## Along The Waterfront

Persons interested in a free deer hunt on the game management areas of the Game and Fish Commission this year are asked to write to the Austin office for application blanks. The names of the lucky hunters will be drawn from the hat Friday, October 30.

Good Luck Pier at Fulton has produced some fine catches recently. The water is clearing and both day and night fishing is exceptionally good.

Mr. and Mrs. Lee Cookston and Mr. and Mrs. Billy Agee of McGregor made a fine showing with 45 to 50 specks weighing from 1 to 2 1/2 pounds.

L. M. Smith of San Antonio was pleased with eight gafftop, all topping the scales at three pounds and more.

Monday night Jake Pierce, of Pierce Courts, brought in a fine string of trout, 15 to 20, the largest 3 1/2 pounds and the rest 2 to 2 1/2 pounds.

Travis Olesci of Galveston, former Good Luck Pier operator, strung up 18 good specks weighing up to three pounds.

The Turners at Port Bay Bait Stand report that after the high wind and rain of the weekend the fish are coming in again. Out fishing the last week were:

E. D. and Wayne Nix and J. W. Settiff of Corpus Christi, caught 32 trout, the largest weighing 3 1/2 pounds.

Stan Heath fishing several mornings got around 20 trout, some weighing 2 1/2 and 3 pounds each.

G. W. Scott of Rockport got a nice string of trout, the biggest one weighing 5 1/2 pounds.

N. B. Nelson and Ted Beshear got 15 one-pound trout and one 3 1/2.

J. L. Nix and Bill Evans of Corpus Christi, 6 trout.

John Gottfield and J. E. Johnson, San Antonio, 2 reds and 5 trout.

Roy Hunsinger and Jim Kyle of Alice, 4 nice trout and one 4 pound red.

M. E. and R. L. Hatcher with Bill Hickman of Beville 12 trout and 3 reds.

Wayne Waddell of Sinton 15 trout, one weighing 4 pounds and 2 big reds.

Edwin and Howard Hunt of Sinton, 6 trout.

Sam Gill, J. R. Brumley, James Havard and Bud Calhoun had a very lucky streak of fishing. Together they brought in about 40 pounds of reds and some trout.

Mr. and Mrs. W. E. Holmer of San Antonio have had a lucky streak of fishing. Aside from all they could eat they have frozen around 60 trout, reds and croakers to take back home.

## 813th Football Team Loses

Last Sunday afternoon the 747th AC&W, located at Ellington AFB, swamped the 813th six-man football team 24-0 in a game spotted with rain and many fumbles. The heavy rain lasted the entire game hampering play.

The first half had both teams putting up a good defensive with Ellington getting one lone touchdown in the first quarter. During the second half, the rain seemed to increase. Fumbling became a problem, but Ellington gathered their forces for a touchdown in the third quarter and two in the fourth, opened up a passing attack in spite of the rain, that spelled defeat for the Rockport Air Force Station Radomes.

Coach S/Sgt. Louis E. Enderby of the 813th, although not happy with the outcome, felt that his men had done well under the circumstances. Lack of experience was considered.

## County Budget Drops \$8555

The 1960 budget for Aransas County shows an increase of \$1,600,577 in assessed valuations to a total of \$19,200,000, and a decrease in expenditures over 1959 of \$8555, to \$301,386.

The levy will remain the same, \$1 per \$100 valuation, and taxes are expected to amount to \$192,000. Of this, it is estimated that 90% or \$172,800 will be collected, with a distribution of \$159,360 to various funds.

Total outstanding county indebtedness is \$344,000, of which \$37,356 will be paid by January 1, 1960.

Ad valorem taxes are expected to decrease \$2546 in 1960, to \$161,179, while a rise of \$1311 in other receipts is expected to up that total to \$103,559, making a combined total \$264,738, or \$1234 less than last year. Total resources of the county will be \$45,202 less than in 1959, and total expenditures of \$301,386 for 1960 will be \$8555 less than in 1959.

Receipts expected for the various funds and their balances at the beginning of 1960 are expected to be as follows:

Jury fund, receipts \$2933, balance \$7747; road and bridge, \$113,745, \$18,762; general fund, \$97,034, \$23,608; permanent improvements, \$3292, \$3068; interest and sinking fund, \$39,231, \$25,867; and mosquito control \$8502, \$17,427. Total receipts for all funds, \$264,738, balances \$96,481.

Current tax collection history shows that the county may probably expect slightly more income than is anticipated in the budget, which is based on 90% collections. In 1956, collections amounted to 97.36%; in 1957, they were 97.67%; in 1958, the percentage was 98.11%; and in 1958 they reached a high of 98.51%.

Of \$400,000 in new courthouse bonds issued in 1955, \$100,000 has been paid.

From the \$1 per \$100 of assessed valuations, two cents goes to the jury fund; thirteen cents to road and bridge; fifteen cents to road and bridge special; forty cents to the general fund; a penny to permanent improvements; and five cents to mosquito control. The courthouse and jail sinking fund absorbs the other twenty-four cents.

The jury fund, with total available resources of \$9180 has been budgeted as follows:

Jury commissioners, \$30; grand jurors, \$300; petit jurors, \$1000; special venire, \$250; court reporter, \$942; bailiffs, \$80; administrative expense, \$20; board for jurors, \$100; district attorney's stenographer's salary, \$1260; county court jury commissioners, \$24; petit jurors, \$300; lunacy jurors, (Continued on page 8)

## Winners Announced On Fire Prevention Contest at Fulton

Blue ribbons were awarded the winners of the Fire Prevention Poster Contest at the George Fulton Elementary School this week. Winners were First Grade, Richard West; Second Grade, Mary Louise Smith; Third Grade, Sylvia Shults; Fourth Grade, Mary Ellen McHugh; Fifth Grade, Tommy Dawson; and Sixth Grade, Patrick West. Prize winning posters are on display at the school. Other posters on fire prevention are being displayed with the merchants of the Fulton area.

