Philosopher Has Some Questions About A New Truth-In-Advertising Rule

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw, discusses potatoes and politicians this week, we believe).

Dear editor:

According to an article I read in a newspaper the other day, and am just now getting to thinking about, the Food and Drug Administration in Washington has come out with a new truth-in-labeling rule.

Under it, if a grocery store advertising Idaho potatoes, for example, those potatoes have to come from Idaho, Louisiana hot sauce has to come from Louisiana, etc. Can't be selling Arkansas potatoes in an Idaho sack, or Idaho in an Arkansas sack. This rule was demanded by either the potato or the sack people, I don't know which.

I guess there's some point to this, although it's impossible for me to tell where a potato came from, or the gravy's made right. As for Louisiana hot sauce, it's all that you're used to, I guess, as the people in Chicago say about their mayor.

However, this truth-in-labeling can be carried too far. For example, if you think right hard you probably can think of one or two people acting as Congressmen who are clearly mis-labeled. Is the Food and Drug Administration coming out with a rule against this?

Of course you might argue the Food and Drug Administration is talking only about items that are for sale, but it's entirely possible those Congressmen could meet those terms too. Or take come State Legislature . . . but I won't get into that. When a man makes his point he ought to stop and leave something for his readers to fill in on their own.

Come to think of it, how about cafes that serve home-cooked meals a mile from any home? And won't Boston-baked beans get mighty cold if they're served in Stanton. Not even a super-sonic plane we can't afford could get them here that fast.

Rules sometimes get pretty complicated. I believe in truth in advertising all right, but if the next step is to require complete truth in Congressmen, for example, or complete truth in people, you've got a mighty unwieldy job on your hands.

Yours faithfully,
 J. A.

Directors of Cotton Incorporated (formerly Cotton Products Institute), five of them from the Texas High Plains, met June 1 and 2 in maximum utilization of apartment funds for the 1971-72 ximately \$20 million in cotton research and market development funds for the 1917-72 year.

The \$20 million for this year is almost exactly twice the amount available to Cotton, Inc., annually since passage of the Cotton Research and Promotion Act in 1966. Under that act cotton producers each year have invested \$1 per bale in production and utilization research, advertising and promotion of their fiber. The average per year has been around \$10 million.

Until recently there were widespread doubt as to how, when, and even if, the authorized money would be forth-

coming. But the course of events in Washington over the past few days virtually assures that the CCC Board will approve procedures for transferring \$10 million of federal funds to the Cotton Board for each of the years 1971, 1972, and 1973. The Cotton Board contracts with Cotton, Inc. for the planning and operation of research and market building projects.

The way has now been cleared for CCC to approve a plan advanced by the Cotton Board and Cotton, Inc. officials whereby up to \$10 million per year will be used to finance Cotton, Inc. projects as payment comes due.

J. D. Smith, of Littlefield, a director and past president of PCG, and one of five Cotton, Inc. directors from the Plains, said "Doubling the funds for Cotton Incorporated's work simply doubles the power under the hood of the vehicle through which we are

Farm And Ranch Review

- SOIL CONSERVATION - DISTRICT NEWS OUR SOIL ★ OUR STRENGTH

MARTIN-HOWARD-MIDLAND SOIL CONSERVATION

Livestock producers should check their rangeland and determine if there is a balance between livestock and forage. Overgrazed rangeland can only go one way—down.

The best indicator of range conditions is hay forage plants. The producer should check these plants and see if they are in balance with the number of livestock grazing them. The following steps are helpful in checking range conditions:

1. Do the plants appear healthy and vigorous?
2. Are the plants making growth in proportion to the amount of moisture received?
3. Are many seedstalks being produced?
4. Are there seedlings and young plants of the important forage plants?
5. Are the hay plants mov-

ing into the bare areas?

6. Is the litter building up to protect the soil from erosion, and to help hold moisture?

If the answer to all of these questions is yes, then the pasture is an indication of the hay forage plants. This is correct to a point, however, livestock can look good for a time after forage plants start to give out, and hay plants are weakened.

