L. D. SNELL

L. D. Snell is also running for office the first time. He is a farmer and life long resident of Martin County. Married with three children, two in school. In commenting on his reasons for seeking election, Snell said, "I just wanted to help if I can, and to give the voter a choice in this election." Snell said asked about how he viewed the present school conditions, "I think they are in excellent shape, and the administration and faculty are doing a good job."

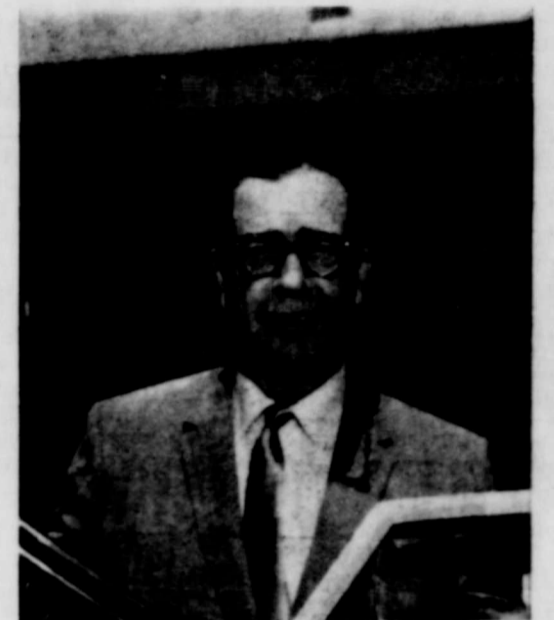

DELBERT DICKENSON

Delbert Dickenson, age 38, married with three school age children. A native of Martin County, this is his first attempt at public office. Dickenson said, "Our first consideration should be to the kids. We must give them the best education possible, and I can see where there can be some improvement in our schools." When asked why he was seeking election to the school board, Dickenson said, "I feel that we owe it to our kids to provide them with the best."

FINLEY RHODES

Finley Rhodes, a Stanton resident since 1924, is the second person running for the city commission. Rhodes is a retired auto dealer, having operated the Dodge dealership in Stanton for 29 years prior to selling. He served on the city commission for six years in the 1950's. He gave as his reason for running again, "Needed someone to fill position, and the best way to get things done is to help."

CECIL BRIDGES

A long time resident of Stanton, Bridges retired last year after serving many years as local manager for Texas Electric Service. Long active in numerous civic affairs, this is his first time running for a political office. Bridges said, "In seeking a position on the Stanton City Commission I felt that if I could help the city in any way, it was an obligation that must be done either by me or someone else as we all owe it to our community to do our utmost to help."

C. E. BUTLER

(Not available for photo)

Also seeking election to the Stanton School Board of C. E. Butler, resident of Stanton. Butler was not available for a photograph. He is presently serving on the board, having been appointed to fill a nunexpired vacancy.

These Things We Note

By ED FIEL

The secret of contentment is knowing how to enjoy what you have, and to be able to lose all desire for things you can't get.

Do you ever get the feeling that we're being sold down the river? You watch and listen to the antics of the crowd in Washington, and it is sort of reminiscent of the late 1930's... the clamor to end the draft... set a deadline for the withdrawal from Vietnam... the constant downgrading of the defense 'establishment', with the accompanying call for less defense spending... the utter nonsense that pours out of the mouths of Senators like Fulbright, Hatfield, McGovern... makes you wonder if there ever is going to be any light at the end of the tunnel.

I'd have hated to be in Highway Patrolman Wade Turner's shoes Sunday. It seems that some snakes, mostly rattlers, were in the back of a pickup in burlap bags being returned to Big Spring, when some of the snakes got loose when the truck stopped in Odessa. The occupants of the pickup had stopped to visit a snake handler who was in the hospital in Odessa being treated for snake bite, when the snakes got loose. One four and one-half foot rattler was found near a sidewalk at the Medical Center Hospital in Odessa, and returned to captivity. Turner, of Stanton, was notified that the pickup was coming his way, and stopped the vehicle in Stanton. "I approached the pickup with extreme cautions, and asked the driver if he knew the snakes were loose," Turner said. None of the creatures was reported to be on the loose in Stanton.

As a Yankee Rebel land we have had some mighty interesting experiences, and sometimes some not so interesting. For instance... one of the boys came home from school one day last week, and said that his teacher told him she felt sorry for us for having lived in Oregon. Well... I'm not sure if he got it straight or not, but anyhow... if you want to feel sorry for us for coming from the Northwest... it's ok with me. But, before you do... how does ocean fishing in the morning, and then skiing in the afternoon sound. Well, we could do this... living among (Continued on page 6)

Tech Coach To Speak— All-Sports Banquet Set For April 19

Stanton High School's annual All-Sports Banquet will be held on April 19, at the high school cafeteria. This annual event is held to honor all boys and girls who have participated in sports the past year.

Guest speaker for this year's banquet will be Marshall Taylor, assistant football coach at Texas Tech University.

Taylor is a native of Winchester, Tennessee, where he attended high school, and participated in football and baseball. He attended Tennessee

Taylor, and was an outstanding football and baseball player.

He began his coaching career on the high school level, and coached high school athletics for four years before returning to Tennessee Tech as a coach.

Taylor spent four years as offensive end and flanker back coach at West Virginia, under Coach Jim Carlen, and when Carlen accepted the head coaches job at Texas Tech, Taylor came to Texas with him.

All Stanton athletes will be introduced at the banquet by

their respective coaches. Special recognition will go to the boys who were named outstanding players during the past football season.

Those honored will be the outstanding back and lineman for each individual football game, and they will be presented with special awards. Also due special recognition are those athletes who have gained all-district recognition.