The Fulton Fire Department put on a demonstration at the school last Friday showing how a gas fire can be extinguished with a CO2 extinguisher, water, and kitchen flour. Following the demonstration the children had an opportunity to climb on the fire trucks and blow the sirens.

## Richard Elected President Live Oak Country Club

J. G. Richards, Aransas Pass newspaper publisher, was elected president of Live Oak Country Club at a special directors' dinner meeting held at Little Bob's in Aransas Pass Tuesday night.

Richards replaces retiring president Dr. Neil Kirkham who served last year.

John Meredith, E. C. Peterson and Red Garrett were elected as new directors in a recent election to replace retiring directors Ernie Falgout, Charlie Marshall and Dr. Neil Kirkham. Holdover directors are: Ed Barnard, Roy V. Rogero, Warren Howery, Cecil Miller, Hayden Elsberry and J. G. Richards.

Other officers elected at Tuesday meeting were: E. C. Peterson, vice-president, and Warren Howery, secretary-treasurer.

NOT HIS DAY—Robert Burns, 39, was seriously injured when his motor scooter overturned on the Bayshore Freeway, San Francisco, Calif. Adding insult to injuries, the bottom dropped out of the stretcher as police carried him from the scene.

## Game Violators Now to Be Tried In County Court

All future game violation cases, involving the forfeiture of hunting or fishing licenses, will be filed in county court.

The higher courts have held that a justice of the peace is without jurisdiction to try prosecution where in money penalty and option or forfeiture of license are both involved. Accordingly, instructions have gone out to all wardens to take these cases to county court.

Cases still may be filed in justice court where no license is involved, such as an arrest for fishing with a rod and reel in a home county without a license.

Several counties in Texas already have been filing cases under county court law.

## CHAMBER OF COMMERCE MEETING ROUTINE

The Rockport Chamber of Commerce directors, at their regular meeting Tuesday night, transacted largely routine business. Reports were made by Mrs. Juergens on several Chamber activities and directors discussed zoning and the financial report briefly before adjourning.

## WOMAN'S CLUB TO HAVE MUSICAL PROGRAM

There will be a meeting of the Aransas County Woman's Club on next Tuesday, October 13, when entertainment will be furnished by two local accordion virtuosos, the Misses Georgie Kresta and Janet Grant. Buddy Carroll, local pianist, will also present music on that instrument.

## FALL ACTIVITIES UNDER WAY AT ST. PETERS

St. Peters Church has its program of fall activities well under way, according to Mr. Harry Carter, lay minister.

Congregational choir practice has been resumed on Wednesdays at 7:30 p. m. and at 8:30 p. m. on the same night an informal prayer book study group will meet. Both of these are held in the Parish House adjacent to the church, and are open to the public.

The Bishops Committee will meet at the rectory at 7:30 p. m. October 8, Mr. Carter said. He will act as moderator of the meeting.

## SINGING CONVENTION TO MEET SUNDAY

The Aransas County Singing Convention will meet at the Assembly of God Church on Sunday afternoon, October 11, from 2:30 to 4:30 o'clock. All those interested in old-time hymn singing are invited to attend.

## SPORTSMEN'S ASSOCIATION TO HOLD MEETING OCT. 13

There will be a meeting of the Rockport Sportsmen's Conservation Association on Tuesday, October 13, at 8 p. m. in the Woman's Club building.

Guest speaker will be Dr. Howard T. Odem, director of the Institute of Marine Science, which is a branch of the University of Texas. He will speak on "The Principles of Marine Conservation." The public is urged to attend.

## BANK WILL CLOSE MONDAY

The bank will be closed Monday, October 12.

## State Boat Registration Starts; First License Out

Austin—Texas boat dealers were urged to get in line now for the licenses required under the new motorboat registration law.

The state highway department issued the first licenses, to an Austin dealer, Bill Gaston Boats and Motors.

Individual boat registration starts about Nov. 1, said state Highway Engineer D. C. Greer. His department was designated to administer the new law on licenses.

Greer gave this explanation of the process which will be followed:

"By applying for the dealer's license now, Texans in the boat-selling business will have ample time to get their facsimile cardboard tags printed. Dealers should apply to the motor vehicle division, Texas highway department, Austin, for a certificate of number, which is the boat dealer's license number.

"The double A suffix to the license signifies that it is a dealer's license. He can use this number on all of his boats, printing a cardboard facsimile of the number which will be good for 10 days after the boat is purchased. The individual boat owner applies for registration during this 10-day period.

"We are using the same process we have used for car registration. When an individual purchases a boat after Nov. 1, he can get a registration blank from the dealer. The owner then mails the application, along with proof of ownership and certified check or money order, direct to the motor department, Austin.

"He will then receive his own specific license number to paint on or attach to his boat. There will be no actual license plate issued. The owner is responsible for seeing that his boat carries the license number on both sides of the bow. On all boats under 26 ft. in length, each digit and letter must be a minimum of three inches high. Longer boats require four-inch-high letters."

Registration of more than 212,000 individually owned boats is expected.

## NEW LAW REQUIRES CERTIFICATE OF TITLE ON TRAILERS, SEMI-TRAILERS

A new law requires that owners of trailers and semi-trailers obtain certificates of title covering same, unless 4000 pounds or under. Mr. A. C. Shivers, County Tax Assessor-Collector, urges each owner to apply for titles NOW. Certain evidence of ownership and serial number requirements will be impossible to handle during the rush period of re-registration time.

Full information can be obtained from the Aransas County Tax office.

