

# THE JAYTON CHRONICLE

JAYTON, KENT COUNTY, TEXAS.

FRIDAY MARCH 29, 1935

NUMBER 13

## REMOVE FARM FAMILIES FROM RELIEF ROLLS

Austin, March 25.—Removal of all farm families from the general relief rolls to the rural rehabilitation program was a step nearer this week as officials of the Texas Relief Commission announced that henceforth all farm families residing on farming acreage will be classed as rural rehabilitation families, and will receive aid only in the form of credit advances.

As a result, these families will come under all regulations of the rural program, and notes in favor of the rural corporation will be taken from these clients for all such subsistence or any other advances from the relief administration.

Relief officials have estimated that from 35 to 50 per cent of the states caseload consists of rural farm families and that the general caseload will be reduced by approximately 100,000 cases when all of them have been included in the rural plan.

"We want to include all of our rural cases in the rural rehabilitation program and get away from further outright relief grants," said E. A. Baugh, assistant director of the Texas Relief Commission. "Under the rural plan, we analyze the needs of the family, set up an operating budget and farming plan for a year and provide management to enable the family to maintain a sufficient income to meet the notes given for all advances made from relief funds."

Since many of the families affected by the new order are tenants located on farm plots, landlords will be required to waive claims on this years crops before further advances will be made by the Relief Commission. If the landlord, or any other lien holder, refuses such waivers, the client family will be removed from the relief roll and the lien holder so notified in writing, according to instructions issued by the Relief Commission.

Mr. Val M. Keating, director of Social service, said national relief officials have severely criticized the state of Texas for the past few years.

The major portion of the increases has been in rural areas," she said, "and we believe that many landlords have taken advantage of the relief organization in refusing to finance tenants."

## PROF. LOWREY RE-ELECTED HEAD OF JAYTON SCHOOLS

We are informed that Professor G. A. Lowrey was re-elected Supt. of the Jayton Schools. We think this very right and proper as he is certainly one of the best school supervisors we have ever known, and the school is making good under his leadership and direction.

## WORKING ON GAP IN HIGHWAY 18

The road crew working on highway 18 between Spur and the Kent County line resembles a small army. Men, mules, trucks, tractors, graders, steam shovels and camp houses cover an entire hill side.

S. W. Ellerbee was on the sick list last week but was able to be in town Saturday and Sunday. He enjoyed a birthday dinner at the home of his daughter Mrs. Coleman Gallagher.

ment should be adopted in its present form. Bailey Jones of New Braunfels, Mayor Tom Miller of Austin, City manager Bill Taylor of Longview, Mayor Pete Renfro of Beaumont and others all pointed out that exemption of \$3000 homes would cut their city revenue in half, cripple municipal services and force many to default on bonds heretofore issued in good faith."

"I don't believe that we ought to carry the man who owns a \$3000 homestead for a free ride on municipal service," said Mayor Tom Miller. "I believe any good American wants to pay and ought to pay a little something for what he gets from his community. I think the idea of this exemption originated in the minds of members of the legislature, and not with the people. Nobody has come to my office and asked for it, and if the people of Austin demanded it some of them would have been in to see me about it."

## EARLY TEXAS HISTORY RETOLD

Austin, Texas March 26th. Friendliness and hostility alternately reigned in relations of the whites with the Indians during the early days of Spanish colonization in Texas, it is evident from historical records. One tribe would be amicable, another bitterly inimical. Documentary proof of this paradox is given in a display of materials from the Texas Archives in the University of Texas Library now on exhibit in the archives room.

One item of this exhibit is an impressive citation dated 1731, and signed by Estevan Miro, Spanish governor of Louisiana, in recognition of the services of Apilachate, an Indian of the Yukemi tribe, in promoting peace between the Spanish and the Indians. He is given the title of "Chief of the Small Medal" as evidence of the esteem in which he was held in peace and war.

Another document in the display dated in the same year is the beautifully written report of the governor of the province of Coahuila and Texas, Don Domingo Cabello, who was also in command of the presidio of San Antonio de Bexar, then the seat of Spanish government in Texas. It is written in script as regular and exquisitely formed as fine printing and on paper whose fine quality indicates that it was imported from France. In it Cabello writes of the fierce depredations of the military garrison which he recounts the numerous sallies on which he sent pursuit parties from his small company, all of which were futile because of the facility with which the Indians could learn of their approach and could steal away, only to return and strike again. He describes in detail the horrible manner in which the Indians mutilated the bodies of their victims, and closed with the advice that he could no longer promise successfully to defend the settlement due to the inadequacy of his forces.

## JAYTON CLUB WOMEN TO ACT AS DELEGATES FOR KENT COUNTY

The utilization of canned sausage in casing will be demonstrated at the meat show, at Lubbock April 1, 2, and 3, by Mrs. H. D. May and Mrs. Van North of the Jayton Home Demonstration Club. This team was selected to represent Kent County at the County contest on the utilization of canned meats.

The purpose of the meat show is to stimulate and advance the practice of feeding superior feed to livestock and the canning and curing of meats for the home use by the people of the South plains and adjacent territory.

