

# THE JAYTON CHRONICLE

VOLUME XV

JAYTON, KENT COUNTY, TEXAS.

FRIDAY APRIL 12th, 1935

NUMBER 15

## Nobody's Business

(By Julian CAPERS Jr.)

Austin, Texas, April 10th.—The Texas Centennial appropriation bill, surviving the most boisterous legislative fight in memory, apparently has weathered all attacks, and went safely to harbor in a free conference committee last week end. It has every prospect of emerging within a week, possibly before this end by the readers of the Chronicle, in a form satisfactory to everybody except some members of the centennial commission. It probably will appropriate \$1,000,000 for buildings at Dallas, \$200,000 to equipment, \$500,000 for advertising, \$300,000 for local memorials, of which \$20,000 is earmarked for the region memorial museum project in Austin. Control of State expenditures is vested in a special commission with Lieut. Gov. Walter Bodal as chairman two members appointed by himself, two by speaker Coke Stevenson and two by Governor. The latter provision injured feelings of some Centennial commissioners.

When the centennial celebration became Texas history, great children of certain legislators recall with pride the valiant work forebears did to save the Centennial appropriation bill. These were the descendants of the entire Dallas delegation; Duval, Fort Worth; Terrell, Hopkins of Gonzales, Bob of Brenham and Elmer Pope of Corpus Christi. On the Senate side the Centennial heroes there included Welly Hopkins of Dallas; Tom Hobbrook of Galveston, the best-informed senator on History, and Frank Rawlins of Fort Worth, who, beaten down in a fight for a livestock appropriation turned in and fought to help save the bill. Important foes of the Centennial bill fought it to the last ditch were Burns, from Historic Huntsville of Stonewall, and Liberty, another historic coun-

try acid is the vehicle that set of Texas sulphur to market. It was made exclusively from sulphur deposits. Testimony before the house revenue committee showed now more than half sulphuric acid used by the being made by a new chemical from iron pyrites a compound found in most every shrinking market thus re-voled the ardor of some of the for a \$2 tax on Tex-

## CHILD HEALTH DAY MAY 1st.

Austin, Texas, April 10th.—"Texas will write with other states throughout this country on May 1st in the celebration of Child Health Day," Stated Dr. John W. Brown, State Health Officer. The flag flown from government buildings the other 364 days in the year all symbolize some activity of or in behalf of grown-ups. They pledge loyalty to the government, commemorate great historical events, or the deeds of national heroes. But, in accordance with the AAct of Congress under which Child Health Day was made a National Day, for this one day the Star Spangled Banner is displayed on public buildings as a reminder of the obligation of all citizens to care for and maintain the health and well-being of the children and young people of the nation, those upon which the duties and responsibilities of the future citizenship rest.

"The purpose of the Child Health Day observance, national and state," Dr. Brown said, "is to focus attention on the inherent rights of every child to health, happiness and intelligent care; to opportunities for normal growth and development, physical mental and spiritual, and to community responsibility for seeing that such care is available for all children. Child health day is not an end in itself. Instead it marks the beginning of the year around activities of all forces charged with the maintenance and well-being of the children and young people of this state.

"Some of the things to which attention should be given in connection with the observance of Child Health Day:

"The right of every mother to adequate care, before, during, and after the birth of the baby.

"The right of every child to adequate care.

"The right of every young child to be protected against diphtheria and smallpox.

"The nutritional needs of growing children and the importance of milk, whole grain cereals, green leafy vegetables and fruits in their diets.

"The recreational needs of children and young people; provision for safe suitable places for play and pleasure.

## KILLED IN ACCIDENT NEAR LITTLEFIELD

The people of Jayton and Girard were terribly shocked and saddened when word was received that Mr. and Mrs. Sam Yandell, formerly of this county, and their five year old grandson Allen Lee Harp, were killed when the car in which they were riding was hit by the fast moving Santa Fe train some seven miles west of Littlefield, Texas.

Mr. Yandell was 64 and his wife 61 at the time of their death. The bodies were brought back to Girard on April 8th and interred in the Girard Cemetery. The Masonic lodge of Littlefield had charge of the services at the cemetery. Rev. Scott of Littlefield assisted by Bro. Marvin Hahn of Girard had charge of the Church services.

All of the 7 living children but one, Archie of Boulder City were present at the funeral.

The many friends of the deceased extend sympathy to the bereaved.

## VACANCIES IN U. S. MARINE CORPS BEING FILLED

The New Orleans District Headquarters Replacement office for the U. S. Marines Corps announces that applications are now being received to fill vacancies during the month of May. Applicants to fill vacancies receive their preliminary examinations in their home localities and those selected receive their final examination at U. S. Marine Corps Headquarters 535, St. Charles St. New Orleans La.

The following qualifications are required; single, not less than 66 inches in height, of good moral character and not over 25 years of age. Application blanks and full information will be sent on request. Two letters of recommendation and a statement of education must accompany all requests for application blanks.

County Judge Earnest was seeing friends in Jayton Tuesday of this week.

## NEW TOWN OFFICIALS INSTALLED

The new Town government has been organized with L. F. Wade as Mayor, W. J. Garrett, Secy-Treas., J. M. Hall as Marshall, Assessor and Collector, Ross English will be in charge of the Water Department. Aldermen are W. J. Garrett, Joe Earnest, C. H. Brown, L. O. Mayer, and H. D. Black.

Regular meeting nights will be the first Tuesday in each month. Parties having accounts against the city must file them with the Town Secretary and they will be passed on only at regular meetings of the Aldermen.

A financial report will be prepared and published as soon as one can be worked out.

According to the Tax collectors books there is due the town more than \$10,000 ten thousand dollars in delinquent taxes, which in-so-far as possible must be collected to meet the Towns bonded indebtedness, as it can't be said just what would happen.

The new administration will strive earnestly to work with the taxpayers and all interested to improve the conditions as much as possible and ask everyone to cooperate with them wholeheartedly and unselfishly.

Parties having complaints to make are asked to come to the council meeting and make them. Street belly-aching will get you no where and accomplish nothing.

## REVIVAL BEGINS AT TABERNACLE SUNDAY MORNING

You are cordially invited to attend all these services. We will only have a few days of this special time for spiritual refreshment. We can use these few brilliant services for the greatest blessing. Come though placing will do these good things.

Below you will find the sermons to be given on Sunday morning April 14th.

"Will thou not revive us again?" Sunday Night April 14—

"And there shall not an hoof be left behind." Monday Night April 15—

"Sin." Tuesday night April 16—

"Prepare to meet thy God" Wednesday night April 17—

"If ye believe not that I am He, ye shall die in your sins." Thursday night April 18—

"The Prodigal Son." Friday night April 19—

"Excuses" Saturday night April 20—

"How shall we escape if we neglect so great salvation?" Sunday Morning April 21—

"If a man die, shall he live again?" Sunday night April 21—

"He lingered."

This is not just a Methodist meeting, it is for the whole town. Whether you are a Methodist or not you are welcome to come and work with us these few days. The evening services will begin at 7:45 and week day services at 10:00.

## TEACHERS ELECTED FOR COMING YEAR

The following teachers were re-elected for the coming school year of 1935-36.

W. L. Coons, Blanche Yarbrough, Mabel Waddell, Eunice Marie Huffhines, Mayme Morris Murphy, Opal Louise Creighton, Wilson Garrett, and Maurice Patton.

The board also discussed the plan of electing Miss Carrie T. Bier to teach public school music throughout the grades, no definite action was taken on this until a further study of school funds were made.

For the past two years the school has been able to maintain a nine month session through State and Federal aid thereby using the local taxes for teachers. We will probably be able to continue this same policy for the next two years all depending upon the present congress appropriations at Austin, it seems that the National Congress has made the proper appropriations and if Texas can show need for it the funds will be passed on to Texas Schools.

We are selling whole milk, 10c per quart. Butter 30c per lb. delivered twice daily. Phone 112 — Jay's Dairy

**FOR SALE:** Good \$485.00 Small piano for \$280.00 Violin, complete with case \$15.00. Carrie T. Pler

## LETTER TO THE PEOPLE

Editor of The Jayton Chronicle Jayton, Texas.

