## Obituaries

### Mrs. Ivey Davis Stanton Rites Held

Mrs. Ivey Hightower Davis, 82, of Kingsville, died Sunday in a Midland hospital after a brief illness.

Services were held at 3 p.m. Tuesday, June 8, in the First Baptist Church, with burial in Evergreen Cemetery directed by Gilbreath Funeral Home.

Mrs. Davis was born June 20, 1888, in Franklin County, where she was married to James Stant Davis Oct. 3, 1909. He died April 11, 1936. She came to Martin County in 1934, and lived here 24 years before moving to Kingsville.

Survivors include two sons, Harold W. Davis of Pasadena, Texas, and Garnett Davis of Kingsville; two daughters, Mrs. Sepie D. Orren of Mt. Vernon, Texas, and Mrs. Dorothy D. Mashburn of Midland; two sisters, Mrs. L. H. White of Stanton, and Mrs. L. E. Williams of Dallas, seven grandchildren, and three great-grandchildren.

### Stanton Resident Dies In Andrews

Tony Joe Williams, 64-year-old Stanton resident, and former Midlander, died Sunday in an Andrews hospital.

Services were held at 10 a.m. Tuesday, June 8, in the Hubbard-Kelly Funeral Home in Odessa, with interment in Odessa's Sunset Memorial Gardens.

Born Feb. 1, 1907 in Belton, Williams was married to Priscilla Mae Grounds on July 25, 1932, at Jayton. A veteran of World War II, he was a member of the Westside Free Will Baptist Church in Midland, where he lived from 1940 until eight months ago when he moved to Stanton.

He is survived by his widow; three daughters, Charlotte Marie Williams of the home, Mrs. Martha Elledge of Odessa, and Mrs. Dorothy Leslie of Orange; three sons, J. D. Williams of Midland, Pervis Williams of Levelland, and Sidney Williams of Corpus Christi; his mother, Mrs. Katie Williams of Midland; two brothers, Holly Williams of Midland, and Dolly Williams of Clifton; 17 grandchildren, and 18 great-grandchildren.

### JUAN MARTINEZ DIES; RITES HELD

Funeral services for Juan Martinez, Sr., 76, of Mathis, were held at 11 a.m. Saturday at St. Joseph's Catholic Church here.

Interment was in St. Joseph's Cemetery under the direction of Gilbreath Funeral Home.

Mr. Martinez was born Dec. 12, 1894, in Beeville. He was a resident of Mathis.

Survivors include three sons, Juan Jr., currently serving in Vietnam; Leandro of Elvin, and Isabel of Spearman; four daughters, Mrs. Petra Lozano and Mrs. Virginia Reyes, both of Spearman; Mrs. Thomasita De La Cruz of Haskell, and Mrs. Elvira Gonzales of Mathis; one brother, Gregorio of Mathis, and 31 grandchildren.

### H. J. BARBEE'S HONORED AT TEA

Mr. and Mrs. H. J. Barbee were honored with a retirement and farewell tea on Sunday afternoon, May 30, in the home of Mr. and Mrs. James Eiland.

Hostesses for the tea were members of the adult Bible Class and Wesleyan Service Guild of the First United Methodist Church. Many friends and neighbors called.

Mr. and Mrs. Barbee were presented with a beautiful corsage and boutonniere, and an inspiring book entitled "Holy, Holy Land."

Out-of-town guests were the Barbee's daughter and family, Linda, Joe Don, Michael, and David DeWeese, of Fort Worth.

# Firm Charges Pipe Line Sabotage

## Martin May Be Included Craddick's House District

If a lawsuit filed Friday by State Rep. Tom Craddick of Midland is successful, Martin County will be included in Craddick's Texas House of Representative District.

The suit, filed in Midland's 142nd District Court, seeks to void the redistricting plan adopted last week in the waning days of the legislative session.

In that plan, part of Midland County would be included in District 66 composed of Brewster, Crane, Pecos, Terrell, and Upton counties. Another part of Midland County would be in District 71 composed of Glasscock, Mitchell, Nolan, Sterling, and part of Taylor counties.

In the suit, Craddick states Midland County is only 9,212 persons short of the ideal population of 74,646, which should be in each district.

He proposes that "Midland is contiguous of Martin County, having a population of 4,744 persons; Glasscock County, having a population of 1,155; Reagan County, having a population of 3,239, and Upton County, having a population of 4,697."

Craddick's proposal is that these counties be combined into a single member representative district.

The suit is styled Tom Crad-

dick, Robert.

Craddick is joined as plaintiff in the suit by Midland County Republican Chairman Robert L. Monaghan, Texas Republican Chairman George Willeford of Austin, and Midland County resident James L. Kent.

Named as defendants are Gov. Preston Smith, Atty. Gen. Crawford Martin, Secretary of State Martin Dies, Jr., State Democratic Chairman Dr. Eimer Baum, Midland County Clerk Rosenell Cherry, and Midland County Judge Barbara Culver.

Craddick terms the suit a "class action" to challenge House Bill 783—the redistricting bill.

He states, "that for a number of years Midland County has been a separate representative district, and presently is being represented in the Texas Legislature," by Craddick.

He alleges the bill for the first time, divides Midland County, and places it into two separate representative districts.

He charges the division of Midland County "clearly violates the provision of the Texas Constitution, which provides that when two or more counties are required to make up the ratio of representation,

such counties shall be contiguous to each other."

"The Attorney General of the State of Texas on May 19, 1965, specifically ruled that such constitutional provision required that counties be kept intact and their boundaries not be violated."

In the suit, Craddick asks that the redistricting law be declared unconstitutional, and that an injunction be granted "restraining and enjoining all defendants herein and their respective classes individually, and in their representative capacities together with their agents, officers, employees, and those persons in concert with them from conducting primaries or elections for members of the Texas House of Representatives under said House Bill 783."

Dist. Judge Perry D. Pickett of Midland, has not yet set a hearing on the case, and has indicated he can not do so until the redistricting bill is signed into law by Gov. Smith.

