FINEST CLIMATE ON EARTH WHERE HEALTH, HAPPINESS AND PROSPERITY AWAIT THE HOMESEAKER

Vol. XLI—No. 25

STANTON, MARTIN COUNTY, TEXAS 79782 THURSDAY, JUNE 17, 1971

6 Pages—Price 10c

## These Things We Note

By ED PIEL

I believe in grumbling . . . it is the politest form of fighting known.

You know . . . the National Safety Council along with the states wage an almost constant campaign on driving safely. Watch for the other guy . . . the drunken driver . . . the wild speedster, and all the other manias of the road come under their constant attack.

This is fine, and we have no quarrel with them and their efforts to keep more of us from becoming a traffic statistic . . . but, there is one culprit that is overlooked by both the National Safety Council and the various state and local traffic safety campaigns.

It's not surprising that this menace is overlooked . . . since in most cases it is the state and counties themselves.

Having just completed a quick 4,000-mile round-trip by auto . . . I found that most of the drivers on the highway are sincerely trying to drive safely, with regard for other autos on the road . . . but one of the biggest hazards I ran into was that seemingly endless parade of construction signs. In every state we crossed we ran into road construction crews, and no where was more confusion to be found than in the vicinity of these crews.

In the first place most of the signs warning of construction ahead are so poorly placed as to be almost useless to one coming upon them as a fairly high rate of speed.

Secondly . . . these signs are not always the easiest to decipher and quite frequently you find that what the sign is warning you about is not there at all . . . but moved on several days ago. Then you have the detour signs . . . these are normally easy enough to understand . . . in the daylight . . . but coming at them at night is a different ball game, for you're never quite sure just which way they want you to detour too . . . and those little blinking lights they set up by the detour are comical in their attempts to shed any light on what the poor driver is trying to figure out . . . I don't have any figures to support my views . . . but I'd be willing to bet that many highway accidents are caused by some of these hard-to-figure-out signs.

Not only construction causes problems for the unlucky driver, but pity the poor fellow driving north or south on U.S. 95 in the state of Nevada . . . he's not only got to watch out for signs . . . and other drivers . . . but he has the added problem of worrying about cows!

Yep . . . Nevada has what they call an open range law, which permits cattle to wander just about anywhere they want. We have frequently run into a herd grazing just off the unfenced highway in that state, and personally have witnessed two collisions between autos and cattle. In these collisions . . . neither cow nor human comes out winner . . . but the State of Nevada gives the right-of-way to the cow. So, if you hit one of these animals on the road, not only are you in the wrong, but you'll have to pay for the cow!

Well . . . I promised myself that no matter what I would keep my mouth shut during this Little League season . . . now after three weeks of play I'm having a hard time living up to the promise . . . for I feel our team has run into some very interesting situations.

After losing our first game . . . we were leading the Black team in our second game in the bottom of the fifth inning . . . Blacks batting . . . only to have a storm hit and the game canceled. Well . . . Little League rules state that

Student Lyn Herzog, Box 368, Stanton, and John Anastasio, center, science teacher at Stanton High School, talk with Dr. D. G. Swanson, right, professor of electrical engineering, University of Texas, at an exhibit during the 11th Texas Nuclear Science Symposium in Austin, June 7-10. Miss Herzog and Anastasio are the guests of Texas Electric Service Company at the meeting, co-sponsored by the University and the Texas Atomic Energy Research Foundation. TAERF is composed of 10 electric power companies operating in Texas.

## "First Thirty Years" To Be Theme Of Settler's Reunion

A meeting of the Old Settler's Reunion Committee was held Monday, June 7, at the Martin County Library.

The theme for this year's reunion will be "The First 30 Years in Martin County."

It was reported that the Stanton High School Band will be able to play. The parade will start at 10 a.m., and play day will be at the rodeo grounds starting at 2 p.m. at

6 p.m. races will be held for the children at the city park. After supper the program will be presented. In case of rain, the High School gymnasium will be available.

There will be a registration place in the downtown area, location to be announced at a later date.

The next meeting of the Old Settler's Reunion Committee will be held on June 28, in the Martin County Library.

## Services Held E. D. Pinkerton

Elmo D. Pinkerton, 60, died about midnight Sunday in a Houston hospital following a long illness.

He was born April 19, 1911, in Exray, Texas, and married Keda Gunter on Jan. 25, 1951, in Stanton. He had been a city policeman for the last three years, and was formerly owner and operator of a restaurant here.

Services were held Wednesday, June 16, at 2 p.m. at the Church of Christ, with Claude Woods officiating, assisted by Wayne Zuck, minister of the Belvue Church of Christ. Interment was at Trinity Memorial Park Cemetery, Big Spring under the direction of Gilbreath Funeral Home.