Dear Sirs: I take this method of replying to the signers of the petition sent me, asking for a local bill to be passed for Kent County giving the people the right to vote on a stock law.

Senator Duggan and myself will look into this matter, and try to adjust it so that you may have this right.

Very Respectfully,  
Leonard Westfall  
Rep. 118th Dist.

## EMERGENCY CROP AND FEED LOAN APPLICATIONS BEING TAKEN NOW

Field Supervisor Mr. D. H. Sandige of the Emergency Crop and Feed Loan office at Dallas, Texas, states that applications for emergency crop and feed loans are now being received by the Kent county Loan Committee, with offices located at Jayton.

In accordance with the act of Congress authorizing the loans, and regulations issued by Governor W. L. Myers of the Farm Credit Administration, loans will be made only to farmers who are unable to obtain elsewhere, seed fertilizer, supplies feed or the necessary credit in the amount needed from any other source, including the production credit association.

Any farmer who has the necessary security should apply to the production credit association first. If the association is unable to make him a loan in the amount needed the farmer will receive a statement to that effect and will be considered eligible to apply for a loan from the emergency crop and feed loan office.

The regulations provide that the Abilene and set loan to one farmer this year hair styles will and the minimum \$10, but linary hoo

greater than is actually needed to cover the cash cost of purchasing seed, fertilizer, supplies, feed and etc. Loans will be made for the purpose of growing and harvesting of crops for summer fallowing, for purchasing feed for livestock; but not for the purpose of purchasing machinery, or for the payment of debts.

Loans will be made only to applicants who are cooperating with the production control, Program of the Agricultural Adjustment Administration.

As in the past the security for an emergency crop or feed loan will consist of a first lien on the crop financed or on the livestock to be fed. A tenant must also give a first lien by getting the landowner to waive his claim in favor of the crop.

Checks in payment of approved loans will be issued by the Regional Loan. But the landowner is in no way obligated for repayment of his tenants loan.

## MONEY FOR WELLS UNDER FEDERAL HOUSING PLAN

Congressman George Mahon was advised today that it would be possible for farmers to secure loans under Title 1 of the Federal Housing Act for the purpose of putting down irrigation wells on their farms. This interpretation was made by the Legal department of the Federal Housing Administration after Mr. Mahon had called on them in regard to the irrigation problem.

The Act provides that the Federal Housing Administration may insure loans made by local banks to home owners for the purpose of making improvements up to \$2,000. A farmer may apply to his local banker for funds to put down a well and provide the equipment. If this loan is made in accordance with the regulations of the Act, it will be insured by the Federal Housing Administration, according to the information received.

Of course the local banks would be judges of the soundness and desirability of this type of loan. The sure policy of the Federal Housing Administration in regard to these loans cannot be predicted with certainty.

It is still dusty as we go to press.

## REFERRING TO THE STATE HELPING FINANCE CENTENNIAL COSTS

The Senate provision that 50 percent of all profits of the Centennial be given the State is more than fair. The City of Dallas, through municipal and corporation bonds, will be contributing five millions of dollars, to the Centennial while the State is contributing one million, and a proposal to permit the State to share fifty-fifty in Centennial profits it seems to us, is exceedingly generous. We have had occasion to say before, but should like to reiterate, that if the State actually did not receive one penny from a successful Centennial celebration it would be benefited enormously. The real benefits accruing to the Texas of today and tomorrow will be measured not by the Centennial gate receipts but by the accelerated development of the state which is bound to ensue and which will exert a stimulating economic influence in every hamlet and home in the state. There is no need for the legislature to fear that the State will not properly benefit from the Centennial unless it gets a generous share of the gate receipts.

—The Texas Weekly.

The above expresses our thoughts better than we could have expressed them ourselves. Therefore we print this article and give it our 100 per cent approval.

## STYLE SHOW AT PALACE THEATRE IN SPUR, TEXAS

Manager Everts of the Palace Theatre, Spur, announces the annual Bryson-Link Company, B. Schwarz & Son Spring Style Show will be presented at 8:30 P. M. Friday night, April 12th in connection with Monogram's "Women Must Dress"

While the new Monogram film is of surpassing excellence from the standpoint of its production and acting, it is an added allure in its varied and lavish display of latest creations in feminine finery which make it especially attractive to women.

Outstanding among the members of the well selected cast is Mina Gombell in the starring role. Miss Gombell handles the difficult role of a wife and mother who changes from a plain, sedate housewife to an ultra smart business woman and fashion designer.

The star is aided by Gavin Gordon, playing the erring husband, Lenita Lane, as the other woman, Hardie Albright, as a young physician and Susanne Karren, as a giddy daughter. The picture is also marked by its introduction of six beauty contest winners representing various sections of the United States. Their screen debut shows much promise.

As a special added attraction, Mr. Everts has booked "La Cucuracha" a short subject made entirely with the new three dimension process of Technicolor which brings out all of the natural colors instead of the usual red and green. It is said that in the near future all feature pictures will be made using this process, which is quite expensive and highly technical.

Everts is justly proud to present such an outstanding entertainment at regular admission prices and suggests early arrival, to obtain desirable seats.

## KENT COUNTY TEAM WINS 2ND

Kent County won second place in the team demonstrations on "The Utilization of Canned Meats," at the Lubbock meat show. Mrs. H. D. May and Mrs. Van North, the team from the Jayton H. D. Club, competed with sixteen counties in the team demonstrations. Places were awarded in the following order: Dawson, Kent, Lamb, Sheffield and Lynn.

A first place was given on cooked soap to Mrs. Z. T. Millican and a fourth to Mrs. E. R. Cox on Chili, both of the Center Point H. D. Club.

Guy Brown and Uncle Sam McCombs were in from the McCombs ranch Wednesday enjoying the dust with their Jayton friends.

Marvin Carlile, Roby Banker was in Jayton Wednesday of this week.

Sheriff B. A. Cumbie was over from Claremont Wednesday.

## BIG WELL AT CITY LAKE SITE HOLDS PROMISE OF ABUNDANCE OF WATER

The best news we have for our local readers this week is that present indications now are, that Jayton's soft water troubles appear to be near solved. Lee Patton and a crew of men have been working on a big well below the dam on the city lake property and have developed a flow of water from a coarse gravel bed that is proving most encouraging. Wednesday morning the pump was lifting a solid three inch stream of water and measurements showed that it would take at least four hours pumping before work could start again in the bottom of the well and continued pumping of a two inch stream is necessary to enable the work to continue. The gravel bed has only been penetrated in the middle of the well which is 18 feet in diameter.

The concrete curbing will be set just above the gravel bed on the hard clay in order to cut out the sand above the clay.

When the well is completed the water will be pumped directly into the City pipe line at the big pump station at the lake. As soon as the work can be finished a concrete storage tank will be constructed at the station and kept filled with water for reserve use. In case of fire the big pump can be used to drive the reserve supply into the stand pipe tank in town.

Should one well prove insufficient the engineer says there is plenty of room for several more and no doubt some time in the future another well will be put down and plans developed to make a city park and play ground on the hillsides and in the valley around the wells.

The concrete curbing will be built up above any chance of overflow and the well will be covered to keep out all dirt.

We feel that we can safely say that Jayton is assured of a bountiful supply of water for the future.

## CAN YOU BELIEVE IT?

Austin, Texas, April 10th. Only five Texas Counties could boast a record of less than five per cent of their residents on relief rolls as of March 1, statistics compiled by the Texas Relief Commission reveal. These are Crockett, Kenady, Lavaca, Reagan and Winkler.

Fourteen others, Hudspeth, Terrell Upton, Farmer, Hutchinson, Carson, Hidalgo Cameron, Nueces, Bee Gonzales Fayette and Fort Bend, were in the respectable class in the eyes of state relief officials with not more than from 5 to 10 per cent of their residents receiving aid. Twelve counties had more than 40 per cent of their inhabitants on the relief rolls as follows:

Loving, Yoakum, Cochran, Garza, Kent, Stonewall, King Cottle Titus Cass, Llano and Zapata.