One of the most important decisions the rancher must make is the stocking rate. By stocking heavy, it may be possible to increase net income for a short time, but the hay plants will be damaged and total forage production will be lower. The end result will be lower stocking rates, and decreased net income in the future.

FHA News

By NANCY GLYNN

A party was held in honor of the seniors on Monday, May 31, in the homemaking department of the high school. It was also a surprise farewell party for Debbie and Diana Payne.

Those attending were Trina and Trica Shoemaker, Debbie and Diana Payne, Rhonda Kuhlman, Kathy Decker, Pam Hazelwood, Carol Smith, Darlynn Stewart, and Mrs. King, sponsor for FHA.

Officers of Future Homemakers of America are meeting every day this week to prepare for next year's work. Working on chapter and state degrees and Cheryl Bradshaw, Trica Shoemaker, Darlynn Stewart, Trina Shoemaker, Nancy Glynn, Judy Mims, and Diana Payne.

FARM FENCING SUGGESTIONS OFFERED

The annual cost of farm fencing can be reduced by advanced planning of exact location, type and quality of wire to use, size, and spacing of long-lasting posts, proper stretching and attachment.

Good fencing is safe for livestock, requires a minimum of maintenance, and improves the appearance of our farmland, says W. S. Allen, extension agricultural engineer.

A good land use plan will help determine where permanent fences should be placed. Unneeded fences can be eliminated, reducing maintenance cost, and improving land efficiency.

The site of the proposed fence should be cleared of all brush. Some grading of rough areas makes fencing easier, Allen said.

Measuring the fence line, and spotting locations for the brace units will help determine the correct number of brace posts and assembly units. The number of brace units should be adequate but not excessive, since they are the most costly unit in a fence.

Single and double brace units should be used according to the distance between braces. Single units are suitable up to 10 rods, and double units are to be used up to 40 rods.

Brace posts should be eight feet long and have a top diameter to five to six inches. They should be set three and a half feet in the ground. A four-inch round horizontal brace, eight feet long, is suggested.

A double strand number nine wire for the diagonal brace will give adequate strength, Allen said.

Line posts, in fences with adequate brace units, can be three to four inches at the top diameter and seven feet long. They should be set two to two and a half feet in the ground, and spaced 12 to 15 feet apart for woven or barbed wire fences.

Posts treated with a wood preservative should last more than 30 years, Allen noted, so wire quality should be selected with this life expectancy in mind.

For sheep and cattle, Allen recommends a combination woven and barbed wire fence. A 32-inch woven wire with two strands of barbed wire will give an economical four-foot high fence. A four-strand barbed wire fence is adequate for cattle.

A medium to heavy woven wire properly stretched will maintain its tightness for years. Most barbed wire is 12½ gauge with four or five points. Wire should be placed on the pasture side of the posts, Allen noted. However, when stretched around the curve, the wire should always be on the outside of the curve.

Best results will be obtained if the wire is cut wrapped around the post and spliced to itself at each brace unit. If this is done, the staples at the line posts should be driven firm to the wire, but not too tightly. The wire should be able to slide under the staple to allow for contraction or evening of tension should an animal run into it.

Numerous reports of cattle from emphysema of the lungs have been received by Texas Veterinary Medical Diagnostic Laboratory from different sections of the state during the past two weeks. While the disease is similar to the condition in humans, the cause is thought to be an allergic reaction to something the animals are eating. Most of the current cases are associated with the high protein constituents of young Bermuda grass pasture. A veterinarian should be called in for diagnosis and treatment suggestions if the disease is suspected.

Emergency Loans Available For Martin County Farmers

Farmers Home Administration State Director J. Lynn Futch announced that Martin, Andrews, Midland, and Ector Counties have been designated by the Secretary of Agriculture for the making of emergency loans to farmers and ranchers who have sustained substantial losses on account of the drought.

