\$3.00 Per Year

Jayton, Kent County, Texas.

Friday, March 20, 1970

## This Week In Jayton

In reading the Lubbock Avalanche Journal, I have learned one thing, and that is that the police giving out traffic tickets is not the answer to the accident problem. In a recent issue of the A-J it was pointed out that the Lubbock Police are issuing twice as many traffic tickets this year as they were the same time last year. And yet accidents, and traffic deaths are running far ahead of what they were at this time last year.

So, from these statistics, whatever the solution to the problem, it is not "tickets."

Our son, Donny came by Monday night, and his face was all aglow. The office of U. S. Senate Candidate Bentsen had called him, and invited him to join a weekend political tour. Representing the University Daily at Texas Tech, he will join Bentsen in Dallas Wednesday night via plane, and will accompany him on a tour across East Texas and into Houston for Saturday rally. Then Saturday night he will fly back into Lubbock, and all of this courtesy of Mr. Bentsen. This is what you call "courtesy to the press." It is an experience any young journalist would enjoy and appreciate the opportunity of doing some modern political writing.

I am getting rather sick and disgusted with Editor Guy of Lubbock and Editor Harrison of Spur bragging on their dogs, of foreign extraction. The thing about it, neither of them have a dog that can talk. So, why all the fuss and bother. Now, at our house, we have a talking dog--really. And he is no foreigner, but a plain old American type dog. Back in December when the lady from Corpus Christi moved into our home as head lady, she had a big black dog, that we had to bring too. I call him a Heinz 57 Breed, but the lady insists that he is a Doberman Pinscher. And no foreign name, this dog-- he has a good old deep south name of REBEL.

And--he really talks. At least that's what my mother says, and I wouldn't call her in question.

It's like this. My mother has a mobile home at the back of my house. One day recently my wife and I had been gone, and came back to the house. Soon, my mother came in. "The dog told me you were home" she said, with a smile. It seems that when we are gone, and get back to the house, the dog goes out to my mother's house, and barks and whines, to let her know we are there. Or, as she puts it "He talks to me." And after all, carrying a message could be termed as talking.

So, you Lubbock and Spur

## Jaybird Band Wins Honors At Hale Center

The Jaybird Concert Band under the direction of Keith Bearden won outstanding concert band and outstanding sight-reading band awards at the Hale Center Band Festival Friday, March 14th.

The band returned to Jayton with two beautiful trophies to add to the growing collection of awards won by

the band.

The band played Oregon Trail March by Messing, British Isles Medley by Jasper, and Joyand Narrative by MacBeth.

Judges for the Festival were Dan Gibbs of Monahans, Dean Killion of Texas Tech University and Norvil Howell of Clovis, New Mexico. Sight-

reading judge was R. C. (Chief) Davidson of Wayland College in Plainview.

The judges were thrilled with the band's performance and amazed at their sound this early before contest.

Band Director Keith Bearden stated "the band is composed of seventy of the hardest working students that I

have ever seen or heard of!" The band has a way to go, to be in top shape for contest April 18th but we have a head start on most other bands".

The festival was highlighted by the West Texas State University Concert Band under the direction of Dr. Gary Garner. Members of the Jaybird Band were amazed at their

outstanding concert band and concert.

UIL Concert-Sightreading Contest will be held in Sweetwater's new auditorium on Saturday April 18th. Make plans now to attend contest! We are proud of our band in winning at Hale Center and wish it the best of luck at Contest!

## Know Your Faculty

By Jayton High School Journalism Department

Mrs. Dale Moore, Jayton's second grade teacher for six years, is in the teaching profession because she thinks it is an interesting and worthwhile way to earn an income, and she enjoys being around people. Mrs. Moore has been teaching 14 years. She has taught previously at Peacock and other rural schools in our area.

Mrs. Moore is a graduate of Jayton High School. She attended ACC, Texas Tech, John Tarleton, and McMurry. She received her Bachelor of Science Degree in elementary education in 1964 from McMurry.

Mr. and Mrs. Moore live in Aspermont, where he works for the Highway Department.