"These high case loads have got to come down at once," said Adam E. Johnston, state relief director, as preparations were being made to send out funds for April.

"Federal Authorities have cut our applications drastically and this means we must reduce our caseload or the individual budgets of clients. We want to issue adequate relief to those in dire need and administrators have been instructed to examine their rolls closely and close out all cases where the need for aid is not clearly established.

A further reduction in the number of cases is hoped for in May as the peak will be reached for seasonal farm employment.

## SPUR MUTUAL INSURANCE STILL WORTH 100 CENTS ON THE DOLLAR

All doubt of the Spur Mutual Insurance Company was removed this week when thru the Brown-County Life Insurance Company in which they had re-insured their policy holders they began paying their death claims.

The delay in making payments was caused by the great rush of work in transferring the duplicate records to the Brownwood office. Notice their advertisement elsewhere in the Chronicle. We are also pleased to report the Sampson death claim, Robinson Bros. beneficiaries was paid in full this week.

SUBSCRIPTION PRICE PER YEAR \$1.50

The man who is always saying "Can't" is a puny creature growing less and less, weaker and weaker.

You are simply losing everytime you stop to pick flaws in anything or in anybody.

You cannot set too high a price when you start out to put yourself on the public block to be sold to the highest bidder.

You cannot sing the sweeter songs until you walk amidst the shadows. The mocking birds sing the sweetest in the dead of night.

You can share happiness with others but, after all, happiness comes from the secret springs in the human heart.

All this hue and cry among those who would call the world's peace-makers visionaries take upon themselves a heavy burden of proof. They are dreamers, to be sure! The kind of dreamers that were Caesar, Napoleon, Wellington, Nelson, Washington, Lee, Grant, and Lincoln -- the dreamers who could make their dreams come true!

You are happy now but some days the clouds are heavy. Spirits high in languid sadness for the dawn's light. Hearts are listening to the sighing of a fatted sea whose moanings will not hush. Some peer hearts veil its eye against a vulgar gauntlet on the very verge of despair. Some poor respondent soul watches the approaching cloud that is sure to shut out the stars. Somebody is crying over its loved and lost. And some with eyes filled with tears, are gazing far out into space waiting for a familiar form that vanished in the years long since gone. Much of the world is crying for its loved and lost. Somewhere, some when, out yonder in life's pilgrimage, you too shall weep, solitary and alone. In those starless night we long for the touch of a friendly hand. For that very reason a friend is priceless.

THE AMERICAN CHARACTER

"The extent of insurance protection in America is the best evidence I know that this country is fundamentally sound," said Henry Swift Ives recently.

That is an especially apt observation when applied to life insurance, which is the average man's first line of defence against hazards of the future. Last year the public paid premiums to keep in force life insurance totaling \$100,000,000,000. Many of the premiums paid represented real sacrifices, men and women went to extreme lengths to maintain their policies in force, knowing that they might be their only protection against even greater adversity in days to come.

America is the most heavily insured nation in the world, and that in itself is a testimonial of the ancient American quality of independence. The men who buy an insurance policy, and pay for it with his hard

earned money, isn't the type of man who will willingly become a ward of the government. He wants to provide for his future and that of his family through his own work, thrift and foresight. As long as that attitude exists, we will have little to worry about so far as the American character is concerned.

THE CROOKED LAWYER

No profession should hold to higher levels of honor, integrity and honesty than should law. The right to practice in the courts of justice carries with it a vast and inescapable obligation to the public. Most lawyers live up to the essential standards, a few do not. And these few, as Courtney Riley Cooper points out in an interview with Attorney General Cummings, appearing in a recent issue of the Saturday Evening Post, are as much the enemies of the public as the gangster they defend.

Mr. Cooper cites almost incredible instances of lawyers who are retained by known criminals and are given large sums of money to use in any way they like, so long as acquittal is obtained for the underworld client.

Such lawyers worry little about evidence or justice, they know that bribery is a more effective weapon. They train their clients like actors, so that when they appear on the witness stand they can make "staged" answers to any question. They obtain perjured alibis, and buy off prosecution witnesses. In Mr. Cooper's words, "It is all fakery, crookedness and chicanery."

Bar associations, the judiciary and honest individuals are working tirelessly to rid society of this type of lawyer. But, as the interview points out, all such worthy efforts are doomed to failure without aggressive public support. Many people are inclined to be amused by the unethical lawyer, they even go so far as to admire the "cleverness" with which he manages to circumvent the ends of justice. So long as this attitude obtains, the rhyter will prosper, and the ethics of the legal profession will suffer accordingly.

The law is the very life blood of society. Its best administration in our main defence against medieval social darkness. The crooked lawyer mannaes it all, and his good offices (at high prices) on behalf of the most desperate criminals are carried on at the expense of the entire public.

FAILURE

"It actually works," said Mr. Sid Munsey in speaking of the tie he had placed in the garden plot for sub irrigation purposes. The three rows of tile irrigate a plot sixteen feet by about fifty which will be used for growing tomatoes. The tomatoes will be spaced four feet apart and in the middle such vegetables as radishes, lettuce and spinach will be planted.

By the time the tomatoes are large enough to interfere with the growth of these vegetables or vice versa one of the two will have been harvested.

The garden is near a windmill. The water is piped within a few feet of the garden. A hose is connected to the pipe and carries the water to an iron barrel which is placed in the ground with a lead pipe covered with screen wire opening into the tile line. This irrigates the three rows.

CENTER POINT H. D. NEWS

"Collars are the most outstanding features in making our 1935 dresses. So many cute little designs can be worked out and fitted simply by taking our foundation pattern and fitting them by it," said the Home Demonstration Agent at our meeting Tuesday at the home of Mrs. T. S. Havins.

After the demonstration we now feel like we can make a collar that will rival the store bought collars.

Reporter.

Great showers of dust continue to fall over this part of Texas most every day. Eventually we will have all of Kansas and part of New Mexico and part of Colorado scattered over the plains of Texas, and should we ever come into a time when we receive plenty of rain this country will produce most everything from cotton to populists party whiskers.

The Rural Community Has Come to Town
The rural community and small city faces a new future. Electric service and all that electric power and light mean to home life, commercial and industrial development is now available for a more constructive and wider field of achievement.
Much work, planning, testing, engineering and large investments of capital was necessary in order to make this possible. Our 2600 miles of power transmission lines, interlacing 49 counties in West Texas and serving 160 towns and communities provide an adequate and economical source of dependable electric service with precise regulation to meet the requirements of modern day appliances.
Today hundreds of small West Texas towns and communities can offer to industry this modern electric service in proximity to raw materials... two very necessary prerequisites for industrial progress.
We point with pride to our part in assisting the small towns and communities in this way, thus guaranteeing to them the same opportunities in respect to power as the larger metropolitan cities enjoy. It is our policy to fully co-operate with the small towns and communities we serve so that they may realize the full benefits of accompanying and made possible by electrical development.
West Texas Utilities Company

BETTER BEAUTY WORK

You get only the best of beauty work here... are not here today and gone tomorrow... making you dissatisfied. Our work stands the test for we make it good.

Mrs. Ivey F. Murdoch

A big rabbit drive was held the first of the week North East of Jayton. Dinner was served to the hunters at the J. E. McKenzie Jr., home.

Marvin Fuller had business in Aspermont Thursday.

S. R. Lee had business in Rotan this week.

Uncle Newt Ward was a pleasant caller at the Chronicle office Thursday afternoon. He has feed up and growing.

Johnnie Jones and wife are driving a new Ford V-8 bought from Black motor company thru their Salesman H. J. Whitley.

Mr. Tacket of Girard was a friendly caller at the Chronicle office last Saturday.

Mrs. R. L. Alexander, Joe Paul and Cobb Wade made a trip to Lubbock last Saturday.

Mr. Winters who entered his name in the old settlers records of West Texas thru the Star Telegram some time back has had several letters since that time from folks in east Texas who remembered him as a young man and small boy. Two who have written him, a nephew and a school boy companion, from whom he had not heard from for over fifty-five years, afforded him great pleasure. Uncle Dave is getting a great kick out of these letters, he states that it is sure queer how much results you can get from a little advertising.