The suit was filed for Craddick by Duncan Boeckman of Dallas, legal council for the Republican Party of Texas. He was joined by Midland attorney Roy Laughlin, who is serving as local council in the case.

## Permian Basin Planning Commission Applies For \$20,000 Federal Grant

The Permian Basin Regional Planning Commission — formed last month with Martin County taking the lead — has applied for a \$20,000 federal grant, and will hold its next meeting June 15 in Stanton.

The federal grant is being sought in conjunction with a \$10,000 state government grant, which will match the \$10,000 in dues paid by member governments.

The Permian Basin Regional Planning Commission is a vehicle designed to foster cooperation between various governmental units in the 17-county Permian Basin area.

Under current by-laws, each

government in the Commission will pay 2.5 cents per person for the population it represents, except special district—school, hospital, soil and water conservation, etc. — which will play a flat rate of 550.

Next year, the dues will increase to five cents per person, and \$100 respectively.

One of the persons who worked most actively for establishment of the PBRPG was Judge Carol Yater of Martin County.

Judge Yater told The Stanton Reporter: "The Permian Basin Regional Planning Commission now is a reality."

"After many futile attempts

toward formation of a planning for our area, harmony was the format at the meeting held in Rankin last month. A sufficient number of governmental units have resolved to join the commission to insure enough representation for recognition (by the State of Texas)."

Judge Yater noted the original by-laws were ratified at the Rankin meeting.

"I believe this enhances our position in the commission due to the fact that each member governmental body will have one vote rather than the population ration type voting structure which was wanted by the higher popula-

## Collier Diamond C Oils Completes No. 1-A Lester Southeast Extension

Collier Diamond C Oils, Inc. of Fort Worth, completed No. 1-A Lester as a 1½-mile southeast extension to the Sulphur Draw (8,790 Dean) field of Martin County, 18 miles north of Stanton.

It finished to pump 10.44 barrels of 38.4-gravity oil, plus 35 barrels of water per day, with gas-oil ratio measuring 620-1.

Production was through perforations at 7,280-8,780 feet, which had been acidized with 6,000 gallons, and fractured with 140,000 gallons and 280,000 pounds. Drilled to 8,900 feet, it has 4½-inch casing set on bottom.

Location is 1,320 feet from north and west lines of section 12, block 36, T-2-N, T&P survey.

Anderson Oil & Gas Co. of Midland, completed No. 1 Nance as a 1½-mile northeast and two-mile east extension to the Sulphur Draw (8,790 Dean) field of Martin County, 20 miles north of Stanton.

Through perforations at 7,822-8,194 and 8,674-8,847 feet, which had been fractur-

ed with 110,000 gallons, and 220,000 pounds, it finished to pump 54 barrels of oil and 21 barrels of water per day. Gravity of the oil was 39.5 degrees, and gas-oil ratio measured 1,055-1.

The producer spots 1,320 feet from south and west lines of section 20, block 36, T-3-N, T&P survey, and is one mile east of production, which has been assigned to the Spraberry Trend Area.

The Spraberry Trend Area of Martin County gained six new extensions.

Adobe Oil Co. finished No. 1 Jones, a ½-mile south and east extension, to pump 230 barrels of 40.1-gravity oil and 10 barrels of water per day, through perforations at 7,966-8,990 feet after treatment with 2,000 gallon of acid, and 80,000 gallons and 240,000 pounds of fracture. Gas-oil ratio was 835-1.

Location is 1,320 feet from south and west lines of section 40, block 36, T-2-N, T&P survey, 1½ mile southwest of Lenorah.

Adobe's No. 1 Torr, ½ mile north and west extension, fin-

aled to pump 210 barrels of 39.8-gravity oil daily, plus 30 barrels of water, with gas-oil ratio of 450-1.

Production was through perforations at 8,130-9,114 feet, which had been acidized with 2,000 gallons, and fractured with 80,000 gallons and 240,000 pounds.

It spots 1,320 feet from north and east lines of section 20, block 36, T-2-N, T&P survey, three miles northwest of Lenorah.

John L. Cox of Midland, completed three extensions.

No. 1 Lacy finished to pump 144 barrels of 38-gravity oil and 14 barrels of water per day, through perforations at 8,365-9,099 feet. The section had been fractured with 80,000 gallons. Gas-oil ratio measured 635-1.

Location is 1,320 feet from north and east lines of section 30, block 36, T-2-N, T&P survey, three miles east of Tarzan.

No. 1 Millhollen Trust, four miles east of Stanton, completed to pump 109 barrels of 39-gravity oil and 11 barrels

### Stanton Junior High Honor Roll

The honor roll for Stanton Junior High was announced this week. They are as follows:

**Eighth Grade:** Karen Anderson, Peggy Barnes, Gordon Eiland, James Franks, Johnny Gonzales, Mindy Halslip, Susie Hopkins, Malissa Hursh, Ann Saunders, and Carla Gregg.

**Seventh Grade:** Ray Avery, Randy Conner, Joanna Haggard, Gary Hanson, Joe Mims, Tonya Ray, Kevin Shoemaker, Terry Turner, John Yater, and Lisa Zuck.

**Sixth Grade:** Russell Connor, Scott Creech, Pam Holcomb, Jill Hughes, Kenneth McAllister, Susan Stallings, Carolyn Woody, Ronda Gilbreath, Pam Mendenhill, Becky Lambert, Diana Scurlark, and Donna Hall.

**Fifth Grade:** Dee Dee Adkins, Wayne Atchison, Leann Biggs, Shelley Church, Robert Cox, Paiga Lou Eiland, Roy Madison, David Stroud, Bob Jones Dirk Perry, Rocky Bludworth, and Tami Briggs.

### Elementary School Honor Roll

The Elementary School honor roll has been announced. The students are as follows:

Mrs. LaRue Harrell's fourth grade: Kendell Blocker, Donita Douglass, Tony Henson, Cindy Herzog, and Tommy Morrow.

Mrs. Evelyn Lankford's fourth grade: Randy Turner, Karla Simpson, Mitch Elmore, Polly Lewis, Brenda Harrison, Charles Straub, Miles Tollison, and Todd Smith.

