School Board Hears Needs Of Schools Presented

In the regular monthly meeting of the Stanton School Board held last Monday night, present and projected needs were outlined to the board by principals of the three Stanton schools.

J. M. Yater, principal of the primary school, explained he had a projected need of fifteen additional classrooms. At present he is having to use a church building east of the school grounds for a fourth grade classroom. One class is using the library, another is using the shop building. In all he has 19 classrooms in operation. He has 8 classrooms that meet State accreditation standards, he needs 23.

Next year he will need 2 kindergarten rooms, 1 special education class, 1 more second grade class (possibly 2).

Jim Conner principal of Stanton Junior High outlined a need for at least 4 more classrooms, but pointed out that 6 would be more desirable. He now has 12 rooms and a library, all in use for classroom instruction. In using the library for a classroom, state accreditation standards are being violated.

The library is supposed to be accessible to all students at all times. In addition to present needs, a remedial reading room is desired along with two special education classrooms. To comply with state standards only 12 students can be in each class of special education. There will be more in this class next year. A shop is needed for C.V.A.E. instruction. At present this class meets in the old Wheeler building downtown. Students in this class must be bussed to class every day. Also, band

students must be bussed to the High School band hall for practice. When school programs are held in the auditorium, three busses are necessary to transport the 255 students.

J. R. Dillard outlined a need for at least four new classrooms in the future in the High School. He expressed a desire to have a business room. At present a class is having to use a room in the auditorium to have class. There are no windows in the room, and no way of keeping it cooled except by using the air conditioning of the auditorium. This is an expensive maneuver. Mr. Dillard expressed a desire to have a shop building for instruction of mechanics.

The board discussed the needs of the school as a whole and decided something must be done. To continue to meet state specifications a building program must be initiated.

The board has invited architects from different firms to appear before the board tonight to show sketches of possible buildings.

SHERIFF'S POSSE in semi-circle before making trail ride to the Houston ranch.

Altar Society Has Salad Supper

St. Joseph's Altar Society met in the Parish Hall, Sept. 13th for a salad supper.

Attending were Mesdames, Beatrice Straub, Maurice Connel, Rob Haggard, Jack Peters, Tom Glynn, George Glynn, J. D. Poe, Travis Yater, Pat Hull, Bernard Houston, Sherman McKaskie, Lucille Kennedy, Raymond Swanson, Edmund Tom, Jim Tom, L. G. Tom, Sam Wilkinson and Fr. Smidt.

POSSEE ELITE — are sweetheart, Jodie Dornier and President, Lloyd Henson.

Permian Basin Petroleum Pioneers To Have Reunion

MIDLAND—The seventh biennial Permian Basin Petroleum Pioneers Reunion will be held in Midland Oct. 29, with plans calling for the "biggest and best" celebration yet. R. C. "Bob" Tucker, general chairman, said.

Members of the event's steering committee, in addition to Tucker, include V. C. Maley, Chappell Davis, J. Harvey Herd, Mrs. John W. House, Ed Thompson, Fred C. Tyler and Bill Collins.

Scores of other Midland and area residents will be involved in planning and staging the event, which is held on alternate years with Odessa's Permian Basin Oil Show. The celebration is staged under the sponsorship of the Midland Chamber of Commerce. It is expected to attract more than 750 pioneers.

Registration headquarters will be in Hotel Scharbauer.

Highlights include a men's get-together, luncheon, special entertainment, visitation, and reception and buffet.

A sherry party, luncheon, style show and tour of the city are planned for the ladies.

Qualifying as Pioneers will be all men and women who were engaged in some phase of the petroleum business in the Permian Basin Empire of West Texas and Southeast New Mexico at least 30 years prior to Oct. 1, 1971.

Persons who have not previously registered their qualification with the Midland Chamber of Commerce are requested to do so promptly.

The first reunion was held here in 1959, with others following in 1961, 1963, 1965 and 1969.

SEPTEMBER 19-25—

"Highway Week In Texas"

The period September 19-25 has been proclaimed as "Highway Week in Texas," by Governor Preston Smith.

By official memorandum Governor Smith pointed out that the Texas highway system encompasses some 70 thousand miles of the nation's finest roads and highways.

"These vital travelways are essential to the continued growth of the Texas economy, and form the 'backbone of Total Transportation' in the Lone Star State," the memorandum said, setting the theme for the annual observance.

Governor Smith cited the Texas Highway Department for more than 40 years of leadership in highway beautification and safety, service, an efficiency of the highway system.

He described the Highway Department as "The State's Largest Gardener" which plants more trees, wildflowers, and ornamental shrubs than any other organization in the State.

Governor Smith urged "all citizens to lend their total support to the highway program and the Texas Highway Department."

Highway Department installations across the State will stage special open house, and other special ceremonies to mark the observance.

Highway Week in Texas has been under sponsorship of the Texas Good Roads Associations since the first such observance a decade ago.

Highway Week in Texas has been under sponsorship of the Texas Good Roads Associations since the first such observance a decade ago.

Highway Week in Texas has been under sponsorship of the Texas Good Roads Associations since the first such observance a decade ago.

Sheriff's Posse Makes Trail Ride For Dinner

The Martin County Sheriff's Posse had their annual trail ride last Saturday. The group met at Chalmers Wren's and rode across country through Mustang Draw to the Houston ranch. The ride was about 8 miles across country.

Jo Henson, and other wives who did not make the ride, had a pot-luck dinner ready for the riders when they arrived at the Old Houston headquarters.

The posse makes this ride to the Houston place every year. They try to make it on a day when everyone can go.

The Martin County Posse was organized in 1956. Only four of the original members are still with the club. In the beginning the posse only admitted men into the club. Two years ago the club decided to invite teen-agers and women into its membership. At present a large majority of the members are teen-agers and women.

Chalmers Wren, in explaining something about the history of the club, remarked, "At first I was undecided about joining. I figured it would cost

me at least a thousand dollars to outfit myself for the club. Now, I've been a member about two years and I guess I've got about 5 or 6 thousand dollars tied up in the club. But I wouldn't trade my experiences with the club for any amount of money."

After a good meal and a good visit the riders made the return trip to Wren's place.

Those attending the pot-luck dinner were: Mr. and Mrs. Chalmers Wren, Darla Lawson, Mr. and Mrs. Lloyd Henson, Bunny Henson, Mr. and Mrs. Sid Cross, Nancy Graham, Bert Dornier, Mimmy Maddox, Mr. and Mrs. Jerry Ulmer, H. K. Lawson, Jo Ann Dornier, Mr. and Mrs. Billie Houston, Jerry Lawson, Mr. and Mrs. Claude Tredaway, and Mrs. and Mrs. Buddy Norville, Scotty, and Todd.

GED Classes To Begin

The Neighborhood Center will sponsor evening classes in Adult Basic Education, GED. Registration for the classes will begin September 20, at the Center.

