

THE JAYTON CHRONICLE

JAYTON, KENT COUNTY, TEXAS, FRIDAY, MAY 3, 1935

NUMBER 18

Austin - Houston

When F. Austin came to Texas

Houston followed Austin in their arrival in this state of France and Spain had over the 263,000 square miles. The Lone Star flag flew over these when they came. They have dreamed and the flags of the Lone Star of a nation, the United States of America, and the Confederate States of America have flown over these acres of land. The Stars stripes, since 1865, have flown in the Capitol at Austin, Texas. He came to Texas in 1821. He the Colonization Law through Mexican Congress, and obtained for granting him the right to 400 families to Texas. Around early settlers which came to a colony on the Brazos and the has grown the history of

was rightly called by Sam "The Father of Texas." was born in Virginia and Tennessee. His first training in the war of 1812, where as he covered himself with and commanded the admiration of Jackson. He was elected United States Congress by the of Tennessee and later was of this state.

troubles caused him to re- governor of Tennessee upon his re-election. He returned Indians of Arkansas and where he became United States Senator for Texas.

his arrival until his death, his are history. His command army brought him fame to the great chieftains battles.

on defeated Austin for the being the first President of Austin carried, on a few and died. Houston continued, serving his state as United States Senator and

with greater greatness than Austin and Houston. ance of no country has been as many flags—French, Mexican, Texan, American, as that of Texas.

in these many flags has it still to be found in farm lands, the prairies, plains. Texas is color itself. Texas Centennial Central will be just as colorful as these Stripes, these Bars, now wave flown over these 263,000 miles of beauty.—Centennial

her shipment of cars are due week.

On Gym Progressing Rapidly
gym is beginning to look like a finer spirit of workmen was better demonstrated. The boys are working like heroes quite a few of the men of the are helping. Thanks a lot, and you should see the teachers from rafters, they are real stars. We are expecting to the carpenter work in the next weeks, the stucco will be added fall after the building has time its settling.

G. A. PARTY
Monday night at the home of and Mrs. Tom Fowler, Miss Sue entertained the G. A. Girls party. All of the girls were and for entertainment they initiated a movie star and the were awarded Miss Alma Jo and Miss Virginia Callicotte. Miss Jo imitated Faye Wray and Miss imitated Claudette Colbert. refreshments of ice cream and were served and all reported no time.

A. Darden of Girard was a visitor at the Chronicle office Monday morning. Read his add in of the Chronicle.

Wind, Rain, Hail And A Dust Storm

Wednesday evening just after sun-down this section was treated to another one of those freaks of West Texas nature that makes one sit up and take notice.

Coming from the direction of Amarillo where Tex Thornton had been bombing the elements all day with TNT in an effort to bring moisture out of the heavens, it hit Jayton with a crashing of electricity and a thrashing of wind, a gust of hail and a dash of rain which later in the night was followed by a choking dust fog that was stifling and more distressing than any we have had to visit this part of the state to date. The rain was between 1-4 and 1-2 inch and extended from Girard this way. No reports of hail or wind damage have been received at this writing. The rain was welcome but we can always do without these other afflictions.

This Thursday morning the sun is hidden behind the dense cloud of dust, that covers the earth from the looks of the sky. No dust masks are being used but all of are enjoying ourselves coughing and trying to spit up this darn Plains, Kansas, Colorado and one time farm land. Its a great life, providing we can stand it. After this we hope the dust proceeds the rain. They are coming alright but coming the wrong end first.

RAIN FOLLOWED BY DUST

The people of this country do not know what to think of this weather, for it rains and then we have a big dusty right on the heels of the rain.

Last Sunday afternoon about two o'clock we were overjoyed when the shower coming out of the North West cooled things off and cleared the sky but about ten minutes after the short but sweet shower we were visited with another dusty and in another ten minutes you could not tell there had ever been a shower.

Again, Wednesday night a dark cloud rose out of the North West and blessed us with a good rain but before morning the dust was back. Maybe if the rain keeps on-coming before the end of the year the dust will be settled.

CHILDREN GO HUNGRY ALL WINTER AS DAD HOARDS \$6,000 TREASURE

Springfield, Mo., April 30 —With \$6,000 in possession, Willis Bridges tenant farmer of near Stockton, has just completed the most nerve-racking winter he ever spent.

