

# THE JAYTON CHRONICLE

JAYTON, KENT COUNTY, TEXAS.

FRIDAY MARCH 22, 1935

NUMBER 12

## Jayton Winner In Interscholastic League Meet

## Dust Is Settled By Liberal Rainfall Thursday

### Would Pay State Officials Respectable Salary

Amendments to the State Constitution to be voted on at the general election in 1936 have been introduced in the State Senate by Hon. Joe Moore, proposing to pay the Governor of Texas a Salary of \$12,000, The Attorney General, \$10,000, the comptroller, the treasurer and the commissioner of the General Land office and the Secretary of State \$6,000.00, meets with our hearty approval. Admitting that considerable honor goes with each office, we have long since learned that one can not live on honor alone. If Texas is unable to pay her high officials for their time and talents, how can she expect to get men with the qualifications of real statesmen to guide our ship of State. At the present we pay our Governor approximately \$10 per day which is less than union labor is now demanding and getting for a 36 hour week in the manufacturing centers of the nation.

Our idea is to pay our State officials liberal salaries, and then if one is caught grafting give him the hot seat. We are for the proposed amendments and believe every sane sensible thinking voter in the state will vote to approve them. This thing of clothing a man with honor and forcing him to go half fed and half clothed or graft on the public; peddle pardons or sell political patronage, is darn poor business, to say the least of it.

### HALF INCH OR MORE RAINFALL HERE THURSDAY

Following an entire week of almost intolerable dust that extended from the ground up as far as the eye could see and then come, not sand but just old fine dirty suffocating dust, Tuesday morning between the hour of eight and nine o'clock, came a sudden down pour of rain that lasted long enough to settle the dust and wash away a weeks accumulation of dirt and leave the earth looking clean and green and healthful. The rain did not cover a very large territory but seemed to center in and around Jayton. Did it help? Well it put smiles on the faces of lots of folks and courage in the hearts of those who were getting downhearted and blue.

If the week of dust storms caused the rain then we are thankful for the dust, but if not we hope that in the future Kansas will keep our part of the dirt and leave us with our own sandstorms which we have learned to take as a matter of the bitter with the sweet.

Again Thursday evening the town of Jayton and surrounding territory fell heir to another shower. Every little bit helps and we were glad to see this moisture come when it did.

### GOVERNOR ALLRED AND RANGERS BEGIN CLEAN-UP

After giving the criminal element of Texas fair warning and local officers timely notice, which was ignored in many ways, Governor Allred turned the rangers loose last week in a state wide clean-up campaign. In Austin, San Antonio, Galveston, Fort Worth, Houston, Amarillo and other places, the rangers struck, arresting law violators, wrecking gambling devices, smashing and confiscating liquor supplies and putting the fear of the law into many. In some small places the local officials did not wait for the rangers but done their own cleaning up. The governor plainly states that if the local officers will not do their sworn duty, he will send the rangers in to do it for them, and further more will take proper steps to see that local officers who failed or refuse to act are removed from office. We wish for the governor success in his undertaking as we believe the laws of the state should be enforced or repealed.

The state of Texas can't afford to have the reputation of being a land where the criminal element may laugh at organized government and sneeringly defy law enforcement officers.

### Staggering Cost Of Relief In Texas Funds Depleted

Austin, Texas, March 20, State Relief Director Adam R. Johnson, forced to carry on relief work this month under a curtailed budget, appealed to county officials to "do the best you can with what you have."

The state director and members of the State Board of Control have been harassed by delegations and telephone and telegraph messages from city and county relief officials seeking more relief funds.

"We haven't got any more money," said Johnson. "On the basis of this months allotment, we still owe the counties approximately \$2,300,000. State funds made available by the Legislature amounting to \$750,000 became available today and federal officials wired us they will forward \$750,000 for general relief for the last half of March as they promised previously to do.

"In addition to this, we have left in the bank approximately \$368,000 of federal and state general relief funds. All of this adds us to \$1,868,000, or nearly half million less than we need to supply relief requirements."

Johnson said it might be necessary to transfer balances from more fortunate counties to those in dire need, and that in any event, "we will have to drain the till" to make ends meet.

Future allotments he said, depend upon the fate of the relief bill now in the national congress. Until the federal emergency relief administration receives a new appropriation, its funds are being supplied to a limited extent from the public works administration.

State funds also have been materially reduced, the final \$3,500,000 of state bond money to be made available \$750,000 in March and April, \$400,000 for each succeeding month thru November; \$700,000 in December.

We realize the counties are disturbed about the amount of relief funds they are receiving, but we are turning over every dime to them as fast as it comes to us," Mr. Johnson stated.

Counties were requested NOT to send delegations to Austin seeking more funds and approval of work relief projects wherein the state is called upon to pay material costs.

"We just can't pay out any money for materials at this time," Mr. Johnson said.

### Jayton High School Wins County Meet

The Jayton school took the all-round championship Class B High school trophy cup and the all-round championship ward school banner in the Interscholastic League meet held in Clairmont last Friday and Saturday. Rising Star school won the all-round rural school championship cup.

Jayton High school scored a total of 192 points to win the all-round Class B championship, against the 87 points scored by the Girard High school. Jayton won first in the following events to win the meet: high school Senior girls declamation, high school senior boys declamation, high school junior boys declamation, high school junior girls declamation, essay writing, girls extemporaneous speech, high school track and field, high school girls playground ball, and all tennis events.

Girard high school won first in boys and girls debate, and in boys extemporaneous speech. Nearly all events were closely contested and the winner of the meet was not definitely decided until Jayton's victories in track and field Saturday afternoon and in the declamation Saturday night assured them first place.

The track and field events Saturday were hotly contested despite the inclement weather. Jayton high was first in senior division with 74 1-2 points against Girard's 62 1-2.

Rising Star school totaled 110 points to win the all round rural school championship. Rising Star entries took first in arithmetic, high school senior boys declamation, boys track and field, picture memory, sixth and seventh grade spelling, and a number of second places to win the title. "Hop" Worthen was an outstanding performer from the rural school, taking a number of first places in both athletic and literary events.

The ward school championship of Class B was more closely contested than the high school division. Jayton ward school was first with 120 points. Girard ward school score being 94. Jayton Ward School won first in the following events: Choral singing, ward school junior girls declamation, ward school junior boys declamation, junior boys track and field music memory, picture memory and fourth and fifth grade spelling.

Girard won first in arithmetic, essay writing, junior boys playground ball, sixth and seventh grade spelling and story telling.

### President Entertains New Congressmen

President Roosevelt entertained at the White House last week for the new Democratic members of the House of Representatives.

Congressman George Mahon was among the guests at the affair. He reported that Mr. Roosevelt seemed to be in excellent health. He also commented on the pleasing personality of the President.

### ROAD WORK IN DICKENS COUNTY UNDER WAY

Work on the last gap in Highway 18 began in Dickens County last week. The gap between Spur and the Kent county line.

Teams, stock wagons, tractors, graders, and etc. have been moved in and the road camp located about midway of the 12 mile project. We are happy to see this work getting under way and hope this county will soon complete arrangements to close the last unfinished gap in Kent which is between Jayton and the Dickens County line.

### \$300,000 FOR RURAL REHABILITATION

Austin, Texas, March 20. Checks for \$300,000 were sent to the rural rehabilitation program this week for the purchase of capital goods during March.

Rural department officials said livestock, including mules, chickens and cows; and farm equipment, including planters, cultivators, and plows will be bought at this time in order to provide for needs resulting from the approach of the planting season. Feed, seed, and fertilizer also come under the head of capital goods.

A limited amount of household goods for families without these necessities also will be furnished, rural official said.

### And Why Not?

Casting Director Proves He Knows His Stuff By Trying to Cast Countess as — Countess

A stately middle-aged woman was walking down a studio street past a wardrobe building where crowds of bit players and extras were lining up to be handed the costumes they were to wear in Edward Small's million dollar Reliance Production, "The Count of Monte Cristo."

She stopped for a moment to watch the milling throng as assistant directors designated types and handed out the costumes of a hundred years ago worn by the characters in Alexandre Dumas' classic.

"You'll do for a countess!" yelled a studio aide as he stepped over to her and tried to hand her an outfit.

"Sorry I'm not working in the picture; I'm just visiting the studio and happened to stop here, she explained.

She WOULD do for a countess, though; for that is the role she plays in real life, the Countess Zandrin-Landi, the mother of Elissa Landi, who shares Steller honors in the Picture The Count of Monte Cristo, with Robert Donat which is going to be presented at the Palace Theatre here in Jayton Saturday, night prevue, Sunday and Monday.

### Congressman Mahon Is On The Job

George Mahon, Congressman of the 19th District of Texas, spoke on the floor of Congress last week urging the immediate passage of a bill which was designed to make the Emergency Crop Loans available to farmers.

The bill calling for \$60,000,000 to be provided for emergency loans for the 1935 crop passed the house and the Senate several weeks ago. The lack of funds made an appropriation bill necessary. The deficiency appropriation bill which was considered last week contained the Crop Loan item. It did not have much opposition and was speedily passed by the House and sent to the Senate for its consideration.

