## FEATURES OF THE 1936 CHEVROLET

New Master de luxe and Standard Chevrolets for 1936, embodying marked advances in styling, engineering, and performance, were introduced November 2 at the New York automobile show and simultaneously throughout the country at dealer salesrooms, which have been liberally stocked with new models for display and delivery.

Completeness in equipment, in appointments, and in convenience is stressed in the company's 1936 announcement.

The Master de luxe, offered with either knee action or conventional springing, has been restyled in its more important appearance elements notably by the adoption of a higher hood louvres, new style headlamps and narrower grille of distinctively original design, in combination with a new treatment of the mounted on the sides of the radiator shell, and new interior trim.

The lower priced Standard models have been completely redesigned in chassis and bodies. Last year the Standards differed materially both in appearance and in construction from the Masters; this year, the two lines are identical in all major features of styling, engineering, and performance, the chief difference being only a matter of wheelbase.

Outstanding among the many new features of both Master and Standard models for 1936 are perfected hydraulic brakes; improved engines having higher compression ratio (6-1), balanced carburetor, full-length water jacketing, and other changes resulting in better cooling and improved gasoline and oil economy; and chromed rust-prevention of fenders and running boards.

## SOMETHING TO BE PROUD OF

We take pleasure in calling the attention of our readers to a statement found elsewhere in the Chronicle, by Mr. Sam Williams, Pres. of the Williams-Miller Gin Co.

As our readers will know of the fire of unknown origin destroyed the William & Miller gin just after the ginning season opened, and the first question asked by many of the farmers of this trade territory, was—"Will they build back?" Mr. Williams answered the question in no uncertain terms, by calling on all the available help at his command and starting the rebuilding before the setting of the first sun after the fire.

When he assured the farmers who had been ginning with this gin for the past sixteen years that a new gin would be ready and running by the first of November, they could hardly believe he meant what he said, but when the unbelievable was accomplished in two short weeks, they were both agreeably surprised and delighted.

Mr. Williams, who is the president of this company which has a large number of gins in both Texas and Oklahoma did not leave the work of rebuilding to any of his assistants, but came to Jayton in person and has been here every hour and on the job early and late directing and superintending the work.

The Williams-Miller Gin is a part and parcel of this territory. For better than sixteen years it has been working for and with the cotton farmers of the Jayton community. The gin company is loyal to its friends and customers and they have proven their loyalty to the company. Many of them held back their cotton until the new gin was ready to go. That a cooperation of the right sort, the kind that builds towns and farming communities.

The gin is now running full time—the hum of the great electric motor that pulls the machinery is sweet music in the ears of all the people. No small town can afford to lose business investments of this class. And we hope and trust that never again will the fire fiend visit the property of this progressing and enterprising firm and that they will continue to receive the liberal support of their many friends in this section of Kent and Stonewall counties. We take pleasure in extending congratulations to Mr. Williams, his assistants and helpers on what they have accomplished, our hats are off to them.

## WHAT WE THINK OF JAYTON

We were asked this week by one of our friends—"What do you think of Jayton?"—Here is what we think. It is the best small town in the world. Go out and look them all over—and if you will be honest with yourself you will admit that we are correct in this statement.

We are a little town with the conveniences of a city. We know each other as we are, and if there is a snob in the town or the surrounding country we have never met him.

We have a good bank, good merchants, good schools, good churches, a good movie show, a good farming and stock raising country, good gins, the biggest and best small town oil mill in the state, and lots of other good things and well as the fact that a great majority of the people are good people.

With a few more good roads and a few minor improvements to our city streets we would have just about our full share of the good things of life and where oh where can you beat this set up?

## ALL ABOUT THE NEW FORD V-8

Thirteen body types are available, ten with de luxe appointments and three without. These are:

De Luxe: Three-window coupe, five-window coupe, roadster with rumble seat, phaeton, cabriolet with rumble seat, convertible sedan, Tudor sedan, Fordor sedan, Tudor touring sedan and Fordor touring sedan.

Without de luxe equipment; Five-window coupe, Tudor and Fordor sedans.

Interiors, especially luxurious in the de luxe types, reveal a distinctively modern treatment. The color motif is a rich gray, with which the taupe of the upholstery fabrics harmonizes. Seat cushions are deeply pillowed and set off with new piping. In de luxe types various upholstery options are available.