Mrs. Virginia Lile's third grade: Craig Martin, David Luna, Jose Perez, and Lana McKenzie.

Mrs. Mary Payne's third grade: Leah Flanagan, Denby Snell, and Kristi Turner.

Mrs. Augustine Epley's

third grade: Douglas Lambert, John Parker, and Craig Eiland.

Perfect attendance certificates were awarded to the following students, fourth grade: Loye Eubanks, Cindy Herzog, and Lanny Hanson; third grade: Jose Perez, and Jim Woody.

Mrs. Obera Gray's second grade: Rhonda Garcia.

Mrs. Mary Holcomb's second grade: Warren Scurlark, and Carrie Douglas.

Mrs. Barbara Burns' second grade: Carolyn Scurlark, Gib Wheeler, and Wayne Kargi.

Mrs. Willia Jo Petree's first grade: Lupe Sanchez.

Mrs. Johnnie Bess Bryan's first grade: Teressa Lynn Motley.

### Martin County Will Remain In 19th District

AUSTIN — Martin County will remain in the 19th Congressional District represented by Congressman George Mahon of Lubbock.

Other counties making up the district include Andrews, Bailey, Castro, Cochran, Dawson, Deaf Smith, Gaines, Hale, Hockley, Lamb, Lubbock, Lynn, Midland, Farmer, Terry, Yoakum, and eastern Ector County.

While Martin County and several others remained in Mahon's district, the district underwent considerable change elsewhere as five counties were dropped, and replaced by six new ones, plus the eastern half of Ector County.

Mahon lost Borden, Crosby, Floyd, Garza, and Scurry Counties, while picking up Bailey, Castro, Deaf Smith, and Terry.

(Continued on page 6)

## Inquiry By Senate Is Requested

A construction company official has charged that a pipeline project in North Martin County is being sabotaged, and he has asked for an investigation by the U. S. Senate Investigation Committee, and by the Federal Office of Pipeline Safety.

Jack A. Conner, president of Conner Construction Co. of Odessa, said his firm currently is building a 10-inch gas line in Martin County for El Paso Natural Gas Co.

He said today that 12 holes — punched with a drill — have been found in the pipeline, and that tests show more holes are yet to be found.

"Since 1967 we have been experiencing a form of sabotage on our gas line installation contracts," Conner said.

"Despite all reasonable and legal security measures taken by us, we have found holes drilled in several gas lines while under construction.

"These drilled holes have been discovered generally immediately preceding or during the appearance of a picket line or immediately following the removal of the pickets.

"Such picket lines have been established by Pipeliners Local Union 798 of Tulsa, Okla., and/or Operating Engineers local Union 819 of Fort Worth."

Conner said that a firm of private investigators have been trying — without success — to ascertain who is responsible for the damage.

In asking the Office of Pipeline Safety investigation, Conner said: "Such sabotage is detrimental to the overall safety program advocated by the Department of Transportation, and certainly constitutes a hazard to personnel, and to the public when pipe lines are tested under pressure."

He said in 1968, 11 holes were drilled in 20-inch lines being built for El Paso Natural in Ward, Reeves, and Pecos counties.

Conner said it took \$13,000 and five days to find and repair one drilled hole.

"This in some measure creates an inconvenience to the consuming public, aside from the possible hazard," he said.

"Conner added that generally, the holes have been found near highway crossings.

He added that several other non-union contractors in the area have related similar experiences during the period.

## DIANIA WELLS HAD RIGHT RING FINGER CUT OFF JUNE 3

Diana Wells, 13, Box 987, Stanton, was sitting on a folding table in her home Thursday, June 3, when the table folded up under her and cut the tip of her right ring finger, according to police reports.

Diana was taken to Cowper Hospital, Big Spring, at 10:47 a.m., and police officers Bill Baker and Earnest Lee, brought the finger to the hospital approximately 30 minutes to an hour later. Dr. Roscoe B. Cowper sewed the girl's finger back in place after recovering it at the hospital.

Hospital officials were optimistic Friday that the young girl might be able to keep the tip of her finger, which was sliced off Thursday, and returned to her hand. "The chances are fairly good that Dia-

## COMING EVENTS:

Thursday, June 10: Southside Scale Steppers meet at Day Care Center at 7:30 p.m.

Friday, June 11: 4-H Square Dance Club meet at 7:30 p.m.

Monday, June 14: School Board meet at 7:00 p.m.

Tuesday, June 15: Chamber of Commerce meet at 7:30 p.m.; Senior Citizens meet at Cap Rock Electric Auditorium at 3:00 p.m.; Stanton Scale Steppers meet at Martin County Library at 8:00 p.m.

Mr. and Mrs. Edward Britton, Oceanside, California, are spending this week visiting in the home of H. P. Morrison, and S. F. Britton.

Diana will be able to retain the finger, however, it was severed from her hand for over an hour," said Dr. Cowper, Big Spring.

Bills are pending in Washington which would raise the minimum wage for agricultural workers, include many more farm workers under the minimum wage, make farm workers and workers in agricultural processing plants subject to overtime laws, and bring agricultural labor under the National Labor Relations Act. The latter section would for all practical purposes assure the rapid unionization of farm labor across the country.

Of the minimum wage bills, all of which propose to amend the present Fair Labor Standards Act, the most onerous is S-1861, introduced by Senator Harrison Williams (D.N.J.), chairman of the Senate Labor and Public Welfare Committee. The Williams bill would raise the minimum wage for agriculture in three steps, to \$1.70 for the first year, \$2 the second year, and \$2.25 thereafter. It also would extend coverage to farm utilizing 100 man-days of labor in any one quarter of the year and remove all overtime exemptions for agricultural workers and agricultural processing workers. Thus time-and-a-half pay would be required for hours worked over 40 in one week, or over 8 in one day.

The present minimum wage applicable to agriculture is \$1.30 per hour for farms using as many as 500 man days in a calendar quarter, with no overtime requirements.