In urging the immediate action on this problem, Mr. Mahon said in part: "The people have already waited a long time in some sections, and shortly it will be cotton planting time in my district. I know that this loan must be made immediately available to the people in my section if they are to make a crop. The terrible drouth here, brought on a critical condition. The sandstorms are racing across the areas of West Texas. The people are discouraged. Congress can not do a more meritorious thing than to immediately pass this measure. . . This appropriation will make it possible for a farmer to produce a crop in 1935 and feed his family and retain his confidence and self-respect. In many instances it will mean the difference between expensive relief rolls and profitable employment."

### Jayton School Wins Many Trophies

In the show window of Huls Drug is a display of the awards and trophies won by the Jayton school this year in the various athletic and literary events. It is a very attractive display and worth looking over. All of Jayton is proud of the showing the school has made this year. We feel that we are in a position to say that the town of Jayton is backing the school 100 per cent.

### For City Marshall Ford Agency

I take this method of informing the citizens of Jayton that I am a candidate for City Marshall. I know that all of you are well acquainted with me and know whether, I am qualified to serve you as you desire to be served or not. If you believe I will make you a good officer I earnestly solicit your support. If elected I will do my best to carry out the law as it should be carried out and make you a real City Marshall. Thanking you now for any favors shown me, I am

Sincerely Yours,  
Malcolm Hall.

### For Jayton MORE WORK ON HIGHWAY 18

Thursday's state papers carried the announcement of the call for bids on two more projects on highway Eighteen. The call was for bids on 12 miles of grading and drainage structures in Stonewall county between Aspermont and the Haskell county line and for three bridges in Dickens county between Spur and the Kent county line. It begins to look as if old highway 18 is to be completed before the good year of 1936 Centennial year in Texas.

### LOST STRAYED OR STOLEN: A nine month old Brown Jersey Heifer

Calif. Unbranded. Finder please notify Floy Barfoot, Jayton Texas.

Mr. and Mrs. Nolan Corder and family spent the week end visiting relatives here and at Gilpin, Texas.

Alice Wade was on the sick list Wednesday and Thursday of this week.

John Goodall, prominent citizen of Girard was a business visitor in Jayton Wednesday of this week.

Mrs. Will Featherstone and Mrs. Dan Roberts and children of Petersburg, Texas attended a birthday celebration honoring Grandpa Featherstone of Aspermont, Texas last Sunday. Enroute home they stopped in Jayton and visited with Mrs. Tom Holley.

### BY-NT - LINK COMPANY STONE MEETING

Managers of the various stores of Bryant-Link Company held a meeting at the store in Spur Tuesday night to discuss business methods. The meeting was started off with a delicious dinner in the basement and everybody was ready to talk business and not to emphasize troubles too much.

It is reported that some managers predicted a drouth for this year while others held out an optimistic attitude and said that rain will come in time to produce crops yet. All agreed that Bryant-Link Company should put forth every effort to serve the people with a high class line of merchandise and do all they can to make the people happy and feel that they get real bargains at all Bryant - Link stores.

Among those at the meeting were: W. F. Taylor of Rotan, Guy Speck of Post, Cecil Speck of Lamesa, Tom Johnston of Jayton, Tom Teague of Hanlin, Chesley Speck of Aspermont, J. C. Bryant, R. B. Bryant, Johnnie Bryant and J. A. Smith of Stamford, Earnest Weatherly of Snyder, T. C. Eusey, L. R. Barrett, Geo. Link, Sr., and Geo. Link Jr. of Spur.

### ARRESTED ON LIQUOR CHARGE

Last Saturday afternoon deputy sheriff Byrum Smith arrested two parties on a charge of violating the prohibition laws. This is the first arrests of this kind in Jayton for some time. We are informed that one of the two taken before the grand jury last Tuesday came clean and the other will be tried in the District Court next week.

It seems that Kansas has decided to settle in Texas as we have had two Kansas dust storms since the last publication of the Chronicle. Just when we were getting reconciled to sand storms, along comes these dusters and get us all cocufused. What has Texas ever done to Knasas to cause this dust migration anyway.

From all reports, Postmaster E. C. Wade has seriously taken up the game of golf and is taking lessons from the proficient experts at the game H. Kenady and John Fowler.

County attorney Adeock, accompanied by his wife and mother and County Judge J. B. Earnest made a trip to Lamesa, Thursday of this week.

**NEW TALKING MOTION PICTURE TO BE SHOWN**

Interesting new sound picture will show latest tractor developments. A new talking motion picture entitled "Partners" will provide a full hour of entertainment and education to farmers who attend John Deere Tractor Day, to be conducted by the Bryant Link Store, local farm equipment dealer, aided by representatives of the John Deere organization.

This picture which is being enthusiastically received by farmers in other localities, takes the audience into the huge John Deere Tractor Plant at Waterloo Iowa, and shows how tractors are built and tested.

From the factory, the cameraman takes the audience out into the field to see John Deere tractors at work.

Woven into the picture is a story of how a father and son became partners on the farm.

The meeting will be in session from 1:30 o'clock to 5:00 o'clock on Friday, March 29 in the Palace Theatre in Jayton, Texas.

"We invite every farmer in this section to be our guests and we particularly want the boys to come, too," says Mr. Thos. P. Johnston. "The program will be in charge of men who are thoroughly familiar with tractors. In plain understandable language and illustrations they will demonstrate the latest developments in tractors and the best ways to keep the farm tractor tuned up for greatest efficiency.

"We are planning to make this a sociable affair, but at the same time a very worthwhile affair to farmers and their families. We are counting on a big crowd coming in to enjoy the big day with us."

**BUD RUSSELL, TEXAS PENITENTIARY AGENT, CLAIMS HOMES SHAPES BOYS**

"Uncle" Bud Russell, chief penitentiary transfer agent for the state of Texas, passed this way Monday.

Uncle Bud is the man who has hauled on train or in his black Maria 100,000 prisoners, and who with six gun and Irish grit has overhauled and brought back to the walls of the above 4,000 escaped men. The world has no other man with such a record.

We thought Bud Russell would know more about criminality than its experts who read tons of literature and talk audiences to death.

Bud Russell knows law-breakers and how to handle them.

The prisoners like him too. Uncle Bud is to the Texas prison system the synonym for fearless and fair dealing. He looks bad men in the eye, gives them a square, stern deal and they respect him.

Russell, his son, and another assistant, Wm. Crane, former sheriff of Kaufman county, had just bedded down 24 prisoners gathered from various West Texas jails, in the Breckenridge bastle. For the most part they were young, immature boys. But boys can crack a safe, hijack a bank, squeeze the trigger of a machine gun, as the records of Barrow, Hamilton and others of their like, testify.

Barrow, incidentally, was handled by Uncle Bud when he was known to Central Texas as the "boy bandit." Russell has a way of showing a prisoner up to himself, a kind of genius for letting a bad chap see himself as "others see him." And it often works a cure on the ego of the culprit.

"I told Clyde Barrow when I first met him that a good razor strap applied plenty was what he needed instead of so much newspaper notoriety," said Russell reminiscently.

Joe Palmer late associate of Barrow in his forays and killings, and now in the Huastaville death house, says Barrow on his last raids in Missouri and Texas, spoke of Bud Russell and his advice, and agreed that at the right time a few swings of the parental strap might have cured him of banditry.

"What causes criminality, Uncle Bud?" repeating our question.

"Well, folks don't take time to raise their children, for one thing—just plain old neglect for the boy. That's one angle.

"Another is we can't keep the lads busy. I was raised on a Hill county farm where there was work to do, and plenty of it. But the rush to town has put one boy on the streets and no boy can roam the streets, stay out at night and the like, and be safe.

Bud Russell is a Texan. He stands square on his boot soles, looks at you with clear, honest eyes, and he looks at his work and his "boys" the same way.

"Boys who are brought up to hate authority, to see and hear tales where the outlaw is the hero, who are encouraged at home to ridicule the sacred things, these are the boys who furnish our army of criminals."

"Are the outlaw tribe fearless?" he was asked.

"Usually they are too selfish with their own hides and lives to be brave," says Bud Russell. "They are so selfish that they become desperate and therefore dangerous, he says. Killers without conscience.

Bud Russell is a straight thinking man. "The very business of outlawry makes cowards of men. A man can't be brave when he knows his business is bad, and that goes for men both in side and out side of prison."

Russell has handled Ray Hamilton numerous times and also guarded him thru the trial that brought him the death sentence, taking him to the death cell from which he later escaped. Without appearing contemptuous, boastful, Russell impresses one as seeing all criminals alike, none too big to be handled none too meek to take the wrong chances with. Russell's men have lost prisoners, some of these have been tied up, beaten, and nearly killed. But no prisoner has ever put a hand on Uncle Bud. And he has gone after them to the far corners, and brought them back in battalions.

