LeBlanc urged the sportsmen to get behind their legislators and "furnish the Commission the means with which to accomplish the ends the sportsmen seek throughout Texas."

At the same time, he pointed out that Cedar Bayou would be renovated under the plans, probably very soon, and that a pass in (Continued on page 8)

He explained that no money has ever been appropriated for cleaning and maintenance of the park, and that the charge has become necessary on account of litterbugs that refuse to clean up after themselves.

Dog Nuisance Starts Again, This Time At Rockport School

Rockport's dog nuisance has started again, this time around Rockport Elementary school, where Superintendent Pat Green, reports a small pack, some of which are brought to school by students.

Dogs are mankind's best friends — so many people say — but those people have never seen one of their loved ones die, dumb with the agony of rabies. These people have never seen — or most of them have never seen — any of their folks having to take the long series of painful rabies shots — after they have been bitten or scratched by a rabid dog — shots that can be dangerous in themselves.

Dogs may be man's best friend — but this is only when they are kept in their place, and that place is definitely not the school ground, according to Mr. Greene, who says that the nuisance is becoming a menace to the health of the children at school.

Dogs brought to the school grounds by students, or attracted by them, have been seen licking the drinking fountains provided for the youngsters. Dogs like water; they need it; but the place for them to get it is not at the school fountains.

At first glance, the fact that a dog is smart enough to use a fountain just as do the children may furnish some people with material for anecdotes about the animals' intelligence, but it is doubtful whether those same people would ask their own children to drink from the same watering pan that their dog uses.

Nor is the danger from rabies all. Other diseases can be transmitted to boys and girls by dogs. Certain types of tapeworms that infest the intestines of humans can be caught from dogs. Mange and ringworm are among the more loathsome skin diseases that can be transmitted by dogs, neither of which improve a child's appearance or disposition, ever if they're not fatal.

Rabies, as we have mentioned earlier, is frequently fatal, and there is another pleasant little present carried by dogs — The virus hepatitis — an infectious disease of the liver that is frequently as fatal as a dose of poison.

Children going to school, where there are dogs consistently running at large, are exposed to all of these things.

Mr. Greene asks parents and children to cooperate by keeping their dogs at home and off the school grounds.

Moore Sane; Gets 10 Year Sentence

Jury Finds Victoria Youth Is Able To Tell Right From Wrong, And Was Sane When Dosier Murder Was Committed; Pleads Guilty Tuesday

Only an hour after a jury found Donald Eugene Moore sane at the time he murdered Thomas Lee Dosier in 1955, and sane today, the Victoria youth entered his plea of guilty to the murder charge before Judge W. G. Gayle of the 36th District Court, waiving his right to a jury trial, and was sentenced to a 10-year term in the penitentiary Tuesday.

District attorney John H. Miller, of Sinton, recommended a moderate sentence of ten years in view of the defendant's youth at time the crime was committed, and Judge Gayle concurred. However, the Judge pointed out, he did this only on account of the fact that Moore was only fifteen when he fatally shot and killed Dosier in a hitch hike robbery. The sentence, in view of the seriousness of the crime, Judge Gayle said, was a light one.

The trial opened at 4:55 p. m. and sentence was passed at 5:18 p. m.

The state used Sheriff A. C. Shivers of Aransas County, Ranger Capt. J. J. Klevenhagen of Houston and Jack Dosier of Baytown as witnesses.

Shivers and Klevenhagen related the circumstances surrounding Moore's statement confessing the crime and of his leading a group of officers to within 10 feet of where he had tossed the gun in deep brush after shooting Dosier in the back. The gun was found July 14, 1955.

Dosier testified he identified his brother's body at an Aransas Pass funeral home after he had been discovered by two workmen across Highway 35 from the Aransas County airport.

Moore's fear of copperhead snakes was the clue that led to his arrest by law enforcement agents on July 14, 1955. The Victoria youth confessed to shooting Dosier when he broke away from him while he was trying to rob him.

(See related story on sanity hearing on page 5.)

Jury Picking Took Little Time For Moore Sanity Trial

Jury picking for the sanity trial of Donald Eugene Moore in the 36th District Court took little time Monday morning. Out of 39 takersmen called, Judge Gayle excused Ernest Tedford, Joe H. Slocum and Mr. Curry on the first round. Excused later, on examination by the district attorney, were Ed Godde, Charlie Garrett, Oscar Lee, V. A. Dullye, Jr., and Billy S. Brown, all of whom had formed opinions on the case that would interfere with their serving.

