

## SCHOOL DISTRICT TO ASK FOR 675,000 DOLLAR BOND ISSUE

### Radars Station Bids Slated for Nov. 14

**Commissioners' Court Okehs Plans For Access Road; John Bell Writes That Money Has Been Appropriated And Construction To Begin Soon**

Rockport's radar station keeps rolling along and apparently will start construction in the not too distant future, according to reports from County Judge John Wendell and Joe Caldwell, local attorney.

Judge Wendell said that a special meeting of the Commissioners' Court last Thursday afternoon, approved the final location of the access road to the station, as shown on a plat prepared by the Corps of Engineers, U. S. Army. At that time, Judge Wendell said, the Commissioners were advised that the Engineers would advertise for bids on November 14, for the station here and the unmanned one at Riviera, which will be serviced from Rockport.

In a letter received by Joe Caldwell, local attorney, John Bell writes that once the bids are in, construction should start promptly, and he said that the Air Force had informed him that it would probably not be later than the last of this month before some work was underway. Construction time for the units is expected to be about six or eight months.

Tickets for the Benavides game, which will be played here next Friday night, are on sale at Johnson's Drug Store, Roaten's Drug Store, Taylor's Magnolia Service Station and Clyde Townsend's Motor Shop in Rockport and at Wilson's Sporting Goods and the Red and White Store in Fulton, according to Dave Coleman, principal of the High School.

#### County Offices To Be Closed November 11

According to County Judge John Wendell, offices in the courthouse will be closed on November 11, which is Armistice Day. Inquiry at the Chamber of Commerce disclosed the fact that this was not one of the days local merchants had agreed upon as a holiday, and that Mrs. Juergens, secretary of the chamber, was not sure how many of them would close to celebrate the occasion.

Fish have been coming in to the freezer all week in small quantities, and Wednesday fishermen in the basin were making small catches.

Over at Mills' Wharf, Herb reported no fishermen, but that plenty of San Antonio and Houston gunners were getting their limit of ducks.

Floyd's said that Mr. and Mrs. Slim Collum of Houston fished Saturday and came in with 15 trout; Sunday they caught 38 trout and reds. Captain Cooper, from Fort Sam Houston, fished and hunted Sunday. He pulled in 17 reds and trout and finished off the day with three ducks. Mr. and Mrs. A. W. Uhl, Sunday, caught 14 trout, and there were some good catches of rat reds and trout made at Turtle Bayou during the week. Wednesday afternoon Curly couldn't take it any longer, so he grabbed his own fishing pole and he and Charley Shirey started fishing the flats in front of Curly's place and were catching some nice trout along about 4 o'clock.

Hu Johnson fished Dr. and Mrs. Meador, of Bandera, Sunday, and say came in with forty trout and rat reds.

Fred Christilles had Dr. Jerome Weisner, C. J. Weisner, Carl Weisner, P. F. Dunn and Charles L. Moses, all of San Antonio, Saturday, and they reported 200 trout. Sunday he had Paul C. Jenschke, H. W. Englehardt, Sonny Biedergern, and F. P. Boltz, all of them from San Antonio, also, and they came in with 156 trout, 18 reds, 1 flounder and 1 drum. His Monday (Continued on Page 8)

### United Fund Drive Starts Monday

At a meeting in the Chamber of Commerce building Wednesday night, Chairman James H. Porter, of the United Fund listened to committee reports, and outlined plans for the final drive which will start with a kickoff breakfast at the Woman's Club on Monday morning. Chairman of the special gifts committee, Emory M. Spencer, also reported, and said that, as of last night, various out-of-town people had subscribed nearly 25% of the fund's budget.

Porter explained to assembled directors of the drive the manner in which the town and surrounding area had been divided into districts, each of which will be in charge of a drive captain. There are five districts in Rockport itself, and the rest of the county has been divided into five more.

A meeting of workers was called for Friday afternoon, at the Chamber of Commerce building where captains and workers will be given cards and final instructions for the solicitation which will start Monday morning.

James H. Sorenson, Jr., reported for himself and Dick Pitton, chairman of the committee to contact businessmen, that their part of the drive would be underway this morning.

Emory Spencer, in reporting on the special gifts, pointed out that these had come from sources not usually contacted in such drives. Letters had been sent, he said, to all out of county residents having homes here, and to all firms doing business in, and making money from, the county. Response to these letters had been gratifying, he said, and added that he (Continued on Page 8)

### Money to Be Spent For Badly Needed Buildings and Repairs

**New Classrooms To Be Erected At Rockport, Fulton, And At High School Site, To House Elementary, Junior High, And Athletic Depts.**

#### Rockport Plays Benavides Friday

After a week layoff, the Aransas County Pirates resume play this Friday night here at home when they tackle the Benavides Eagles in another District 31A game.

After losing their first game of the season two weeks ago to Hebronville, the Pirates appear to have the edge for this game. The Eagles fell last week to the onslaught of the Hebronville team 46-0, and have a district record of 1-5, while the Pirates have a 5-1 district record. Mathematically, the Pirates still have a chance for the district crown, but only if the Longhorns lose their remaining games.