Through the 31 years that he has been in the business he has handled the toughest hombres that have done their killings South and West and enough of them to make a large army. But so wary has he been, so ready to give every man a square deal or a quick "burning down" he has brought every man safe in port, except a Mexican youth who escaped him in Abilene, and was later caught. A record unequalled in the world's annals!

Why are our prisons filled with young men? First, says Russell and Crane, we are bringing up a race of youngsters in our cities who are too often under privileged and who have no reverence for authority. Another reason is that we have made prison terms so short so easy to evade by pardons and appeals, that the penitentiary has lost its terrors.

"Beating the rap" has become a game, say these experienced prison workers. Older convicts have managed to get the treasured pardon until now chiefly youths populate the prisons.

"Every prisoner I escort to the walls carries a pardon in his hip pocket" is the unique way in which Bud Russell says all prisoners, even life termers and death men, enter the gray walls expecting to regain freedom.

England and Canada have solved the crime problem by inflicting heavy penalties and permitting these penalties to stand. Sheriff Crane says if we were more business like in our punishment we would not have 73 percent of the American prisoners returning to prison for the second and third offences. Good horse sense.

Bud Russell is writing a book of memoirs dealing with crime. It ought to be grippingly interesting, and ripping with sound logic on the prison question.—Stephens County Sun.

**READ THE TELEPHONE POLES**

Our advise to the general public is "read the telephone poles." We accidentally looked one over the other day and learned that Jayton was going to hold a city election in April for the purpose of electing a Mayor several aldermen and a City Marshall. We know most people look in the local paper for such information, but in this day of new deals and progressive ideas, Spuey Longs, Raymond Hamiltons and Hitlers, things are different. Therefore its a good

idea to look for information of the way places, under old tin cans in out buildings you look close enough you find a gold mine of valuable information.

**ON TEXAS FARMS**

Miris Fisher Cunningham, Mrs. "Poultry pays" according to L. M. Davidson of Jefferson county who is food demonstrator for the LaBelle Home Demonstration Club. It does for her because she makes it by good management.

To begin with she traded a cow for a flock of 105. These she culled down to a flock of 70 hens which produce an average of 60 eggs per day.

She estimates that 18 of these eggs pay the feed cost per day, leaving three dozen and a half to sell at a profit.

Marketing is a part of the job of making a flock pay. Mrs. Davidson grades the eggs strictly and sells all that she has for sale either to passers by or at a special store in Port Arthur.

A flock of 200 white Leghorn hens has kept the credit of Mr. Boss Clark of the Religh community in Navarro county in A-1 condition all through these lean years according to his report to the county agricultural agent.

This poultry demonstrator grows all the feed for his flock and keeps up his foundation stock by hatching and raising baby chicks each year. Some months when eggs are low it is nip and tuck with the red ink he says. But there are enough good months to show a profit for the whole year every time.

Eleven poultry demonstrators in Wheeler county advise their agricultural agent that they have so managed their affairs that poultry and poultry products paid all February bills and running expenses.

C. J. Robinson and L. F. Wade had business in Spur Tuesday A. M.

Mr. and Mrs. J. B. Overton and C. Worthen visited Mrs. Worthen who is in the hospital in Lubbock this last week end.

The Australian flings his boom-erang far out into the air. It makes a circuit and falls at his feet again. So it is with the unkind word. At last it finds resting place in the heart of the sender.

God bless the girl who works! She is not too proud to earn her own living, nor ashamed to be caught at her daily task behind the counter or desk or sweatshop machine. She always greets you with a smile. There is a sweet memory in everything she touches. She is like the brave mountaineer already far up the precipice, climbing, struggling, rejoicing. The very sight is an inspiration. It is an honor to know this girl and to be worthy of her esteem. Lift your hat to her, young man, as she passes by. She is a queen in the realm of womanhood. She's a princess among toilers. Her hand may be stained by dishwashing, factory grease of printers ink, but it is an honest hand. It stays misfortune from the home; it supports an invalid loved one, maybe; it is a moving, potent shield that protects many a family from the wolf that sniffs at the door. All honor to the brave toiler; God bless the girl who works.

The whimpering of many lousey cur would be forever hushed if only a bone would be thrown his way.

To love one who deserves your love, and then cleave to your treasure is worth all the suffering possible to the human heart.

The shadow reports true of the substance. There is no doubtful foreshadowing of your inner self. The forces that have brought you thus far are not yet exhausted. Forget the past, turn your face toward the brighter day.

### BUSINESS BETTER NOW THAN LAST YEAR

Business is definitely better now than at this time last year. Practically every industry is increasing sales, earning moderately higher profits. Complete figures for January show that the index of industrial production was at the highest January level since 1930.

The fact remains, however, that in the view of many competent observers, fundamental conditions are unchanged, and that all that is keeping us going is government spending.

It is true that 10,000,000 men are out of work, are being supported by relief, about the same number that was unemployed two years ago, when the great recovery drive started. That is the most ominous fact the country faces now.

### MEMORIAL TO BE ERECTED IN DALLAS, TEXAS

Dallas, Texas March 20. (Special) All profits from the Texas Centennial exposition in Dallas in 1936 will be utilized to erect in this city a memorial commemorating one hundred years of progress in the Lone Star State.

Formal announcement to that effect has been made by directors of the Texas Centennial Commission, a corporation, to dispel any rumors that stockholders in the corporation might benefit from the exposition, the success of which they are patriotically endeavoring to assure not only for Dallas but in behalf of the entire Commonwealth. Any returns, after all expenses have been paid and all bondholders have been reimbursed, will be devoted to the erection of a memorial type to be determined by the presiding District Judge of Dallas County, it has been announced.

With the approval given plans for the exposition by the Dallas Park Board, the committee, officials of the exposition, at his office to join with the committee, and are advocates in making available their guns on Austin Relief get the Centennial bill enacted by the state funds have approved "in principle" to meet this for transform-

ing the State Fair grounds into an exposition site by expansion and improvement. Councilmen at once approved of the Board's recommendation. Settlement of technical details leading to condemnation of the additional land needed for the exposition, preparation of contracts between the Park Board, City of Dallas and the Central exposition organization will proceed rapidly.

Directors of the central exposition corporation have ratified the bond indenture, providing for the issuance of the \$2,000,000 corporate bonds, which at present are being disposed of, approved a tentative budget that must be submitted to the Federal authorities in registering the issue and provided payment of trustee fees to the First National Bank of Dallas. These fees will be merely the cost to the bank of handling the transaction.

Sale of these bonds is progressing rapidly, subscriptions having been received not only from Dallasites but from individuals and civic organizations of cities and communities outside of Dallas.

### NOBODY'S BUSINESS

By Julian Caspers Jr.

Austin—The legislature is enjoying a good laugh at the antics of representatives of an out of state concern which is attempting to suck into its channels literally thousands of advertising dollars that normally go to Texas newspapers and Texas printing establishments.

The company in question is one which is engaged in three enterprises, that are carefully linked together. They issue an annual edition of a book which purports to "rate" insurance companies, according to the "opinion" which this company forms of each insurance company's standing. An alphabetical designation is given of each company. An "A" company is supposed to be best, a "B" company good and etc.

The rating company then sells thousands of copies of the book each year to the insurance companies it rates. It also publishes an insurance periodical, in which it sells advertising space to the insurance companies, and sells rating charts which are a part of its "service."

Trouble with this system has developed in many states, and bills which would prohibit the out of state concerns from circulating alphabetical ratings are pending in a number of state legislatures at present, including one by Senator Holdbrook in the Texas legislature. In addition a number of companies, including many ranked "A" have notified the rating company that they do not wish to be included in the publication. These officials condemn the practice because they say many insurance firms are loath to refuse advertising to the rating concern because of the effect it might have on their rating.

But the real laugh comes in at the trick of the rating concern has adopted to fight the bill in the Texas legislature. Its representatives wrote a circular letter to the managing editors of many Texas newspapers telling them the bill "threatens the freedom of the press". The bill has nothing to do with the freedom of the press, but it does forbid issuing ratings with one hand and selling advertising with the other. Any rating concern would be allowed to issue ratings provided it did not sell advertising.

The freedom of the Press is too precious to be used for the purpose of cloaking polite pressure selling and it is doubtful that Texas Newspaper men will fall for such tactics. It is also probable the legislature will pass the bill prohibiting the selling of advertising in connection with ratings.

Anybody who sets himself up to "rate" banks according to his idea of their safety would quickly find himself into trouble with the State and Federal banking laws.

The race horse people are full of tricks. Perhaps that explains the race betting "compromis" which would leave the question of race betting to the various counties on a local option basis. Every lawyer in the legislature knows that such a statute would be unconstitutional, and that only way local option could be applied to horse racing would be by a constitutional amendment.

We are informed that Mrs. Tom Parker has traded for the Variety store located on the northeast corner of the square.

### School News

The county meet is over and we are proud of the showing we made last week at Claremont. All the students worked hard and we were successful in winning the meet. More detailed reports will be found elsewhere in the paper.