Tickets for the annual event are available from any Buffalo Booster Club member, at the high school, or from the athletes.

Stanton Cleaners Change Owners

Claude and Gene Nowlin recently purchased the Stanton Cleaners from Lula Black Berry and Bob Latimer. The Nowlins will take over operation of the cleaning firm April 1.

They will employ Mrs. Virgie Johnson and Mrs. Erma Rich on the presses, and Mrs. W. E. Lowery to help with alterations.

The Nowlins reside at 308 N. St. Peter, and have two daughters, Shirley, who is married to Courtney Clements, Pasadena, Texas, and Claudene Marrice, who is married to Nolan Sorrells, Fayetteville, Ark. They have two granddaughters, and three grandsons.

Claude was formerly employed by Alsip Chevrolet Co., and Gene at Louder Electric.

Stanton FFA Wins Again Will Enter State Meet

Stanton FFA won the Sweepstakes Trophy at the 23rd Abilene Christian College Judging Contest held last week-end, by winning the land judging and range and pasture judging team, and having a livestock judging team entered. Points are awarded by giving 10 points for first place, and one point for 10th place, in each of the three divisions of the ACC Judging Contest. By winning two of the three divisions, Stanton FFA accumulated 20 points to win the Sweepstakes Award.

Individuals from the Stanton FFA chapter winning awards were: Ricky Mims, 1st

in land judging; Mark Hursh, 2nd in land; Lynn Romine, 3rd in range and pasture; Gary Posey, 4th in range, and Jackie Rudd, 8th high individual in range and pasture judging.

A second range team composed of Gary Henson, Steve Wood, Dennis Ireton, and George Prado, placed 10th in team standings.

The land team included Ricky Mims, Mark Hursh, Roy Kelly, and Dennis Jones.

By winning at ACC, the land team won Area II in land judging, and will join the Stanton FFA range and pasture team that won Area II last week at

the Sweetwater contest. They will enter the State Judging Contest at Tarleton State College on April 22.

Members of the winning range and pasture team were: Gary Posey, Lynn Romine, Jackie Rudd, and Brad Hull. Members of the livestock judging team at ACC included: Steve Fryar, Theodore Wells, Clint Creech, and Willie Wells.

By placing in the top five teams at Tarleton State on April 23, the land and range judging teams can qualify for the National Land and Range Contest held at Oklahoma City the last week in April.

Flower Grove Students Makes Good Record

Eight of the nine Flower Grove Secondary School science projects which were entered in the Lamesa Science Fair on March 2-3, qualified for participation in the Regional Science Fair, which is to be held in Odessa on April 2-3.

In the Senior Division, Chemistry, Janet Simmons' project on the "Formation of Helicites," received a first place rating. Ratings in the Zoology division were as follows:

First places went to Deana Holcomb, for her "Cattle Grubs" project, and to Cyndie Mullins, whose project was "Drug Effects in Daphnia." Second place went to Linda Langston for her study on "ESP," while the "Mastitis" project of Dan Hightower received a third division rating.

Nancy Pribyla's plant study, Jay Mullins "Biodegradable Soaps," and Leatrice Glazes' "Plant Pollution," projects received a first, a second, and a third rating, respectively.

The Earth Science project entitled "Survival in the Desert," won Charles Hightower a first place ribbon.

In the Elementary Division, Doug Cockrell's home-made telescope received a second place rating, while Ricky Hightower's "Doorbell Wiring," and Gary Webb's home-made telegraph, each received third place ratings.

Sponsor of the high school students is Ted Gates, and elementary school students is Mrs. Karl Kitto.

Dr Pepper Acquires Consolidated Beverages

John Pillans, president of Consolidated Beverages of Big Spring, bottlers and distributors of 7-Up, Big Red, Frosty Root Beer, and others, announced that a contract was signed whereby Tri-City Dr Pepper Bottling Company of Stanton, will acquire the majority interest in Consolidated Beverages, Incorporated.

Controlling interest in the company — which has facilities and equipment valued in excess of \$300,000 — was acquired for an undisclosed cash sum.

The officers of Tri-City Dr Pepper Bottling Company are: George Wm. Berry, president;

Ed M. Hall, executive vice president and general manager; Tom Craddock, vice president, and J. Coley Cowden, secretary-treasurer.

Tri-City Bottling Company and Consolidated Beverages market their products in Howard, Glasscock, Martin, Dawson, Borden, Midland, Ector, Crane, and Andrews counties. The combined companies have plants in Big Spring and Stanton, warehouses in Midland and Lamesa.

John Pillans will become vice president and marketing director of the combined operations. The plants will remain in Big Spring and Stanton.

Candidates Seek Election For Grady District

Five candidates have announced for the two positions open on the Grady School Board.

They are: Eddy Odom, O. V. Glaze, Jr., Bailey Ellyson, Charles Blakes, and Charles McKaskle.

Declining to seek re-election are: Lynn Henson, and Malcolm Tunnell. The two vacancies are for a full term of three years.

H. D. Howard is seeking the unexpired one year term that is open at Grady. The polls will open at 8:00 a.m. and close at 7:00 p.m. on April 3, at the Grady School.

Honor Roll For Stanton Junior High Announced

Jim Conners, principal of Stanton Junior High School, has announced the honor roll. Eighth Grade: Karen Anderson, Peggy Barnes, Gordon Eiland, James Franks, Johnny Gonzales, Minda Haislip, Susie Hopkins, Malicia Hursh, Ann Saunders, and Karla Gregg.

