

## To The Point

By  
BUDDY NORVILLE

We were having a little family squabble at our house the other day, and Scotty got in on it too. Somehow or other one of us asked Scotty which was the meanest, mom or dad. Scotty, being very much a daddy's boy, answered, "Mommy is the meanest." To this his mother replied, "Scotty, you're just prejudiced because you're a boy." Whether Scotty heard her say 'prejudiced' or not is unknown to me. But he understood her to say 'pregnant.' So the little fella quickly retorts, "No I'm not pregnant. I don't have a baby in me. You're pregnant mommy, not me." Well, it hadn't been long since Brenda was pregnant, but she wasn't at the time.

The point of all this is, 'little ears hear a lot.' Sometimes they hear more than they should, and they don't mind repeating it. So watch what you say around 'little ears.'

Hey, football fans. Who do you think has the winningest major-college football team over the last five years? Penn State with a 3-win streak? Texas with 30 straight, Ohio State with 22 straight? Give up?

Tennessee. By a scant three percentage points, 853 to 850, over Notre Dame, another streakless team.

Tennessee has lost just one game each of the last four regular seasons. That's doing something in their conference.

I'm going with the Cowboys again this fall. I hope I won't be ready to ditch them by mid-November again this year.

It won't be long until the local boys will be hitting the gridiron for two-a-day workouts. I'll tell you, I don't envy the lads, out there in that August sun. But I'll be one of their best supporters, you can count on that.

## Mrs. Davis Rites Held In Midland

Mrs. Mary F. Davis, 67, died in a Rankin hospital Friday after apparently suffering a heart attack while returning to Midland from an outing on the Pecos River.

Services were held Monday at 10 a.m. in the Golf Course Road Church of Christ with burial in Resthaven Memorial Park directed by Ellis Funeral Home.