The senior and junior boys are playing baseball these days and we are going to have some good games before school is out. Loyal, Merle Douglass, Milton, Richard, Joe, C. B. and L. H. are eligible to go to the district in track so they practice a little each day in order to stay in condition for the meet.

**Things that might happen someday:**  
Fuzzy study his lesson just once.  
Buddy pass an English test.  
L. H. become a professional taxidemat.

Mary Louise be state champion in girls' singles in tennis.  
Coradine be an expert chauffeur.  
Pauline not talk so much.

W. J. get married to a French actress.  
Joe Paul and Avon be skinny.  
Alvin play basket ball.

#### SENIOR CLASS NEWS

The senior class has started working on the senior play. Next week we will announce the name of it, but we can promise you now that it is going to be a wow.

The class detective who keeps up with the senior class rings noticed this week that Douglas' ring is missing and with very little effort found that Annabelle was wearing it.

Mr. Coons our genial sponsor secretly asked us to mention his name in the news this week. He is so quiet, he rarely ever gets any publicity. He is so shy that it took him two weeks to muster up the courage to ask us to put his name in the news.

Mr. Lowrey said in chapel that it is about time for us seniors to start stepping out. We are going to step out that is if we have anything to step out to. Children of the depression do have a hard time.

Well well, well, folks here we are again with the life of another young West Texan—Merle Rose.

Merle first saw the light of day in Jayton the 31 day of December, 1917 and has lived in the same fair city ever since. He has turned out to be in 1935 just a large 18 year old blond headed blue eyed boy, who, even yet sometimes wonders what it is all about. But the good thing of it is he is determined to find out. He's curious, this boy of Mrs. Rose's curious about everything from what wooden heads are made of to where baby chicks come from.

We asked Merle what his childhood fear was. His eyes grew large and after looking scaredly around he replied in a shaky voice "I was always scared of clocks, and still am. If you will promise to keep it a secret I will let you in on something. You see when ever I get near a clock I always get scared and run; at home we can't keep a clock because it up sets my nerves, and as nothing else can induce me to run I am always late for school."

After hearing this sad story of a boy who has been unfairly teased because he is always late to school, Ye olde reporter was on the verge of tears, but managed to stave out of it with this question: "What is your philosophy of life?"

Merle shook his head and sadly replied, "I have never found out what life is yet but when I do I will let you know what I think of it."

Merle confidentially confided to me that his greatest weakness is carelessness and a "I don't give a hang attitude. But really folks we know that he gives a "hang" about aviation, for he told us himself that aviation is really all he does give a hang about. You've probably guessed that by now, Merle is going to be an aviator. How thrilling it will be some day to some girl when a tall handsome man swoops down from the clouds and carries her off for a mad flight thru the heavens. A hint Merle. Be sure to have a mustache.

A feeling of respect grew up in me for this person with such a high ambition and I asked, "Mr. Rose please tell me about your most embarrassing moment."

"My most embarrassing moment," he replied, "was when I dropped my fork at the Junior Senior Banquet last year."

#### MERLES VITAL STATISTICS

Favorite color:- Bright Red.  
Favorite food:- Marshmallows and bananas.  
Favorite Subject:- Chemistry and Math.  
Favorite Sport:- Hunting.  
Hobby:- Reading.  
Best Pals:- L. H. and Heber.

Next week an interesting interview with a senior girl.

#### THIRD GRADE Perfect Spellers

La Rue Robinson.  
Ruby Lee Taylor.

Prof. Lowrey, W. F. Gilbey, Joe Earnest, and Ross English made a business trip to Roscoe Thursday afternoon.

Don't get het up over Texas spending a few dollars on the Centennial. Out of the State visitors to this big exposition and celebration will spend enough money in Texas for gas and oil to finance the whole thing. Lots of folks get penny wise and pound foolish. Look to the future. Texas can afford to celebrate once in every hundred. Our friend Westfall is all right most of the time but this is one time when he is wrong. Texas can well afford to invest in a Centennial that will bring in millions of outside dollars and outside visitors, especially when she is spending all her money at home, not really spending it, but investing it. On with the Centennial and the future will it to be the best money Texans ever put out.

One week from today Bryant-Link Company will put on a big tractor show in Jayton and are inviting every man and boy as well as the ladies to come in and spend the day with them, see the free picture show and enjoy themselves.

J. C. Miller purchased a new Chevrolet pickup this week from Jay-Mason Chevrolet company.

Jay-Mason Chevrolet is the sale of a young expenses. George Branch the son and L. O. May in Spur Tuesday visiting relatives.

J. B. Overton and Mrs. Wort in Lubbock.

#### BAPTIST CHURCH NEWS

Our Sunday school is showing a good increase in attendance. The adult class has been divided and we hope to have a full attendance and a report of their organization next week.

Next Sunday morning the pastor will continue his series of sermons on what Baptist Believe by discussing "The final Perseverance of the Saints." There will be also some special music.

All departments of the B. T. S. will meet at 6:45 Sunday evening.

The subject for the evening service will be "Did Jonah Swallow the Whale?"

Monday afternoon the W. M. S. and Sunbeams will meet at the Baptist Church at 3:00 o'clock.

Plan to be with us at the Wednesday evening Bible Study hour when we will continue our discussion of 14 and 15 chapter of Genesis.

Our meeting will begin the first Sunday in April. Rev. Fred McPherson, pastor will do the preaching and Rev. Finis Williams of Peacock will have charge of the song service. Let us be much in prayer for a great revival in Jayton.

Mrs. Dick Jay is driving a new Plymouth, purchased from the Maye rAuto Service.

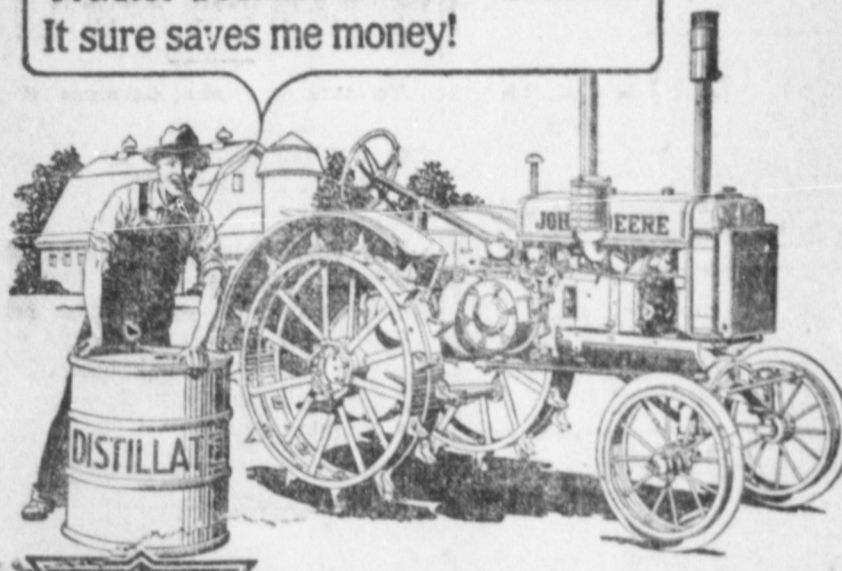

Mr. Bob Whitaker of Tokio came home Saturday for a short visit with his folks and to get Mrs. Whitaker who has been visiting here for the past week.

There is nothing that tones a fellow like restful companionship—with himself.

Time can never be the measure of a good thing. The coming ages will have a share in it.

**JIM THRIFT Says:**

I save \$1 to \$2 in fuel costs alone every day I use my new John Deere Tractor because it burns distillate. It sure saves me money!

You can't afford to pass up the savings a John Deere tractor will bring you. Come in and talk it over with us.

**Sold By Bryant Link Company**

# THE JAYTON CHRONICLE

JAYTON, KENT COUNTY, TEXAS,

FRIDAY MARCH 22, 1935

NUMBER 12

## Jayton Winner In Interscholastic League Meet

### Letter From Hon. Leonard Westfall

House of Representatives  
State of Texas, Austin  
March 19, 1935

Sir:  
I am glad to hear that I may not be misunderstood, and that my people may know how I stand on the Centennial appropriation. I am asking you to please publish this statement:  
I am heartily in favor of the appropriation at this time, but because of the fact that there is a dangerous precedent in the State Treasury, and more than twenty million dollars available to stage this celebration only against this appropriation.

Rural schools are asking for millions of dollars which they need to help put this bill through; but the Centennial Appropriation is a great deal more endearing as it will greatly endanger as to defeat the move on the part of rural schools for this much appropriation.

House succeeded in placing an amendment on the Centennial Bill that fifteen per cent of the receipts should be turned over to the treasury to pay off the debt. The Senate took the amendment off so when it comes to the House, there will be no provision for the payment of a large appropriation. This will meet serious objection of the House members, and give them a chance to defeat the measure than concur in the Senate amendment.

I want my people to speak up in certain terms and let me know what they wish at once, as I can use their voice in defeating the measure.

Sincerely,  
Leonard Westfall  
Rep. 118 District.

### Letter To The Editor

Abilene, Texas  
March 6th, '35.