Coach Borchert's boys can sew up second place though provided they win their two remaining games. Woodsboro is running a close third and play the Longhorns their last game which is, two weeks away. Should they upset the Hebronville boys, the Pirates could tie for the crown by winning over Benavides and Premont. Premont plays Hebronville this week.

Architect Lynn A. Evans, of Corpus Christi, has prepared tentative plans of the new layout, which will be presented to various civic organizations within the next two weeks, and the First Southwest Company, investment bankers, is aiding with the preparation of the necessary notices, etc., that will be posted today at the post offices in Fulton and Rockport, and at Mills' Wharf.

Absentee voting starts Friday, November 11, and ends at 6:00 p.m., Tuesday, November 29. Election judges will be Mrs. R. A. Johnson, at the Concession Hall, Lamar, Mrs. A. L. Brundrett, at the Elementary School, Rockport and Mrs. E. G. Cooke, at the Fulton Elementary School.

The proposition to be submitted to the voters reads as follows: "Shall the Board of Trustees of Aransas Co. Independent School District be authorized to issue bonds of the said district, to the amount of \$675,000, to become due and payable serially as follows: \$55,000 in each of the years 1957 to 1959 inclusive; \$60,000 in each of the years 1960 to 1962 inclusive; \$65,000 in each of the years 1963 to 1966 inclusive; \$70,000 in the year 1967, Said bonds to bear interest at a rate not to exceed 2 3/4% per annum, payable annually or semi-annually, for school-building purposes, to wit: the purchase, construction, repair, or equipment of public free school buildings, and the purchase of necessary sites therefor, within the limits of the district; and shall there be annually levied and collected on all taxable property in the said district for the current year and annually thereafter, while said bonds or any of them are outstanding, a tax sufficient to pay the current interest on said bonds and the principal thereof as the same becomes due?"

The trustees in coming to the conclusion to issue the election call took into consideration that many of the buildings now in use were so old that they required excessive maintenance; that some of them had been condemned by the State Board of Health, and could only be used after the expenditure of considerable money for repairs, which would still keep them on the borderline; and that the present classroom capacity was inadequate for needs of the present school population and would become more so within the next few years.

Roosevelt L. O'Donnell, alias Raymond Anderson, wanted for burglary of West's Red and White store here is also sought in Indiana for robbery of a bank, according to advice received by Sheriff A. C. Both Anderson (or O'Donnell) and his wife were armed. They left the car which they had driven from Rockport at the site of the robbery, and fled in another, that was found later in Chicago.

Second in awards was Mrs. Aida Ihle, of Schulenburg, followed by Lila Bell of Victoria.

Other prizes taken by Miss Ashberry included second in the figure class, and first, second, and third in the still life section of the show.

Mrs. Ihle, of Schulenburg, was awarded first place in the marine class, a second in landscape painting, and a fourth in the still life class. She was closely followed by Lila Ball, of Victoria, who was awarded the first and second prizes in free composition, and a fifth in the marine section.

Nearly 200 paintings were shown in the exhibit, which was entirely by pupils of the 1955 summer school, and some \$700 worth were sold during the course of the show. Emory M. Spencer purchased Miss Ashberry's prize-winning picture of Mrs. Pena, and a number of other purchases were made by visitors to the show.

One sale of especial interest was made to the Commissioners' Court of Aransas County. It was a painting (continued on page 5)

#### STORY OF THE WEEK

Friday evening, Judge John D. Wendell and Sheriff A. C. Shivers stopped in at the Del Mar Grill to drink a cup of coffee. When they came out, the judge's car was gone, and they immediately set the wheels in motion to recover it, supposing that it had been stolen.

Several hours later, the Judge saw his car and another identical Oldsmobile parked at a local tourist court, and the mystery was solved.

A father and son, both a little the worse for wear and apparent effects of close contact with John Barleycorn, had been eating dinner at the cafe. The father had departed first, and driven to the tourist court in an Oldsmobile. The son, coming out later, decided that his father had walked, and so took an Oldsmobile and drove to their cabin, where, without noticing that there was another one just like it already parked, he went to bed.

No one knows who drove which car, but at any rate, Judge Wendell got his back in time to go on his vacation, along with suitable apologies.

## Sheriff Urges Aransas County Citizens To Aid In Reducing Accident Toll Here

"S-D (Safe Driving) Day, sponsored by the President's Committee for Traffic Safety," said Sheriff A. C. Shivers, "has been set for Thursday, December 1, 1955."

Sheriff Shivers pointed out that this year, as last, the purpose of S-D Day is to prove to people everywhere that motorists and pedestrians can reduce accidents by their own actions. "The challenge to Aransas County residents," he added, "will be: Not a single traffic accident during the 24-hour period . . . in daylight or darkness."

"It is the moral and civic responsibility of every highway user to accept this challenge," Shivers said. "If we can show that by safe and sensible driving on S-D Day this year we can not only accept, but overcome this challenge we will have taken a major step towards greatly reducing the traffic accident toll."

"In 1951 after 50 years of automotive history the one millionth traffic death was recorded in the

United States. At our present rate, only half as long will be required to kill the second million."

"Our own traffic death rate must be reduced and resident of the County can, by a concerted effort, and with the highest regard for safe driving principles and the highway code, show their willingness to cooperate."