GOVERNOR PRESTON SMITH signs the proclamation declaring September 18-25, 1971, as State Young Farmer Week. Present for the signing was Dick Britten, State Young Farmer president from Bryan, and his wife Barbara.

To The Point

By BUDDY NORVILLE

We went out to the Houston Ranch Saturday to have pot-luck with the Martin County Sheriff's Posse. Chalmers Wren gave me instructions on how to get there. I'll admit, I've never been around horses or ranches very much. So, even with a map, I tend to take a wrong turn on a country road. But I stayed right with his directions, and just when I thought I was lost, the road went up and off of a little hill and there was one of the most pleasant places I've ever seen.

There, in the middle of the ranch was a true oasis. If I ever want to get away from it all, this is where I want to go. Surrounded by mesquite is this grassy, shady wonderland. Such a peaceful place, in such a troubled world. I could have spent the day there in the shade.

Billie Houston said he would build a house there if it wouldn't get under water when it rained. He said he has seen it under water five times since world war two.

I think I would be tempted to build a house on stilts.

LOST A DOG? This lonesome-looking canine was deserted at the Friendly Food Store two weeks ago. The customers who deserted their pet aren't as friendly as the store people are, as they are still feeding the dog. Would you like to have a pet?

CHILDREN'S PICTURES TAKEN FREE IN COLOR

Friday, Sept. 17th, is the big day set to take Living Color pictures of your little ones. The Reporter is having pictures taken of all children accompanied by their parents or other guardian to the Bellevue Motel between 10 a.m. and 5 p.m. absolutely free of any charge or obligation.

The Reporter wants to publish a picture of your child in a photographic feature series of local children entitled "Citizens of Tomorrow."

A professional children's photographer will take the pictures in Direct Living Color.

Museum To Be Open Evenings

Ronald D. Deane, director of the Museum of the Southwest in Midland, Texas, announces that the museum will be open from 10 a.m. to 10 p.m. daily, through October 6. There is no admission charge.

A study of attendance will be made to determine if it is worthwhile for the museum to remain open during the evening hours.

The hundreds of area residents who made "Septemberfest III" such a tremendous success Saturday evening found the new exhibition of outstanding American artists of the early 20th century an exciting event. Artists represented in the current exhibit are: A. Bierstadt, Charles Burchfield, Mary Cassatt, Preston Dickinson, Child Hassam, Winslow Homer, George Innes, Eastman Johnson, George Luks, John Marin, Maurice Prendergast, Severin Roosen, Everett Shinn, Andrew Wyeth, and Georgia O'Keeffe. Most of these twenty-nine paintings, watercolors, drawings, and pastels are loaned by Wildenstein and company of New York.

Local News In Brief

Mr. and Mrs. S. L. Daugherty, Bro. Andrew Murphy, Father Nelson Coleman of DeKalb and Mrs. Thelmon Cluff and baby of Houston, Texas, visited the Clarks of Denver, Colorado.

We emphasize, therefore, that you dress the children colorfully so as to take full advantage of the beauty of Color photography.

NO CHARGE TO PARENTS
There is no charge or obligation for taking the pictures. Parents don't even have to be a subscriber to the Reporter nor even a reader. You do not have to purchase pictures either. Proofs will be shown in Color, and you may obtain Color portraits by arranging direct with the studio representative if you want them. That is entirely up to you! The pictures appearing in the newspaper will be in black and white.

GOOD PICTORIAL FEATURE

In keeping with the quality feature policy of this newspaper, we want to make this a memorable feature.

This means we want all the pictures of local youngsters we can get to run in the paper. Kiddies and parents alike will reap no end of fun and pride as the pictures appear in the paper. Mothers and fathers of children in the area which this newspaper circulates, please help us, and remember the date Friday, Sept. 17th at Bellevue Motel, and bring your children to be photographed.

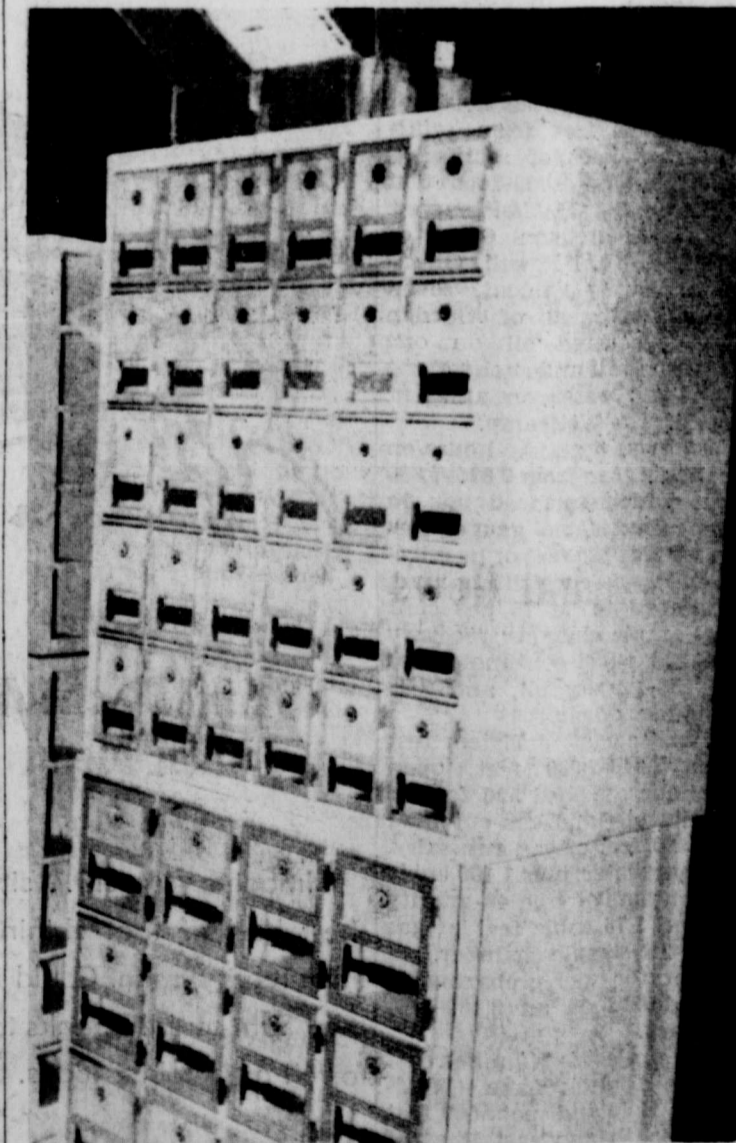

If you have not already made an appointment for this community event do it now. Call Linda Perine at phone number 756-3328, and avoid the possibility of a long wait.

Darla Dowden Returns To LCC

Darla Dowden, daughter of Mr. and Mrs. George V. Dowden, Stanton has enrolled for the fall semester at Lubbock Christian College.

Miss Dowden is a returning sophomore majoring in Home Economics. She is a member of Kappa Phi Kappa, women's social club.