Seventh Grade: Ray Avery, Randy Conner, Joanna Haggard, Gary Hanson, Terry Kelly, Joe Mims, Tanya Ray, Cecilia Reyna, Devin Shoemaker, Terry Turner, John Yates, Lisa Zuck, and Jeanne Villa. Sixth Grade: Russell Conner, Scott Creech, Pam Holcomb, Jill Hughes, Kenneth McAllister, Susan Stallings, Carolyn (Continued on page 6)

U.S. Smelting Staked Site For 10,000 Foot Test

U. S. Smelting, Refining & Mining of Salt Lake City, staked site for a 10,000-foot exploratory test in west Martin County. It is No. 1 Sharbauer. Drill site is 933 feet from north and east lines of labor 19, league 323, LaSalle CSL survey, seven miles northwest of Tarzan, and four miles southwest of the Lenorah, West (Dean) field.

Operators completed two projects in Martin County's part of the Spraberry Trend Area.

Adobe Oil Co. No. 1 Dawkins, 1/2-mile south offset to the nearest producer, finished to flow 241 barrels of 39.8-gravity oil per day, through a 16-64-inch choke, with gas-oil ratio measuring 817-1.

Production was through perforations between 8,089-8,968 feet, which had been acidized with 2,000 gallons, and fractured with 80,000 gallons and 240,000 pounds of sand.

Location is 1,320 feet from north and west lines of section 40, block 36, T-2-N, T&P survey, one mile west of Lenorah.

Kelly Bell No. 1 Howell, finished to flow 259 barrels of 39-gravity oil per day, through a 10-64-inch choke, and perforations at 8,225-8,927 feet, which had been acidized with 2,500 gallons, and fractured

with 90,000 gallons and 180,000 pounds of sand.

Well site is also located 1/2 mile south of production, and spots 1,320 feet from north and 1,060 feet from west lines of section 34, block 38, T-2-N, T-2-N, T&P survey, 18 miles northwest of Stanton.

Four new sites have been planned in the Martin County part of the Spraberry Trend Area.

John L. Cox of Midland, staked site for No. 2 Nettle Hale, a 9,400-foot project, 2 1/2 miles southwest of the nearest production in the area.

Location is 1,320 feet from north and east lines of section 4, block 38, T-2-N, T&P survey, five miles southwest of Tarzan.

Cox's No. 2-B Lois Madison, slated to 9,200 feet, spots 1,320 feet from south and west lines of section 28, block 37, T-2-N, T&P survey, two miles southeast of Tarzan.

The same operator's No. 2 Millhollon Trust is slated to 8,500-feet, and is one mile southwest in an east extension area, 3 1/2 miles east of Stanton.

Drill site is 1,980 feet from south and west lines of section 9, block 34, T-1-S, T&P survey. Kelly Bell of Midland, announced site for the fourth project, No. 1 Callaway, 1/2

mile north of Lenorah townsite, and 1/2 mile south of the nearest completed well.

Slated for 9,200 feet, it spots 1,320 feet from south and west lines of section 34, block 36, T-2-N, T&P survey.

G. E. Kadane & Sons of Wichita Falls, has set 5 1/2-inch casing at 8,485 feet, on total depth, of 7,515 feet, for completion attempt at No. 1 Morgan Ranch, Howard County wildcat, five miles southeast of Big Spring, and five miles southwest of the Hutto, South multipay field, but separated by failures.

It indicated Leonard production with the recovery of 70 feet of mud-cut oil and 1,005 feet of free oil on a drill-stem test taken from 6,686-6,740 feet, on which the tool was open two hours.

Earlier, a 45-minute drill-stem test between 6,168-6,247 feet recovered five feet of drilling mud.

Operator was preparing to test the Wolfcamp prior to making production tests in the Leonard. No tests were taken in the Wolfcamp during drilling operations.

It spots 1,980 feet from north and east lines of section 27, block 32, T-1-S, T&P survey. Operator was moving in company tools at No. 1 Plana-

Kin Of Stanton Resident Dies

Lora Mabel Fleming, 71, a resident of May for the past 11 years, died at 9:05 p.m. Saturday as the result of a heart attack.

Services were held at 3 p.m. Monday, March 29, at the Higginbotham Funeral Chapel in Rising Star, with burial in the Pioneer Cemetery.

Mrs. Fleming was born June 24, 1899, in Corbin.

Surviving her are five children, Mrs. Lavern Hood, Callie R. Fleming, and Sammie Fleming, all of Snyder, Mrs. Johnny Conner, Stanton, and Mrs. B. O. Allen, May. She also leaves a brother, Eddie Crass, Dallas; two sisters, Mrs. Thurman Baun, and Mrs. Ike Low, Stanton; 10 grandchildren, and two great-grandchildren.

Country roads are almost always sixty-six feet wide because that was the width of the original surveyor's chain.

"Gat," the slang word for gun, comes from the Gatling gun which was used before the modern machine gun.

Grady Organizes Girls 4-H Club

Girls of the Grady area met Friday, March 26, to organize a 4-H Club. Mrs. Mildred Elland, county home demonstration agent, outlined 4-H activities, and the purpose of 4-H.

Officers elected were: Jana Wood, president; Debbie Hildreth, vice president; Tahita Blake, secretary; Teena Davenport, reporter; and Kathryn Springer, council delegate.

Leaders are: Mrs. C. E. Airdhart, Mrs. Walter Hildreth, Mrs. Glen Douglas, Mrs. Hubert Hale, Mrs. J. T. Springer, and Mrs. Charles Blake.

Meetings will be held each first and third Friday afternoon at the Grady School.

Social Security Officer Here

A representative of the Big Spring Social Security Office will be in Stanton on April 26th, May 24th, and June 28th, to help assist any person who may be interested in applying for benefits, get a social security number, or to answer any questions concerning the social security laws.

The representative will be in the County Judges office at the Court House from 2:00 p.m. until 3:00 p.m. on the

Both the sea horse and the chameleon can move one eye without moving the other, and they can move both eyes in opposite directions.