Bridges last autumn unearthed an old fruit jar on the place he tenanted. The jar contained about \$6,000 in bills, ranging from \$10 to \$100 in denomination, the newest dated 1922.

All winter Bridges kept the money hidden, fearing to tell anyone about it, not daring to try to spend it, until Saturday. Then he offered a Stockton merchant a \$10 bill in exchange for merchandise. The bill was so old and so unusual in appearance that the merchant, as well as a banker to whom he showed it, took it for a counterfeit bill.

It was then that Bridges went to Probate Judge Boyd Spencer, who owns the farm on which Bridges lives and told him all about it. They went to Springfield, Tuesday, consulted a lawyer and decided to divide the money equally.

Bridges, 41, dressed in overalls and jumper, still was heaving sighs of relief and joy Tuesday night—relief that it was off his chest at last, that he had not done anything illegal in keeping back the gold currency and joy that he had enough money to buy a little place of his own.

Bridges has seven children, and was on relief during the winter. "When you have seven kids crying for something to eat, and know that you got a wad of bills that's big enough to choke a cow, then you got some idea of what I been through this winter," he sighed.

Where the money came from is a mystery. The farm adjoining the place is the Groves farm. John Groves who died some years ago, was a wealthy Cedar Countian, and eccentric, especially in money matters.

The kids here in town are mixing with the birds out in the square, all of them doing their best to get the best of the berries that hang upon those trees. There are plenty of mulberries for both the kids and the birds so we think they will get along o. k.

Mrs. G. H. Huls spent Sunday in Abilene, Texas.

Sees "Boon To Farmers"

Raymond News Service

FORMER Ambassador James W. Gerard today praised the Farm Credit Administration for suggesting recently that crop loan borrowers buy American-made supplies. The noted diplomat, whose interest in America has been the very driving force of his private and public life said: "This will mean increased activity in American industries so

vital to the welfare and prosperity of the American people, particularly producers of nitrate of soda and sulphate of ammonia. Such activity in turn will increase the home market for farm products. Many farmers, whether or not they are Crop Loan borrowers, will see this and accordingly act in their own and the country's interest by purchasing American goods."

TREE NURSERY FOR WEST TEXAS

Austin, May 1. —Fate of the \$2,500 state appropriation to be used for tree nursery work at Lubbock, provided for in an amendment to Senate Bill No. 36, by Arthur P. Duggan, will be decided by the Legislature.

The appropriation, if approved by the free conference committee, undoubtedly will be matched by a \$2,500 federal appropriation.

It is the policy of the U. S. Forest Service to cooperate with state forestry departments, but with no other state agencies. The tree nursery work at Lubbock will be in charge of Don L. Jones, superintendent of Texas Agricultural Experiment Station No. 8, working in connection with the State Forest Service.

"Object of the project is to find the trees that will grow best on the South Plains," Senator Duggan said, "and to get these trees, free, into hands of the individual farmers. If the farmers plow around these trees, they will grow, and in a few years provide wind breaks. Numerous trees in a county, I believe, are greater defense against winds than a hedge or wall of trees, such as proposed in government tree shelter-belt, to run east of Lubbock."

"I am very much interested in getting this appropriation through, for I think it is deeply important for our West Texas country."

At this time the U. S. Forest Service is actively engaged in strengthening the state forestry departments in 40 states.

Local showers fell between Jayton and Girard late last Saturday and Sunday several parts of this territory were treated with shower just preceding another Kansas dust storm. Monday morning it was rather cool. Some hail accompanied the showers, hail stones fell from the size of goose eggs down.

Mrs. Vera Mas Williams, daughter of Mr. and Mrs. T. H. Hargus died Saturday afternoon at five twenty at Waco where she had gone for treatment. Mrs. Williams was buried at Valley Mills, Sunday.

Rev. A. C. Bates, Superintendent of the assembly of God Churches, will speak at the Methodist church Saturday night May 4th. On Sunday May 5th, at our own church we will have an all day fellowship meeting. Everyone is invited to attend and bring your lunch and spread with us and stay all day.

W. H. Bice, Pastor.

Tom Jones comes to work now in a new Ford V8 purchased from H. J. Whatley, salesman for Black Motor Company.

TEXAN WILL BOMB SKIES FOR RAIN

Dalhart, Tex., April 30.—Bombs exploded in the air will be tried near here Wednesday in an effort to induce rain and break the long drought in the Panhandle, where many of the crops have started. Last few days in the Panhandle, where scores of farms are deserted because of the dust storms and heavy winds that virtually have turned rich farm lands into deserts.