Survivors include the widow; one son, Wayne Pinkerton of the home; three daughters, Miss Kay Pinkerton of Abilene, Mrs. Wayne Nutt of Stanton, and Mrs. John Childers of Seminole; one brother, Henry Pinkerton of Stanton; five sisters, Mrs. Lela Shankle and Mrs. Clarence Schuekle, both of Midland, Mrs. S. A. Foster of Bellaire, Mrs. Al Morgan of Stanton, and Mrs. J. Reed of Barstow, Calif., eight grandchildren.

## Area Teachers Attend Tech

Nolan Parker, vocational agriculture instructor at Stanton High School, and Melvin Chisum, vocational agriculture instructor at Flower Grove High School in Flower Grove, are participating in a special short course at Texas Tech University.

The short course is designed to equip high school vocational agricultural teachers with methods and materials for conducting pre-employment laboratories in the field of meats processing. Two other similar short courses are also being conducted at Tech — one in feedlot management, and another in agricultural chemicals.

The short courses are being conducted under a cooperative program with the Texas Education Agency, and are scheduled to conclude on June 25.

Teaching the course in meats processing is Dr. Keith Lind, professor of meat industries.

Texas Tech is a multi-purpose university with eight academic divisions, and a student body of more than 20,000.

## Pug Deavenport On Dean's List

The spring semester Dean's List at McMurry College names Frances Deavenport from Stanton, among the elite 118 scholars making up the select roster.

"The Dean's List is the academic honor roll made up each semester of those students who, while carrying a minimum of 12 semester hours, achieve a grade point average of 3.5 or above," said Dr. C. W. Tarter, dean of the college.

He added: "The total number cannot exceed 10 per cent of each class."

Miss Deavenport is the daughter of Mr. and Mrs. Bob Deavenport, Box 575, Stanton.

## PBRPC Holds Stanton Meeting

Stanton was well represented at the Permian Basin Regional Planning Commission held Tuesday at the Cap Rock Electric Co-op building.

The Commission at the meeting adopted the by-laws for the group, and approved the permanent board of directors. The directors will consist of the county judges from all the counties represented on the commission.

Those assembled heard a financial report, in which it was reported that \$7,000 of the \$10,000 expected from the membership dues had already been collected. This amount, along with matching state and federal funds will give the Planning Commission an expected \$59,000 annual operating budget.

A screening committee was appointed to accept and review applications for the position of executive director of the Permian Basin Regional Planning Commission. The committee will report to the membership at the next regular meeting scheduled to be held in Andrews.

The City of Odessa offered the commission free rent for one year if the PBRPC would locate their headquarters in Odessa. This offer was tabled until the next meeting to give other cities time to see if they cared to submit a proposal for having the headquarters located in their city.

## They Help The Poor—

# Don't Discard Old Eye Glasses

When you're six years old, the world can be a wonderful place — if you can see it.

Tommy couldn't. He lived in a world of blurred images. School is tough enough when you're six. But it's even worse when your friends are learning to read, and you can't keep up.

To Tommy, letters were merely blurs; so were baseballs and faces. Because Tommy's father had long been out of work, glasses were simply out of the question — until this year.

The boy's glasses were paid for by a volunteer organization hundreds of miles away, called New Eyes for the Needy, Inc., of Short Hills, New Jersey.

New Eyes, as it is familiarly

known, has earned the reputation of being one of the most effective sight-saving charities in the world. It has helped many thousands of needy people obtain glasses—here and abroad—and it has never asked for a cent in donations.

Since its inception, almost 40 years ago, New Eyes has asked only for used eyeglasses and precious metal articles such as old watches, jewelry, (real, costume, and antique), good or damaged silver and dentures.

The eyeglasses and glittering clutter are sent to New Eyes for the Needy, Inc., Short Hills, New Jersey 07078. Thousands of packages from all over the United States arrive in the neat stucco headquarters every year. There,

volunteers, mostly housewives, sort out the glasses, separating those in plastic frames from those in metal frames.

Many of the 250 workers have learned to operate complex optical grading and testing equipment. They help fill specific orders from missions and hospitals in foreign countries where plastic framed glasses and sunglasses are sent.

The metal framed glasses have their uses, too. Through refining, they yield precious metals that are sold, along with the jewelry, to finance New Eyes funds in over 100 hospitals and health agencies throughout the United States. The money in these funds buys glasses for people who have nowhere else to turn. In addition to these funds,

arrangements have also been made in 48 states through health and welfare agencies whereby New Eyes purchases glasses for carefully screened persons, to whom no other private or public funds are available.

Last year 8,000 people were helped under this program. Tommy was one of them.

But, as public response has grown throughout the years, so has the volume of requests. Therefore, New Eyes needs more discarded jewelry and eyeglasses to do its job. As one New Eyes volunteer put it:

"The wonderful thing about New Eyes, is that we can ask people to send us things they no longer need."

And these gifts can bring vision to a little boy, like Tommy.

