Temik.

Christmas cards were first used in the U. S. in 1874.

The dahlia is named for the Swedish botanist Dahl.

P. T. Barnum sponsored Jenny Lind in her American debut.

Delaware is the second smallest state in the Union.

It costs Uncle Sam about one cent to make a dollar bill.

On Memorial Day the flag should be displayed at half mast from sunrise to noon and at full mast from noon to sunset.

FAMILY HEALTH

Inflammation and Aspirin
One of aspirin's major roles is in reducing inflammation, particularly in joints, as in rheumatoid arthritis. Most physicians today recommend it as "the mainstay of therapy" in many types of joint disease.

In amounts prescribed by a physician, Bayer Aspirin is effective in reducing the swelling in inflamed tissue. At the same time, it helps relieve the pain of crippling conditions. Despite the development of new potent prescription drugs for treating rheumatoid arthritis, aspirin continues to be the drug of choice.

Remember, if you think you may have arthritis, see your doctor. He is the only one qualified to diagnose your symptoms and prescribe for their relief.

Martin County HD Council Met Tuesday, Mar. 16

The Martin County HD Council met Tuesday, March 16, in the Martin County Library with Mrs. D. E. Ory, council chairman, presiding.

Plans were made to attend the District THDA meeting in Andrews, March 25. Martin County women made name tags for the district meeting.

Delegates to the district meeting are: Mrs. W. T. Wells, Mrs. Albert Pitman, Mrs. Horace Tubb, Mrs. Bob Alsop, and Mrs. Richard White.

Those attending the meeting were: Mrs. W. T. Wells, Mrs. W. W. Clements, Mrs. Wiley Williams, Mrs. Jim Webb, Mrs. Albert Pitman, Mrs. W. J. Harlow, Mrs. Morgan Hall, Mrs. D. E. Ory, and Mrs. James Elland.

Hospital News

Admissions from March 15-21:

March 15 — Juanita Monroe, Maxine Kolb, and Connie Horton; March 16 — Donna Irene Ubnoski and infant son, Midland; March 17 — Gwendolyn Scott and infant son, Midland; March 18 — Sherlene Walker, and A. C. Powell; March 20 — Elia Rodriguez, and O. L. Hatley, and March 21 — Roxie Stafford.

Dismissals from March 15-21:

March 15 — Leroy Jackson; March 16 — Charlie Christopher; March 17 — Virginia Brandenburg, Donna Irene Ubnoski and infant son; March 19 — A. C. Powell, and March 20 — Sherlene Walker.

Local News In Brief

Wednesday, March 10, Henry Heller, Reynolds, Nebraska; Ivan Rueger, Landgon, North Dakota; Wayne Ward, Mooreton, North Dakota; and Mr. and Mrs. David Workman, Stanton, were dinner guests of Mr. and Mrs. Jim Franklin, and Mary.

Wayne Ward was a guest in the Franklin home last week. He was here working for the Farmers Union on a membership drive.

Mr. and Mrs. D. E. Ory recently visited their daughter and son-in-law, Major and Mrs. Burley Poik, and family in Fort Leavenworth, Kansas.

On their return trip, they stopped in Plano, Texas, and visited their son and daughter-in-law, Mr. and Mrs. John Ory, and grandson, Dwayne John.

Out of town guests for the week-end at the home of Mr. and Mrs. Ed Piel, were their two sons, Mel and Marty, from Lubbock.

The faculty of the School of Engineering, has named David Michael Workman to the Dean's Honor Roll for the 1970 fall semester at Texas Tech University, Lubbock.

David is the son of Mr. and Mrs. David K. Workman, and is a freshman at Tech, majoring in Electrical Engineering.

Mrs. Jim Tom fell Tuesday, March 16, and broke her arm. She was taken to Midland Memorial Hospital.

Mrs. Tom was released from the hospital last Friday, and is recovering at the home of Mr. and Mrs. Cecil Bridges.

Mrs. Flora Morris's sister, Mrs. Iris Palm, Salem, Oregon, arrived Friday evening, March 19, to spend a week or ten days here. The ladies spent last week-end at Colorado City State Park, visiting Mrs. Morris's grandson and his wife, Mr. and Mrs. Larry Neill, who is the superintendent at the park.

Enroute home, Mrs. Palm plans to visit a brother and wife in San Antonio, Mr. and Mrs. S. E. Magee.