Accessed arm rests give added elbow room in the Fordor and Fordor touring sedans.

All instruments are of new design to conform to the modern effects of the new metallic pyroxlin instrument panel. De luxe car panels are fitted with 100 mile speedometer, with mileage recorder; ammeter, water temperature indicator, electric fuel gauge and electric oil gauge, as well as cigar lighter, tilting ash tray and glove compartment. The ash tray may be removed and a Ford radio installed upon special order.

All body types have clear-vision ventilation. Safety glass is standard in windshields and all doors and windows.

## LEGISLATORS SORE WOULD TAX NEWSPAPERS

Some of the pin heads that by some hook or crook managed to get elected to the State Legislature, became sore at the newspapers of the state because they called them down for their slothfulness and doing nothing but quarrel and fuss while drawing the tax payers money, and decided they would get even by putting a special tax on the papers of the state. Well, the bill did not get very far, but it was debated enough to let the publishers know who the disgruntled were. It is as we stated once before, so many of those birds have the idea that they are all powerful, and if they can't have their way with things, they determine no one else will.

Little Hitlers, Stalins, Mussolinis—"don't criticise us, or off goes your head." Well they should have passed this special tax bill. Its what the newspaper publishers need to put them on the job of FIGHTING for the rights of the people.

Too many publishers are afraid to express themselves, might lose a subscriber or an advertiser.—The newspapers have a duty to the general public to perform and should never stand back when some bunch of politicians delegate themselves powers that belong to all the people.

Any time a legislator is unable to serve his district and state as they deserve to be served, he should resign and give someone a chance who is able and qualified to deliver the goods.

## ISN'T IT AWFUL?

Austin, Oct. 27—Each person in Kent County would owe \$155.81 if the \$600,043 debt of all the taxing districts in the County were distributed evenly," said State Auditor Orville S. Carpenter today about a recent survey.

"Average per capita indebtedness of all local units of government in Texas is \$115.10. Kent County's debt is larger than this figure. Debts range from \$13 average for each person in some counties to \$400 of \$500 in others," Mr. Carpenter said, concerning a recent report of the State Auditor on "Taxes and Indebtedness of Local Units of Governments in Texas for 1934."

"More than five million dollars worth of property, or an average of \$1,408.32 for each person, is listed on the rolls of tax districts in Kent County," he stated.

"This \$5,423,451 worth of property is assessed at an average of 45 per cent of its true value. Other counties have assessments bases bases ranging from 20 to 100 per cent of their property value," Mr. Carpenter explained.

"Taxing units considered in Kent County were school districts, road districts, and the County itself. The largest item in the Kent County debt was road district bonds \$430,645," Mr. Carpenter said.

## A STATEMENT OF APPRECIATION

Not being able to see each one personally who worked and helped us rebuild our gin after it was destroyed by fire, we take this means to thank every one. We want you to know that we appreciate everything you did for us.

We also wish to thank everyone for their sympathy and encouragement which has been extended to us, and especially do we wish to thank the cotton growers who held their cotton and waited until we could rebuild our gin and get ready to handle it for them.

It is a real pleasure to meet and know such good people and to do business in such a good and appreciative community.

Again thanking each and all of you, wishing you health, happiness and prosperity—we are truly yours,

Williams & Miller Gin Co.  
By Sam Williams, Pres.

## SHOP LIFTERS HIT JAYTON

Monday of this week an organized gang of shoplifters hit Jayton and while all the help was out of the Lyles-Estes Store but one and while she was busy waiting on a customer they made a raid getting off with quite a bunch of goods. As soon as the goods were missed the officers were put after them and they were picked up in Spur while attempting to peddle the goods in that town. The gang that was in Jayton was composed, when they left town of two women and three men. Folks should keep their eyes open and notify the officers as soon as a suspicious acting man or woman hits the city.

Lawrence Mayer went to Abilene Tuesday to see about getting a new Dodge.

## TIME LIMIT FOR FILING OF SALES CERTIFICATES

Cotton Sales Certificates which are being obtained by producers to qualify for the 1935 cotton price adjustment payments are required to be filed promptly with county agent within seven calendar days after the date of sale, it was announced recently by the Agricultural Administration.

The sales certificates have been printed and circulated throughout the cotton belt. The new regulations provide that in case of cotton sold prior to October 23, 1935, the cotton sales certificates for such sales shall be delivered to the office of the county agent not later than November 1, 1935.