Representative John Dent (D-Pa.) has introduced a bill which would increase the agricultural minimum to \$1.50 effective August 1, 1971, \$1.60 during 1972, \$1.80 during 1973, and \$2.00 thereafter. It also would remove the overtime exemption for agricultural processing workers, but not farm workers.

Representative Wilbur Mills' proposal would make a \$1.50 minimum wage effective in agriculture as of February 1, 1972, with no subsequent increases, and no change in present overtime exemptions.

Speaking for the Administration, Secretary of Labor James Hodgson has recommended \$1.45 per hour for agriculture in 1972, and \$1.60

per hour beginning in January 1974.

Ed Dean, Field Service Director for Plains Cotton Growers, Inc., says "It does not look now as if we will be able to stop the passage of some form of minimum wage law affecting agriculture during this session of Congress. But we are doing all in our power to inject some reason into the thinking in Congress and prevent the passage of legislation that will completely ruin the agricultural economy."

The most serious long range threat, according to Dean, is the move by "organized labor and company" to bring agriculture under the National Labor Relations Act. Consequently Dean has written President Nixon requesting Administration support for a separate labor relations law for agriculture. He made four main points.

(1) No labor contract involving a union should be valid or recognized until the union or other organizing entity has been selected by the workers involved by secret ballot;

(2) Agricultural producers should be given protection against strikes in critical periods, particularly at harvest time, because strikes at such periods leave the employer without a bargaining position;

(3) A special board, separate from the present National Labor Relations Board, and made up of individual knowledgeable in agriculture, should be established to handle questions in farm labor disputes, and

(4) Legislation against secondary boycotts, in which actions against a third party are taken to force acceptance of union contracts by both employers and employees, should be strengthened and vigorously enforced.

## Dora Roberts Rehabilitation 10th Anniversary

BIG SPRING — The Dora Roberts Rehabilitation Center here will observe its 10th anniversary next week.

A luncheon, for invited guests, will be held at noon June 15, at the Center.

The day has been set aside to recognize all public officials from surrounding cities that the Center serves.

The Dora Roberts Rehabilitation Center is a non-profit organization dedicated to serving crippled children and adults. The services that the Center offers are available to the citizens of Stanton and the surrounding area.

Many Stanton citizens already are being treated at the Center.

Jim Thompson is director, with Truett Thomas serving as president of the board of directors.

## Showers

Shower Honors  
Sandra Chandler

Sandra Chandler, bride-elect of Jimmy Louder, was honored at a shower on Friday, June 4, at 7:30 p.m. in the Texas Electric Reddy Room.

Hostesses for the affair were: Mrs. Bob Hazelwood, Mrs. Marvin Standefer, Mrs. Norwood Holloway, Mrs. Cliff Hazelwood, Mrs. L. A. Ashley, Mrs. Mac Tunnell, Mrs. Hister Badgett, Mrs. Glen Holloway, Mrs. Raymond Pribyla, Mrs. Roland Swanson, Mrs. Ottis Mrs. Troy Pierce, Mrs. Delmar Hamm, and Mrs. Lynn Henson.

Miss Chandler's colors are yellow and white. The table was covered with a white linen table cloth with a center piece of yellow and white daisies. The cake was decorated with yellow roses with a bride and groom in the center overlooking a wishing well. Sandra and Johnny was written under the center decor.

Between forty and fifty guests attended.

Trudy Powell  
Honored At Shower

A shower honoring Trudy Powell, bride-elect of Richard Laird, was held in the Texas Electric Reddy Room on Saturday, June 5, between 7:00 and 9:00 p.m.

Hostesses for the shower were Mrs. Claud Gaspie, Jr., Mrs. G. P. Harrell, Mrs. Clyde Miller, Mrs. Cora Vaughn, Mrs. Louis Roten, Mrs. Corene Manning, Mrs. M. D. Hall, Mrs. Glen Morrison, Mrs. R. S. Lewis, Mrs. Marvin Standefer, Mrs. Rae Davis, Mrs. Troy Bradshaw, Mrs. Tommy Hursh, Mrs. Bobby Campbell, and Mrs. Edgar Standefer.

The decorations were of pastel colors. The table was covered with an orchid table cloth with an ecru lace overlay. The centerpiece was an arrangement of spring flowers in various pastel colors. The cake was decorated with orchid flowers, with a bride and groom in the center overlooking a wishing well.

Approximately 30 attended.

Shower Honors  
Kay Lynne Hankins

A shower was held in honor of Kay Lynne Hankins, bride-elect of David Brown, on Monday, June 7, from 8:00-9:30 p.m., in the home of Mrs. F. C. Wheeler.

Hostesses for the affair were Mrs. Gene Clements, Mrs. Billy Louder, Mrs. D. L. Jones, Mrs. Alex Haggard, Mrs. Harold Brantley, Mrs. Floyd Huckaby, Mrs. Albert Johnson, Mrs. Richard Doggett, Mrs. John Stuard, Mrs. Harry Doshier, Mrs. F. C. Wheeler, and Mrs. Dan Saunders.

The table was covered with an orchid table cloth with a lace overlay, and the centerpiece was orchid and purple flowers. Punch was served from a milk glass punch bowl. The cake was decorated in white with orchid veils.

Approximately 65 guests attended.

## Survey Shows Mandatory Jail Sentences

DALLAS — Respondents in a state-wide survey were overwhelmingly in favor of mandatory jail sentences and driver's license suspension for drunk drivers, a chemical test to determine driving while intoxicated guilt and for increasing the penalty for possession of LSD, it was reported last week.

Some of the respondents included Stanton residents.

The survey was made by the Texas Alcohol Narcotics Education group.

Those responded to the survey also were in favor of the so-called "no knock" provision which would authorize peace officers to break any

## Singing Convention To Be Held Here

The Great Plains-Cap Rock Singing Convention will be held here this Saturday and Sunday, June 12 and 13, at the Cap Rock Electric Auditorium. The singing starts at 8:00 p.m. on Saturday, and 10:00 a.m. on Sunday.

Woodson Campbell, Lubbock, is president; Grady Standefer, Stanton, vice-president, and Verla Doggett, Stanton, secretary.