This designation continues in effect through June 30, 1972, and will authorize emergency loans to be made to those persons who suffered substantial losses from any adverse weather conditions, such as high winds, hail, or flood, that have occurred or might occur during the period of this designation.

Funds are available and applications for such loans may be made at the FHA

County Office located at 301 N. St. Mary, Stanton, Texas. Emergency loan funds are available, applications are being taken, and more money has been requested to combat the serious effects of the drought which grips Texas.

Lynn Futch, State Director of Farmers Home Administration said. President Nixon has asked Congress to add \$65 million to the fund from which FHA finances, its nationwide emergency farm loan program, Mr. Futch said.

The Farmers Home Administration has already made 503 emergency loans totaling \$15 million to farmers and ranchers in Texas to help them overcome the disastrous effects of the drought which has scorched parts of the state since the spring of 1970.

Emergency loans are made to enable farmers and ranchers to continue normal operations which have been disrupted by natural disasters. These loans previously were available in 53 Texas counties, and last month, the Secretary of Agriculture increased the number of 235 counties.

The impact of the drought has centered primarily in Texas and Oklahoma, but Mr. Futch said that emergency loans may be made outside of designated areas to eligible applicants who have suffered severe losses as a result of the

building a plant near Tarzan. We made the acquaintance of many area residents, T. Wheeler, Sr., and Jr., at Stanton Motor Co., Mr. Bob Deavenport, Deavenport's, and Chamber of Commerce. Mr. and Mrs. Bruce Key, farmer and director of the Chamber of Commerce. Mrs. Zimmerman of your County Library. Many others too numerous to mention here.

We have been moving around the country for many years, seldom have we been made to feel as welcome as we were in your area. Never were we treated as strangers. Whenever we have time to spare between locations it is our intention to come back and visit all of the nice people we met.

I know that you are new to the area also. I take the paper still, and keep up with 'happenings'. I like what you

Letter To The Editor

May 24, 1971

Mr. Ed Piel, Editor, The Stanton Reporter, Stanton, Texas 79782

Dear Mr. Piel: This letter is by way of 'Thank-you' to the people of Stanton, Tarzan area of Martin County.

It was our good fortune to live in your area for 10 months. My husband was employed by a construction company,

PRICE PER STAMP
Sincerely,
Jacky Ginnich,
Mr. and Mrs. B. L. Ginnich,
P. O. Box 316,
Angleton, Texas 77515.

Dear Editor:

I've just begun to receive my copy of the "Reporter," a surprise gift from my parents, Mr. and Mrs. Herman Lander, of Tarzan. I want to say it is a welcome item in my mail each week, and seems to somewhat shorten the miles separating me from home and family, and of course, old friends and acquaintances.

Mrs. Charles Wagner,
Harrisburg, Penna.

Trouble? C

There may come a need the help of a Texas Electric.

A troubleshooter is up in a hurry in a night—when you report a problem service.

Perhaps the lights flickering at the neighborhood. Or off at your home.

Call us, and one shooters will see on the line to electric service.