The jury, as finally chosen, consisted of the following men: Monroe DeForest, Jesse Points, Edward Pena, James Little, John McGlammery, John Albert Ratliff, Jack McDavid, Frank Kresta, Geo. Nava, Ernest Russel, W. I. Wilson, and Elton Pate.

The only ladies called, Mrs. R. D. Torres and Mrs. Chester Johnson did not have to serve.

Local Churches Lay Plans For Church League Baseball

Representatives from the First Baptist, Methodist, Presbyterian, and Catholic Churches of Rockport met at the Chamber of Commerce building on Friday, April 13, 1957 to formulate plans for the League's Summer baseball program.

M. M. Borchert, High School Coach, was elected Commissioner, Charles Roe was elected assistant commissioner, Floyd Smith, treasurer, and C. Wilson Brumley, pastor of First Baptist Church, secretary.

The representatives voted to set the age limits for the Junior age group at 12 years of age with August 1, as the date for determining the age limit. Any boy that has not reached the age of 13 by August 1, 1957 and meets the requirements in Sunday School membership and attendance is eligible to play for his church group.

The Senior age limits were set at 15 years of age with August 1, 1957 being the date for determining the age limit. Any boy that has not reached his 16th birthday before August 1, 1957 and meets the requirements for Sunday School membership and attendance is eligible to play for his church group.

On a motion by Woody Hunt the League decided to find someone who might be interested in operating the concession stand on a percentage basis. Anyone who might be interested in the concession stand should contact Coach Borchert.

Louie Tuer was elected to be business manager. He will be responsible for the concession stand and the collection to be taken at each game.

Mr. E. N. Adams was elected to be Umpire-in-Chief. Each church is to submit three men's names to form an umpire roster. The Umpire-in-Chief will select umpires for each night's games from this roster. Games will be played in each league on Tuesday and Friday nights beginning at 7:00 p. m.

Plans were completed for the observance of "Labor Day" on Saturday, when members of the band worked at any job anywhere in the area. The proceeds will go to the band for equipment not provided by school funds.

The club also sponsored a bake sale Saturday. Cakes and pies were sold at stores in Rockport and Fulton.

Den Four

The April 9th meeting of Cub Scout Den Four was held in the vacant lot adjacent to the home of the Den Mother, Mrs. N. F. Jackson, who was assisted by Mrs. W. D. Edwards, Den Mother, and Lou Tuer, Den Dad.

Denner Andy Everett presided over a curtailed business meeting, which was shortened in order to provide more time for the day's activity period. This time was spent in the construction of the floor of the Den's "Swiss Family Robinson" tree house, the ladder having been built at the previous meeting. The work was under the supervision of Mr. Tuer and Mr. N. F. Jackson, who were also assisted by Mr. W. D. Edwards. Plans were made for an extra meeting on Saturday, April 13th, at which time the cubs planned to complete the tree house roof and sides, but this meeting had to be postponed because of the cold weather.

Chris Sorenson was named flag leader for the next meeting, and Andy Everett was placed in charge of refreshments. Bobby Ray Edwards served ice cream and Coke to Andy Everett, Jack Gwynn, N. F. Jackson, Chris Sorenson, Gary Tuer, Dellon Beasley, and Den Chief Raymond Ingersoll, in addition to the adult advisers.

The April 16th meeting of Den Four was held on the patio of the den mother, with Denner Butch Begnaud presiding over the business meeting. A well-planned and executed flag ceremony, led by Chris Sorenson, opened the meeting, which was closed with a Cub Scout Prayer. It was decided that the den would spend the morning of Good Friday, April 19th, in the completion of the den tree house, with the cubs bringing sandwiches for lunch. Detailed plans were discussed for the Cub Scout Field Day to be held in Refugio on May 4th, and the remainder of the afternoon was spent in try-outs for the various field events. The following cubs were tentatively selected to represent Den Four in these events: 50-yd. Dash, Andy Everett; High Jump, Dellon Beasley; Baseball Throw, N. F. Jackson, Jr.; 100 yd. Shuttle Relay, Jack Gwynn, Butch Begnaud, Gary Tuer, and Dellon Beasley; Tire Roll, Jack Gwynn; 3-Legged Race, Chris Sorenson and Bobby Ray Edwards; Broad Jump, Gary Tuer; and Tug-o-War, N. F. Jackson, Jr., Gary Tuer, Andy Everett, Chris Sorenson, Butch Begnaud, and Bobby Ray Edwards. Changes or substitutions in this line-up may be made as late as the day of the events.