We are told that the new city administration is planning to place a head tax of one dollar on insurance agents and a dollar tax on dogs. Its a question as to which will bring in the most money.

JAYTON M. D. CLUB NEWS

Shoe materials are very becoming in ripple collars and Jabots, according to statement made by Miss Versaloe Jones to the Jayton Home Demonstration Club women, at a collar demonstration given at the home of Mrs. Claude Darden April 4, 1935.

These collars are cut by placing

the shoulder seams of your foundation pattern together as will be when sewed. Get the neck line and shape of your collar, cut the paper pattern in strips from bottom to neck line, place on material, spread out where fullness is desired.

The following committee chairman were appointed: Mrs. H. D. May Chairman of Expansion Committee, Mrs. J. C. Sprouls, Finance Committee, Mrs. Claude Darden, Year book.

Always give a piece of information in your club reports so that persons not present can understand what was done at the meeting, was reported by Mrs. Darden who attended a reporter's school at Stamford March 21.

Do not cold pack meat as this method leaves air in your containers which causes mold in meats, was reported by Mrs. May and Mrs. Van North who attended the meat school in Lubbock last week.

MAKE 'EM BEAUTIFUL AT LUBBOCK

A modern Cinderella will be created during the fourth annual West Texas and New Mexico Beauty School and Equipment show sponsored by the Russell Morrison company here April 22, 23 and 24th for the benefit of beauty shops of the territory.

Some comely girl will be taken from the Lubbock relief rolls, photographed, then transformed into the beautiful girl of 1935 through beauty treatments.

Professor James Monroe Harvey, nationally recognized astrologer, will be the one to pick the girl who can "wear the glass slipper." Harvey, one of the entertainers for the show, will make predictions in the field of astrology. He secured nation wide attention by predicting the abandoning of the gold standard, the California earthquakes of 193 and 1935, and other advanced calculations.

Jay Parker, Chicago, will create a coiffure particularly for the Lubbock show. He has appeared on international beauty show programs in New York, London, and Chicago, and predicts the next few months will see radical changes in hair styles.

"Hair styles for hat styles" will be the motto for Geo. W. Scoggins, Abilene, who has pioneered the connection of beauty parlor and millinery shop fields into one shop. Since he installed a millinery shop in connection with his beauty parlor at Abilene and concentrated on creating hair styles with each change in millinery lines.

all over the southwest have watched his developments closely and many have followed suit.

Approximately 25 major manufacturing companies handling nationally advertised products will have representatives here to assist Russell Morrison in staging the show and to demonstrate new equipment and new products handled by their firms.

Chickens, Turkeys

Give Star Sulphurous Compound in their drinking water (used regularly as directed it cost very little) and it will keep them free of germs and worms that cause disease; also it will keep them free of Lice, Mites, Blue Eggs and Fleas, that sap their vitality, and you will have good, healthy, egg producing fowls and strong baby chicks or we refund your money. - Jones Drug Co.

ROBINSONS

**School News**

Last Monday we were entertained in chapel by a group of students selected by Mr. Garrett. After the program Mr. Garrett introduced a plan whereby the school would select a high school girl to be crowned queen in a program at the last of school. The different classes met and elected their representatives; Seniors, Geraldine Callicotte; Juniors, Mildred Self; Sophomores, Mozelle Gallagher and Freshmen, Maurey Darden.

**Junior News**

The Juniors are terribly busy this week planning the Junior Senior banquet. We are hoping to make this annual affair one of the best in several years. Of course we are expecting our Queen, Mildred Self to win. Our class is behind her one hundred per cent.

Our class has been deeply mourning the loss of Jo Dell's black curly locks. Since she has seen how it affects the class she has resolved to let it grow out again.

We are proud of the fact that Miss Lela Pearl Cox was chosen from our class to bear the title "Miss Houston" in our last of school pageant.

A common scene at 3:15 is to see our beloved classmates, Barney, Merle and Ewell joining Mr. Coons in the history room for a quite session of correcting papers.

**EOPH NEWS**

At a class meeting Monday afternoon, we Sophs elected Mozelle Gallagher to represent our class in a high school popularity contest. We expect to make her "High School Queen". This won't be hard to do as we have the largest and free hearted class in school and besides that we have the fifth grade backing us.

Look out Freshmen, Juniors and Seniors here come the British I mean Sophomores.

**FRESHMAN CLASS**

We Freshmen are not to be left holding the sack at any time. When something new happens, we are right in the middle of it. Each class chose a girl to enter the race for school queen. Just watch our girl, Maurey Darden, win over the Senior girl.

Our illustrious class has been called the most intelligent in school, but far be it from us to boast. However, these past six weeks grades of ours are not to be scoffed at. The B's were more in evidence than the D's.

The following poem was found in Bake Robinson's Algebra book:

When I die, O bury me deep;  
Bury me down where the willows weep;  
Place my Algebra upon my breast,  
And tell Mr. Lowrey I've gone to rest.

**FOUND:** In front of the Post Office in Jayton, a pair of horn-rimmed spectacles. Loser may have same by paying for this ad. —The Chronicle

The weather has been everything but encouraging this week. High winds, dirt, sand and dust have prevailed most of the time. Its discouraging disagreeable and brings one to the brink of profanity.

The school election of last Saturday was a quite affair. 36 votes were counted in all. Joe Earnest, Ab Gallagher and Ross English were elected on the local board. Glen Huls for county trustee and Bud Cooper for precinct trustee.

C. J. Robinson, Buster Winters and L. F. Wade had business in Snyder Monday afternoon.

Mr. and Mrs. A. M. Morgan of Strawn Texas and Mr. and Mrs. S. B. Tadlock Jr. and daughter Tamia Nell of Lorraine Texas spent Monday of this week with Mr. and Mrs. Joe Earnest and family.

**CLAIREMONT NEWS**

One afternoon last week a drinking party took place in Clairemont, which was followed by an investigation of the officers. After this investigation which lasted in the night and until 10 o'clock the next morning a party was arrested charged with the possession and sale of intoxicating liquor and placed under bond to await the action of the Grand Jury.

Commissioner's court was in session Monday of this week, and our town had many county and out of county visitors.

Mr. and Mrs. E. A. Cumber are entertaining a new Deputy Sheriff in their home since Wednesday. Ed. Barnie says that the deputy is on the job and is hardy.

**Notice**

Notice is hereby given that the annual meeting of the Stockholders of the Farmer's Gin Company of Jayton Texas, will be held at the Methodist Tabernacle on Saturday April 13, 1935, at 3:00 p. m. for the purpose of electing the directors and transacting of such business as may properly come before the meeting.

# THE JAYTON CHRONICLE

VOLUME XV

JAYTON, KENT COUNTY, TEXAS,

FRIDAY APRIL 12th, 1935

NUMBER 15

## Nobody's Business

(By Julian CAPERS Jr.)

Austin, Texas, April 10th.—The Texas Centennial appropriation bill, providing the most hectic legislative fight in memory, apparently weathered all attacks, and was safely passed in a free conference committee last week end. It has every prospect of emerging by a week, possibly before this, and by the readers of the Chronicle in a form satisfactory to everybody except some members of the Centennial commission. It probably will appropriate \$1,000,000 for buildings at Dallas, \$200,000 to equip them, \$500,000 for advertising, \$100,000 for local memorials, of which \$30,000 is earmarked for the Centennial museum project in Austin. Control of State expenditures is vested in a special commission with Lieut. Gov. Walter Brantley as chairman two members appointed by himself, two by speaker, one by Stevenson and two by Gov. D. The latter provision injured feelings of some Centennial commissioners.

