THURSDAY, JANUARY 3, 1935

**HARD WORDS**

Something to chew on between meals was offered recently in a conference given over to a discussion of the cause of crime. It was in Pittsburgh. Austin J. Roche, former police commissioner of Buffalo, suddenly decided to "speak his peace." And here is what he said: "We are all ducking the issue. I've heard a good deal about the causes of crime. First, it was the war; then it was prohibition, and lately it's poverty. It is not these things at all. Politics is the foundation of all crime. There are too many corrupt politicians." Those are hard, crisp words. But they hit and fit every community in the country that is of any considerable size. Only through honest, determined efforts to purge politics of its corruption and graft can crime be reduced in this country. But so far that is one remedy that hasn't yet been tried out to any very considerable extent.

The easiest way to curtail the cotton crop would be to offer field hands \$5 a day on public works.

You can tell when a Burkburnett girl has found the right man. She no longer cares what her girl friends think of him.

The assertion that men are superior to women would be more convincing if you couldn't see the men that do the asserting.

Why not turn this unemployment business over to the devil. They say he always finds work for idle hands to do.

The Chicago girl who has been sleeping for the past three years certainly knew the right time to do her sleeping.

We heard one Burkburnett old-timer say the other day that the whiskey now on sale tastes like the kind you once could put up with after the fifth drink.

Brother Methuselah lived to be 969 years old and he never even heard about vitamins and calories.

**10 Biggest News Stories of 1934 Listed by A. P.**

- 1.—New York, Dec. 24.—Many of the outstanding news stories of 1934 revolved around persons and personalities.
- 2.—Evan Richard Hauptmann. His arrest in the Lindbergh case provided sensational surprise and excitement in most famous kidnappings.
- 3.—King Alexander of Yugoslavia. Not death as assassin's hands because he failed to wear his bullet proof vest.
- 4.—Adolf Hitler. Consolidated his

- 5.—power in Germany through Nazi blood purge.
- 6.—John Dillinger. Crime career of America's "No. 1 badman" ended by government operators who didn't use wooden guns.
- 7.—Chancellor Dollfus of Austria. "Dollfus has resigned," said a strange voice on the Austrian radio, is proved to be Death speaking.
- 8.—The Dime quartet. Five babies were born obscurely and five survived and thrived.
- 9.—The Muro Castle. Another chapter in the age-old tragedy of men who go down to the sea in ships.
- 10.—Democratic off-year victory. Republican party went down under

avalanche of votes.  
9.—San Francisco general strike. A million people learned what it meant to shift for themselves.  
10.—Samuel Insull. "Not guilty," said jury, which tried dethroned utility czar, home after chase half around the world.  
Other outstanding stories: Death of Albert, King of the Belgians; London-Melbourne air derby; death of President von Hindenburg of Germany; Dizzy, Daffy Deans provide thrills in world series; General Johnson steps down from NRA; revaluation of dollar; great American drought; June Robles and other kidnappings; airmail contracts cancelled; Paris riots; Stavisky scandal in France; John Jacob Astor wedding; Babe Ruth plays last year of baseball; Pecos miners threaten mass death for pay increase; Mrs. Gloria Morgan Vanderbilt fights for custody of daughter; Bandits get half million in Brooklyn armored car hold-up.

- 1935's Outstanding Stories**
- 1.—Roosevelt recovery program.
  - 2.—Hitler's rise to power in Germany.
  - 3.—Repeal of the Eighteenth Amendment.
  - 4.—Recognition of the U. S. S. R.
  - 5.—American bank holiday.
  - 6.—Attempted assassination of President-elect Roosevelt and mortal wounding of Mayor Cermak.
  - 7.—Akron disaster.
  - 8.—California earthquake.
  - 9.—War on kidnappings.
  - 10.—Death of former President Coolidge.

**W. P. Chrysler Announces The New 1935 Plymouth**

Walter P. Chrysler today announced the 1935 Plymouths as "revolutionary new-type high-speed safety cars, expressly designed to meet modern traffic conditions." The cars are on display at Burkburnett.

Introduced in six beautiful body types the new Plymouths, streamlined in design, have added engineering developments which today more than ever before give emphasis to its claim of being "America's best engineered low price car."

To quickly catalog the outstanding features of the new car—the 1935 Plymouth has an 82 horsepower engine with a compression ratio of 8.7 to 1; a torpedo-type all-steel safety body; synchromount transmission; a new "ride" achieved by a redistribution of weight, plus a new front spring assembly; "Floating Power" engine mountings and hydraulic brakes.

Mr. Chrysler, in announcing the new Plymouth, said that it was created to satisfy a critical need in America at the present time for safer transportation.

"Every indication points to more automobiles on the streets and highways in 1935, than at any time since 1924," he said. "And, the automobiles of today are much faster than those of six years ago. They also must be safer."

**Safety Features**  
Chrysler Motors engineers, pioneers in the development of such safety features as the all-steel body, hydraulic brakes and new principles of weight distribution, have perfected these safety factors in the new Plymouth.

The all-steel body of the 1935 Plymouth fits down over the double-dip X-type frame. The body and frame are bolted together at 48 different points. Thus, the frame becomes a unit of the body along with the all-steel floor, side panels, center posts and other members. This design also permitted the engineers to build more room in the bodies. Plymouth seats are wider. The floor has been lowered 3 1/4 inches, providing a lower center of gravity and more leg and head room for the passengers.

The Plymouth engine, "mounted" in Floating Power rubber mountings, has been forward over the front axle to slow down the action of the front springs and make more

**New Ford V-8 De Luxe Tudor Sedan Shows**

PHOTO shows the new Ford V-8 De Luxe Tudor sedan for 1935, which has just been announced. The body lines are distinctively modern and a departure from previous Ford standards. The cars feature many engineering improvements providing greater riding comfort and increased ease of control. The engine has been moved forward. Passengers ride closer to the center of the car. The Ford V-8 engine now has a system of crankcase ventilation. The Tudor sedan is also available with out de luxe equipment.

room for the larger body. Plymouth passengers ride between the front and rear axles, entirely surrounded by protecting walls of steel.

With the engine over the front axle and the body moved forward and fitted onto the frame, the entire weight of the car has been redistributed to create an entirely new kind of ride. To further improve the ride, the engineers have developed a new type of springs, double-action shock absorbers, and a swag eliminator.

The new Plymouth springs are of a new thin-leaf design that are thinned down at the ends of each leaf so that a greater area of each end comes into contact with the adjoining leaves. Thus, the weight of the car is distributed over a larger area at each leaf end. The oscillation frequency has been reduced from 135 to 82 per minute.

Plymouth's hydraulic brakes have been improved this year by changing the size of the wheel cylinder pistons so that the pistons operating on the rear shoes of each wheel are larger than the piston actuating the front shoe. This equalizes the wear on the facings and provides much longer life to these parts. The new Plymouth has centrifuge brake-drums that combine the light weight and strength of steel with the ideal braking characteristics of cast iron.