Out-of-town guests this past week at the home of Mrs. Annie Stovall, were her daughters and son-in-laws, Mr. and Mrs. Irving Currie, Midland, and Mr. and Mrs. Ted Gross, Big Spring; her granddaughters and their husbands, Mr. and Mrs. Don Phillips, Lorraine, Texas, and Mr. and Mrs. Mike Cortas, Austin, Texas.

JUNIOR CLASS TO HOLD BAKE SALE

The Stanton High School junior class will be holding a bake sale this Saturday in front of Stanton Drug Store. Proceeds from the sale go towards the junior-senior banquet to be held sometime in April.

Senior Citizens Held Monthly Social

The Martin County Senior Citizen group met Tuesday, March 16, at Cap Rock Electric Auditorium for their regular monthly social. Thirty-one members enjoyed the games and singing.

Hostesses for the social were Mrs. Leta Eldson, Mrs. Joe Stewart, and Mrs. Edgar Standefer.

Mrs. Brown Attends Music Convention

"Enrich Your Life With Music," was the theme of the 56th annual convention of the Texas Federation of Music Clubs held at the Sheraton-Crest Inn in Austin recently.

The convention opened with meetings of the executive committee, the state board, and local officers, presided over by Mrs. Leake J. Ward, state president of Odessa. First vice-president of TFMC is Mrs. Glenn L. Brown of Stanton. Mrs. Brown, a member of Stanton Music Club, was in Austin for the convention. Mrs. S. Arthur Wilson is president of the local club.

Musical performances included numbers from colleges and high schools over Texas. A special concert was given by Voytek Matushevski, Russian pianist, and winner of the Young Artists Award sponsored by the National Federation of Music Clubs.

State officers were honored at a banquet with Maurice P. Press, conductor of the Austin Symphony as guest speaker.

Musical night at the University of Texas, included performers from The Texas Longhorn Singers, the Harp Ensemble, Junior String Project, and the Symphonic Band.

The convention was concluded with Junior Day program, with junior musicians from all over Texas. Highlighting the program were two numbers by the String Orchestra from the Texas School for the Blind.

Local Men To Attend Production Credit Meeting

Jim Franklin will participate as a voting delegate from the Western Production Credit Association at the Federal Intermediate Credit Bank of Houston annual meeting March 28-31, in Dallas.

The Intermediate Credit Bank serves as a discount source for Texas' 34 Production Credit Associations.

Western PCA owned stock and legal reserve valued at \$206,250.00 in the Intermediate Credit Bank, as of December 31, 1970. Statewide, Production Credit served almost 16,000 agricultural loans in 1970, totaling more than \$826 million.

Other representatives of the local PCA participating in the meeting are J. W. Broughton, director, and David K. Workman.

According to David K. Workman, association president, some highlights of the three-day session include a report of activities from W. N. Stokes, Jr., president, Intermediate Credit Bank, Houston, and addresses by the Honorable Ed N. Gossett, Judge, Criminal District Court No. 5, Dallas, and F. Vernon Wright, president, Intermediate Credit Bank, New Orleans.

Bobby Wren Held Band Clinic

Bobby Wren, son of Mr. and Mrs. Chalmers Wren, Stanton, held a band clinic for Sanderson High School Eagle Band, Friday, March 19, in Sanderson.

Bobby is finishing his fifth year as band director, currently the band director at Richardson Junior High School.

Glenn Wren, another son of the Wrens, is band director in Sanderson.

Mr. and Mrs. Wren spent last Thursday and Friday in Sanderson with their two sons. They met Bobby at the Midland Airport, and they all drove to Sanderson together.

Contest Play To Be Presented

Practice is underway for the Contest Play for Interscholastic League, to be presented April 15 at Coahoma. The name of the play is "Scenes From the Diary of Ann Frank," which will be presented for the public Tuesday, April 13, at 8:00 p.m., in the High School Auditorium.

The cast is Steve Douglas, Pam Petree, Larry Adams, Carla Perry, Debbie Lambert, Steve Church, George Dean, Kim Douglas, and Twila Stallings.

Crew members are Suzanna Brown, Randy Lambert, Jackie Cook, and the play is being directed by Mrs. J. R. Dillard.

About 30 turned out for tryouts.

The drama class at the high school are in dire need of men's clothes of the 40's to use as costumes for the contest play. If anyone has any, and would be willing to lend them to the cause, they may contact Mrs. Dillard at 6-2426 or call the high school, 6-3366.