Thornton will attempt to induce rain by exploding bombs of T. N. T. high in the air, in the midst of cloudbanks. Weather bureau observers said conditions should be right for the experiments, predicting clouds but no rain from natural conditions.

The experiments will be similar to those tried in the drought-stricken region around Waxahachie, last summer. Those efforts to induce rain by artificial means ended in a controversy over the success when James Bose, who conducted them, was killed while making them.

KELLEY STEPS OUT

Claude Kelley, formerly with the Magnolia Co. has accepted a position with the Mayer Auto Service as salesman for Dodge and Plymouth cars, also, used cars. The first week that Kelley was on the job he kicked three goals, selling one new Dodge to Dr. McLaury and two used cars to other parties. Better watch him closely for he will be selling you a car next.

We have often heard that there was a time for everything—evidently Saturday was a time for selling old roosters in Jayton. Butch Jones paid ten cents a pound for them and we know of one little boy that sold one old bird for 90 cen's. The bird was useless on the yard, but worth 90 cents when delivered to the proper place. If every old rooster in the county had been marketed in Jayton, Saturday the people of the county would have been hundreds of dollars better off. There is a time to sell old roosters—Saturday was one of those times.

Butch Jones and Douglas Raeford had the misfortune of turning their car over as they were making the corner out at the city limits north of Jayton.

Douglas had a few stitches taken in his head aside from that no more damage was done except a few glasses broken out of the car and one or two fence post taken out of the fence.

Dr. McLaury is driving around to see his patients in a new Dodge now. Dr. bought the car from L. O. Mayer through his salesman C. B. Kelley.

Full Steam Ahead For Texas Centennial

Dallas, May 2.—Full steam ahead is the program for the Texas Centennial Central Exposition and the other Centennial celebrations which will be held in Texas in 1936 and between this date and June of next year between \$20,000,000 and \$25,000,000 will flow into trade channels of Texas in preparation for the 100th birthday party, according to Walter D. Cline, managing director of the Central Exposition.

By the time this story is printed, Governor Allred is expected to sign the bill which appropriates \$3,000,000 to be spent in Texas on the Centennial. Of this amount, \$1,000,000 goes into the State building at the Central exposition; \$200,000 for furnishing the building; \$250,000 will be spent at San Jacinto battle field; \$250,000 at the Alamo; \$500,000 for advertising Texas and the Centennial celebrations; \$225,000 for the Texas museum at Austin and \$575,000 for other historical celebrations.

In addition to the \$3,000,000 of the state money; the City of Dallas will immediately begin the expenditure of \$3,000,000 on grounds, street improvements and buying new property, and the Centennial Central Exposition will spend its \$2,000,000 of private bond money subscribed by citizens of Dallas.

A request for \$3,000,000 federal money to be spent on buildings and exhibits will be made at this session of Congress.

Exhibitors and Concessionaires, many of whom have already expressed interest in the forthcoming celebration will spend between \$10,000,000 and \$15,000,000, making more than \$25,000,000 which will be turned loose to spend on labor, materials, and for various other Texas products.

"These expenditures will take many persons off the relief rolls of our state," Mr. Cline said here upon his return from Austin where he has been on behalf of the appropriation.

TWO CHANGES PROPOSED BY HIGHWAY CHAIRMAN

Harry Hines of Wichita Falls, new chairman of the state highway commission, plans no basic changes in highway policies, he has assured his friends. He will go after additional federal highway allotments vigorously, and continue the department's policy of connecting cardinal routes through the state. Privately, Hines has said he will seek to make two important changes of policy, however. One will be to decentralize operations of the highway commission, holding hearings and possibly contract letting in various sections of the state, so that citizens and contractors seeking to do business with the commission will not have to travel hundreds of miles to Austin frequently. He will also endeavor to soften up the attitude of the highway engineers in their relations with the public, and make them realize they are servants of the people. The district engineers have considerable authority, in their respective territories and they have sometimes fallen into the common engineering fault of being somewhat "hard-boiled" with the public. Hines would like to eliminate this attitude.

MORE SAFE CRACKING

George Kenedy had his drug store at Peacock entered Monday night, the safe cracked and come merchandise stolen. Eventually these tin horn thugs are going to break into the state institution for criminals.