## WINTER PROOF WITH MAGNOLIA

Profiting from the experience of large fleet operators, automobile owners are rapidly learning that a semi-annual check-up of their cars is the best insurance that they can buy against cold weather damage and expense. Fred M. Lege, Jr., vice president of the Magnolia Petroleum Company.

"Thrifty Americans have learned that it is good business to carry insurance that protects them against damage to their persons and their homes," Mr. Lege said. "They insure their automobiles against fire and theft, and often against damage from accident—and now they realize that it is equally as essential to insure an automobile against the ravages of weather and wear by protecting the engine, the body, the cooling system and other vital parts by means of two semi-annual check-ups—one in the Spring and one in the fall.

## HIGH SCHOOL TO PRESENT PLAY TONIGHT (FRI.)

The High School Dramatic Club will present tonight for your entertainment in the high school auditorium a 3-act comedy entitled "Moon River Rancho".

This is a good clean entertaining play that you will all enjoy. Come out at 7:45 Friday (tonight) and you will be pleasantly entertained.

## NOTIFY THE CITY MARSHAL

The people of Jayton, and more especially the housewives are urgently requested to notify me when out of town people call on them with for the purpose of selling articles of anykind. At this season of the year the country is full of all kinds of grafters and folks representing themselves as agents. Perhaps they are attempting to sell goods stolen elsewhere—beware of them and call me at once and I will investigate and if they are not legitimate salesmen of saleswomen they will be taken care of promptly.

J. M. Hall, City Marshall.

## SPUR LEGION POST GIVES PROGRAM HERE

The Boyd M. Williams Post of Spur American Legion gave a program here last night in the interest of the local organization. A number of members of the Spur Post and several Spur business men attended this meeting.

M. C. Golding of the B. Schwarz & Son Merchandise firms of Spur delivered the main address. Others on the program were W. B. Lee of the Spur Security Bank and R. E. Dickson the Spur Experiment Station.

## VOTE OF SIX TO ONE ON CORN-HOG ACT

The governments Corn-Hog program was given the endorsement of the corn-hog producers of the United States in a nation-wide poll Saturday by a six to one vote. So it must be O. K. if the ones that raise the corn and hog approve in such an overwhelming manner.

## ANNUAL STOCKHOLDERS MEETING IN JANUARY

Plans for the annual stockholders meeting of the Stamford Production Credit Association in January and a tentative educational program for prospective members were discussed at a meeting of the board of directors of the association held in Stamford, Texas, October 18, 1935.

G. W. Fritzen, Field Representative of the Production Credit Corporation of Houston was in attendance and addressed the meeting. Production Credit Associations, of which there are 38 in Texas, have advanced more than \$8,000,000 to Texas farmers and stockmen and are preparing for the rush of next season's business.

## BASKETBALL TOURNAMENT

The Jayton High School is staging their third annual Girls Basketball Tournament on Friday and Saturday of next week. This promises to be a great event for this section of the county as towns for 100 miles around are to be represented at the tourney.

The following teams have sent in an early entry: Aspermont, Swenson, Noodles, McCauley, Hawley, Dowell, Dickens, Girard, Idalou, McAdoo, Dumont, Peacock, Post, Paducah, other teams from Cottonwood, Sylvester, Roby, Rotan, Hamlin, Lorenzo, are expected. Jayton will enter an "A" team and a "B" team. Both are exceptionally fast teams. The A team having played 12 games and being defeated only twice. The "B" string with no losses and credited with defeating the fast Paducah No. 1 team by a score of 40 to 19.

## PAYROLL FOR CENTENNIAL EXPOSITION RISES

With construction under way on four of its major buildings, and contracts to be let within a few weeks on more than a dozen additional large permanent structures, there are now more than 100 employees on the payrolls of the Texas Centennial Exposition and other agencies making preparations for the 1936 Fair.

Now under construction are the Administration, Agricultural, and Food Products Buildings, and the \$1,200,000 Texas Hall of State. Bids were received Saturday on the construction contract for one of the two Livestock buildings.

In addition to workmen employed on buildings, large crews are at work on laying of service pipes for utilities, and landscaping of the grounds.

Mr. and Mrs. Ivey Murdoch and Mrs. J. A. Wilson and Elouise visited Mrs. Hank Harlam of Hamlin Sunday.

