### Know Your Faculty

By The Jayton High School Journalism Class

"People are only as old as they feel, and being associated with young people keeps them young at heart", stated Mrs. Elwanda Hahn, J. H. S.'s Librarian. She also says the "Young people are full of fun and life, and that they are the leaders of tomorrow."

Mrs. Hahn, a graduate of Girard High School, obtained her Bachelor of Science Degree from Texas Tech University in 1965. She is currently working on her Masters Degree and has received her Library Certification from East Texas State University.

School activities, church activities, and summer school consume most of Mrs. Hahn's free time, but she also enjoys sewing and working with ceramics.

"The happiest days that

I have experienced were the days on which each of my children were born", says Mrs. Hahn. She is the mother of four wonderful daughters: Holly, Dana, Janine, and Erin. The Hahns belong to the First Baptist Church. We would like to welcome Mrs. Hahn back to another school year at J. H. S.

### Band Members To Compete In District

Four students of Jayton High School will try out for the all district band. They are Lajuana Hamilton, Jack Williams, John Charles Davis and Mike Rice. They will go to Hardin Simmons University on Saturday, the 6th to compete against several hundred other students from over the region.

Keith Bearden, local band director will accompany the students and will serve as a judge for the baritones.

Those who make the band will attend a rehearsal Saturday afternoon and then participate in a concert at 7:30 in the Behrens Chapel Auditorium on the campus.

Lajuana will play the flute, Jack the cornet, John Charles the Contra-bass clarinet and Mike the baritone.

"We wish the students much luck and success in these tryouts", Bearden said Wednesday.

### The January Draft Call To Get 573

The January draft call for Texas is 573, up from 456 for December, Colonel Morris S. Schwartz, State Selective Service director, said Friday. Colonel Schwartz said he had been instructed officially to delay allocation of the call to the state's local boards pending receipt of official instruction on the procedures of random selection. The induction period will be January 15 through 31. The state quota for pre-induction physical and mental examination in January is 5,800 men.

### New Farm to Market Road Gets Approval

The Texas Highway Commission today approved development of 4.2 miles of Farm to Market Road in Kent County as part of the 1969 Texas Farm to Market Program.

District Engineer J. C. Roberts of the Texas Highway Department in Abilene said estimated cost of the work is \$97,100.

The proposed project consisting of the usual farm to market road design will extend from the present end of F. M. 1083 Southward to U. S. 380.

Work authorized for this county is part of the 827.1 miles of Texas Farm and Ranch to Market Roads earmarked for development in the new program.

The program lists 214 projects in 138 counties. Estimated total cost is \$22 million.

Mileage included in the program totals 237.2 miles of new roads with an estimated cost of \$10.3 million.

The remaining 589.9 miles, to be developed at an estimated cost of \$11.7 million, was designated previously and is being constructed in stages.

The additional mileage brings the designated Farm and Ranch to Market Road system in Texas to 39.5 thousand miles. This is equal to 1 1/2 times the combined total of all State-maintained highways in the six New England States.

Plans call for an eventual RM-FM system of 50 thousand miles. Originally conceived to "get the farmer out of the mud," the network has con-

tributed to the economic and social well being of millions of rural Texans.

For example, 127.5 miles or 54 per cent of the new mileage added in the program announced today is on school bus routes. Fifty per cent or 118.3 miles are on rural mail delivery routes.

Not just the rural residents of the State have benefited from the system, however. The Farm to Market system is equally a "market to farm" system, serving as the framework for distribution of manufactured goods and supplies moving from commercial and industrial centers throughout the State.

In recent years, the FM-RM system has assumed a new major role. A Texas Highway Department study shows that some 2,022 miles of FM-RM roads are used primarily or provide access to 163 water reservoirs throughout Texas. Roads on the FM system have opened up new scenic vistas and recreational opportunities to everyone. One third of the 6.9 thousand miles included in the 10 Texas Travel Trails are FM Roads.

Mrs. M. H. Butler has had surgery and is reported to be doing very well.

### State 4-Hers Join The Nation's Best in Capitol

Learn - earn - serve - save is a formula that works for the nation's 3.5 million 4-H youths.

During recent county and state fairs, scores of youngsters from virtually every county received recognition from the state Cooperative Extension Service and the many business enterprises that support 4-H.

Numverous awards are offered annually. Among them are trips to the National 4-H Congress which will convene in Chicago November 30th through December 4th at the Conrad Hilton Hotel.

Some 1,650 boys and girls representing many different project areas have won 1969 state trip awards. They will comprise the state delegations to the congress, and will be accompanied by state 4-H leaders. Teenagers from all 50 states are expected to attend the Chicago event.

Of this group, nearly 270 will be selected for national scholarships valued at \$155,300, according to the National 4-H Service Committee. Winners will be announced during the Congress.

In addition to these valued awards, 4-H sponsors provide to another group of state champions, \$50 U. S. savings bonds, wrist watches, radios and plaques.