Jack Gwynn was named flag leader for the next meeting, and Gary Tuer was placed in charge of refreshments for that time. Andy Everett served fudgecicles to Butch Begnaud, Bobby Ray Edwards, Jack Gwynn, N. F. Jackson, Jr., Chris Sorenson, Gary Tuer, and Dellon Beasley, along with Mrs. N. F. Jackson, Den Mother, and Johnny and Bobby and Lou Tuer, Den Dad, and Renee.

WEEKLY DUPLICATE BRIDGE GAMES WILL BE HELD AT WOMANS CLUB

Weekly Duplicate Bridge games will be held at the Womens Club every Friday night at 7:30 a. m. The first playing night will be Friday, April 26th at 7:30 p. m. promptly.

Explanation and instruction in the differences between rubber bridge and duplicate bridge will be given for the first two weeks for which there will be no charge. After that, however, for the club to be self-supporting there will be a small charge of fifty cents per person each playing night.

It is hoped that the club will be an added attraction for the visitors to Rockport as well as our townspeople. So, get a partner, or if you do not have a partner come and meet prospective partners at the club.

In duplicate bridge, since everybody plays the same hands during the evening it is an excellent way to improve your bidding and playing by comparison with the other scores. Anyone who plays rubber bridge will quickly learn the scoring and the slight difference in the bidding of the hands. So come to the Womens Club Friday night at 7:30 p. m. and since the club will need extra playing cards, anybody who can donate some used cards please bring them to the club.

Story On Goose Island In Chronicle Feature Section

A story on Goose Island and a picture of the Mills Wharf appeared in the Chronicle feature magazine, on Sunday, sent in by Jack Baughman, as part of a series on the recreational facilities of Texas that the Chronicle travel editor is running.

Another story from here, that of Samuel Colt and his land on Lamar, printed in the Pilot recently, also appeared in the news section of the Chronicle.

The story on Goose Island was as follows: Goose Island State Park, the only one the Park Board owns on salt water, is one of the most popular.

Situated on Lamar Peninsula, not far from Mills Wharf, its 152 acres, overlooking two bays, are the answer for the vacationer or weekender who wants to get away from crowded streets to enjoy leisure hours in the open.

The park overlooks St. Charles and Aransas Bays, about ten miles north of Rockport, just off of Highway 35, and can be reached from Houston in about three hours and a half.

Shaded by live oak, sweet bay, huisache and mesquite trees, and featuring one of the largest oaks in North America, the resort's popularity for picnicking, over-night camping, fishing and hunting in the fall season is growing year by year.

The park has 13 picnic areas in an area shaded by wind-swept live oaks. Each has a table, a furnace and plenty of shade for families who want to eat out and enjoy the southeast trade winds as they blow in from the neighboring bays.

There are eight camp sites on Goose Island proper. Each of these shelters has a concrete barbecue pit, table, running water and electric lights. The charge for over-night camping is \$1.50 a car, and \$1 for picnicking.

These shelters are extremely popular. Visiting fishermen may rent one to lounge in the shade and eat, while waiting for the fish to start biting. Families meet here for day-long picnics; travel-

Miss Barbara Ann Parr of Corpus was her sisters maid of honor; and Mr. Teleton James of Portland, brother of the groom was best man.

Miniature bride and groom was Jeanette Robinson of Rockport, cousin of the bride and James Gary of Sinton, nephew of the bride.

A reception was held at the home of the brides aunt and uncle, Mr. and Mrs. George Hattenbach of Fulton.

ers stop off to spend the night; and many a family spends their entire vacation, from a week to a month, under one of these shelters, while boating, swimming, fishing, and sun bathing till it's time to go home.

The park has 18 skiffs that can be rented, and four motors, and fresh bait and ice are now available in the park. There is a concession hall where soft drinks are sold, along with staple groceries and light lunches.

The concession hall itself has a juke box, where teenagers can dance, and Mrs. Wofford, whose husband is park manager will take reservations for parties to be held there.

Another attraction is the Big Tree, a live oak believed to be more than 2000 years old. The tree measures 60 feet around its base and shades an area approximately 300 feet in diameter.

Just down the shore a ways from the concession hall, there are some interesting ruins of old Lamar, built when Texas was young, and Mills Wharf, famous among Houston fishermen and hunters for the size of the strings of fish and their bags of ducks and geese in the season.

Sanity Hearing For Moore Ends Tues.