And now we have a milk war in Dallas. 7000 gallons of the healthful fluid having been poured out on the ground in that city Tuesday. And to think there are millions in the United States going hungry for this same milk.

It was just another Kansas Dust storm so don't get excited.

Chas. Robinson was in Spur one day last week for dental work.

Nettie Faye Shafer is working in Aspermont.

Mrs. Chas Robinson, Mrs. John Wilson, and Mrs. Tom Jones visited Mrs. H. H. Bilberry Jr., in Sweetwater last week.

The light rains of last week greened up the country considerably.

Farmers are planting early feed, not so much on the strength of the moisture we have received, but more thru force of habit and faith. We hope they win out.

It was very warm Monday afternoon and all expected a sandy to blow but were they disappointed.

County Judge Earnest and County Attorney Adcock had business in Dawson and Martin counties this last week seeing after some school lands.

Remember Saturday is the last day that you can buy the Chronicle for one year for 50c.

John Goodall was here from Girard, Wednesday—He says the Kansas dust storms wont bother him if it will only bring an Arkansas rain.

## TEXAS PRODUCES MINERALS VALUED MANY MILLIONS

Austin, Texas March 26th.—Sulphur was the leading mineral produced in Texas during 1933, aside from petroleum, according to comparative figures compiled by the University of Texas Bureau of Economic Geology. The 1,082,967 tons of Sulphur mined had an aggregated value of \$19,493,406, it was estimated on the basis of returns made to the State Comptroller.

Cement was produced in the amount of 3,091,071 barrels, valued at \$5,268,605; clay products valued at \$2,000,000, were produced; 1,215,820 tons of stone valued at \$1,140,580 was mined, and gypsum totaling 112,106 tons valued at \$1,058,860 was produced.

Other minerals produced in Texas in 1933 include the following: Asphalt, 126,069 tons valued at \$353,847; coal and lignite, valued at \$833,000; Fuller's earth, 45,395 tons valued at \$411,350; Lime, 36,286 tons valued at \$339,305; and miscellaneous minerals valued at \$925,596.

No copper, no lead, no gold and no silver were included. No estimate was given of the amount or value of natural gas-gasoline produced. The total value of the minerals produced aside from petroleum was \$34,089,202 as compared with \$67,546,496 in the year of 1931.

## FARMERS SEED LOAN NOTICE

Applications for Seed Loans are being taken for Kent County by N. E. Porter in his office in Jayton, Texas. These loans are for non-relief farmers only, and are from a special fund made available by the Federal Emergency Relief Administration for seed, for Spring planting of foreign, truck, and commercial planting.

These funds have been made available to meet the emergency created by lack of funds of the Emergency Crop and Feed Loan Section of the Federal Emergency Relief Administration, and will be made available to farmers who are unable to obtain credit locally or elsewhere.

The same County Committee will serve as the loan that has heretofore been known as the Crop Loan Office.

A farmer who is on relief receives the necessary funds to finance his crop through Mr. Campbell Rural Supervisor who has an office at Rural Headquarters, non-disturbance agreements on work stock, and crop agreements are necessary in all cases.

This loan is to permit immediate planting of food, feed and commercial crops.

According to information from Austin, Governor Allred is kept busy revoking pardons and paroles granted by the former governor.

When these go wrong, Jimmie just puts them back in the pen for safe keeping, and that's where they belong.

Jayton's goofy golfers are out in force these days, knocking the little white balls key and cockeyed.

Mrs. Glen Hancock and Mrs. Sam McCombs were here this week visiting relatives and friends.

Miss Henri Sue Barfoot of Lubbock was here this week visiting her grandparents Mr. and Mrs. J. W. Barfoot.

Commissioner C. H. Cade and wife were in from their ranch, Tuesday trading and attending to other business matters.

The dust storms of last week put several folks in bed but most of them are able to be up now since the light rains of last week cleared up the air for a couple of days.

S. I. Rackly had business in Jayton Monday afternoon.

Robt. Wade of Lamesa visited his parents in Jayton Saturday and Sunday. He says the South Plains are still dry and dusty but prosperous.

I appreciate your vote for City Marshall in next Tuesday's city election.—Alcolm Hall.

How Lewis, Roby Banker sent us \$1 for two years subscription to the Jayton Chronicle—you know these folks believe in making their dollars a long way.

## PALACE THEATRE INSTALLS NEW EQUIPMENT

E. L. Draper, manager of the Palace Theatre in Jayton, this week installed new sound equipment of the latest type, high fidelity, and tests show that the new system is perfect, it brings out the small details that we do not hear in ordinary pictures. Large speakers have been installed and correct sound reproduction is assured at all times, also he reports the installation of a large screen.

Mr. Draper states that he is endeavoring to give people in Jayton and Jayton trade territory the best, not only in pictures but in sound.

Re-decoration has started, the lobby of the theatre is to be finished in silver and blue with textone finish in the inner lobby in polychrome effect, a blending of several pleasing colors.