## DEN MOTHERS NEEDED HERE BY CUB SCOUTS

An appeal for Cub Scout den mothers has been issued by Cub Master Philip Baldwin and Den Mother, Mrs. C. C. Crabb, who say that they have only three den mothers to handle about a hundred boys. A meeting on the problem has been scheduled for next Tuesday night, October 13, at the Baldwin home in Little Bay Shore, or those interested can contact Mrs. Crabb at SO 4-2860.

## B&PW Club to Observe Business Women's Week

"A Right Turn to a Confident Future" will be the theme of the annual National Business Women's Week to be celebrated Oct. 4-10 by members of Business and Professional Women's Clubs in all 50 states. The theme of the National Week was chosen to demonstrate the group's confidence in meeting the challenges presented by changes in every phase of modern living, including threats of nuclear war and promises of travel to outer space.

The purpose of National Business Women's Week is to direct attention to the role of women who work in the economic, cultural and community life of the nation. When the National Federation first established this celebration, all the major fields in which women worked could easily be listed on one sheet of paper. That was just thirty-one years ago. Today every field of endeavor is open to women. The full flowering of the technical age clearly demands the skills and talents of every American, regardless of sex.

The local chapter of Business and Professional Women was organized April 6, 1953, with 19 charter members with Miss Iris Sorenson acting as president. Since that time the club has progressed and contributes to community welfare. Each year the club provides a student grant which goes to a worthy Rockport High School girl senior for career advancement. One of the club's major contributions is the annual "March of Dimes" covered dish supper.

The B&PW Club works to elevate the standards of women through education, industrial and vocational activity. The club is a leader in securing legislation in the interests of women.

## LAYMAN'S DAY TO BE OBSERVED AT FULTON BAPTIST

Layman's day will be observed in the First Baptist Church at Fulton on Sunday, October 11, with the featured speaker being Charles Marshall, of the Cagle-Marshall Funeral Home, Rockport.

The public is urged to hear Marshall speak. He will talk on the layman's responsibility to the church and to the work of carrying the gospel.

## 813th Squadron Takes Part in Fire Prevention Week

Rockport Air Force Station is observing Fire Prevention Week from October 4 to 10, in accordance with the proclamation issued by President Eisenhower. The week's activities began last Friday with station personnel taking part in a Fire Prevention Poster contest. Tuesday afternoon the Fulton Volunteer Fire Department, under direction of Fire Chief Raymond Owens, held a demonstration of their fire fighting equipment. Other lectures and demonstrations are scheduled.

## ROCKPORT P-TA BOARD MEETING TO BE HELD

There will be a meeting of the executive board of the Rockport Parent-Teacher Association on Tuesday, October 13, at 7:30 p. m. at the home of Mrs. C. E. Nickerson.

## Badgers Promise Tough Game This Week

Fresh from a 70-0 victory over Calallen last Friday night, the Aransas County High School Pirates will go up against a lot stiffer opposition this week, when they travel to Bishop to tangle with the redoubtable Badgers.

Advance reports from coaches of other teams that have scouted the school which has produced such fine football players as Ronnie Bull and others, say that the Bishop line is tough and fast; that they have a good passer in Gordon Box; a good end in Sidney Donaldson, and a better back than Bull in Glen Carr.

Bishop ranks fourth in the State in Class A, and has scored 171 points in five games this year against their opponents' 31.

Coach Borchert says the Pirates are in good shape, and that he has been concentrating on defense this week.

## Judge Appoints Local Men To Water Committee

At a meeting of some fifty officials from twenty towns and subdivisions of the Coastal Bend held in Alice Monday, it was agreed to appoint an interim committee for a water authority contemplating use of surface water and runoff now wasted in a five-county area.

Judges Wash Storm, Jr., of Jim Wells County, B. A. Brown, of Kleberg County, and William Nicholas, of San Patricio, agreed to appoint four men each within the next few days.

Judge Noah Kennedy, of Nueces County, sent a letter expressing his deep interest and Judge John D. Wendell of Aransas County on Tuesday appointed Harold Pictou, James A. Jarboe, Jack McCready and J. L. Baughman as committee-men from Aransas County.

The City of Alice initiated the program, which, if put into effect, will cost between \$40,000,000 and \$50,000,000, and which is designed to meet the region's water needs until 1995.

The meeting was conducted by a panel consisting of Alice Mayor Cecil Carlile, chairman, Alice city attorney Davis Gross, Mason G. Lockwood, president of the Houston Chamber of Commerce and head of the firm of Lockwood, Andrews and Newnam, which made the original study; C. R. Marks, hydraulics engineer for the firm; and Wallace Payne, of San Antonio, president of The First of Texas Company, financial advisers for the proposed water development program.

Lockwood spoke briefly, pointing out that all over Texas, sooner or later, every drop of water from small creeks must be saved. After he had given a brief resume of what the plan's possibilities were, City Attorney Gross suggested that a temporary regional committee be formed, and that public hearings be held in the interested counties. From these, he said, a provisional group of directors should be elected, to draft needed legislation and to secure passage of an enabling act.

Payne discussed the financial set-up of the plan, and then Chairman Carlile asked for expressions of opinion from the listeners and for representatives present to assist in forming this committee.

After county judges Brown, Nicholas, and Stone had signified that they would appoint four members each, a tentative schedule was set.

An organizational board meeting will be held as soon as Mayor Carlile is notified of the committee members' appointment; public meetings will be held in the interested counties in November, with a final one in Alice on November 30. The first Board meeting to study a draft of the enabling act has been tentatively set for January 18, 1960.

As envisioned, the plan would entail building of dams, canals and pipelines.

The engineers have recommended that Alice and possibly Kingsville begin the project immediately, with construction of earthen dam reservoirs on San Fernando and Esccondido Creeks. Next would be a diversion dam across the Nueces near Bluntzer and a storage reservoir.