Award donors include: Amchem products, Inc.; American Oil Foundation; Chevron Chemical Company-Ortho Division; The Chicago Board of Trade; Burlington Railroad; Chicago & North-western Railway Company; Cities Service Company; E. I. duPont de Nemours & Company; Ford Motor Company Fund.

Other include; Hercules Incorporated; International Minerals and Chemical Corporation; Eli Lilly and Company; Oliver Corporation; Simplicity Pattern Co. Inc.; Standard Brands Incorporated; Union 76 Division, Union Oil Company of California; The Upjohn Company, the Campbell Soup Company, and the Wrather Corporation.

The congress is the highlight of the 4-H year, and to be a delegate is the dream of every 4-Her. New experiences such as jet travel, living for a week in the nation's largest hotel, taking in the sounds and sights of Chicago, eating banquet-type meals every day, and being royally entertained by stars of stage and TV are but a few of the "firsts" awaiting the 1969 delegates.

Mr. and Mrs. S. B. Johnson, Mr. and Mrs. Bill Harrison and Cecilia Chisum spent Thanksgiving with relatives in Prior, Oklahoma.

# Plain Talk...

THERE IS ONE VIRTUE to which we fail to pay proper homage in our work-a-day world — *moral courage*. It is natural to most men to be brave under fire or in great catastrophies, but let us look at the man who lives a life of resolution and of self-confidence.

He meets crises with decision because he is schooled by intuition or experience to distinguish the essential from the impractical. Whether in private business or public office, we admire the man who meets the grafter or demagogue and disarms him with a courteous but firm "NO".

Shakespeare said, "Peace and plenty breeds cowards" and there is always a lurking danger that we are afraid to offer opposition when our own welfare is involved. True moral courage is born from a sense of duty; it springs from a consciousness of truth and renders a man, in defense of right, superior to fear of reproach, opposition or contempt.

True moral courage is not the primitive force of valor, but the firm resolve of virtue and reason.

### SINGING VIOLIN

Jascha Heifetz, the violinist, gave a concert in Boston during the winter. It was a miserable night, with snow, sleet and hail. As a result, the big concert hall, which normally seats 2,500 people, had 12 in the audience. Heifetz came out onstage and said, "I'm deeply appreciative that you folks turned out, but under the circumstances, we're cancelling the show. Your money will be refunded at the box office."

Eleven of the 12 started to get their money. The lone man stood up and said, "Just a minute, Mr. Heifetz, I'm a music lover. I drove 20 miles through this snow. I even put chains on my car to come here and see you tonight. Won't you sing just one song?"

### DIPLOMACY

That a certain young man is wise beyond his years was proved when he paused before answering a widow who had asked him to guess her age.

"You must have some idea," she said.  
"I have several ideas," said the young man with a smile. "The only trouble is that I hesitate whether to make you ten years younger on account of your looks or ten years older on account of your intelligence."

### THINK OF THE MACHINE

A tired-looking man dragged himself through his front door and slumped into a chair. His wife came out of the kitchen and looked at him with misgivings. "Busy day at the office, dear?" she asked sympathetically.

"Terrible," he answered with a heavy sigh. "The computer broke down in the middle of the afternoon and we all had to think."

*If all of us could hang our troubles on a clothesline and a great downpour began, everyone would run to grab his own.*

### PROPERLY WORDED

An office manager was asking a girl applicant if she had any unusual talents. She said she had won several prizes in crossword puzzle and slogan writing contests. "Sounds good," the manager told her. "But we want somebody who will be smart during office hours."

"Oh," said the girl, "This was during office hours."

### CAN'T TELL

There's a student at Iowa State who figures he can make a million dollars if he can teach his poodle to talk. "You're on the wrong track," his roommate assured him. "Who'd pay a million dollars for a talking dog?"

"Nobody," admitted the student, "but I bet I could find a half dozen dog food outfits who'd pay me a million just to keep him quiet!"

### EXCITEMENT PLUS

A customer was being shaved when an excited man burst into the barber shop and shaking the customer's foot, yelled, "Wilbur, your house is on fire! Startled, the customer leaped from the chair and, forgetting about his lathered face, ran madly down the street. After running two blocks he stopped suddenly. "Hey," he said to himself, "what am I running for? My name isn't Wilbur!"

### Words on Gossip

"I've gossiped about my neighbor," the woman confessed to her minister. "One day I saw her stagger about the yard, so I told a few friends that she had been drunk. Now I find that her staggering was caused by a leg injury. How can I undo this gossip I started?"

The minister excused himself for a moment, returned with a pillow and asked the woman to follow him to the side porch. He took out a knife, cut a hole in the pillow and emptied the feathers over the porch railing.

A small breeze soon scattered tiny feathers all about the yard, among shrubs, flowers, even up in the trees. A few feathers floated across the street, heading for unknown destinations.

The minister turned to the woman. "Will you go out now and gather up every one of the feathers?"

The woman looked stunned. "Why that would be impossible!"

"Exactly," replied the minister sorrowfully. "So it is with your gossip."