Lubbock Christian College is a small, private, senior college offering BA and BS degrees in 16 majors.

POST OFFICE gets new boxes. Workmen have been busy the past two weeks taking out old boxes and setting in the new boxes. You can forget your combination, but take your key with you. The new boxes are opened by key only.

AMERICAN CANCER SOCIETY DELEGATES — Mrs. Marvin Standerfer of Lenorah, Mrs. Tracy Cockrell of Midland and Mrs. Jimmie Sawyer of Lenorah, left to right, are pictured at the 26th annual division meeting of the American Cancer Society in Houston. Martin and Midland Counties exceeded their Cancer Crusade goals for 1971.

Local Women Attend Houston Meeting Of American Cancer Society

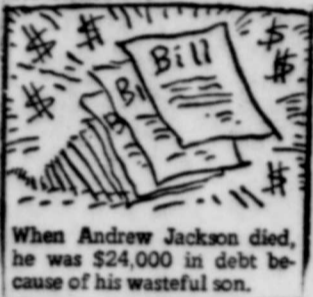

Mrs. Jimmie Sawyer and Mrs. Marvin Standerfer of Lenorah were among delegates of District 2 attending the 26th annual division meeting of the American Cancer

Society recently in Houston.

Mrs. Tracy Cockrell of Midland was the Midland County representative. Both Martin and Midland Counties exceeded their 1971 Cancer Crusade goals.

More than 350 delegates attended the Houston meeting. There were 36 committee and membership meetings scheduled during the two-day session. Texas Division president, Dr. Grover Bynum of Austin, addressed delegates at a dinner meeting concluding the conference.

Mrs. Cockrell was re-elected a lay director-at-large of the Texas Division, ACS.

When Andrew Jackson died, he was \$24,000 in debt because of his wasteful son.

Veterans News

Public law 91-376 authorized the Veterans Administration to pay death benefits to certain widows of veterans when the widows remarried subsequent to the veterans' deaths. Prior to the enactment of this law, a widow was barred from further receipt of VA benefits once she remarried.

Public Law 91-376, effective January 1, 1971, stated that if such a widow later terminated a subsequent marriage, she might once again become entitled to VA death benefits based upon the veteran status of her first husband. It does not matter how many times she was subsequently married, but she is required to provide the VA with proof of termination through shot holes at 8,065-9,066 feet to pump 207 barrels of 39.8-gravity oil, plus 18 barrels of water daily. Gas-oil ratio was 860-1.

On July 15, 1971, the VA Department of Veterans Benefits in Washington, D.C., issued DVB Circular 20-70-73, Change 1, which clarifies the benefit to be paid to a widow under Public Law 91-276. This publication deletes paragraph 2b of the above mentioned Circular, and provides the following to replace it:

"(1) If the widow was receiving death compensation prior to her remarriage, the claim for restoration will be considered a claim for DIC (VA Regulation 1702 (A)). If otherwise in order, DIC will be awarded and the widow will be informed of the comparative rates payable as DIC and death compensation and that she is being awarded the greater benefit. She will also be informed of her right to be restored to her former death compensation benefit if she desires the lesser benefit.

"(2) Where the widow was receiving protected pension, there is no right of election. Her current entitlement is only under Public Law 86-211 (VA Regulation 1701 (A))." Martin Gibson, County Veterans Service Officer says, this change in policy will enable the VA to automatically pay the larger monthly benefit to eligible widows. It will abolish delays incurred when widows were requested to advise the VA which benefit they desired.

Oilpatch Outlook

Grisham & Delaware Basin Properties, Inc., Abilene, filed application to drill No. 1 J. R. Grisham & J. M. Greeman as an 11,300-foot venture for oil or gas horizons in Martin County.

It spots 7/8 mile northeast of the nearest production in the Spraberry Trend Area and eight miles northeast of Stanton.

Adobe Oil Corp. of Midland, was drilling ahead below 10,607 feet in lime and shale at No. 1 Glasscock, Martin County project 1/2 mile east of the firm's No. 2 Glasscock, recently completed Strawn oil discovery.

A drillstem test from 10,314-10,440 feet, open 30 minutes, recovered 10 feet of drilling fluid, plus 40 cubic centimeters of drilling fluid and 1/2 cubic foot of gas from the sample chamber.

Location is 1,320 feet from north and east lines of section 44, block 37, T-1-N, T&P survey, 9 1/2 miles northwest of Stanton.

It was originally slated as a project in the Spraberry Trend Area and rescheduled to 12,500 feet as an Ellenburger project.

The Strawn opener finished Aug. 25 to flow 233 barrels of 48.7-gravity oil daily, with gas-oil ratio of 1,575-1, through an 18.64-inch choke and perforations at 10,388-10,394 feet.

Adobe Oil Co. of Midland has added three new producers to the Spraberry Trend Area of Martin County, all being about 10 miles northwest of Stanton.

No. 2-K Sale Ranch completed through shot holes at 8,065-9,066 feet to pump 207 barrels of 39.8-gravity oil, plus 18 barrels of water daily. Gas-oil ratio was 860-1.

Producing section had been acidized with 2,000 gallons and fractured with 80,000 gallons and 330,000 pounds of salt.

Location is 1,320 feet from south and west lines of section 29, block 37, T-1-N, T&P survey.

No. 2 Sale Ranch, located 1/2 mile east of the nearest producer, was completed through perforations at 8,107-9,154 feet, which had been acidized with 3,500 gallons plus fractured with 80,000 gallons and 240,000 pounds.

On a 24-hour initial test, it pumped 191 barrels of 39.6-gravity oil, plus 22 barrels of water. Gas-oil ratio was 880-1.

Wellsite is 1,320 feet from south and 1,370 feet from east lines of section 8, block 37, T-1-N, T&P survey.

No. 2-H Sale Ranch, 1/2 mile west of production, pumped 219 barrels of 39.7-gravity oil and 21 barrels of water on a daily potential test.

Production was through perforated section from 8,143-9,095 feet, which had been acidized with 4,000 gallons and fractured with 80,000 gallons and 240,000 pounds.

Location is 1,320 feet from north and west lines of section 9, block 37, T-1-N, T&P survey.

RK Petroleum Corp. of Mt. Carmel, Ill., has completed two new producers in the Martin County sector of the Spraberry Trend Area.

No. 1 Ann Cole, located one mile north of producers in the field, was potentialized on a 24-hour test to pump 190 barrels of 37.1-gravity oil, plus 27 barrels of water. Gas-oil ratio measured 701-1.

Production was through perforated section from 8,415-9,327 feet, which had been acidized with 3,000 gallons and fractured with 100,000 gallons and 200,000 pounds.

Location is 1,320 feet from north and east lines of section 3, block 37, T-2-N, T&P survey, three miles north of Tarzan.