LACK OF NITROGEN OR IRON CAN YELLOW LAWNS

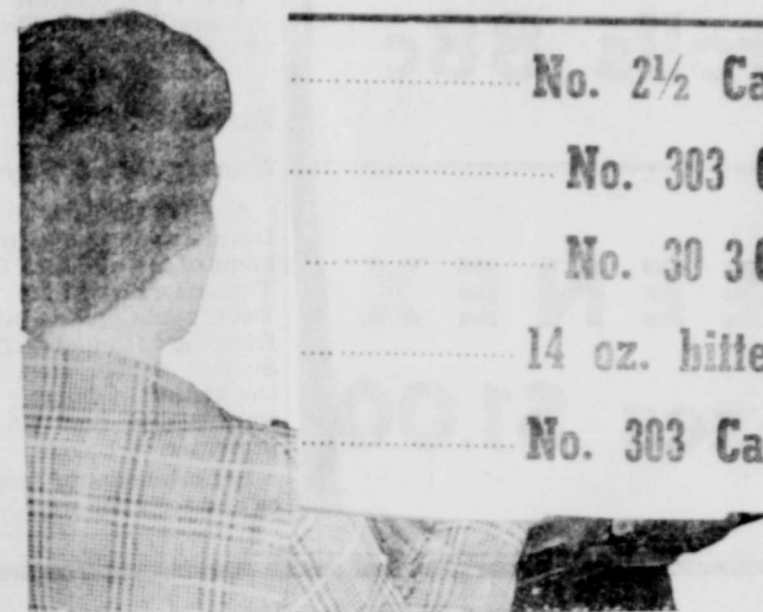

A deficiency of nitrogen can cause the grass in a lawn to take on a general yellowing appearance, says Al Novosad, extension pasture and turf specialist. Iron deficiency is characterized by yellow bleaching.

Other expenditures in the county were: Transportation, \$423,873; public safety, \$18,435; general government, \$2,940; and natural resources, \$18,884.

hed spots in the turf. Spray applications of iron chelates or iron sulfate are effective suggestions for the iron deficiencies. Early spring and fall applications of a balanced fertilizer plus ammonium nitrate or ammonium sulfate applications at 4 to 6 week intervals during the growing season should correct nitrogen deficiencies, says Novosad.

Stanton Garden Club Holds Spring Luncheon

The Stanton Garden Club met Wednesday, May 26, at 1 p.m. at the Belvue Restaurant for their spring luncheon. Mrs. W. T. Wells presided. Following the luncheon, new officers were installed by Mrs. James Eiland. New officers are: Mrs. Marie Wilson, president; Mrs. John Pinkston, first vice-president; Mrs. John Pinkston, second vice-president; Mrs. L. C. Hazelwood, secretary; Mrs. Guy Eiland, treasurer, and Mrs. Louise Tom, corresponding secretary.

Member present were: Mrs. Guy Eiland, Mrs. W. W. Clements, Mrs. James Jones, Mrs. Marie Wilson, Mrs. W. T. Wells, Mrs. John Pinkston, Mrs. L. C. Hazelwood, Mrs. Ray Kelly, and Mrs. AldiBibe Haislip.

Guests attending were Mrs. Eiland, and Mrs. Doyle Hughes.

The next meeting of the Garden Club will be held September 4 at 9:30 a.m.

Farewell Party Honors David Payne

A farewell party honoring David Payne was held at the home of Mr. and Mrs. Cox last Thursday, May 27 at 5:30 p.m. Twenty-one guests attended from the fifth and sixth grade Sunday School classes from the Methodist Church. Games were played and gifts were presented to David.

Refreshments of sandwiches and soda pop were served.

New Arrivals

Mr. and Mrs. Felix Aguirre, Box 244, Stanton, announce the arrival of a daughter, Lee Ann, on May 20, born at Medical-Arts Clinic Hospital, Big Spring. The infant weighs eight pounds, six ounces.

Congratulations to Mr. and Mrs. Allen Hill, Midland, on the birth of a son on May 30. They have named the infant, Jody Lyn, and he weighs seven pounds, six ounces.

Parents Attend Sons Graduation In Iowa

Mr. and Mrs. Delmar Hamm, Lenora, attended the graduation exercises of their son, Robert Dean Hamm, from Graceland College in Lamoni, Iowa, on May 23. Robert received his degree in Social Studies.

Mr. and Mrs. Hamm were accompanied by Danny Fryar, who spent several days visiting. Mr. and Mrs. Steve Church accompanied them as far as Kansas City, Mo., where they visited their son, Reggy Church and family.

"Good News" Is Coming!