More Burkburnett men would be willing to talk over money matters with their wives if said wives were not always reminding them of new things their neighbors have just bought.

Enemies are not so bad. Whoever heard of an enemy stopping you on the street and asking for the loan of a dollar?

## THE NEW FORD V-8 FOR 1935

### NOW ON DISPLAY

**A New Ford V-8 That Brings New Beauty, New Safety, and a New Kind of Riding Comfort Within Reach of Millions of People**

New Ford V-8 for 1935 is biggest and roomiest Ford ever built. It is a striking handsome car, with modern lines and new, luxurious appointments.

Most important of all it is specially designed to give smooth, easy riding over rough roads—"a front-side for back-seat riders."

This ease of riding is achieved by the use of three basic principles never before combined in a low-car.

Correct distribution of car weight carrying engine and body forward and a half inches.

New location of seats by which the seat is moved forward, toward the front of the car—away from the rear and away from the bumps.

New spring suspension which permits use of longer, more flexible springs and increases the springbase to 18 inches.

Result is Center-Poise—which not only gives you a new riding comfort but also the stability of the car and its

ease of handling. You can take curves with greater safety.

There are many new features in the Ford V-8 for 1935 which make the car still easier to drive. New brakes give more power for stopping quickly with far less foot pressure on the pedal.

A new type of easy-pressure clutch employs centrifugal force to increase efficiency at higher speeds. New steering mechanism makes the car still easier to handle. New, wider, roomier seats.

The New Ford V-8 for 1935 retains the V-8 engine which has demonstrated its dependability and economy in the service of more than a million owners. There are refinements, but no change in

basic design. You buy premium performance when you buy this Ford V-8—full 85 horsepower and capable of 80 miles an hour. All Ford V-8 cars for 1935 come equipped with Safety Glass throughout at no additional cost.

We invite you to see this New Ford V-8 for 1935 at the showrooms of Ford dealers. You will want to ride in it—drive it yourself. You will find it a new experience in motoring.

#### FORD V-8 PRICES ARE LOW

12 BODY TYPES—Coupe (5 windows), \$495; Tudor Sedan, \$510; Fordor Sedan, \$575; DE LUXE—Roadster (with rumble seat), \$550; Coupe (3 windows), \$570; Coupe (5 windows), \$560; Phaeton, \$580; Tudor Sedan, \$575; Cabriolet (with rumble seat), \$625; Fordor Sedan, \$635. TOURING SEDANS, with built-in trunk—Tudor Touring Sedan, \$595; Fordor Touring Sedan, \$555.

(F. O. B. Detroit. Standard accessory group including bumpers and spare tire extra. All body types have Safety Glass throughout, at no additional cost. Small down payment. Convenient, economical terms through the Universal Credit Company.)

1935 FORD V-8 TRUCKS AND COMMERCIAL CARS ARE NOW ON DISPLAY

## Hundreds Have Attended the First Showing of the NEW FORD V-8

If you haven't seen it, come in today and let us show you what the 1935 car offers.

### Crowds

(from Page one)

The touring sedan, with sleek lines and embossed rear trunk combined with the body.

marks the present developments begun years ago at the time of the V-8. Three years intervened engaged in the development of improvements aimed at ease of riding comfort and control comparable with the best of the progress of the new cars are a freshness of contour and flowing curves to a modern motif, plus a

new treatment of interior and appointments which sound an entirely new note in Ford body styling.

The engineering advances in engine and chassis are comparable in importance. Principal among these is the new "ride" effected by the new spring suspension system, proper car weight balance and passenger weight distribution and the location of the passenger closer to the center of the car—so that they ride between the wheels.

To accomplish this, the front of the front axle and the engine is moved forward more than eight inches so that its weight rests over the front axle. Front and rear springs have made more flexible. Added chassis room available as a result of the front end improvements permits redistribution of the passenger weight—now concentrated between the wheels—so that the weight on the two axles is approximately equalized, giving rear seat passengers the comfort of a "front seat" ride.

Key to the changes made in outward design is found in the relocation of the front spring and engine.

This has permitted moving the body forward so that passengers ride between the axles, and the development of rear quarter panel treatment along flowing lines. The car is approximately eight inches longer from bumper to bumper.

The modern design note is carried without break through the new slanting vertical grille with horizontal beading, the sweeping line of the low hood and more sharply slanting windshield, the beautifully molded body and the flowing rear quarter panel. Fenders are deeper and more highly crowned, with sweeping skirts.

Bodies are materially wider. Slanting vertical louvers with horizontal stainless steel beading are combined to form an attractive hoodside adornment. The radiator ornament is fixed in position, the radiator filler cap being under the hood.

Wheels are smaller, tires larger. The hub caps are adorned with a new and modern treatment of the V-8 insignia. The result is an impression of mass and stability most pleasing to the eye.

Interiors are roomier, with wider seats—front and rear. Span of the front seats has been increased up to 5 1-2 inches, providing room without crowding for three persons in bodies with full width seats. Driver's seat in all closed cars is adjustable. Upholstery and appointments harmonize with the remainder of the design.

Engine improvements include: Addition of a new system of directed-flow crankcase ventilation, which exhausts water vapor and gases from the crankcase and valve chamber. This minimizes the collection of excess water in the oil and lessens formation of sludge. Dilution of the oil by unburned gasoline is reduced. The continuous flow of air also exerts a cooling effect which tends to lengthen oil life and minimize engine wear.

Use of aircraft type copper-lead floating connecting rod bearings similar to those used in high-speed racing and airplane engines where reliability under the most severe operating conditions is of paramount importance. A new cast alloy iron camshaft.

Additional major chassis improvements include:

Newly designed, internal expanding mechanical type brakes, intended to give more effective braking control—with less pedal pressure—and embracing a new "floating wedge" as part of the design. This aids in equalizing pressure upon brakeshoes and return upon the drums. Additional drum ribs give a 40 per cent increase in cooling effect.

A new clutch of simplified design requiring less pedal pressure at starting and gear-changing speeds and with much softer action. At higher speeds the pressure is increased by centrifugal weight action to increase the power transmitting capacity of the clutch.

New, stronger, more rigid frame, heavier front and rear radius rods, wider rear wheel tread and a strengthened rear axle.

Nine body types are listed. The following are available with de luxe equipments: Phaeton, roadster, 3-window coupe, 5-window coupe, cabriolet, Tudor sedan, Fordor sedan, Tudor touring sedan, Fordor touring sedan. The roadster and cabriolet are fitted with rumble seats.

The 5-window coupe, Tudor and Fordor sedans also are available without de luxe equipment.

#### Bids for Co. Supplies

The County Auditor of Wichita County, Texas, will receive bids until 10:00 o'clock a. m., January 14, 1935, for Gasoline, Oil and Grease, to be furnished Precinct No. 2 from time contract is let until December 31, 1935.

Specifications may be seen for examination, and detailed information concerning the bids may be obtained at the office of J. R. Jones, County Auditor, Wichita Falls, Texas. Bidders are invited to come to the County Auditor's office and familiarize themselves with the quantities and quantities being advertised for.