No. 1 Peeler Williams, pumped 80 barrels of oil, plus 72 barrels of water on a daily potential test. Gravity of the oil was 37 degrees and gas-oil ratio was 826-1.

It completed through shot holes at 8,195-9-211 feet, which had been treated with 3,000 gallons of acid and 100,000 gallons and 200,000 pounds of fracture material.

Located 1 1/8 mile northeast of the No. 1 Ann Cole, it spots 1,320 feet from south and east lines of section 1, block 37, T-2-N, T&P survey, four miles north of Tarzan townsite.

Expansion continued in the

Spraberry Trend Area of Martin County.

John L. Cox, Midland has completed two new developments, both being about 11 miles northwest of Stanton.

No. 1 Essie Martin, a one-mile west extension, was completed through perforations between 8,285-9,119 feet, which had been fractured with 80,000 gallons.

On a 24-hour potential test, it pumped 132 barrels of 40-gravity oil, plus 19 barrels of water. Gas-oil ratio measured 655-1.

It is located 1,320 feet from north and east lines of section 13, block 38, T-1-S, T&P survey.

No. 1 Hillger, 1,320 feet from north and west lines of section 41, block 37, T-1-N, T&P survey, pumped 134 barrels of oil and 12 barrels of water daily on a potential test.

It was completed through shot holes at 8,218-9,071 feet, which had been fractured with 80,000 gallons.

Belco Petroleum Corp., Midland, has completed No. 1 Woodward, seven miles northwest of Lenorah townsite.

Through perforations at 8,301-9,073 feet, which had been fractured with 80,000 gallons, it flowed through an unreported size choke, to make 140 barrels of 40-gravity oil, and 10 barrels of water per day. Gas-oil ratio was 695-1.

Wellsite is 1,320 feet from north and west lines of section 26, block 36, T-3-N, T&P survey, 2 1/2 miles north of the nearest production assigned to the Spraberry Trend Area and 3/4 mile southwest of production in the Sulphur Draw (8,790 Dean) field.

John L. Cox, Midland, staked site for No. 1 Reynolds, a 10,000-foot test in northeast Glasscock County, 2 1/2 miles east of the Garden City field, in which Mississippian production is a 9,840 feet and Strawn at 9,349 feet.

Location is 1,918 feet from south and 1,480 feet from east lines of section 10, block 32, T-4-S, T&P survey, 10 miles northeast of Garden City.

Outposts have been staked in the Spraberry Trend Area in Glasscock and Martin counties.

Adobe Oil Co. plans No. 1 Wraga-Gunn, Glasscock project, as a 1 1/2-mile east outpost to the Midland County portion of the Trend, but separated by depleted producers, and 1 1/4-mile west outpost to a recently completed long east extension to the Trend Area of Glasscock.

Location for the test, slated to 9,000 feet, is 1,320 feet from south and east lines of section 16, block 36, T-3-S, T&P survey, 16 miles southeast of Stanton.

Belco Petroleum Corp. of Midland accounted for No. 1 E. Price as a one-mile west outpost to the Sale Ranch sector of the Martin County portion of the Trend Area.

Located four miles north of spots 1,320 feet from south and east lines of section 7, Lenorah, the 9,400-foot test block 36, T-2-N, T&P survey.

Belco Petroleum Corp. of Midland, No. 1 Powell, Glasscock County wildcat, seven miles northwest of Garden City, recovered oil on one drillstem test and shows along with salt water on another, both in the Wolfcamp.

Tool was open two hours on the test taken from 7,825-7,850 feet, which surfaced gas in five minutes, no gauge. Recovery was 525 feet of heavily-oil- and gas-cut drilling mud, estimated to be 75 per cent oil. Sample chamber recovery was 200 cubic centimeters of free 36-gravity oil, and 2.38 cubic feet of gas.

A subsequent drillstem test from 7,846-7,960 feet, open 2 1/2 hours, yielded 520 feet of heavily oil- and gas-cut mud and 360 feet of gas-cut, salty, sulphur water, plus 1,100 cubic centimeters of free 40-gravity oil and 1.76 cubic feet of gas from the sample chamber.

Operator was preparing to drill ahead on an 8,100-foot contract.

The project is 2 1/2 miles east of the Bialock Lake (Wolfcamp) field and spots 660 feet from south and east lines of section 11, block 35, T-3-S, T&P survey.

Morueco Corp., Mt. Carmel, Ill., will attempt to re-open Spraberry production in the Varel field of Howard, with the scheduling of No. 1 Broad-

das, a 9,000-foot test, 10 miles west of Big Spring.

It is one location south of depleted San Andres production in the field, four miles southeast of the Spraberry Trend Area production in Martin County and four miles west of the depleted Spraberry opener and lone well from that zone in the Varel field.

Location, exception to Rule 37, is 1,320 feet from north and west lines of section 21, block 34, T-1-N, T&P survey.

PetroDynamics, Inc. of Amarillo continued production tests at No. 1 Higginbotham, Howard County exploratory test, five miles northwest of the depleted Spraberry opener and lone well from that pay in the Varel (San Andres) field.

Through perforations between 7,604-7,790 feet, identify das Dean, it pumped 47 barrels of 38.6-gravity oil and 10 barrels of load water, after the section had been acidized with 1,500 gallons and fractured with 105,500 gallons and 120,000 pounds.

Drilled to 8,100 feet, it has 4 1/2-inch casing seated at 8,087 feet.

Location is 1,320 feet from north and 1,300 feet from east lines of section 6, block 33, T-1-N, T&P survey, eight miles north of Big Spring.

The depleted opener, Texaco Inc. No. 1 Guita Estate, finished in 1962 to pump 18 barrels of 35.4-gravity oil and 57 barrels of water daily, through perforations at 6,783-6,994 feet.

Henry and Landenberger of Midland filed application to drill No. 1-Y Yates as a 50-foot south replacement for the No. 1 Yates, Dawson County test, a 1 7/8-mile northeast outpost to the Martin County portion of the Sulphur Draw (8,790-foot Dean) field.

Location is 1,445 feet from south and 1,320 feet from east lines of section 38, block 36, T-4-N, T&P survey, seven miles southeast of Patricia.

No. 1 Yates has been junked and abandoned at 4,085 feet, after losing the hole.

It spots 1,495 feet from south and 1,320 feet from east lines of section 38, block 36, T-4-N, T&P survey.

Ford Car Sales Increase As Model Year Closes

Record August Ford truck sales and increased car sales were reported today in the Dallas district as Ford dealers prepared to close the 1971 model year, and introduce 1972 models on Sept. 24.

Charles J. Soderquist, district sales manager, said dealers reported sales of 5,240 new cars, 22 per cent over August sales of 1970. Truck deliveries were 3,416, a gain of 4.2 per cent over the 1958 August record, and 11 per cent over last year. Total vehicle sales of 8,656 were up 77 per cent over the year-ago month.