Roiled stockings to spotlight sexy knees, hoop hoop a doop, crossword puzzles, and flagpole sitters, the mystery of the opening of King Tut's tomb; bring it all to life in memory at "Good News," the 25th anniversary production of the Midland Community Theatre. College life, and football hold center stage for the rollicking musical spoof of the Roaring '20s, by Laurence Schwab, B. G. DeSylva, Lew Brown, and Ray Henderson. The football hero flunks his astronomy test — surely dear old Alma Mater can't win the Big Game without him! The shy cousin of the Biggest Girl on Campus, offers her services as a tutor. Our Hero is so distracted by his pretty teacher that he barely passes the test, and he remains so piliated that during The Big Game — but that would be telling. The songs are a delightful blend of liveliness and nostalgia. "Varsity Drag," "The Best Things in Life are Free," "Lucky in Love," "You're the Cream in My Coffee," "Button Up Your Overcoat," and many others that are sure to bring a smile and perhaps a tear. Sure to bring a laugh, however, is a special movie sequence of The Big Game, complete with close-ups of familiar Midland faces in the crowd.

"Good News" was the first big musical hit for the team of DeSylva, Brown, and Henderson. Before 1925, DeSylva worked with George Gershwin. When Gershwin went independent, DeSylva was joined by Brown and Henderson. Many of their songs have become American classics: "Ala-

bamy Bound," "The Birth of the Blues," and dance craze "Black Bottom," and, of course, the Al Jolson standard, "Sonny Boy." Their lives were depicted in the 1956 movie "The Best Things in Life are Free."

"Good News" is being presented by Act IX, the Theatre's women's auxiliary, and Ham Hocks, the theatre's production volunteers. Pre-sale tickets will be available from any member of the Ham Hocks, or Act IX and can be turned in at the box office, which opens June 30, for reserved seats. Cost of each ticket is \$3.50. Regular performances are scheduled at Theatre Centre for the night of July 10, 16, 17, and curtain time is 8:30.

Theatre enthusiasts will have a special opportunity to honor Ruth and Art Cole, for their 25 years with the theatre at a benefit kick-off on the night of Friday, July 9. A cocktail buffet will be held at the Petroleum Club from 6:30-8:30, with a preview performance of "Good News" beginning at Theatre Center at 9:00. Dress for the event is black tie. Tickets are \$35.00 per couple. Those who wish to give more may join The Booster Club with reserved seats on the 50 yard line for \$100 per couple.

Members of the Steering Committee are: Mrs. Sam Bass, Art Cole, Mrs. Fred Durham, Mrs. Redfern Glenn, Ed Graczyk, Mrs. Dick Jacques, Bill Jowell, LaDoyce Lambert, Mrs. H. L. Landue, Jr., Frank Petty, and Mrs. Deane Stoltz. Mrs. Glenn is chairman for Act IX, assisted by Mrs. Durham (tickets), Mrs. Bill Gary (publicity), Mrs. Carlton Beal, Jr., and Mrs. Ed Harris, kick-off), Mrs. Jack Sayers, (house managers), Mrs. Pat Baskin (invitations), Mrs. Art Donnelly (kick-off tickets), and Mrs. Fred Kester (box office). Mrs. Jacques is chairman for the Ham Hocks, and Mrs. Bass is co-chairman. They are assisted by Dick Jacques, stage manager; Mr. and Mrs. Darryl Hobbs, lights), Mr. Petty (construction), Bob Scott (stage crew), and George Tomas, (special film effects.) Mrs. Jacques will produce the show, and Mr. Graczyk will design and direct.

So roll 'em girls, roll 'em and all you sheiks and shebas don your bell bottoms and silckers and come give MCT a rousing, cheering send-off on the years to come.

Local News In Brief

Last week, Mrs. Robert L. Motts, Pomona, California, spent several days visiting in the home of Mr. and Mrs. Glenn L. Brown. Mrs. Motts is Mrs. Brown's cousin.

Mr. and Mrs. Henry Pinkerton, Mrs. Wes Morgan, and Mrs. Herman Lander, Jr., spent Friday afternoon in Baling, visiting with Mrs. Morgan's daughter, Deborah Kay Martin. Friday evening they attended Deborah's graduation.