Mr. Wade:  
You are right as to the Centennial Celebration. It will bring in thousands of visitors and dollars to us. We are now the great state and can be greater yet. This is our big opportunity. A dollar invested will bring a hundred fold return. Westfall is just

Your Friend,  
W. A. Bynum.

Refer to Representative's letter and our comment in last week's Chronicle. At date the lower house adopted an overwhelming majority a bill appropriating \$3,000,000 for the Centennial Celebration. The bill will probably be amended by the Senate and then become law and the State as a whole will part toward sharing in the celebration that will prove to be a great payer for ages to come.

### WHAT HAVE YOU?

"Not two bushels of potatoes," said the sides of bacon and three chickens and a rooster!" "Twenty dollar gold piece!" "Ducks of flour!" "Dollars and sixty cents!" "Eighty!"

Strange inventory comprises goods pooled by a group of men and women who, in the scene from King Vidor's "Daily Bread" released through Artists, at the Palace in Jayton next Thursday and lives together on one farm.

from all walks of life, a full collection of humans, a stirring drama of passion, romance, hate, conflict, and love, finding in Navally that is infallible. Morley and Tom Keene are the young pair around whom the farm revolves, and Pepper is cast as the blond who enters their potential and rips the boy and threatens the wife and the rest of the others.

## Dust Is Settled By Liberal Rainfall Thursday

### Would Pay State Officials Respectable Salary

Amendments to the State Constitution to be voted on at the general election in 1936 have been introduced in the State Senate by Hon. Joe Moore, proposing to pay the Governor of Texas a Salary of \$12,000, The Attorney General, \$10,000, the comptroller, the treasurer and the commissioner of the General Land office and the Secretary of State \$6,000.00, meets with our hearty approval. Admitting that considerable honor goes with each office, we have long since learned that one can not live on honor alone. If Texas is unable to pay her high officials for their time and talent, how can she expect to get men with the qualifications of real statesmen to guide our ship of State. At the present we pay our Governor approximately \$10 per day which is less than union labor is now demanding and getting for a 36 hour week in the manufacturing centers of the nation.

Our idea is to pay our State officials liberal salaries, and then if one is caught grafting give him the hot seat. We are for the proposed amendments and believe every sane sensible thinking voter in the state will vote to approve them. This thing of clothing a man with honor and forcing him to go half fed and half clothed or graft on the public, peddle pardons or sell political patronage, is darn poor business, to say the least of it.

### President Entertains New Congressmen

President Roosevelt entertained at the White House last week for the new Democratic members of the House of Representatives. Congressman George Mahon was among the guests at the affair. He reported that Mr. Roosevelt seemed to be in excellent health. He also commented on the pleasing personality of the President.

### And Why Not?

Casting Director Proves He Knows His Stuff By Trying to Cast Countess as — Countess

A stately middle-aged woman was walking down a studio street past a wardrobe building where crowds of bit players and extras were lining up to be handed the costumes they were to wear in Edward Small's million dollar Reliance Production, "The Count of Monte Christo."

"You'll do for a countess!" yelled a studio aide as she stepped over to her and tried to hand her an outfit. "Sorry I'm not working in the picture; I'm just visiting the studio and happened to stop here, she explained.

She WOULD do for a countess, though; for that is the role she plays in real life, the Countess Zandardin-Landi, the mother of Elissa Landi, who shares Steller honors in the Picture The Count of Monte Christo, with Robert Donat which is going to be presented at the Palace Theatre here in Jayton Saturday, night prevue, Sunday and Monday.

LOST STRAYED OR STOLEN: A nine month old Brown Jersey Heifer, Calif. Unbranded. Finder please notify Floy Barfoot, Jayton Texas.

Mr. and Mrs. Nolan Corder and family spent the week end visiting relatives here and at Gilpin, Texas.

Alice Wade was on the sick list Wednesday and Thursday of this week.

John Goodall, prominent citizen of Girard was a business visitor in Jayton Wednesday of this week.

### HALF INCH OR MORE RAINFALL HERE THURSDAY

Following an entire week of almost intolerable dust that extended from the ground up as far as the eye could see and then came, not sand but just old fine dirty suffocating dust, Tuesday morning between the hour of eight and nine o'clock, came a sudden down pour of rain that lasted long enough to settle the dust and wash away a weeks accumulation of dirt and leave the earth looking clean and green and healthful. The rain did not cover a very large territory but seemed to center in and around Jayton. Did it help? Well it put smiles on the faces of lots of folks and courage in the hearts of those who were getting downhearted and blue.

If the week of dust storms caused the rain then we are thankful for the dust, but if not we hope that in the future Kansas will keep our part of the dirt and leave us with our own sandstorms which we have learned to take as a matter of the bitter with the sweet.

Again Thursday evening the town of Jayton and surrounding territory fell heir to another shower. Every little bit helps and we were glad to see this moisture come when it did.

### ROAD WORK IN DICKENS COUNTY UNDER WAY

Work on the last gap in Highway 18 began in Dickens county this week. The gap being between Spur and the Kent county line.

Teams, stock wagons, tractors, graders, and etc. have been moved in and the road camp located about midway of the 12 mile project. We are happy to see this work getting under way and hope this county will soon complete arrangements to close the last unfinished gap in Kent which is between Jayton and the Dickens County line.

### Congressman Mahon Is On The Job

George Mahon, Congressman of the 19th District of Texas, spoke on the floor of Congress last week urging the immediate passage of a bill which was designed to make the Emergency Crop Loans available to farmers.

The bill calling for \$60,000,000 to be provided for emergency loans for the 1935 crop passed the house and the Senate several weeks ago. The lack of funds made an appropriation bill necessary. The deficiency appropriation bill which was considered last week contained the Crop Loan item. It did not have much opposition and was speedily passed by the House and sent to the Senate for its consideration.

In urging the immediate action on this problem, Mr. Mahon said in part "The people have already waited a long time in some sections, and shortly it will be cotton planting time in my district. I know that this loan must be made immediately available to the people in my section if they are to make a crop. The terrible drought has brought on a critical condition. The sandstorms are racing across the areas of West Texas. The people are discouraged. Congress can not do a more meritorious thing than to immediately pass this measure. . . This appropriation will make it possible for a farmer to produce a crop in 1935 and feed his family and retain his confidence and self-respect. In many instances it will mean the difference between expensive relief rolls and profitable employment."

Mrs. Will Featherstone and Mrs. Dan Roberts and children of Petersburg, Texas attended a birthday celebration honoring Grandpa Featherstone of Aspermont, Texas last Sunday. Enroute home they stopped in Jayton and visited with Mrs. Tom Holley.

### GOVERNOR ALLRED AND RANGERS BEGIN CLEAN-UP

After giving the criminal element of Texas fair warning and local officers timely notice, which was ignored in many ways, Governor Allred turned the rangers loose last week in a state wide clean-up campaign. In Austin, San Antonio, Galveston, Fort Worth, Houston, Amarillo and other places, the rangers struck, arresting law violators, wrecking gambling devices, smashing and confiscating liquor supplies and putting the fear of the law into many. In some small places the local officials did not wait for the rangers but done their own cleaning up. The governor plainly states that if the local officers will not do their sworn duty, he will send the rangers in to do it for them, and further more will take proper steps to see that local officers who failed or refuse to act are removed from office. We wish for the governor success in his undertaking as we believe the laws of the state should be enforced or repealed.

The state of Texas can't afford to have the reputation of being a land where the criminal element may laugh at organized government and brazenly defy law enforcement officers.

### \$600,000 FOR RURAL REHABILITATION

Austin, Texas, March 20. Checks totaling \$600,000 were being sent to counties in the rural rehabilitation program this week for the purchase of capital goods during March.

Rural department officials said livestock, including mules, chickens and cows; and farm equipment, including planters, cultivators, and plows will be bought at this time in order to provide for needs resulting from the approach of the planting season. Feed, seed, and fertilizer also come under the head of capital goods.

A limited amount of household goods for families without these necessities also will be furnished, rural official said.

### Jayton School Wins Many Trophies

In the show window of Huls Drug is a display of the awards and trophies won by the Jayton school this year in the various athletic and literary events. It is a very attractive display and worth looking over. All of Jayton is proud of the showing the school has made this year. We feel that we are in a position to say that the town of Jayton is backing the school 100 per cent.

### BRYANT - LINK COMPANY STORE MEETING

Managers of the various stores of Bryant-Link Company held a meeting at the store in Spur Tuesday night to discuss business methods. The meeting was started off with a delicious dinner in the basement and everybody was ready to talk business and not to emphasize troubles too much.

It is reported that some managers predicted a drought for this year while others held out an optimistic attitude and said that rain will come in time to produce crops yet. All agreed that Bryant-Link Company should put forth every effort to serve the people with a high class line of merchandise and do all they can to make the people happy and feel that they get real bargains at all Bryant - Link stores.