The trial of Donald Eugene Moore, 17, of Victoria, for the fatal shooting of Thomas Roland Dosier, 40, of Aransas Pass, in a 1955 hitchhike murder, which began Monday, April 15, was turned into a sanity hearing before Judge W. G. Gayle, of the 36th District Court.

The hearing came at the request of court-appointed defense attorneys, Joe Caldwell and Ellis L. Clark, who spent the day presenting an array of witnesses calculated to bolster their contention that Moore was insane at the time of the killing.

In signed statements over a year and a half ago, Moore admitted slaying Dosier while pursuing a movie-inspired career of crime. His first attempt, robbery of James Frost near Victoria, worked perfectly, "just like the movies" but on his second, five days later, Dosier was killed.

The youth, only 15 at the time, served a term at Gatesville for the robbery of Frost, and upon becoming 17 was returned to Rockport to face charges for the Dosier shooting.

First witness presented by the defense, James D. Billow, case worker supervisor at Gatesville School for Boys, said that Moore suffered from nightmares and heard voices, and at such times was violent and had to be restrained by force. Billow read excerpts from reports by the school psychiatrist and by Dr. Carl Freeborn, Waco psychiatrist, who examined Moore.

Moore had told Dr. Freeborn that the leaves of trees talked to him, and that he was smothered by them. The voices that he heard told him what to do, he said, and forecast happenings. They also told him whether to like people or not.

Billow said that Moore was transferred to Austin State Hospital on February 13, 1956, for ninety days for observation, as it was the opinion of all concerned at Gatesville that Moore was a borderline mental case that might become violent. At such times, Billow said, he doubted whether the youth knew right from wrong.

District Attorney John Miller, during part of Billow's testimony, asked him whether symptoms exhibited by Moore could have been counterfeited by a person seeing the "Snake Pit", a film dealing with mentally ill persons. Billows said that he thought this might be possible with some of them, but not all.

Mrs. Edwin Schustreit, of Victoria, said that Moore had worked for her in a store for about 13 or 14 months around 1952. He was, she said, "as good and sweet a boy as I ever knew, and a good little worker, as conscientious as could be." However, she said, the youth had seizures while working for her, at which times he blacked out, turned pale and, after regaining consciousness, was weak, shook all over, and had severe nervous headaches, and wanted to sleep.

Confirmation of this was offered by Mrs. Tommie Lee Matchett, Moore's older sister, and Mrs. John L. Jarrett, a next door neighbor to the Moore's. All three women said that under these conditions the youngster was "mentally upset" and at times was unable to control his actions or to tell right from wrong.

Concluding witness for the defense was Dr. Enos Martin, assistant superintendent for the Austin State Hospital. Martin said that Moore exhibited symptoms of paranoid schizophrenia. He suffered from delusions of persecution, when he thought that people were talking about him or laughing at him, and heard voices which, Moore told the doctor, he would obey, no matter what they told him to do. He also told Martin that the leaves of trees talked to him, and that he had dizzy spells when he blacked out. At that time he refused the idea of an electroencephalograph.

Martin said that he tabbed Moore as probably dangerous, and to be held under conditions of maximum security while in the hospital. However, he showed some signs of improvement, and at the end of the 90-day period was returned to Gatesville.

Miller read Martin the confession signed by Moore shortly after the Dosier killing in 1955, and asked him, judging by its wording and detail, whether he thought Moore was sane or insane when he made it.

Dr. Martin said: "I'd say he was sane."

The defense rested its case at this point and court was adjourned until Tuesday morning, when the state presented its rebuttal witnesses, four law enforcement officers and a county attorney testified that they believed Moore was sane when he was arrested July 14 for Dosier's murder in May.

Sheriff A. C. Shivers said Moore gave him a detailed de-

scription of the Dosier murder, events leading up to it and subsequent events, and that his detailed account later, was verified by investigation.

The sheriff said he believed Moore was capable of knowing right from wrong at all times.

County Attorney Weldon Cabaniss took Moore's voluntary statement on the Dosier murder. Cabaniss described Moore as completely cooperative and the county attorney said he was impressed by the lad's intelligence and memory of details.

Ranger Capt. J. J. Klevenhagen of Houston described Moore's memory as very clear on all details. The Ranger said he first talked to Moore in the Victoria County sheriff's office when the youth admitted the murder and gave a detailed account of his actions on the day he shot Dosier. Klevenhagen said Moore told him he could locate the gun that he had tossed into the brush after he had shot Dosier. The Ranger testified that they brought Moore to Rockport the following day and the lad led a group of officers to within 10 feet of where he had thrown the gun.