Mr. Draper stated that he was ready to cooperate with any organization needing funds by giving a special benefit show. Lets support a home institution and spend Jayton money in Jayton.

## TEXAS HOUSE VOTES ON OLD AGE PENSION BILL

Austin, Texas, March 25.—The House of Representatives of the Texas legislature voted overwhelmingly today to submit a proposed constitutional amendment authorizing creation of a system of old-age pensions. Not Over \$30.00 Month

The only limitation in the resolution of submission adopted 126 to 3, was that pensions should not exceed \$30 a month. If approved by the senate, the election would be held in August, 1935.

The action came in the midst of one of the most active days of the current general session. Previously the house had passed with little opposition bills extending market demand provisions of the natural resources conservation statutes and de-

The house also ratified 110 to 1, the interstate compact for regulation of oil and gas production approved recently by representatives of several oil producing states, including Governor James V. Allred.

It was estimated that 174,000 persons would be eligible for pensions if the age limit was set at 65, and that on the basis of \$30 a month an expenditure of \$62,640,000 annually would be entailed.

Ray Williams of Girard passed thru Lubbock, Tuesday enroute to Claremont to attend court. He was just as optimistic as usual, and seemed to believe that better times are just around the corner, but would not say which corner. He still thinks that the Soldiers Bonus will be paid.

## FREE SCHOLARSHIP TO A. & M. SHORT COURSE

Mr. Thos. P. Johnston gives out the statement that the Bryant-Link Store in Jayton will award a free scholarship to the winner of the dress making contest which will be held in July, to the A. & M. Short Course. This contest is open to all Home Demonstration Club Women.

Tuesday afternoon Jack Overfelt was in town and in commenting on the sandstorm said "I have witnessed many of these 'West Texas Rains' but I have never learned to like them." Neither have we.

Mrs. Bill Garnett is visiting in McAlister New Mexico with Mrs. H. T. Garnett.

Mrs. O. W. Coats is attending the District convention of the Self Culture Clubs at Plainview, Texas as a Delegate from Jayton.

T. C. Maynard and wife are driving a new Chevrolet Pick-up.

Mrs. Jack Daughtry is driving a new four door dodge sedan purchased from Bearl Murdoch.

Messrs Miller, Waggoner and Wintres were business visitors in Spur Tuesday afternoon.

B. J. Kellet of Girard Lumber Yard man had business in Jayton, Wednesday of this week.

Kansas is certainly giving Texas a "dirty deal" these days.

## CITY ELECTION NEXT TUESDAY

The City election will be held Tuesday April 2 at the Tabernacle, according to the best information obtainable.

We are publishing a copy of the ballot as printed by orders of the City Secretary.

You will see by the ballot that there are two proposed candidates for the office of Mayor, L. F. Wade best known as the Editor of the Chronicle, is one of the two listed. His name was placed on the ticket without consulting him or asking his consent.

While we believe he qualifies fairly well as a small town editor, its a self evident fact, he would if elected make a very punk mayor.

In the first place he was born 30 years too soon, therefore is out of date, a man with ox-wagon ideas has no business being mayor of a city like Jayton in this day of mile a minute automobiles and thirty-hour work weeks.

"You can't teach an old dog new tricks" is a very old and truthful saying, and he is an old dog. Sot in his ways, hard headed contentious and if elected would be hard to get along with.

Its our opinion a vigorous body is a young man with vigorous thought and progressive ideas. Physically fit as well as mentally fit to carry on the city government in an aggressive manner and that brings up the name of Glen Huls.

Mr. Huls is an aggressive young man, a diplomat well qualified to give the city a leadership that will place our beloved town right up in the front ranks of the states most progressive sub-divisions.

He has plenty of spare time that he can devote to the development of the town.

Under these conditions there is only one sane, sensible, patriotic thing to do, scratch old man Wade name a plenty and elect the brilliant young active, progressive, aggressive Mr. Glen Huls as Mayor of Jayton by a unanimous vote.

This is the day of young men. We

have the youngest county in the State. We have a young man in Congress and a young man in the Governor's chair and a young man in the President's office, so lets keep the record clear and elect a young man as mayor. Vote for Mr. Glen Huls and we will have a Mayor that's well qualified.

## BRIDGE PARTY BRIG EVENT IN SOCIETY NEWS

On Friday night March 22, 1935 at the new beautiful home of Mr. and Mrs. G. H. Brown, the Bridge Club and a few guests were entertained with 9 tables of bridge.

Mr. Charles Robinson won high score prize for the men and Mrs. W. K. Joiker won high score prize for the ladies. Merle Jay won low score prize for the men and Mrs. Charles Robinson won low score prize for the ladies.