Among those at the meeting were: W. F. Taylor of Rotan, Guy Speck of Post, Cecil Speck of Lamesa, Tom Johnston of Jayton, Tom Teague of Hamlin, Chesley Speck of Aspermont, J. C. Bryant, R. B. Bryant, Johnnie Bryant and J. A. Smith of Stamford, Earnest Weatherby of Snyder, C. C. Ensey, L. R. Barrett, Geo. S. Link, Sr., and Geo. Link Jr. of Spur.

### Staggering Cost Of Relief In Texas Funds Depleted

Austin, Texas, March 20, State Relief Director Adam R. Johnson, forced to carry on relief work this month under a curtailed budget, appealed to county officials to "do the best you can with what you have."

The state director and members of the State Board of Control have been harrassed by delegations and telephone and telegraph messages from city and county relief officials seeking more relief funds.

"We haven't got any more money," said Johnson. "On the basis of this month's allotment, we still owe the counties approximately \$2,300,000. State funds made available by the Legislature amounting to \$750,000 became available today and federal officials wired us they will forward \$750,000 for general relief for the last half of March as they promised previously to do."

"In addition to this, we have left in the bank approximately \$368,000 of federal and state general relief funds. All of this adds up to \$1,868,000, or nearly half million less than we need to supply relief requirements."

Johnson said it might be necessary to transfer balances from more federal counties to those in the need. "What in any event, we will have to drain the till" to make ends meet. Future allotments by the federal government will be needed to carry out the relief bill now in the national congress. Until the federal emergency relief administration receives a new appropriation, its funds are being supplied to a limited extent from the public works administration.

State funds also have been materially reduced, the final \$3,500,000 of state bond money to be made available \$750,000 in March and April, \$400,000 for each succeeding month thru November; \$700,000 in December.

We realize the counties are disturbed about the amount of relief funds they are receiving, but we are turning over every dime to them as fast as it comes to us," Mr. Johnson stated.

Counties were requested NOT to send delegations to Austin seeking more funds and approval of work relief projects wherein the state is called upon to pay material costs.

"We just can't pay out any money for materials at this time," Mr. Johnson said.

### For City Marshall

I take this method of informing the citizens of Jayton that I am a candidate for City Marshall. I know that all of you are well acquainted with me and know whether I am qualified to serve you as you desire to be served or not. If you believe I will make you a good officer I earnestly solicit your support. If elected I will do my best to carry out the law as it should be carried out and make you a real City Marshall. Thanking you now for any favors shown me, I am Sincerely Yours, Malcolm Hall.

### ARRESTED ON LIQUOR CHARGE

Last Saturday afternoon deputy sheriff Byrum Smith arrested two parties on a charge of violating the prohibition laws. This is the first arrests of this kind in Jayton for some time. We are informed that one of the two taken before the grand jury last Tuesday came clean and the other will be tried in the District Court next week.

It seems that Kansas has decided to settle in Texas as we have had two Kansas dust storms since the last publication of the Chronicle. Just when we were getting reconciled to sand storms, along comes these dust storms and get us all confused. What has Texas ever done to Kansas to cause this dust migration anyway.

### Jayton High School Wins County Meet

The Jayton school took the all-round championship Class B High school trophy cup and the all-round championship ward school banner in the Interscholastic League meet held in Cleburne last Friday and Saturday. Rising Star school won the all-round rural school championship cup.

Jayton High school scored a total of 192 points to win the all-round Class B championship, against the 87 points scored by the Girard High school. Jayton won first in the following events to win the meet: high school Senior girls declamation, high school senior boys declamation, high school junior boys declamation, high school junior girls declamation, essay writing, girls extemporaneous speech, high school track and field, high school girls playground ball, and all tennis events.

Girard high school won first in boys and girls debate, and in boys extemporaneous speech. Nearly all events were closely contested and the winner of the meet was not definitely decided until Jayton's victories in track and field Saturday afternoon and in the declamation Saturday night assured them first place.

The track and field events Saturday were hotly contested despite the inclement weather. Jayton high was first in senior boys track with 74 1-2 points to win the all-round rural school championship. Rising Star school took first in arithmetic, high school senior boys declamation, Jun-boys track and field, picture memory, sixth and seventh grade spelling, and a number of second places to win the title. "Hop" Worthen was an outstanding performer from the rural school, taking a number of first places in both athletic and literary events.

The ward school championship of Class B was more closely contested than the high school division. Jayton ward school was first with 120 points. Girard ward school score being 94. Jayton Ward School won first in the following events: Choral singing, ward school junior girls declamation, ward school junior boys declamation, junior boys track and field music memory, picture memory and fourth and fifth grade spelling. Girard won first in arithmetic, essay writing, junior boys playground ball, sixth and seventh grade spelling and story telling.

### Ford Agency For Jayton

H. D. Black Motor Company has secured the agency for Ford Automobiles and trucks in Kent County. He received one car and one truck Wednesday of this week. We extend congratulations to Mr. Black on securing the agency and the town on securing this new business. Ford Cars and trucks have long been favorites with many people in this part of Texas.

### MORE WORK ON HIGHWAY 18

Thursday's state papers carried the announcement of the call for bids on two more projects on highway Eighteen. The call was for bids on 12 miles of grading and drainage structures in Stonewall county between Aspermont and the Haskell county line and for three bridges in Dickens county between Spur and the Kent county line. It begins to look as if old highway 18 is to be completed before the good year of 1936 Centennial year in Texas.

From all reports, Postmaster E. C. Wade has seriously taken up the game of golf and is taking lessons from the proficient experts at the game H. Kennedy and John Fowler.

County attorney Adcock, accompanied by his wife and mother and County Judge J. B. Earnest made a trip to Lamesa, Thursday of this week.

**HOW WOULD YOU SPEND TWENTY CENTS**

Twenty cents spent for tacks and nails totals the cost of Mrs. O. A. King's new storage space for clothing.

Linoleum which had served its time on the kitchen floor, but free of holes, was tacked over the cardboard which was used as the first covering of the frame. This covering of linoleum has made the closet almost as dust proof as any closet could be made in West Texas. The inside is papered with white paper to make the closet tighter.

**TWO SPRING SUITS COST THIRTY FIVE CENTS**

"With my foundation pattern, an old timey navy woolen suit, a grey spring coat made many years ago, a printed silk dress which had the seams burst out but a skirt that was in good condition; and buttons and thread purchased for thirty-five cents I have made the navy blue suit to a modern coat suit and the spring coat was turned wrong side out and remodeled as a swagger coat. I made a skirt out of a grey woolen material that had been in the piece for years," says Mrs. A. C. Carle, cooperator of the Polar H. D. Club.

"Having these two suits pacifies my worries for Spring clothes," she said.

**POLAR 4-H CLUB NEWS**

"Plant Danvers Half Long carrots and Detroit Dark Red beets," said the county Home Demonstration agent to the Polar 4-H Club girls at demonstration on gardening March 1.

These carrots are coreless and crisp and good flavored. This variety of beets has a dark red color when canned at the right stage they will be free from those white spots that make your canned beets unattractive in color.

Reports of our celebration of the Texas Centennial was given at this evening. On the afternoon of March second the club girls visited in home of Mrs. Mary Jane Cargile, a pioneer of West Texas. We were entertained by her stories of early history of Texas, especially her escape from the Indians.

Reporter.

**FOR SALE:** One team of mules. Will be in town Saturday.— M. Lairsen.

**NEW TALKING MOTION PICTURE TO BE SHOWN**

Interesting new sound picture will show latest tractor developments. A new talking motion picture entitled "Partners" will provide a full hour of entertainment and education to farmers who attend John Deere Tractor Day, to be conducted by the Bryant Link Store, local farm equipment dealer, aided by representatives of the John Deere organization.

This picture which is being enthusiastically received by farmers in other localities, takes the audience into the huge John Deere Tractor Plant at Waterloo Iowa, and shows how tractors are built and tested.

From the factory, the cameraman takes the audience out into the field to see John Deere tractors at work.

Woven into the picture is a story of how a father and son became partners on the farm.

The meeting will be in session from 1:30 o'clock to 5:00 o'clock on Friday, March 29 in the Palace Theatre in Jayton, Texas.

"We invite every farmer in this section to be our guests and we particularly want the boys to come, too," says Mr. Thos. P. Johnston. "The program will be in charge of men who are thoroughly familiar with tractors. In plain understandable language and illustrations they will demonstrate the latest developments in tractors and the best ways to keep the farm tractor tuned up for greatest efficiency.

"We are planning to make this a sociable affair, but at the same time a very worthwhile affair to farmers and their families. We are counting on a big crowd coming in to enjoy the big day with us."

**50c OR ONE GOOD HEN**

Our Special rate of 50c or one good hen for one years subscription to the Jayton Chronicle closes on Saturday March 30th. If you want in on this Special price get here with your money or your hen at once for after March 30th it will be too late.

**BUD RUSSELL, TEXAS  
PENITENTIARY AGENT, CLAIMS  
HOMES SHAPES BOYS**

"Uncle" Bud Russell, chief penitentiary transfer agent for the state of Texas, passed this way Monday.