Elmo Pinkerton, who has been in the hospital here in Stanton for several weeks, was transferred to the Methodist Hospital in Houston on Thursday, May 27. He is in room 613C. He is currently being treated for hemorrhaging ulcers and hardening of the arteries. Further tests are being made on his heart.

Mr. and Mrs. P. M. Bristol spent last weekend in Dallas, visiting their daughter and son-in-law, Mr. and Mrs. Hughlyn Todd, and two granddaughters.

Robert Casella, Lubbock, was a guest in the home of Mr. and Mrs. George Dowden this past week-end. Robert is Darla Dowden's fiancé.

Also visiting in the home of Mr. and Mrs. George Dowden is Mr. Dowden's nephew, Rocky Wright from Overton.

Hospital News

Admissions from May 24 Through May 30:

May 24: Elise K. Jessen, Alvis Leon Smith, Styles; Maggie McIntosh; Alice Talley, Midland.

May 25: George Lewis Stewart.

Dismissals from May 24 Through May 30:

May 25: Linia Pollard.

May 26: Alice Talley; Edgar Baugh, and Elmo Pinkerton.

May 27: George Lewis Stewart.

May 30: Bobby L. Snodgrass; Juan Carlos Zalles; Sandra Hodge, and O. J. Jenkins.

tendants: On any given day, one and a half million Americans are patients in hospitals.

SHOWER HONORS SANDRA CHANDLER

A shower honoring Sandra Chandler, bride-elect of Johnny Louder, was held in the home of Mrs. J. Alex Haggard on Tuesday, May 25, between 4:00 and 5:30 p.m. Miss Chandler is the daughter of Mr. and Mrs. W. D. Chandler, Jr.

Hostesses for the affair were Miss Gayle Haggard, Miss Kay Lynn Hankins, and Miss Debra Holloway.

Decorations were yellow and white. The centerpiece was of daisies. Approximately twenty-five guests attended.

News Of Servicemen

Staff Sergeant L. E. Jones, son of Mr. and Mrs. Hebrew Jones of Stanton, is a member of the 35th Tactical Fighter Wing at Phan Rang AB, Vietnam, that has been honored by the Vietnamese Armed Forces.

The 35th has received the Vietnamese Cross of Gallantry with Palm for its contribution to the military forces and local citizenry of the country.

The wing, which operates F-100 Super Sabre fighter-bombers, was cited for flying more than 53,000 missions during a two-year period in support of U. S. and Vietnamese ground operations. The 35th was also recognized for its community service programs which included establishing a medical dispensary for treatment of villages and orphans in the area.

Sergeant Jones, a fuels supervisor, will wear a distinctive service ribbon to mark his affiliation with the unit.

The sergeant is a 1962 graduate of Carver Junior Senior High School, Midland. His wife is the former Betty M. Minnitt.

EIGHTH GRADE CLASS HONORED AT PARTY

The eighth grade class was honored with a party last Friday evening, May 28, following their graduation exercises in the home of Mr. and Mrs. Bob Cox.

Sandwiches and soda pop were served to those attending. Red and white carnation centerpiece decorated the table.

Hostesses for the party were Mrs. Charles Pinkerton, Mrs. Lewis Simonek, Mrs. John McIntyre, Mrs. Eldon Hopkins, Mrs. Hubert Gregg, Mrs. James Moore, Mrs. Jack Saunders, Mrs. Ronnie Glibreath, and Mrs. Bob Cox.

\$100.00 Reward Offered By Sweetwater CC

A reward of \$100.00 has been announced for the person catching the 53 pound yellow catfish released in Lake Sweetwater May 17. The reward is posted by the Sweetwater Chamber of Commerce.

The fish was caught in Lake Sweetwater May 12th, by Terry Boley, and is the largest recorded catch from this lake. Roy Linn, local game warden, suggested the fish was a "stocker," and if so, would be nine years old.