After the prizes were awarded refreshments were served to Mr. and Mrs. W. J. Hembree, Mr. and Mrs. Merle Jay, Mr. and Mrs. Tom Jones, Mr. and Mrs. Claud Kelley, Mr. and Mrs. Chas. Robinson, Mr. and Mrs. M. S. Sandell, Mr. and Mrs. Ivey F. Murdoch, Mr. and Mrs. Earl Harrison, Mr. and Mrs. Eldon C. Wade, Mr. and Mrs. John Jones, Mr. and Mrs. Howard Johnston, Mr. and Mrs. Grover Little, Mr. and Mrs. Dallas Kenady, Mr. and Mrs. W. K. Joiker, Mr. and Mrs. G. H. Brown, Wilson Garrett Harold Kenady, John Fowler, Elouise Wilson, Mrs. Ellinor Glaze and Mayme Morris Murphy.

A wonder time was reported by all present.

T. H. Hargus drove down to Waco last week and brought his daughter and grandchildren home with him for an extended visit. He tells us the Waco country is plenty wet and all farm crops are looking fine.

Mae Lou Johnston and Mrs. Tarleton Moore of Chillicothe spent the week end here with Mr. Tom Johnston.

Miss Nettie Beth Hagins who is attending school at the West Texas State Teachers College at Canyon, spent the week end here with her family Mr. and Mrs. A. J. Hagins.

Mrs. Wilson, Mrs. McLauri and Mrs. Tom Jones was shopping in Spur Monday afternoon.

**SUBSCRIPTION PRICE PER YEAR \$1.50**

These 'busy' men who grawl about having no time to read ought to learn the trick of working up the waste ends of time.

The man is regal who can control his appetite, his passions and his temper.

This is an age when many mothers pay homage at the feet of a molech whose arms scorch the very souls of daughters while they worship.

"The world is my country, and to do good is my religion." Even a creed like that makes a great and good man.

The average man only laughs when one of these skin tighters pokes her finger at the thin girl trying to cross a windy street.

The drunk swore in court that his wife supported him. Many a sober fellow would testify to that if put under oath.

That man or woman who determines to live a life alone faces a sure and certain destiny—extermination.

A man's mind may be likened to a garden, which may be intellectually cultivated or allowed to run wild; but whether cultivated or allowed to run wild, it must and will bring forth a harvest. If no useful seeds are put into it, then an abundance of useless weed seeds will fall in the mind and continue to produce their kind. This is a mental law no human can ignore.

A woman may paint like Raphael, play like Paderewski, or sing like Florence Nightingale, but can she cook? Can she cook? That's man's eternal question. These creatures who are experts at turning out biscuits have

scalps than all the wars in history. There would be a deal more room in the grave yard had it not been for our imaginary troubles and the woman in the kitchen.

The city without vision—that place without the sense of civl within and of it. That city is to med.

That man is great who can ascribe to his worst enemy the highest possible motive for his act.

Knocks and bruises give success her peculiar charms. We learn to love our difficulties since they are stepping stones to victo.g.

That which helps a man to help himself is the only help that is worth the while.

The friend who takes offense at every little trifle is never worthy of your friendship.

The man who knows the world will never be bashful, and the man who knows himself will never be impudent.

The young man of sound principle and fair ability who can save his money and control his habits is valuable to any concern.

That love is sweet that sweetly loves beneath a cloudless sky. That love is great that greatly loves when the storms are raging.

An occult paper truly claims that every man is where he is by the lot of his being; the thoughts that he has built into his character have brought him there, that in the arrangement of his life there is no element of chance, but all is the result of a law that cannot err. That this is just as true of those who fee, out of harmony with their surroundings as those who are contented with them.

**THOSE HORRIBLE CODES**

By Beska Goodrich

It is amusing sometimes to check up on the freakish effect of all those codes, rules and measures adopted at Washington aimed at the regulation, restriction and curtailment of production seemingly of every thing under the sun.

Why a man's whiskers is about the only thing left to normal development. It has come to pass here in the southwest that Dairy cows are not allowed to produce up to normal capacity, hens can only lay every other day. Porkers are not rendering out a normal supply of lard. Those profitable brood sows that used to have 15 or more pigs to the litter only have 5 or six. The weather man has curtailed our

collections are scanty. Marriage is on a decrease, and we seldom ever hear of the birth of twins. Truly those drastic codes are having far reaching effects.

**SIXTH GRADE BETTER ENGLISH CLUB HAS MEETING**

The sixth grade Better English Club met last Friday afternoon. The purpose of the meeting was

to elect new officers. This club is hoping to make a success and improve their speech.

Don't forget to vote Tuesday in the city election.

#### FOR CITY MARSHALL--

John Jones  
J. M. Hall  
Charlie Fox  
Sam Barton

Some cityites returning from a Sunday picnic passed by an orchard and just for a joke stopped and helped themselves to the fruit and filled their lunch basket. As they passed the farmer's house they slowed up while one of them called out: "We thought we would tell you we helped ourselves to your apples!" "Oh, that's alright," answered the farmer cheerfully, "I helped myself to your tools and spare tire while you were in the orchard."

A notice in the Union City, Ind., paper: Found - a pair of eyeglasses in my corner crib. Owner can have same for nothing for this ad. If he can explain how they came to be in my corner crib I will pay for the ad myself.

Mr. and Mrs. R. C. Patton spent last week end with Mr. Patton's parents at Seminole Texas.