When the centennial celebration becomes Texas history, great children of certain legislators will call with pride the valiant work of their forebears did to save the Centennial appropriation bill. These will be descendants of the entire Dallas delegation; Duval, Fort Worth; Hoskins of Gonzales, Bob of Brenham and Elmer Pope of Christ. On the Senate side the Centennial heroes there included Welly Hopkins of Dallas; Tom Hobbrook of Galveston, the best-informed senator on history, and Frank Rawlins of Fort Worth, who, beaten down in a fight for a livestock apportionment turned in and fought to help save the bill. Impulses of the Centennial bill brought it to the last ditch were Burns, from historic Huntsville of Stonewall, and Robertson, another historic coun-

teric acid is the vehicle that set of Texas sulphur to make it was made exclusively as Sulphur deposits. Testimony before the house revenue commission showed now more than half sulphuric acid used by the being made by a new chemical from iron pyrites a chemical found in most every shrinking market thus repleated the ardor of some of the for a \$2 tax on Tex-

will be no special session in September, best informed declares. Most of the amw taxation program proposed when the 44th legislature was failed, or will die by it. When the state learns amount of the tremendous iniquitous taxes it has collected August, under the Pope bill, the deficit likely substantially reduced. The don will have been decided, and if legalized covered by the voters, proper \$5,000,000 a year in from liquor will be made. Then the legislature will estimate how much if total revenue is needed, and levies taxes to raise it, business and individuals who still own anything may rest easier until rate. Business recovery steadily, but slowly, may come from present taxes

75% MONT CLOSURE

68% per cent cut in the a-aid to be received, at school closed last cent of lack of funds. The term this year ends and one week was forthcoming to other, and teachers ask on delinquent tax being school program day night.

Wade and Baby are home of Mr. and Mrs. at Anson, Texas this received and sold four last week.

## CHILD HEALTH DAY MAY 1st.

Austin, Texas, April 10th.—"Texas will unite with other states throughout this country on May 1st in the celebration of Child Health Day," stated Dr. John W. Brown, State Health Officer. The flag flown from government buildings the other 364 days in the year and symbolize some activity of or in behalf of grown-ups. They pledge loyalty to the government, commemorate great historical events, or the deeds of national heroes. But, in accordance with the Act of Congress under which Child Health Day was made a National Day, for this one day the Star Spangled Banner is displayed on public buildings as a reminder of the obligation of all citizens to care for and maintain the health and well-being of the children and young people of the nation, those upon which the duties and responsibilities of the future citizenship rest.

"The purpose of the Child Health Day observance, national and state," Dr. Brown said, "is to focus attention on the inherent rights of every child to health, happiness and intelligent care; to opportunities for normal growth and development, physical mental and spiritual, and to community responsibility for seeing that such care is available for all children. Child health day is not an end in itself. Instead it marks the beginning of the year around activities of all forces charged with the maintenance and well-being of the child and young people of this state."

"Some of the things to which attention should be given in connection with the observance of Child Health Day:

"The right of every mother to adequate care, before, during, and after the birth of the baby.

"The right of every child to adequate care.

"The right of every young child to be protected against diphtheria and smallpox.

"The nutritional needs of growing children and the importance of milk, whole grain cereals green leafy vegetables and fruits in their diets.

"The recreational needs of children and young people; provision for safe suitable places for play and leisure.

## KILLED IN ACCIDENT NEAR LITTLEFIELD

The people of Jayton and Girard were terribly shocked and saddened when word was received that Mr. and Mrs. Sam Yandell, formerly of this county, and their five year old grandson Allen Lee Harp, were killed when the car in which they were riding was hit by the fast moving Santa Fe train some seven miles west of Littlefield, Texas.

Mr. Yandell was 64 and his wife 61 at the time of their death. The bodies were brought back to Girard on April 8th and interred in the Girard Cemetery. The Masonic lodge of Littlefield had charge of the services at the cemetery. Rev. Scott of Littlefield assisted by Bro. Marvin Hahn of Girard had charge of the Church services.

All of the 7 living children but one, Archie of Boulder City were present at the funeral.

The many friends of the deceased extend sympathy to the bereaved.

## VACANCIES IN U. S. MARINE CORPS BEING FILLED

The New Orleans District Headquarters Replacement office for the U. S. Marines Corps announces that applications are now being received to fill vacancies during the month of May. Applicants to fill vacancies receive their preliminary examinations in their home localities and those selected receive their final examination at U. S. Marine Corps Headquarters 535, St. Charles St. New Orleans La.

The following qualifications are required; single, not less than 66 inches in height, of good moral character and not over 25 years of age. Application blanks and full information will be sent on request. Two letters of recommendation and a statement of education must accompany all requests for application blanks.

County Judge Earnest was seeing friends in Jayton Tuesday of this week.

## NEW TOWN OFFICIALS INSTALLED

The new Town government has been organized with L. F. Wade Mayor, W. J. Garrett, Secy-Treas., J. M. Hall as Marshall, Assessor and Collector, Ross English will be in charge of the Water Department. Aldermen are W. J. Garrett, Jee Earnest, G. H. Brown, L. O. Mayer, and H. D. Black.

Regular meeting nights will be the first Tuesday in each month. Parties having accounts against the city must file them with the Town Secy and they will be passed on only at regular meetings of the Aldermen.

A financial report will be prepared and published as soon as one can be worked out.

According to the Tax collectors books there is due the town more than \$10,000 ten thousand dollars in delinquent taxes, which in-so-far as possible must be collected to meet the Towns bonded indebtedness, as it can't be said just what would happen.

The new administration will strive earnestly to work with the tax-payers and all interested to improve the conditions as much as possible and ask everyone to cooperate with them wholeheartedly and unselfishly.

Parties having complaints to make are asked to come to the council meeting and make them. Street belly-aching will get you no where and accomplish nothing.

## REVIVAL BEGINS AT TABERNACLE SUNDAY MORNING

You are cordially invited to attend all these services. We will only have a few days of this special effort for spiritual refreshing. Surely we can use these few days toward securing the greatest need of the time. "Come thou with us and we will do thee good."

Below you will find a calendar of the sermons to be preached:

Sunday morning April 14—

"Wilt thou not revive us again?"

Sunday Night April 14—

"And there shall not an hoof be left behind."

Monday Night April 15—

"Sin."

Tuesday night April 16—

"Prepare to meet thy God"

Wednesday night April 17—

"If ye believe not that I am He, ye shall die in your sins."

Thursday night April 18—

"The Prodigal Son."

Friday night April 19—

"Excuses"

Saturday night April 20—

"How shall we escape if we neglect so great salvation?"

Sunday Morning April 21—

"If a man die, shall he live again?"

Sunday night April 21—

"He lingered."

This is not just a Methodist meeting, it is for the whole town. Whether you are a Methodist or not you are welcome to come and work with us these few days. The evening services will begin at 7:45 and week day services at 10:00.

## TEACHERS ELECTED FOR COMING YEAR

The following teachers were re-elected for the coming school year of 1935-36.

W. L. Coons, Blanche Yarbrough, Mabel Waddell, Eunice Marie Huffhines, Mayme Morris Murphy, Opal Louise Creighton, Wilson Garrett, and Maurice Patton.

The board also discussed the plan of electing Miss Carrie T. Bier to teach public school music throughout the grades, no definite action was taken on this until a further study of school funds were made.

For the past two years the school has been able to maintain a nine month session through State and Federal aid thereby using the local taxes for teachers. We will probably be able to continue this same policy for the next two years all depending upon the present congress appropriations at Austin, it seems that the National Congress has made the proper appropriations and if Texas can show need for it the funds will be passed on to Texas Schools.

We are selling whole milk, 10c per quart. Butter 30c per lb. delivered twice daily. Phone 112 — Jay's Dairy

FOR SALE: Good \$485.00 Small piano for \$280.00 Violin, complete with case \$15.00. Carrie T. Bier

## LETTER TO THE PEOPLE

Editor of The Jayton Chronicle Jayton, Texas.

Dear Sirs: I take this method of replying to the signers of the petition sent me, asking for a local bill to be passed for Kent County giving the people the right to vote on a stock law.

Senator Duggan and myself will look into this matter, and try to adjust it as that you may have this right.

Very Respectfully,  
Leonard Westfall  
Rep. 118th Dist.