The Young People of the Methodist Church had a party at the tabernacle Tuesday and all that attended reported that they had a real fine time.

W. D. Lang was in from his section on the divide between Jayton and Girard, Tuesday and reported it too wet to run planters out his way, having received a good local shower both on Saturday and Sunday.

Miss Mozell Mason is visiting in Spur this week.

Mr. and Mrs. Bob Whitaker were visiting in Jayton last week end.

ON TO PLAINVIEW

Plainview, May 2.—Plans are nearing completion for the 17th general convention of the West Texas Chamber of Commerce May 13-14-15. Jed Rix, the WTCC's convention manager, and the half-score of committee chairmen representing Plainview—host city—say the big show could be, if necessary, pulled off next week with certainty of the largest attendance in years.

The Westex chamber has 179 affiliated towns, ranging in population from Fort Worth's 170,000 down to isolated ranch towns with only a dozen or so. Based on request made in advance for reservations in Plainview's hotels, on sponsors named for "La Fiesta," and entries forwarded in the various contests, it is known in advance that 129 of these towns will have official representatives at the convention. Panhandle-Plains towns, too, are famous for their turn-outs.

The warmest contest in years is in prospect, also for the honor of entertaining the 1936 convention. Four towns are definitely in the running. They are Amarillo, Wichita Falls, Brownwood, and Fort Worth. Dark horses are El Paso and Mineral Wells, which, while not seriously pressing their claims for 1936, will lay ground work for asking for the 1937 convention.

PROGRAM

The 1934-35 work program of the West Texas chamber has majored on the three points of taxation, territorial development and agriculture. These will be fully discussed by competent and prominent speaking (all Texans) in the three group programs of Monday and Tuesday afternoons, May 13-14. Among the scheduled speakers are Senators T. J. Holbrook, Galveston, and Roy Sanderford, Beaton; Ross Rodgers, Mayor of Amarillo; H. H. Fennell, federal erosion expert, Dalhart; E. E. Dickson, superintendent of the Spur experiment station; Julian Dies, Beausate PWA engineer; E. Shepherd, Dallas, executive regional director under the federal housing act; R. C. Hopping, Lubbock; J. E. McDonald, state Commissioner of Agriculture.

Main assembly speakers listed are James D. Mamin, president of the WTCC; James V. Allred, governor of Texas; and Governors E. W. Marland of Oklahoma and Clyde Tingley of New Mexico, if they are able to attend.

Directors of the WTCC will transact the organization's business in their Monday and Tuesday luncheons and Wednesday morning breakfast; but other eating affairs are planned. The convention will hit its "high" in that respect with a buffet indoors picnic Tuesday evening, May 14, to which all registered conventionists are invited. Guests will be the visiting governors and the eleven living past presidents of the regional chamber, who will run the show. Then, on Tuesday noon, the WTCC will give its annual luncheon to newspapermen of the territory; to chamber of commerce presidents and managers; and to mayors and other public officials. This is always a big affair. Listed speakers are H. C. Pender, Texas Tech Facultyman; Charles A. Guy, editor of the Lubbock Avalanche-Journal; and W. T. Strange, Jr., manager of the Big Springs Chamber of Commerce.

THE TAX GROUP CONFERENCE

will be held in the ball room of the Hilton hotel, 2:00 P. M., Monday, May 13, with Senator Author P. Duggan as chairman.

Senators Holbrook and Sanderford, who have been very active in tax matters, will be two of the speakers, and we believe they will have messages that you will enjoy hearing.

Jayton School Gets 4th Year English accredited

Miss Sue B. Mann, Deputy State Superintendent visited the local schools this week and granted additional credits in Commercial Geography, Sociology, and Fourth year English. This brings the total credits for the school up to 19 units, which is an exceptional record for one year. Two more units of work were offered this year and two more units granted. This makes every course the school is teaching, fully accredited.

JUST THINKING

It cannot be afraid of being questioned.

The very grant of life that is made to you carries with it the rights that impose a solemn duty.

The Sunday pew does not always jibe with the week-day business which the same perform at his desk.

Twenty years ago we would not chuckle over adultery nor joke about prostitution. The very fact is a terrible note of warning.

The real secret of life is to put one's powers just as far as they will go.

Wealth and colossal fortunes are not worshipped now with the same devotion as they used to be. A new standard has been established; new, yet old — just honesty. The remedy for corruption has been found in the hearts of the people.