It is warmer to wear two thin garments than one thick one because the air between them serves as insulation.

Snakes have as many as 30 pairs of ribs.

New Arrivals

Mr. and Mrs. Charles Scott, 202 Holly, Midland, announce the arrival of a son on March 17. The infant weighs seven pounds, and 10 ounces, and is 19 1/2 inches long. They named him Benjamin Dale.

License number 100 is always reserved for the president's car.

LEGAL NOTICE

ELECTION ORDER AND NOTICE

THE STATE OF TEXAS)
COUNTY OF MARTIN)

On this the 8th day of February, 1971, the Board of Trustees of Stanton Independent School District convened in regular session, open to the public, with the following members present, to-wit:

David K. Workman, President; Jack Ireton, Owen Kelly, Gene Butler, Dwain Henson, and Kenneth Holcombe, and the following absent: George Glynn, constituting a quorum and among other proceedings had by said Board of Trustees was the following:

WHEREAS, the term of office of David K. Workman, and Gene Butler, members of the Board of Trustees of the School District will expire on the first Saturday in April, 1971, said first Saturday being April 3, 1971, and on said date a trustee election will be held in said School District.

WHEREAS, it is necessary for this Board to pass an order establishing the procedure for filing for and conducting said trustee election:

THEREFORE, BE IT ORDERED BY THE BOARD OF TRUSTEES OF STANTON INDEPENDENT SCHOOL DISTRICT:

1. That an election be held in said School District on April 3, 1971, for the purpose of electing to the Board of Trustees of said School District two trustees.

2. That all requests by candidates to have their names placed upon the ballot for the above mentioned election shall be in writing and signed by the candidate and filed with the secretary of the Board of Trustees at the superintendent's office not later than 30 days prior to the date of said election.

3. That all candidate shall file with said application the loyalty affidavit required by Art. 6.02 of the Election Code.

The Secretary of this Board of Trustees shall post on the bulletin board in the building where the Board of Trustees meets the names of all candidates that have filed their applications in accordance with the terms and provisions of this Order, and said Secretary shall otherwise comply with the terms and provisions of Art. 13.32 of the Election Code.

4. That said election shall be held at the following place and the following named persons are hereby appointed officers for said election:

At Stanton Elementary Building in Stanton, Texas, in said School District with Cecil Bridges as Presiding Judge. The polls at the above designated polling place shall on election day be open from 8:00 o'clock a.m. to 7:00 o'clock p.m.

5. Doris Stephenson is hereby appointed Clerk for absentee voting. The absentee voting for the above designated election shall be held at County Clerk's Office in Martin County Court House within the boundaries of the above named School District and said place of absentee voting shall remain open for at least eight hours on each day for absentee voting which is not a Saturday, a Sunday, or an official State holiday, beginning on the 20th day and continuing through the 4th day preceding the date of said election. Said place of voting shall remain open between the hours of 8:00 A. M. and 5:00 P. M. on each day for said absentee voting. The above described place for absentee voting is also the absentee Clerk's mailing address to which ballot applications and ballots voted by mail shall be sent.

6. The manner of holding said election shall be governed, as near as may be, by the Election Code of this State, and this Board of Trustees will furnish all necessary ballots and other election supplies requisite to said election.

7. Immediately after said election has been held, the officials holding the same shall return to the president of the Board of Trustees in a sealed envelope a copy of the returns, poll list and tally sheet for said election, and this set of election returns shall be used by the Board of Trustees in canvassing said election. Another copy of the returns, poll list, and tally sheet of said election shall be delivered to the president of the Board of Trustees in an unsealed envelope and this envelope shall be available in the office of the superintendent open to inspection by the

The Board of Directors of Plains Cotton Growers, Inc., will meet in the Harold Hinn Conference Room of the Texas Tech University campus at 3 p.m. March 30, according to Donnell Echols of Lamesa, P-CG president.

Preceding the business session of the meeting will be a tour of the Textile Research Center for PCG directors and others who may be interested. The tour will begin at 2 p.m. Following the tour, Dr. Milton Smith of Tech, will give a short report on his research of on-farm storage of seed cotton.

Echols said the board would hear a report from the PCG Labor Committee, which is meeting at 11 a.m. on the same day, and would discuss PCG activities in Austin and Washington on such issues as pesticide regulations, replanting of cotton acreage lost to hail or other disaster, the level of the loan, Commodity Credit Corporation resale prices for cotton, and sale and lease provisions.