"The combination of buyer confidence triggered by the President's economic program, a salesman's incentive program, and the prospect of a retroactive buyer refund on the seven per cent excise tax has given us tremendous momentum as the 1971 model year draws to a close," said

Mr. Soderquist. "We are confident that this momentum will carry over into the 1972 model year, and that our new cars — particularly the all-new Torino and Thunderbird — will continue our strong sales gains."

Ford Division's Dallas district supervises activities of more than 325 dealers in northern and central Texas and all of Oklahoma.

Nationally, Ford Division dealers sold 139,638 new cars last month — 25 per cent higher than in 1970 — and delivered a record 56,347 trucks.

Computers help the Veterans Administration's 170,000 employees provide everything from monthly checks to medical check ups for the nation's 28.2 million veterans.

Muscles normally account for 40 per cent of the body weight.

Annual Quarter Horse Show To Be Held Saturday

Midland's Fifth Annual Quarter Horse Show will be held on Saturday, Sept. 18, sponsored by the Midland County Livestock Association, with assistance by members of the Farm and Ranch Committee of the Midland Chamber of Commerce.

The show will begin at 8 a.m. at the association's arena on East Highway 80.

Judge Don Smith of Talpa, Texas, will start the day's events with the Halter Class for Registered Quarter Horses. These will include stallions foaled in 1971, 1970, 1969, 1968, 1967, and before; mares foaled in 1971, 1970, 1969, 1968, 1967, and before; and geldings foaled in 1970, 1969, 1968, 1967, and before.

First place winners in each class receive buckstitched halters. Certificates of Award will be given for first through sixth place. Trophies will go to the grand and reserve grand champions in each sex. Halter class entry fee is \$5.

Performance class for both registered and un-registered horses will begin at 1 p.m. Registered performance classes will include: Junior and Senior Reining; Barrel Racing for all ages; Pole Bending for all ages; and Roping for all ages.

Entry fees for Performance Classes will be \$10 each, except for Roping, which will be \$12. Half of the entry fee will be paid back to the top four horses in each class.

Youth Classes will have \$3.50 entry fees, and will include: Western Pleasure,

Reining, Barrel Racing, and Pole Bending. Registered horses also will be eligible to compete in Youth Showmanship at Halter.

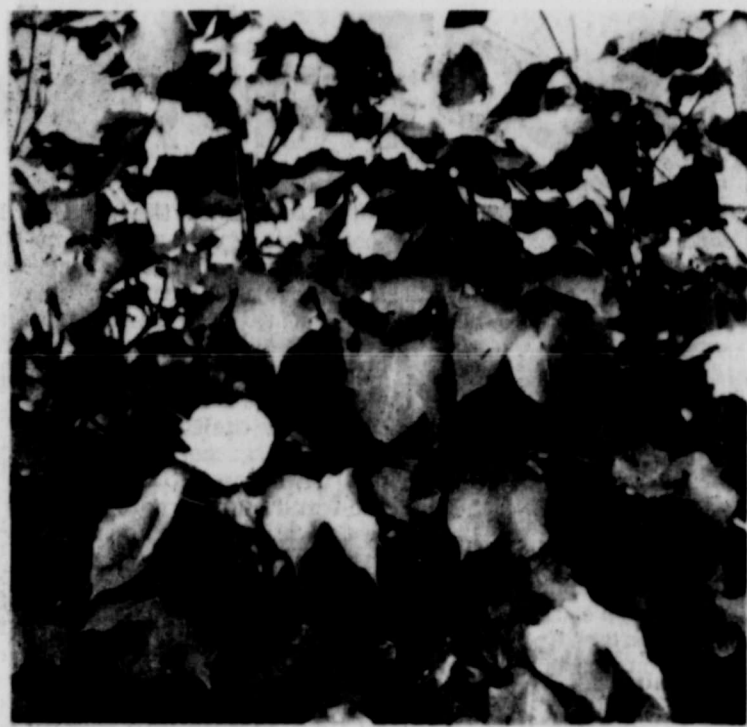

The coveted American Quarter Horse Association Youth All-Around Trophy will be given to youth who accumulates the most points in the Registered Youth Performance classes.

Two Cutting Classes also will be held. The Youth Unregistered Cutting event will cost \$5. The National Cutting Horse Association Championship event will cost \$37.50 per horse, with a \$200 added purse donated by the Midland Livestock Association. This will be a one go-round contest with prize money paid to the top four horses.

Winners in each performance class will receive buckstitched headstall, with certificates for first through sixth places.

The VEE epidemic has been controlled, and show manager R. D. Jones, reports that the show has full approval from the American Quarter Horse Association of West Texas, Golden Spread Quarter Horse Association, and National Cutting Horse Association. Owners are reminded to present VEE vaccination and registration papers on arrival.

Entries for each class will be accepted until that class's arena time. However, advance entry blanks and information may be obtained from: Midland Livestock Association, P. O. Box 3166, Midland, Texas 79701.

COTTON IN BLOOM — Cotton is looking good all over the country. The harvest will be in full-swing in about three weeks.

BANKS— Farmers' Chief Source of Credit

Texas commercial banks were the chief source of credit for the states farmers and ranchers in 1970, as they have been for many years, according to Oscar C. Lindemann of Dallas, president of the Texas Bankers Association.

Leon Thompson, chairman of the TBA Agriculture Committee and agriculturist for Citizens National Bank of Waco, said the annual farm-lending summary of the Agricultural and Rural Affairs Committee, American Bankers Association, shows that at the beginning of 1971, 1,020 of the 1,183 insured commercial banks in Texas held loans totaling \$1,008,841,000.

Of that total, \$815,543,000 was in production loans and \$193,298,000 in farm-ranch mortgages.

At the same time, \$590,948,000 in farm loans was held by life insurance companies, \$337,655,000 by production credit associations and \$69,364,000 by the Farmers Home Administration.

"Texas bankers have not permitted urbanization to di-

minish their interest in agriculture as a major factor or to neglect farmers' and ranchers' credit needs," Lindemann said. "As the number of individual farmers decreased, production units have become larger and more specialized, resulting in fewer but larger loans."

"Successful farmers and ranchers nowadays must be businessmen as well as technologists, and Texas bankers have of necessity developed expertise to keep abreast of the trend. Personal acquaintance with their farm-ranch customers and knowledge of local conditions have, I think, been largely responsible for maintaining bank leadership in agricultural credit services."

HD Agents Report

New designs with fantastic colors and great fabrics are appearing across the country on almost every mans back, says Mrs. Mildred Elland, county home demonstration agent.

For several years, she explains, men's fashions have been undergoing a fashion revolution. No longer do they blend into a crowd with a grey flannel suit, white shirt and black tie.

Men's fall fashions can best be described by one word—casual. The unstructured look, along with hot pants and knickers, are some of the latest items for men and well as women, the agent says.

And, men's fashions have become an important phase in the home sewing explosion, Mrs. Elland continues. Men are choosing fabrics and colors for their own unique look while women are making the men in their lives "something special."