Singers are expected from Dallas, Lubbock, Plainview, Levelland, Eastland, Snyder, and New Mexico. The public is invited to attend.

door or window without giving notice when armed with proper warrants.

The question on which respondents were most evenly divided was on lowering the penalty for first offense possession of marijuana. There were 1,043 in favor of lowering the penalty, and 1,386 against.

Survey questionnaires were mailed to 71,000 persons across the state.

## Make your air conditioning work better, cost less.

Here are six tips that will help you get the most comfort from your air conditioning at the lowest possible cost.

Set the thermostat properly:

Set the thermostat no lower than necessary for your personal comfort. Most air conditioning specialists recommend a thermostat setting of 76° to 78°. Remember, the lower the setting, the more electricity the unit uses.

Inspect filters often:

Clogged filters make the unit work harder and use more electricity. Replacement of disposable filters—or cleaning of permanent

types—will help keep the system running more efficiently.

Have regular maintenance checks:

Have the unit checked at least once a year by a qualified air conditioning serviceman. Do this in the spring, prior to your need for cooling. It pays!

Trim shrubbery:

The outdoor unit needs free air circulation. Help it maintain full efficiency and keep operating costs down by trimming nearby shrubbery and by check-

ing to make sure compressor coils are clean.

Keep sunlight out: Direct sunlight increases the heat in your home.

Reduce the air conditioning unit's load by using awnings, blinds, shades or draw drapes.

Insulate:

Proper insulation keeps the hot air out, the cool air in. It reduces the cost of winter heating too. Ceiling insulation is particularly important.

# Vitamin A Deficiency Where Drought Reduce Hay Quality

Cattlemen should be keeping a closer eye out for vitamin A deficiencies where drought conditions have reduced the quality of the hay and forage they normally feed their livestock.

Breeding cows that are vitamin A deficient will probably give the stockman his most harmful and most costly problem, according to L. A. Maddox, Jr., extension beef cattle specialist. While breeding cows that are deficient in the vitamin may continue to have estrus periods, fewer cows become pregnant. If the pregnant animal is severely deficient, she may abort the calf or give birth to dead, weak, or blind calves.

Cattle can store the vitamin, but calves at birth have practically no body storage of carotene (vitamin A), and they must depend on a supply from the colostrum or milk.

Younger animals tend to show signs of vitamin deficiency in less time than older ones, but there are differences among individuals of the same age who receive the same treatment.

Calves weighing between 250-400 pounds may show deficiency symptoms in 40-80 days. Those above 400 pounds show symptoms in 80-140 days and older cattle show signs in 100-150 days, Maddox notes.

To have sufficient vitamin A to be able to save their calves, cows must have good green hay, ample silage, vitamin A fortified concentrates or synthetic vitamin A.

Synthetic vitamin A can be

mixed with feed, injected intramuscularly and or administered in controlled drinking water. Maddox reminds stockmen that products containing vitamin A should be stored in cool, dark places because the vitamin loses its potency when exposed to sunlight, air, and heat.

Alfalfa and silage are two of the better natural sources of the vitamin. A bright pea green color is usually a good indicator of vitamin potency in hay, but it isn't completely reliable, Maddox warns.

Hays that contain molds as a result of heating have probably lost some or all of their vitamin A potency. Chemical testing procedures give the most reliable determination of the vitamin.

One symptom of the early stages of vitamin A deficiency is night blindness, but other signs such as watering eyes and some swelling joints are easier to recognize, Maddox says.

In the latter stages calves become less alert and lose their appetites. Other symptoms of prolonged vitamin deficiencies are nasal discharges, rapid breathing, staggering gait, convulsions or complete blindness.

Another sign that is characteristic of the vitamin deficiency is sluggishness. A staggering gait has also been noted. If this condition goes unremedied, the cattle will come unmarketable, and eventually die, Maddox says.

## CONSERVATION - NEWS FOR OUR STRENGTH AND SOIL CONSERVATION

The Soil Conservation Service gives technical help to plan and carry out farm and ranch conservation programs. These plans include such things as a soil map showing the different soils and the capabilities. Assistance is also available to help install and maintain conservation practices as well as federal cost-sharing on certain practices. City people can also benefit from conservation by direct assistance in selecting building sites, roads, septic tank locations, as well as erosion problems around their homes.

The Soil Conservation Service employees are charged to help you and your school system with conservation education. This may include help on arranging tours to conservation sites, guest speakers, conservation films, television tapes.

Conservation also helps sportsman by increasing wildlife habitat and preservation. The SCS gives aid in building farm ponds, as well as stocking them with fish. Other practices help provide food and cover for wildlife, and support your local and Water Conservation District.

## Out Of Town Guests

C. V. (Shorty) Shelburne, state editor of The Daily Oklahoman and Oklahoma City Times, in Oklahoma City, was a visitor this week in Stanton and Midland.

Shelburne, former West Texas newspaperman in Stanton, Midland, Monahan, and other area cities, visited in the home of Mr. and Mrs. G. B. Shelburne, Sr., and with his sister, Mrs. Tommie Daniel.

Accompanying him were members of his family, including his wife, Bess, and sons, Mike and David. They made a brief visit with her relatives in Lamesa, before the family returned to Oklahoma City.

Among other visitors to the G. B. Shelburne home in Stanton during the week were G. B. Shelburne, Jr., and family of Amarillo, and Mr. and Mrs. Virgil Bolch, O'Donnell.

## Feeding Suggestions For Aid In Drought Areas

When drought conditions cut grazing short, hay and a little protein supplement fed in a dry-lot program might offer the stockman an alternative that lets him maintain his livestock and conserve the animals' energy.

Hays can be used as the only feed, but without small amounts of legume hay, a protein supplement should be added to the ration, according to L. A. Maddox, Jr., extension beef cattle specialist.

Ranchers who feed as much as four pounds of alfalfa hay daily per head with sorghums, prairie, or Johnsongrass may find that they can eliminate the protein supplement, he says. On the average four pounds of alfalfa hay supply as much protein as one pound of cottonseed meal.