Whatever may be the pet ideas of those who elect a life of bloomed single-blessedness, a woman never was born to be a judge and a jury. Her scepter is a caress, and her boundless empire is a realm of love. When she falls there her power over man passed away.

Did you ever stop to catch a vision of the greatest standing army in the world? The school children of the United States outnumber the entire population of many countries and far surpass the war-footing armies of many others. The destiny of the nation throbs in every pulse beat of the young hosts. America's future lies with these teeming millions. As we see the threads of the larger life we proportionately swing this great land of ours far out in the orbit of her appointed destiny. This world of young blood is the unerring prophesy of all the coming years.

DON'T BE TAKEN IN

Don't be taken in by the "send-a-dime" chain letters flooding the mails these days. These letters, headed "Prosperity Club—In God We Trust," contain a list of six names and addresses. Recipient is instructed to send a dime to the person at the head of the list, add his own name and send five copies to friends. Postal inspectors are investigating the scheme.

President Roosevelt talked to the people of the United States over the radio for thirty minutes Sunday evening. After hearing the President in one of his fireside talks we can understand why the people have much more confidence in than they have in congress. No vain boasting, no ranting, just "Heart to Heart with His Friends" and every word is an expression of "Faith, Hope and Charity," coming from the heart of a man filled with a sincerity of purpose that makes one love him, be he right or wrong.

We understand that some of the Jayton goofy golfers have reformed. Thrown their clubs and white pills away and resolved that in the future should they feel the need of exercise they will get it on the end of a hoe handle. We extend congratulations. There is much more glory in destroying a useless weed than there is in belting a rubber pellet with a club. Some golfers do destroy more weeds with their clubs than they ever will with a hoe.

Rev. W. T. North who was in Jayton the first of the week, says it's an insult to a real dust storm to call these we have in Jayton by that name. He says we should test out one of the kind they have at Mexico. Thanks, we are very well satisfied with the samples we have been having and are perfectly willing to leave the real thing with the folks farther north and west.

Robert L. Wade of Lamesa made a short visit with his parents, Mr. and Mrs. L. F. Wade, Tuesday night.

The Reporter: O. O. McIntyre probably the most noted of the many syndicated columnists, recently paid the country weekly newspaper a tribute in his daily column that will bear repeating here, at the risk of offending the syndicate which holds copyright on McIntyre's production. Heading the tribute "Pardon My Red Flannel Shirt," McIntyre wrote: Much of the very best stuff written in American newspapers reaches only a limited audience. This is because it is turned for country weeklies and small town dailies. It is a pity that more of it is not syndicated.

There are very few smart alec writers or exploiters of the personal pronoun among them. They write deeply, if impersonally of the things they feel. They are interested and believe in the triumph of right, the church and dignity of good citizenship.

They run clean as the wind of their native hills or the waters of their local streams. I commend to any newspaper reader fed up with shocking crimes, blackmail lawsuits and Hauptmann trials, a careful perusal of their home town paper.

Many of the lonesome little personals may offer a comic touch, but no more so than a city society scribbler's rave that the debutante Miss Gwendolyn Smith-Park is singing hotcha songs in a decadent night club. Or that Lovely Lacy, of the chorus, walked a baby lamb up the avenue on a platinum leash.

There may be editorials, too, that are not attuned to the high speed life in cities, but they are restful after the headline splash. I quote from an exchange weekly in Arkansas:

"These are nights the hill people remember after the shut in days of winter. It is quite near the heavenly to lean back in the favorite porch chair and watch the shifting clouds so gently putting a splendorous sun to rest. The even songs of the birds must be almost as beautiful as the great-old world cathedral choirs we have read about. There is a promise in the air and a glint of something better in the sheen of the dew. On nights such as these the corn-cob has a more fragrant whiff, the trees seem in gentle murmur and those of us whose consciences are clean feel just a bit nearer to God.

In New York that would likely be called "hekum." But now and then sometimes one has to turn to those country weeklies and small-town dailies to find there is still a strain of sanity in the land.

Will Gardner was seen in Aspermont last Sunday, it was a case of toothache.

COSTING LESS

A few Sundays ago Secretary of the Treasury Morgenthau explained, via radio, the financial status of the nation. Two of the facts brought out in his speech are of exceptional interest.

First, when the present Administration came to office the gross public debt was a trifle under \$21,000,000,000. On March 31, it was \$23,000,000,000.