A Certified check of five (5 per cent) of the total amount of the bid made payable without recourse to the order of J. R. Jones, County Auditor, must accompany each proposal. The contract will be let to the lowest and best responsible bidder. The successful bidder will be required to enter into contract and to make bond in the full amount of the contract price executed by some surety company authorized to do business in the State of Texas.

Bids must be submitted in sealed envelopes and marked "Bids for Precinct No. 2 supplies."

Usual rights reserved by Wichita County.

### COVERING THE COLLEGES

—with—  
MATTHEW TUCKER

"Hello to everybody" from David Jackson McWilliams, Jr., known to friends in Burkburnett as "Jack" and "Mac." And he means it, just like he means it when he hands out a rule of grammar to one of those freshman classes in the University of Texas. Folks who are blessed with Mac's instruction when they were in B. H. S. (good old B. H. S.) know how emphatic that would be.

From John D. Ellis (Girls, his address is Box 92, H. S. U., Abilene, and ours is Brackenridge Hall, in Texas' capital city) who foresook A. & M. for Hardin Simmons University this year, comes a promise of a letter or so in the future, with the low-down on Floyd Skipwith, Charles W. Wesbrooks, and Glyn Buckner who are in Abilene Christian College. Trust John to hear all of it. And what we don't hear from Skip and Chub and Buck about Old Red won't be worth telling, either. Or maybe it won't do to tell.

More folks we're interested in: Jean Reger of C. I. A. and Margaret Preston of N. T. S. T. C. at Denton, and Bernice Smith, Ruth Jackson, Gladys Pinkston and Maurine Goodwin, all of Mary Hardin Baylor at Belton.

At Brownwood, learning how to be a success at Howard Payne, are Ted Swiniford, Wilbur Gregg and Malcolm Moore. Central Texas is well covered, with Ted and Speedy and Malcolm on the job. We'll hear more of them later. And now we recall that Donald Roberts, the third of the Roberts boys in college, is beginning his career at Hardin Simmons this year, as is also Donald Cross, Livingston Hudspeth ("Lev" to you) and Ted Harwell. And then, 'way up at Norman, in the University of Oklahoma, we find Malcolm Hudson.

No opinion has been offered as to whether all three of the Roberts boys will be allowed to go to the University of Texas at the same time. If they got in the same boarding house together they'd be able to cooperate and mop up the floor with the rest of the inmates, not to speak of eating more than the landlord could furnish at the price most of the boys pay. They'll be one of the leading campus problems.

Donald Cross is making a sensation at H. S. U. by his efforts to get himself called by the name of "Smokey." So far, by dint of an intensive advertising campaign, he has had only indifferent success, as there seems to be some active opposition to the new monicker, especially among the other boys from his home town. May he'll put it over yet. But why does he wear his freshman cap while at home, when he refuses to wear it at school?

Dog Laney reports that during his vacation he's been doing the same old thing—just doggin' around. And no one can deny that he does it right and thoroughly. Furthermore, Dog has an uncanny faculty of keeping out of trouble in spite of this habit. In fact, we might say that all the boys behaved so nicely during the Christmas vacation that they were just a shade disappointing to many interested onlookers. Kenneth Tucker kept out of Satan's way by taking a trip up to the Ozark Hills of Northwest Arkansas to take a look at that farm he expects to settle down on not long after he graduates from A. & M. in the spring. We must except these Roberts boys from the good-conduct lists; and suggest that Papa Roberts keep his Roi-Tan (no advertising) in a safer place.

This morning while we were wondering how to start the day off, a knock at the door proved to be that of Douglas Roe of Glade-water, formerly of Burkburnett, accompanied by our old friend Dizzy Dillon. Doug has set his heart on being an engineer and did the right thing by entering the College of Engineering at the University of Texas, instead of at Texas A. & M. Why will Dog Laney persist in saying that A. & M. is a better school than the University?

The gang has had a rest from its studies for the past ten days; now we are back or soon will go back to school and hard work again, and the folks at home can get a chance to rest. For many of us it is only a few weeks to those stormy times known as Final Exams, and our room doors will be decorated with a "Don't disturb, busy cramming" sign. But those who heed the sign and stay out will never know that it is on the good things to eat that we brought from home that we are cramming, and not trigonometry or physics or French or English, and that it is our appetites and not our thirst for knowledge that is being satisfied.

Solomon must have been exceedingly rich. The ordinary Burkburnett man can show off his wealth by dressing up only one wife.

## Mr. and Mrs. W. H. V. Yates Celebrate Golden Wedding

Mr. and Mrs. W. H. V. Yates celebrated a belated golden wedding anniversary during the Christmas holidays at their home on the Wichita pavement, one mile East of town.

The Christmas motif was carried out in the decoration of the home and the Yuletide spirit prevailed during the few days stay of their sons and daughters and families. All their children were present except Mrs. Rex Collins.

To add to the happy couples pleasure was the fact that their oldest daughter and husband celebrated their wedding anniversary, also O. C. Whitaker a birthday at the same gathering.

Mr. Yates was born in Nacogdoches County in 1859. Mrs. Yates was born at Fairfield, Texas, in 1869. They were married on December 13, 1884 at Fairfield, Texas. They are the parents of eight children with thirteen living grandchildren and two great grandchildren.

Mrs. J. M. Thomas composed and presented the following poem which was rendered by one of the grand children of the couple:

Dear Father and Dear Mother  
Listen to me, I pray,  
We've gathered here to celebrate  
Your Golden Wedding Day.

We wish for you the joys of life,  
And hope the love we give,  
May shield you from all care and strife,  
And bless you while you live.

Those present for the happy occasion were: Mrs. J. J. Pewthers, Mountain View, Okla.; B. V. Yates of Long Beach, Calif.; Mrs. G. C. Dunham, Big Spring, Texas; Neil Yates, Chickasha, Okla.; Mrs. O. C. Whitaker, Burkburnett and their families.

## University Study Club

Bible Day and a Christmas program combined formed the theme of study for members of the University Study Club when that organization met at the home of Mrs. R. C. Tevis

**LIKE NEW**

Starve the rag-bag! Don't throw any garment aside just because it looks a little "rusty" or wrinkled, stained or out of shape. We can make that old suit, overcoat or skirt look bright, clean and attractive—dry cleaning and pressing works wonders—

## Family Reunion Held At Minick's Home

Christmas eve a delightful family reunion was held at the home of Mr. and Mrs. F. O. Minick. A beautiful Christmas tree was enjoyed by all and many lovely gifts were exchanged.

A delicious Christmas dinner was served at noon to the following relatives and guests: Mr. and Mrs. D. E. Caraway and Mrs. T. J. Barton and children of Tulsa; Mrs. C. H. Holiday of Oklahoma City; Mr. and Mrs. H. O. Minick and family of Portales, New Mexico; Mr. and Mrs. W. A. Minick, Mr. and Mrs. C. J. Minick of Wichita Falls; Mr. and Mrs. A. A. Evert, W. B. Minick, Helen B. Nolen of Wichita Falls and T. O. Minick.