The sheriff reminds all motorists that excessive speed is responsible for the majority of traffic accident fatalities and asks all drivers in Aransas County to drive within the established speed limits on highways and in restricted areas. "To disregard this," he added, "is to exhibit a selfish and irresponsible attitude by endangering your own and the lives of our fellow men."

### SOCIAL SECURITY FOR FARMERS

"How Social Security Covers Farmers", a booklet recently issued by the Social Security Administration, explains in easy-to-understand language the rights and obligations of farm people under the social security law, according to H. M. Cleveland, District Manager of the Corpus Christi office.

The booklet is intended to help a farmer determine how he stands especially in relation to the farming of land leased on a cash rental or share of the crop basis. The publication explains how self-employed farmers report their income for retirement and family insurance protection. This information is timely since the reporting of farm income and the paying of social security taxes will be a part of the Federal income tax return for 1955 which is due by April 15 of the coming year.

Anyone can get a free copy of the booklet by addressing the Social Security Administration, Corpus Christi.

Jackson and Wayne Green are to be Pilgrim men, Ronnie Valdez and Evol Verette, Pilgrim ladies, Tom Perez, Rudy Nava and Chris Sorenson, Indians. Plans were completed for a hike on Saturday. For the closing ceremony the cubs stood at attention and sang "America, the Beautiful" and "America."

During the activity period the cubs pasted pictures about America on large ice cream cartons to be used as waste baskets. These will be displayed at the next pack meeting. Willard Neal served refreshments. Cubs present were: N. F. Jackson, Tommy Picton, Rudy Nava, Evol Verette, Willard Neal and Wayne Greer.

Den 5 met at the home of Mrs. Shelley Roaten who was assisted by Mrs. Herbert Mills. The meeting was opened with the roll call and flag ceremony. The pledge of allegiance was recited and they sang songs. The cubs made scrap book covers and cut out material for scrap books.

Plans were made for costumes for the skit to be held this month. They played games and Shelley Roaten was host for the refreshments. Cubs present were Shelley Roaten, Roy Alan Rogero, Herbie Mills, Charles Picton, Gary Stryker, Jimmy Seawright, Kenneth Dullye, and one visitor, David Picton.

### BROWN PELICANS

Brown pelicans are divers and, despite their apparent clumsiness, tremendously efficient machines, either for flying or fishing.

Often, on the sea beach that guards the barrier islands of the coast, long files can be seen, as with measured and powerful strokes of their wings, they glide along the lines of the breakers, taking advantage of every vagrant air current provided by the march of waves against the shore. The winds are their servants they know, either through instinct or precept, the exact spacing between bird and bird which enables them to make full use of these fitful gusts.

So certain is their flight, and so perfectly do they control their element, that they are quite capable of reaching forward with a claw to scratch an ear while in the air, never missing a wing beat.

Pelicans land with all the finesse of a tugboat dropped from a height. Wings bowed, feet lowered and thrust forward, they smack the surface with a soggy splash, then sink to a swimming position. They do this time after time when following a shrimp boat to pick up scrap fish thrown overboard— aerial bums, looking for a handout.

On the water they are grotesque; leaving it they are ridiculous. The big wings open and begin to beat; the fantastic head is extended; and with a series of awkward, convulsive hops the bird takes off, sometimes soaring to great heights, or, when fishing, quartering the skies at thirty or forty feet above the water, its keen gaze directed downwards. They seem to have no trouble finding fish; then, with sudden, incredible stops and twisting, diving turns, they become living arrows as they plunge headlong into the sea.

The dive is always made downwind, and usually the pelican dis-

### Business Woman's Circle Met November 3

The Business Woman's Circle of the First Baptist Church met November 3 in the home of Mrs. Katie Moss for Bible study.

Topic of study was "Answering God's Call" led by Mrs. Floy Rooke. Opening prayer was given by Mrs. Emma McLester. In closing study, Mrs. Eva Coaker read a prayer poem.

Refreshments were served to the following members: Mesdames Floy Rooke, Esther Ballou and Janie, C. W. McDonald, Ethel Minton, Fern Rethmeyer and Kay, Eva Coaker, Kitty Theodore, Tom Shults, Ruby Mundine, Emma McLester and Miss Ruth Lipscomb and the hostesses, Mrs. Katie Moss. The next meeting will be a missionary program in the home of Mrs. Emma McLester on November 17.

appears entirely, apparently catching fry at considerable depths. West Indian negroes, no mean swimmers themselves, claim that they have seen the birds seize fish six or eight feet under water.

Pelican home life is no model for anyone but a pelican. Our modern school of child psychologists would be horrified if they ever saw a rookery in action, certain that every youngster in it would grow up with untold inhibitions.

It is true that both father and mother take turns in hatching the eggs, and that both of them feed the young until they are big enough to fly. When the babies are small and unfeathered, they even stand between them and the sun with outstretched wings, offering them the solace of shade. Perhaps it is because of this that you never saw a more spoiled bunch of brats.