## THANKS

To the manager of the Palace Theatre of Jayton, Mr. Draper, the school children send their heartiest appreciation for entertaining them one evening last week with that big picture "Dinky". We all enjoyed the picture to the fullest extent and wish for Mr. Draper much success in the show business and hope he brings more good pictures like that one, "Dinky" to town.

## OF THANKS

This opportunity to express appreciation for the kind and thoughtful of our friends and neighbors upon the death of our dear mother, Oct. 3rd, whose death left us heart sore, only those who have a broken heart can realize how much grief meant to us and family.

**R. C. CAMPAIGNS TO PREVENT ACCIDENTS**

Program Inaugurated in Local Chapters to Cut Down Farm and Home Accidents

The American Red Cross has launched a nation-wide campaign to eliminate hazards in the home and on the farm that now take an annual toll of nearly 35,000 lives, according to a recent statement by James L. Fieser, vice chairman in charge of domestic operations.

"Every Red Cross chapter is being asked to play a part in this campaign," Mr. Fieser said. "Hazards in the various communities will be pointed out. The children in our schools throughout the country will be given a list of the home hazards and asked to enroll parents or relatives in the fight against them."

Nearly five million men, women, and children were temporarily disabled in the homes of America last year by accidents, officials of the National Safety Council have revealed. Most of the accidents in which persons were killed and injured could have been prevented, according to this safety agency, this fact alone largely motivating the Red Cross drive for accident elimination.

Active cooperation of social, civic, educational, veterans', and other groups has been secured. Red Cross inspection forms or home check lists will be distributed to homes where there are no children with the help of these organizations.

Due to inaccessibility and lack of compensation coverage, little or no pioneering has been done in the field of farm safety, the Red Cross states. However, more people were accidentally killed in agricultural pursuits last year than in any other occupation, making the need for safety education and farm home inspection apparent.

Other agencies now active in the accident-prevention field point to the fact that, because of its nearly 13,000 chapters and branches, the Red Cross has a unique opportunity to successfully promote a project of this nature.

Home accidents injure many more than do automobile accidents; they kill nearly as many, claiming an average of about 80 lives daily. In terms of dollars and cents, for the practical minded, home accidents cost more than \$1,000 per minute.

Accidents of all types are Public Enemy No. 4. Only three diseases cause as many deaths each year, heart disease, cancer, and cerebral hemorrhage.

"The home is not the place of safety it is commonly supposed to be," said Mr. Fieser in commenting on the new Red Cross service to the community. "The Red Cross, as a part of its chartered obligation to prevent death and alleviate suffering, is conducting this humanitarian program to cut down the mounting toll of avoidable personal injury and death in the homes of the country."

The annual Red Cross roll call, running from Armistice Day to Thanksgiving Day, is one of the means of backing such a campaign. All citizens of the United States are offered the opportunity to join and assist in the work of the organization.

Burl Murdoch was shopping in Abilene Tuesday.

Mrs. John Wilson and Elouise, were in Abilene Tuesday.

Francis Hunter of Amarillo is visited friends here this week-end.

Clay Beaver has moved to Post Texas where he will continue in the employment of the Federal department. Clay is an efficient worker and we are sorry to see him transferred from Jayton.

**WHAT IS THE MATTER WITH YOU?**

Are you sick or afflicted, distressed or oppressed in body or mind? Have you ring bone, corns, piles, bunyons, sore throat, appendicitis, colicites, constipation of ideas or of the bowels? Have you a pain in the neck, lumbago, worms, female trouble, gas on the stomach, fallen arches, or do you suffer from lost ego? Did you drink from a spring branch when an infant and swallow a germ that in later years developed and grew into a hydra-headed monster that now clings to the lining of your intestines and devours your life blood—if you did you have tape worm. Perhaps its as long as the

**A YOUNG PIONEER**

When several hundred families were sent to Alaska from the Middle West to settle the Matanuska Valley, the Red Cross sent a nurse, Madeleine de Foras, to remain with them for a year to help protect their health. Among the first friends she made were the little pioneer, Arthur Mack, 4 years old, and "Prince," the pup who went with his young master to Alaska.

Mississippi river and has as many heads as a thousand leg worm has feet.