## EMERGENCY CROP AND FEED LOAN APPLICATIONS BEING TAKEN NOW

Field Supervisor Mr. D. H. Sandige of the Emergency Crop and Feed Loan office at Dallas, Texas, states that applications for emergency crop and feed loans are now being received by the Kent county Loan Committee, with offices located at Jayton.

In accordance with the act of Congress authorizing the loans, and regulations issued by Governor W. I. Myers of the Farm Credit Administration, loans will be made only to farmers who are unable to obtain elsewhere, seed fertilizer, supplies feed or the necessary credit in the amount needed from any other source, including the production credit association.

Any farmer who has the necessary security should apply to the production credit association first. If the association is unable to make him a loan in the amount needed the farmer will receive a statement to that effect and will be considered eligible to apply for a loan from the emergency fund.

The regulations provide that the largest loan to one farmer this year is \$500 and the minimum \$10, but no loan may be made in an amount greater than is actually needed to cover the cash cost of purchasing seed, fertilizer, supplies, feed and etc. Loans will be made for the purpose of growing and harvesting of crops for summer fallowing, for purchasing feed for livestock; but not for the purpose of purchasing machinery, or for the payment of debts.

Loans will be made only to applicants who are cooperating with the production control program of the Agricultural Adjustment Administration.

As in the past the security for an emergency crop or feed loan will consist of a first lien on the crop financed or on the livestock to be fed. A tenant must also give a first lien by getting the landowner to waive his claim in favor of the crop. Checks in payment of approved loans will be issued by the Regional Loan. But the landowner is in no way obligated for repayment of his tenants loan.

Emergency Crop and Feed loan office at Dallas, Texas; and not by the field supervisor or the loan committee.

## MONEY FOR WELLS UNDER FEDERAL HOUSING PLAN

Congressman George Mahon was advised today that it would be possible for farmers to secure loans under Title 1 of the Federal Housing Act for the purpose of putting down irrigation wells on their farms. This interpretation was made by the Legal department of the Federal Housing Administration after Mr. Mahon had called on them in regard to the irrigation problem.

The Act provides that the Federal Housing Administration may insure loan made by local banks to home owners for the purpose of making improvements up to \$2,000. A farmer may apply to his local banker for funds to put down a well and provide the equipment. If this loan is made in accordance with the regulations of the Act, it will be insured by the Federal Housing Administration, according to the information received.

Of course the local banks would be the judges of the soundness and desirability of this type of loan. The future policy of the Federal Housing Administration in regard to these loans cannot be predicted with certainty.

Its still dusty as we go to press.

## REFERRING TO THE STATE HELPING FINANCE CENTENNIAL COSTS

The Senate provision that 50 per cent of all profits of the Centennial be given the State is more than fair. The City of Dallas, through municipal and corporation bonds, will be contributing five millions of dollars, to the Centennial while the State is contributing one million, and a proposal to permit the State to share fifty-fifty in Centennial profits it seems to us, is exceedingly generous. We have had occasion to say before, but should like to reiterate, that if the State actually did not receive one penny from a successful Centennial celebration it would be benefited enormously. The real benefits accruing to the Texas of today and tomorrow will be measured not by the Centennial gate receipts but by the accelerated development of the state which is bound to ensue and which will exert a stimulating economic influence in every hamlet and home in the state. There is no need for the legislature to fear that the State will not properly benefit from the Centennial unless it gets a generous share of the gate receipts.

The above expresses our thoughts better than we could have expressed them ourselves. Therefore we print this article and give it our 100 per cent approval.

## STYLE SHOW AT PALACE THEATRE IN SPUR, TEXAS

Manager Everts of the Palace Theatre, Spur, announces the annual Bryant-Link Company, B. Schwarz & Son Spring Style Show will be presented at 8:30 P. M. Friday night, April 12th in connection with Monogram's "Women Must Dress."

While the new monogram film is of surpassing excellence from the standpoint of story, direction and acting, it has an added allure in its varied and lavish display of latest creations in feminine finery which makes it especially attractive to women.

Outstanding among the members of the well selected cast is Mina Gombell in the starring role. Miss Gombell handles the difficult role of a wife and mother who changes from a plain, sedate housewife to an ultra smart business woman and fashion designer.

The star is aided by Gavin Gordon, playing the erring husband, Lenita Lane, as the other woman, Hardie Albright, as a young physician and Susanne Karren, as a giddy daughter. The picture is also marked by its introduction of six beauty contest winners representing various sections of the United States. Their screen debut shows much promise.

As a special added attraction, Mr. Everts has booked "La Cucaracha" a short subject made entirely with the new three dimension process of Technicolor which brings out all of the natural colors instead of the usual red and green. It is said that in the near future all feature pictures will be made using this process, which is quite expensive and highly technical.

Everts is justly proud to present such an outstanding entertainment at regular admission prices and suggests early arrival to obtain desirable seats.

## KENT COUNTY TEAM WINS 2ND

Kent County won second place in the team demonstrations on "The Utilization of Canned Meats," at the Lubbock meat show. Mrs. H. D. Mey and Mrs. Van North, the team from the Jayton H. D. Club, competed with sixteen counties in the team demonstrations. Places were awarded in the following order: Dawson, Kent, Lamb Shakerford and Lynn.

A first place was given on cooked soap to Mrs. T. T. Millican and a fourth to Mrs. E. R. Cox on Chilli, both of the Center Point H. D. Club.

Guy Brown and Uncle Sam McCombs were in from the McCombs ranch Wednesday enjoying the dust with their Jayton friends.

Marvin Carlile, Roby Banker was in Jayton Wednesday of this week.

Sheriff B. A. Cumbie was over from Clairemont Wednesday.

## BIG WELL AT CITY LAKE SITE HOLDS PROMISE OF ABUNDANCE OF WATER

The best news we have for our local readers this week is that present indications now are, that Jayton's soft water troubles appear to be near solved. Lee Patton and a crew of men have been working on a big well below the dam on the city lake property and have developed a flow of water from a coarse gravel bed that is proving most encouraging. Wednesday morning the pump was lifting a solid three inch stream of water and measurements showed that it would take at least four hours pumping before work could start again in the bottom of the well and continued pumping of a two inch stream is necessary to enable the work to continue. The gravel bed has only been punctured in the middle of the well which is 18 feet in diameter.

The concrete curbing will be set just above the gravel bed on the hard clay in order to cut out the sand above the clay.

When the well is completed the water will be pumped directly into the City pipe line at the big pump station at the lake. As soon as the work can be finished a concrete storage tank will be constructed at the station and kept filled with water for reserve use. In case of fire the big pump can be used to drive the reserve supply into the stand pipe tank in town.

Should one well prove insufficient the engineer says there is plenty of room for several more and no doubt some time in the future another well will be put down and plans developed to make a city park and play ground on the hillsides and in the valley around the wells.

The concrete curbing will be built up above any chance of overflow and the well will be covered to keep out all dirt.

It is very gratifying to learn that Jayton is assured of a bountiful supply of pure soft water at an early date. Most of the work and part of the material is being paid for with State and Federal funds secured through the local relief office.

## CAN YOU BELIEVE IT?

Austin, Texas, April 10th. Only five Texas Counties could boast a record of less than five per cent of their residents on relief rolls as of March 1, statistics compiled by the Texas Relief Commission reveal. These are Crockett, Kenady, Lavaca, Reagan and Winkler.

Fourteen others, Hudspeth, Terrell Upton, Parmer, Hutchinson, Carson, Hidalgo, Cameron, Nueces, Bee, Gonzalez, Fayette and Fort Bend, were in the respectable class in the eyes of state relief officials with not more than from 5 to 10 per cent of their residents receiving aid. Twelve counties had more than 40 per cent of their inhabitants on the relief rolls as follows:

Loving, Yoakum, Cochran, Garza, Kent, Stonewall, King Cottle Titus, Cass, Llano and Zapata.

"These high case loads have got to come down at once," said Adam R. Johnston, state relief director, as preparations were being made to send out funds for April.