Klevenhagen said he believed Moore was sane at all times when he talked with the boy.

Klevenhagen's testimony was corroborated by Ranger Eddie Oliver of Houston and Deputy Sheriff A. G. Welton of Victoria.

Oliver quoted Moore as saying he only learned of Dosier's death before the day of his arrest, when his mother read of it in the newspaper. Oliver said he tried to sympathize with Moore and quoted the lad as saying, "You don't know how I feel unless you have killed a man yourself."

Oliver said that Moore found the pistol himself in heavy brush near the spot where Dosier's body was found. The Ranger said he had no doubt the youth was sane.

Defense counsel stipulated that the content of Moore's statement read to the jury in the sanity trial Tuesday morning and the testimony of Ranger Ed Oliver of Houston and Deputy A. G. Welton of Victoria could be incorporated in the trial evidence without repetition.

All of the law enforcement officers testified at the sanity hearing that they believed Moore was sane at all times and none recalled him mentioning dizzy spells or blackouts.

The jury found Moore sane after 34 hours of deliberation, Tuesday afternoon.

TELEPHONE TALK

Have You Noticed?

Except for times when Mom has to let out a cuff or a seam, parents seldom realize how fast their children grow.

I guess that's because it's hard to notice much change from one day to the next.

With telephone service, it's the same way. Growth and improvement go steadily on and on — almost unnoticed.

One big reason for this is that you can't always see changes and improvements in telephone service.

Today, for instance, we may begin using some new rubber compound to keep circuits better protected from rain or ice. Next month maybe it will be something to help us spot cable troubles more quickly. Next year, perhaps a new way of making your telephone voice sound more natural.

Improvements like these, made behind the scenes, come along month after month, year after year. They're just part of our efforts to make your telephone service more convenient and dependable — and as low in cost as possible.

Programs For Your Group

Watching a movie at a Rotary Club meeting the other day reminded me to tell you about free-loan motion pictures we keep in our telephone film library.

Altogether I guess we have about 100 different 16 mm. films. All are sound-films — many are in color. Some are short ones — just eight or ten minutes. Others run 20 or 30 minutes, even up to an hour. Any of these films would add entertainment to your club program or other group meetings.

School teachers also find telephone films useful as classroom visual aids.

Anytime you'd like to borrow a film from us, just call the telephone business office. If possible, try to give us a few weeks notice so we can make sure it's available the day you need it.

Also, if you'd like to call and give us your name and address, I'd be glad to send you a free catalogue that lists and describes the film and other program materials we have.

Just To Say Hello

Not so many years ago, placing a Long Distance call was a pretty big event. One you saved for important news — like telling the folks back home about a new baby.

It's not like that any more. Nowadays, Long Distance calls often start off with, "We just thought we'd call to say hello."

I think this modern custom — calling us to chat — keeps growing in popularity because there's something exciting about spanning the miles to hear familiar voices. And, of course, there's nothing like a telephone call when you really want to get all the news.

Calling Long Distance regularly costs a lot less than you'd think, especially when you place calls station-to-station. That way you make three calls for the price of two person-to-person calls. And you can also get extra savings by taking advantage of the special low rates every evening after 6 p. m. and all day Sunday.

Call by number. It's twice as fast.

Navy's Blue Angels At Kingsville NAAS Fest-i-rama May 3, 4, 5

Many of the spectators at NAAS Kingsville's annual Navy Relief Fest-i-rama May 3, 4, and 5 will be seeing the Navy's Blue Angels for the first time. Still others will be seeing this famed Flight Demonstration Team for the third or fourth time.

The Blue Angels are certainly no strangers to the people of South Texas.

Following the Korean War, for which the Blue Angels were disbanded, the team was reorganized and stationed at Corpus Christi. The Blue Angels stayed in Corpus Christi from late 1951 until they moved to Pensacola, Florida in July 1955.

This group of Naval Aviators, who will appear at Kingsville May 4 and 5, is led by Commander Ed Holley who has been a Navy pilot since January 1942 when he received his wings and commission. Cdr. Holley distinguished himself as a fighter, bomber, and torpedo pilot during World War II. He also saw action as a fighter pilot during the Korean conflict.

Following Cdr. Holley through their thrilling 25 minute aerial shows are Lt. (jg) B. Rasmussen on Right Wing, Lt. Lefty Schwartz on Left Wing, and Lt. Nello Pierozzi flying as "Tail-end-Charlie."