Dry cows and cows with calves can be maintained in a dry-lot for several months on an all concentrate ration.

For dry cows to be properly maintained, they should be on a ration of eight to 10 pounds of an all concentrate feed with about seven percent of digestible protein properly fortified with minerals and vitamin A, Maddox adds.

Cows with calves, that are expected to remain reasonably healthy should be on a daily ration of 14 to 16 pounds of all concentrate feed that contains eight to nine percent digestible protein.

Besides feeding cows in a dry-lot program, calves can be put in a creep feeding program to increase weight and insure better physical condition of the dams at weaning time.

Creeped calves tend to grow out uniformly and shrink little at weaning if placed on feed in a dry-lot.

While concentrate feeds are ordinarily used in creep feeding, combination of roughage and concentrates mixtures may be used, especially if pastures are short.

Farm grains such as oats, corn, wheat, and milo, along with pellets and cubes are good feeds for creep feeding, according to Maddox.

Wheat and milo should be ground for feeding to calves but shelled corn and oats may be feed unground.

Ground ear corn and home mixtures of ground ear corn (89-90 percent) and cottonseed meal (10-15 percent) can also be used.

## New Arrivals

Congratulations to Mr. and Mrs. Emelio Rodriguez on the birth of a daughter on May 31.

## Tax Man Sam Sez:

The rules on how much you can deduct on your contributions to a charitable organization have been revised under the 1969 Tax Reform Act. Some exempt organizations that depend on charitable donations report that they are not getting as many contributions since the change in the tax law. They apparently feel that most of the difference in the amount of the contributions is due to a misunderstanding about the taxability of contributions and that some taxpayers feel that they will have to pay income taxes on the appreciated value of a gift that would have been subject to a capital gain if

sold. There is no tax due on a gift under the new law, the amount of the deduction has been reduced in some cases. However, if you have a valuable property that you would like to donate to an exempt organization (church, museum, educational institution, or other charitable organization approved by IRS) you can still get a substantial benefit on your income tax through the donation.

The University of Texas has received a \$1.6 million supplemental grant from the National Science Foundation to fund its far-reaching and broad-based Science Development Project.

Barbees made an uneventful moving trip on Monday afternoon, Memorial Day, to Dublin, Texas.

About 30 minutes after arriving at their place, a terrific storm hit, uprooting trees, breaking limbs, and overturning garbage cans, as well as disrupting the telephone system for almost a week.

With no telephone to answer, the Barbees were able to get most of their boxes unpacked and things in place by the end of the week.

# Fryar-Weaver Vows Exchanged

Miss Rebecca Fryar became the bride of Richard George Weaver in a candlelight ceremony performed Tuesday evening, June 1, at 8:00 o'clock in the sanctuary of the Baptist Temple, Big Spring.

The Rev. R. Bartlett Mills of Midway Baptist Church, read the ritual as the wedding party stood before an altar illuminated by white tapers in branched candelabra. The setting was enhanced with baskets of white gladioli and palms of emerald foliage.

The bride is the daughter of Bill Fryar of Silver Heels, and the late Earline Fryar. The bridegroom is the son of Mrs. R. G. Weaver, Sand Springs, and the late Mr. Weaver.

A prelude of nuptial music was presented by Miss Jerry Tonn, organist, and Miss Dana Mancill, vocalist.

### FORMAL GOWN

Carrying a bouquet of white feathered carnations showered with French picot satin, the bride was attired in an ivory gown of peau de soie and lace fashioned with high neckline circled with a stand-up collar. The bodice, featuring long lace sleeves, was marked at the front waistline with a Dior bow and ribbon extending to the back of the gown. The A-line skirt was scalloped at the hemline. Her veil of illusion was held by a tiara of pearls and iridescents.

Attending the bride as matron of honor was Mrs. Glenn

Evans, who was attired in a pale orchid dress of dotted Swiss, styled with long puffed sleeves. Her headpiece was a Dior bow, and she carried a nosegay of white carnations tied with orchid streamers.

David Early served the bridegroom as best man.

The bride, a graduate of Stanton High School, attended Howard County Junior College this past year, as did the bridegroom. He is a graduate of Big Spring High School. Upon returning from a wedding trip to the Ozark Mountains, the couple will reside at 1504 Benton, Big Spring.

### RECEPTION

The newlyweds were honored at a reception in the Fellowship Hall of the church.

The refreshment table was adorned with a floor-length cloth of ruffled white organza caught at the corners with yellow ribbon clusters, and the centerpiece was of white carnations interspersed with greenery. The tiered wedding cake was topped with a miniature bride and groom.

The cream of the state's young musicians will be at the University of Texas June 11-12 to compete in the Texas State Solo-Ensemble Contest. Instrumental, vocal — and even twirling — events for individual and group performers are planned.

Robbie Dickenson.

Robbie Dickenson, son of Mr. and Mrs. Delbert Dickenson, Stanton, recently received his license to preach at special services at the Tarzan Baptist Church. He preached his first sermon on May 16.

Dickenson was born and raised in Martin County, and graduated from Stanton High School this spring with the class of 1971. He will be entering Baylor University this summer as a ministerial student.

### Mr. and Mrs. Sta Return Home From Two-Week Vacation

Mr. and Mrs. Sta returned home Friday, after a two-week vacation to Somerville, New Jersey, where they were visiting daughter and son-in-law and Mrs. Kenneth Ba granddaughters, Amy.

While on vacation they sight-seeing in New Jersey, and Pennsylvania.

On their return trip they visited the capital in Washington, D. C., stopped in Richmond, Charlottesville, Williamsburg, and Jamestown, Virginia. They returned on southern route.

Their son, Gary, who recently graduated from Adams, accompanied them on their vacation and is at home now with his parents.

### Johnny Peugh Awarded Scholarship

Johnny Lynn Peugh, son of Mr. and Mrs. J. E. Peugh, Lenora, was among the 4-H members who received a \$4,000 scholarship at the general assembly of the annual Texas 4-H roundup at Texas A&M University in College Station last week.