On Christmas day the same crowd included Mr. and Mrs. G. U. Minick, Mrs. J. R. Gaston and Miss Lois Gaston of Wichita Falls, and had dinner at the home of Mr. and Mrs. W. A. Minick.

December 28th, dinner was served to all the relatives at the home of Mr. and Mrs. C. J. Minick.

## P. T. A. Group Met Tuesday

Mrs. Mace Oyler talked on "Play at School" at the meeting of the Parent-Teacher Study Group Tuesday afternoon at the grade school building.

Mrs. H. Lee Clifton was program chairman for January.

Little Miss Jean Duncan made a hit with two clever readings.

This group meets again Feb. 5th with Mrs. R. J. Kelly, leader.

## Missionary Federation Hears Rev. C. Cook

"When proper spiritual strength emanates from inside we can be hurt very little by what goes on outside of us," said Rev. Curtis Cook, when he reviewed "Precious Jeopardy" by Rev. Loyd C. Douglas at the meeting of the Missionary Federation at the Presbyterian church Monday afternoon.

Mrs. Neal Hall in bringing the devotional asked each one to render unto God of his time, service, and talents.

Mrs. M. W. Majors very capably installed the officers for the new year. Mrs. J. H. Exley, president; Mrs. W. D. Bent, vice-president; Mrs. Bertha Cropper, secretary and Mrs. C. B. Beldon, treasurer.

Mrs. Exley read the names of the Baptist and Presbyterian ladies who have just been appointed in the Council Board. Those from the Baptist church are Mesdames J. A. Johnson, C. B. Beldon, W. A. Strickland, B. L. Turner, Wid Phillips, and O. C. Houser. Those from the Presbyterian church are Mesdames Johnnie Anderson, Marvin Patterson, Hugh Jones, G. A. Henderson, Hood and H. J. Exley.

Those present at the meeting were Mesdames W. D. Bent, J. D. Johnson, O. E. Melton, M. W. Majors, Henry Pritzing, Neal Hall, Marvin Patterson, Wid Phillips, J. H. Exley and Bertha Cropper and Rev. Curtis Cook.

## Janet Belle Riley Entertains

One of the loveliest parties of the holiday season was held Monday, December 31, when Mrs. J. B. Riley was hostess to a number of Janet Belle's little friends in the home of Mrs. Mat Riley on Janet's sixth birthday.

The guests arrived at 3:00 P. M. Games were played and stories read until time to view the many presents Janet received. Much merriment was displayed over the toys, games and other things even though it had been such a short time since Santa had left his host of things at all their houses. Jim Tom Brookman and Dorothy Browning won the prizes for biting the apple on a string.

After a delicious plate of birthday cake, sandwiches and grape juice, they all received a whistle, went home saying they had the best time ever.

Those attending were: Mamie Browning, Carol Lohofener, Mary Jean Prince, Joan Duncan, Dotty Kent, Dorothy Browning, Valta Brookman, Kay Kincaid, Ramona Milford, Janet Belle Jim Brookman, Pat Lewis and Wid Philip Crawford, Donald Wayne and Jerry Brookman and J. B. Riley, Jr.

Mrs. Pat Crawford and Mrs. Mat Riley helped Mrs. J. B. Riley entertain the kiddies.

## Delightful Party

Complimenting Miss Bernice Smith who is attending Mary Hardin-Baylor College who was home for the Christmas holidays, Mrs. John Brookman and Miss Gladys Smith entertained at an informal party Friday evening, December 28th, at the home of Mrs. John Brookman on Fifth St. Seasonal games furnished entertainment for the evening.

A salad course was served to Misses Bernice Smith, Gladys Pinkston, Ann Powell, Elizabeth Johnston and Gladys Smith; Mesdames Herman Brown, Al Laura Brookman Robinson, John Brookman; Messrs. L. W. Southerland, Cecil Foster, J. D. Clayton, Ray Rufner, Ralph Trask, Herman Brown, Alvin Powell and John Brookman.

## Jeanette MacDonald Talks About Music And Marriage

Jeanette MacDonald

Jeanette MacDonald has at last decided to "stay put."

It was during the filming of "The Merry Widow," in which she and Maurice Chevalier co-star in Ernest Lubitsch's glamorous production, that she signed a long-term contract, the first she has ever signed, with Metro-Goldwyn-Mayer.

Heretofore she has insisted on signing "by the picture," and alternating her screen work with concert tours. But the studio had a series of elaborate roles for her, so the concert tours went a-glimmering for the present, and she is to really make her home in Hollywood.

"The Merry Widow" will be at the Palace Sunday and Monday.

## Bids for Co. Supplies

The County Auditor of Wichita County, Texas, will receive bids until 10:00 o'clock a. m., January 14, 1935, for Gasoline, Oil and Grease, to be furnished Precinct No. 2 from time contract is let until December 31, 1935.

Specifications may be seen for examination, and detailed information concerning the bids may be obtained at the office of J. R. Jones, County Auditor, Wichita Falls, Texas. Bidders are invited to come to the County Auditor's office and familiarize themselves with the quantities and quantities being advertised for.

A Certified check of five (5 per cent) of the total amount of the bid made payable without recourse to the order of J. R. Jones, County Auditor, must accompany each proposal. The contract will be let to the lowest and best responsible bidder. The successful bidder will be required to enter into contract and to make bond in the full amount of the contract price executed by some surety company authorized to do business in the State of Texas.

Bids must be submitted in sealed envelopes and marked "Bids for Precinct No. 2 supplies."

Usual rights reserved by Wichita County.

J. R. Jones,  
County Auditor,  
Wichita Falls, Texas.

Leader Snell declares the Republican party is very much alive, with plenty of courage. No doubt, no doubt, it still has Vermont and the Saturday Evening Post.

A baby is born in America every fourteen seconds—not the same baby but one very similar.

Orange groves are hard competition for the apple orchards, still we prefer apple cider to orange juice.

As a general thing, when a man is so rich he doesn't know what to do with his money he keeps it.

More than 500,000,000 pounds of cheese are produced annually in this country, but we don't know how

## Mae West Gives Advice to Lovelorn

Who was the guy who first said that a youngster didn't want to hear about the experience of others? That's one of the copy-book bromides that's still being repeated day in and day out—while thousands of youngsters write to me, every day, asking for nothing but advice.

They sorta feel that a dame with all my experience must know the ropes—and these kids need someone who knows the ropes to untie the knots into which they've managed to get tangled.

But a lot of the questions aren't a bit funny. Just recently, for example, I received a letter from S. J. C., an eighteen year old from Milwaukee. I've already answered her letter—though I'm not going to print it here. Instead I'm going to give you a chance to answer it.

**Question to Answer**

"I'm 18 years old. I am in love with a boy 24. We want to get married but he has been out of work for three years, and I haven't been able to get a job either. Our parents are out of work, too. It couldn't be much worse if we did get married. What should we do?"

Fortunately, all of the questions that come to me aren't as full of discouragement as that one. They have their lighter sides, too. Here are a few I want to answer now.