Second, it would naturally be supposed that the interest cost of the debt would be at a record high, inasmuch as the debt itself is. But the annual interest cost now amounting to \$800,000,000 — is less than it was in 1925, when the debt was \$8,000,000,000 less.

The reason is that Government bonds now pay less interest than at any other time in history. The average on bonds outstanding is but 2.88 per cent, and the Treasury is gradually calling in old, high-interest bond issues, and issuing low-interest ones in their place.

IMMUNIZE NOW

Austin, May 2. —The May day slogan "Immunize Now - Stamp out Diphtheria" is designed to intensify the attack upon one of the most deadly foes of children, according to Dr. H. N. Barnett, Director of the Bureau of Child Hygiene. In the early days of our country's history an epidemic of diphtheria in a town not infrequently resulted in one or more deaths among the children of almost every family in town. These devastating outbreaks continue to appear in our various cities and towns until the latter part of the last century.

The campaign carried on in connection with the celebration of May Day as Child Health Day, should give added interest to continuing diphtheria immunization work and extending its scope to include as many children as possible. The best time to immunize a child against diphtheria is during infancy. The procedure can be carried out any time after six months of age — the sooner the better. By carrying out a State-wide May Day program for this year with the slogan "Immunize Now Stamp Out Diphtheria," it is hoped that the death rate from diphtheria may be reduced in Texas.

The place to have the baby immunized is in the family physician's office. The immunization is by the method of family physician and have the child protected against this deadly disease.

Harold Kenady says that he is going into the car top dressing business. He said he got a can of paint that cost 20 cents and performed a job on his car that would have cost five dollars anywhere in town.

Wanted: Anyone having a guinea rooster they would like to sell, trade or give away see me. —Med wade

Miss Blanche Yarborough spent last week end in Rotan visiting some of her friends there.

Hilltown Bugle— The debate at the consolidated school this week was on the question, "Resolved that the dirty, loving wife is more desirable than the clean scolding wife." The clean, scolding wife won.

Overton Argus.— Mr. A. Q. Kishpaw, of the Broad Branch Section, was in town Saturday. Mr. Kishpaw says a certain animal or critter of some sort has recently been prowling about. This 'thing' which looks bad and hollers worse, seems to delight in playing around a certain cemetery at night. It has caused some few boys to break the speed limit when passing this region. What it is and what it wants are two things that folks around here are very anxious to learn.

CLAIREMONT 4-H CLUB

The Clairemont 4-H club met April 24th at Dallas and L. O. Gorman, with Miss Jones in charge, who gave a demonstration on bed spreads. The most interesting thing that was said was that we could make pretty bed spreads for only one dollar.

Our next meeting will be next Wednesday evening. Everyone try and be present.

G. H. Brown and wife were in Aspermont last Sunday afternoon.

Sad To Relate Tho It Must Be So

Austin, May 2.— April relief loans in the various counties of Texas are lighter than those carried during March, statistics compiled on the basis of estimates submitted by county administrators to the Texas Relief Commission reveal.

Although only four counties have less than five per cent of their population on the rolls, the number in the respectable class — those having between five and ten per cent of their population on the rolls — increased from 14 in March to 20 in April.

Counties with less than five per cent of their people on relief rolls were Crockett, Kenedy, Lavaca and Winkler.

Counties with from five to ten per cent of their population receiving aid included Hudspeth, Parmer, Hutchinson, Carson, Crane, Upton, Reagan, Glascock, Terrell, Cameron, Hidalgo, Kieberg, Nueces, San Patricio, Bee, Karnes, Gonzales, Fayette, Austin and Ford Bend.

"Most cheering fact from this study is that only four counties all of them in drouth-stricken West Texas, have more than 40 per cent of their inhabitants on the rolls," said E. A. Baugh, assistant director of the Relief Commission. "Last month, there were 12 counties in this unfortunate condition."

Counties in this "over 40 per cent group" are Stonewall, Kent, Yoakum and Cochran. All other counties in the state have caseloads ranging from 10 to 40 per cent of the population.

The estimated caseload for April is 270,739; the estimated number of persons, 1,110,029, the percentage of the state's population of relief rolls, 18.88.

75,492 BENEFITED

Austin, May 2 — Emergency education in Texas brought educational benefits to 75,492 persons during the month of March, it was revealed in statistics compiled by Texas Relief Commission officials in charge of the program.