The Lubbock-based cotton producer organization has two directors from each of the 25 counties it represents. All PCG board meetings are open to

public for 60 days from the date of the election.

7. The presiding judge for said election shall return to Martin County Sheriff immediately after the votes have been counted the ballot box containing the voted ballots and all other election supplies and said ballot box shall be preserved and kept in accordance with the terms and provisions of the Texas Election Code.

8. The Board of Trustees shall give notice of said election, and this combined Election Order and Notice shall serve as Notice for said election. The President of the Board of Trustees is hereby authorized and instructed to post or cause to have posted said combined Election Order and Notice at three public places where notices are customarily posted in this school district, and said posting shall be made at least 20 days before the date of said election.

The President shall also cause a copy of this combined Election Order and Notice to be published one time in a newspaper of general circulation in the county where this school district is located. Said publication shall be not more than 30 days nor less than 10 days before the date of said election.

9. It is further found and determined that in accordance with the order of the Board of Trustees the Secretary posted written notice of the date, place, and subject of this meeting on the bulletin board, located in the administrative office, a place convenient to the public, and said notice having been so posted and remained posted continuously for at least 3 days preceding the date of this meeting.

It is further found and determined that this district is located in Martin and Howard counties, and that written notice of the date, place and subject matter of this meeting was furnished to the County Clerk of each county in which this district is located and that said notices were posted by the County Clerk of each of said counties on the bulletin board at the door of the county courthouse for said county, a place convenient to the public, at least 3 days preceding the date of this meeting. The returns of said posting shall be attached to the minutes of this meeting and shall be a part thereof for all intents and purposes.

The above order being read, it was moved and seconded that the same do pass. Thereupon, the question being called for, the following members of the Board voted AYE: David K. Workman, Owen Kelly, Jack Ireton, Dwain Henson, Gene Butler, and Kenneth Holcombe, and the following voted NO: None.

ATTEST:
DAVID K. WORKMAN,
President, Board of Trustees
OWEN KELLY,
Secretary, Board of Trustees.
3-25-1tc

the public, and Echols said all who are interested in the future of cotton are welcome to attend. Dinner will be served at 6:30 p.m.

The rash of new rules, regulations, and guidelines issued from Washington to assure that land set aside from production under the 1971 farm program will be land of "normal productivity" appears to have subsided, according to Donald Johnson, executive vice president of Plains Cotton Growers, Inc., Lubbock.

However Johnson cautions this does not indicate any let-up in the determination of USDA officials to get productive land taken out of production under the program.

The requirement that land set aside or diverted from crop production be land with average capacity to produce crops is nothing new. The same requirement was a part of regulations under the programs of the last five years. But enforcement of the rule, USDA says, is more urgent, and consequently will be more strict, under the current law.

Under the Agriculture Act of 1965, USDA had marketing quotas and overplanting penalties which to regulate production of the various commodities. But these were done away with in the 1970 Act, and set-aside acreage—which takes out of production a percentage of total cropland and places no further restrictions on planting—is now the only tool available for controlling production. So, USDA officials reason, if the program is to be successful, land used for set-aside must be land that otherwise would produce an average crop.

"It is this feeling in the department," Johnson notes, "that has led to set-aside eligibility rules designed to 'tighten up' that part of the program. But there is no reason the regulations, as now interpreted, cannot be administered by County ASCS Committees in a manner that will not cause undue hardship on any producer."

Philosopher Comes Up With Some Odd Statistics On World's Telephone Conversations

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw wanders around through some statistics this week).

Dear editor:

It's not very important, but I was reading in a newspaper last night that there are now 255,200,000 telephones in the world.

Furthermore, as you might guess, nearly half of those, or 114,798,000, are in the United States. We've got one phone for every two people.

But what interested me was Alexander Graham Bell was 29 years of age when the telephone was patented.

a further breakdown in the statistics, reporting that people in the United States last year made 156,450,000,000 phone calls. If you lost track of the zeroes, that's over 156 billion calls.

Moreover, that comes out to an average of 745 telephone conversations for each man, woman, and child, the report said.

Now considering the fact a lot of people don't talk on the phone at all, like infants, and a lot don't have access to

Martin County Farm News

As the rules now read, any land on the farm may be designated as set-aside, except lake bottoms, turnrows, drainage ditches, waterways, areas used to store machinery, or building sites. However if the land set aside is not average productive land that would be expected to produce as many pounds of cotton or bushels of grain as the land actually planted to crops in 1971, government payments will be reduced.