Well no matter what is the matter with you, just after Mr. Bones sings us a little song, dances a little jig and pecks a little tune on the banjo, we are going to give you a chance to buy a little bottle of Dr. Spoofer's cureall. (which we guarantee is not worth the paper it is wrapped in.) All it is fit for is to extract from you one of your hard earned dollars, but boy it is what you need and what you must have if you expect to live long enough to see the rising of another sun. All these years your good and faithful family physician has been taking your money from you in rolls, treating you for some ailment no animal ever had and now, this minute, this one time, never to happen again, I the great Tin Horn Physician, am going to give you a chance to separate yourself from a dollar and for ever afterwards cuss yourself for being a dam fool, though you will never own up to your wife it is so. Come on and get it, just a few bottles left, when this is gone there will never be any more, — until it rains. Hurry, run, have your dollar in

your hand. For get your aches and pains, your poverty and your wives need for a new pair of socks, or the chaps need for a suit of warm underwear, get a bottle of the wonderful colored water, and take it according to directions and be a man for ever and for ever amen.

Just one bottle left. Who wants it? Ah, my poor friend, would you stand back and face the dark future when just a little old paper bill will bring you this life saving colored tank water and put you immediately on the road to the toilet and everlasting health. That's it, you are the man we have been looking for take it and be saved.

Now ladies and gentlemen—we will have another little song and dance by Mr. Bones, then we are going to sell you a little salve for your conscience, you must have it after buying so liberally of this pink water seasoned with salts and cro-tan oil.

All right Mr. Bones, a little tune while I am getting out this last box of salve.

Now friends after being entertained so highly by our Mr. Bones I want to talk to you just an hour about this wonderful salve. It is an old Indian

remedy, handed down from generation to generation ever since Noah skinned his skin when he fell out of the ark after taking on a little too much of the juice of the grape. It is the only known remedy that will cure every thing from a snake bite to poverty. It is as pure as the twinkie in a baby's eye, and as whole some as stale axle grease. If you are afflicted with corns, just rub a little of this salve on the top of your head and go barefooted for six weeks and the corns will come off the same as a rattler sheds his skin in the spring time. If you are getting bald just rub a little of it on the bottoms of your feet and within thirty years we assure you there will be hair growing all up and down your back bone. If you suffer from a pain in the neck rub your stomach well with it at night sleep in the barn and well before morning the pain in your neck will fly out the stable door.

Now this salve is really worth \$5 the box, but to introduce it to you we are going to sell it to you for \$2.50? No. \$1.00? No. Just fifty cents, one half dollar, and when the big box is empty, the price will go back to \$5.

Come and get it.—Hurry.—Hurry. Just a few hundred boxes to give away at this low price and whats fifty cents in your short life? Sold out Dr. Sold out. And on and on as long as there is a dime in the crowd. Truly suckers are plentiful now

as in the days of Barnum, when only one was born per minute.

**AN INVESTMENT THAT PAYS**

As little as we may think about it, or you may think about it, the price of a years subscription to the Jayton Chronicle is one investment that will pay you BIG dividends.

We can safely say that the folks who take the Chronicle, and read the adv that appear in it from week to week and make their purchases accordingly will save the price of the paper every week. One man tells us that on last Saturday his purchases made in Jayton totaled \$25.00. He figured his saving at more than \$5. by taking advantage of the special prices offered on different articles at the different stores in the town. Subscribe and pay for the Chronicle. Study the advertisings. Plan your purchases in away that will enable you to take advantage of the bargain prices quoted by the live wire merchants of the town each week. Keep account of the money saved in this way and if you are not satisfied it is a money making investment come to us and we will give you back your subscription gladly.

**FARM FOR SALE OR TRADE**  
100 acres two miles Southeast of Jayton, 90 acres in cultivation, 10 acres in pasture, five room house, well and windmill, cistern, 500 young grape and berry vines, several nice fruit trees, \$1080.00 in Federal Loan. Owner will take up to \$1000 in trade, cattle, horses, mules or late model automobile. All interest and taxes paid up, on new highway 18. Owner will also rent 100 acres adjoining this place to purchaser, if interested see—  
Thos. Fowler, rear First State Bank Building, Jayton, Texas.

### ON DISPLAY THIS SATURDAY

The Mason Chevrolet Co. will have on display Saturday, Nov. 2nd, their first showing of the 1936 models of Chevrolets. Mr. Mason and his chief mechanic returned from Dallas Tuesday night where they attended the special Chevrolet school for the sale and mechanics of the Dallas district. Two thousand salesmen and mechanics attended this meeting and according to L. H. all went home filled with sales pep for the new car.