Local News In Brief

On Wednesday, March 24 Mr. and Mrs. Ben Carbin, Balboa Island, Calif., and Mr. and Mrs. Robins, San Clements, Calif., were guests of Mr. and Mrs. Leo Turner. Mr. Carbin was born and raised here, and the couples were on a three-month tour of the United States, and Canada.

A salad supper was held in the United Methodist Church Fellowship Hall Monday evening at 6 p.m., in honor of Ed Robb, evangelist, and Gene Moore, vocalist and pianist, the visiting ministers for the Crusade for Christ being held here this week.

Davey Driver, son of Mrs. Judy Nutt, had surgery March 28 at Hogan-Malone Hospital in Big Spring. He was released from the hospital Friday, March 26, and is reported as doing fine.

Davey is the grandson of Mr. and Mrs. Elmo Pinkerton.

Pug Deavenport, daughter of Mr. and Mrs. Bob Deavenport, is at home with her parents during spring vacation. She is a student at McMurry College in Abilene, where she is editor of the "War Whoop" college paper.

David Pinkerton underwent surgery March 24, at Hogan-Malone Hospital in Big Spring. He is reported as doing fine, and may be released this week.

Miss Sammie Laws underwent surgery on March 25, at Parkview Hospital, Midland. She is reported as doing fine, but will probably remain in the hospital for about another week.

Southside Scale Steppers Met Mar. 25

The Southside Scale Steppers met last Thursday, March 25, at the day care center. Mrs. David Young, president, presided. The meeting was called to order with a moment of silent prayer. The minutes of the previous meeting were read and approved. Miss Ola Scurlark led the Pledge of Allegiance to the Flag.

The members weighed in, and the total weight loss was 15 pounds. Last month's winners were treated to a salad supper of green salad, deviled eggs, and jello.

The ladies meet every Thursday evening at 7 p.m., and anyone interested is welcome to attend. The club has ten members at the present time, who attend regularly.

Guar—Possible New Crop For Southwest Texas Area

Farmers in southwest Texas have been expressing interest in possibilities of growing guar. The name is pronounced as if it were spelled GWA-HA. The crop has been grown in India for many years, and was first introduced into the U. S. by the USDA in 1903. Beginning with World War II interest in guar production increased, and in recent years has received wide interest on the Rolling Plains of Texas.

Guar belongs to the legume family, which means that it is related to alfalfa. This suggests that it should be a soil-improving crop, and this is correct. The crop is known to scientists by the jaw-breaking name of *Cyamopsis tetragonoloba*. Anyway, it is a summer-growing annual legume.

The plant height will range from about two feet to four and one-half feet. It has a rather heavy but hollow central stalk. The leaves somewhat resemble a blackeye cowpea in shape, but are smaller and have a wavy margin. They are not fuzzy or hairy like

beans, have a bluish-green cast, and when young are quite glossy.

The small flowers, which are borne in clusters of the cut in axils of the leaves, are followed by pods (as are all legumes) varying from one and one-half to two inches in length. Each pod, if properly formed, bears from six to nine seeds. The seeds are grayish buff in color, about the size of wheat, but flattened on sides and ends, very hard, and have a rough gritty surface. Guar produces a distinct taproot which penetrates even heavy soils deeply in search of moisture and plant food.

Guar is grown in Texas primarily for seed production. There are two companies currently buying and processing seed in the state. Guar flour is the source of mannogalactan gum which is used in the paper industry. In the food industry, guar flour is used as a stabilizing agent in cheese spreads, salad dressings, and ice cream mixes. Guar products are also used in the textile industry, and in the pharmaceutical industry.

On April 5, 6, and 7, meetings will be held in the El Paso area, the Pecos area, and the Midland area, to discuss possibilities for guar production. Farmers with an interest in the possibility of guar production should plan to attend one of these meetings.

Tax Man Sam Sez:

The Internal Revenue Service is noted for being an efficient collection organization, but they are also in the book and publication business on a big scale. The leading book they sell (as a service—not for profit) is "Your Federal Income Tax." At 75c it continues to be an annual best seller. A companion publication is the "Tax Guide for Small Business," which also sells for 75c.

When you know that the common 1040 income tax for-

ms and the accompanying schedules are printed in the hundreds of millions, you have to realize that the IRS printing job is a big one. IRS has several hundred free publications that discuss various tax problems. They have an estimated 6,500 different forms, instructions and publications to cover the complex tax laws. Every day they have to throw away several tax forms that have been made obsolete by a change in the law, regulations, or by court decision. Just be thankful you only have to fill out a few pages of forms for your individual income tax return. A lot of other folks have to fill out quite a few more.

At Texas Electric, People Power is at your service.

Can one of our air conditioning specialists help you?

We can't sell you any air conditioning equipment. Or install it. Or service it. Because our business doesn't include doing any of these. Our business is selling electricity. And we want you to get the most value from every dollar's worth you buy from us.

This means helping you get maximum comfort from the equipment you buy from your dealer. And at the lowest operating cost.

This is why we have people in the company who specialize in air conditioning. People

you can call and ask for tips on how to operate your air conditioning equipment with the greatest efficiency.

Building or remodeling? Then an air conditioning specialist at Texas Electric can give you really helpful facts and advice, whether you're considering refrigerated window units or a central installation.

He can tell you about the kinds and amount of insulation you need to help your equipment do a better, easier job. Fill you in on all the various types of equipment. And estimate your operating costs.

If you wish, he will be pleased to consult with the contractor of your choice in planning your air conditioning system.

There is no charge for our help. It's yours for the asking. At Texas Electric, People Power is at your service.