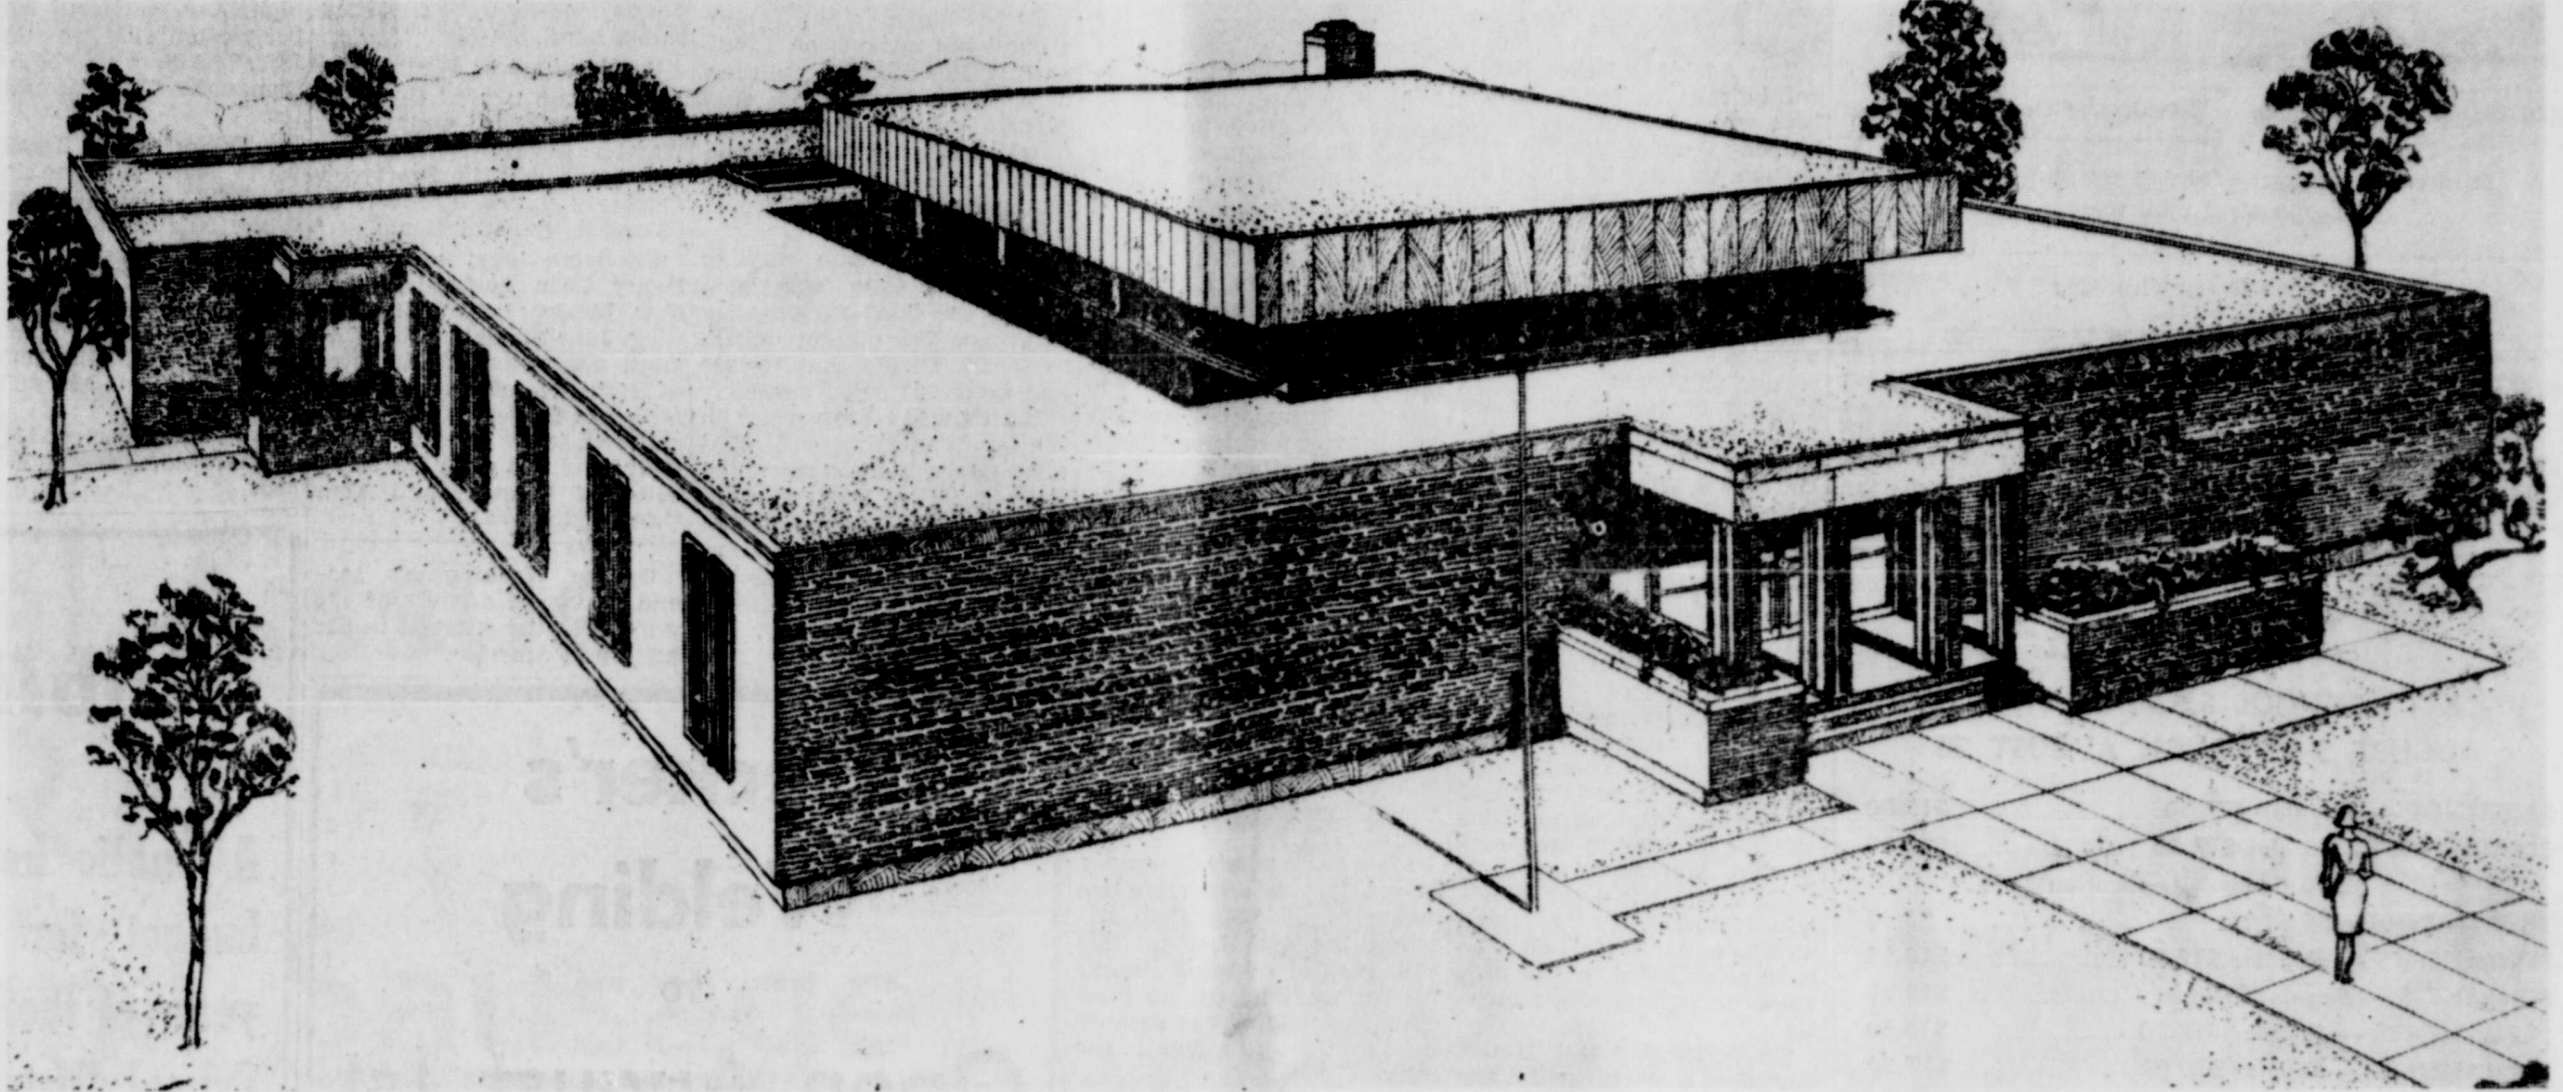

Born in Palo Pinto County, she was married to Joe C. Davis in 1925. They lived in Seagraves and Iraan before moving to Midland from Abilene in 1949. She was a member of the Church of Christ.

Survivors include her husband; three sons, Joe C. Davis Jr. of Colleyville, D. Truitt Davis of Alpine, and Lawrence Porter Davis of Phoenix, Ariz.; a daughter, Mrs. Ray Golden of Pecos; two brothers, W. L. McNeil of Midland, and L. D. McNeil of Stanton; a sister, Mrs. L. V. Cook of Gallup, N. M., and 10 grandchildren.

## Legion Of Mary Meets

There was a meeting of the Legion of Mary Monday, July 26. This Legion is an association of Catholics who render services through the church. Their main objectives are to help the priest and the church, to visit the sick and elderly who are unable to attend church, and to render any other services to the church which might be needed.

Officers of the Legion of Mary are: Anita Gonzales, president; Linda Villa, vice-president; and Mary Salgado, secretary-treasurer. Other members include Dora Villa, Clemente Villa, Lyn Herzog, and Gloria Bryand.

ARTIST'S SKETCH OF PROPOSED COURTHOUSE

## What's Happening Stanton Residents Named Outstanding Young Women

There will be a free children's clinic August 4, 4-6 p.m. in the Elementary School Building, Room 8, for all children, pre-school, and school age. Smallpox, DPT, and all immunizations which might be needed will be given. The Clinic is sponsored by the Hospital Auxiliary, and other volunteers.

Lions Club will meet at the Belvue Restaurant during the month of August.

## CITY COUNCIL MEETS

The Stanton City Council met in a special meeting July 26, and hired a new night watchman. Mr. Tim Hudson, 43, will be moving to Stanton to fill the vacancy on the police force. Mr. and Mrs. Hudson have two children, a boy and a girl, 13 and 9. Mr. Hudson has worked on the police forces at Midland and Andrews. He will be assisting Chief Rogers in a night time capacity.

Three Stanton young women have been selected outstanding young women for 1971, according to an announcement today by the Rho Xi, BSP. They were nominated by the organization earlier this year on the basis of their achievements. The young women are: Judy Reager, Bonnie Franklin, and Sara Blocker.

The Outstanding Young Women of America program, now in its eleventh year, was conceived by the leaders of the nation's major women's organizations. The program recognizes young women between the ages of 21 and 35 for their contributions to the betterment of their communities, professions, and country. Serving on the program's Board of Advisors are the national presidents of women's clubs, headed by Mrs. Dexter Otis Arnold, honorary president of the General Federation of Women's Clubs.

Each year over 6,000 young women are nominated as Outstanding Young Women of America by leading women's organizations, college alumni associations, and churches across the country. Complete biographical sketches of all nominees are featured in the national volume, Outstanding Young Women of America.

These women are now in competition for their state's Outstanding Young Woman of the Year Award. This fall, fifty of the young women included in Outstanding Young Women of America—one from each state—will be named as their states' Outstanding Young Woman of the Year.