If less productive land is used for set-aside a yield will be established for the set-aside acreage, and the payment reduction will be figured on the difference between the farm's payment yield and the set-aside yield. For cotton the "penalty" will be five cents per pound times the difference between payment yield and set-aside yield, times the number of acres set aside.

County offices are sending out newsletters explaining the full regulations, with examples, and Johnson said, "If producers will check carefully with County ASCS Committees before making final decisions, the rules on set-aside eligibility should cause no great problem."

phones for long hours at a time, like farmers and laborers and bus drivers, etc., plus the fact a lot of people don't even have phones, you can see that some segments of the society are making a whole lot more than 745 phone calls a year. To get up to that 156 billion calls, somebody has to talk at least 10,000 times a year, or an average of about 30 times a day.

I can believe it, I'm not calling any names, but I can believe it.

Just to be doing, I figured up how much the world is paying for its 255,200,000 telephones, more or less. Just say the average phone costs a flat \$5 a month. That's \$1,266,000,000 a month, or \$15,192,000,000 a year, not counting long distance calls. When you add

Seminar To Be Held At Midland

Land and leasing fundamentals will be the subject of a seminar to be presented by the Permian Basin Graduate Center at 7 p.m., March 24, in Midland High School.

Instructors for the session will be Malcolm Brenneman, Ed B. White, and Louis S. Torrans, all veteran landmen.

Brenneman, former geologist with Stanolind, and a landman for 16 years with Union Oil Co. of California, will discuss the history of land ownership. He holds a degree in geology from Texas Tech University.

Torrans, who has been a landman with Lone Star Producing Co. for 25 years, will cover how rights-of-way are obtained for oil and gas exploration.

White, an independent who formerly was district landman with Union Oil Co. of California, will cover methods of obtaining drilling rights.

Registration for the session—which is a part of the PBGC's continuing Geological Management Development program—may be made through the Midland office of the Permian Basin Graduate Center, 105 Gulf Building. Fee is \$20.

Pine trees are less likely to be struck by lightning because their resin interferes with their conducting of electricity.

A cat's whiskers are delicate sense organs which help him find his way about.

long distance charges, I'd say it's costing the world something around 30 billion dollars a year to talk.

I started to figure up how much truth is transmitted in those 30 billion dollars worth of calls a year, but I never was any good at small fractions.

Yours faithfully,

OUR SOIL ★ OUR STRENGTH
MARTIN-HOWARD-MIDLAND SOIL CONSERVATION - SOIL CONSERVATION - DISTRICT NEWS

In the first year of a new decade, the Soil Conservation Service assisted a growing number of units of government in coping with town and county growth and land use change.

The conservation principles that benefit farm, ranch, and forest lands are proving equally effective for resources in residential, industrial, transportation, fish and wildlife, and recreation uses.

New emphasis was placed in fiscal year 1970 on efforts to plan conservation action on an areawide basis, to improve the quality of living, and increase job opportunities in rural communities, and to implement the growing desire to Americans to keep their Nation beautiful.

Meanwhile, requests for technical assistance on farms and ranches remained at high

levels from rural and suburban land owners and users in 3,026 local conservation districts.

By the end of fiscal year 1970 the districts had 2.2 million cooperators who were applying and maintaining soil and water conservation.

With the number of area grass fires lately, farmers and ranchers should think about the benefits of a fire break to protect their grassland. Most farmers and ranchers already have the equipment to construct a suitable fire break.

They can be constructed by plowing or grading to remove all of the vegetation for a minimum of 6 feet in width, 8 to 10 feet wide is more effective in controlling grass fires. A good fire break could easily mean the difference in profit or loss.

Clean-Up Campaign Needed

Abandoned Autos — Old Houses, Garbage — Menace To Health And Safety

The subject of ecology is one that has gained widespread recognition in recent years . . . we hear much of our "environmental crisis," pollution of air, streams, damage done to our wild life . . . according to some reports practically everything is now being polluted in one way or another.

While much of the problem, and it is a very real danger, is nationwide and there seems little that the average person can really do about it, there is much that we can do on the local level.

Ecology is not confined to air and stream pollution alone . . . but also encompasses the befouling of our immediate surroundings . . . either by plain old fashioned litter or the mountains of junk heaps that are growing all across the land as more and more old cars are abandoned and left sitting to rust and become the home of mosquitos or snakes.