Johnny is 18 years of age, and graduated from Sands High School, Ackerly, this spring with the class of 1971. His plans are to attend Texas A&M this fall.

Awarded on the basis of scholastic records, financial needs, leadership, character, and participation in 4-H work, the scholarships may be used at any college or university in Texas where degrees in agriculture are offered.

Bob Binder, 26-year-old law student from Commerce, is the new president of the University of Texas student government. He became interested in the student president's job, he says, "because I thought that I could do a good job." His year in office began in May.

On a national average, the equine industry produces only a 50 per cent foal crop.

The American favorite, the Hamburger, had its origin way back in 1891 in Hamburg, Germany. The name stayed the same but today's versions don't look much like the original.

# HAMBURGER — The Old And The New

What's new about the great American tradition, the hamburger? Only the variations you might add to come up with a different taste treat of the old and ever popular favorite. Traditionally, the hamburger has been around a long, long time, having had its origin in a restaurant back of the waterfront in — where else — Hamburg, Germany.

The story is that in 1891, Otto Kuase, a cook in the restaurant back of the waterfront, made a sandwich which the sailors who stopped at the port liked extremely well, and in 1894, some of these same sailors visited the port of New York and told restaurant owners about Hamburg Otto's fine sandwich, which these restaurants in turn started making for their customers. In short order, all the sailors had to do was ask for a "hamburger" to get the then popular version.

As so often happens, changes have been made in the original version, but the name and its popularity have increased over the years. The original was made like this, and you might like to try it for a change. The meat patty was made of ground sausage beef fried in butter. Then an egg was lightly fried on both sides in butter. This combination was placed between two slices of bread, lightly buttered, with a touch of mustard and a slice or two of pickle added. A very hearty combination known as Deutsches Beefsteak.

The great hamburger bun, probably the largest specialty item in the bakeries according to Vernon Baird, president of Mrs. Baird's Bakeries, did not make its appearance until when someone decided to serve hamburgers on buns at the great St. Louis Exposition. From that time on the popularity of the hamburger has grown more than any one American favorite, is made in numberless variations, with different combinations, or just plain, depending on the section of the country in which you might order it, available just about any place you eat out, and served at home by the millions, doctored to suit individual tastes. It is true, however, that the bun on which it is served is an integral part of the overall goodness of the finished production. Its freshness, flavor and texture add much to make this a mediocre or superb combination.

Broil or pan fry your beef patty, toast or lightly saute the cut sides of the bun, add whatever you choose — pickle relish, lettuce, a tomato slice, mustard, catsup, dill pickle slices, etc. — for the usual, or try one of the following for a change of pace.

### BLUE CHEESE BURGERS

- 1 beaten egg
- 1 pound ground beef
- 2 ounces (1/2 cup) blue cheese, crumbled
- 2 tablespoons mayonnaise
- 1 tablespoon Worcestershire sauce
- 1/2 teaspoon dry mustard
- 4 hamburger buns, split, toasted and buttered

Combine egg, 1/4 teaspoon salt and dash pepper. Add beef, mix well. Shape into 8 patties, 1/4-inch thick. Blend blue cheese with next three ingredients. Spoon mixture atop four patties, leaving 1/2-inch margin around edges. Top with remaining patties, seal. Broil three inches from heat six minutes. Turn broil four to six minutes. Serve in buns. Makes four servings.

### ONION BURGERS

Combine 1/4 cup catsup, 1 tablespoon finely chopped onion and 1/2 teaspoon dry mustard. Add 4 ounces sharp processed American cheese, shredded, and 1 pound ground beef; mix well. Shape into 4 to 6 patties. Panbroil in 1-tablespoon hot salad oil in skillet over medium heat for 6 minutes. Turn; cook 5 to 6 minutes longer. Serve in equal number of hamburger buns. Combine 1/2 cup sour cream-

### CHEESE AND BEEF BURGERS

Combine 1/4 cup catsup, 1 tablespoon finely chopped onion and 1/2 teaspoon dry mustard. Add 4 ounces sharp processed American cheese, shredded, and 1 pound ground beef; mix well. Shape into 4 to 6 patties. Panbroil in 1-tablespoon hot salad oil in skillet over medium heat for 6 minutes. Turn; cook 5 to 6 minutes longer. Serve in equal number of hamburger buns. Combine 1/2 cup sour cream-

## Letter To The Editor

Dear Editor:  
I received a clipping from your paper sometime ago from a friend of mine. It made reference to the football team of 1930 or 1931. It caused me to realize that is some "forty-odd" years ago.  
I should like to take this opportunity to greet any of my friends of those years who still may be there. I should especially like to remember the members of my Algebra and English classes my first year of trying to teach. I am enclosing the names from my class rolls. They were all a great group of youngsters. I remember them all.  
Sincerely,  
Rufus Hyde,  
Coach and Teacher  
Stanton 1930-1931.

The list of names attached to the above letter are: Raymond Adams, Juanita Atchison, John T. Atchison, Dollie Baker, A. C. Bassett, N. J. Bell, Lola Berry, Annie Lee Cannon, Jack Cathey, Mack Clinton, Doyle Davis, Miller Estes, Clair Epley, Mildred Green, Jiggs Hall, Stanley Hamner, Lucille Haynes, Julian Haynes, Grady Hogue, Dovie Hopper, Buck Kirnsey, Geraldine Ledbetter, Allene Long, Gladys McCann, Truman McClain, Jessie Lee Martin, Randall Melvin, Erma Nichols, Verma Nichols, Norman Orr, Lucille O'Bryant, Rachael Parker,

## Philosopher Badly Wrought Up Over Prospects Of Cities Going Down The Drain

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw comes to the defense of the big cities this week, more or less.)

Dear editor:  
As I understand it, the country's biggest cities, biggest railroad, biggest plane manufacturer, and smallest farmers are all in the same boat—they're busted.  
Take the cities, for example, since there are many of them and only one busted railroad, and one busted plane maker, and as for the farmers, that's nothing new, they've been hard up for the last 50 years.