# Adobe Oil Co. Completes An Extension, Stakes Offset In Area

Adobe Oil Co. of Midland, completed an extension and staked an offset to production in the Martin County part of the Spraberry Trend Area.

No. 1 Stubblefield, 3 1/2-mile south extension, finalized to flow 221 barrels of 39.8-gravity oil and 23 barrels of water daily, through a 16-64-inch choke, and perforations at 7,860-8,843 feet. The section had been acidized with 4,000 gallons, and fractured with 40,000 gallons and 240,000 pounds.

Location is 1,320 feet from north and west lines of section 23, block 36, T-2-N, T&P survey, three miles northeast of Lenorah.

No. 2 Jones was scheduled as a 1/2-mile south offset to the Sale Ranch sector of the field, 1 1/2-mile southwest of Lenorah.

Drillsite for the 9,200-foot project, is 1,320 feet from north and west lines of section 45, block 36, T-2-N, T&P survey.

Three operators have filed offsets in the Martin County part of the Spraberry Trend Area. All are slated to 9,300 feet.

Adobe Oil Co. of Midland, plans No. 1-D Williams 1/2 mile south and west of production, 1,320 feet from north and east lines of section 14, block 38, T-1-N, T&P survey, 13 miles northwest of Stanton.

John L. Cox of Midland, filed for No. 1-B McMorries, 1/2 mile east of Spraberry Trend production, and 1/2 mile west of production assigned to the Sulphur Draw (8,700 Dean) field, 1,320 feet from south and east lines of section 19, block 37, T-2-N, T&P survey, 1/2 mile southeast of Tarzan townsite.

Coquina Oil Corp. of Midland, plans No. 1 Dewey, one mile south, east and northeast of production 1,320 feet from north and west lines of section 35, block 36, T-2-N, T&P survey, 1 1/2 mile northeast of Lenorah.

Dowdle Oil Corp. has abandoned location for two projects in the undesignated area of Martin County, 18 miles northwest of Lenorah.

No. 1-A Juliette Wolcott, spots 477 feet from south and 6,099 feet from east lines of Hartley CSL survey, No. 250.

No. 1-B Juliette Wolcott, is located 4,170 feet from south and 3,500 feet from west lines of Hartley CSL survey No. 250.

John L. Cox of Midland, file-mile southwest outpost to the edaplication to drill a 3/4-Midland County portion of the Spraberry Trend Area, eight miles southwest of Midland, as No. 1 Crespi.

land, staked site for No. 1 Jackson as an 8,300-foot wildcat in north central Howard County, 10 miles northwest of Luther townsite.

It is 3/4 mile southeast of the Vealmoor (Canyon reef) field, producing at 7,934 feet, but separated by a failure.

Drillsite is 1,980 feet from north and east lines of section 39, block 32, T-3-N, T&P survey.

Second Leonard producer and 1-5 8-mile east extension to that pay in the proposed Morgan Ranch (Leonard, Wolfcamp, and Spraberry) field of central Howard County, has been indicated with the pumping of 55 barrels of oil, and 60 barrel of water in 24 hours, at Champlin Petroleum Co. No. 1 L. R. Flanagan, lower Wolfcamp opener and lone well in the suggested Champlin field.

Recovery was through Leonard perforations at 6,448-6,471 and 6,481-6,500 feet. Gas-oil ratio measured 545-1.

Earlier it pumped 16 barrels of oil and 150 barrels of water

in 13 hours, after being shut in 67 1/2 hours.

Drilled to 8,200 feet, it has been plugged back to 7,140 feet.

It was completed May 5 to flow 235 barrels of 40.2-gravity oil, and two barrels of water per day, through 10 w e r Wolfcamp shot holes at 8,024-8,053 feet.

Location is 1,980 feet from north and 660 feet from west lines of section 25, block 32, T-1-S, T&P survey, four miles southeast of Big Spring.

The dual Wolfcamp and Leonard opener, G. E. Kadane & Sons of Wichita Falls, No. 1 Morgan Ranch, finalized May 8 from the Leonard to pump 178.32 barrels of 34.4-gravity oil through perforations at 6,704-6,735 feet.

Cal-Mon Oil Co., Midland, staked No. 1-B Hutto as a west offset to the opener and lone producer to the opener and lone producer in the Hutto (Wolfcamp) field of Howard County, two miles southwest of Coahoma.

Drillsite for the test is 660

feet from south and 1,980 feet from east lines of section 4, block 31, T-1-S, T&P survey. Slated depth is 7,550 feet.

The field opener, Clinton Oil Co. No. 1-A Louis Hutto, was completed March 10, 1950, by Stanolind Oil & Gas Co. (predecessor to Amoco Production Co.) to pump 27 barrels of 35-gravity oil, and 1 per cent water daily, through perforations at 7,370-7,430 feet.