Another storage dam near Agua Dulce and a distribution system of canals and pipelines would deliver water to Alice, Agua Dulce, San Diego, Robstown, Driscoll, Bishop and Kingsville.

Also suggested were dams across (Continued on page 8)

### Aransas County High Skins Calallen Wildcats

In a game where they scored ten touchdowns and ten points after, for a 70-0 score, the Aransas County Pirates skinned the Calallen Wildcats Thursday night, and tacked their pelt to the door of the field house.

Happner had a field day, with touchdowns coming at the end of runs of 17, 47, and 94 yards from the line of scrimmage, and 59 yards on a pass interception, and then to top it off, added a couple of points after touchdowns.

But there was glory enough for all the Pirates.

Warden scored around end.

David Pena scored a TD after an eighteen-yard run set up by Warden's key block and then raked up another two points when he took Mike Johnson's handoff and went over after a touchdown.

Carl Snyder, hard-working end, kicked three points after touchdown, and played a whale of a defensive and offensive game all evening, and so did Monte Rou-

quette, on the other end of the line.

Dale Barnard made a touchdown, going over center for the necessary yardage, adding this to the two points he made earlier when he bulled his way through the line after Happner's fourth score of the evening; Robert Ayers made six points when he went over center for six inches, and Tommy McCabe kicked that point.

Kelly Huff plowed through center for two yards and paydirt and Jo May made the last score of the evening when he made the necessary three yards.

On the line, McCabe, Gardner, Preidon, Weatherly, Clark, and all the other linemen turned in a sparkling game, and apparently hardly anyone in the Pirate lineup could do anything wrong.

And the Calallen boys tried, but the loss of five starters, one of them just before the game, made it tough on the Wildcats and it just wasn't their night.

Warden kicked off to the twelve and Emmet York ran it back to the seventeen, to get the game under way. Mata failed to gain; then he made a yard before McCabe and Weatherly smeared him; then Stone heaved one to Jones on the Wildcat 33, where pass interference was called against the Pirates, giving the

Calallen boys an automatic first down.

Sanford made a yard; Stone failed to gain when he was smeared by most of the Pirate line; Stone to York was incomplete and then Jones kicked to the Wildcat 45.

Hayes to Rouquette on an end around play for the ball on the 38 for 7 yards, and the Pirates declined a five-yard penalty against Calallen for offside. Warden raced around his own right end for fifteen and a first down.

Happner went five yards, starting at the Wildcat 22, and then on a pitch out from Warden rambled through for seventeen and the first touchdown, with Carl Snyder kicking the point.

Warden kicked off to the Wildcat 13, but the ball was called back because it was kicked out of bounds, and kicked over, winding up on the Wildcat 20 yards. Emmet York ran it back to the Wildcat 43, and then Clyde Stone's pass was intercepted by Warden, who ran it back 20 yards to the Wildcat 22. Happner lost eight; Warden to Rouquette netted 13; then a handoff to Happner put the ball on the eight-yard line. Then Warden went around left end for the second touchdown, and Snyder kicked the extra point.

Warden kicked off to the Wildcat fifteen and Selcer ran the ball back to the Wildcat 35. Stone to Mata made a yard; Bullock made six; Stone made nothing; and Jones kicked to the Pirate 41. A handoff to Pena netted 3; Warden's pitchout to Happner made 22; and a penalty put the ball on the Wildcat 17. From there, David Pena, behind Warden's key block, rambled 18 yards for the

touchdown and Snyder kicked the point.

Warden kicked off to the Wildcat 32. Two passes by the Wildcats went incomplete; Stone fumbled and recovered, and then kicked to the Wildcat 45. Pena made 4; Happner made 9; then Warden bootlegged it for 11; and Rouquette, on the end around made 13 more. But this was recalled to the 24 on a clipping penalty. Two passes went incomplete, Warden to Barnard netted nineteen, only to be called back on a clipping penalty, and then, on a hand off, Happner fumbled and lost 14 yards, with the Wildcats recovering kick, five plays later.

Warden, who played a whale of a game all night, took the ball on his own seven and ran it back for 20 yards, but the Pirates were penalized fifteen yards for unsportsmanlike conduct. Warden made 8, then Happner made 47 for a TD, and added two more points after touchdown.

Happner kicked off. Bullock ran it back 14. Mata made three, then Stone's pass was intercepted by McCabe on the 47, but a personal foul against the Pirates gave the ball to the Wildcats.

They failed to gain and kicked; then Barnard made a yard before Happner took it on his own six and raced 94 yards. Barnard went through center for two points.

Happner kicked off, and the Wildcats made eight on two plays before they fumbled and the Pirates recovered. Mays made a yard, then Mike Johnson tossed one to Snyder for 28 yards. The Pirates shoved the ball to the one-foot line, and the Wildcats took over

on downs, only to fumble, and Rouquette recovered. Barnard made the touchdown. No PAT. The half ended four plays later.

Donald Selcer kicked off at the beginning of the second half and it was taken by Happner on the Pirates 27. Happner made no gain and the ball was called back and the Pirates penalized five yards for illegal procedure. Warden fumbled and, although he recovered, lost six. Warden to Rouquette was incomplete, then Happner went around right end for four. Snyder punted.

Keith Sanford was smeared on the Wildcat 41 by Rouquette. Spoess made two; Stone lost 3; and then a pass, Stone to York made 11 and a first down.

Spoess made one and was smeared by McCabe, Rouquette and Snyder. On the next play Stone's pass was intercepted by Happner, who galloped 59 yards for the TD, and Johnson handed off to Pena for the two points afterwards.

Warden kicked off; Bullock ran it back from the fifteen to the 49. Spoess, trying around end, was smeared; Appleby made four; Stone, with no receiver open, ran and made five. Then Stone punted.