Care-free, comfortable knit slacks are one of the more popular sewing items to make for men. Mrs. Elland suggests you choose a double-knit fabric of wool, cotton or polyester from the men's selections now available in piece goods departments and shops.

"It's important to choose menswear double-knits," says the agent. "They have finer yarns and tighter construction, creating lightweight fabrics with a crisp hand."

Mrs. Elland recommends selection of pocket and band interlining fabrics compatible with the outer fabric. For example, a washable interlining should accompany a washable outer fabric such as polyester.

Before construction, pre-shrink all washable fabrics, including the outer fabric as well as inner fabrics and zipper.

Pattern companies are now including more selections for men, she reports. Choose slack patterns according to waist measurement. When using double-knits, always select styles designed especially for knits as they have less ease, allowing for stretchable qualities of the fabric.

"If not currently sewing for your man, consider the idea and find out what's available," suggests Mrs. Elland. And soon, she cautions, you may have to make time to sew your own fashions.

William E. Pool has resigned as executive director of State Bar of Texas.

MUSEUM, THAT IS— Here Come Da Judge

LANGTRY — Judge Roy Bean, the "Law West of the Pecos," was likely to handcuff prisoners to a handy tree 'till he could get around to a trial on his front porch. He reeled off decisions with the aid of a solitary law book, and backed 'em up with a six-shooter on the table beside him. Then to make it official, he made liberal use of his prized notary seal.

The old judge is gone, along with the frontier Southwest he so colorfully represented. But his pistol, handcuffs, book and notary seal are now on display at the Texas Highway Department's Judge Roy Bean Visitor Center in Langtry.

The historic items, in private hands since Bean's death, are feature additions at the site where a slice of the old West is preserved in authentic detail. The relics are on view in a special case protected by an electronic security system.

Roy Bean wouldn't believe it. The weathered old "Jersey Lily," his saloon - courtroom - billiard hall, is just like he left it. The State Legislature, in 1939, named it a historic site and directed the Highway Department to preserve it for tourists. Next door is the department's modern, air-conditioned Visitor Center. Inside the judge would find himself the star of a half dozen dioramas, each with a special recorded program.

With his eye for the ladies, he'd surely go for the pretty travel counselors who are always on duty, especially since their favorite subject is the same as him: Roy Bean. And there, rigged up like the crown jewels — his pistol handcuffs, law book and notary seal.

The cactus garden outside would surely perplex the old judge. Neat paths lead to hundreds of cacti, yucca, and other Southwestern plants, each with a label of names and facts. Why in tarnation such

bother for those pesky, thorny things?

But it's not likely that Roy Bean's ghost will be roaming the Visitor Center. There's one thing about it he just couldn't abide. It's all free. Imagine, folks dropping in every day of the week — from all over Texas, California, and even Canada — but not a nickel to be made. Thunderbolts!

Course, he'd probably be pleased that some old friends remember him. The heirs of W. H. Dodd, a comrade of Bean's from the old days, and they made the Bean relics available to the Highway Department. Among them are Mrs. Pearl Dodd Nicholas of Langtry; Cross Todd and Mrs. Mary Hall Uzzell of Austin; Mrs. Dorothy Hall Frazee of Dixon, Ill.; and Mrs. Billie Hall Carey of La Crescenta, Calif.

Roy Bean says, thank'ee!

- SOIL CONSERVATION - DISTRICT NEWS OUR SOIL ★ OUR STRENGTH MARTIN-HOWARD-MIDLAND SOIL CONSERVATION DISTRICT

When our natural resources are depleted, the beauty of the land will also be gone. Good wildlife habitat will be rare and good hunting will be a thing of the past.

Smart hunters and fishermen look for conservation farms and ranches. They encourage landowners to consider wildlife in their plans of operations. The primary concern of farmers and ranchers is to make a living from their land and other resources. However many landowners realize that better hunting and fishing can result from their conservation activities without interfering with farming or ranching activities.

More than 85 per cent of this country's hunting land is privately owned. Most of the game animals are found on land used primarily for the production of crops and livestock. It is apparent that landowners will be responsible for the quality of future hunting and fishing.

Farmers and ranchers affect the hunting and fishing by the way they manage their land. Technicians of the Soil Conservation Service encourage landowners developing conservation plans to include consideration for fish and wildlife species. Cover a nd strip-crops provide food and cover, as do wind breaks, field borders and fence rows. Native rangeland and improved pastures can be managed to benefit wildlife while providing more grazing for livestock. By resting native pastures periodically, a better cover is maintained on the land. The improved cover not only provides food and shelter for wildlife, but prevents wind

and water erosion of the topsoil. Overgrazing of native grassland is usually harmful to wildlife as well as livestock. Fire-breaks can also be used to protect the rangeland as well as reducing grass fires. Lack of good conservation cropping systems tend to deplete the land as well as reduce the game population. Whether you are a hunter, a fisherman or someone who likes to get out and enjoy nature, you should be concerned about the wise use of our natural resources.

Tax Man Sam Sez:

An average Texan may do a bit of bragging on quite a few of the fined things that we enjoy around these parts, but most of them would admit that they need a little more learning when it comes to adding and subtracting and figuring income tax returns. Internal Revenue's Dallas District sings praises of the Texas schools and the teachers that give about 200,000 students some of the fundamentals of how to prepare a basic Form 1040 income tax return. IRS is also proud of the more than 150 adult education sessions that were held to help thousands adults. However, the good tax folks have to admit that income tax learning just don't come easy for most of us. We can only hope that our school teachers and the tax folks and a lot of others keep up the good work because — let's face it — most of us need to know a lot more about our personal income tax business.

Buffs Drop Opener to Tahoka, 36-14

By Buddy Norville

The Tahoka Bulldogs played hosts to the Stanton Buffaloes Friday night in a non-conference game. As it turned out, they weren't very gracious all over the field.

The Bulldogs, showing an impressive running game, scored on their first possession. On first and ten on the Tahoka 36 yard line John Thomas ran for two, then 5, then 21. Ladd Roberts ran for 3, then Thomas for 24. Roberts pushed the ball across six plays later for the touchdown. Quarterback Jeff Atwell pitched out to Roberts around right end for the score. Louis Zedlitz kicked the PAT. The

drive took 11 plays and a little over 4 minutes off the clock.

The Buffs could do nothing against the rugged Bulldog defense. Chipper Coggin made 2 yards the hard way up the middle. A penalty gave the Buffs 5 more yards, but that was all they could get from the stingy forward wall of Tahoka. Rick Wilson punted to Phil McClendon on the 38. He ran it back to the 48 where he was dropped by a host of Buffaloes.

The Buffs got tough on the next series of downs. On first and 10 Atwell passed to one of his receivers on the left flat. Dwayne McMeans was on him, however, and knocked the ball from his grasp with a jarring

tackle. The Bulldogs could do no more than 2 yards and were forced to punt.