Misses Blanche Yarbrough and Opal Louise Creighton, spent last week end shopping in Dallas.

Mr. Jeff Whatley and son H. J. spent the week end in Fort Worth at the Fat Stock Show.

John Reynolds and family spent the week end with Colman Gallagher and family this past week.

Jessie Grice and wife and Mrs. Ivey F. Murdoch and wife visited in Claremont this last Sunday.

Mary Jones, Dorothy Lou and Mozelle Gallagher made a trip to Stamford last Saturday.

H. J. Whatley is reported to be in bed with a severe case of diphtheria. Bake Robinson Jr. spent last week end in Stamford with J. R. Williams.

J. O. Lee and family and George Hall and family left last week for the Rio Grande Valley for the summer.

Elouise Wilson and Berle Murdoch and Clyde Green made a trip to Abilene last week.

L. O. Mayer and family have returned from Marlis, Texas. L. O. is driving a new Dodge.

Speck Morgan visited friends here this week. He returned Saturday to Hamlin. He will go to San Diego after a few days visit. He is in the city with headquarters at the latter place.

The two cases that came up for trial in the District Court of Kent county this last week were quickly brought to a close. The person accused of bootlegging plead guilty before the judge and received a 5 year suspended sentence. The party who was charged with horse theft proved to the jury's satisfaction that he was innocent and therefore the jury brought in the verdict of not guilty. However trival these cases may seem they cost the county a nice sum of money.

We all the attention of our readers to the fact that Saturday is the day that you can get the old town paper for one year for only five cents.

Finally we think the incoming administration ought to give an insuring ball or street dance. It is nothing but proper that we should

have some kind of an event like this arranged as 18 hole contest. May the goofiest golfer win. Mrs. Arthur (Betty) Jones is reported to be very low at this writing. She has been ill for some time. Bottles Mason of Spur was a business visitor in our town the middle of the week.

These "busy" men who grawl about having no time to read ought to learn the trick of working up the waste ends of time.

The man is regal who can control his appetite, his passions and his temper.

This is an age when many mothers pay homage at the feet of a molech whose arms scorch the very souls of daughters while they worship.

"The world is my country, and to do good is my religion." Even a creed like that makes a great and good man.

The average man only laughs when one of these skin tighters pokes her finger at the thin girl trying to cross a windy street.

The drunk swore in court that his wife supported him. Many a sober fellow would testify to that if put under oath.

That man or woman who determines to live a life alone faces a sure and certain destiny—extermination.

A man's mind may be likened to a garden, which may be intellectually cultivated or allowed to run wild; but whether cultivated or allowed to run wild, it must and will bring forth a harvest. If no useful seeds are put into it, then an abundance of useless weed seeds will fall in the mind and continue to produce their kind. This is a mental law no human can ignore.

A woman may paint like Raphael, play like Paderewski, or sing like Florence Nightingale, but can she cook? Can she cook? that's man's eternal question. These creatures who are experts at turning out biscuits have

The city without vision—that place without the sense of civic with- in and of it. That city is doomed. That man is great who can ascribe to his worst enemy the highest possible motive for his act.

Knocks and bruises give success her peculiar charms. We learn to love our difficulties since they are stepping stones to victo.ry.

That which helps a man to help himself is the only help that is worth the while.

The friend who takes offense at every little trifle is never worthy of your friendship.

The man who knows the world will never be bashful, and the man who knows himself will never be impudent.

The young man of sound principle and fair ability who can save his money and control his habits is valuable to any concern.

That love is sweet that sweetly loves beneath a cloudless sky. That love is great that greatly loves when the storms are raging.

An occult paper truly claims that every man is where he is by the lot of his being; the thoughts that he has built into his character have brought him there, that in the arrangement of his life there is no element of chance, but all is the result of a law that cannot err. That this is just as true of those who fee. out of harmony with their surround- ings as those who are contented with them.

#### THOSE HORRIBLE CODES

By Beska Goodrich

It is amusing sometimes to check up on the freakish effect of all those codes, rules and measures adopted at Washington aimed at the regulation, restriction and curtailment of production seemingly of every thing under the sun.

Why a man's whiskers is about the only thing left to normal develop- ment. It has come to pass here in the southwest that Dairy cows are not allowed to produce up to normal capacity, hens can only lay every other day. Porkers are not render- ing out a normal supply of lard. Those profitable brood sows that used to have 15 or more pigs to the litter only have 5 or six. The weat- her man has curtailed our

FRIDAY MARCH 29, 1935

NUMBER 13

## REMOVE FARM FAMILIES FROM RELIEF ROLLS

Austin, March 25.—Removal of all farm families from the general relief rolls to the rural rehabilitation program was a step nearer this week as officials of the Texas Relief Commission announced that henceforth all farm families residing on farming acreage will be classed as rural rehabilitation families, and will receive aid only in the form of credit advances.

As a result, these families will come under all regulations of the rural program, and notes in favor of the rural corporation will be taken from these clients for all such subsistence or any other advances from the relief administration.