### Only One Mae West

"I am 21 years old and I want to be popular with the boys. I have adapted your mannerisms, but everybody laughs at me. What is wrong?"

Sweetheart, they only made one Mae West—and then they broke the model. I play the kind of dame that always asks for more than she expects to get—and then gets more than she asked for. But you can't, for Lady Lou and Tira and Ruby Carter are just burlesque characters, burlesquing the kind of women that men dream about and wouldn't know how to handle if their dreams came true. Men feel lots more comfortable with a girl they can understand—and none of them understand me. Men enjoy seeing other saps taken for a fall—but no man wants to be a fall guy himself. So be your own sweet self—and remember that underneath I'm just a babe in the woods myself.

many million crackers are required to back it up.

One trouble with the rising generation is that it doesn't go to bed early enough.

One feature of the depression was that there was little worry over the fellow who used to be careless with money.

January 1, 1935  
Those northerners are just a little too often to suit the taste of the folks here. They will have to go further where the climate suits his better.

Word or two to the wise. A wise person who has any-thing to sell and it will sell quick. Slip a little add in his local paper and it won't be 5 hours before it arrives in its readers hands. You will be flooded with orders. I know this to be the fact. Masud Owens put a little ad in the Burk Burnett Star, one of the weekly papers printed in the ad stated that Mrs. Owens had some fine, well headed bundles for sale. Believe me, she passed the readers of the Burk Burnett Star until they were autos, wagons and even on back to buy the feed. There are at least a dozen fellows in the feed. Some fellows in Bur County, Texas, was to make a big truck to buy it. A Mr. who lives in Burk Burnett is an oilman, came first and the first come were served. They all told the Burk Burnett Star. If I had watch that wouldn't run. I would I would go to it as soon as possible and put in the Star that I had for sale. Believe me, it'll be 24 hours until Mr. would be sold. It's the only advertise, if you have any-thing to sell. It's a fine way to get so I have been told. The ad about advertising your

things for sale in the Burk Burnett Star is that it has such a large circulation. That little ad went away down in Wise County, Texas.

Mr. and Mrs. W. H. Martin and two daughters called on the Owens family Sunday afternoon and spent an hour or so visiting.

Mrs. Dave Jones and her little daughter and her hired man, Jack Clay, called on her son and daughter-in-law, Mr. and Mrs. Keeble Jones Sunday afternoon.

J. B. Fletcher moved his wife and family the first of last week to Poolville, Oklahoma.

Mr. Henry Kinnaird came to the Owens family residence Saturday evening to call Dr. Dice from Randall for Mrs. Fred Wyatt, as she was very sick at this writing. The writer is unable to state how Mrs. Wyatt is, as he hasn't heard from that part of the neighborhood.

Mrs. W. H. Martin informed the writer that a shower party would be given in honor of her married daughter and son-in-law, Mr. and Mrs. Fred Hooper. The shower party will be given Wednesday of this week. Everyone is cordially invited to attend.

There has been a great many hogs that have lost their squeal since Xmas. Si and Will Linksey killed two fine hogs Monday.

Lather Bridges sold 400 bundles of his fine cane feed to a Mr. Jones who lives in Wise County, Texas last Saturday.

Mr. John Ashton, one of the prosperous Big Rabbit Creek farmers, had his hired men to bring down a

fine bunch of young sheep to his Indian lease one day this week. Mr. John bought 18 head which makes 28 head he has in his pasture and they sure are nice ones.

The newly weds, Mr. and Mrs. Hooper have moved to themselves on one of Mr. and Mrs. W. H. Mortins farms and Mr. Hooper is making preparations to commence plowing in the near future. When spring comes, he will have his ground ready for planting.

Charlie Nails called on the Owens family Sunday afternoon. His call was appreciated.

Mr. Johnny Mouser went up to Mr. John Ashton's Monday to help the plumber who is doing the plumbing part in Mr. and Mrs. Ashton's fine house, but the plumbing man didn't come for some reason from Burk Burnett, so Mouser had to come back home and lost his days work.

Well, good readers of the Burk Burnett Star, here's wishing health, wealth and prosperity for each and every family in Burk Burnett and its surrounding community as well as well as on this side of the pond for the year of 1935. Hoping and trusting that a bountiful crop of all kinds will be raised and a fair price in turn will be paid for it. Yours for a fine year for 1935.

HAWKEYE

**In New Film**

Mae West, Paramount screen sensation, is starring in her third, "Belle of the Nineties," coming

Tuesday and Wednesday to the Palace Theatre. It is the romance of a burlesque queen, set in the glamorous New Orleans of the Nineties.

**\$1,225,000 Worth of Maytag Washers Sold During 1934**

Maytag washers at the retail value of \$1,225,000 were sold in 1934 by Texas Maytag Dealers, it was reported at a year-end conference of Maytag Managers and officials of Maytag Southwestern Company, Dallas, distributors in Texas. "This was the best year in Maytag history in Texas despite the severe drouth", Walter Rogers, President Maytag Southwestern Co. said. Dealers and managers throughout the state were enthusiastic over the outlook for 1935 and predict a half-million dollar increase for this year.

"Outstanding in the records of 1934 were the volume of sales made by small town dealers, many in the drouth area. A number of dealers in scattered population sold 100 washers and one sold over 500," Mr. Rogers said.

A national record was hung up by Texas Maytag Dealers when 78 per cent of their sales in 1934 were made on the cast aluminum square tub washer which is the higher priced models, and only 22 per cent on the lower priced models. The Maytag Company, manufacturers, at Newton, Iowa, pointed out that this is the best record of any state in the country.

To carry out President Roosevelt's idea of putting more men to work, Texas Maytag Dealers and managers are starting out the first of the year to employ 500 salesmen to take care of the anticipated increase in business for 1935.

One who persuades little boys to fight in an ignorant bully, but one who persuades men to fight is considered a great leader.

## Value of Commercial Subjects

By T. J. Blackwell  
The commercial subjects taught in Burkburnett High School; viz., shorthand, typewriting, bookkeeping, commercial law, and commercial geography, are not only practical or vocational value to the student, but are also of cultural value. Everyone accepts without question the practical or vocational value to be gained from commercial subjects, but few stop to realize the cultural value of these subjects. Let us consider briefly each of these.

Perhaps the oldest idea, or purpose, for offering commercial subjects to the high school student is to prepare him for some vocation. Shorthand, typewriting, and bookkeeping, or to do general office work. These preparations for jobs may in turn serve as stepping stones to higher jobs, or opportunities to wedge into better jobs. The stenographer, for example, comes into close contact with the business executive, who may recognize her ability and give her a better job when the opportunity arises. Many of the prominent business men of today started as the stenographers and bookkeepers of yesterday. On the other hand, commercial law and commercial geography are not primarily vocational subjects since they do not have as their purpose the preparing of students for the practice of law or for work in any phase of the marketing field.