The program is divided into the seven classifications as follows:

- Literacy classes, 11,337 persons;
- vocational education, 15,956;
- vocational rehabilitation, 180;
- nursery classes, 2,168;
- workers education, 1,222;
- general education, 44,524;
- parents education, 103.

Money spent on the program brought benefits to 8,278 families, 402 single cases. Classes were conducted by 2,618 teachers, who were paid salaries totaling \$125,613.49.

The student aid program, conducted for college students who otherwise would not be able to attend school, benefitted 4,595 students in 81 Texas colleges, at a total cost of \$64,184.85 for March. Of these students, 2,042 were in school last year, and 2,553 were new students. Checks totaling approximately \$63,300 were mailed to colleges last week to cover April student aid costs.

Miss VeraLee Jones, County Home Demonstration Agent for Kent county is driving a new Ford V8, purchased from Black Motor Company.

JUNIOR - SENIOR BANQUET A BIG SUCCESS

Last Friday night at the school building the Junior class entertained the Seniors with the annual banquet.

The banquet was finished in old Spanish style with plate favors of little Spanish dolls. The programs were of silver finished in black. The menu consisted of Spanish foods and drink.

The Juniors had as their guest the Senior class, teachers, and the winner of the popularity contest, Miss Mozell Gallagher.

SOPHOMORES WIN CONTEST

The contest for the school queen which has been in progress at the local high school ended last week, and the winning girl was Miss Mozell Gallagher, a Sophomore. Mozelle's class really worked to win this honor for their class.

The runner up contestant was Miss Mildred Self, a Junior. It looked like the Juniors had won the contest up until the last minute when the working Sophs put their candidate over for a win.

Miss Bill Barton, who has been visiting Miss Eloise Wilson the past few days returned to her home in McCauley last week.

Commissioner C. H. Cade returned last Friday from a trip to South Tex.

Friends of Edgar Johnston are glad to see him up and around.

Chas. Arthur is now official bookkeeper at the Chevrolet headquarters in Jayton.

25 BANDS TO BE AT LUBBOCK

Lubbock, Texas, April 25.— Approximately 25 bands with over a thousand competing musicians are expected here May 3 and 4, for the West Texas High School Band contest, according to D. O. Wiley, director of the Texas Tech Matador Band, who is likewise director of the contest.

The contest is sponsored by the West Texas division of the Texas Band Directors Association.

Through the Lubbock Chamber of Commerce, Lubbock merchants are offering approximately \$300.00 worth of prizes, loving cups and individual trophies.

All bands that receive a rating of superior band will be given a loving cup. About four dozen solo trophies have been ordered.

Prizes of \$25.00, \$15.00 and \$10.00 will be awarded to the bands making the best showings in the parade Saturday morning, May 4. One of the largest crowds that has ever been in Lubbock in several years is expected here to witness the parade which will be the longest parade of bands ever witnessed here.

Friday evening, May 3, a massed band concert with over 200 musicians, will be staged, free to the public with contest judges directing the various numbers. The judges are: Richard J. Dunn, director, Texas A. & M. Band, College Station; Earl D. Irons, director, North Texas Agricultural College Band, Arlington; N. J. Whitehurst, State Supervisor of Instrumental Music, State Department of Education, Huntsville. Ellis B. Hall, Amarillo Academy of Music, Amarillo; Sanford Eskridge, San Antonio.

There will be class A, B, C and D and Junior High School bands. Among the bands that have entered the contest, or several, soloist, or both, are the following: Abilene, Lubbock, Midland, Big Springs, Wink, Snyder, Sweetwater, Monahans, Lorraine, Crane, Levelland, Fort Stockton, Odessa, Panhandle, Slaton, Fort Sam, Sam Houston School of Amarillo, Junior High School of Lubbock, Lamesa, Wichita Falls, Iowa Park, and Clarendon.

The kids eat them dirt and all— Mulberries.

Chickens, Turkeys

Give Star Sulphurous Compound in their drinking water (used regularly as directed it cost very little) and it will keep them free of germs and worms that cause disease; also it will keep them free of Lice, Mites, Blue Bugs and Fleas, that sap their vitality, and you will have good, healthy, egg producing fowls and strong baby chicks or we refund our money. — Jones Drug Co.

Old Shoes Made New

New shoes sold too. A guarantee of absolute satisfaction is behind our work and shoe sales.