Relief officials have estimated that from 35 to 50 per cent of the states caseload consists of rural farm families and that the general caseload will be reduced by approximately 100,000 cases when all of them have been included in the rural plan.

"We want to include all of our rural cases in the rural rehabilitation program and get away from further outright relief grants," said E. A. Baugh, assistant director of the Texas Relief Commission. "Under the rural plan, we analyze the needs of the family, set up an operating budget and farming plan for a year and provide management to enable the family to maintain a sufficient income to meet the notes given for all advances made from relief funds."

Since many of the families affected by the new order are tenants located on farm plots, landlords will be required to waive claims on this year's crops before further advances will be made by the Relief Commission. If the landlord, or any other lien holder, refuses such waivers, the client family will be removed from the relief roll and the lien holder so notified in writing, according to instructions issued by the Relief Commission.

Mrs. Val M. Keating, director of Social service, said national relief officials have severely criticized the state of Texas for the size of its load.

The major portion of the increase has been in rural areas," she said, "and we believe that many landlords have taken advantage of the reorganization in refusing to finish tenants."

## PROF. LOWREY RE-ELECTED HEAD OF JAYTON SCHOOLS

We are informed that Professor G. A. Lowrey was re-elected Superintendent of the Jayton Schools. We think this very right and proper as he is certainly one of the best school superintendents we have ever known, and the school is making good under his leadership and direction.

## WORKING ON GAP IN HIGHWAY 18

The road crew working on highway 18 between Spur and the Kent County line resembles a small army. Men, mules, trucks, tractors, graders, steam shovels and camp houses cover an entire hill side.

S. W. Ellerbee was on the sick list last week but was able to be in town Saturday and Sunday. He enjoyed his birthday dinner at the home of his daughter Mrs. Coleman Gallagher.

ment should be adopted in its present form. Bailey Jones of New Braunfels, Mayor Tom Miller of Austin, City manager Bill Taylor of Levell, Mayor Pete Renfro of Belton and others all pointed out the exemption of \$3000 homes would cut their city revenue in half, cripple municipal services and force municipalities to default on bonds heretofore issued in good faith.

"I don't believe that we ought to carry the man who owns a \$3000 homestead for a free ride on municipal service," said Mayor Tom Miller. "I believe any good American who pays and ought to pay a little something for what he gets from his community. I think the idea of this exemption originated in the minds of members of the legislature, and not of the people. Nobody has come to office and asked for it, and if people of Austin demanded it, it would have been in to see about it."

## EARLY TEXAS HISTORY RETOLD

Austin, Texas March 26th. Friendliness and hostility alternately reigned in relations of the whites with the Indians during the early days of Spanish colonization in Texas, it is evident from historic records. One tribe would be amicable, another bitterly inimical. Documentary proof of this paradox is given in a display of materials from the Texas Archives in the University of Texas Library now on exhibit in the archives room.

One item of this exhibit is an impressive citation dated 1781, and signed by Estevan Miro Spanish governor of Louisiana, in recognition of the services of Apilabate, an Indian of the Yukemi tribe, in promoting peace between the Spanish and the Indians. He is given the title of "Chief of the Small Medal" as evidence of the esteem in which he was held in peace and war.

Another document in the display dated in the same year is the beautifully written report of the governor of the province of Coahuila and Texas, Don Domingo Cabello, who was also in command of the presidio of San Antonio de Bejar, then the seat of Spanish government in Texas. It is written in script as regular and exquisitely formed as fine printing and on paper whose fine quality indicates that it was imported from France. In it Cabello writes of the fierce depredations of the Lipan Indians at the very gates of the military garrison. He recounts the numerous sallies in which he sent pursuit parties from his small company, all of which were futile because of the facility with which the Indians could learn of their approach and could steal away, only to return and strike again. He describes in detail the horrible manner in which the Indians mutilated the bodies of their victims, and closed with the advice that he could no longer premise successfully to defend the settlement due to the inadequacy of his forces.

## FARMERS SEED LOAN NOTICE

Applications for Seed Loans are being taken for Kent County by N. E. Porter at his office in Jayton, Texas. These loans are for non-relief farmers only, and are from a special fund available by the Federal Emergency Relief Administration for loan for spring planting of forage, truck, and commercial planting. These funds have been made available to meet the emergency created by lack of funds on the market for seed crop and feed. The Farm Credit Administration is the source of the funds.

## JAYTON CLUB WOMEN TO ACT

## TEXAS PRODUCES MINERALS VALUED MANY MILLIONS

Austin, Texas March 26th.—Sulphur was the leading mineral produced in Texas during 1933, aside from petroleum, according to comparative figures compiled by the University of Texas Bureau of Economic Geology. The 1,032,967 tons of Sulphur mined had an aggregate value of \$19,493,406. It was estimated on the basis of returns made to the State Comptroller.

Cement was produced in the amount of 3,091,071 barrels, valued at \$5,268,605; clay products valued at \$2,000,000; were produced; 1,216,820 tons of stone valued at \$1,146,580 was mined, and gypsum totaling 112,106 tons valued at \$1,058,860 was produced.