As soon as little pelicans can walk, they flop out of the nest and totter doggedly along, sprawling flat over the slightest obstacle, getting tangled in vines and grasses from which they extricate themselves only by the most grotesque contortions. They have horrible manners at mealtime. Unquestionably they can distinguish, even far off, a fish-laden adult, although the difference is undetectable by humans, and when the old bird lands it is deluged by mobs of hungry, demanding youngsters. Perhaps it distinguishes its own by sound. At any rate it beats off all but one of the crowd, knocking them on the head with its beak, whereupon they stagger away half-dazed, only to repeat the performance with the next arrival. The favored nestling plunges its body into its parent's beak up to the shoulders, gulping partially digested fish from the old bird's gullet, and, once fed, falls into a semi-stupor from which it may emerge swinging its head from side to side, and biting its own wings in bad-tempered and senseless rage.

### Matagorda Bay Outlet To Gulf Recommended

Galveston—A permanent outlet from the Matagorda Bay area to the Gulf has been given favorable recommendation by Brig. Gen. L. E. Seaman, division engineer, Dallas, according to Rep. Clark W. Thompson of Galveston.

The proposal now will go to the rivers and harbors board, which meets in Washington Nov. 28 and 29.

The outlet is a project of the Midcoast Water Development Association, composed of officials of Matagorda, Jackson, Calhoun, Victoria and Refugio counties.

Plans call for a system of jetties at Pass Cavallo near Port O'Connor. Other channels, used from time to time between the Gulf and the bay, are not jettied and are subject to dangerous shoaling.

The present project calls for a deep-water channel instead of the 12-foot depth originally planned, Thompson said.

The increased depth was brought about by the announcement of the Aluminum Company of America that it would build a \$50,000,000 processing plant at Point Comfort if deep water is provided. The new plant would process aluminum ore for further refining in the present Alcoa plant.

Duck hunters in the area have continued to do well, with lots of pintails, some redheads, and scattering bluebills making up the majority of the limits that have been reported. Goose season does not open for a week yet, but some idea of what Texas hunters may eventually expect in both the duck and goose departments may be gained from an Illinois game department release which came in Sunday. Their field men report that 103,000 of the big Canadian honkers are using the refuges in that area.

There are 42,000 geese at Horse-shoe Lake, 17,000 in Union County, and 44,000 at the federally-operated Crab Orchard Refuge, all of which will probably move south with colder weather. This is about 20,000 more than were on these refuges on the same day last year.

The reports also show a heavy mallard population, which literally blew in overnight ahead of winter's early blasts. The same cold swept more thousands of mallards into the bottomlands along the Illinois and Mississippi Rivers and public hunting refuges that had been suffering from bluebird weather and no birds are now alive with waterfowl.

The first good freeze, or, for that matter, a little frost ought to start most of these birds on their way to Texas gunners, to join the snows and blue geese already here in thousands.

Roy Rogero and Leonard LeBlanc went duck hunting over the weekend, and came in with the story of the week.

It seems that the boys had been in the blind for some time when

a flock of pintails, five hens and four drakes, decoyed and lit on the water just out of gunshot. The ducks hung around for half an hour or so, and when no others came in, Rogero talked LeBlanc into cutting loose at the birds on the water, far off as they were, the idea being that if they didn't kill any, they would at least scare them away so that some more birds might come in.

The men fired together, and, after the shooting was over, went out and picked up four ducks. Rogero swears that they had killed all four drakes and that not a hen was touched.

This proves something, but it's anybody's guess what.

Here's a new one for wild turkey raisers from the Michigan Department of Conservation. A mowing machine partially destroyed the nest of one of these birds this spring, and four of the eight eggs were badly crushed. All were taken to the Department's game farm, where the damaged eggs were taped together and incubated, along with those that were unhurt. Five eggs hatched in healthy turkeys, including one of those that had been scotch-taped!

The business of color in fishing lures has always been good for an argument wherever more than two fishermen are gathered together, and probably always will be. However, a good deal of evidence has accumulated proving that color isn't all it's cracked up to be. This is particularly true with surface lures, where black or brown have proved better fish-getters than those in pastel shades, probably because more easily seen by the fish. If fish are near-sighted, as claimed, and objects a few feet away from them seem as a blur, this theory also favors blacks as the most easily seen color.

Scotch tape is a handy item in your tackle box. If you have to make a quick reel repair, stick the small parts to a piece of tape. If stuck in order, this will help you to remember how to put the thing back together again, besides keep-

ing them from getting lost.

A rattlesnake has, on the average, two, not one rattle for each year of its age.

Last summer, when a mysterious epidemic of encephalitis (brain inflammation) was plaguing towns in the Rio Grande Valley, health officers finally concluded that the disease was being carried by birds in the area, but had no factual proof of the matter at that time.

In a similar situation in Japan and Korea, it has definitely been proved that this was the case. Encephalitis in these localities appeared at certain definite times during the year, and while medical authorities knew that the disease was transmitted to humans by the bite of a mosquito, the question that needed to be answered was "Where did the mosquitoes pick up the virus?"

One clue led to another, and finally scientists began sampling the blood of birds in the region, and soon discovered the culprits. More than 60% of favorite songbirds such as thrushes and skylarks teemed with the virus, but more important in spreading the epidemics were herons, plumed egrets, cattle egrets, cormorants and blue magpies, on which the female mosquitoes fed when no humans were available. The time of the sickness corresponded with the bird migrations. It began when the birds arrived in the spring and departed when they left in the fall.