Publication date for the 1971 awards volume is November.

## New Zealand Farmer Visiting In Stanton

Mr. Ossie J. Hickman, a native of New Zealand, is in Stanton for two weeks observing farming practices in this area. Ossie, pronounced Ozzie, is in the United States on an IFYE exchange program conducted by the National 4-H Club Foundation. The program with New Zealand is in cooperation with the New Zealand federation of Young Farmers' Clubs.

While in Stanton Mr. Hickman is staying in the home of Mr. and Mrs. James Eiland.

While here Ossie will be observing techniques of area farmers in the area of feeding cattle, production of seed, breeding of cattle, and other interests.

## Social Calendar

- Martin County Farm Bureau — First Tuesday of each month.
- Lions Club — Each Tuesday at noon.
- Rotary Club — Each Wednesday at noon.
- Driver's License Officer — Each Friday 8:30 till 5:00.

## Charles Pinkerton Gets Certificate

Charles D. Pinkerton, of Stanton, was one of the one hundred and seventy-six vocational teachers who studied this summer at East Texas University, working toward state certification in Coordinated Vocational-Academic Education (CVAE).

CVAE is a new program being started in many public school systems to combine vocational and modified academic instruction for students with learning difficulties. The object of the program is to furnish the student with a salable vocational skill and basic knowledge in the fields of math, science, English, and social studies.

John Murl Dunahoo, instructional specialist at ET-SU, explained that in many schools CVAE has become one of the most successful programs. He said that students who have never had any interest in school have become active and successful in the new program.

Dunahoo explained that CVAE has been able to cut the dropout rate and raise the level of attendance among students with learning difficulties. "They've found a place where they can succeed," he said.

## Baptist Men Hear Dr. Morriss

The annual Baptist Men's rally was held Saturday at the Permian Basin Baptist Encampment.

The call to order session was led by Dr. H. M. Jarrett, president of the area men's association. Other officers are: Willie DuBose, secretary; Sam Robertson, secretary-treasurer; and Douglas Beggs, Royal Ambassador Leader.

The music and song service was led by Charles Hardage, First Baptist Church, Lamesa. Warren Hall, First Baptist Stanton, gave the evening scripture reading and prayer. Reports on the work of the boys program, the Royal Ambassadors, were reported by Douglas Beggs, Midland, and the encampment report was made by John S. Rankin, Stanton, camp director.

Dr. L. L. Morriss, pastor of the First Baptist Church in Midland, delivered the message of the evening. C. J. Humphrey, Amarillo attorney, who is first vice president of Texas Baptist Men, also addressed the group.

# New Courthouse, Jail Proposed; Election Set

Martin County Commissioners Court voted Monday to call a Bond Election for August 21, 1971. Citizens of Martin County will be voting on a \$450,000 bond issue concerning remodeling or building a new courthouse and jail. Two ballots will be marked. One will be for or against the issuance of the bonds. The second, a referendum to decide how the \$450,000 will be spent. If the bond issue passes, the \$450,000 will be spent on either remodeling or building a completely new courthouse and jail.

It is possible that the bonds could be paid off in twenty or

twenty-five years without raising taxes. This, of course, is based on the assumption that there will be no decrease in valuation of property in the future. Last year (1970) there was approximately a \$5 million increase in valuation of oil income. As much is expected for this year. This means approximately \$45,000 a year coming into the county treasury.

A new court house can be built for \$450,000, which is the amount of the bonds. To remodel the existing structure would cost an additional \$300,000. If voters decide to re-

model the present building, cutbacks will have to be made to stay within allowable costs. According to architects, there is no way for the present building to be hulled out without the roof being removed. If the roof stays on as is, the existing inside walls would have to remain as they are. This would not give more space, which is what is needed at present.

This is an important issue, concerning everyone in Martin County. The need for change is great, one way or another. It is up to the people to decide which change.

# Oilpatch Outlook

Located 13½ miles northwest of Stanton, The Estate of Fred Turner Jr. filed application to drill No. 1 Mary L. Badgett as a ½-mile stepout to the nearest production in the Trend Area.

It spots 1,320 feet south and west lines of section 1, block 38, T-1-N, T&P survey. Scheduled depth is 9,350 feet.

Coquina Oil Corp. of Mid-

land, staked No. 1-A Smelting, as a 9,400-foot test, ¾ mile northeast of the nearest production in the area.

Drillsite is 1,320 feet from south and 990 feet from west lines of section 35, block 36, T-2-N, T&P survey, 12 miles north of Stanton.

Operators have completed a new producer, and staked sites for two new developments in the Spraberry Trend of Martin.

Kelly Bell, Midland, No. 1 The Allar Co., ½ mile north and east of production in the field, has been completed to flow 236 barrels of oil, plus 15 barrels of water daily.

Production was through a 10-64-inch choke, and perforations at 8,185-8,863 feet, which had been acidized with 3,000 gallons, and 90,000 gallons, and 180,000 pounds of fracture material.

Wellsite is 1,320 feet from north and east lines of section 27, block 36, T-2-N, T&P survey, two miles north of Lenorah.

Adobe Oil Co., Midland, filed applications to drill two projects to 9,200 feet, in section 48, block 37, T-1-N, T&P survey, nine miles northwest of Stanton.

No. 3-C Hazelwood, about ½ mile east of the nearest production, spots 1,320 feet from south and west lines of section.

No. 4-C Hazelwood is located 1,320 feet from north and west lines of section, and ¾

mile northeast of the nearest completed well.

Operators slated two new tests for the Spraberry Trend of Martin.

Hanson Oil Corp. of Roswell, N. M., staked No. 2-15 R. B. Brown as a ½-mile west step-out the nearest production, it the field.

Drillsites is 1,320 feet from south and 1,520 feet from west lines of section 15, block 36, T-2-N, survey, 3¼ miles northwest of Lenorah. Proposed depth is 9,100 feet.

Scheduled to be drilled to 9,400 feet, John L. Cox, Midland, filed No. 1 Essie Martin.

Located 10 miles west of Stanton, and one mile west of out to nearest production in spots 1,320 feet from north and east lines of section 13, block 38, T-1-S, T&P survey.

Adobe Oil Co. of Midland, has announced location for projects in the Martin part of the Trend Area, nine miles (See Oilpatch on page 8)

## GOLF MEET HERE

There will be a partnership golf tournament this weekend at the Stanton Country Club. An entry fee of \$30 per team will be charged.

The meet will be limited to the first 50 teams who enter. There will be shotgun starts at 9:00 a.m., and 2:00 p.m., Saturday and Sunday, July 31st and August 1st. Phone 756-2556 (night, 756-3355) for more information.

LOCAL 4-H MEMBERS — Glenda Langston, Doris Howard, and Home Demonstration Agent Mildred Eiland, attended the District Dress Revue June 22, at Fort Stockton. Both of the 4-H girls won blue ribbons for their entries.