Perhaps the most recent and the most important reason for offering commercial subjects, to the high school student is to give him something of practical value—something that he can use in his daily life no matter what may be his vocation or profession. Shorthand and typing, for example, are of practical value to the newspaper reporter or the student in preparing reports. Bookkeeping, for example, teaches the student to keep his own accounts, to reconcile his bank statement, and to fill out and use business forms, and the like. Commercial law gives the future business man enough knowledge of law so that he can avoid law suits and hire a competent lawyer when necessary, rather than to become a lawyer himself.

Perhaps the least thought of purpose for offering the high school student commercial subjects is to give him cultural training. To determine just what we mean by "culture" from an educational standpoint, we have consulted a Webster's Unabridged International Dictionary. This unquestioned authority defines culture as the art of improving or developing by education, discipline, etc., the training, disciplining, or refining of the moral and intellectual nature. What subject compels closer attention, more detailed accuracy, application of principles and careful forethought, than bookkeeping and accounting? Here must be displayed reasoning, neatness, honesty in striking correct balances, and all those elements of training and discipline comprehended in Webster's definition. Stenography (shorthand and typewriting) compels the student to think quickly and accurately, to bear things accurately, to memorize, and to concentrate. Commercial law and commercial geography are also cultural subjects in that they compel reasoning, honesty and an application of civil and economic laws. Commercial geography, for example, teaches the student where the products that he uses each day are produced, and why, how they are distributed; and where they are consumed. Certainly this is cultural.

An analysis, in fact, of each commercial subject taught in Burkburnett High School will show that it fulfills all seven of the cardinal principles as reported to the National Education Association by the Commission on the Reorganization of Secondary Education. Thus we can say that commercial subjects offer vocational, practical, and cultural training to the high school student.

## Senior Watch Party

The Senior class started the new year off right by having a watch party Monday night.

The class met in front of Farmer's State Bank but decided that it was too cold for bank robbing. Therefore the members of the class of '35 spent their savings they worked so hard for in '34 to watch the new year come. The entire party attended the midnight matinee.

If you noticed the nodding heads and drooping eyes Tuesday it was a simple matter to tell who attended.

READ THE STAR!

## American High School Anniversary

The year 1935 ushers in an important anniversary in the life of the American people. Three hundred years ago the first American high school—the Boston Latin School—was founded. It was established in 1635 only fifteen years after the landing of the Pilgrims. From a small beginning with one instructor and a handful of students has grown the splendid service now provided for more than 6,000,000 young Americans by 28,000 public and private high schools. These schools are developing the most precious resource of our nation, the latent intelligence of our young people. It is worth noting that social progress in the United States is following swiftly on the heels of the remarkable expansion of educational opportunity at the high school level.

I hope that the young people of every high school in the United States will celebrate this three hundredth anniversary. I hope they will celebrate it in a manner which will bring vividly before parents and fellow townsmen the significance, the contribution and the goals of their schools.

Franklin D. Roosevelt

## F. F. A. Teams to Have Contest

Saturday, January 5, was designated as District Poultry Judging contest at Vernon. There will be teams of 3 in number from several of the surrounding towns.

Burkburnett will have entries at the contest and are working hard to bring back honors from the contest. There are several things to keep in mind in judging poultry and one must be very accurate in determining the characteristics of poultry in order to win a place.

J. D. Everheart, teacher of Vocational Agricultural (District Advisor) will have his fleet in full swing Saturday and we are hoping they will bring back some honors to F. F. A.'s of Burkburnett.

## Basket Ball

Burkburnett played Cashion Tuesday night at Cashion in a conference game. This is the third conference game.

Eddie Young was out of the lineup on account of being called to Tennessee, because of the death of a relative.

New uniforms have come. They consist of complete playing suits and warm-up suits.

Friday night we play Valley View in another conference game.

Probable starting lineup will be Finch or Teal and Rose at guard. Allen at center, Robertson and Baptiste at forwards.

Other boys showing promise are Wolfe, Wheeler, Millikin, Willett, Hays and McPherson.

Much interest is being shown and after an early defeat by Electra the Bulldogs came back and defeated Iowa Park 29-9.

## Personal Mention

Mr. Hill spent the holidays in Burkburnett.

Miss McClude visited in the Rio Grande Valley and in Old Mexico during the Christmas holidays.

Mr. Johnson spent the holidays in Lubbock, Enid, and Oklahoma City.

Miss Michie visited in Dallas and at her home in Farmersville during the holidays.

Mr. Reaves spent the holidays in Burkburnett.

Miss Goring spent the holidays in her home at Wichita Falls.

Miss Culpepper spent the holidays in Electra.

Miss Ford spent the holidays in Burkburnett.

Mr. Duncan spent the holidays in Oklahoma City.

Miss Billingslea spent the holidays in Burkburnett.

Mr. Strong visited in his home in Farmersville during the holidays.

Miss Westbrook spent the holidays in Burkburnett.

Mr. Williamson spent the holidays in Palmer, Texas.

Miss Kirby visited in Duncan, Oklahoma and Gainesville, Texas, during the Christmas holidays.

Mr. Everheart spent the holidays in Decatur, Texas.

Miss Dunaway spent the holidays at her home in Belcherville, Texas.

Mr. Blackwell spent the holidays at his home in Denton, Texas.

Mr. Westerfield spent the holidays at his home in Burkburnett.

A man used to get into trouble by sowing wild oats but now he gets into trouble by sowing more wheat than the government says he can.

## GROWL STAFF

Editor-in-Chief	Gayle Preston
Associate Editor	Frances Clark
News Editor	Malene Baber
Sports Editor	Jackie Kirsh
Society Editor	Nedra Campbell
Feature Editor	Mildred Simmons
Typists	Oleta Thornton, Tate Hall

## Freshman Flashes

Neil Peters spent Christmas in Wichita Falls.

Virginia Vaught was ill during the Christmas holidays.

Miss Dunaway's New Year's resolution is to give English 1-a better and longer assignments.

Betty Jo Gilchrist has made a New Year's resolution to study her general science and take her pencil to class.

Mr. Johnson to "unskun" every one in his general science class who don't bring pencils to write with.

In Algebra 1-a we want Mr. Strong to resolve Will he?

Katheryn Houser spent Christmas with Billie Jo Estes.

Several girls sent Billie Jo gifts.

Bernice Berringer spent Christmas in Oklahoma with her grandmother.

Marshella Alexander spent Christmas in Oklahoma.

La Nelle Elder was in Tyler for the Christmas holidays.

## Volley Ball

The girls play Cashion Tuesday night and Valley View Friday night.

The girls have not made such a good showing as some might have expected so far. They have lost the last 2 games, but they are planning to do better in the next games.

Most of the girls are in the volleyball squad for their first year, and really are developing into good, steady players.

The volleyball girls are: Bernice McDonald, Mary Lafon Alexander, Irene Evans, Juanita Shuffler, Marcella Foster, Della Ashman, Marjorie Bowden, Milford Milford, Corrine Morse, Ruth Jeffers, business manager. The girls are making a little money here and there with which they expect to buy their sweaters in the spring. They have nearly \$15 already.