Lieutenant Junior grade Rasmussen entered flight training at Pensacola in October 1951. He received his Wings and Commission in March 1953. Lt. (jg) Rasmussen spent the next three years with the fleet. In October 1956 he became a member of the Blue Angels.

Flying Left Wing for the team is Lt. Lefty Schwartz. He entered flight training in 1959 and earned his wings in June 1951. Upon commissioning he reported to Fleet All Weather Unit, Atlantic, where he served as an instructor. July 1954 brought Lt. Schwartz to Corpus Christi as a Flight Instructor. He joined the Blue Angels in December 1955. Lt. Schwartz has the distinction of being the youngest member of the team at 25.

"Tail-end-Charlie" or the "slot" man for the Blue Angels is Lt. Nello Pierozzi. Lt. Pierozzi received his Wings and Commission on December 11, 1954. Graduating too late for World War II combat

Eastern Star Honors Past Matrons and Patrons

"The Ship of Victory" was the program theme for the meeting of the Order of the Eastern Star, Monday night, at which time, the Past Matrons and Past Patrons of the order were honored.

Mrs. Mary Juergens was in charge of the program, assisted by Mrs. Mamie Hooper and Mrs. Elizabeth Brundrett and a nautical theme was used throughout the presentation.

"Anchors Aweigh" and "Sailing" were played by Mrs. Mary Cooke and Mrs. Juergens sang appropriate words to a setting of "Moonlight Bay".

The Victory Ship was placed upon the altar and surrounded by miniature life boats bearing the names Peace, Happiness, Service, Love and Friendship with appropriate inscriptions read by Mrs. Fannie Brundrett, Mrs. Kathleen Bachman, Mrs. Mary Moss and Mrs. Zelma Bearden.

Mrs. Hooper, only living charter member of the order, was presented with a corsage and an original poem read by Mrs. Gertrude Alleman. The honor guests were given emblematic bookmarks as favors.

The Easter theme motivated the tea table decorations. The centerpiece was a pink hob-nail basket filled with Easter eggs on either side of which pink tapers burned in star shaped crystal holders. The white cake squares held diminutive nests and eggs were served with punch. The tea table was presided over by Mrs. Alma Ratliff, Mrs. Lucretia Diederich and Mrs. Bearden.

GIRL SCOUTS

The Whooping Crane Girl Scout Council is making plans to add several buildings to their permanent summer camp — Camp Copano — six miles north of here, on the shores of Copano Bay.

Jim Toland, of Taft, chairman of the building committee, Lincoln Borglum, council president from Beeville, and Miss Lucille Douglas, national field representative of the Girl Scouts, after visiting the site, said that plans call for the building of a house for a year-round caretaker and for two unit houses. The unit houses are being planned as the center of handicraft and other crafts for the summer camping program.

The camp itself is divided into two units of four cabins each, and the unit houses will work into a master plan. This master plan was formulated at the time the camp was started, when, because of lack of funds, not all the buildings could be erected.

Other improvements to the camp will include a walk-in cooler for the kitchen, better drinking water facilities, and a different type of window covering than the plastic which has been used so far.

Camp Copano received a gift of \$2000 recently, in memory of the late Mrs. W. W. Jones, of Corpus Christi, and in addition to this building fund has been enriched by over \$1500 as the result of a council-wide Girl Scout cookie sale. An additional \$500 will probably be available from this latter source, according to Allan Lawrence, treasurer of the organization, when all returns from the sale are totaled.

Mrs. Vera Bielenburg of Aransas Pass has been hired as executive director of the tri-county Whooping Crane Girl Scout Council, to replace the place left vacant by the resignation of Mrs. Allison Nichols, of Sinton.

Mrs. Bielenburg has been active in scout, community and church work for several years, and at the present time she is a troop leader and public relations officer for the Aransas Pass Girl Scouts.

She received her degree from the University of Kansas and, before her marriage, held several positions of responsibility in dealing with personnel.

The Whooping Girl Scout Council embraces San Patricio, Bee, and Aransas Counties. It also operates a summer camp for Girl Scouts near Rockport — Camp Copano. This will open in June of this year.

The Girl Scout Rockport-Fulton neighborhood meeting was held Friday afternoon at 2 o'clock at the Chamber of Commerce building.

Mrs. James B. Jackson submitted her resignation as neighborhood chairman, effective May 10.