Other minerals produced in Texas in 1933 include the following: Asphalt, 526,069 tons valued at \$353,847; coal and lignite, valued at \$833,000; Fuller's earth, 45,395 tons valued at \$411,350; Lime, 36,286 tons valued at \$339,305; and miscellaneous minerals valued at \$925,596.

No copper, no lead, no gold and no silver were included. No estimate was given of the amount or value of natural gas-gasoline produced. The total value of the minerals produced aside from petroleum was \$34,089,202 as compared with \$67,546,496 in the year of 1931.

## FARMERS SEED LOAN NOTICE

Applications for Seed Loans are being taken for Kent County by N. E. Porter at his office in Jayton, Texas. These loans are for non-relief farmers only, and are from a special fund available by the Federal Emergency Relief Administration for loan for spring planting of forage, truck, and commercial planting. These funds have been made available to meet the emergency created by lack of funds on the market for seed crop and feed. The Farm Credit Administration is the source of the funds.

## PALACE THEATRE INSTALLS NEW EQUIPMENT

E. L. Draper, manager of the Palace Theatre in Jayton, this week installed new sound equipment of the latest type, high fidelity, and tests show that the new system is perfect. It brings out the small details that we do not hear in ordinary pictures. Large speakers have been installed and correct sound reproduction is assured at all times, also he reports the installation of a large screen.

Mr. Draper states that he is endeavoring to give people in Jayton and Jayton trade territory the best, not only in pictures but in sound.

Re-decoration has started, the lobby of the theatre is to be finished in silver and blue with tuxedo finish in the inner lobby in polychrome effect, a blending of several pleasing colors.

Mr. Draper stated that he was ready to cooperate with any organization needing funds by giving a special benefit show. Lets support a home institution and spend Jayton money in Jayton.

## TEXAS HOUSE VOTES ON OLD AGE PENSION BILL

Austin, Texas, March 25.—The House of Representatives of the Texas legislature voted overwhelmingly today to submit a proposed constitutional amendment authorizing creation of a system of old-age pensions. Not Over \$30.00 Month

The only limitation in the resolution of submission adopted 126 to 2, was that pensions should not exceed \$30 a month. If approved by the senate, the election would be held in August 1935.

The action came in the midst of one of the most active days of the session. Previously, the legislature had passed a bill with little opposition to create a market for natural resources. The bill would have authorized the state to sell its natural resources to the highest bidder.

## CITY ELECTION NEXT TUESDAY

The City election will be held Tuesday April 2 at the Tabernacle, according to the best information obtainable.

We are publishing a copy of the ballot as printed by orders of the City Secretary.

You will see by the ballot that there are two proposed candidates for the office of Mayor, L. F. Wade best known as the Editor of the Chronicle, is one of the two listed. His name was placed on the ticket with out consulting him or asking his consent.

While we believe he qualifies fairly well as a small town editor, its a self evident fact, he would if elected make a very punk mayor.

In the first place he was born 30 years too soon, therefore is out of date, a man with ox-wagon ideas has no business being mayor of a city like Jayton in this day of mile a minute automobiles and thirty-hour work weeks.

"You can't teach an old dog new tricks" is a very old and truthful saying, and he is an old dog. Set in his ways, hard headed contentious and if elected would be hard to get along with.

Its our opinion a mayor should be a young man with vigorous body and progressive ideas. Physically fit as well as mentally fit to carry on the city government in an aggressive manner and that brings up the name of Glen Huls:

Mr. Huls is an aggressive young man, a diplomat well qualified to give the city a leadership that will place our beloved town right up in the front ranks of the states most progressive sub-divisions.

He has plenty of spare time that he can devote to the development of the town.

Under these condition there is only one sane, sensible, patriotic thing to do, scratch old man Wade's name and elect the brilliant young active, progressive aggressive Mr. Glen Huls as Mayor of Jayton by a unanimous vote.

**A TIP TO THE NEW TREND**

**Start Your Spring Ensemble With the FOUNDATION**

A beautiful building is started with the foundation so it should be with the beautiful lady—suppose your figure is a little out of shape, merely putting on a lovely Dress does not correct the shapeless figure... it takes a FOUNDATION GARMENT!

**Even If You Make Your Own Clothes**

You cannot possibly wear them as prettily as if you wore a FOUNDATION GARMENT, to hold your bust at least one and a half inches higher than usual and to draw your waist line to its proportioned size.

**School News**

Last Monday morning Miss Yarbrough presented a program in chapel. Betty Jo Lane gave us a typical idea of how girls study when they get together. Dorothy Lou read a little boys theme on "noses". The Jayton High school trio composed of Doris, Peggy and Doris Mays sang three numbers, Barney Faye Sewall played a number on the piano.

Since the county meet we have not had much athletic competition but are getting plenty of exercise anyway. This sand gives us lots of pep so you ought to know we are full of action.

Last Thursday Miss Bier went to the South Plains music festival at Lubbock, Morle Rose, Verda Mae Fuller, Jo Del Cade and Peggy Lou Fowler went with her. Everyone reported an enjoyable and educational trip. Merle said he almost learned to play the flute.