Harness work, saddle work, in fact we do leather work of all kinds and do it as it should be done.

SCHOOL NEWS

Although most of us don't realize it, school will be out in about two more weeks. Then for those students that have been wanting to get out to school, their desires will be fulfilled. However some of them don't have that much hatred for school work.

The gym is progressing nicely and we are proud of it. We can play ball regardless of the weather. Last year, we were hoping it wouldn't rain but next year we won't be worrying about it at all. The students and the outsiders are cooperating in the work and we appreciate it.

Last Monday we were entertained in chapel by Miss Murphy and her pupils. A very good program was given.

Probably by the time school is out we will have a bunch of poets as Miss Yarbrough is certainly pouring it on us this week. It is a very common sight to hear some one going down the hall mumbling poetry. Merle Rose thinks he will be a second Shakespeare some day.

A number of students are preparing for the last week of school program. We feel that the Texas Centennial program will be a very good program and we know it will be very appropriate for the occasion.

since next year is the one hundredth anniversary of the Lone Star State. Much work is being done on it and so we invite all of you to come out and enjoy it. The date will be announced later.

Ah: that senior play is a scream, too. Folks we are telling you it will be good so don't fail to see it. If you want to see Merle cook for an up-to-date family. He knows his biscuits could very easily be used in a cannon but he claims to be a cook anyway. Too when you see her using a hatchet splitting pers for the split pea soup, we know your sides will split. If you have never heard or witnessed the sound of a dying calf you should hear Geraldine, as maid, when she finds that her policeman friend is a fraud.

"Getting Acquainted With Midge" is harder to do than one might think, so come up and we will show you how.

CHEVROLET ANNOUNCES NEW MODEL

Chevrolet has announced the introduction of an innovation in transportation units, called the carryall suburban model, which can be used interchangeably for hauling the merchandise or as a passenger vehicle seating eight persons. Wide acceptance of the new body is predicted, because of its versatile utility. It is

designed to fit the needs of owners of small businesses who primarily require a commercial vehicle, but who will use it also as a family car: an appeal to schools, camps, clubs, hotels and other purchasers whose first need is for a passenger vehicle of greater capacity than regular models, for ready use also for hauling baggage, supplies, and other loads.

The carryall suburban body is mounted on the Chevrolet 112-inch wheelbase chassis equipped with 5.50-17 tires. The new model carries a list price of \$680.

For commercial purposes, the body provides a load space 75 inches long 52 inches wide, by 51 inches high. Loading is through the rear, which is provided with a horizontally divided closure, the lower half dropping to serve as a sturdy tail gate, and the top half opening upward, its weight carried by a spring balanced safety support.

As a passenger vehicle, the car seats eight persons, the front and rear seats holding three each, the middle seat two. Entrance is by the right front door, past a tilting coach type single seat and an aisle alongside the middle seat. All except the front seats are readily removed or replaced, providing for the conversion of the vehicle for either commercial or passenger use.

Avon Sewalt entertained a few of his friends Wednesday night in honor of his birthday.

CHEVROLET SALES EXTRA LARGE

Retail sales in the United States by the Chevrolet Motor Company to the end of March were the largest for any first quarter in five years, it was announced today by W. E. Holler, vice president and general sales manager.

"As compared with last year, the first three months of 1935 showed a gain of 23.2 per cent in sales. While both trucks and passenger cars shared in the gain, the larger part of the increase over 1934 was in passenger car sales which increased 31.5 per cent," said Mr. Holler.

"The quarter ended with a total for March that established it as the largest March sales record since 1930 and with a bank of more than 74,500 orders on hand to be carried over into April.

"The present demand requires the operation of all Chevrolet manufacturing and assembly plants at their maximum rate through April, and the company looks to a continued heavy demand through May and well into mid-summer."

HELPFUL HINTS

A reader claims an equal measure of lard and soda made into a paste will remove warts after several applications.

If you use your salt, sugar and

flour sacks to make tea towels, dollies etc., you can remove the lettering by rubbing thoroughly with lard and letting it stand overnight, then boiling in soapy water.

Mildew stains can be removed by soaking the damaged article in sour milk of buttermilk for two hours and laying in the sun, when dry, rinse.

Wall paper can be cleaned by scrubbing with a soft brush and a clean cloth, changing it so as not to soil the paper.

A damp cloth dipped in soda makes an excellent combination for painted wall surfaces.