OUR SOIL ★ OUR STRENGTH

MARTIN-HOWARD-MIDLAND SOIL CONSERVATION - SOIL CONSERVATION - DISTRICT NEWS

This is the time of the year when farmers are watering to start this year's crops, and planning their irrigation operation. This brings up the question of irrigation water management, which simply means using the available water to get the best returns for each inch of water pumped, and each dollar spent.

It is an established fact that pre-plant irrigation pays more dollar returns per dollar invested. In pre-planting irrigation, land should be brought to field capacity, or to the depth that planned crops will be able to use the moisture during the growing season.

Deep soils can store more water than shallow soils, hence six to eight inches of water can be stored in deep soils, while shallow soils may only hold four to six inches of moisture.

Time is also important in irrigation water management. We have until about the first of June to apply base moisture. After crops are growing, soil moisture should not get below 40 to 50 percent of water holding capacity in the

effective root zone of crop being watered. Without this precaution, maximum return cannot be obtained. If base moisture is good, only one or two inches of water may be needed the first watering. As crops grow, their need for water increases, therefore each watering will need to be increased. This will increase through the peak use period which will be during July-August, depending on the season. Considering these facts, two or three times as many acres can be pre-watered than could be irrigated during the peak use period. Some farmers may need to pre-plant irrigate as many acres as possible, and reduce the irrigated acreage during the peak use period based on moisture need and effective rainfall. Water conservation should be practiced by everyone, especially the irrigated farmer.

SCS technicians assisting the Martin - Howard - Midland Soil and Water Conservation District, can provide assistance in checking and organizing any irrigationsystem for maximum efficiency.

should be doubly watched for the flies, warns veterinarians in charge of the screwworm eradication program. Form samples from every animal infestation should be sent to the Mission Lab for positive identification.

Hog Cholera — A 60-day restriction on movement of swine in Texas was ordered on Tuesday by the Texas Animal Health Commission in an effort to control hog cholera. The order becomes effective on March 29, and the movement of all feeder and breeder swine within the state will be allowed only by permit issued after inspection of the herd from which they originate. Slaughter swine may be consigned directly to livestock markets for sale or slaughter, or directly to slaughter houses.

Something To Think About — The American Dairy Association says that by the time he is 70, the average American will have used 26 million tons of water, 10,000 pounds of meat, 14 tons of milk and cream, 9,000 pounds of wheat and other great quantities of products from the earth. And who says agriculture is a declining industry?

Philosopher Takes A Long and Confused Look At The Big ST Airplane Argument

(Editor's note: The Martin County Philosopher on a grass farm on Mustang now reacts in his own way to the controversy over the personie Transport this week).

oh, I know it'd go 1800 miles an hour and would get people from New York to Paris 4 hours quicker than they can go now but that wouldn't do any good.

Although I'm not clear in my mind what the canceled ST jet airplane was for —

still I have been following

the debate in Congress as close as I could, what with there not being many interesting sports events on television now anyway, and political scandals in the papers are so frequent they're becoming monotonous.

I'll admit I've never been able to understand the financial part of it, like why the government should pay a private company to make an airplane to sell to private airlines to haul private passengers in, and even less have I been able to understand why a private company would un-

dertake the job on the impractical hope that Congress wouldn't change its mind half-way through its financing of the project. You'd think people running a big company like that would have more knowledge of Congressmen.

There are a lot of things about government I don't understand.

Yours faithfully,
J. A.

Wedding rings are placed on the third finger of the left hand because of an old Egyptian belief that a nerve ran from that finger to the heart.

County Easter Seal Campaign Going Well

Martin County's Easter Seal representative reported today that the 1971 Easter Seal Appeal of the Easter Seal Society for Crippled Children and Adults is going well. Mr. R. O. Anderson serves as Easter Seal Appeal treasurer for Martin County.

The 1971 Easter Seal Appeal will finance the Easter Seal Society's rehabilitation program for crippled children and adults in Texas. Last year the society helped over 21,000 disabled persons through its program of assistance in finding

and making effective use of services for the disabled and their families.

The Easter Seal Society helps support 20 treatment facilities in Texas where children and adults are treated, regardless of ability to pay. These centers offer physical therapy, medical diagnosis, speech and hearing programs, and related services to help the disabled build happier and more useful lives.

As Easter Seal representative, Mr. Anderson is the person to contact for services

4-H Food Show

Martin County 4-H Food Show will be held Saturday, April 3, in the Reddy Room of the Texas Electric 4-H girls will have their exhibits set-up, and ready to be judged by 10:00 a.m.

Exhibits will be opened to the public at 11:00 a.m. Awards will be made following the judging.

A Morganatic marriage occurs between a person of royal family and a commoner.

Beta Sigma Phi News

Xi Epsilon Delta Chapter of Beta Sigma Phi met for a called meeting March 25, at the home of president, Allie Anderson. The purpose of the meeting was the election of officers, and the selection of a candidate for the Lions' Queen Contest. The regular meeting, which was to have

from the Easter Seal Society. When contacted for services, Mr. Anderson will request the Easter Seal Society to investigate the needs of the disabled person, and will ask that society advise the handicapped person of the best resources available to help him.

He added that contributions to the Easter Seal Appeal should be sent to him as soon as possible, as the 1971 appeal ends Easter Sunday, April 11.

on April 1, will be made up of the following officers were elected to serve for the coming year: president, Edith Chaulk; vice president, La Powell; secretary, Cora Manning; treasurer, Thine Obera Angel. The other delegates to City Council are outgoing and the incoming presidents.

Vera McMeans, daughter of Mr. and Mrs. Russell McMeans, was chosen to represent the Chapter in the Lions' Queen Contest.