The Buffs took the ball on their own 16 yard line and moved it out to the 33 before their engine stalled.

Wilson booted the ball 44 yards to the Bulldog 23. There Roberts and Thomas again started what looked to be another long drive for paydirt. QB Atwell added a run of 19 yards. But an offside penalty on a fourth and 3 situation broke them down.

The Buffs took over on their own 22. McMeans gained 3, Wilson gained 3 on some faking. Barnhill made 5, McMeans 3 more. An offside penalty against the Bulldogs gave the Buffs a first and 5. A bad pitchout to Armando Rios from Rick Wilson put the Buffs in a hole, then a holding penalty put them further in a hole, another bad handoff lost still more. On a fourth

and bunch situation, Rick Wilson dropped back to kick. The Bulldog's Eugene Brown came through the Buffalo line to block the kick. The end result was a safety scored by the Bulldogs, and the Buffs were behind 9-0.

Wilson free-kicked from his own 20, he chose to punt the ball. Tahoka started on their own 43, eleven plays Thomas skirted right end again for 6 points. Thomas also ran for the 2-point conversion. This put the Buffs behind, 18-0.

The Buffs took the ball on their 36 and began to move. A fake across and pass to Dillard gained 11 yards. But two incomplete passes and an interception stopped the Buff drive. Tahoka's McClendon swiped the pass and ran it back 35 yards before he was dropped by a slow-thinking Buffalo bunch.

In two plays the Bulldogs were on the Buffs goal line

again. Atwell threw 7 yards to Louis Douglas, then hit Jerry McCord who added a few more to make a big 37-yard pass play. Three plays later Thomas made the score 23-0. Zedlitz made it 24-0.

The teams went to the dressing rooms with the score still at 24-0.

The Buffs came alive at the start of the second half. Rios took the kickoff on the 10 and ran it out to the 30. On first down Wilson faked a handoff into the line and cut out around his right end, reversed his field on the 40 and raced to the 50 before McCord and Curry could bring him down. On the next play Frankie Barnhill broke loose for 19 yards on a good broken field run, that started up the middle. Short runs by Rios and McMeans moved the Buffs down to the goal line. With 1 and 10 on the 1-yard line the stubborn Bulldog defense gave no ground. On fourth down Wilson was knocked free of the ball and John Saldana, an alert Bulldog guard, jumped on the ball.

The Bulldogs then added injury to injury by driving the

entire length of the field to score. Two big plays accounted for most of the yardage. Roberts ran 45 yards through the Buffalo line and a pass from Atwell to McClendon accounted for 37 more yards and a score. The PAT attempt was blocked by the Buffs.

The Buffs received the kickoff, with Posey taking it on the 6 and managing to get out to the 20. On first down Wilson fumbled on his own 17 and Ladd Roberts recovered for Tahoka.

A determined Buffalo defense gave up only 4 yards in 4 plays and Stanton took over on their 12-yard line. But the Buff offense could go nowhere and they were forced to punt again.

The Bulldogs moved from their 46 to Stanton's 36 where Buffalo end David Dillard spotted a loose ball and hopped on it. Four plays later the Buffs gave up the ball again.

On the next series of downs Tahoka managed only one first down before giving up the ball. Stanton gained nothing and on 4th and 12 on their own 20 Wilson's attempted kick was blocked by Larry

Reynolds. In five plays Tahoka scored, with reserve back, Timmy White running 12 yards to score. The PAT failed.

Stanton QB Rick Wilson began to mix his plays up, and discovered the Tahoka pass defense was sitting on the bench. He hit Rios for 10 yards, Swanson for 20, a draw play with Barnhill carrying netted 7, on 2 and 3 on the 34 yard line Wilson hit Jackie Swanson in the open on the 25. Jackie opened up and roared in standing up for the score. Swanson ran his pattern like a pro, no one knew he was there until it was too late. Wilson then hit Dillard for a 2-point conversion.

In the next series Stanton's Dwayne McMeans, who had already turned in a whale of a ball game, intercepted a Bulldog pass on his own 30

and ran it back 70 yards to paydirt. McMeans exhibited as fine a broken field run as this writer has seen lately. The PAT was no good.

The game ended seconds after with the final score 36-14, with the Buffs losing number 19 in a row. The Buffs will be at home this week against Rotan. Rotan, always tough, should be a closer ballgame.

Water On High Plains Vital To State's Economy

Adequate water for High Plains agriculture is a necessity if the state is to continue to grow in other areas of its economy, Texas Agriculture Commissioner John C. White said here during the annual meeting of the High Plains Research Foundation Friday (Sept. 10).

"When you get down to basics, water is going to determine the future growth of the state, not just in agriculture but all our economy. Just as

Club News

KOFFEE KUP HD CLUB

Mrs. Fred Bowlin hosted a meeting of the Koffee Kup H.D. Club Thurs., Sept. 9. Mrs. Bob Alsop presided.

"Homemaking Work Today, It's Still a Full-Time Job" was the program presented by Mrs. James Eiland, Home Demonstration agent.

A devotion was given by Mrs. Nolan Simpson and the following business was conducted. Each member present answered the roll with a hint on how to add a fall touch to a summer dress. The minutes were read and approved as corrected. The treasurer reported on the present balance and the sale of knives. Mrs. Harold Henley reported on Council. Mrs. Homer Swinson led a discussion on how to help our school system and it was decided to invite a member of the school board as a guest speaker at the next meeting. Mrs. Tom Johnson was appointed to be in charge of the scrapbook.

Members present were Mmes. Bob Alsop, Fred Bowlin, Sam Houston, Harold Henley, Delbert Hopper, Herman Lander Jr., Billy Morrow, R. P. Odum, Tom Johnson, Nolan Simpson, Homer Swinson and James Eiland.

The next meeting will be in the home of Mrs. Bob Alsop on Sept. 23.

DO AND LEARN 4H

A meeting of the Do and Learn 4-H Club was held on Sept. 9, 1971.

Officers for the coming year were elected as follows: Linda Padilla, president; Charlotte Trimble, vice president; Kristi Turner, secretary; Yolanda Montez, treasurer; Lana McKenzie, reporter; Lorretta Young, council delegate; and Peggy Barnes, teen leader. Others attending were Virginia Smith and Marcie Young.

The next meeting will be held on Sept. 22 at the County Agent's office.

GRADY HD CLUB

The Grady Home Demonstration Club met Sept. 9 in Mrs. Charles Mitchell's home with Mrs. Jack Kuklman presiding.

The 12 members present were presented new year books and dues were paid. Those attending were: Mmes. Charles Mitchell, Sharron Odum, Edgar Standefer, Richard White, A. H. Tate, Jr. Rivas, Jimmy Graves, Lonnie Green, Delmar Hamm, Jack Kuklman, M. L. Koonce, and Billy Rudd.