### Nolan Parker Will Attend Teachers Meet

Vocational Agriculture Teachers, some 1,300 strong, will parley in Dallas, August 3-6, for an annual meeting and in-service education workshop.

Attending the conference from Stanton will be Nolan Parker.

The Adolphus Baker Hotel will be the sites for the meetings, which kick off beginning Monday, August 2, with registration starting at 3:00 p.m., announces Mr. J. A. Marshall, State Director of Vocational Agriculture Education, Texas Education Agency, Austin.

A full slate of events make up the program for the annual meeting. The first general session will begin at 9:00 a.m. Tuesday in the Little Theater at the Dallas Convention Center. Keynote speaker will be Dr. Carl S. Winters, public relations department, General Motors Company, Oak Park, Ill., and Dr. J. W. Edgar, State Commissioner of Education, Austin.

On Wednesday morning 7:00 a.m. the Vocational Agriculture Teachers Association will sponsor its Annual Awards Breakfast, according to Mr. Ray Shiner, vocational agriculture teacher, and president of the association. Tenure pins will be presented to the membership, and awards will be made to legislators, school administrators, Texas news media, and individuals who have contributed to the progress of Agriculture Education.

On Wednesday and Thursday the teachers will take part in district and area planning meetings and workshops in the following subject matter area: Beef Cattle, Catfish Production, Pre-Employment Laboratory Training, Greenhouse Facilities; Programs for Young Farmer Chapters, Creative Teaching, Pollution Control in Agriculture; Swine Production, Oxy-Acetylene Welding, and Second Year Teachers.

The second general session will begin at 8:30 a.m. Thursday, with G. G. Scoggins, assistant director of Vocational Agriculture Education, Texas Education Agency, Austin, as chairman. The following people will address the group: Mr. Newt Heischer, Shreveport, La.; Mr. John Guemple, Associate Commissioner Occupational and Technology, Texas Education Agency, Austin; Mr. Alton Ice, executive director, State Advisory Council for Technical and Vocational Education, Austin; Mr. Dick Britten, president of Texas Young Farmers Association; Bryan, and Alan Jones, Longview Future Farmer and president of the Texas Future Farmers of America.

Activities and entertainment are also planned throughout the four-day meeting for the ladies who will accompany their husbands to the annual meeting.

Approximately 1,500 Vocational Teachers, and friends are expected to attend.

The Australian banded ant eater has weak teeth.

### Philosopher Comes Up With Proposal To Keep Other Nations On Even Terms With Us

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw, tries to smooth the international feathers this week, but may have just ruffled them more.)

Dear editor:

In these days of de-classification of government secrets I was interested in reading about the latest one, a report on how much money in military aid the United States gives to various countries around the world.

Up to now, the matter has been classified as top secret, on the grounds, according to the government, that "it might be embarrassing if one country knew what another country was getting and therefore international relationships might suffer."

Some Senator did press the matter though and the government reluctantly gave the figures, showing that this year we're giving 713 million dollars in military aid to 42 different nations.

What interests me is this matter of damaging our international relationships if one country finds out we're giving more to her neighbor than to her.

It's a valid point. Everybody knows if you give more ice cream to one child than another, the one that got less will, instead of being thankful for what he got, in most cases get mad at you because he didn't get as much as the other.

Now the fat's in the fire. Here we are giving away

### Drought Pamphlet Now Available

What kinds of federal assistance are available to farmers, ranchers, farm workers, small business men, and others hit by the severe drought in parts of Texas, Oklahoma, and New Mexico?

Answers, in general terms, have been consolidated in a 16-page pamphlet prepared in English and Spanish by the President's Interagency Drought Committee, Dallas. It's called "Guide to Federal Emergency Drought Help Available, with separate versions for each state.

Copies of the pamphlet are available at county offices that handle U. S. Department of Agriculture drought assistance programs and information, including county extension agent, Agricultural Stabilization and Conservation Service (ASCS), Farmers Home Administration (FHA), and Soil Conservation Service (SCS). State and regional offices of Small Business Administration, Internal Revenue Service, and Department of Labor also have copies for individuals who ask for it.

"Information on federal assistance in the pamphlet has to be general because all programs are not effective in all counties of the state," points out George Hastings, chairman of the Interagency Drought Committee.

Specific types of assistance have to be requested, county by county, depending on need, Hastings said.

Martin Garber, USDA representative and committee vice chairman, suggests that any farm operator or owner who needs assistance through the federal government should discuss his needs with his county ASCS, ECS, or FHA office. These offices know which programs operate in each county and can place requests for additional assistance that may be needed.

### Phillips Cafe

We have to close due to lack of help, and bad health. We would like to thank our customers for their patronage.

### W. H. Self, 72, Dies In Lubbock

Wilson Henry Self, age 72, expired Tuesday, July 27, at 12 p.m. at the Methodist Hospital in Lubbock.

He was a former Stanton resident, and lived in Dawson County 12 years. Mr. Self was born March 8, 1899 in Midland County. He was a retired ranch hand.

Services were Wednesday, July 28, at 3 p.m. at the First Baptist Church with Rev. Warren G. Hall officiating. Interment was in Evergreen Cemetery under direction of Gilbreath Funeral Home.

Survivors are: one son, Henry Leon Self, of Hobbs, New Mexico; one daughter, Nella Jane Strickland of Midland; one sister, Hattie Estes of Stanton; one brother Roy D. Self of Lamesa; five grandchildren, one great-grandchild, and two nephews, M. S. Estes of Lamesa, and Tom Estes of Lamesa.

George Washington's second inaugural address of 134 words was the shortest in the history of America.

### Big Spring Chamber Of Commerce To Present "Starlight Specials"

The Big Spring Chamber of Commerce Cultural Affairs Committee is going to present a week in the park of "Starlight Specials" for the week of August 8-15.

Mrs. Roy Cederberg is the Starlight Special director. The show will be held at 8:15 p.m. nightly. A charge of 25 cents per person, with pre-schoolers free. The show will be held in Comanche Trail Amphitheater.

Sundays, August 8 and August 15, gospel sing (no charge). Monday, August 9, Black and White Night, (soul, jazz, and blues.)

Tuesday, August 10, Cosmopolitan Night. Fiesta foods will be served at 6:30 p.m. Proceeds will go to the Immaculate Heart of Mary Youth Group.

Wednesday, August 11, open. Thursday, August 12, Western.

Friday, August 13, Teen Night.

Saturday, August 14, Band Night. An ice cream social will be held at 6:30 p.m. Proceeds will go to the band boosters.

### POTECETIVE CABS URGED FOR TRACTORS

In 1970 accidents involving farm and ranch machinery took the lives of at least 40 persons. The Texas Safety Association says these deaths can be prevented if agri-businessmen will keep children away from and off of machinery, avoid tractor upsets, and equip tractors with protective frames or cabs, and use safety belts.