Continental Oil Co. plans two offsets to middle Clearfork production in the Howard County portion of the Howard-Glassecock multizone field, eight miles east of Forsan.

Both are slated at 3,900-4,100 feet.

No. 17-D G. O. Chalk, mile southwest and north is 1,980 feet from south and 2,173 feet from east section 124, block 29, survey.

No. 11-B G. O. Chalk, a south and west offset, is 1,980 feet from south and 467 feet from east lines of section 114, block 29, W&NW survey.

## Terry Kelly Wins Ribbon At Track Meet

The first summer recreation track meet was held at Andrews last Saturday. This meet was for boys only, and only eight boys showed up for the trip. They were Terry Kelly, Randy Connor, and Johnny Gonzales, in the junior division, and Kendall Blocker, Ben Bowlin, Ralph Gonzales, Tim Glynn, and Craig Eiland.

The only boy that won a ribbon was Terry Kelly. He placed fourth in pole vaulting.

The next track meet will be held on Saturday, June 19, at Seminole. This meet will be for both boys and girls. Middle division is 11 years and under, junior from 11 through 13, intermediate 14 and 15, and seniors 16 and over. The meet will begin at 9:00 a.m. The bus will leave at 7:00 a.m.

## Boy Injured In Collision

Gerald Stanley, son of Mr. and Mrs. D. A. Stanley, 507 West 4th Street, ran into the side of a pickup while riding his bicycle south on Carroll Street. The pickup was driven O. C. Turner, owner of Turner Texaco on the Lamesa Hwy. Turner was driving west on Carpenter Street. The accident occurred Tuesday afternoon.

Stanley was checked here, and immediately taken by ambulance to Malone-Hogan Memorial Hospital in Big Spring. From there he was transferred to the Methodist Memorial Hospital in Lubbock, where they discovered he had three skull fractures. Surgery was not indicated, however.

Report Wednesday morning was that Stanley had a restful night, and that no damage had been done to his brain. He will remain in the hospital for five days, and if no complications set in, he will be released.

## School Board Holds Short Meeting Monday

The Stanton Independent School District Board held an unusually short meeting on Monday night.

The board approved the hiring of Harold Oldaker, of Midland. Oldaker will teach a vocational shop course at the high school. Approved the Title I program participation again for the coming school year.

The board elected Board President George Glynn, as a delegate to the Texas State Association of School Boards. Glynn will attend the associations annual meeting in San Antonio on September 26 and 27.

Board vice-president Owen Kelly was appointed alternate delegate.

Next regular school board meeting is scheduled for Thursday, July 8th.

**Martin County Farm News**

Farmers of 25 High Plains counties in 1971 brought in a net 187,973 acres of cotton allotments under the liberalized sale, lease, and transfer provisions of the current cotton program. The 25 counties are those represented by Plains Cotton Growers, Inc., which sponsored more permissive rules governing cotton acreage transfers as the Agriculture Act of 1971 went through Congress last year.

Added to the area's original allotment of 1,630,222 acres, the new acreage brings the 25-county total base allotment to 1,818,195. In 1970 an estimated 50,000 to 60,000 acres of allotment were moved to the Plains from other areas. The increased purchasing and leasing of allotments this year is credited to the fact that the current program does not limit the number of acres that can be acquired by an individual farmer, doesn't prohibit acquisition of acreage by non allotment holders, and provides a much longer period of time in which leases and sales

can be arranged. Only 15,304 acres of allotments were transferred to the Plains on a permanent basis by outright purchases, but these will remain here so long as there is an allotment type program. The remaining 172,669 acres were leased by area farmers, in most instances for 1971 only. A few leases may have been made for the life of the current program, through 1973.

Farmers who leased or purchased allotments this year will be eligible for a production payment of 15c per pound times the "payment yield" established for the farm by the Agricultural Stabilization and Conservation Service. Leased allotments, generally speaking, cost the lessee from 7 to 10 cents per pound, with an average price probably in the range of 8 1/2 to 9 cents. Purchased allotments, on which farmers will be eligible for payments through 1973, were moved in at prices ranging from about 21 to 27 cents per pound.

**- SOIL CONSERVATION -  
DISTRICT NEWS  
OUR SOIL ★ OUR STRENGTH  
MARTIN-HOWARD-MIDLAND SOIL CONSERVATION**

The Great Plains Conservation Program administered by the Soil Conservation Service office, is a cost-share type program on permanent practices.

This is a program which contributes to the reduction of soil and water losses. It also reduces one of the greatest pollution hazards, which is the deposit of silt. There are several active Great Plains contracts with local farmers and ranchers according to the Stanton Work Unit office.

During 1970 the Great Plains program paid these co-operators to control soil erosion. This is a boost to the economy of the area beyond its value in the treatment of many acres to reduce soil and water losses as well as pollution. These practices are permanent, and not only reduce erosion and pollution, but also increase productivity from eroded areas.