On the first play, Ayers got loose for 21 yards. Then Kelly Huff made 12 yards. Jo May went over left guard for eight and Huff added five more.

With the ball on the Wildcat 19, the Pirates were offside, and red flags flew all over the place. Ayers made a couple, then a penalty against the Wildcats advanced the ball to their 10 on a personal foul, and May made 7 immediately after. In two plays Ayers made

the TD. McCabe kicked the point after.

Warden kicked and the Wildcats, after failing to gain in three plays, fumbled their kick, and were smeared on the Wildcat 31 by Rouquette.

May made 9½; Johnson made 7; Huff made 5; Ayers made 4; May made 4, and then, on the first play of the third quarter, Huff went two yards through center for the TD.

Warden kicked off, and on the first play, Bullock carried for no yardage. Mata couldn't gain; Stone to Jones netted 9½; and then Stone, on a quarterback sneak, made a yard. Mata was thrown for no gain by Rouquette. Stone to Sanford netted six; Mata didn't gain, and the Wildcats punted.

Jo May made 8; Ayers 3; the Wildcats were penalized five yards for offside; Johnson's pass to

Gardner was incomplete, and then May made the needed yardage.

Johnson to Mays to Ayers netted 17 yards; Mays made 5; Huff 4; Johnson 2; and then May went over for the tenth Pirate TD.

Rouquette kicked off. Wildcats failed to gain in two plays, then a penalty against the Pirates put the ball on the Pirate 45. Spoess made no gain, then a Wildcat pass was good for twelve. A jump pass netted four more; but when they tried it again, the Pirates intercepted and they took over on their own 27. Ayers made 1 and the game ended.

Victor Baldwin Dervage, son of Mr. and Mrs. A. F. Dervage of Fulton, has enrolled for the fall semester at the University of Corpus Christi. Dervage is a junior, majoring in business.

TEXAS CHAMPIONS OF FREEDOM

## MRS. SALLY SKULL

*Heroine of the War Between the States*

Sally Skull, born Sarah Newman, was good looking, a good cowhand, and she could shoot as straight with her left hand as her right. So she usually packed two six-shooters and sometimes used them. However, history records that all the men she killed really needed killing. In her prime during the Civil War, this remarkable Texan served her state and the Confederacy magnificently. She worked big crews of loyal cowboys, most of them of Mexican descent, on her ranches in Bee and Nueces counties. She had some big freight wagons. With these, Sally and her vaqueros hauled cotton to Mexico, where it brought high war-time prices. Then, she used her cotton money to buy munitions for the South and hauled them back to Texas. Danger and hardship that would have stopped most men couldn't even slow Sally down. And amazingly enough, with all her rough ways and rough tongue — her vocabulary was pungently uninhibited, it's said — Sally Skull's essential femininity was never obscured. She was a frontier party girl — liked to dress up and take in the gayest Mexican fandangoes, and she outlived three sturdy Texas husbands. Living the life she loved, Sally made it a good one.

Today Texans still demand and get their right to choose the way they want to live. In this vigorous and freedom-minded homeland — "Beer Belongs" and this is why the United States Brewers Foundation works constantly, in conjunction with brewers, wholesalers and retailers, to assure the sale of beer and ale under pleasant, orderly conditions. Believing that strict law enforcement serves the best interest of Texans, the Foundation stresses close cooperation with the Armed Forces, law enforcement and governing officials in its continuing Self-Regulation program.

**A HISTORY**  
of  
**Rockport, Fulton,  
St. Mary's, Lamar  
and El Copano**  
By  
**Mrs. Will W. Wood**

Joseph F. Smith began filing upon the Power and other lands in 1839; and county surveyor Collinsworth and his deputy, Willard Richardson, were kept busy for several years surveying the locations. Locations were filed on all of Power's holdings on the mainland and some of his holdings on the islands. Locations were also surveyed over the Jesusa de Leon and Juan Pobedando grants, as well as over a number of other colonial headrights. After Smith had commenced these locations many small fry followed suit until many of the "good old titles" were so plastered with junior surveys that the older grants were practically obliterated from the early county maps. General Dunlap even filed a locations on the four-league grant to the town of Refugio.

These locations resulted in protracted litigation, in the Republic, State and Federal courts, which did not end until near the outbreak of the Civil War. The litigation resulted in the courts declaring void all titles which Power and Hewetson or their transferees, had purchased direct from Coahuila and Texas, without the consent of the supreme executive. Thus the Power family lost even their historic home at Live Oak Point, where the empresario was buried. His remains were exhumed and removed to Refugio.

Although Joseph F. Smith was himself an attorney, and an able one, he took care to employ in his behalf some of the most eminent lawyers of his time. Among them were Alexander H. Phillips, Milford P. Norton, Abner S. Lipscomb, Ebenezer Allen and William G. Hale. On occasion, Smith represented himself. He was caustic in his comments and a stranger to diplomacy. In 1848 the Supreme Court struck his name from the roll of practicing attorneys because of a contemptuous brief in the Power cases. District Judge Norton attempted to re-instate him in 1849, but the practicing attorneys filed an information to

cancel the order. The Supreme Court upheld the attorneys. Finally Smith appealed to the Legislature and by Act of January 2, 1853, was reinstated as an attorney at law. Judge Lipscomb and his partner, Barry Gillespie, were employed by Smith in 1840, but Smith fell out with them, and they sued him for a fee of \$5,000.00.

His attorneys were Phillips and Norton of Galveston, Milford P. Norton came to Black Point in 1840 to represent him on the ground. Norton was accompanied by his beautiful and talented wife and his children. Judge Norton was a gentleman and a lawyer of the old school. The breaking of old titles did not appeal to his ideas of justice. When he returned to Refugio County to become a citizen in 1849, he became the champion of the colonists whose titles were still being assailed, and rendered signal service in their behalf. In Montgomery County Judge Norton met Archibald McNeill, who was a prominent citizen and office holder. McNeill's daughter married Alexander H. Phillips, and later the McNeill's and Judge Phillips settled at Lamar, in Refugio County.