Trees which shed their bark during certain intervals of the year are called decortiating trees.

The wash-bear is a raccoon.

# A Short Report

I was appointed on a legislative committee to assist and study in any way possible the problems and solutions of Venezuelan equine encephalomyelitis (VEE). This seven man committee met in Austin July 20, and heard testimonies from the Animal Health Commission, doctors from the School of Veterinary Medicine of Texas A&M, and the Texas Agricultural Department.

The following information came from testimonies: The vaccine and the services are free to the horse owner. The federal government is paying the total cost. The county agents of each county are the official persons for you to contact.

The Animal Health Commission believes we need to vaccinate 90 percent of all horses to put a check and balance on (VEE). It is important that all of us cooperate with this program. There is over 10,000 horses dead in Mexico, and over 700 dead in Texas. Seventeen people in Texas are infected, and 89 others are suspected of having (VEE).

Our committee is making recommendations to the federal government that they spray the cities because the vaccination program is only a part of a solution. The mosquito is the carrier, and any

mosquito can transmit this disease by biting an infested horse then in turn infect a person or another animal. In South Texas counties that have received rain is where the great problem lies. Unless the drought breaks in this area and a new cycle of mosquitoes take place, I do not believe we will have very many problems. Vaccinated horses are known to be fully protected after 14 days. It is important that we protect ourselves from mosquito bites until this outbreak of (VEE) is checked.

The symptoms to a human is like having a mild flu virus. The vaccine is in the experimental stages, and is not available to humans. The disease is not known to affect humans as seriously as it does horses. There is no doubt that the vaccine is effective on horses. There is a number of cases similar to the following that has proved this point. A herd of 30 horses — 27 were vaccinated and three were not. The owner considered the three animals the best he had and was afraid to give them an experimental type vaccine. They contacted (VEE). The 27 were saved.

You should contact your physician if you have unusual mosquito contact, and or a summer flu. If you have a horse that needs vaccinating, call your veterinarian or county agent. I expect the quarantine to be lifted on the movement of horses very soon. If I can answer any questions concerning (VEE), please contact me in Tahoka at 998-4114.

## LEGAL NOTICE

### PUBLIC NOTICE

A public hearing on the school budget for the 1971-72 school year of the Flower Grove Independent School District, will be held on Monday, August 9, 1971, at 9:00 P. M. at the Flower Grove School. All interested persons should be present for the meeting.

Flower Grove Independent School District Board of Trustees

## Tax Man Sam Sez:

The Internal Revenue Service is concerned about twenty million American taxpayers who will not have enough taxes withheld during 1971 to pay their income taxes come April 15, 1972.

Fourteen million of these taxpayers are the married couples that have both the husband and wife working. The tables enacted by law are based on the assumption that only the husband works. When the husband and wife both work they must see their employer and make special provisions to get enough withheld or they will end up the year owing the government additional tax.

There are also six million single taxpayers who have to make special provisions with their employer to have enough tax withheld. The Internal Revenue Service launched a TV spot-radio spot-news story campaign to get taxpayers to take a look at their withholding now rather than be faced with a problem of owing several hundred dollars in taxes when they prepare their income tax return. You can't go wrong in dropping by your payroll office and checking on whether you are in balance with Uncle or not.

## Midland Museum Shows Scenes

Acquisitions of the Museum of the Southwest, in Midland, are currently on exhibition. Area scenes are featured in the numerous works of Merritt Mauzey including woodcuts, etchings, and lithographs.

More than 30 other artists are represented in the above named media, as well as oil and tempera.

The Shop of the Southwest, which is located in the Museum, will be open to the public from 2 to 5 p.m. Tuesdays through Sundays.

The Museum of the Southwest is open Tuesday through Saturday, from 10 a.m. to 5 p.m., and on Sundays from 2 to 5 p.m. There is no admission charge at any time.

### New Cotton Study At A&M

A method of establishing the impact of restrictions in the use of agricultural chemicals on cotton production is under study at Texas A&M University. Emphasis of the study, to be conducted by research workers of the Texas Agricultural Experiment Station, is to test a new technique for establishing the relationship between cotton production and pesticide use.

Courts have decided that meteorites belong to the owners of the land on which they are found.

## Weight Watchers. Why settle for less?

Free Open Meeting Monday August 9 at 7:00 First United Methodist Church Basement Stanton, Texas

## WEIGHT WATCHERS

Some talking, some listening, and a program that works. "Weight Watchers" is the Registered Trademark of Weight Watchers International, Inc. Great Neck, N. Y. Weight Watchers International, Inc.

## TEXAS FARMERS UNION

# DA "Aiding And Abetting Cotton Trade"

The Texas Farmers Union governing board has accused the Department of Agriculture of falsely representing there is a shortage of cotton.

The eleven-member Executive Committee, meeting in Waco last week, adopted a resolution condemning USDA for "aiding and abetting the cotton trade" in releasing information that would disadvantage cotton producers in planning for the future.

The resolution stated that the present conditions do not justify the expansion of cotton production. It pointed out the parity price of cotton is in excess of fifty cents a pound, while the producer is currently receiving less than fifty per cent of parity.

The general farm organization, representing several thousand Texas cotton farmers, protested that textile mill margins indicate increased profits to cotton manufacturers, while cotton farmers are being called upon to sell for less than the cost of production to "preserve markets that are not worth preserving."

"There is no indication that higher cotton prices will put cotton in an unfavorable market position with manmade fibers, and cotton farmers have the responsibility of managing their production so as not to produce in excess of what can be sold at profitable prices," the Farmers Union statement said.

The resolution stated that

a "prime function of USDA is to assist farmers in managing their production, and to provide accurate information as to supply, demand and commodity pricing." It called upon the secretary of agriculture to direct its officials to "disengage" USDA from the propaganda program in partnership with "organizations that pose as spokesmen for cotton producers but are in fact front organizations for the textile manufacturing and processing industry."

The Farmers Union asked Secretary of Agriculture Hardin to see to it that the officials of USDA carry out their commitments to cotton producers by assisting them in balancing supply with demand. It also asked the US-

DA's public affairs and educational agencies, such as the Extension Service, be directed to accurately portray the true facts relative to cotton prices, supply, textile mill profits, and net cotton producer income.

In further action, The Texas Farmers Union Executive Committee protested a regulation in the cotton program which reduces payment yield when a cotton farmer loses a crop because of a drought disaster. "The payment yield reduction provision, presently in the law, is 'punitive and discriminatory when applied to areas which do not produce a crop because of a drought disaster," according to the resolution adopted.

## Business News

The wages a worker receives cannot be established at a higher scale than the competitive market system is able and willing to pay. Raising wage rates artificially higher than this will simply increase both unemployment and poverty.

