The program will also include films showing gift wrapping ideas, an aqua carnival at The University of Texas, the Irving Youth Center, a meeting of future teachers at East Texas State Teachers College and the Speaker of the Texas House of Representatives serving as Governor for a day.
Texas in Review can be seen Monday (December 13) on KTRK-TV, Houston, 7:00 p.m. and WOAI-TV, San Antonio, 10:15 p.m.

Remember, Safe Driving Day Is December 15

Remember, S-D DAY, SAFE DRIVING DAY, is December 15, and while you're remembering it, be thinking over the following tips that will help to make it that way:

- Be sportsmanlike on every drive. Obey all traffic signs.
- Keep speed reasonable—but don't drive so slow as to impede traffic.
- Start earlier and drive slower. You'll feel better and live longer.
- Let the other fellow have the right-of-way—you use the right way.
- Stay in line—don't be an eager beaver.
- Don't pass unless there's Plenty of room.
- Obtain and review a copy of your local traffic regulations.
- Reduce speed at sundown so you're within range of your headlights.
- Stay behind another car at least one car length for each 10 miles of speed.
- Stay in your lane at hillcrests and curves.
- Be extra alert at intersections; don't pass at intersections.
- Always signal your intention to turn or stop.
- Don't drive when you drink—or when you are angry or emotionally upset.
- Have your brakes, lights, windshield wipers, tires and steering checked before "S-D Day."
- If the weather is bad, don't drive unless you must. If you drive, double your care.
- Cross only at crosswalks.
- Before crossing, look both ways.
- Cross only on proper signal.
- Watch for turning cars.
- Never go into the roadway between parked cars.
- If there is no sidewalk, and you must walk in roadway, walk on left, facing traffic.
- Carry or wear something white at night, to help drivers see you.

Poor Shrimp Season Predicted for Mexico

The National Fishing Chamber yesterday predicted a poor shrimp season for Mexico.
The chamber said Sunday that the catch in October and November was 60 percent lower than last year and that prospects for December and January—the two other major months—were dim.
The chamber said the October—November decline caused a loss of \$4 million to the shrimp industry. It said only 3,200 tons of shrimp were caught compared with 8,000 for the same 1953 period.
The entrance to the Amazon River is about 200 miles wide.
Only two legs of lamb are obtained from each animal.

The exciting new idea behind the motoramic Chevrolet

The Bel Air 4-Door Sedan—one of 14 new Fisher Body beauties in three new series

Maybe once in a car-buying lifetime, you come across something that breaks all the old patterns and establishes new ones. This is that kind of car. This is the true story of how Chevrolet and General Motors shaped a new idea in steel.

Like most good ideas, this one is pretty simple: Chevrolet and General Motors set out to build the first low-priced car that would:

- bring you the very freshest and finest styling to be had.
- bring you the most advanced engine design and engineering features:
- bring you the kind of performance and the kind of ride that have never been available before in a low-priced car.
- bring you the highest quality of manufacture and materials:

All this in Chevrolet's price field? That did take some doing! And isn't it logical that only Chevrolet and General Motors have the people, skills, resources and facilities, to carry out this exciting new idea? Here is how this new Chevrolet changes all your ideas about cars!

Real Show-Car Styling!

Your eye tells you the Motoramic Chevrolet is no styling "patch-up" job. A rakish, low profile... soft swiftness from its sleek rear fenders to its wide-eyed Sweep-Sight windshield... a new outlook for motoring. And that outlook doesn't change when you slip inside... exciting fabrics and trim are harmonized with the whole car.

A Sensational Ride!

You live the new idea instantly... you glide... actually glide because spherical joints "roll with the punch" of the road in Chevrolet's new Glide-Ride front suspension. And outrigger rear springs mean new balance in turns... turns made so effortless by new ball-race steering. And when you stop suddenly, new Anti-Dive braking control checks that nosing down in front... you get "heads up" stopping. Tubeless tires mean much greater protection against blowouts. And with new high-level ventilation there's fresher air.

Power Beyond Compare!

You also feel the new idea quickly... quick power like a panther's paw with the new "Turbo-Fire V8" (162 h.p.) and two new "Blue-Flame" 6's. And sparking this performance is a 12-volt electrical system giving you better ignition, faster starting, greater electrical reserve for any of the power assists you might desire. You have a transmission choice of economical Overdrive and improved, automatic Powerglide (optional at extra cost) or standard shift.

Even Air Conditioning!

And if you desire the convenience of power assists (optional at extra cost)... you'll find new power-steering and improved power brakes on all models. Power-controlled windows and powershift seat are available on the Bel Air and "Two-Ten" models, while air conditioning may be added on V8 models.

Won't You Try It?

Here, we can only tell you how successfully the Motoramic Chevrolet expresses the new idea behind it. But the car itself can quickly show you! Come in for a demonstration drive, won't you, first chance you get.

MEMORY LANE

HITCHING-POST DAYS

Remember when hitching posts, instead of parking meters, flanked Main Street? Sometime it was as much of a trick to hitch old Nell close to the general store as it is to park your car in the down-town area today. Time marches on, and life becomes more complex. Looking back, you enjoyed the peaceful, less-hurried ways of those hitching post days. Remember?

We always consider your financial circumstances. The service must be beautiful but the cost not too great.

Fire Seriously Endangers Waterfront, Says Osborn

Fire seriously endangered the waterfront last Sunday at 2:30 p.m. when a trash fire, left unattended, flared up, and, when discovered was within ten feet of the Rice shipyard buildings, according to Fire Marshal Carl Osborn. "Just a little farther," said Osborn, "and we might not have been able to control it."