Uncle Bud is the man who has hauled on train or in his black Maria 100,000 prisoners, and who with six gun and Irish grit has overhauled and brought back to the walls of the above 4,000 escaped men. The world has no other man with such a record.

We thought Bud Russell would know more about criminality than its experts who read tons of literature and talk audiences to death.

Bud Russell knows law-breakers and how to handle them.

The prisoners like him too. Uncle Bud is to the Texas prison system the synonym for fearless and fair dealing. He looks bad men in the eye, gives them a square, stern deal and they respect him.

Russell, his son, and another assistant, Wm. Crane, former sheriff of Kaufman county, had just headed down 24 prisoners gathered from various West Texas jails, in the Breckenridge battle. For the most part they were young, immature boys. But boys can crack a safe hijack a bank, squeeze the trigger of a machine gun, as the records of Barrow, Hamilton and others of their like, testify.

Barrow, incidentally, was handled by Uncle Bud when he was known to Central Texas as the 'boy bandit'. Russell has a way of showing a prisoner up to himself, a kind of genius for letting a bad chap see himself as "others see him." And it often works a cure on the ego of the culprit.

"I told Clyde Barrow when I first saw him that he had old-fashioned notions. He died aplenty was what he wanted instead of so much newspaper 'fatsy,'" said Russell reminiscently.

Joe Palmer late associate of Barrow in his forays and killings, and now in the Huntsville death house, says Barrow on his last raids in Missouri and Texas, spoke of Bud Russell and his advice, and agreed that at the right time a few swings of the parental strap might have cured him of banditry.

"What caused criminality, Uncle Bud?" repeating our question.

"Well, folks don't take time to raise their children, for one thing—just plain old neglect for the boy. That's one angle.

"Another is we can't keep the lads busy. I was raised on a Hill county farm where there was work to do, and plenty of it. But the rush to town has put our boys on the streets and no boy can roam the streets, stay out at night and the like, and be safe.

Bud Russell is a Texan. He stands square on his boot soles, looks at you with clear, honest eyes, and he looks at his work and his "boys" the same way.

"Boys who are brought up to hate authority, to see and hear tales where the outlaw is the hero, who are encouraged at home to ridicule the sizzled things, these are the boys who furnish our army of criminals.

"Are the outlaw tribe fearless?" he was asked.

"Usually they are too selfish with their own hides and lives to be brave," says Bud Russell. "They are so selfish that they become desperate and therefore dangerous, he says. Killers without conscience.

Bud Russell is a straight thinking man. "The very biggest of outlawry makes cowards of men. A man can't be brave when he knows his business is bad, and that goes for men both in side and out side of prison."

Russell has handled Ray Hamilton numerous times and also guarded him thru the trial that brought him the death sentence, taking him to the death cell from which he later escaped. Without appearing contemptuous, honest, Russell impresses one as seeing all criminals alike, none too big to be handled none too meek to take the wrong chances with. Russell's men have lost prisoners, some of them have been tied up, beaten, and nearly killed. But no prisoner has ever put a hand on Uncle Bud. And he has gone after them to the far corners, and brought them back in battalions.

Through the 31 years that he has been in the business he has handled the toughest hombres that have done their killings South and West and enough of them to make a large army. But so wary has he been, so ready to give every man a square deal or a quick "burning down" he has brought every man safe in port, except a Mexican youth who escaped him in Abilene, and was later caught. A record unequalled in the world's annals!

Why are our prisons filled with young men? First, says Russell and Crane, we are bringing up a race of youngsters in our cities who are too often under privileged and who have no reverence for authority. Another reason is that we have made prison terms so short so easy to evade by pardons and appeals, that the penitentiary has lost its terrors.

"Beating the rap" has become a game, say these experienced prison workers. Older convicts have managed to get the treasured pardon until now chiefly youths populate the prisons.

"Every prisoner I escort to the walls carries a pardon in his hip pocket" is the unique way in which Bud Russell says all prisoners, even life termers and death men, enter the gray walls expecting to regain freedom.

England and Canada have solved the crime problem by inflicting heavy penalties and permitting these penalties to stand. Sheriff Crane says if we were more business like in our punishment we would not have 73 percent of the American prisoners returning to prison for the second and third offences. Good horse sense.

Bud Russell is writing a book of memoirs dealing with crime. It ought to be grippingly interesting, and ripping with sound logic on the prison question.—Stephens County Sun.

**READ THE TELEPHONE POLES**

Our advise to the general public is "read the telephone poles" We accidentally looked one over the other day, and learned that Jayton was going to hold a city election in April for the purpose of electing a Mayor several aldermen and a City Marshall. We know most people look in the local paper for such information, but in this day of new deals and progressive ideas, Spuey Longs, Raymond Hamiltons and Hitlers, things are different. Therefore its a good

idea to look for information in out of the way places, under chips, in old tin cans in out buildings and if you look close enough you might find a gold mine of valuable information.

**ON TEXAS FARMS**

Minnis Fisher Cunningham "Poultry pays" according to Mrs. L. M. Davidson of Jefferson county who is food demonstrator for the LaBelle Home Demonstration Club. It does for her because she makes it by good management.

To begin with she traded a cow for a flock of 105. These she culled down to a flock of 70 hens which produce an average of 60 eggs per day.

She estimates that 18 of these eggs pay the feed cost per day, leaving three dozen and a half to sell at a profit.

Marketing is a part of the job of making a flock pay. Mrs. Davidson grades the eggs strictly and sells all that she has for sale either to passers by or at a special store in Port Arthur.

A flock of 200 white Leghorn hens has kept the credit of Mr. Boss Clark of the Religh community in Navarro county in A-1 condition all through these lean years according to his report to the county agricultural agent.

This poultry demonstrator grows all the feed for his flock and keeps up his foundation stock by hatching and raising baby chicks each year. Some months when eggs are low it is nip and tuck with the red ink he says. But there are enough good months to show a profit for the whole year every time.

Eleven poultry demonstrators in Wheeler county advise their agricultural agent that they have so managed their affairs that poultry and poultry products paid all February bills and running expenses.

C. J. Robinson and L. F. Wade had business in Spur Tuesday A. M.

Mr. and Mrs. J. B. Overton and C. Worthen visited Mrs. Worthen who is in the hospital in Lubbock this last week end.

The Australian flings his boom-crang far out into the air. It makes a circuit and falls at his feet again. So it is with the unkind word. At last it finds resting place in the heart of the sender.

God bless the girl who works! She is not too proud to earn her own living, nor ashamed to be caught at her daily task behind the counter or desk or sweatshop machine. She always greets you with a smile. There is a sweet memory in everything she touches. She is like the brave mountaineer already far up the precipice, climbing, struggling, rejoicing. The very sight is an inspiration. It is an honor to know this girl and to be worthy of her esteem. Lift your hat to her, young man, as she passes by. She is a queen in the realm of womanhood. She's a princess among toilers. Her hand may be stained by dishwashing, factory grease or printers ink, but it is an honest hand. It stays misfortune from the home; it supports an invalid loved one, maybe; it is a moving, potent shield that protects many a family from the wolf that sniffs at the door. All honor to the brave toiler; God bless the girl who works.

The whimpering of many lousey cur would be forever hushed if only a bone would be thrown his way.

To love one who deserves your love, and then cleave to your treasure is worth all the suffering possible to the human heart.

The shadow reports true of the substance. There is no doubtful foreshadowing of your inner self. The forces that have brought you thus far are not yet exhausted. Forget the past, turn your face toward the brighter day.

**BUSINESS BETTER NOW THAN LAST YEAR**

Business is definitely better now than at any time last year. Practically every industry is increasing sales, earning moderately highest profits. Complete figures for January show that the index of industrial production was at the highest January level since 1930.

The fact remains, however, that in the view of many competent observers, fundamental conditions are unchanged, and that all that is keeping us going is government spending.

It is true that 10,000,000 men are out of work, are being supported by relief, about the same number that was unemployed two years ago, when the great recovery drive started. That is the most ominous fact the country faces now.

**MEMORIAL TO BE ERECTED IN DALLAS, TEXAS**

Dallas, Texas March 20. (Special) All profits from the Texas Centennial exposition in Dallas in 1936 will be utilized to erect in this city a memorial commemorating one hundred years of progress in the Lone Star State.

Formal announcement to that effect has been made by directors of the Texas Centennial Commission, a corporation, to dispel any rumors that stockholders in the corporation might benefit from the exposition, the success of which they are patriotically endeavoring to assure not only for Dallas but in behalf of the entire Commonwealth. Any returns, after all expenses have been paid and all bondholders have been reimbursed, will be devoted to the erection of a memorial type to be determined by the presiding District Judge of Dallas County, it has been announced.

With the approval given plans for the exposition by the Dallas Park Board and City Council, officials of the exposition prepared to join with the Texas Centennial Commission and other Centennial advocates in the state in training their guns on Austin in an effort to get the Centennial appropriation bill enacted by the legislature at an early date. The Park Board approved "in principle" the plans to transform

ing the State Fair grounds into an exposition site by expansion and improvement. Councilmen at once approved of the Board's recommendation. Settlement of technical details leading to condemnation of the additional land needed for the exposition, preparation of contracts between the Park Board, City of Dallas and the Central exposition organization will proceed rapidly.