Miss Waddell is giving her tennis bunch a good work out nearly every afternoon. We are expecting them to bring home the bacon. Miss Huffhines' volley ball team is practicing most every day and it is a queer sight to see them play the teachers. Our literary work is under way too so lets all see how they come out in the district meet next week.

**SENIOR CLASS NEWS**

The senior class has ordered their invitations and are looking forward to their arrival.

Watch for the announcement of the senior play which is coming soon.

The class detective notices that Owen is wearing his ring again this week.

**JUNIOR CLASS NEWS**

The junior class is just standing by this year with their class news and letting the seniors strut their stuff. Of course if we really wanted to tell off on the Seniors we might mention the fact that Florence Barkley and Euna Vay go walking meet every night and Geraldine takes her fathers car airing in hopes someone

will be wanting a ride. We might tell about Esther waiting at her bedroom window for the "highwayman" and Pauline writing so many letters each week. There is another true fact we might mention about the Senior boys begging the Junior girls to wear their class rings, but we want to be friends with the seniors so we will just keep all this to our selves. Next year will be 'our year' and then we will take "our privileges" so that when we are called down we will just remind them that "we are Seniors."

**SOPH NEWS**

There really isn't any use for the sophomores to write school news. But don't get us wrong; it isn't because there isn't any to write it is because we are all so important that everybody knows we are up here anyway. In fact Mr. Lowrey thinks he couldn't get along without us in Algebra 2. The other day we had three problems to bring up and every one in the class got all eight of them. The seniors have their privileges now and do they feel important.

**FRESHMAN NEWS**

The eight grade have two important scenaro writers which are John Arden Wilson and John Robinson.

Following is one of their major hits of the season:

**"Now and Forever"**

The cast:

Featuring John Wayne  
John Wayne ..... Jim  
Mae West ..... Eva  
Shirley Temple ..... Bet

Once upon a time Jim came in about dark and as he opened the door Bet jumped into his arms and kissed him, then Jim went into the kitchen where Eva was cooking supper.

The next morning Eva did not get up. Jim was worried about her and he called Bet and told her that Eva was very sick. Jim said, "Go saddle Duke and go for a doctor as fast as you can. Soon Bet came back from the barn with Duke. Jim holloed at her, "Get some medicine NOW AND FOR EVA."

**Third Grade Perfect spellers:**

La Rue Robinson, Ruby Lee Taylor, Mary Lee Bilberry, J. D. Fulsher Juanita Taylor, Clifton Haynes and Louise Smith.

**BACK ROOMS HAVE POSSIBILITIES**

"I converted the packing room of our house into a bedroom of my own," Mr. E. C. Hoyle, father of Betty Hoyle, who won a trip to short course last year on her improved bedroom, told the home agent. He jestingly remarked that he wanted the agent to look the room over and give him some advice for added improvement so that he, too, would have a chance in the contest on bed room improvement this spring.

Upon inspection the agent discovered that the one time packing room, so called because all junk was "packed into this room", had actually been renovated into a neat bedroom. She was told that the light cream colored finish on the walls was not kalsomine but had been made out of caliche which had been obtained near the house. Salt had been added to the mixture of caliche and water to make it cling to the walls. Then it was applied as kalsomine.

"By sawing here and there an old bedstead was made to look more modern. With two coats of enamel you would never guess that it had been an out east in the back yard for years, too many to recall.

"I got the home improvement spirit while I was helping the girls with their bed room. After we finished with that one it was evident that much could be done for the rest of the house without very much cost. I think each member of the family should have a room in the house in which they can be to themselves occasionally and this bed room affords me that pleasure," he states.

**RADISH TOPS FOR SALADS**

"Young and tender radish tops combined with lettuce or onion make nice salads to serve with meat dishes," says Mrs. H. D. May of the Jayton H. D. Club.

"Chop the radish tops and add onion. Use a salad dressing made of melted bacon fat to which vinegar salt, and mustard has been added. Grated egg or raw carrots make an attractive garnish for this salad," she stated.

A tip—The successful coon hunters never use a spot light until the coon is up a tree.

**WORKS OLD CLOTHES CLOSET OVER**

"Changing position or hanging rod, lowering one shelf, adding three others, papering the inside of the clothes closet and making a large card board box into a hamper for soiled clothing, and fixing a shoe rack and hat stands were improvements that made the shell of a closet we had into one of convenience and adequate storage," says Mrs. Ven North, farm food supply demonstrator of the Jayton H. D. Club.

"I took a large card board box and papered it on the out side. The side which had originally opened in it is fastened and turned toward the wall. This makes the side of the box on top. This is cut on three sides to make the door thru which the soiled clothing is put into the box. When you wish to remove the clothing it is easily done by removing the box from the closet and letting down the original opening which was turned to the wall," she says.

**FEED AND FIELD SEEDS**

ALL KINDS

Tagged -- Re-cleaned -- Tested  
See what I have. Get my prices before you buy. If I don't have it I can get it for you, and save you money.

EXTRA SPECIAL!