Colonel Power, on his side, had such distinguished counsel as Judge James Webb, General Henry Stuart Foote, Henderson Yoakum, Thomas M. League, Robert Hughes, Robert J. Walker, Colonel Pryor Lea, Volney E. Howard, Governor Elisha M. Pease, Judge Naderson Hutchinsion.

Joseph F. Smith never doubted that he would prevail in the land litigation. So sure was he that in 1840, fifteen years before the title had been determined, he projected a seaport townsite at Black Point (site of present Bayside). It would seem that he had in the William Richardson Survey a tract of 2000 acres at Black Point, and on September 19, 1840, he agreed to convey to R. Armstrong an undivided one-fourth interest in this reserve. Armstrong agreed to make certain improvements, and Smith agreed, if he was unable to obtain patents to the land, to re-imburse Armstrong for the improvements. Armstrong was represented in the transaction by Willard Richardson. On May 8, 1841, Armstrong assigned his interest in the contract to Chief Justice Benjamin F. Neal.

At this point Peter Doren was the only person living at Black Point. About 1839 or 1840 he had built a rude home and fenced in 14 acres in connection therewith. These holdings became the nucleus of Major John H. Wood's famous

**Bonnie View Ranch.**

After his return from Mexico, Smith resumed where he had left off. On August 7, 1845, he entered into two contracts with General and Mrs. Williamson. One related to the procurements of patents under the 80 certificates, which have been referred to, and the other to the building of a town on Aransas (Copano Bay, on a survey in Smith's own name.

The agreement was that the townsite was to be wholly on lands owned by Smith, and it was contemplated that the town should be built at Black Point and bear the name of that place. The town was subsequently built about two miles farther up the bay, and was named St. Mary's of Aransas, later known simply as St. Mary's. Because of an error in the townsite from the Maxey on to one of Mrs. Richardson's surveys which resulted in litigation and the loss to Smith of his home, a fine three story affair, on a block found to be in the Williamson survey.

However, nothing was done in furtherance of this contract until the litigation with Power terminated in 1855.

**Texas Judges' Conference At San Angelo**

John H. Miller of Sinton and Joe Wade of Beeville, judges of the 36th and 156th Judicial Districts respectively, which include Aransas County, will attend the annual conference of Texas judges at San Angelo, Oct. 8-9.

They will join some 200 other members of the Texas State Bar's judicial section to study problems and matters of mutual interest to the judiciary. The two-day program will feature some 20 addresses and panel discussions by prominent Texas appellate and trial judges and attorneys. Judge Miller is a member of the section's executive committee.

Vincent O'Leary of Austin, director of parole supervision, Department of Pardons and Paroles, to the land, to re-imburse Armstrong for the improvements. Armstrong was represented in the transaction by Willard Richardson. On May 8, 1841, Armstrong assigned his interest in the contract to Chief Justice Benjamin F. Neal.

Headed by Chairman D. B. Wood, District Judge at Georgetown, the judicial section includes judges of the Supreme Court, Court of Criminal Appeals, courts of civil appeals, district courts and

county courts-at-law. Vice Chairman Ruel C. Walker, Associate Justice of the Supreme Court, is the conference program chairman.

**Junior Fire Marshals Taught to Act Quickly**

Courage and quick thinking have made heroes of many people—mostly adults. Through the years, however, youngsters have garnered an impressive share of the honors for knowing what to do in an emergency.

With National Fire Prevention Week slated Oct. 12-17, Carl Osborn, fire marshal, calls attention to some of the nation's Junior Fire Marshals who have distinguished themselves during recent months simply by remembering basic rules of fire safety.

The Junior Fire Marshal program is sponsored nationally by the Hartford Fire Insurance Co. and locally by the Rockport and Fulton Fire Departments, in cooperation with the city's elementary schools.

Through this public service program which was inaugurated in 1947, more than 30-million boys and girls ages 8-10 have been trained to recognize and beware of dangerous fire hazards. Each year there are millions more who qualify as Junior Fire Marshals.

Because these youngsters have learned how to put into practice what they have been taught in their school fire prevention activities, an impressive number have known what to do in an emergency and as a result averted major tragedies.

In the fall issue of the Junior Fire Marshal magazine an article "Junior Fire Marshals in Action" recounts several outstanding examples of their fast-thinking in fire emergencies. For several children these acts have won Hartford's coveted Junior Fire Marshal Gold Medal award.

The third, fourth and fifth grades will take part in the Junior Fire Marshal program during the week Oct. 12-17.

Mr. and Mrs. R. R. Brymer and son, Donald of Fort Worth, are house guests of Mr. and Mrs. O. W. Brymer. A quick trip to Turtle Bayou resulted in a small catch this morning.

### Events Announced For Scout Leaders

A schedule of events for leaders of the Mustang District was announced by District Leaders. First event on the schedule is a cub leader training event at the Portland school cafeteria on Thursday, October 8th, with an additional session to be held on Tuesday, October 13th. On Thursday, October 15 at the Sinton High School roundtables will be held for all leaders of Cub Scout Packs and Boy Scout Troops. All of the listed events are to begin at 7:30 p.m. Roundtables will be led by Ken Edwards, Cub leader Training Chairman of the District, and Joe Benson, Scout leader Training Chairman of the District. District leaders invited all leaders, committeemen and Den Mothers to attend the training sessions and the roundtables. A one day training conference for Boy Scout Troop Junior leaders will be held at the Alice High School in Alice with the conference starting at 9:00 a. m. and ending at 4:30 p. m. This is a session to which all elected boy leaders of Boy Scout troops are urged to attend. On October 20, Tuesday, the annual drive for funds to support the operations of the Gulf Coast Council will begin in communities where funds are not received from United Funds. Saturday, October 24, will be the date of the annual

Cub Pow Wow at Hanline Junior High in Corpus Christi. The informal training event for all Den Mothers, Cubmasters, Assistants and Committee will begin at 1:15 a. m. and run until 5:00 p. m. This event is the highlight of the cub leader training program in the council.