If everybody was rich, who'd get up and get the breakfast while the others snored until 10 a. m.?

## Our Seniors

R. H. MORSE

R. H. was born in Iowa Park, Texas, December 9, 1917. He started to school in 1924. Since he has been in this school he has found that his favorite teacher is Miss Morgan and his favorite subject English.

Some more of his favorites are: Sport, football; drink, Coco Cola; food, chicken; his best friend, Floyd Johnson. R. H. thinks that the most popular girl is Marion Boden and the most popular boy is Louis Sims (the boy uses good judgment).

He says the best looking boy is Louis Sims and best looking girl Olena Cash (Louis is not only the girls favorite but the boys too). His ambition is to join the air service and he plans to do this after he finishes school.

JACQUELINE KIRSH

Jackie, as she is usually spoken of, was born in Jewette, Texas on March 3, 1919. She started to Fairview at the age of seven. Here are a few of her favorites: food, Devil's hash; subject, study hall; gum, Dentype; drink, Coca Cola; sport, swimming; hobby, making the drag; pastime, sleeping; her best pal is Valetta Smith. In her opinion the most popular boy is Louis Sims and the most popular girl Cornelia Evert. The best looking boy, any senior, and the best looking girl, Olena Cash.

She plans to go to college after she finishes at B. H. S.

Her opinion of the senior class is "best ever" and no wonder, look who is backing it, Miss Morgan. Her ambition is to become a successful business woman and marry her boss.

## Sophomores Have Nice Party

The Sophomore class was entertained with a Christmas party Saturday night, December 22, at the home of Luther Lee Grace. The big baseball game caused a lot of excitement.

## STRENGTH of CHARACTER

An Iron Brace is Strong, but its Strength is Useless unless it fits its place. A good man is a loss unless he is squared to his job. This is true of everyone.

## CITY GROCERY & MARKET

Owned and Operated by HENRY PRINZING AND BUD HICKS

We are Solidly Behind the Schools and Their Efficient Corps of Teachers

Our policy has been and will continue to be to sell you merchandise all through the week as cheap as these "so-called" Saturday Specials. We only raise our prices when forced to by wholesale advances.

After several games had been played and gifts were exchanged, the class was served hot chocolate and cake (furnished by Mr. Reaves, by the way). Everyone went home full of the Christmas spirit.

The Sophomores enjoyed a very nice party at Louise Kent's house New Year's night. Games of all kinds were enjoyed especially one. Miss Kirby gave a Spanish dance, also Miss McClure pushed a match across the room with her nose.

Suitable refreshments of all day suckers, apples and chewing gum were served to Marvin Spillers, Juanita McKenzie, Price Christmas, Billie Wheeler, Bettie Pauline Berrier, Wayne Whitten, Helen Grady, Kenneth Simmons, Miss Kirby, Melvin Bills, Miss Michie, Roy Lee Simpson, and Miss McClure.

All reported a very good time.

## Office News

A lenative copy of the schedule for next semester will be placed on the bulletin board this week. Students are asked to look the schedule over and to offer suggestions and complaints to the office at the earliest possible date.

New regulations require that all students wishing to take bookkeeping next year must take commercial arithmetic next semester.

## Faculty Meeting

On last Monday morning a faculty meeting was held and the following directors of events were selected:

### High School

Debate	Reeves
Declamation	Tanner
Essay Writing	Morgan
Extemporaneous Speech	Dunaway
Senior track & field	Hill, Culpepper
Basket Ball	Robison
Tennis	Robison
Boys' playground ball	Williamson
Girls' playground ball	McClure
Volley Ball	McClure
Spelling	Billingslea
Typing	Blackwell
Junior Track	Johnson

### Seventh Grade

Boys' baseball & track	Strong
Girls' Baseball	Webbrooks
Arithmetic	Culpepper
Spelling	Kirby
Declamation	Gorin
Essay Writing	Webbrooks

Burkburnett must make a good showing in the county meet which is to be held in Electra.

## Did You Know?

That the basket ball equipment has been received?

That the National Geological Survey Department has placed a marker telling the altitude on the high school building?

That there are two more weeks of this semester?

That the final examinations come on January 15-16?

That last season's football captain, Howard Bentley, is wearing rose finger nail polish?

## Uses for Principles of Art

Few of us realize in how many ways art plays a part in our daily lives. Let us follow a high school boy from the time he gets up in the morning until he goes to bed at night and see how art is a factor in his daily experiences. He encounters his first art problem while dressing; he must pick a tie and a shirt that look well together. This will require some knowledge of color harmony. On his way to school he watches the passing automobiles and chooses the best looking. If he understands art principles, he will know how to select one which is well designed. At school he writes a theme and mounts some pictures for his science note book. If he knows how to plan a written page and how to mount pictures effectively, he does much better work; this, too, is an art problem. He is asked to make a sign advertising a football game. To know how to make effective advertisements also requires a knowledge of the principles of art. After school he buys a new hat and a pair of socks. Knowledge of art will help select a becoming hat and socks which harmonize with his shoes and suit. At home in the evening he rearranges his room to suit his particular fancy, and here again the result will be more satisfactory if he makes use of the principles of art. It is easy to see that there are many ways in which art plays a part in our daily lives.

It makes no difference whether we are painting a picture, selecting a new rug, designing a new dress, or buying a house; we make use of the same fundamental art principles. These principles will be explained in articles that will appear later.

## Health Education

By Katherine Lasseter

Is there anything more essential to useful citizenship, or more closely connected with completing, than health instruction in public schools of today? The American Child Health Association wavers this quite simply by saying that the health of the child is the strength of the nation, and such health is largely dependent upon the health education the child receives during his years. To the home and the school is left the discharge of this instruction.

No longer is Health as a subject limited merely to the physical boundaries which the old text covered. It has recently extended to include many principles which concern the mental and moral as well as the physical well-being of children. Thus such topics as character, good manners, and ideal character are given consideration in health education along with food, proper clothing, cleanliness, care of the body, and numerous health habits that build the foundation for better health and citizenship in later years.

The first aim of the primary teacher is to make health so attractive that the children will catch the spirit of healthful living, and to know and practice those things that will make them healthier, happier children. In a word, primary school attempts to teach children "health conscious" teacher wishes to increase the children's interest in daily health to develop independence in the performance of these habits. In years the children may be taught the physiological reasons for health habits.

The subject matter used to teach ideals of health to young children is largely incidental. It includes stories, pictures, health songs, and rhymes. As there is text for the teaching of health the lower grades, it is the province of the resourceful teacher to find interesting material from sources. Much free material is available, to home as well as from companies who advertise health products. Often such material proves an incentive to a child who was formerly indifferent to health.

The outstanding difference in health education of today and of a generation ago is the variety in devices or methods by which the teacher "puts over" her health program. Today the central theme is pupil participation. Every lesson either a game in which the pupil may take part, a project which work out together, a story which they dramatize, a song which they enjoy, or a contest in which they try to excel. Even the art program provides an outlet for children to portray their ideas on health.