Fishing permits for Lake Sweetwater are \$5.00 per year for a family permit, \$1.00 per day for a family permit, and \$5.00 per day for an individual permit. Permits are available at Sportman's Landing, and the Golf Pro Shop at Lake Sweetwater, and at the City Hall in Sweetwater.

The promotion of this record catch and the posting of the \$100.00 prize are projects of the Tourism and Conventions Committee of the Sweetwater Chamber of Commerce. Jimmy Waddell is 1971 chairman of this committee.

 production in the Howard-Glascock field. It is No. 1 M. M. Edwards.

The project, surrounded by production in the Snyder (San Angelo) field, in which San Andres and Glorieta pays are depleted, spots 1,980 feet from south and 660 feet from east lines of section 32, block 30, T-1-S, T&P survey, 12 miles southeast of Coahoma.

Champlin Petroleum Corp. of Midland, has announced intention to re-enter and plug back to a shallower section at No. 1 L. R. Flanagan, opener and lone producer in the proposed Champlain (lower Wolfcamp, field of Howard County, four miles southeast of Big Spring.

It is one mile east of a recently completed Spraberry discovery in the area, and one 5/8 mile east of a dual Leonard and Wolfcamp pay opener, for which designation has not yet been granted by the Railroad Commission. Proposed plug back depth is 7,150 feet.

Location is 1,980 feet from north and 660 feet from west lines of section 25, block 32, T-1-S, T&P survey.

It finished May 4 to flow 235 barrels of 40.2-gravity oil daily, through a 1/4-inch choke and perforation at 8,024-8,053 feet.

The Wolfcamp and Leonard opener, G. E. Kadane & Sons, Wichita Falls, No. 1 Morgan Ranch, finished May 8 from the Wolfcamp for 57.60 barrels of 36.2-gravity oil, through perforations at 7,204-7,300 feet, and from the Leonard to pump 178.32 barrels of 34.4-gravity oil, through perforations at 6,704-6,725 feet. The Spraberry opener, Kadane's No. 1 Flanagan finished May 18 to pump 124 barrels of oil, and 19 barrels of water daily, through perforations at 5,855-5,880 feet.

The Schiemenz Spraberry) field of Howard County gained its second producer, and a 5/8-mile northeast extension with completion of Hanley Co. of Midland, No. 1 O. B. Gaskins, re-entry project, four miles southwest of Knott.

On 24-hour potential test, it finished to flow 135 barrels of 38.3-gravity oil, with gas-oil ratio of 634-1, through a 12-64-inch choke, and perforations at 7,874-8,093 feet, which had been acidized with 3,000 gallons, and fractured with 50,000 gallons and 190,000 pounds.

Originally drilled by Sheldon Petroleum Co. of Lubbock, and abandoned April 26 at 8,000 feet, it was deepened to 8,200 feet, and has 4 1/2-inch casing seated at 8,196 feet.

Location is 660 feet from south and east lines of section 41, block A, Bauer & Cochrill survey.

The Schiemenz field opener, C. R. Gallagher Jr. of Midland, No. 1 Free, finished March 18 to pump 150 barrels of oil daily, through perforations at 7,460-7,503 feet.

It's a fact

CLEOPATRA'S NEEDLE granite obelisk carved in 1600 B.C. was moved from Egypt to New York's Central Park in 1882.

88 YEARS of exposure to polluted air of New York did more damage to the obelisk-- eating off hieroglyphics on one side-- than was done in the 3,500 YEARS it stood in Egypt.

TO AVOID health hazards of air pollution more and more home owners are turning to mechanical filtration of air and electronic air cleaning to purify air inside their homes

 it out . . . but to go 119 miles in 70 minutes would certainly

mean you would have to drive faster than the legal limit of 75 miles per hour. Maybe they put those signs up just to make you feel like your getting somewhere on that conveyor belt.