The mosquitoes, feeding on their blood, transmitted the virus content to the people in the area.

Luckily the South Texas form seems to be much less deadly than the Asiatic but, if the birds of South Texas are carriers, encephalitis will probably break out again in the Valley about the same time as last year, and in the long run will be found to be present or absent at the same period that certain wild birds are present or absent in the community.

The red shrimp that have been discovered by the Oregon on depths ranging from 18 to 240 fathoms are softer than shrimp coming from shallower water, and probably more difficult to handle from a commercial standpoint. They must be headed promptly, or they will become discolored. However, all that have been caught by the Oregon were frozen, and are said to have had an excellent flavor. They neither taste or look like the common shrimp. They are sweeter, and resemble lobster to the taste. No one has had any experience in icing them, and it is not known how they would keep when handled in the same manner as ordinary shrimp. To produce them, a vessel would need a fathometer that would read up to 300 fathoms and a winch hand-

ing at least 700 fathoms or cable.

Some of the most expensive sports fishing that we have heard of in some time has been reported by Jason McCarthy, a Missouri catfisherman who now lives in San Francisco. He spent \$253.75 for gasoline, oil, boat rental and extra meals in the four months that it took him to catch his first striped bass, a 2 1/2-pounder, which he accordingly valued at more than \$100 a pound. Could be that Mr. McCarthy is just more truthful than most fishermen who try to explain to the little woman exactly what they did with their money.

## W. S. C. S. Meets, Plans Barbecue

The W.S.C.S. of the First Methodist church met Thursday at 7:30 p.m. for the monthly general meeting. Mrs. M. J. Bearden presided.

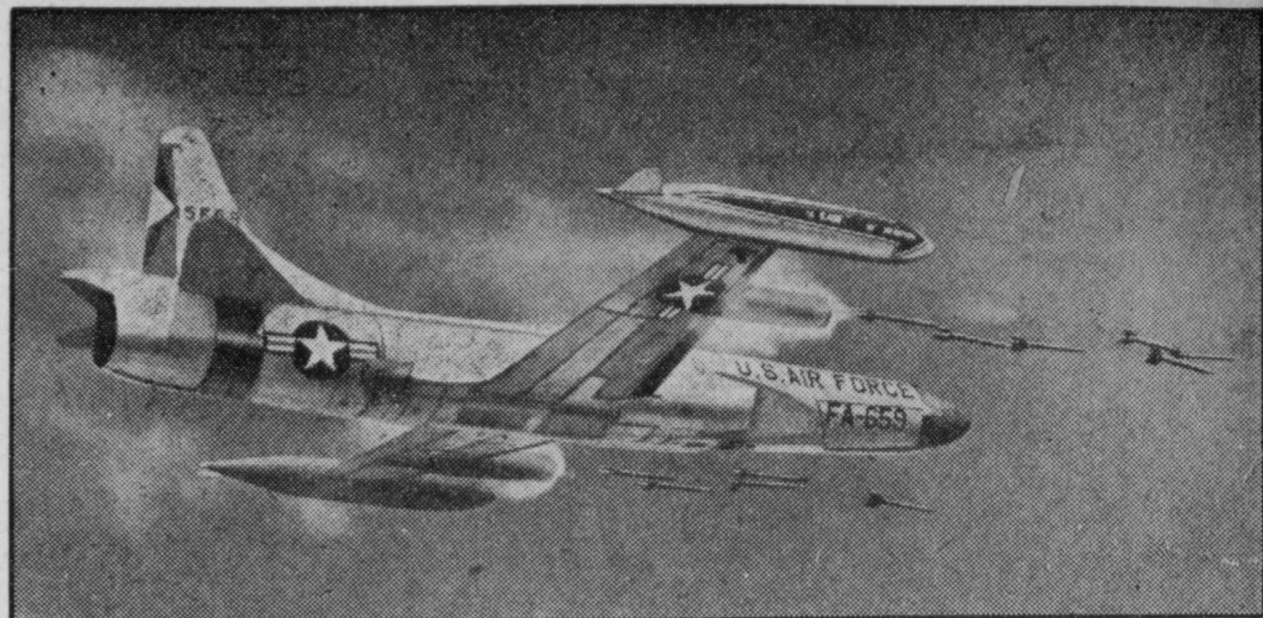

The meeting was opened with a prayer by Mrs. Dana S. Green. Mrs. Glenn Daniels gave the program and introduced Mrs. W. O. Thomas of Taft, the guest speaker. Mrs. Thomas recently returned from a tour of Europe, and gave a very interesting account of her trip abroad, showing pictures and displaying souvenirs from the countries she visited.

Final plans were made and outlined for the church's 5th annual barbecue and bazaar to be held December 8 in the Fellowship Hall. Tickets will be on sale about December 1 and more details will follow in the local paper. This year's bazaar promises to be the largest and best yet, so make plans to attend the dinner and bazaar.

Mrs. Ed Godde gave several selections of music on the accordion, which were enjoyed by everyone.

Hostesses were: Mrs. J. R. Finstad, Mrs. C. L. Harris and Mrs. E. G. Cooke. Refreshments of hot chocolate, topped with marshmallows and cookies were served to the 47 members present.