This basic fact should be remembered by proponents of a higher minimum wage law, the Chamber of Commerce of the United States asserts. If the wage scale for the work a laborer performs, is over-priced, people stop purchasing.

The nation's largest business federation believes in the validity of a statement that "the established wage policy of this country has always been based on raising wages as increases in productivity made this possible. This is the only possible basis for an expanding economy."

This observation, by AFL-CIO President George Meany, holds true today as it did when first expressed over 25 years ago, the National Chamber feels.

## - SOIL CONSERVATION - DISTRICT NEWS

### OUR SOIL ★ OUR STRENGTH

MARTIN-HOWARD-MIDLAND SOIL CONSERVATION DISTRICT

Parallel terraces are paying big dividends in Martin County, reports the Soil Conservation Service. Reports from area farmers have shown increases of 80 to 85 pounds of lint cotton per acre. This will more than offset the initial cost of the terrace system. These increases are due to the extra water that is held on the land where it can be used. The parallel terrace system, by leveling in between the terrace ridges, spread the water out evenly over the entire area, making it available to the growing crops.

Parallel terraces are designed to fit modern farming, and they are practically free of point rows. The benefits from parallel terrace are the same for both dryland and irrigated land.

During a three inch rain 40 acre feet of water falls on a quarter section of land. If this water is not held on the land it is lost due to runoff. A farmer would have to irrigate for 20 days with a well producing 450 gallons per minute to replace it. The pumping cost alone would be over \$700.

The Great Plains Conservation Program will provide cost-share assistance up to 70 per cent of the cost of parallel terraces. This conserva-

tion program is administered by the Soil Conservation Service. The program provides a complete conservation plan for the entire farm and ranch and cost-share assistance to carry out the plan. Anyone interested in this program, should contact the SCS office in Stanton for additional information.

A parallel terrace system would be completed after harvest this fall, and be ready for the spring planted crop.

Our Soil and Water Conservation Program is designed to protect and maintain the food and fiber producing potential of the nation's farmland. The fact that the American farmer is the most efficient producer of food in the world, is testimony to the effectiveness of this effort and the technology developed from the research of the Department of Agriculture.

### SLIDE PRESENTATION

There will be a showing of slides on Sunday, August 1, at 8:30 p.m., at the United Methodist Church at Garden City, Texas. The slides will be shown by Mrs. Gene Cravens, former residents of Stanton. The slides will be on Alaska, the Eskimo's, and Indians, and their inhabitation.

# Youth In The News

**YOUTH REVIVAL**  
By LES BUTLER

Beginning the eighth of August and ending the fifteenth, the youth of the First Baptist Church of Stanton, will sponsor an old-fashioned tent revival. Larry Adams will take charge of the services on the eighth, with Mike Wilson finishing out the week.

Mr. Wilson is a 24 year old graduate of Hardin-Simmons. Legal tender is money which may be legally used in the payment of a debt, and which the creditor must accept.

University. He represents a combination of a keen, sharp mind, and a dedicated Christian heart. Mike is truly an evangelist. His first love is sharing the Good News of Jesus Christ. He has traveled around the world leading youth revivals and witnessing for Christ. He has been to foreign places such as Africa, South America, and Japan.

We consider it an honor having an evangelist such as Mr. Wilson in our community, and we would appreciate your attendance.

## CHEMICAL HANDLING RULES OUTLINED

Agricultural chemicals can be used or misused, according to the Texas Safety Association. To use them properly, agri-businessmen should always read the label and follow directions to the letter. Children should be kept away from mixing and spraying areas. In addition, chemicals should always be stored in their original containers in safe areas inaccessible to children and animals.

Read The Stanton Reporter for all the news of Martin County.

# HD Agents Column

By MRS. MILDRED EILAND

Do you have a surplus of fresh green beans? Can you buy them at reasonably low cost?

To enjoy their summer goodness in the middle of this winter, try canning them now, suggest Mrs. Mildred Eiland, County Home Demonstration Agent.

First, prepare the beans just as you would for cooking. Snap or cut into one or two inch pieces, or leave whole if you prefer.

Pack the raw beans tightly in clean jars to one-half inch of the top. Pour in boiling water, covering the beans until one-half inch space is left at the jar top. You may add salt — one-half teaspoon per pint, and one teaspoon per quart. Wipe off the jar sealing surface and close according to the lid type used. Follow the manufacturer's directions.

Place closed jars of hot beans on a rack in a pressure cooker with one and a half to two inches boiling water in the bottom.

Be sure to use the rack to hold jars off the bottom of the cooker, Mrs. Eiland reminds.

Fasten the canner lid securely. If the lid has clamps, tighten opposite clamps moderately first, then go back over the whole set tightening each pair as much as possible. Tighten only with your fingers, the specialist says.

Leave the petcock open until steam escapes steadily for 10 minutes; no air should be left in the cooker. If air remains, the vacuum formed draws liquid off the beans, she explains.

Close the petcock when the steam has escaped, Mrs. Eiland continues.

As soon as the pressure reaches 10 pounds, begin to count processing time. Maintain uniform pressure by ad-

justing the heat or by carefully moving the canner.

Process snap beans 20 minutes for pints, and 25 minutes for quarts.

After processing, remove the canner from heat, allowing it to cool until the pressure gauge registers zero. Gradually open the petcock and remove the cover. Leave beans in the canner about 5 minutes, Mrs. Eiland says, then place them right side up on the rack far enough apart for quick cooling. Avoid placing in drafts or on cold surfaces to prevent jars from breaking.

Mrs. Eiland reminds that the quality of the canned product will be no better than the quality of the fresh produce. In other words, use only high grade beans for canning. If you do this and follow directions, carefully, you should obtain olive green beans with fresh-cooked flavor.

For more canning information, contact the county home demonstration agent for a copy of an extension publication, "Home Canning Fruits and Vegetables."

## Local News In Brief

Mildred Eiland and Corene Manning attended the annual Northwest Texas Conference in Ceta Canyon, over the week end.

Mr. H. L. Shipp and George Mitten were in Dumas to visit Mr. Shipp's son and daughter-in-law and children. Mr. and Mrs. Bobby Shipp the week-end of July 17.

At Texas Electric, People Power is at your service.

Can one of our lighting specialists help you?

The right kind, the right amount, of lighting can add a friendly feeling of warmth and beauty to any room in your home. Imagine your kitchen counters lighted in such a way that your eyes can really see what your hands are doing.

Think of bathrooms with adequate, glare-free lighting, so that you never have to guess about hairdos or whiskers.

Picture a bleak, difficult-to-decorate wall taking on new and exciting interest with the help of special-effects lighting. It's happening all the time in many homes. It can happen in yours.

Our lighting specialists will listen to your wishes, make suggestions, and design a lighting plan for the home you're building or remodeling.

If you want to improve the lighting in just one room or area, you'll get the same willing assistance, just as quickly as we can give it.