### SOCIAL SECURITY VISITS SCHEDULED

People in the Rockport area may see a traveling representative of the Social Security Administration at the Courthouse at 9:00 a. m., according to the following three months' schedule announced by H. M. Cleveland, Corpus Christi District Manager.

October 15 and 29; November 12 and 25; December 10 and 30.

The field representative will bring the same service to local residents that is available in the Social Security District Office. People will be assisted in applying for retirement, disability, and family insurance benefits. The representative will also answer questions concerning the social security program.

Although an appointment is not necessary, those who have one may save time. An appointment may be made by writing to the Social Security Administration, 530 South Water Street, Corpus Christi, Texas.

### Arthur Roberts In New Zealand

CHRISTCHURCH, N.Z.—Arthur L. Roberts, chief aviation storekeeper, son of Mr. and Mrs. Raymond A. Roberts of Rockport, Texas, serving with Air Development Squadron Six, arrived at Christchurch, N. Z., today after a four-day, 10,000-mile flight from Quonset Point, R. I.

Christchurch is the major staging area for planes of Air Development Squadron Six flying to the Antarctic.

The first scheduled aircraft to leave Christchurch for McMurdo Sound, Antarctica, 2100 miles south, left the first week in October. Its landing field is an airstrip carved out of sea ice.

On the continent members of the squadron will assist in the support of scientific studies conducted by the U. S. Antarctic Research Program (Deepfreeze 60), successor to the International Geophysical Year expeditions.

Major Richard N. Flaa, Commander of the 813th Aircraft Control and Warning Squadron, at Aransas County Airport, is attending the 33rd Air Division commanders' conference this week in Oklahoma City. At this conference, plans and problems that affect the 33rd Air Division as a whole will be discussed.

### A. L. Bracht Charter Member Intracoastal Canal Association

Two of the surviving charter members of the Intracoastal Canal Association, which held its 54th convention in Corpus Christi Sept. 27, live in this region, where the great inland waterway had its birth.

A. L. Bracht, a retired merchant who will be 87 on Oct. 25, was born in Rockport and has lived here most of his life; Joseph M. Pickering, 82, retired lumberman and civic leader, has his home in Victoria.

These two men and former Vice President John Nance Garner are believed to be the only survivors of the group that met in Victoria in 1905, at the behest of C. S. E. Holland, father of the Intracoastal Canal.

"That first year," Pickering said, "there was yellow fever in New Orleans, so the Louisiana boys couldn't get to Victoria, but the next year the meeting was over there, and a lot of them came."

But he didn't remember any Texans besides Garner, then a young Congressman.

"Fifty-four years is a long time," he said.

But three other area men were appointed to the first executive committee—C. A. Summers of Cuero, Royal Givens of Corpus Christi and T. E. Mathis of Rockport, with H. H. Dickson from Houston, and a Galveston man, C. R. Kitchell.

Both Bracht and Pickering were almost constant attendants at the annual conventions.

"I haven't been so well recently," Bracht said, "so I don't go any more. We had a time getting started, but there has been a wonderful growth since. Houston didn't have any skyscrapers when the Intracoastal Canal began. Things have sure changed since then."

Pickering attended the Corpus Christi meeting, but did not go by boat as has been his custom in the past, even to points as far away as New Orleans and Brownsville.

"For 20 years before he died five years ago, Lloyd Stevens and I went to practically every one on my boat," Pickering said.

The Victoria man was honored this year by the Corps of Engineers, U. S. Army, "for his outstanding services rendered to the Corps in the planning, development and construction of the Texas portion of the Gulf Intracoastal Waterway."

He remembers the first abortive attempts to connect Victoria with the Intracoastal Canal.

"They built a combination bucket dredge and snag boat," Pickering said, "and started just below the bridge in Victoria to dredge and clean out a channel. They did fine until they started a six foot channel out into San Antonio Bay from the mouth of the Guadalupe."

"All the snags were cleared away and the channel dredged, and then a flood came, and the Guadalupe

was covered with a solid raft of driftwood for miles above its mouth.

"But it won't be long now," he continued, referring to the channel now under construction that will give Victoria its long-awaited water transport, thus fulfilling the dream cherished for years by Holland, who started the whole thing.

"It was all Holland at first," Pickering said, speaking of the Victoria banker who spent most of his life fighting for a cheap way to carry the Gulf Coast's raw materials north in return for needed manufactured goods.

Forming the Intracoastal Canal Association with another hard-driving business man, Roy Miller, Holland badgered a reluctant Congress into giving funds for over 40 years, first for a short, 53-mile strip in Louisiana, barely 40 feet wide and five feet deep, and later for a canal nine feet deep extending into Texas.

Now the waterway is 125 feet wide for most of its length and 12 feet deep and at least 500 companies, among which are Reynolds Metals, Alcoa, Monsanto and Dow Chemical, have built plants and warehouses along its banks, while thousands of others use it for cheap transportation.

One enterprising Texan has a booming business, carrying truck trailers up and down the canal by barge; to compete with low-priced local brews, Schlitz of Milwaukee floats barge loads of beer—equivalent to 45 railroad cars—to Houston and points south, saving 40% in carrying costs.