## What Choices Mean In Cotton Referendum

Basic program choices will be made by cotton producers voting in the December 1-5 mall referendum on upland cotton marketing quotas, said James E. Winter, Manager of the Crosby County Agricultural Stabilization and Conservation Service.

A "yes" vote by two-thirds or more of the producers voting in the national referendum means:

Marketing quotas will be in effect for the 1970 crop. Producers who plant within their farm allotment will be eligible for a price-support loan of 20.25 cents a pound (for Middling 1-inch cotton at average location) on cotton they produce. They also will be eligible for a price-support payment of 16.80 cents a pound for the projected yield of cotton planted within the domestic allotment which is 65 percent of the total farm allotment.

Farms with allotments of 10 acres or less or farms with projected production (allotment times projected yield) of 3,600 pounds or less may receive a payment of 11.95 cents a pound on the projected yield of 35 percent of the farm allotment. They also will receive the price-support

payment on the domestic allotment and will be eligible for price-support loans.

Growers who choose not to participate in the price-support program may apply for a share of the export market acreage reserve and produce for export only, without Government assistance or marketing quota penalties. Application for export acreage must be made on or before December 31, 1969, at the County ASCS Office.

A "no" vote by more than one-third of the producers voting in the national referendum on upland cotton for 1970 means:

Winter said cotton producers will receive their farm acreage allotment prior to the referendum period.

# Attend The Church of Your Choice

## HAPPILY EVER AFTER

You know how it is when you're a child, you are sure you are going to "live happily ever after" somewhere, sometime.

As you grow older, the story may change a little. The fairy tale princess turns out to be the girl next door; your castle in the air, a white house on Orchard Street. But the goal remains the same, the happy ending on the far side of the rainbow.

But life doesn't always happen like that. Sometimes storybook marriages end in divorce, a promising job becomes a dead end, or a sure-fire investment turns out to be a total loss. Misfortune or your own weaknesses make your days seem futile and empty. What then of childhood expectations? Where do you look for joy and hope and bright tomorrows?

God's love is the only way to find real and lasting happiness. Comfort, strength, and purpose are yours for the asking. Why not attend your church today and find new inspiration for your life?

**THE CHURCH FOR ALL**  
 ALL FOR THE CHURCH

The Church is the great-  
 est factor on earth for the  
 building of character and  
 good citizenship. It is a  
 storehouse of spiritual  
 values. Without a strong  
 Church, neither democ-  
 racy nor civilization can  
 survive. There are four  
 sound reasons why every  
 person should attend ser-  
 vices regularly and sup-  
 port the Church. They  
 are: (1) For his own sake.  
 (2) For his chi dren's  
 sake. (3) For the sake of  
 his community and na-  
 tion. (4) For the sake of  
 the Church itself, which  
 needs his moral and ma-  
 terial support. Plan to go  
 to church regularly and  
 read your Bible daily.

From page one

pus police were not allowed to leave the campus. He knew this was false, because as he put it "You see them off the campus all the time."

He walked several blocks to the residence of a friend, who carried him to the wrecking yard. They refused to take a check, and this caused further delay and embarrassment. When he did get his car, he found they had done physical damage to his car, with a slo-

ppy towing job, and later it developed a long nail, evidently picked up on their junk yard, had damaged a good tire. On top of this he had been given a ticket to report in corporation court for illegal parking.

All of this left him in less than a good humor, by the time he returned to Ralls. So he sat down and wrote a letter to the editor of the "university daily" campus publication, sending a copy of the letter to the university president, and to the chief of the campus police.

The editor of the paper

printed his letter, giving it special display. He received a lot of unusual response to the letter printed in the "university daily."

Immediately, he received a letter of apology from President Murray. He stated that the policy of towing cars off the campus was being changed, and invited him to come in for a personal visit.

He received a letter from the secretary of the dean of women, stating that she was the one that reported the car, which was responsible for the car being towed off. And that she had paid \$24 for the right to park in this place.

Many students contacted him, highly praising his letter. One dean at "the university" sent him word expressing appreciation for his letter with the remark that a lot of the faculty were ex-

tremely unhappy with the campus policy, but could not afford to get involved. But not a word from the campus police, itself, or any of its personnel.

And, then, this week, the senior member of the firm here, old Scoop himself, had a peculiar thing to happen. In years passed, the PR offices at "the university" have been very courteous and friendly including Ralph Carpenter, director of sports publicity.

Monday afternoon, I called in asking about tickets to the Monday night game. In the past, regardless of the game, we have always been told, "Sure, come on over, we will find a place for you." And we have been given tickets, even at capacity games, where more than 10,000 people attended. This week we were told, very courteously, of course, "Sorry, we just don't have a thing. We have had too many calls for tickets for this first game. You will need to call in at least three days ahead."

Evidently, they found some more tickets later, because we drove on over to the game, getting at the coliseum at 7:50 p.m. and were able to purchase tickets. In fact, there were quite a number of empty seats, and the Avalanche Journal, Tuesday morning reported an attendance of 7,100 people, which is about 3,000 less than they sometimes get in the coliseum.

Oh well, you can't win 'Em all.