We were invited to take a ride with Stanton Police Chief Rogers the other morning to see some of the junk cars that are sitting in Stanton, and were literally amazed at the number that we saw. Some of these wrecks appeared to have been sitting untouched for years, and while the unattractiveness of the old autos does not lend itself to a image of a clean attractive city the dangers created by the old wrecks are far greater than the mere ugliness of them.

Chief Rogers said they are an ideal breeding ground for mosquitoes, and snakes particularly like to make their homes among the old wrecks.

And old autos are not the only wrecks sitting around, we saw many old shacks that must surely have been without occupants for a good many years. Again, these are the favorite breeding ground for insects and disease. They stand as an open invitation for some small child to wander into, searching for a hideaway, unawares of the potential danger that lurks among the rotting and decaying structures.

This kind of "ecology," these conditions in Stanton . . . this is something that we can all do something about.

Chief Rogers has said that the city has made a start in the removal of the old cars, but that many of them cannot be removed until the owners of them can be located and sign a release permitting the city to haul them away, Rogers said, "Anyone who has an old car that they want hauled away, all they have to do is to call us and we'll see that the wreck is removed."

As for the old remains of what once passed for housing, perhaps the fire department could have some practice drills in burning these to the ground . . . with the owners permission of course. In the minal analysis thought, it is up to each of us as individuals to do our part in removing these blights from the community. Owners of property on which some of these old buildings are standing should be contacted concerning their removal . . . maybe a work force of volunteers would be willing to tear down one building at a time as a way toward starting a community-wide involvement.

And finally, while driving around with the chief, we saw just plain old litter . . . garbage if you will . . . just dumped any old place and left for the wind to gather into its arms and deposit some place else, many times miles from the spot where the original culprit left it. It seems hard to believe that people actually just dump their trash and garbage where ever there is a likely spot when there is a dump a short drive from downtown. I know there is garbage pickup in Stanton . . . so anyone who just dumps refuse without regard to the other residents of the community should be caught and sentenced to some time spent cleaning up the mess.

What we feel is needed is a city wide clean-up campaign encompassing all aspects of civic life . . . home . . . business . . . church . . . schools . . . and vacant lots. We'll be glad to join in.

THE STANTON REPORTER, THURSDAY, MAR. 25, 1971—7

Wind Cause Buff Golfers Troubles At Crane Match

"We had a bad day," Coach Burns said, "the winds were causing all kinds of problems for us."

The individuals golfers scores would seem to bear out Coach Burns statement as the Buffs were defeated by the Crane link team last Saturday.

Individual Stanton scores: A team Gary Henson 106, Marc Briggs 95, David Dillard 102, Steve Douglas 106; George Dean 107. B team: Jim Dean

111, Marc Eiland 118, and Randy Lambert 109.

Team standings after three weeks of play sees Big Lake in first place with a composite score of 943, followed by

Ozona 952, Crane 993, McCamey 1036, Coahoma 1158, and Stanton 1187.

This Saturday the team travels to Coahoma for another round of district action.

Stanton Jr. Relays Slated For Friday

A preview of the April 3rd Junior High District Meet will get underway this Friday in Stanton, beginning at 12:30. This marks the start of the Stanton Junior Relays, and all district teams will be entered in the meet.

Crane and McCamey are considered the teams to beat this week-end with both boasting a strong junior track entourage. Both 7th and 8th graders will be participating in the event, which will see 10 teams entered. Teams are: Crane, McCamey, Rankin, Forsan, Coahoma, Greenwood, Grady, Ozona, Big Lake, and Stanton.

Leading off the meeting will be the 440 relay, followed by the 660 yard run. Other events scheduled are: 120 low hurdles, 75 yard dash, 330 yard dash, 70 yard high hurdles, 100 yard dash, 880 relay. Field events include shot putt, discus, broad jump, high jump, and pole vault.

Finals will begin at 4:30, with presentation of awards set for 7:30 p.m.

PARTNERSHIP TOURNAMENT WINNERS—Winners of the Martin County Club Partnership Tournament held last weekend at the club are shown above. From left to right, Ray Bluhm, B. A. Brunson, Marvin Williams, and Ted Gross. All are from Big Spring. The four men tied over regulation play and the team of Williams-Gross won the championship in sudden death extra hole play.