The lighting ideas our specialists give you can help you get the kind of lighting you want. And they'll help your electrical contractor do his work faster and easier. There is no charge for our help. It's yours for the asking.

Part of our job is to see that you get the most benefit from the electricity you buy from us. At Texas Electric, People Power is at your service.

# From Page One

## Oilpatch - - -

(Continued from page 1)  
miles northwest of Stanton.

No. 1-I Sale Ranch, 1/2 mile north and east of the nearest production, is 1,320 feet from north and west lines of section 33, block 37, T-1-N, T&P survey. Projected depth is 9,200 feet.

No. 2-I Sale Ranch, 1/2 mile north, south and west of the nearest wells, is 1,320 feet from north and east lines of section 33. Planned depth is 9,250 feet.

Four tests, slated to 9,250 feet, in section 29, block 37, T-1-N, T&P survey, were also planned by Adobe.

No. 1-K Sale Ranch, 1/2 mile south of production, spots 1,320 feet from north and west lines of the section.

No. 2-K Sale Ranch, 3/4 mile northwest, is 1,320 feet from south and west lines.

No. 3-K Sale Ranch, 1/2 mile north of production, spots 1,320 feet from south and east lines.

And No. 4-K Sale Ranch, 3/4 mile southeast of the nearest spots 1,320 feet from north and east lines of the same section.

John L. Cox of Midland, has completed two new Spraberry Trend Area producers in the Martin County sector of the field.

No. 2 Johnal Woody, 1,320 feet from south and west lines of section 36, block 37, T-2-N, T&P survey, is located 3 1/2 miles southwest of Tarzan.

On a 24-hour potential test, it pumped 98 barrels of oil, with gas-oil ratio of 640-1, and gravity being 40.

Production was through perforations at 8,448-9,238 feet, which had been fractured with 80,000 gallons.

No. 3-B Woody Brothers, 1/2 mile west of production in the field completed through shot holes at 8,450-9,267 feet.

It finished for a 24-hour pumping potential of 108 barrels of 40-gravity oil per day, after being fractured with 80,000 gallons. Gas-oil ratio was 695-1.

Location is 1,320 feet from south and east lines of section 35, block 37, T-2-N, T&P survey, four miles northeast of Stanton.

Belco Petroleum Corp. of Midland, announced plans to drill two 9,500-foot projects in the Spraberry Trend Area of Martin County.

No. 1 Tant Lindsey, located 1,320 feet from north and west lines of section 19, block 37, T-2-N, T&P survey, is 1/2 mile northwest of Tarzan, and 1 1/4 miles northwest of the nearest completed Trend producer.

No. 1 Woodward spots 1,320 feet from north and west lines of section 26, block 36, T-3-N, survey, seven miles northwest of Lenorah, and 1 1/2 miles southwest of the nearest production.

RK Petroleum Corp., Mt. Carmel, Ill., has completed No. 1 W. E. Shortes in the Spraberry Trend Area of Martin, two miles southeast of Tarzan.

On a 24-hour potential test, it pumped 208 barrels of 38-gravity oil, plus 31 barrels of water. Gas-oil ratio was 740-1.

Production was through perforations at 8,334-9,151 feet, which had been acidized with 3,000 gallons, and fractured with 100,000 gallons, and 200,000 pounds.

Wellsite is 1,320 feet from south and east lines of section 28, block 37, T-2-N, T&P survey, 1/2 mile south and west of the nearest producers.

Western States Producing Co., Midland, has completed two new oilers in the Martin County portion of the Spraberry Trend Area, north of Lenorah townsite.

No. 2 Whitehead, 1/2 mile west of production, finished to flow 210 barrels of 38.6-gravity oil and 25 barrels of water per day, through a 24-64-inch choke, and perforations at 7,994-9,976 feet, which had been acidized with 3,000 gallons, and 180,000 pounds.

Wellsite is 1,320 feet from south and west lines of section 9, block 36, T-2-N, T&P survey.

No. 1 Holcomb, a 1 1/2-mile southeast extension, completed through shot holes at 8,084-8,910 feet, to pump 165 barrels of water on a 24-hour potential test. Gas-oil ratio was 910-1.

Producing section had been treated with 3,000 gallons of acid, and fractured with 80,000 gallons, and 180,000 pounds.

Location is 1,320 feet from north and west lines of section 39, block 35, T-3-N, T&P survey.

Operators have completed a new project in the Spraberry Trend Area of Martin County, and filed applications to drill two new tests.

Adobe Oil Co., Midland, has completed No. 2-C Hazelwood, 1/2 mile south and east of production, six miles northwest of Stanton.

On a 24-hour potential test, it pumped 226 barrels of 39.9-gravity oil, plus 10 barrels of water, through perforations at 7,862-8,860 feet, which had been acidized with 2,000 gallons, and fractured with 80,000 gallons, and 240,000 pounds. Gas-oil ratio measured 801-1.

Wellsite is 1,320 feet from south and east lines of section 47, block 37, T-1-N, T&P survey.

has completed No. 1-B Hutto as the second producer and location west offset to the Hutto (Wolfcamp) field of Howard County.

Through perforations between 7,321-7,348 feet, and a 16-64-inch choke, it flowed 170 barrels of 38.9-gravity oil, no water, on a 24-hour potential test. Gas-oil ratio was 850-1.

It had been acidized with 4,000 gallons. Drilled to a total depth of 7,550 feet, 4 1/2-inch production string was cemented on bottom.

Wellsite is 660 feet from south and 1,980 feet from east lines of section 4, block 31, T&P survey, two miles southeast of Coahoma.

The field opener, Clinton Oil Co. No. 1-A Louis Hutto, was finished March 10, 1950, by Stanolind Oil & Gas Co. (now Amoco Production Co.), to pump 27 barrels of 35-gravity oil daily, through perforations at 7,370-7,430 feet.

Meridan Oil Corp. operating from San Antonio, filed application to drill No. 1 Lees in the two-well Schiemenz (Spraberry) field of Howard County.

Located 3/4 mile northwest of production, drillsite spots 1,320 feet from south and west lines of section 22, block 34, T-2-N, T&P survey, 12 miles northwest of Big Spring. Contract depth is 8,200 feet.

## Twila Stallings Is Attending Tech Workshop

Twila Stallings of Stanton, is among a group of more than 50 participants from across the state in this year's annual Texas Tech High School Theatre Workshop being conducted on the university campus through July 29.

Sponsored by Tech's Department of Speech and Theatre Arts, the two-week workshop in theatre activities for high school sophomores and juniors includes study and practice in voice, diction, stage movement, acting, makeup, costumeing, stagecraft, and lighting.

According to workshop director Mrs. Noyce Burleson of Meadow, participating students will produce four one-act plays on the final evening of the workshop, and on July 30, beginning at 7 p.m. in Tech's University Theatre on campus. Price of admission is \$1.