"Federal Authorities have cut our applications drastically and this means we must reduce our caseload or the individual budgets of clients. We want to issue adequate relief to those in dire need and administrators have been instructed to examine their rolls closely and close out all cases where the need for aid is not clearly established.

A further reduction in the number of cases is hoped for in May as the peak will be reached for seasonal farm employment.

## SPUR MUTUAL INSURANCE STILL WORTH 100 CENTS ON THE DOLLAR

All doubt, of the Spur Mutual Insurance Company was removed this week when Mrs. the Brown-County Life Insurance Company in which they had re-insured their policy holders they began paying their death claims.

The delay in making payments was caused by the great rush of work in transferring the duplicate records to the Brownwood office. Notice their advertisement elsewhere in the Chronicle. We are also pleased to report the Sampson death claim, Robinson Bros. beneficiaries was paid in full this week.

**SUBSCRIPTION PRICE PER YEAR \$1.50**

The man who is always saying "Can't" is a puny creature growing less and less, weaker and weaker.

You are simply losing everytime you stop to pick flaws in anything or in anybody.

You cannot set too high a price when you start out to put yourself on the public block to be sold to the highest bidder.

You cannot sing the sweeter songs until you walk amidst the shadows. The mocking birds sing the sweetest in the dead of night.

You can share happiness with others but, after all, happiness comes from the secret springs in the human heart.

All this hue and cry among those who would call the world's peace-makers visionaries take upon themselves a heavy burden of proof. They are dreamers, to be sure! The kind of dreamers that were Caesar, Napoleon, Wellington, Nelson, Washington, Lee, Grant, and Lincoln -- the dreamers who could make their dreams come true!

You are happy now but some days stormclouds are heavy. Spirits are in languid saucers for the dawning light. Hearts are listening to the sighing of a fretted sea whose moanings will not hush. Some poor hearts veil its eye against a vision caught on the very verge of despair. Some poor repentant soul watches the approaching dawn that is sure to shut out the stars. Somebody is crying over the loved and lost. And come with eyes filled with tears are gazing far out into space waiting for a familiar form that vanished in the year a long since gone. Much of the world is crying for its loved and lost. Somewhere, some when, out yonder in life's pilgrimage, you too shall weep, solitary and alone. In those starless night we long for the touch of a friendly hand. For that very reason a friend is priceless.

**THE AMERICAN CHARACTER**

"The extent of insurance protection in America is the best evidence I know that this country is fundamentally sound," said Henry Swift Ives recently.

That is an especially apt observation when applied to life insurance, which is the average man's first line of defence against hazards of the future. Last year the public paid premiums to keep in force life insurance totaling \$100,000,000,000. Many of the premiums paid represented real sacrifices, men and women went to extreme lengths to maintain their policies in force, knowing that they might be their only protection against even greater adversity in days to come.

America is the most heavily insured nation in the world, and that in itself is a testimonial of the ancient American quality of independence. The man who buys an insurance policy, and pays for it with his hard

earned money, isn't the type of man who will willingly become a ward of the government. He wants to provide for his future and that of his family through his own work, thrift and foresight. As long as that attitude exists, we will have little to worry about so far as the American character is concerned.

**THE CROOKED LAWYER**

No profession should hold to higher levels of honor, integrity and honesty than should law. The legal practice in the courts of justice carries with it a vast and inescapable obligation to the public. Most lawyers live up to the essential standards, a few do not. And these few as Courtney Riley Cooper points out in an interview with Attorney General Cummings, appearing in a recent issue of the Saturday Evening Post, are as much the enemies of the public as the gangster they defend.

Mr. Cooper cites almost incredible instances of lawyers who are retained by known criminals and are given large sums of money to use in any way they like, so long as acquittal is obtained for the underworld client.

Such lawyers worry little about evidence or justice, they know that bribery is a more effective weapon. They train their clients like actors, so that when they appear on the witness stand they can make "staged" answers to any question. They obtain perjured alibis, and buy off prosecution witnesses. In Mr. Cooper's words, "It is all fakery, crookedness and chicanery."

Bar associations, the judiciary and honest individuals are working tirelessly to rid society of this type of lawyer. But, as the interview points out, all such worthy efforts are doomed to failure without aggressive public support. Many people are inclined to be amused by the unethical lawyer, they even go so far as to admire the "cleverness" with which he manages to circumvent the ends of justice. So long as this attitude obtains, the chyster will prosper, and the ethics of the legal profession will suffer accordingly.

The law is the very life blood of society. Its honest administration in our main defence against medieval social darkness. The crooked lawyer menaces us all, and his good offices (at high prices) on behalf of the most desperate criminals are carried on at the expense of the entire public.

**INSURANCE AGAINST GARDEN FAILURE**

"It actually works," said Mr. Sid Munsey in speaking of the tile he had placed in the garden plot for sub irrigation purposes. The three rows of tile irrigates a plot sixteen feet by about fifty which will be used for growing tomatoes. The tomatoes will be spaced four feet apart and in the middle such vegetables as radishes, lettuce and spinach will be planted.

By the time the tomatoes are large enough to interfere with the growth of these vegetables or vice versa one of the two will have been harvested.

The garden is near a windmill. The water is piped within a few feet of the garden. A hose is connected to the pipe and carries the water to an iron barrel which is placed in the ground with a lead pipe covered with screen wire opening into the tile line. This irrigates the three rows.

**CENTER POINT H. D. NEWS**

"Collars are the most outstanding features in making our 1935 dresses. So many cute little designs can be worked out and fitted simply by taking our foundation pattern and fitting them by it," said the Home Demonstration Agent at our meeting Tuesday at the home of Mrs. T. S. Havins.

After the demonstration we now feel like we can make a collar that will rival the store bought collars.

Great showers of dust continue to fall over this part of Texas most every day. Eventually we will have all of Kansas and part of New Mexico and part of Colorado scattered over the plains of Texas, and should we ever come into a time when we receive plenty of rain this country will produce most everything from cotton to populists party whiskers.

The most important consideration of all, in buying and operating trucks, is economy. Economy of first cost, operating cost. And the most economical on the market today are—Chevrolet Trucks. They sell at the world's lowest prices, give maximum operating economy, too, because they're powered by valve-in-head six-cylinder engines. And they will keep on saving money, day after day and year after year because Chevrolet builds so much extra rugged reliability into them that service is as carefree as their prices and operating costs are low. See your Chevrolet and get the right truck for your job at the world's lowest prices.

**The Rural Community Has Come to Town**

The rural community and small city faces a new future. Electric service and all that electric power and light mean to home life, commercial and industrial development is now available for a more constructive and wider field of achievement.

Much work, planning, testing, engineering and large investment of capital was necessary in order to make this possible. Our 2600 miles of power transmission lines, interlacing 49 counties in West Texas and serving 160 towns and communities provide an adequate and economical source of dependable electric service with precise regulation to meet the requirements of modern day appliances.

Today hundreds of small West Texas towns and communities can offer to industry this modern electric service in proximity to raw materials... two very necessary prerequisites for industrial progress.

We point with pride to our part in assisting the small towns and communities in this way, thus guaranteeing to them the same opportunities in respect to power as the larger metropolitan cities enjoy. It is our policy to fully co-operate with the small towns and communities we serve so that they may realize the full benefits accompanying and made possible by electrical development.

**West Texas Utilities Company**

**BETTER BEAUTY WORK**

You get only the best of beauty work here. We are not here today and gone tomorrow leaving you dissatisfied. Our work stands the test for we make it good.

Mrs. Ivey F. Murdoch

A big rabbit drive was held the first of the week North East of Jayton. Dinner was served to the hunters at the J. E. McKenzie Jr., home.

Marvin Fuller had business in Aspermont Thursday.

S. R. Lee had business in Rotan this week.

Uncle Newt Ward was a pleasant caller at the Chronicle office Thursday afternoon. He has feed up and growing.

Johnnie Jones and wife are driving a new Ford V-8 bought from Black motor company thru their Salesman H. J. Whatley.

Mr. Tacket of Girard was a friendly caller at the Chronicle office last Saturday.

Mrs. R. L. Alexander, Joe Paul and Cobb Wade made a trip to Lubbock last Saturday.