Fields that have been eroded away and left with gullies have been smoothed out and leveled with parallel terraces. Many pastures that were infested with mosquitoes have been root plowed and reseeded to

permanent grasses. Old fields that were depleted through farming practices, have been turned into productive pasture and hay land. Irrigation systems have been reorganized to conserve water and be more efficient with the available water. Wildlife, such as dove and quail, have benefited through increased management practices. This is also a source of income if a farmer or rancher wants to lease out the hunting rights.

The Soil Conservation Service has funds available to be spent locally to anyone interested in the Great Plains Conservation Program.

These conservation measures are a tribute to your local Soil and Water Conservation District — a local agency that local people set up and manage to protect our State's soil, water, and wildlife resources. It is independent, and it's your assurance that our natural resources will be conserved while they are being used and developed by an expanding nation.

Give your local Soil and Water Conservation District, and its leaders your support.

**AREA STUDENTS  
CANDIDATES  
FOR DEGREES**

Stanton students Timothy K. Bristow, son of Mr. and Mrs. P. M. Bristow, is a candidate for the master of business administration degree, and Mrs. Judith Simpson Bristow, the M.S. education degree, were among the 5,888 candidates for bachelor's and advanced degrees June 14 at Indiana University, Bloomington, Indiana.

June 8: Rosa Marques, Mary E. Robertson, Peggy Leona Phillips, Midland, and Jonita Ann Jones.

June 9: Elise Jessen, and Evelyn Marlene Long.

June 11: Johnson T. Young, Louis Roten, Sandra Menefield, and Rhonda Allen, Midland.

June 12: Grace Mayberry.

label.

When the fish population in a pond becomes unbalanced with small stunted or rough, undesirable fish, it is best to remove all fish and start over with balanced stock, advises County Agent Billy Reagor.

If the pond contains adult fish, pond owners should not stock the pond with fingerlings obtained from state or federal hatcheries. Certain fish are cannibals as well as predators, and a few adult fish can eliminate every added fingerling in short order.

Fish killed by rotenone are edible. The material is not a poison in the true sense since it kills by suffocation. People, livestock, pets, frogs, and other vertebrate animals are not affected when they swim in or drink water treated with rotenone.

The material is to be used only in private bodies of water for management purposes. Interested persons are advised to check with the county agent for more detailed information on controlling undesirable fish.

**County Agent's  
Column  
Cattle Grubs  
Costly In Texas**

By BILLY REAGOR

Cattle grubs cost the Texas livestock industry several million dollars each year. Losses to this pest are an important economic consideration in Martin County, according to County Agent Billy Reagor.

Losses occur at all levels in the production and marketing chain, he says. The cow-calf producer is concerned about reduced milk production by the mother cows, and resulting reduced weaning weights of calves. The feeder suffers losses as a result of reduced gains and lowered market price for grubby animals. The packer who buys and slaughters grubby animals realizes hide losses, carcass trim, increased handling costs, and

lowered carcass value. Therefore, cattle grub control deserves the attention of the entire beef industry, explains Reagor.

Cattle grubs can be effectively controlled through the use of systemic insecticides. Depending upon the operation, systemics can be administered as dips, sprays, backline pour-ons, mineral mixes, or feed additives. Cost of these treatments vary with the method and chemical selected, but generally, ranges less than 50 cents per animal in most instances.

A listing of chemicals and methods of treatment for systemic cattle grub control is available at Reagor's office. He invites beef cattle producers to call or visit his office for the recommendations.

Before purchasing and using livestock insecticides, the county agent strongly recommends that labels be read and particular attention be given to the precautions and restrictions listed. Also to follow to the litter, slaughter intervals as clearly stated on the

**TANA YATES, HIGH  
INDIVIDUAL AT  
4-H HORSE SHOW**

Tana Yates, 13-year-old daughter of Mr. and Mrs. Sammy Yates of Tarzan, entered in the 13-14 age group in the 4-H Horse Show and Play Day at Brownfield Saturday, June 5.

Tana placed first at halter, second in barrel racing, second in reining, third in Western Pleasure, fifth in poles, and also had the Grand Champion Mare.

She had a total of 22 points, and received a trophy as high

individual. On Saturday, June 12, Tana also won high point individual with 46 points at Post Texas, Garza County 4-H Horse Show. She placed first in flags, second in halter, second in poles, fourth in Western Pleasure, fifth in barrels, and sixth in reining.

**OUT OF TOWN  
VISITORS AT**

**THE MADISON'S**

Visiting in the home of Mr. and Mrs. Dick Madison on Sunday, June 13, were her mother, Mrs. Gladys Bradford of Ben Aslakson, Red Wing,

DeLeon; her sister, Mrs. Rue-Minnesota; three brothers, Mr. and Mrs. Bob Bradford and family, Levelland; Mr. and Mrs. John Bradford and family, Brownfield; Mr. and Mrs. Mack Bradford and family, Odessa.