Mr. and Mrs. Glenn Mundine and sons, Robert and Harold Glenn and Mrs. Sherman Mundine visited Sunday afternoon in Port Lavaca with Mr. and Mrs. Rodney Mundine.

**NO ILLUSION**—This picture should leave any potential enemy with no illusion concerning U.S. Air Force fire power. As flames envelop wing pods of this F-94C Starfire, double salvo of rockets streak toward target on the firing range at Yuma Air Force Base, Arizona. Electronic equipment guides rocket aiming and launching from the moment target is sighted on radar. The 600-miles-per-hour-plus fighter-interceptor packs four dozen rockets in wing pods and nose.

### Guy Clark Still Free After Sadie Hawkins Day Party

A Sadie Hawkins Day celebration was held at Goose Island State Park by Mr. and Mrs. Ellis L. Clark on Saturday, November 5 honoring their son, Guy on his 14th birthday.

The costumed guests arrived at 6:30 and were directed by signs to Dogpatch where Mammy Yokum's Everlastin' Hot Dogs, Druthers, Shmoos, and Kickapoo Joy Juice were served in Dogpatch fashion from a checkered oil cloth covered table.

Mrs. Mary Juergens and Mrs. Albertine Leslie assisted Mr. Clark with the serving and Mrs. Clark poured Kickapoo Joy Juice with an old fashioned dipper from a huge crock.

After supper, Senator Phineas P. Phoghorn (Tom Kitchens) officiated at the judging of costumes in the Concession Hall which was decorated with large pictures of various Dogpatch characters. The pictures were presented to the guests best representing the characters.

Dale Barnard in tattered clothes, red wig and beard as Hairless Joe and Mike Johnson in a black wig, feathers and loin cloth, as Lone-some Polecat, carrying a tub of Kickapoo Joy Juice were unanimously chosen as outstanding representatives of these characters.

Raving Dove, the troublesome little Indian girl was delightfully portrayed by Frances LeBlanc in a short red dress, moccasins, long black braids and Indian head band complete with feather.

The character of Mammy Yokum was introduced by both Linda Mills and Barbara Barnard with cornob pipes and black bonnets. The judges declared this contest a tie.

Lil Abner was represented by William Kelly, Roger Ayers, David Perkins, Buddy Carroll, Wayne Smith, Terry Wills and Eddie Groff who was selected as being outstanding.

IT'S A TRICK TO TREAT 'EM—The 16 (or is it 17—or 18?) masked moochers shown above are only the first table. Schuster, Jr., shown passing out bread at his Berea, Ohio, entertains at dinner for 40 or more raccoons each evening. He fed one raccoon three years ago. Now all the brothers, friends, aunts and cousins troop up each evening from the Metropolitan Park for a handout. Even at one slice per, Schuster's furry guests go through about 50 loaves of local bakery supplies stale bread for the feasts at a time.

### Fishing Fleet Show 79% Over 1954

During the first six months of 1955, Gulf of Mexico fishing fleet additions showed a decline of 79% over the same period of 1954. Only 48 vessels were documented by the U. S. Customs this year, from January to June, against 224 in the same period last year, according to figures recently released by the U. S. Fish and Wildlife Service.

In June alone, the drop amounted to 66%. Last year 38 vessels were built in that month; this year only 13.

Although actual data on issuance of documents for vessels of construction, an indication of the number of vessels entering the fishery may be gained from customs house records.

Fishery boats of this size, (new and converted) documented as commercial fishermen for the first time, with home ports on the Gulf Coast, averaged almost forty a month last year, against 8 a month in 1955.

This decrease applies to the entire country. Using June for comparative purposes, the Service points out that the South Atlantic coast had 22 additions this year; the Pacific had 21; Chesapeake Bay had 9; Alaska documented eight new vessels; the Great Lakes and New England regions each had three; and the Middle Atlantic coast only one.

For the entire United States, during the first six months of 1955, a total of 211 fishing boats were documented for the first time, compared to 453 in 1954, or a decline for all areas of 53%.

### Maureen Kept a Diary of Telephone Calls

Maureen Chance—homemaker, church worker, bowler, and keeper of a telephone diary that revealed an important fact.

### Chance finds the telephone homemaker's best friend

The homemaker through Tuesday Only, Mat ways than any other? Chance is sure she knows the answer. Mrs. Chance recently made a list of telephone calls made from her home. The results surprised her.

She listed 95 calls during the week. Wednesday's calls save time and energy in her home, but many were actually made during a pleasant afternoon or evening out.

In Chance's own words, "It's so easy to call the telephone for granted. You just dial the number and about it as I have."

Telephone service is the best friend.

- "Called Lee (my husband) about plans for family reunion."
- "My bowling partner called about a change in league schedule."
- "Our minister called to remind me of Sunday School meeting."
- "Called a friend in the country. Asked her to put aside four dozen eggs for me."

**DIVIDENDS TO BE PAID ON GI INSURANCE**

Regular annual dividends will be paid during 1956 on GI insurance held by World War I and World War II veterans, the Veterans Administration has announced.

In both the NSLI and USBLI payments, eligible policyholders will receive a dividend for each month the insurance is on a premium-paying basis during the policy year ending in 1956. Payments will be made after the anniversary date of each policy beginning in January and ending in December 1956.