Plans were formulated for participating in the Whooping Crane Council family picnic at Camp Copano on April 27. The program will consist of stunts from all area Scout and Brownie troops.

Easter Eggs Were Made of Jewels At The Russian Court: Easter Bunny Is German: Easter Parade Is Ancient

Of all the world's Easter gifts, few were as lavish as the jeweled eggs passed out by the rich and royal of the Russian court in the time of the czars — the work of an intense, spade-bearded court jeweler named Peter Carl Faberge.

The first of these was a surprise for Alexander III's Czarina, designed to please and amuse her, for she was a sad and melancholy lady. At a glance, it seemed to be a plain chicken egg of opaque white enamel. But inside, the Czarina found a glittering yolk of gold, and within the yolk a golden chicken. The chicken opened, too, and there the Czarina discovered an exact replica of the Imperial crown, perfect to the last detail. An enchanting bauble, it was the first of fifty-seven, the last and perhaps the most interesting being one of gun metal and gold, the egg sitting on top of four artillery shells.

Whether a Faberge masterpiece or the crudely-colored handiwork of a child, the egg has always been a feature of Christendom's supreme festival. But, like many symbols, its roots go far back into pagan antiquity.

Egyptians revered eggs as emblems of mankind's renewal after the flood; Babylonians offered them to their goddess Astarte. Persians said that the world had been hatched from an egg, and exchanged colored ones during their New Year's festival.

Eggs became a Christendom symbol of the resurrection. Forbidden to Christians during Lent in the long ago, they appeared on the Easter table in abundance, tinted red in token of the day's joy.

The custom of eating eggs on that day, and giving them as gifts to friends and children, became widespread.

In Italy, colored eggs formed a massive centerpiece on a table decked with flowers and laid with the family's best linen and dishes. In Spain the eggs were tucked into elaborate, fanciful cakes. In France, where the children believed that the bunnies were silent during Holy Week because they had all gone to Rome, they thought that when the bells returned, all joyously ringing, they brought with them red eggs for the youngsters. Swiss and English children went from house to house gathering colored and decorated eggs for their baskets and one of their games has crossed the Atlantic to survive the Easter Monday egg roll on the White House lawn.

The Easter bunny comes down from old pagan festival of Eostre, Anglo-Saxon goddess of dawn and the spring, and when Christianity reached the Teutons it permitted the hare a place in the new festival of Easter. In Germany and other countries of northern Europe, the children knew that this Easter bunny stole through houses and gardens when everyone was asleep on Easter Eve, hiding beautifully-decorated eggs in out-of-the-way places for good children to find.

Even the Easter Parade, fashion's own celebration of spring, has links with the past. In parts of England an old belief held that it was unlucky not to wear some

Atomic Research For Texas Formation of the Texas Atomic Energy Research Foundation by Central Power and Light Company and ten other electric companies operating in Texas has been announced by J. L. Bates, CPL president. Incorporation papers were filed April 10 with the Secretary of State.

The non-profit Foundation will engage in research looking toward the practical use of atomic energy and other forms of energy in the generation of electric power but will not include an atomic energy power generating plant at this time. Research will be directed toward developing better and more economical methods of using atomic energy in the generation of electric power, rather than toward its early use in the steam-electric power plants of the participating companies.

The program of the Foundation is long range, since it is expected to be many years before atomic energy will be competitive with natural gas as a source of heat for electric power plants in the Southwest.

The Foundation does not plan to request any government funds to support its nuclear research program. It hopes, however, to work closely with the Atomic Energy Commission in any program it undertakes.

As applied to electric power plants, atomic energy merely replaces other fuels as a source of heat to make steam. It still costs much more than conventional fuels for this purpose, particularly so in the case of natural gas. It is expected that much more research will be required before nuclear energy will be economically feasible for power plants in Texas. In the meantime, the research program of the Foundation will provide the necessary experience for utilizing this source of heat in the power plants, Bates' said.

ARMY RESERVE NOW OFFER SIX MONTH TRAINING The U. S. Army Recruiting Station at Corpus Christi is accepting applications now for the Army Reserve under the new six months active duty for training program which became effective on April 1, it was announced today by M-Sgt. John R. Treadwell, Army recruiter for the area.

Under the new program, the six months active duty for training is open to men in the 18 1/2 through 25 years old age group. Previously the six-month active duty for training program was available only to the 17 to 18 1/2 year old group.

Enlistment in the Army Reserve is for a six-year period for these men in the 18 1/2 to 26 age range. The men will enter the active duty stage within 120 days of enlistment, and upon completion of this training will serve in the Ready Reserve for 5 1/2 years.