Other visitors were Mr. and Mrs. Don Bizzell, Troy and Tracy, and Mr. and Mrs. Bobby Holland, Stanton.

Mrs. Bradford and Mrs. Aslakson spent several days visiting in Stanton.

Glynda Anderson

### Glynda Anderson Engagement Announced

Mr and Mrs. Raymond Anderson, Seminole, announce the engagement and approaching marriage of their daughter, Glynda, to Dennis Ringener, son of Mr. and Mrs. L. D. Ringener.

The wedding date has been set for July 12 at 8:00 p.m., at the Seventh Street Church

of Christ in Seminole. The bride-elect will be a junior at Stanton High School next fall, and the future bridegroom graduated from Andrews High School with the class of 1971, and is presently employed by Connally Oil Co., Stanton.

**HAVING A GARAGE SALE?**  
 Want a big crowd? Run a classified ad in The Stanton Reporter. Come in or call 756-3344.

Virginia has 567 miles of coastline.

### BELVUE CHURCH OF CHRIST TO HOLD BIBLE SCHOOL

Vacation Bible School will begin June 21, and continue through June 25, from 9:00 a.m. to 11:00 a.m. at the Belvue Church of Christ, 1104 Blocker Street.

Classes will consist of Bible Studies, Songs, and other activities. Wayne L. Zuck, is director; Judy Costlow and Patsy Odom, nursery; Bettye Scott and Kay Mims, beginners, ages 4 and 6; Frances Tate and Pat Morrison, kindergarten to age 6; Barbara Bowlin and Torcey Swinson, grade 1; Jeanette Martin and Gail Alsup, grade 2; Retith Zuck and Anita Cox, grade 3; Marie Wilson and Faye Smith, grade 4; Lurlene Morrison and Lucy Glaze, grade 5 and 6; Mark Brazle, Midland, junior and seniors. Adult class will be conducted by W. L. Zuck.

### 4-H SQUARE DANCE CLUB WELCOMES NEW MEMBERS

The Martin County 4-H Square Dance Club met last Friday evening, June 11, in the Catholic Fellowship Hall. It was decided that each member pay 50¢ a month for dues.

A new session is now underway, and the club welcomes new members.

There will be another meeting this Saturday, June 19, at 8:00 p.m. Members will be notified as to where the meeting will be held.

### REV. AND MRS. HALL HOLD OPEN HOUSE

Rev. and Mrs. Warren Hall held open house at the Baptist Parsonage, 708 N. St. Joseph, on Sunday, June 13, between 2 and 5 p.m. Women in the house party were Mrs. Irene Long, who pinned the flowers; guest book, Mary Keaton, Mrs. Guy Elland, and Lillian White; poured punch, Dr. Sue Fisher, Mrs. Sid Cross, and Mrs. Delbert Franklin; poured coffee, Mrs. Ruth Lucas, San Angelo, Mamie Roten, and Lula Mae Sale.

At the replenish table, Mrs. Bob Glenn, Janelle Waddell, Mrs. John Pinkton, Mrs. H. O. Phillips, and Elaine Elland; conducted dtour of south part of house, Billie Pinkerton, Clara Clements, and Oleta Young; conducted tour of north part of house, Mrs. Roy Martin, Mrs. Troy Bradshaw, and Sandra Pennington.

Children were served on the patio by Mrs. Helen Ruth Louder, Mrs. B. F. White, and Mrs. C. L. Mendenhall pouring punch, and Mrs. Ed Lawson, Bonnie Franklin, and Lajuana Byrd, replenishing the cookies.

Approximately 90 to 100 guests attended.

### VACATION BIBLE SCHOOL JUNE 21-30

It is time for Vacation Bible School. This year the First Baptist Church will sponsor a parade through the city area after the Preparation Day exercises, which will begin at 9:00 a.m. Friday, June 18. All children are urged to be present and register for V.B.S., which will be held next week, June 21-30.

The boy or girl with the best decorated bicycle will win a prize.

After the parade, cookies and punch will be served at the church. Everyone is invited to come join in Vacation Bible School '71.

The principal for the school will be the Baptist pastor, Brother Warren G. Hall.

### MRS. RINGENER CROWNED QUEEN

Mrs. W. A. Ringener was crowned May queen for weight loss when the Stanton Scale Steppers Club met recently in the Martin County Library.

The club pledge was led by Mrs. Joe Barber, Mrs. Calvin McKenzie presided.

Rosalyn Louder presented the treasurer's report.

It was announced a new six-week contest for loss of inches will end July 20. The club's third birthday party was set for July 13.

Mrs. Derwood Clardy will be honored at the July meeting on her birthday. New officers will be elected June 22.