## Library Lines

Mrs. Velma Zimmerman  
Librarian  
Hours 2 P.M. TH 6 P.M.

The boys and girls who have read 12 books or more this summer, are asked to be at the library at 10:00 a.m. Friday morning, July 30, to receive their certificate.

The library will be closed August 2nd for vacation, and open August 16. A fine will not be charged on books due during the period the library is closed.

If your library card has expired, come in and renew it before school starts.

More than 50 books have been added this summer on History, Biography, and Literature. For the juniors, some fiction has been added. We have the Newberry and Coldecott award winners and runner up for 1971, which did not arrive for the summer reading program.

## HONOR ROLL

Lora Springer of Lenorah, a student at Angelo State University in San Angelo, is listed on the honor roll for the spring semester at the university.

The student is listed on the 3.50 to 4.00 honor roll.

Flying foxes are large fruit-eating bats, so called from their foxlike faces.

## WALK TALL with PEGOS

Here's a man's boot every step of the way! Rugged, handsome, ready for a rough day's work anytime. Easy on the feet, too. Stop by—try on Pecos by Red Wing and be convinced!

# NOTICE OF ELECTION

THE STATE OF TEXAS )  
COUNTY OF MARTIN )

TO THE RESIDENT, QUALIFIED ELECTORS OF MARTIN COUNTY WHO OWN TAXABLE PROPERTY IN SAID COUNTY AND WHO HAVE DULY RENDERED THE SAME FOR TAXATION, AND TO ALL OTHER RESIDENT QUALIFIED ELECTORS OF SAID COUNTY:

TAKE NOTICE that an election will be held in Martin County, Texas, at the time and places and on the proposition as provided in the Order for Election, duly passed by the Commissioners Court of Martin County, which Order for Election is as follows:

WHEREAS, each and all of the members of the Commissioners Court of Martin County, Texas, was duly and sufficiently notified, officially and personally, in advance, of the time, place, and purpose of this meeting, and

WHEREAS, proper notice of this meeting has been duly and timely posted as provided by law; and

WHEREAS, the Commissioners Court of Martin County, Texas, deems it advisable and to the best interest of said County to call the election hereinafter ordered;

THEREFORE, BE IT ORDERED BY THE COMMISSIONERS COURT OF MARTIN COUNTY, TEXAS:

That an election be held on the 21st day of August, 1971, in Martin County, Texas, at which election the following proposition shall be submitted:

## PROPOSITION

SHALL the Commissioners Court of Martin County, Texas, be authorized to issue bonds of said County in the amount of \$450,000, bearing interest at such rate or rates shall be determined within the discretion of the Commissioners Court, and maturing at such time or times as may be fixed by the Commissioners Court, serially or otherwise, not exceeding 30 years from their date and to levy a tax sufficient to pay the current interest on said bonds and create a sinking fund sufficient to redeem them at maturity, for the purpose of erecting a courthouse and jail in and for said County, as authorized by the Constitution and laws of the State of Texas?

The polling places, Presiding Judges, and Alternate Presiding Judges of said election shall be as follows:

Precinct Number	Voting Place	Judges
1	Stanton Elementary School, Stanton, Texas	Mrs. James Jones Presiding Judge Sid Cross Alternate Presiding Judge
2	Stanton Methodist Church Basement, Stanton, Texas	Grady Standerfer Presiding Judge Mrs. John Roeuche Alternate Presiding Judge
3	Planter's Gin Office, Tarzan, Texas	Joe Glaze Presiding Judge Mrs. Raymond Pribyla Alternate Presiding Judge
4	Three League Grain Company, Martin County, Texas	Jimmy Heald Presiding Judge Phyllis Snell Alternate Presiding Judge
5	Lenorah Baptist Church, Lenorah, Texas	Hazel Hamm Presiding Judge B. C. Calloway Alternate Presiding Judge
6	Brown Paymaster Gin, Martin County, Texas	J. H. Burrow Presiding Judge J. B. Shockley Alternate Presiding Judge
7	Flower Grove School, Martin County, Texas	Murray Cook Presiding Judge F. W. Beckmeyer Alternate Presiding Judge

Each Presiding Judge shall appoint not less than two qualified election clerks to serve and assist in conducting said election, provided that in each instance where the Presiding Judge above actually serves as expected. The Alternate Presiding Judge shall serve as one of the clerks in said Election Precinct.

Absentee voting shall be conducted at the Office of the County Clerk in the County Courthouse, Stanton, Texas, for the period of absentee voting is permitted by law, the hours designated for absentee voting shall be from 8:00 o'clock A. M. to 12:00 o'clock noon, and from 1:00 o'clock P. M., to 5:00 o'clock P. M., on each day except Saturdays, Sundays, and official State holidays. The following persons are hereby appointed to serve as a special canvassing board for canvassing ballots of absentee voters: Bob Haislip, James Jones, and Jimmy Stallings.

The manner of holding said election shall be governed by the laws of the State of Texas for holding of general elections, except as otherwise herein provided.

The ballots for said election shall have written or printed thereon the following:

## PROPOSITION

FOR ) THE ISSURANCE OF BONDS AND LEVY-  
 AGAINST ) ING OF THE TAX IN PAYMENT THEREOF

Each voter shall place an "X" or other clear mark in the square beside the statement indicating the way the voter wishes to vote.

That said election shall be held and conducted in effect as two separate but simultaneous elections, to-wit: one election at which only the resident, qualified electors who own taxable property in the county and who have duly rendered the same for taxation shall be entitled to vote, and another election at which all other resident, qualified elector of the County shall be entitled to vote. The votes cast at each said separate but simultaneous elections shall be recorded, returned and canvassed separately. When the term "election" is used in this order, it shall mean the separate but simultaneous elections. In further explanation, if need be, the taxpaying voters vote in one box, and the non-taxpaying voters vote in the other box. Both elections may be considered as one for determining the outcome of same as to the qualified voters.

A copy of this order, signed by the County Judge of said County, and attested by the County Clerk of said County, shall serve as proper notice of said election.

The County Judge is authorized and directed to cause said notice of election to be posted in each election precinct, and at the County Courthouse door at least twenty (20) days prior to the date of the election. The County Judge is further authorized and directed to file a copy of said notice with the County Clerk at least twenty (20) days before the election.

The County Judge is further authorized and directed to cause said notice of election to be published in some newspaper of general circulation published within said County, on the same day in each of two successive weeks, the date of the first publication to be not less than fourteen (14) full days prior to the date set for said election.

PASSED AND APPROVED at the meeting open to the public, this the 26th day of July, 1971, after public notice of the time, place, and purpose of said meeting was given and posted as required by law.

CARROL YATER,

County Judge, Martin County, Texas.

ATTEST:  
DORIS STEPHENSON,  
County Clerk.