Excluded from the 1956 dividend will be the nonparticipating post-Korea policies issued under the indemnity and insurance acts of 1951. Also excluded will be the 735,000 NSLI and USGLI participating policies for which premiums have been waived under the same acts.

Eligible policyholders who already have designated a dividend payment option, and who do not wish to change it, will not have to give VA any additional authorization for the 1956 payment. However, those veterans wishing to change their previous option, must notify the office handling their account. The change should be filed well in advance of the 1956 anniversary date of their policies.

Insurance accounts for veterans in Texas, Louisiana and Mississippi are maintained in the Veterans Administration Center at Denver, Colo.

### OTHER 31A FOOTBALL

Two Joe Lozano passes and a 42-yard run by Manuel Pausky gave the Prentiss Cowboys a 20-6 victory over the Flour Bluff Hornets at Flour Bluff Friday in a 31A district game before 1,200 persons.

Flour Bluff's lone touchdown came in the first quarter when Roy Harris went around right end for 22 yards and a score.

The Cowboys scored on the second play of the game when Pausky cut loose for his long run. He also converted.

A Lozano pass to Wesley Barton on an 11-yard play gave Prentiss its second touchdown, in the second quarter. In the last quarter Lozano pitched to Noe Reyes for a score. Pausky again converted.

Tackle Bob Martin and guard Selo Ramirez stood out in Prentiss' line, while Don Ott and Dale Harris played an outstanding game for Flour Bluff.

The Hebronville Longhorns got started early and stamped the Benavides Eagles 46-0 before 3,000 fans at Benavides Friday night.

Hebronville was a heavy favorite in the 31A clash.

Three minutes deep in the first quarter Humberto Almaraz, left halfback, ran around right end for eight yards and a score. Rene Ramirez kicked the point.

Still in the first period, right halfback Eleazar Almaraz circled right end on a 30-yard scamper for the second touchdown. Ramirez converted.

Two minutes into the second quarter Eleazar sprinted around left end for a touchdown after a 35-yard run. With two minutes remaining in the half Ramirez snagged a punt on the sidelines on his own 25, crossed the field to the other sideline and went untouched for the touchdown.

Hebronville received the kickoff after the half. The Longhorns carried to their own 41. A 15-yard penalty carried them back to their 26. At this point Melecio Garza carried back to the 40, and then Rene Medellin faded back and passed to Thomas Ramirez who carried to the Eagle six. Two plays later Arturo Alvarez went over from the two. Medellin ran the point over.

Midway through the third

period, Rene Ramirez intercepted an Eagle pass and went 35 yards to score. Medellin passed to Anibel Hinojosa for the extra point.

In the fourth quarter Tomas Ramirez made a 55-yard score which was called back on a penalty. Later he went 22 yards up the middle for a touchdown.

Bishop's Badgers racked the Ingleside Mustangs, 27-6, at Ingleside Friday night.

Ronnie Bull scored two touchdowns for the Badgers, one a 45-yard run in the second quarter for the first touchdown of the game. Bobby Rich converted his first of three extra points to give the Badgers a half-time lead of 7-0.

The Badgers scored twice in the third quarter. Harold Temple went over from the five, climaxing a 50-yard drive, and Bull bucked across from the two.

The Badgers chalked up their final touchdown in the fourth quarter when Charles Parker went over from the three.

Ingleside got its only touchdown in the final quarter when Bobby Haywood scored on a 35-yard pass play from Raymond Terry.

The Woodsboro Eagles edged by the Sundeen Eagles 12-7 in a 31A district football game before about 1,000 fans Friday night at Sundeen Stadium.