### BIG SPRING RODEO PARADE JUNE 23

The Martin County Sheriff's Posse did not get to attend the Andrews County Rodeo, or the Rotan Rodeo due to the rain.

The Big Spring Rodeo and parade will be June 23. All members are urged to be present, and try to make it the event of the year.

For further information, contact Lloyd Henson, president, or Dan Saunders, County Sheriff.

## New Arrivals

S/Sgt. and Mrs. Henry Graves, Belton, Texas, announce the birth of a son on May 27, at Scott and White Hospital, at Temple. They have named the infant John Ivan, and he weighs eight pounds, two and half-ounces, and is 20 inches long.

Sgt. Graves is with E Company 124th Maintenance Bn., 2nd Armored Division, Ft. Hood, Texas. The Graves' are formerly from Stanton.

The maternal grandparents are Mr. and Mrs. E. C. Warner of Temple, and the paternal grandmother is Mrs. Fannie Graves of Stanton.

# Local News In Brief

Visiting in the home of Mr. and Mrs. Martin Gibson the early part of the week, were their daughter-in-law, Mrs. M. L. Gibson, and granddaughter, Anne, Austin.

Guests at the home of Mr. and Mrs. Roland Swanson this week are Mr. and Mrs. Clifton Buchanan, Gallup, N. M., and Mr. and Mrs. Ralph Howell, Windom, Texas, and Mrs. Fannie Farmer, O'Donnell.

Mrs. Buchanan and Mrs. Howell are sisters of Mrs. Swanson, and Mrs. Farmer is Mr. Swanson's mother.

Mr. and Mrs. Glenn L. Brown and family spent the past week-end in Dallas, visiting their son, Guy, who just moved there from Abilene.

Guests in the home of Mr. and Mrs. Morgan Hall last week were Mr. Hall's sister, Mrs. Gene DeBaun, and niece, Carol Jean, from San Antonio.

Mr. and Mrs. Morgan Hall, Mr. and Mrs. Bob Cox and family, went to Robert Lee to celebrate the Golden Wedding Anniversary of Mr. and Mrs.

Allie Bilbo, on Monday. Mrs. Bilbo is a Mr. Hall.

Wayne Zuck and spent their vacation in Indiana, visit daughter and son-in-law and Mrs. Jerry I. They were gone from June 10. They all Mrs. Zuck's relatives in Kentucky, and sight-seeing through Enroute home, the relatives in Texas, and their grandson, Buddy, from Wichita home with them for three weeks.

Mr. and Mrs. Tom Bryan and Lesa, returned last Sunday after vacation to Oceanview, California, where they visited Mrs. Angel's sister and brother-in-law, Mr. and Mrs. Lloyd Harvey and son. Enroute, they spent one night in Ruidoso, N. M., visiting Mrs. Angel's aunt and uncle, Mr. and Mrs. Ike Kennedy.

When you're tying string on a package solo it's easier to pull it tight if you tie the knot on the edge of the box instead of in the middle.

Horsereading is the country's most popular sport, outdrawing even baseball and football.

## Philosopher Starts Out To Solve Part Of The Litter Problem But Then Backs Away

Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw, tackles the garbage problem this week).

Dear editor:

According to an article I read in a newspaper last night which I'd already looked at once but was better than the re-run I'd already seen three times on television, some ecologists were up in arms in some city, I forget which, because members of the women's garden club served refreshments in paper cups.

Cold drinks, they contended, should be served only in returnable bottle or re-usable glasses, and the women ought to be ashamed to be contributing to the garbage problem.

They said they had nothing against garden clubs, but the members ought to join the national drive to cut down on the millions of tons of disposable containers now plaguing the nation.

I have been thinking about this and I guess the ecologists are right, but they shouldn't stop with paper cups. For example, what I'd like to see is a returnable automobile. These throw-away models are cluttering up in junk piles of the world. The same goes for refriger-

A bud vase with a fresh flower placed in the glass holder for a guest bathroom will perk up the scene.

HAVING A GARAGE SALE? Want a big crowd? Run a classified ad in The Stanton Reporter. Come in or call 756-3344.

Martin County Abstract Co. P. O. Box 766 Stanton, Texas 79782 H. Hilton Kaderli, Sr. Sole Owner.

ators, washing machines, box cars, baby beds, etc. I don't know about Congressman. There're very few returnable ones. When one gets beat he rarely returns home to the people he claims he loves, he gets appointed to a job and stays on in Washington. They tell me there're hulks of ex-Congressman scattered all over the place.

Or getting back to paper, take postage stamps, a small item you might say, but do you know how many billions are used every year? There's no need for the post office department to print up thousands of tons of stamps, and ship them around to all the country's post offices, then haul them back one at a time on letters where they'll be thrown into the receiver's wastebasket with the envelope. All the post office needs is a machine that'll read numbers. You write your Social Security number on the envelope where the stamp goes, the machine reads it, charges your account and adds it to your income tax.