Track Team Last In Relays

Stanton's track Buffaloes, struggling to get a track program started here, finished a distant last in the West Texas Relays held last week-end at Odessa.

The Buffs managed only seven points in Division II competition, coming on Glen Ray placing in the high and intermediate hurdles, and Alex Rios chipping in 2 points.

This week the track team has an open week-end.

Division II scoring at Odessa: Crane, 130; Marfa, 78; Denver City, 67; Alpine, 56; Phillips, 47; McCamey, 46; Jal. N. M., 35; Coahoma, 19; Eunice, N. M., 10, and Stanton, 7.

Smith-Deavenport Down Colorado City Netters

There's only two of them, but from the way they are playing it might be enough.

Tommy Deavenport and Jackie Smith compose the entire Stanton tennis team, and so far this year they have been more than the match for their opponents.

Last week-end the two journeyed to Colorado City, and swept all the matches. Though outnumbered, and having to play more than one game, Smith and Deavenport were able to overcome all the oppo-

sition that Colorado City could muster.

Smith, playing two opponents, downed Kinarr 4-6, 6-0, 6-2. He then took on Reynolds and beat him 10-8.

Deavenport had an even busier afternoon, meeting

three players, and winning all three matches.

First he downed Gary 6-3 and 6-1, next it was Deavenport over Hill, 6-1 and 6-2, and finally Tommy beat Colorado City's Ellis 8-0.

Quite an accomplishment for the two Stanton youths.

Junior High Teams Perform Well At Crane Meeting

Stanton's Junior Buffaloes made the long 100 mile trip to Crane last Friday to participate in the meet there. Both the seventh and eighth graders made the trip, and according to Coach Bethell did well against tough competition.

Coach Bethell said, "while we did not score as many points as in the meet last week at McCamey, all the boys who ran bettered there time."

Scoring points for Stanton were: Vernon Brown, 2nd in the 70 yard high hurdles, and 4th in the long jump; Johnny Gonzales, 3rd in the 660 yard

run. The eighth graders scored a total of 18 points.

Seventh graders scoring were: Salvador, 4th in the long jump, and Elvin, 5th in long jump, and 2nd in the 220 yard low hurdles. The seventh grade relay teams placed 5th

in the 880, and 6th in the 440 yard relays. Team total points for the first year track team was 19.

Both seventh and eighth graders are working hard this week in anticipation of the meet to be held here.

William Howard Taft was the first U. S. president to receive a salary of \$75,000 a year.

A man whose normal weight is 160 pounds would weigh about 50 pounds if all the water in his system were dried up.

Big Spring Team Wins Stanton Tournament

It took two holes of sudden death play to determine the winner of the 1971 Stanton Partnership tournament played last week-end at the local course.

At the end of the 36 hole event Ray Bluhm and his partner B. A. Brunson were tied with Marvin Williams and Ted Gross at 148. It took only the above mentioned two holes for the team of Williams and Gross to emerge victorious and receive the \$50 worth of merchandise that went to the winners. Both the teams are from Big Spring.

Tied for fourth with a total score of 150 were three teams, including Gilbreath-Hopkins, Young-Brummer, and Oldaker-Delay. These teams also played a sudden death match to determine the final standing in the championship flight.

Rounding out the top teams were: Tuttle-Roberts, 3rd, 149; Davis-Allen, 152.

First flight winners were Jerry Clements and John Disoway, runner up; Troy White, and B. Howard; 3rd, Norris Womack and Dan Wilkins; 4th, D. Fisher and Dennis

The Washington Monument is 555 feet high.

Wong, used by at least 150,000,000 Chinese, is the world's most common family name.

Noah Webster began writing dictionary in 1807 and finished it in 1828.

Henkell. Second flight results: James Biggs and Delbert Hopper, first; John Pickering and Joe Williamson, 2nd; Ronnie Ward-Bob Emerson, 3rd, Larry Freeman-Buddy Orrell, 4th.

Third flight placers: Hubert Gregg-Benny Welch, first; L. Henson-J. D. Poe, 2nd; Weatherbee-Mattlock, 3rd, and L.

D. Snell-Bobby Howard, 4th. Fourth flight: Jim Lewallen-Wayne Sandel, first; Don Tollison - S. Howard, runner up; Winslow - Herzog 3rd, and Glen Linder - Bob Costy, 4th.

Bob Haislip, one of the tournament directors said there were a total of 49 teams entered this year, up from last year's figure.