The following members were present: Cora Manning, Vera Angel, Lois Powell, Bert Schwalbe, Georgia McMean, Margie Ireton, Thine Ory, Edith Chaulk, and Allie Anderson.

The word "spud" for potatoes comes from an old organization called "Society for the Prevention of Unwholesome Diet."

Postage stamp glue is made from talc.

Seventh Grade Fourth, Eighth Grade Fifth

Stanton Jr. High Relays—Big Success

The weather was perfect for the first annual Stanton Junior Relays held last Friday at Stanton High.

Good crowds were on hand to watch the seventh and eighth graders perform, and they witnessed a fine effort on the part of all those involved.

This being the first time the event was held all times will go into the books as records. Many good performances were turned in by the youngsters, and some of the times set may be on the books for several years.

Coach Bethell, commenting on the meet, said, "Our kids did pretty good, although I felt they could have done better. Our times were the best of any junior competition we have had this year."

The annual event took the combined effort of all the Stanton athletic coaches, as well as many private citizens in readying the track for the meet, and serving as judges for the various events.

Crane captured the eighth grade trophy with a total of 103 points, followed by Coahoma 96, McCamey 73, Ozona 64, Stanton 51, and Big Lake with 41.

Leading the ten team field in the seventh grade division was Coahoma fifth, 130 points. Next came Crane 108, Big Lake 82, and Stanton 45.

Ten teams were entered in the event, and the Stanton coaches hope this annual relay will grow in size, and many feel that it could be the start of the turning around of Stanton's athletic fortunes.

Team totals and individual results:

SEVENTH GRADE

Team totals: Stanton, 45; McCamey, 31; Coahoma, 130; Big Lake, 82; Crane, 108; Ozona, 4; Forsan, 2; Rankin, 44; Grady, 17, and Greenwood, 0.

Team standings: 1. Coahoma; 2. Crane; 3. Big Lake; 4. Stanton; 5. Rankin, and 6. McCamey.

RESULTS

440 Yard Relay: 1. Crane, 47.4; 2. Big Lake, ; 3. Grady; 4. Stanton, and 5. McCamey 6.

660 Yard Dash: 1. Carrisco, Crane, 1:41.7; 2. Rodriguez, Coahoma; 3. Gutierrez, McCamey; 4. Ashley, Coahoma; 5. Cole, Rankin, and 6. Barrera, Grady.

12 Yard LH: 1. Brown, Stanton, 16.7; 2. Tindal, Coahoma; 3. Cole, Rankin; 4. Watson, Crane; 5. Feuge, Rankin, and 6. Perry, Ozona.

75 Yard Dash: 1. Ruiz, Coahoma, 9.3; 2. Reed, Big Lake; 3. Turner, Rankin; 4. Edmondson, Coahoma; 5. Smith, Big

Lakes, and 6. Rangel, Grady.

330 Yard Dash: 1. Pettis, McCamey, 40.4; 2. Patterson, Coahoma; 3. Edens, Coahoma; 4. Neal, Crane; 5. Rangel, Grady, and 6. Ramirez, Ozona.

70 Yard HH: 1. Jones, Big Lake; 2. Tindal, Coahoma; 3. Padron, Coahoma; 4. E. Padron, Stanton; 5. Roseberry Crane, and 6. Harris, Stanton.

100 Yard Dash: 1. Rodriguez Coahoma, 11.4; 2. Turner, Rankin; 3. Edmondson, Coahoma; 4. Robles, Big Lake; 5. Tindal, Coahoma, and 6. Tunnell, Grady.

880 Yard Relay: 1. Big Lake, 1:54.1; 2. Coahoma; 3. Crane; 4. Stanton; 5. McCamey, and 6. Ozona.

Discus: 1. Ybarry, Big Lake, 97' 7"; 2. Martinez, Coahoma; 3. Stone, Crane; 4. Ruiz, Coahoma; 5. Bedwell, Forsan, and 6. Jacobs, Coahoma.

High Jump: 1. Neal, Crane, 5' 0"; 2. Cole, Rankin; 3. Hogan, Crane; 4. Collier, Coahoma; 5. Scott, McCamey, and 6. New, Coahoma.

Long Jump: 1. Neal, Crane, 16' 3"; 2. Rodriguez, Coahoma; 3. Reed, Big Lake; 4. Pettis, McCamey; 5. Brown, Stanton, and 6. Watson, Crane.

Shot Put: 1. Carrisco, Crane, 34' 2"; C. Martinez, Coahoma; 3. Cole, Rankin; 4. Smith, Big Lake; 5. Ybera, Big Lake, and 6. Pettis, McCamey.

Pole Vault: 1. Stoudville, Crane, 7' 9"; 2. Kelly, Stanton; 3. Turner, Rankin; 4. Padron, Stanton; 5. Marshall, Crane, and 6. Fulcher, Crane.

EIGHTH GRADE

Team Totals: Stanton 51; McCamey, 73; Coahoma, 96; Big Lake, 41; Crane, 103; Ozona, 64; Forsan, 30; Rankin, 7; Grady, 0 and Greenwood, 0.

Team Standings: 1. Crane; 2. Coahoma; 3. McCamey, 4. Ozona; 5. Stanton, and 6. Big Lake

RESULTS

440 Yard Relay: 1. Crane, 48.6; 2. Big Lake; 3. Stanton; 4. Ozona; 5. Coahoma, and 6. Rankin.

660 Yard Run: 1. Ford, Crane, 1:38.0; 2. Martinez, Ozona; 3. Gonzales, Stanton; 4. Newton, Coahoma; 5. Segrest Coahoma, and 6. Gonzales, Ozona.

120 Yard LH: 1. Franko, McCamey, 15.5; 2. Ford, Crane; 3. Bean, Ozona; 4. Brown, Stanton; 5. Meacham, Coahoma, and 6. Eiland, Stanton.