The morning inspection of pupils by chosen members of a group encourages personal cleanliness and out coercion the weight-record kept in the room is an incentive learning about and eating proper food; the fire drill and the dramatization, in class, of safety-first principles teach effective lessons. It is stimulation toward more healthful and complete living that primary school desires to give the child by the teaching of health.

## PHYSICAL EDUCATION

Polk Robison

The addition of four new sets of boxing gloves to the physical education equipment has caused the boys to take much interest in ancient sport of boxing.

Boxing, as it is taken up in physical education classes, is merely for the purpose of learning self defense. However this is an important argument for boxing, by far not the utmost importance. In boxing a boy gets well balanced exercises. His footwork is stressed for it is one of the most important factors in boxing. Most boys in school are at an awkward position, some have very little coordination of muscles. Boxing is one of the sports to develop coordination, teaches a boy to think and act quickly or else suffer a little the result to his not thinking.

Some of the boys were a little slow in deciding to put the gloves on, but after they got over their fright they became enthusiastic over boxing. Every boy is encouraged to box and I think no sport is more in building up a boy's self confidence.

A new portable ring is being constructed in the gym for boxing and wrestling match. Preliminary boxing matches will be scheduled on nights of basket ball games. Later on into mutual program of boxing, for titles, will be put into effect.

OUR Annual

# CLEARANCE

Sale

**STARTING WEDNESDAY, JANUARY 2nd**

Start the New Year right with the savings of our big sale. We have drastically cut prices on every item. We believe it is better to clear

our stocks each season than to carry it over. . . . A comparison of our prices with those you can get from other sources will convince

you. No need to burn gasoline to buy merchandise in Wichita, buy here. Save your gasoline; we have the merchandise and the right price.

## WIN A PAIR OF SHOES FREE

Come in and see a pair of Wolverine Shoes frozen in a block of ice. The party guessing closest to the number of hours it takes the ice to melt away from the shoes will be given a pair of shoes absolutely free. Leather authorities agree that Shell horsehide is the longest wearing leather known. That it is least effected by barn-yard acids and alkali soils. Wolverine shoes are the only shoes with soles and uppers both made from Shell Horsehide.

## To Drop Unemployables February 1st

Jan. 2.—All persons classified as unemployables will be removed from the federal emergency relief rolls in Texas on February 1, 1935, it was announced today by Malcolm J. Miller, representative of the federal emergency relief administration in Texas. Miller said that date funds made available to Texas by the federal relief administration can be used for the care and maintenance of these unemployables. The relief administration will continue to care for these unemployables until the date of their removal from the rolls. Miller said that date funds made available to Texas by the federal relief administration can be used for the care and maintenance of these unemployables. The relief administration will continue to care for these unemployables until the date of their removal from the rolls.

## Centennial Has No Financial Invest Legion Half-Dollar

Dallas, Jan. 2.—In response to sale of American Legion half-dollar coins, Cullen F. Thomas, President of the Texas Centennial Commission, announces that the Commission has no financial interest in the profits accruing from the sale of the coins, but that all monies, thus raised, are to be utilized solely for the purpose of erecting an American Legion Museum Building on the campus of the University of Texas. Mr. Thomas added that, although this enterprise is to be solely under the auspices of the American Legion, the Texas Centennial Commission, at this time, is in thorough accord with the movement, as a worthy enterprise for Texas' program for the Centennial celebration of 1936.

Japan's idea of a treaty is something to keep you from getting suspicious while she picks your pocket.

made in the counties. Provisions for those falling in the unemployable class will be a problem for the legislature when it convenes in January, although \$1,500,000 of state bond money authorized for relief purposes in February by a previous special session of the legislature will be available to the Board of Control. There also remains \$3,500,000 not yet authorized to be spent from the original \$20,000,000 bonds voted for relief purposes in 1933.

## A Good Bank is a Servant to BUSINESS

Too many business men are never aware of changing needs until after they have already happened. Wasted dollars might often be saved if the head of a business could put his finger on the facts in time.

A good bank is in an excellent position to supply those necessary facts. Your banker does not have to know the intricate details of such complex details might hinder rather than help him in serving you. For your banker's value to your concern rests chiefly in his ability to bring a very broad experience to bear upon your own problems. His is a business that serves many businesses. His specialty is financing, of course, and here he can draw upon an intimate knowledge gained from years of practice.

But in other business fields, too—marketing, for example—your banker can serve you. His understanding of general business trends is far more comprehensive than one gained merely from making one product or selling a few.

If you are using your bank only as a clearing house for deposits and payments you are not letting your banker serve you to his full capacity. It will pay you to know him better.

## Obtain Early Medical Care This Year

Austin, Jan. 2.—Nineteen thirty-four is history, and along with its pleasures have been a desolating array of preventable deaths. This emphasizes the fact that, despite the marvelous strides in medical science and disease prevention, large groups of persons have lost their lives during the past year mainly because of the own ignorance or carelessness.

The outstanding slayers in Texas during the past year were: heart disease, cancer, tuberculosis, and pneumonia. Generally diseases derive their death dealing power because of delayed diagnosis. Means are at hand to combat these diseases if treatment is begun early enough.

The Texas State Department of Health and the medical profession for years have been urging the public to obtain early medical care in order that they may have a sporting chance at these master killers. At least one resolution should be made, and that is to have a complete physical examination by your family physician and follow his advice.

The year 1935 is here. The victims of preventable deaths upon thousands. Why get into that unfortunate class, when the way out is so direct and easy?

Nineteen-thirty-five will be one of the most interesting years in the history of the country. It can be made a happy and healthy one for you. Why not see it through?

What's the good of success? If you don't change your way of living you're no better off, and if you do change you lose all your old friends.

**Chest Colds**  
Don't let them get a strangle hold. Fight them quickly. Creomulsion combines 7 helps in one. Powerful but harmless. Pleasant to take. No narcotics. Your own druggist is authorized to refund your money on the spot if your cough or cold is not relieved by Creomulsion.

## Home Gardening To Benefit FERA Clients Planned

Austin, Jan. 2.—An extensive program of community and home gardens to reach all possible relief roll clients is being planned for 1935, it has been announced by A. C. Allen, director of production for the Texas Relief Commission.

County administrators have been instructed to submit estimates of seed requirements in order that the Commission's purchasing department may ask for bids on garden seed for the entire state. Deliveries to the various counties will be made from this one purchase.

Allen said community gardens will be established as county work relief projects in every county where land is available that will grow vegetables. A large number of clients are expected to be given work on these projects. Produce, however, will become the property of the Texas Relief Commission to be distributed either fresh or in canned form.

Canneries will be established near these gardens in order that all vegetables not delivered fresh may be canned for delivery next winter.

In addition, relief clients with access to small plots of land will be permitted to retain what they grow, and provision is being made to can their surpluses for them.

Nothing is certain in this old world except death and taxes and a crumpled fender every now and then.

No Burkburnett man has to be old to remember when the owner of a horse with the heaves would proclaim him "as sound as a dollar."