Steel pipe for the oil industry, tin plate for cans, and all the multitudinous products of the manufacturing east are barged to Texas and Louisiana points, over the Intracoastal Canal, and the savings are so impressive that Union Carbide and Chemical has dredged a nine-mile cut from Long Mott to the waterway to ship goods from its polyethylene plant near Seadrift.

Biggest customer is the petroleum industry, which ships more than half of all the waterway's traffic in any normal year, when it may amount to more than 40 million tons of freight carried over some seven billion ton-miles annually, or more than either the great Panama or Kiel canals.

Estimates are that the surging chemical and petroleum chemical industries burgeoning along the canal banks will shoot up over 70% by 1960, and waterway promoters have big dreams for the future.

One of these is to extend it down the Mexican coast to Tampico and Vera Cruz, and another envisages a 160-mile cross-Florida cut connecting the Intracoastal with the Atlantic Inland Waterway, thus creating a sheltered, 2,500-mile passage from Mexico to Massachusetts.

But Pickering will settle for the Victoria-Guadalupe Canal to his home town.

"It's coming," he said.

### STATE DRAFT CALLS FOR 447 TEXANS

Austin — The state quota for Texas draft boards in November calls for 447 men, Colonel Morris S. Schwartz, state Selective Service director, announced Friday.

The November call is the state's share of a national quota of 9,000 men, all for the Army.

Colonel Schwartz also announced

that local boards will send around 2,100 men for pre-induction physical and mental examinations in November. These men return home after being examined at examining stations.

Local board quotas for November have been figured and were placed in the mail to local boards Thursday.

The November quota will be filled with men who are at least 22 years old on November 1, with the exception of volunteers or delinquents, who may be younger.

## There's Something About The HOME TEAM!

When the home team wins a victory, everyone is happy because everyone shares in the glory. It's the same with the hometown itself. When Rockport, your home community, prospers, you feel good because you know that some of that prosperity will rub right off on you!

That's one reason why more and more folks are buying in Rockport stores these days. Not only are these stores up-to-date in every way, with merchandising as modern as tomorrow—but people also know that their Rockport merchants are neighbors who help pay taxes that build and maintain schools, roads and other improvements. Rockport stores employ local people and these same people spend their earnings locally.

When you buy in Rockport you are starting in a chain reaction that helps make Rockport—and you—more prosperous. That's why it makes good sense to BOOST THE HOME TEAM!

We're a member of the Home Team, too! Avail yourself of the many services that we have to offer you.

### New Ford, Falcon Cars at Commercial Motors, Aransas Pass

According to Walter Boehnke, of the Commercial Motor Company, Aransas Pass, the 1960 Ford line includes 15 models that offer a total of six different roof lines. Included are the Fairlane, Fairlane 500, Galaxie, Starliner and Sunliner.

Many of these models will be on display at Commercial Motor Co. showroom Thursday, Oct. 8, and Boehnke invites the general public to drop in and see these beautiful new cars.

The Falcon, Ford's new economy car, also will be on display. It will have gasoline economy 50% better than the largest of the so-called "compact" cars of American manufacture, and 35% better than the smallest domestic car made by the same producer. By comparison, the Falcon has 35% more luggage space, 70% more windshield area and a full foot more of rear-seat width, Mr. Boehnke said. You'll find it in the showroom along with the other Ford cars for 1960.

Refreshments will be served.

### Plant Gulps 13 Million Gallons Sea Water Daily

An industry depending on sea water that might be an asset to Rockport is now operating at Pascagoula, Mississippi. The H. K. Porter Company is using salt water at the rate of 13,000,000 gallons daily in the manufacture of perlacase grain, used in making of refractory brick and, as far as is known, needs little fresh water for its operation.

The S. S. Mallory Lykes recently loaded 1,500 tons of the perlacase grain for shipment to Japan. It was the first such shipment of this commodity to move through the port of Mobile.

Perlacase grain is made from magnesia which is derived from sea water. The sea water is pumped into huge vats at the Porter Company where it is mixed with chemicals. The finished product is then used to make firebrick, a brick which can withstand unusually high temperatures.

### New Dodge, Dart Go On Display Here Tomorrow

The new Dodge, and the Dodge Dart will go on display here at the Auto Service Company tomorrow morning, according to Red Harrist, who invites everyone to drop in, have a cup of coffee, and look around.

A completely new overhead-valve six-cylinder engine, the Economy Slant "6," makes its debut on Seneca and Pioneer models of the 1960 Dodge Dart.

A 318-cubic-inch Red Ram V-8 with a two-barrel carburetor is available on Pioneer and Seneca models, and with a four-barrel carburetor, it is the standard engine on Phoenix models.

A "D-500" Ram induction engine that harnesses the power of rushing air to provide increased power at medium speeds is option on the Phoenix.

Designed to fit the family pocketbook as well as the family garage, the Dart will be offered in 20 sedan, station wagon, hardtop and convertible models.

"These economy cars are designed to compete in price and size, series for series, with the automobile industry's low-priced big three," Harrist said. "The Dodge Dart makes it the 'big four' now."

The 1960 models will be available in three series—the lowest-priced Seneca, the Pioneer and the top-series Phoenix.

### MR. AND MRS. FAUCETT VISIT IN FORT WORTH

Mr. and Mrs. Boyd Faucett of Rattlesnake Point returned Wednesday from Fort Worth after visiting their daughter, Mrs. C. G. Roberts. While there they were compelled to leave their daughter's house with the rest of the family because of the high water getting into the Roberts home. They all waded water four feet deep to boats standing by evacuating the people. The water got up into the Faucetts' and Roberts' cars. However they were able to return to the house in four or five hours, the water receding quickly. The Faucetts are glad to get back to Rockport on dry ground.

Mr. and Mrs. Charles LaBounty and family left this week for Lampasas, where they will spend their vacation with his parents.