Mrs. James Eiland of Stanton brought the program on Homemaking Today, emphasizing that today homemaking takes more mental work than physical action. The question of the week was: How to add a fall touch to a summer dress?

The next meeting will be at the home of Mrs. Garth Odum on Sept. 23.

agriculture turns the economic wheels of the state, water and irrigation turn the wheels of agriculture," White said.

Sufficient water for the High Plains, he said, is vital to the entire economy of the state. Cattle feeding, he said, has opened new markets for agricultural producers in many parts of the state. Without enough water to maintain that industry, other sections of the state would suffer. "There would be less demand for grain sorghum and feeder cattle from other parts of the state; thus, the state's agriculture economy is tied in closely with adequate water for this area," he said.

White suggested that agricultural producers in the High Plains do two things:

1. Continue to support research relating to water conservation and to put into practice all known measures to conserve water.

2. Become, "if you have to," militant about telling the rest of the state of the value of adequate water for the High Plains.

"By your very nature, an agricultural producer is not a militant."

"But the time has past when you and everyone in agriculture needs to tell your story to the general public. Once you get this story across, the needs for adequate water can and will be met," White said.

"We in agriculture, I'm afraid, are running out of time in getting our story across to the rest of the economy concerning the vital necessity of adequate water for agriculture," White said.

Texas' population is projected to be 30.5 million by 2020 providing water is adequate.

"The water resources problem affects Texas agriculture directly through irrigation. As Texas water resources diminish, our agricultural prosperity will also diminish proportionately. The real problems facing us center around this basic relationship between water and agriculture. We simply must meet the challenge of a steadily declining water supply," he said.

By 1985, he warned, if a supplemental surface supply of water has not reached the High Plains, "this vast area will have begun an area-wide retrogression in dryland farming which will have profound economic consequences throughout all the state."

At your service: It's people power that makes Reddy Kilowatt run.

You take dependable electric service pretty much for granted, of course. And for good reason. Your electric service has become so commonplace, so much a part of your everyday life, that you have no occasion to give it a second thought.

work, electric service is produced at that instant—at the moment of use. Electricity, unlike other things you use, cannot be stored. You decide when you want it, and Texas Electric provides it—right there and right then.

Philosopher Wants Cities Built on Mountain Tops

Editor's note: The Martin County Philosopher, on his crab grass farm on Mustang Draw, scatters his thoughts around in an unusually random fashion this week. Must be the end of summer.

Dear editor:

The dire plight of the cities, according to the newspapers I've been getting hold of lately, is so great what with overcrowding and air pollution that some experts are saying most of them ought to be torn down and built over.

If they do, they'll probably make the same mistake again. I've been saying for years that every city I've seen was built in the wrong place. Invariably it was built where there're too many people. They ought to build them out in the country.

Even so, if they re-locate any, they shouldn't be located on flat ground. Every city ought to be built on a mountain, with the business district

Only piece of art signed by Michelangelo is his Pieta.

on top. This way you'd cut air pollution a full fifty per cent. Drive your car up to work every morning, but cut the motor off and coast back home pollution-free in the afternoon.

Local News In Brief

Two sisters of N.W. Morgan left for home this week. Mrs. Mable Needham of Seattle, Washington and Mrs. Ione Grizzell of Grants Pass, Oregon. They have been here through the illness and death of their brother, N. W. Morgan.

Tommy Pinkerton is enrolled at Hardin-Simmons University where he will major in music.

Justice of the Peace Court

Justice of the Peace Court Cases for September 5th, 1971 through September 11th, 1971. Traffic Cases completed were: cases with fines amounting to \$527.00.

Beet leaves are more valuable food than beet roots.

Dennis Ireton Returns With Many Remembrances

Dennis Ireton went to Japan. He told the Lion's Club recently about his trip to the World Scout Jamboree.

He was one of 7,800 Scouts from the United States and 20,000 from 100 different nations to attend the World Jamboree. The Jamboree, the zenith of all Scout outings, was held at the foot of historic Mt. Fuji. It is 90 miles from Tokyo.

The trip to the Jamboree was filled with sightseeing, friend-making, and rain-

dodging. The entire campsite was flooded by typhoon rains. Thousands had to be evacuated.

Dennis showed the Lion's Club many interesting patches that he traded for with Scouts from many other countries. He also had a collection of other souvenirs obtained in the swapping.

Dennis is the son of Mr. and Mrs. Jack Ireton of Stanton. Dennis recently completed all the requirements for the Eagle Scout Award.

Jets 13-Bills 12; Cowboys 6-Rams 0 Pee Wee Football Thrills Crowd

Pee Wee football got off to a good start Saturday morning. The little guys know how to put on a show. In the first game of the first season, Stanton's potential All-Americans showed their stuff before a good crowd.

With only two weeks of practice, the coaches taught the little lads all they knew about football. Some of it sank in, as the quarterbacks of the teams were running more complicated plays than the high school boys. And the little guys made them go for yardage.

An impressive sight was the hitting of some of the Pee Wees. Contact didn't scare them, nor hurt them. The boys on the sidelines were ready and raring to get back into the game.

In Saturday's games, the Jets beat the Bills 13-12, and the Cowboys won over the Rams, 6-0.

The Bills broke the ice with an interception and runback of 70 yards by Oscar Perez. Todd Smith ran 40 yards for paydirt for the Jets, then added the PAT. Moments later he

ripped off 25 more yards for the Bills. The Cowboys beat the Rams on the run by Robert Villa. Scored the last touchdown on the run by Robert Villa.

Lions Pee Wee Football Schedule

First Games Start At 8:30 A. M. At Buffalo Stadium

Home Team	Visitors

BEAUTIFUL WATERFALLS like this are seen around Nikko, a major tourist attraction in Japan. The figure on the right is standing guard in front of a temple — he keeps evil spirits from entering.

JAPANESE FOUNTAINS like this are seen around the Imperial Palace in Tokyo.

ALCOHOL and its effects on drivers is the subject under study as a team of professional race car drivers take on enough alcohol to reach .10 percent blood alcohol concentration and then tackle a driving skills course. The test was sponsored by the San Antonio Association of Insurance Agents and conducted at Pan American Speedway by the Southwest Research Institute. Officials say the test is a graphic demonstration of the fact that .10 percent blood alcohol concentration is a level at which even professional drivers are unable to handle a motor vehicle safely.

THIS NEWSPAPER TO PUBLISH PICTURES OF LOCAL CHILDREN (RURAL INCLUDED) FREE NO OBLIGATION!

PICTURES TAKEN IN FULL COLOR

- ★ Help us make this a good feature — take your children to the place and at the time given below.
- ★ A Professional Child's photographer will take several poses in COLOR. Please dress your children to take FULL ADVANTAGE of COLOR Photography.

NOTE: The picture of your children will RUN IN BLACK and WHITE in this Newspaper.

You may ORDER COLOR OR BLACK and WHITE PHOTOGRAPHS from the representative — but this is entirely up to you!