Directors of the central exposition corporation have ratified the bond indenture, providing for the issuance of the \$2,000,000 corporate bonds, which at present are being disposed of, approved a tentative budget that must be submitted to the Federal authorities in registering the issue and provided payment of trustee fees to the First National Bank of Dallas. These fees will be merely the cost to the bank of handling the transaction.

Sale of these bonds is progressing rapidly, subscriptions having been received not only from Dallasites but from individuals and civic organizations of cities and communities outside of Dallas.

**NOBODY'S BUSINESS**  
 By Julian Caspers Jr.

Austin—The legislature is enjoying a good laugh at the antics of representatives of an out of state concern which is attempting to suck into its channels literally thousands of advertising dollars that normally go to Texas newspapers and Texas printing establishments.

The company in question is one which is engaged in three enterprises, that are carefully linked together. They issue an annual edition of a book which purports to "rate" insurance companies, according to the "opinion" which this company forms of each insurance company's standing. An alphabetical designation is given of each company. An "A" company is supposed to be best, a "B" company good and etc.

The rating company then sells thousands of copies of the book each year to the insurance companies it rates. It also publishes an insurance periodical, in which it sells advertising space to the insurance companies, and sells rating charts as a part of its "service," which a

Trouble with this system has developed in many states, and bills which would prohibit the out of state concerns from circulating alphabetical ratings are pending in a number of state legislatures at present, including one by Senator Holdbrook in the Texas legislature. In addition a number of companies, including many ranked "A" have notified the rating company that they do not wish to be included in the publication. These officials condemn the practice because they say many insurance firms are loath to refuse advertising to the rating concern because of the effect it might have on their rating.

But the real laugh comes in at the trick of the rating concern has adopted to fight the bill in the Texas legislature. Its representatives wrote a circular letter to the managing editors of many Texas newspapers telling them the bill "threatens the freedom of the press". The bill has nothing to do with the freedom of the press, but it does forbid issuing ratings with one hand and selling advertising with the other. Any rating concern would be allowed to issue ratings provided it did not sell advertising.

The freedom of the Press is too precious to be used for the purpose of cloaking polite pressure selling and it is doubtful that Texas Newspaper men will fall for such tactics. It is also probable the legislature will pass the bill prohibiting the selling of advertising in connection with ratings.

Anybody who sets himself up to "rate" banks according to his idea of their safety would quickly find himself into trouble with the State and Federal banking laws.

The race horse people are full of tricks. Perhaps that explains the race betting "compromis" which would leave the question of race betting to the various counties on a local option basis. Every lawyer in the legislature knows that such a statute would be unconstitutional, and that only way local option could be applied to horse racing would be by a constitutional amendment.

We are informed that Mrs. Tom Parker has traded for the Variety store located on the northeast corner of the square.

### School News

The county meet is over and we are proud of the showing we made last week at Claremont. All the students worked hard and we were successful in winning the meet. More detailed reports will be found elsewhere in the paper.

The senior and junior boys are playing baseball these days and we are going to have some good games before school is out. Loyal, Merle Douglass, Milton, Richard, Joe, C. B. and L. H. are eligible to go to the district in track so they practice a little each day in order to stay in condition for the meet.

**Things that might happen someday:**  
Fuzzy study his lesson just once.  
Buddy pass an English test.  
L. H. become a professional taxidemiak.

Mary Louise be state champion in girls singles in tennis.

Geraldine be an expert chauffeur.

Pauline not talk so much.

W. J. get married to a French actress.

Joe Paul and Avon be skinny.

Alvin play basket ball.

SENIOR CLASS NEWS—

The senior class has started working on the senior play. Next week we will announce the name of it, but we can promise you now that it is going to be a wow.

The class detective who keeps up with the senior class rings noticed this week that Douglas' ring is missing and with very little effort found that Annabelle was wearing it.

Mr. Coons our genial sponsor secretly asked us to mention his name in the news this week. He is so quiet, he rarely ever gets any publicity. He is so shy that it took him two weeks to muster up the courage to ask us to put his name in the news.

Mr. Lowrey said in chapel that it is about time for us seniors to start stepping out. We are going to step out that is if we have anything to step out to. Children of the depression do have a hard time.

Well well, well, folks here we are again with the life of another young West Texan—Merle Rose.

Merle first saw the light of day in Jayton the 31 day of December, 1917 and has lived in the same fair city ever since. He has turned out to be in 1935 just a large 18 year old blond headed blue eyed boy, who, even at sometimes wonders what it is all about. But the good thing of it is he is determined to find out. He's curious, this boy of Mrs. Rose's curious about everything from what wooden heads are made of to where baby chicks come from.

We asked Merle what his childhood fear was. His eyes grew large and after looking scaredly around he replied in a shaky voice "I was always scared of clocks, and still am. If you will promise to keep it a secret I will let you in on something. You see when ever I get near a clock I always get scared and run; at home we can't keep a clock because it up sets my nerves, and as nothing else can induce me to run I am always late for school."

After hearing this sad story of a boy who has been unfairly teased because he is always late to school, Ye olde reporter was on the verge of tears, but managed to snap out of it with this question: "What is your philosophy of life?"

Merle shook his head and sadly replied, "I have never found out what life is yet but when I do I will let you know what I think of it."

Merle confidentially confided to me that his greatest weakness is carelessness and a "I dont give a hang attitude. But really folks we know that he gives a 'hang' about aviation, for he told us himself that aviation is really all he does give a hang about. You've probably guessed that by now, Merle is going to be an aviator. How thrilling it will be some day to some girl when a tall handsome man swoops down from the clouds and carries her off for a mad flight thru the heavens. A hint Merle, Be sure to have a mustache.

A feeling of respect grew up in me for this person with such a high ambition and I asked, "Mr. Rose please tell me about your most embarrassing moment."

"My most embarrassing moment," he replied, "was when I dropped my fork at the Junior Senior Banquet last year."

**MERLES VITAL STATISTICS:**  
Favorite color: Bright colors and bananas.  
Favorite food: Marshmallows and try and Math.  
Favorite Sport: Hunting.  
Hobby: Reading.  
Best Pals: L. H. and Herbert.

Next week an interesting interview with a senior girl.

**THIRD GRADE Perfect Spellers:**  
La Rue Robinson.  
Ruby Lee Taylor.

Prof. Lowrey, W. F. Gilbert, Joe Earnest, and Ross English made a business trip to Roscoe Thursday afternoon.

Don't get het up over Texas spending a few dollars on the Centennial. Out of the State visitors to this big exposition and celebration will spend enough money in Texas for gas and oil to finance the whole thing. Lots of folks get penny wise and pound foolish. Look to the future. Texas can afford to celebrate once in every hundred. Our friend Westfall is all right most of the time but this is one time when he is wrong. Texas can well afford to invest in a Centennial that will bring in millions of outside dollars and outside visitors, especially when she is spending all her money at home, not really spending it, but investing it. On with the Centennial and the future will it to be the best money Texans ever put out.

One week from today Bryant-Link Company will put on a big tractor show in Jayton and are inviting every man and boy as well as the ladies to come in and spend the day with them, see the free picture show and enjoy themselves.

J. C. Miller purchased a new Chevrolet pickup this week from Jay-Mason Chevrolet company.

Jay-Mason Chevrolet report the sale of a used pick-up to George Branch the ice man, this week.

L. O. Mayer's family are visiting relatives in East Texas this week.

### BAPTIST CHURCH NEWS

Our Sunday school is showing a good increase in attendance. The adult class has been divided and we hope to have a full attendance and a report of their organization next week.

Next Sunday morning the pastor will continue his series of sermons on what Baptist Believe by discussing "The final Perseverance of the Saints." There will be also some special music.

All departments of the B. T. S. will meet at 6:45 Sunday evening. The subject for the evening service will be "Did Jonah Swallow the Whale?"

Monday afternoon the W. M. S. and Sunbeams will meet at the Baptist Church at 3:00 o'clock. Plan to be with us at the Wednesday evening Bible Study hour when we will continue our discussion of 14 and 15 chapter of Genesis.

Our meeting will begin the first Sunday in April. Rev. Fred McPherson, pastor will do the preaching and Rev. Finis Williams of Peacock will have charge of the song service. Let us be much in prayer for a great revival in Jayton.

Mrs. Dick Jay is driving a new Plymouth, purchased from the Maye rAuto Service.

Mr. Bob Whitaker of Tokio came home Saturday for a short visit with his folks and to get Mrs. Whitaker who has been visiting here for the past week.

There is nothing that tones a fellow like restful companionship with himself.

Time can never be the measure of a good thing. The coming ages will have a share in it.

**JIM THRIFT Says:**

I save \$1 to \$2 in fuel costs alone every day I use my new John Deere Tractor because it burns distillate. It sure saves me money!

You can't afford to pass up the savings a John Deere tractor will bring you. Come in and talk it over with us.