75 Yard Dash: 1. Hickman, Crane, 8.5; 2. Crane, Coahoma; 3. Martinez, McCamey; 4. Moreno, Forsan; 5. Castillo, Big Lake, and 6. Crowder, Ozona.

330 Yard Dash: 1. Cervantez, Ozona, 39.5; 2. Norred, Crane; 3. Hinojosa, Coahoma; 4. Reyes, Ozona; 5. Martinez, Ozona, and 6. Balen, McCamey.

Big Lake, and 6. Tindal, Coahoma.

High Jump: 1. Ford Crane, 5' 4"; 2. Bayes, Coahoma; 3. Pherigo, Coahoma; 4. Montaga McCamey; 5. Bean, Ozona; and 6. Franco, Ozona.

Long Jump: Soles, Forsan, 16' 3"; 2. Brown, Stanton; 3. Hernandez, Stanton; 4. Castillo, Big Lake; 5. Mahino, Forsan, and 6. Ford, Crane.

Shot Put: 1. Taylor, McCamey, 47' 2 1/2"; 2. Choate, Coahoma; 3. Thurman, Crane; 4. Sales, Forsan; 5. Brown, Stanton, and 6. Gomez, Coahoma.

Pole Vault: 1. Perryman, McCamey, 9' 9"; 2. Lane, Crane; 3. Segrest, Coahoma; 4. Bayes, Coahoma; 5. Hickman, Crane, and 6. Copeland, Rankin.

WAITING FOR THE START—These junior high boys are practicing this week for the District track meet to be held this week-end. This week's meet marks the end of the season for the junior high boys.

Stanton Golfers Miss Match

Stanton's golf team, didn't win last week-end, but they didn't lose either.

Reason for it was the team missed the scheduled match at Ozona. The match was originally set for Saturday, the 27th, but was switched to Friday, and the local team wasn't notified in time to make it.

Participate In AAU Tourney

Tommy Glynn, sophomore letterman, and David Jones, sophomore, two year letterman at Howard Payne College, Brownwood, were among the players winning the national AAU basketball consolation championship at Columbia, S. C., last year. They will be taking part in the national meet again this year at London, Ky.

Tommy is the son of Mr. and Mrs. George Glynn, and David is the son of Mr. and Mrs. Hebrew Jones, both of Stanton.

A Short Report

By E. L. SHORT

The Legislature is hearing and will be debating soon, issues of the following bills:

In order to raise money, a bill is proposed for one penny for every check that is written in Texas.

Another is the transaction tax, whereas anything that changes hands for money would be a transaction. For instance, a bill of groceries, a home, a car, a farm, or anything else that you buy would be declared a transaction.

In our area, requests for extension services appropriations that the county agents and home demonstration agents can use for 4-H programs.

Also, for the experimental stations at Lubbock to initiate new programs on cotton, milo, and other crops.

Also, money to fund certain expenses in the Soil Conservation Programs by the directors.

Soon, the House will act on the Senate version of the Ethics Bill. This bill not only includes legislators, but every elected public official in Texas.

The Senate has passed to the House for action on liquor

by the drink.

Redistricting is of extreme importance in the rural areas of Texas. Our 73rd District is short 14,000 people. This means our district will either be separated and put in with other districts, or it will be left as it is and will include parts of Ector, Midland, or Howard counties on the south, or, it will include some areas to the north of the 73rd District, which might be part of Lubbock or Terry counties.

To exempt Texas from Daylight Savings Time failed in the House, and is a dead issue without two-thirds majority. To pass this bill will be impossible unless the people of Texas flood the Legislators' mailboxes with their protests.

The Abortion Laws of Texas have been declared by the courts, unconstitutional, and some type of Abortion Bill will have to pass in this session.

Programs like drugs and sex education will be taken up during the session. I welcome your viewpoints, and inquiries on any of these issues.

Radium is 3,000 times as valuable as gold.

The head on a sphinx is that of a woman.

To get your second wind means that the body has become adjusted to the need for more oxygen.

As far as the Constitution is concerned, a woman can be elected to the U. S. Presidency.

When filled with hot water, thick glass will crack more quickly than a thin one.

NOTICE

Stanton school will take a holiday next week. School will be dismissed on April 7th, 8th, 9th, and 12th, for annual Spring vacation.

NOTICE

Stanton School Board will hold their next meeting on Monday, April 5th. This meeting will take the place of the one originally scheduled for April 12th.

The Gulf Ports Agricultural Export Association (GPAEA) was formed in 1969 by a group of cotton, grain, and rice growers to do whatever possible to avert the tremendous and often irreparable losses that accrue to agriculture as the result of dock strikes at Texas Gulf ports.

The group launched a campaign to secure congressional intervention in the longest and most costly Gulf Ports shut-down in history, which lasted 105 days from December through March in 1968-69. Congress did not act, but grain interests identified with the fledgling organization formed independent stevedoring companies, which negotiated breakaway agreements with the union, and these are credited with "breaking the strike's back."

In 1971, the existing contract between the West Gulf division of the International Longshoremen's Association (ILA) and the West Gulf Maritime Association (WGMA) expires September 30. And if a 22-year pattern is not broken, there will be a strike.

ILA represents unions from Lake Charles, La., to Brownsville. WGMA represents ship

owners, steamship agents, and stevedoring companies in the same ports. The ILA has called a strike at the expiration of every contract since 1948.

On seven occasions in the past the President has invoked the national emergency provisions of the Taft-Hartly Act. But President Nixon has served notice that this administration will not use this labor law in the event of a strike this year. In all but one of the previous injunctive proceedings, the ILA resumed its strike after the termination of the 80-day court-ordered "cooling off period." The last three strikes have stopped exports and imports at gulf ports for 34, 54, and 105 days, respectively.

