There's only one answer...

Chevrolet trucks must be the best buy!

Fleet operators, farmers, independent truckers—truck users everywhere buy more Chevrolets than any other make. There can be only one reason for that: Chevrolet trucks offer more of what you want.

As the official registration figures keep rolling in, they keep telling the same positive story about truck popularity and truck value: Again in 1953, for the twelfth straight production year, truck buyers show a clear-cut and decisive preference for Chevrolet trucks.

important to you. Why? Well, as you know, trucks are built and bought for just one reason-to do a job. So isn't it logical then that since Chevrolet trucks outsell all others,

they must do a better job at lower cost? That's why it will pay you to stop in and see us before you buy your next truck.

If you're a truck user, this fact is mighty MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!

#### LONGHORN CAVERNS

The Longhorn Cavern is located near Burnet. It is one of the most outstanding examples of Mother Nature's handiwork in Texas It was here that Confederate gunpowder was made during the War Between the States; it was here that Sam Bass, legendary Texas outlaw, sought frequent refuge and was reputed to have hidden a vast bandit treasure. The Longhorn Cavern is the third largest cave in the world. Over eight miles of the Cavern have been explored without an end being reached.