Mr. Winters who entered his name in the old settlers records of West Texas thru the Star Telegram some time back has had several letters since that time from folks in east Texas who remembered him as a young man and small boy. Two who have written him, a nephew and a school boy companion, from whom he had not heard from for over fifty-five years, afforded him great pleasure. Uncle Dave is getting a great kick out of these letters, he states that it is sure queer how much results you can get from a little advertising.

We are told that the new city administration is planning to place a head tax of one dollar on insurance agents and a dollar tax on dogs. Its a question as to which will bring in the most money.

**JAYTON H. D. CLUB NEWS**

Shirer materials are very becoming in ripple collars and Jabots, according to statement made by Miss Veralee Jones to the Jayton Home Demonstration Club women, at a collar demonstration given at the home of Mrs. Claude Darden April 4, 1935.

These collars are cut by placing

the shoulder seams of your foundation pattern together as will be when sewed. Get the neck line and shape of your collar, cut the paper pattern in strips from bottom to neck line, place on material, spread out where fullness is desired.

The following committee chairmen were appointed: Mrs. H. D. May Chairman of Expansion Committee, Mr. J. C. Sprouls, Finance Committee, Mrs. Claude Darden, Year book. Always give a piece of information in your club reports so that persons not present can understand what was done at the meeting, was reported by Mrs. Darden who attended a reporter's school at Stamford March 21.

Do not cold pack meat as this method leaves air in your containers which causes mold in meat, was reported by Mrs. May and Mrs. Van North who attended the meat school in Lubbock last week.

**MAKE 'EM BEAUTIFUL AT LUBBOCK**

A modern Cinderella will be created during the fourth annual West Texas and New Mexico Beauty School and Equipment show sponsored by the Russell Morrison company here April 22, 23 and 24th for the benefit of beauty shops of the territory.

Some comely girl will be taken from the Lubbock relief rolls, photographed, then transformed into the beautiful girl of 1935 through beauty treatments.

Professor James Monroe Harvey, nationally recognized astrologer, will be the one to pick the girl who can "wear the glass slipper." Harvey, one of the entertainers for the show, will make predictions in the field of astrology. He secured nation wide attention by predicting the abandoning of the gold standard, the California earthquakes of 193 and 1935, and other advanced calculations.

Jay Parker, Chicago, will create a coiffure particularly for the Lubbock show. He has appeared on international beauty show programs in New York, London, and Chicago, and predicts the next few months will see radical changes in hair styles.

"Hair styles for hat styles" will be the motto for Geo. W. Scoggins, Abilene, who has pioneered the connection of beauty parlor and millinery shop fields into one shop. Since he has installed a millinery shop in connection with his beauty parlor at Abilene and concentrated on creating hair styles with each change in millinery lines, beauty parlor operators all over the southwest have watched his developments closely and many have followed suit.

Approximately 25 major manufacturing companies handling nationally advertised products will have representatives here to assist Russell Morrison in staging the show and to demonstrate new equipment and new products handled by their firms.

**Chickens, Turkeys**

Give Star Sulphurous Compound in their drinking water (used regularly as directed it cost very little) and it will keep them free of germs and worms that cause disease; also it will keep them free of Lice, Mites, Blue Bugs and Fleas, that sap their vitality, and you will have good, healthy, egg producing fowls and strong baby chicks or we refund your money. —Jones Drug Co.

### School News

Last Monday we were entertained in chapel by a group of students selected by Mr. Garrett. After the program Mr. Garrett introduced a pian who by the school would select a high school girl to be crowned queen in a program at the last of school. The different classes met and elected their representatives; Seniors, Geraldine Callicotte; Juniors, Mildred Self; Sophomores, Mozelle Gallagher and Freshmen, Maurey Darden.

#### Junior News

The Juniors are terribly busy this week planning the Junior Senior banquet. We are hoping to make this annual affair one of the best in several years. Of course we are expecting our Queen, Mildred Self to win. Our class is behind her one hundred per cent.

Our class has been deeply mourning the loss of Jo Dell's black curly locks. Since she has seen how it affects the class she has resolved to let it grow out again.

We are proud of the fact that Miss Lela Pearl Cox was chosen from our class to bear the title "Miss Houston" in our last of school pageant.

A common scene at 3:15 is to see our beloved classmates, Barney, Merle and Ewell joining Mr. Coons in the history room for a quite session of correcting papers.

#### SOPH NEWS

At a class meeting Monday afternoon, we Sophs elected Mozells Gallagher to represent our class in a high school popularity contest. We expect to make her "High School Queen". This won't be hard to do as we have the largest and freest hearted class in school and besides that we have the fifth grade backing us.

Look out Freshmen, Juniors and Seniors here come the British I mean Sophomores.

#### FRESHMAN CLASS

We Freshmen are not to be left holding the sack at any time. When something new happens, we are right in the middle of it. Each class chose a girl to enter the race for school queen. Just watch our girl, Maurey Darden, win over the Senior girl.

Our illustrious class has been called the most intelligent in school, but far be it from us to boast. However, these past six weeks grades of ours are not to be scoffed at. The B's were more in evidence than the D's.

The following poem was found in Bake Robinson's Algebra book:  
When I die, O bury me deep;  
Bury me down where the willows weep;  
Place my Algebra upon my breast,  
And tell Mr. Lowrey I've gone to rest.

**FOUND:** In front of the Post Office in Jayton, a pair of horn-rimmed spectacles. Loser may have same by paying for this ad. —The Chronicle

The weather has been everything but encouraging this week. High winds, dirt, sand and dust have prevailed most of the time. Its discouraging disagreeable and brings one to the brink of profanity.

The school election of last Saturday was a quite affair. 36 votes were counted in all. Joe Earnest, Ab Gallagher and Ross English were elected on the local board, Glen Huls for county trustee and Bud Cooper for precinct trustee.

C. J. Robinson, Buster Winters and L. F. Wade had business in Snyder Monday afternoon.

Mr. and Mrs. A. M. Morgan of Strawn Texas and Mr. and Mrs. S. B. Tadlock Jr. and daughter Tamia Nell of Lorraine Texas spent Monday of this week with Mr. and Mrs. Joe Earnest and family.

#### CLAIREMONT NEWS

One afternoon last week a drinking party took place in Clairemont, which was followed by an investigation of the officers. After this investigation which lasted in the night and until 10 o'clock the next morning a party was arrested charged with the possession and sale of intoxicating liquor and placed under bond to await the action of the Grand Jury.

Commissioner's court was in session Monday of this week, and our town had many county and out of county visitors.

Mr. and Mrs. B. A. Cambie are entertaining a new Deputy Sheriff in their home since Wednesday April 9th. Barrie says that the new deputy is on the job and is hale and hearty.

#### Notice

Notice is hereby given that the annual meeting of the Stockholders of the Farmer's Gin Company of Jayton Texas, will be held at the Methodist Tabernacle on Saturday April 13, 1935, at 8:00 p. m. for the purpose of electing the directors and transacting of such business as may properly come before the meeting.  
W. J. Garrett, Sec'y.

BROWN COUNTY LIFE INSURANCE COMPANY

Citizen's Bank Building

Brownwood, Texas  
April 3, 1935

Mrs. Annie Marie Hall  
Care of Jim Edd Hall  
Dover, Oklahoma

In Re: Mrs. C. A. Love, Deceased

Dear Mrs. Hall:-

We are inclosing herewith a draft against The Brown County Life Insurance Company for \$1,554.00, in payment of policy No. 3541 on the life of Mrs. C. A. Love.

You will execute the receipt on your policy, and have your signature witnessed. You will also sign the inclosed letter and put these together in the draft envelope, and clear this through your bank.

You will note the return premium is \$54.00, covering thirty six assessments on which you are due return premiums.

May we take this occasion to extend to you our sympathy and to assure you it is a source of satisfaction to us, to be in position to give you this protection.

Yours very Truly,

BROWN COUNTY LIFE INSURANCE COMPANY

The above letter was sent from the Brownwood office to Mrs. Annie Maria Hall and is self explanatory.