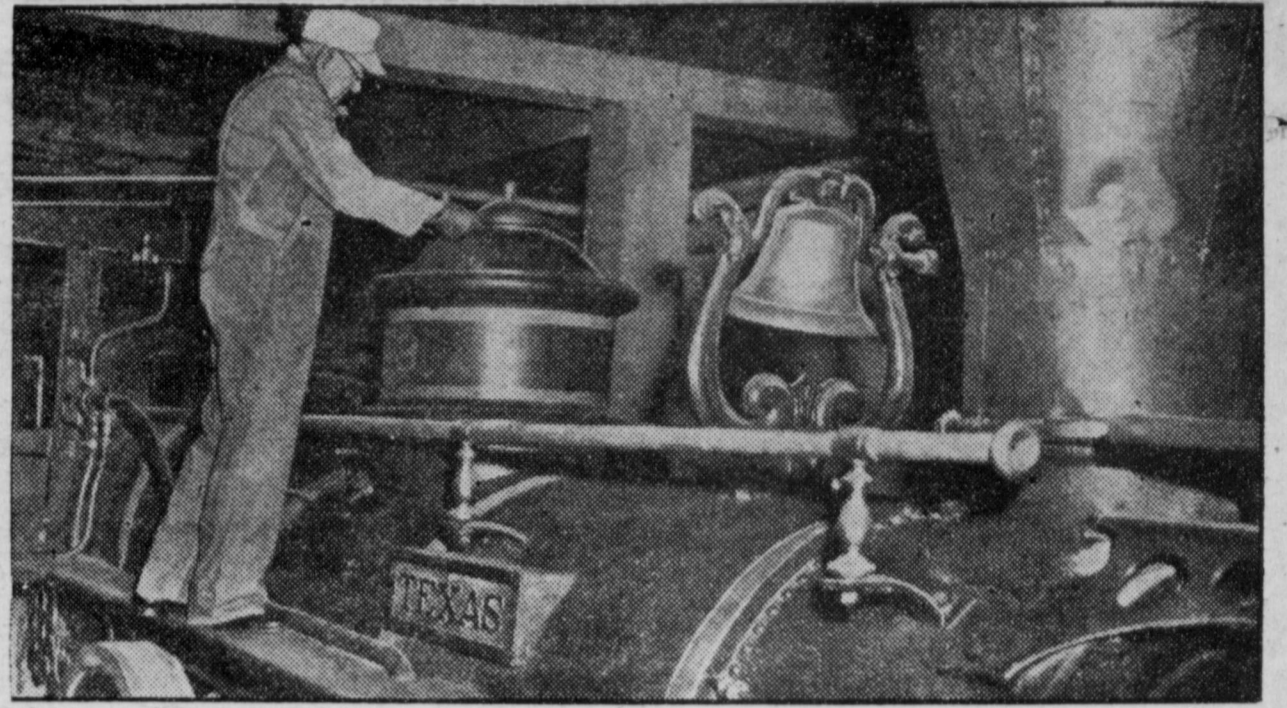

Sundeen scored first in the first quarter and held a 7-0 half-time lead, but Woodsboro came back with touchdowns in the final two periods to win the game.

Richard Beseda climaxed a 60-yard Sundeen drive in the first period with a 29-yard touchdown run. Joe Penick kicked the extra point.

Going into the second half, Woodsboro's Robert Duncan went across from the 2-yard line after his team drove from their own 45.

A 68-yard drive in the fourth quarter by Woodsboro ended when Duncan again crossed the goal from the 2 for the final touchdown.

Mrs. Tom Wright entertained some of her friends Monday afternoon with a Stanley party at her home. Refreshments of chicken sandwiches, cookies and coffee were served to fifteen guests.

**ALL STEAMED UP OVER THE MOVIES**—Retired engineer W. B. Adamson, 74, inspects the historic balloon-stacker "Texas" on display in the Atlanta, Ga., museum, and pronounces the famous Confederate locomotive ready to roll at the drop of a script. Movie moguls may use her when they re-enact Texas' famous Civil War pursuit of the Union Army's "General," now on display at Chattanooga, Tenn., which is also believed to be operational. Patriotic organizations have urged that the two ancient locomotives be used in close-ups to replace replicas built to re-create the stirring rail race for a forthcoming film.

**FOOTBALL'S CRAZY, MAN, C-R-A-Z-Y**

And if you don't think it is, figure this one out. Rockport beat Aransas Pass, who beat San Diego, who beat Hebbronville, who beat Rockport and won the 31A District Championship. Thanks to Ed Beasley, who called this to our attention.

Nevertheless Hebbronville will be favored to expand its 6-0 district record to 7-0, thereby cinching the trophy mathematically, at Premont Friday night.

The other eight 31A members meanwhile will scramble for the other eight places behind No. 1. Woodsboro tries to keep its faint title hopes alive by entertaining eighth-place Flour Bluff Friday. Other games are Benavides at Rockport, and Ingleside at Sundeen. Bishop has an open date.

Rockport remains in second place and will be favored against Benavides. Rockport also has a longshot chance to finish first. But Hebbronville would have to either lose to, or be tied by, both

Premont and Woodsboro for this to happen.

Woodsboro has been one of the most improved 31A teams. The Eagles dropped their first three games of the season and then were stunned by Benavides in a 14-14 tie. Since then Woodsboro has won four straight.

Sundeen will be favored to surge past winless Ingleside into a tie with idle Bishop for fourth place. Sundeen and Premont currently are tied for fifth.

Results last Friday saw Hebbronville come closer to the title with a 46-0 rout of Benavides; Bishop downed Ingleside 27-6; Premont topped Flour Bluff 20-6; and Woodsboro edged Sundeen 12-7. Rockport was open.

District won-lost records are Hebbronville 6-0, Rockport 5-1, Woodsboro 4-1-1, Bishop 4-3, Sundeen and Premont tied with 3-3, Benavides 1-5-1, Flour Bluff 1-5 and Ingleside 0-6.

Boyd Carroll Preckwinkle of Riviera spent the weekend with his grand mother, Mrs. Tom Wright and also visited in the home of Mr. and Mrs. Bill Lassiter.

## Mr. Harry Carter Gets Into Trouble With Letters

Harry Carter, the genial lay minister at St. Peter's Episcopal Church got into trouble with the letters from abroad that he sent The Pilot while on his vacation.

His cousin in England, who is a worker in the parish church of Little Missenden, England, saw the letters, and asked why, when he returned, he couldn't send them something on Texas.

Mr. Carter told her that Texas was a big place to write about, but that he would do his best, and that at least he would write them of the area around Rockport and Corpus Christi as a return compliment.

So now he is working up two or three letters for the folks in England and, if we're lucky, and can persuade him, The Pilot will run them as they appear.