But cities, why three-fourths of the entire population live in the big cities, and if they're facing financial disaster you can't push them under the rug as though they were marginal farmers or unemployed Ph.D's.  
As a result there is a drive on, according to the newspapers that turn up out here, to help the big cities with what is called revenue-sharing. The Federal government would distribute 5 or 6 billion dollars to the cities to use as they please, patching up their streets, unclogging their sewers, replacing the broken window panes in their school

buildings, re-arranging their slums, paying off the second lien on their transportation system, fighting crime, etc.; then when that played out, well, no use getting to far ahead, they'd cross that bridge when they came to it, provided Congress furnished the money to make the bridge cross-able.  
The problem is far too big for me to handle. In fact I'm no better able to handle it than the average big city mayor.  
But I do agree with one Congressman who was wrestling hard with the problem. He said he didn't know what the answer was either but, and I quote, "we can't let the cities go down the drain."  
He's absolutely right about that. The lakes and streams of this country are already in such bad shape and the cities' sewer systems are already over-burdened that if you let the cities wash down into them the pollution problem would be so big it staggers the imagination. Where's the river that could handle even Midland, not to mention New York or Los Angeles. It's take a thousand years to get the rivers and lakes back in fishing condition.  
I don't care what it costs, let's hold the cities together where they are. We can worry about the railroad, and the airplanes later.

Yours faithfully,  
J. A.

(Continued from page 1) fallons and 240,000 pounds, the well produced 208 barrels of 39.8-gravity oil and 22 barrels of water on 24-hour potential test. The gauge was through a 16-64-inch choke. Gas-oil ratio measured 811-1.

Wellsite is 1,320 feet from north and east lines of section 6, block 36, T-1-N, T&P survey.

In Midland County, John L. Cox completed No. 1 B. T. Graham in the Spraberry Trend Area, 10 miles east of Midland.

It was completed to pump 162 barrels of 39-gravity oil and eight barrels of water per day, with gas-oil ratio measuring 635-1, through perforations at 8,088-8,897 feet. The interval had been fractured with 90,000 gallons.

Wellsite is 1,500 feet from south and 1,320 feet from east lines of section 54, block 37, T-2-S, J. L. Veazey survey. Humble Oil & Refining Co. States.

will re-enter and plug back to around 8,873 feet at No. 3-B Mary E. Turner, former Devonian producer in the Azalea multipay field of Midland County, for recompletion attempt as a one-mile southeast extension to the Spraberry Trend Area.

Old total depth is 11,515 feet

Location is 1,980 feet from south and 660 feet from west lines of section 42, block 37, T-2-S, W. T. Holcombe survey, 14 miles southeast of Midland.

In Howard County, I. W. Lovelady plugged and abandoned No. 1 McAllister, a wildcat venture, at a depth of 3,760 feet.

Location is 830 feet from south and 1,980 feet from west lines of section 48, block 31, T-1-N, T&P survey, 3/4 mile south of Coahoma.

Boston, Mass., has the largest drydock in the United States.

**TWO MEN PLEAD GUILTY IN STANTON**

Lester Weir Dowdy, 60, La-mesa, pleaded guilty Monday to driving while intoxicated, second offense, and was sentenced to a one-year probated jail term.

Johnny Samora, 19, Stanton, pleaded guilty to theft over \$50, and was sentenced to a two year probated jail term.

**Martin - - -**

(Continued from page 1) Smith, Hale, Lamb, and Parmer.

New districts had to be carved to reflect the population shifts shown by the 1970 census. The census showed Texas had gained enough people since 1960 to get one more congressman.

**Permian - - -**

(Continued from page 1) laws committee include Judge Glenn Toombs of Borden County, chairman; and members Judge Roy Bennett of Andrews County; Councilman Forman Wiseman, Ft. Stockton; Councilman Wilbert Mierther, of Odessa; Councilman Pat Baskin, or Midland; Councilman Bob Deavenport, of Stanton; Commissioner Tommy Workman, of Upton County; Trustee Joe Dominey, of the Midland Independent School District and Frank Faulk, of the Trans-Pecos Soil Conservation District

The county judges of counties which are members of the commission were elected to serve as the Commission's Board of Directors, and they, in turn, elected Judge Leslie Pratt of Dawson County as chairman.

Judge Chester Taggart of Ward County, is vice chairman, and Judge John Luttrell of Pecos County, is secretary-treasurer.

The Stanton meeting will get underway at 1:30 p.m. June 15, in the Cap Rock Electric Co-op Building.

**Registration Continues For Summer Courses**

Registration continues at the Permian Basin Graduate Center for several courses being offered for the summer by Sul Ross State University, Texas A&M University, and Texas Tech University.

Registration deadline is July 12, for the Sul Ross courses scheduled 8:30 to 11:30 a.m. daily at a fee of \$95.

They are: Ed. 7303 — Techniques of Counseling at Permian High School in Odessa, and Eng. 4307 — American Literature at Midland High School, both slated July 12-30; and Ed. 4310 — Teaching Social Studies in the Grades, and Ed. 5314 — Personality Theory, both scheduled August 2-20 at Permian.

The PBGC also is registering for graduate level courses offering three hours of extension credit from Tech at a fee of \$125.

To be offered only if there is sufficient registration from those contacting the Graduate Center "as soon as possible" are: SPED 5310 — Exceptional Children and Youth, instructed by Dr. Bruce Mat-tson, 6:30 to 9:30 p.m., Tuesdays and Thursdays, June 15 through August 3.

Hist. 531 — Readings and Research, Seminar on American Economic History, instructed by Dr. Joe King, 8:30 to 11:30 a.m. daily, July 12-30.

And Eng. 533 — Studies in Renaissance Literature, instructed by Dr. J. W. Berry, Jr., 8:30 to 11:30 a.m. daily August 2-20.

Offering three hours of extension credit from A&M at a fee of \$125, is EDCA 686 — Problems in Environmental Education, with Dr. Delmar Janke as instructor. Registration deadline is July 9.

Further information and registration forms can be obtained by contacting the Graduate Center offices, 105 Gulf Bldg., of calling 563-2311 in Midland.