### Red Cross Has Busy Year; Statistics Impressive; Services Varied

Figures gathered at random from the year's report of the American Red Cross reveal the magnitude of the work being carried on by that organization.

Red Cross workers assisted 54,305 veterans; 587 Red Cross Public Health nurses paid 921,455 visits to 186,326 patients; 98,441 first aid certificates were issued while 46,693 persons were trained in life saving. Volunteer workers produced 3,102,843 surgical dressings, with 80,901 volunteers being on active duty throughout the year.

Bill Daniels who has been in the Stamford Sanitarium for the past 16 days was brought home Wednesday. Bill had a severe case of appendicitis but now is safely on the road to complete recovery. His many friends are happy to know that he is able to be at home and Bill says he is mighty well pleased to be back at the old home place once more.

## ANNOUNCING AMAZING TYPEWRITER BARGAIN

FREE HOME TYPING COURSE

ONLY \$49.50 CASH

### BRAND NEW MODEL No. 5 REMINGTON PORTABLE

FREE COURSE IN TYPING & CARRYING CASE

The opportunity you've waited for! A brand new Model 5 Remington Portable for only \$49.50 cash. An easy, practical Home Typing Course FREE! With it, anyone can quickly become an expert on this machine — the lowest priced complete typewriter ever made. Not used or rebuilt. Standard 4-row keyboard. Standard width carriage. Margin Release on keyboard. Back spacer. Automatic Ribbon Reverse. Every essential feature of big office typewriters.

With your Remington No. 5 you get ABSOLUTELY FREE a 15-day simplified typing course. Teaches Touch Stroke method. Ends at the end of 15 days you should dash off letters faster than you can ink. Also a FREE Carrying Case, sturdy built of 5-ply wood covered with heavy Luton fabric.

Come in and try it!

L. F. WADE — Agent

### First Aid Treatment Taught Thousands By Red Cross

More than 187,000 certificates showing completion of first aid courses were issued last year by the Red Cross. This shows a gain of 56,000 certificates over the previous year. Approximately 64,200 boys in C.C.C. camps throughout the country passed first aid tests. Since the Red Cross first entered the field of first aid teaching, being one of the first organizations in the world to do so, at least one million persons have been trained in handling emergency treatment.

The annual report of the Red Cross further reveals that more than 327,000 copies of the Red Cross Aid Handbook have been sold at home and abroad.

The Red Cross has assisted 54,305 veterans in clearing their cases through the U. S. Veterans' Bureau this past year.

Last year 3,837,941 persons became members of the Red Cross. The annual roll call takes place each year between Armistice Day and Thanksgiving Day.

Junior Red Cross members increased by 402,000 enrollments during the year which has just passed. Junior members carried on an exchange of correspondence with junior members in 62 other countries having Red Cross Societies.

## How About That Stove

### NEW HEAT-DIRECTOR gives CONVENIENT HEAT.

Burns Oil

### SUPERFEX Oil Burning HEATERS

DIRECTS RADIANT HEAT WHERE YOU WANT IT

YES, stove heating can be convenient. With a new Superfex Heat-Director in your home you can enjoy the constant comfort of modern, flexible oil heating. No more ashes and fuel scuttles in the living room! No more extremes of temperature. Responding instantly to a turn of the handy control dial, the Heat-Director gives a volume of heat when you want it, yet is easily regulated for milder weather.

Radiant heat that warms every surface it touches can be directed toward the floor or out into the room by means of the patented shutter-like heat projectors on three sides of the Heat-Director. The removable fuel tank holds enough oil for as many as forty-six hours of cozy warmth. The tank can be filled outside while the fire burns undisturbed. Connections for outside storage are also available.

The Heat-Director requires no elaborate installation. Set it up and connect with a flue as you would an ordinary stove. Draft regulation is automatic.

There are seven Superfex Heaters—three Heat-Directors and four Radiating heaters, offering a choice of sizes, prices and heating capacities for every heating need. . . . Handsome Burl Walnut finish in porcelain enamel.

For one-room chilly spots, get a portable Perfection oil burning room heater.

Come in and see these fine new SUPERFEX HEATERS. A PRODUCT OF PERFECTION STOVE COMPANY.

Diagram shows the Superfex Heat-Director's supersonic burner, removable fuel tank and patented heat projectors that direct radiant heat toward floor or other surface as you choose.