Immediate losses to agriculture and to exporters of agricultural products from the 1968-69 strike are estimated at around \$100 million in delays and storage fees alone. Texas ports account for more than three-quarters of all cotton

U. S. . . .

(Continued from page 1) 1-S, T&P survey. Contract depth is 6,500 feet.

The Midland, Southwest multipay oil and gas field of Midland County gained its second Devonian gas producer and location east extension to the zone, and its third Fusselman oil well and a location east and north spread for that horizon with dual completion of Hanson Oil Corp. of Roswell, N. M., No. 1 W. H. Butler.

From the Devonian, it finished for a calculated, absolute open flow of 1.1 million cubic feet of gas per day, with gas-liquid ratio of 6,915-1. Condensate gravity was 51.5 degrees. Production was through perforations at 11,888-11,951 feet, which had been acidized with 5,000 gallons and fractured with 42,756 gallons and 64,150 pounds.

From the Fusselman zone, it finished to flow 240 barrels of 51-gravity oil per day, through a 26-64-inch choke, and perforations from 12,522-12,544 feet, which had been acidized with 5,500 gallons. Gas-oil ratio was not reported.

Drilled to 12,960 feet, and plugged back to 12,880 feet, it has 7-inch casing set on bottom.

It also tested through Ellenburger perforations at 12,928-12,949 feet.

Location is 660 feet from south and 1,320 feet from west lines of section 5, block 39, T-3-S, T&P survey, one mile southwest of Midland.

The Devonian opener, Chevron Oil Co. No. 1 J. E. Simms, was finished March 9, 1964, for a calculated, absolute open flow of 2.9 million cubic feet of gas daily, through perforations at 11,820-11,890 feet, and was dually completed from the Fusselman oil pay.

North American Royalties, Inc. of Midland, plans No. 1-44 Judkins Estate as a 1/2-mile northwest offset to Devonian gas production in the Azalea multipay oil and gas field of Midland County.

Drill site for the project, which is slated to 11,800 feet, is 1,200 feet from south and 1,918 feet from east lines of section 44, block 37, T-3-S, T&P survey, 17 miles southeast of Midland.

Tesoro Petroleum Corp. of San Antonio, completed no 2-29 F. W. Henson in Midland County to pump 40 barrels of 36.4-gravity oil per day, with gas-oil ratio measuring 1,227-1.

Production was through perforations between 8,352-8,510 feet, which had been acidized with 1,000 gallons and fractured with 40,000 gallons and 80,000 pounds of sand.

Well site is located 1/2 mile north in an east extension area, and spots 1,331 feet from north in an east extension lines of section 29, block 36, T-2-S, T&P survey, 12 miles southeast of Midland.

Texaco Inc. plans to re-enter and plug back to 11,878 feet at No. 3-A Midland Fee, former Ellenburger and Wolfcamp producer, for recompletion attempt as a fifth Devonian gas producer, and location east extension to that pay in the War-San multipay field of Midland County.

It spots 2,634 feet from north and 1,980 feet from west lines of section 39, block 41, T-3-S, T&P survey, 17 miles southeast of Odessa.

Deavenport's

exports in a normal year, and the prolonged stoppage of cotton shipments cost producers their market for over 500,000 bales in 1968-69. U. S. cotton customers turned to man-made fibers, and to cotton from other countries when they could not get delivery on U. S. cotton. And some of these customers will never be back.

This year, according to Cotton Fanning, executive assistant of Lubbock-based Plains Cotton Growers, Inc., and a director of GPAEA, the organization is beginning its anti-strike efforts early.

GPAEA directors and members met in Houston March 19, and formally called on Congress to enact "legislation requiring compulsory arbitration and/or prohibition of strikes involving the transportation industry."

A resolution was passed also asking that contract negotiations begin immediately and in earnest, and that "at least three months prior to the expiration of the current contract all unresolved issues be laid open for the public to view and understand."

Fanning noted that cotton interests, in their struggle to retain markets in the face of heavy competition from foreign powers and man-made fibers, are among the biggest losers when dock strikes block the ability to make timely deliveries. "When a foreign customer is forced to turn to another fiber or to another country for his fiber requirements, it is sometimes impossible to bring him back to the U. S. as a cotton customer," he said.

A primary issue in contract negotiations this year, as before, will be the union's demand for "job security" in the form of a guaranteed annual wage. The union is seeking

NOTICE

The free immunization clinic that was scheduled for April 7, has been changed to April 5, between 4-6 p.m.

Our present calendar was brought into use by Pope Gregory XIII in 1582.

A parsec is an astronomical unit of measure nineteen billion miles long.

Stamp collecting puts a premium on poor printing since a blot, blur, or misprint increases the value of a stamp to collectors.

protection against the labor-saving impact of automation, containerization, and new ship types, such as barge carriers.

Thomas Gleason, president of ILA's West Gulf division, has been quoted as saying the union this year will settle for nothing less than a guaranteed annual wage. Speaking of new and innovative methods of moving cargo, Gleason said they "have the potential of reducing the day's work to 15 minutes."

The GPAEA is supported by membership dues ranging from \$10 a year for an individual, up to \$250 per year for agriculture-related organizations. Fanning said additional information on GPAEA activities and membership could be obtained from Plains Cotton Growers by writing GPAEA, P. O. Box 627, Galena Park, Texas.

Stanton Cleaners

Under New Management

We recently purchased the Stanton Cleaners and extend an invitation to our friends, regular customers of the shop, and Martin Countians to see us for your dry cleaning needs. Your continued patronage will be appreciated.