You might say, yeah, but what are you going to do about people who forge other people's Social Security number on their letters, and my answer is, let's change the subject.

Yours faithfully, J. A.

## Cleaning Problem?

CALL 458-3369

Cleaning All Types Of Windows, Walls, Floors. Home or Office. Also Yard Work.

**These . . .**

(Continued from page 1)

In such a situation you go back to the last inning of complete play and the team ahead at that time is the winner . . . naturally, we were behind at the end of the fourth . . . so we lost.

Well, I wasn't happy about that . . . but rules are rules, and you have to live with them even if they go against you.

But in our Monday night game . . . again against the Blacks . . . a new curve was dished up at home plate . . . since the start of the season all teams have had a five-run inning rule . . . which means that when a team at bat scores five runs they are automatically retired . . . the reason for such a rule is obvious and was agreed upon by all managers at the pre-season meeting.

Suddenly on Monday night, it

just prior to the game, it was announced that this rule had been changed from allowing five runs in one inning to six. Now, I didn't hear the announcement Monday so wasn't aware of this change until the Black team had scored five runs in one inning, assuming that they were now out, I was waiting for our kids to get in off the field, when amazingly enough, the Blacks kept on batting and scored one more run.

I wasn't just unhappy anymore, I was mad, for never have I heard of rules being changed in the middle of the season, and never have I heard of rules being changed without a meeting held at which all parties were represented. If a meeting to change this rule was held . . . no representative from the Green team was invited to attend, and if no meeting was held, then who changed the rule? And why?

We didn't lose the game . . . it wound up in a 7-7 tie . . .

but if we had been playing under the same rules as last week we would have emerged with a 7-6 victory.

All I can say is . . . we ought to live with the official Little League rules, and not change them or tamper with them in anyway. Too often, so-called hometown rules leave a lot to be desired. As I said before, I'll live with the rules . . . I just like to know what they are and to be sure they're not going to change from game to game.

**Stricter Drug Laws  
Needed Survey Shows**

A two-to-one majority of teachers, students, and boys on probation believe laws on drug abuse should be more strict according to a state-wide survey made by Texas Alcohol Narcotics Education (TANE).

The question, "Do you believe laws on drug abuse should be more strict?" was answered, "Yes" by 85 per cent of teachers, 65 per cent of high school students, and 64 per cent of boys on probation. Total response was 67 per cent for more strict laws.

The survey was taken in

both rural and metropolitan areas of the state, from Farwell, near the New Mexico line, to Houston. In large city schools, the administration was asked to determine a representative cross section of teachers and students.

"Are you personally acquainted with a drug abuser?" was answered "Yes" by 18 per cent of teachers, 53 per cent of high school students, and 50 per cent of boys on probation.

"Do you know someone who could get illegal drugs for you today if you wished to make a purchase?" was answered "Yes" by 12 per cent of teachers, 52 per cent of students, and 39 per cent of boys on probation.

"Do you know someone who would sell illegal drugs directly to you if you wished to make a purchase?" was answered "Yes" by 10 per cent of teachers, 40 per cent of students, and 39 per cent of boys on probation.

"In your opinion, what are the two main factors leading to drug abuse in teenagers?" was answered "Peer Group Pressure," and "Curiosity." In that order, by teachers. Students, however, rated "Curiosity" first. Boys on probation rated "Escape" first, and "Sex Substitute" second.

"In your opinion, what are the two most important preventive measures that can be taken to combat drug abuse?" was answered "Education," "Elimination of Supply of Illegal Drugs," by teachers and students. Boys on probation rated "Education," slightly ahead of "Law Enforcement," "Stronger Laws," and "Legalization of Marijuana."

The question: "Is it possible to learn about the effects of a drug without personally experimenting with it?" was answered "Yes" by 98 per cent of teachers, 90 per cent of students, and 84 per cent of boys on probation.

"Have you come to a decision about whether or not marijuana should be legalized?" was answered "Yes" by 80 per cent of teachers, 78 per cent of students, and 44 per cent of boys on probation. (They were not asked what their decision was.)

Areas involved in the survey were Farwell, Cotulla, Sulphur Springs, Richardson, Garland, Childress, Grapevine, McAllen, Fort Worth, and Houston. (The survey was also taken in Dallas, but results were not returned in time for tabulation.)

TANE is a non-profit, educational organization, dedicated to preventing alcohol and drug problems. In existence since 1935, it is supported financially by Texas churches, individual contributions, businesses, industry, and proceeds of sale of educational aids.

Programs include public school assembly programs, in-service teacher training workshops, drug education seminars for schools and churches, publishing books, production of audio visual aids, a 150-man speakers bureau, legislative information service, research, and an annual drug education workshopco-sponsored by Baylor University. The next workshop is scheduled for August 5-7 in Waco.