Your Army Recruiter is in Rockport the 1st and 3rd Monday of each month.

WHAT IS A LAKE WORTH? A random bit of statistics, culled from the mail, proves that a good fishing lake is of inestimable value to a region. In a 10-month period, 616,379 fishermen caught 1,912,950 fish weighing 1,175,400 pounds from Fort Gibson Lake near Wagoner, Oklahoma, according to a creel census study. It's just evidence that you can have your sport and eat it too.

Mr. and Mrs. Horace Scruggs and family of Thrall; and Mr. and Mrs. Ocie Cole and son of Smiley were weekend guests in the home of Mrs. Mattie Cole of Fulton.

WATERFRONT—

Continued from Page 1

Laguna Madre was on the program "in black and white."

He warned, however, that nothing at all can be done in Laguna Madre until tide gauges have been set up and checked daily for at least one year.

The work will be done whether or not the fishing license bill is passed, he added, but he emphasized money would be available sooner if the measure becomes law.

Some interesting figures also were forwarded in regards to money going into the Commission till.

Ninety percent of the money from mudshell comes from the upper coast, he said, while the other 10 percent is taken south of Galveston.

Total revenue from Aransas, Nueces, Kleberg, Kenedy, Willacy, Cameron, San Patricio and Refugio Counties was \$100,543.67 for mudshell and sand and gravel last year while \$72,739.90 came from license sales and fines.

Of that amount, approximately \$50,000 was spent in the area on law enforcement and \$100,000 was doled through the marine laboratory at Rockport.

If the counties only received what they put into the fund, he said, it is evident that not much could be done.

How many passes can you build with \$20,000?

He emphasized, too, that Harris County (Houston) alone totalled more than all the counties mentioned.

On the short end of it, Kenedy County returned just \$22 to the game department for the year for licenses and fines.

LeBlanc pointed out, too, that Rollover-Pass near Galveston, although costing nearly a million dollars, was the best investment the Commission ever made; it has given more people more pleasure.

Speaking of the Laguna Madre situation, LeBlanc said it was a matter of record that the Padre Island Causeway as was built was opposed by the Game and Fish Commission.

"Now it would appear," he said, "that the sportsmen are asking the Game and Fish Commission to undo a wrong that the people of the Corpus Christi area allowed to be perpetrated upon themselves."

"The Game Commission is not opposed to helping correct the situation, but it is my opinion that the sportsmen should call on the county and causeway board to help correct the situation."

EASTER EGG HUNT There will be a Sunday School Easter Egg Hunt at the Presbyterian Manse at 10 a. m. Saturday for the Nursery, Kindergarten and Primary Departments of the church.

Easter Parade To Be Glamorous

The "Easter Parade" this year in Rockport promises to be more glamorous than ever before, Mrs. Juergens, manager of the retail merchants association said today a survey of local stores carrying Easter merchandise shows.

Astronomically, the Spring season started on March 21, but the public generally regards the end of Lent as the start of spring. Easter this year falls on April 21.

Mrs. Juergens said that a survey of local stores showed that there has been practically no price increase in more than a year in nearly all lines of spring merchandise, especially in clothing, and in some cases prices this year are lower than in many months.

Local merchants prepared many months ago for the spring buying season which starts just before Easter and they now have on hand a large assortment of the newest and latest in fashions and other merchandise, Mrs. Juergens said.

Most of the pre-Easter buying is expected to center on spring "outfits," and accessories not only for the women of the house, but for the husband and children as well.

The spring season is also the time for the shopper to begin making plans for warmer weather and more outdoor life.

Yard and garden work is here or just around the corner and it might be wise, Mrs. Juergens said, to check on garden tools. Most appliance shops have received their 1957 lines.

The start of spring is also the start of outdoor week-ends and the time to buy sporting equipment for the kids, new tires for the family car and picnic spreads at the neighborhood grocery, and sports wear for the entire family.

Mrs. Juergens advised spring buyers to watch the ads in the local newspaper for the best bargains, and if the ads fail to mention the items wanted, visit the store of your choice.

She said that virtually all the local stores have easy payment plans, not only for the Easter bonnet and other spring wear, but other types of merchandise including power lawn mowers, appliances, furniture, sporting equipment and other goods.

"By shopping locally, the buyer not only can take advantage of installment buying, but can get merchandise that is of guaranteed quality, backed by the reputation of the local merchant," Mrs. Juergens said.