They are members of the Methodist Church. The Moores have three children: Larry, an employee of Dow

Chemical Company; Sharon, a third grade teacher in Fort worth; and Terry, a sophomore at Texas Tech.

For her pastime, Mrs. Moore enjoys reading and working crossword puzzles.

We at JHS are proud to welcome Mrs. Moore back for another year in Jaybird land.

## Rolling Plains Track Meet Here Saturday

One of the most important track meets of the year is scheduled to be unreeled in Jayton Saturday, the Rolling Plains.

Coach Ralph Newton expects about 40 teams, Class A and B to be on hand for the running.

Preliminaries will begin at about 8:30 in the morning and the finals in the afternoon. A large staff of personnel is being accumulated to supervise the event. This has been ac-

claimed by visiting coaches as one of the nicest, and most efficiently operated track meets in West Texas.

With 40 teams in town and each one bringing from 15 to 25 people in their group, beside any fans that might follow them, the town will be full of visitors Saturday.

Some pretty good records have been set and it will take some good performing to break any of them.

## Bob Lilly To Speak At Jayton Athletic Banquet

Bob Lilly, defensive tackle for the Dallas Cowboys, will be the principal speaker for the Jaybird Athletic banquet, scheduled here for the night of April 4.

For the 4th consecutive year, the famous lineman is chairman of Lilly Day for Crippled Children. Sponsored by the Easter Seal Society for Crippled Children and Adults of Texas, the event is conducted by Texas high school football players throughout the state.

In its own local area, each team offers Lilly lapel pins for Easter Seal donations. Trophies, donated by the Dr. Pepper Bottlers of Texas, are awarded to the top team in each of five classifications.

Lilly has invited over 700 Texas high school coaches to have their teams participate.

Last year over 3,200 Texas football boys took part in the Lilly Day event to raise funds to help provide treatment and services to disabled children and adults of Texas. Funds

will be used by the Easter Seal Society in Texas to provide services to the disabled in Texas. Lilly Day has been

planned for March 21, with March 14 or March 28 selected as alternate dates in case of poor weather on the 21st.

## Where Is It?

Shown here is a windmill, and a farm house in the background. This is in Kent County, near a well travelled County road. Do you know where it is? Call 237-3593 after 10 Friday morning, and be the first to identify it, and get a year's free reading to the Jayton Chronicle.

## LETTERS to EDITOR

Dear Editor:

I made an earnest effort to get word to you that on your last trip up here, our house was wide open to you, but failed to make contact. I guess you were operating on a pretty tight schedule.

We are living at present in one of those 500 unit, high rise apartment houses. Our apartment is number 1313 and we are on the 13th floor, but if you nurse the hallucination that 13 is an unlucky number,

give it up. From this lofty height I have a birds-eye view of the swimming pool. That is a place where bricks from the sticks might infer that a few aquatic exercises take place, but that isn't the way of it all. The pool is actually a place for gorgeous gals in halter and G-string to lay around on army cots while they soak up lotions and develop various degrees of sunburn. The scenery, when the season is right for it, is breathtaking but it has been a disaster area since cold weather set in. But springs' on it's way and better days are coming!

The crime wave that rages across Washington is getting bigger and more damaging day by day.

As you are probably aware there is so much automobile traffic here that intersections get clogged with it so everything is being converted to over and under passes. This has created a brand new game for some of our more enterprising kids. They collect scrap-iron and broken chunks of concrete on the over-passes and wait for can pulling under. They drop this stuff and if their timing is right create soul-satisfying degrees of carnage. I guess this is alright since this play keeps them off the streets and while they are thus engaged they are

not swelling the ranks of Hippies. Demonstrations that claim equal time with the pigeons and starlings making a nuisance of themselves around the Capitol Buildings.

The Pill, the Population Explosions. Pollution and the galloping deterioration of our Ecology on the biggest subjects are the biggest subjects of conversation now, everywhere people meet, so if you want to give your papers the Urban touch you can bring them right up to date by discussing the propriety of making contraceptives as much a part of a true gentleman's pocket plunder as his handkerchief, coin-purse and Driver's License.

Last week a conference was held in Washington. Outstanding world citizens from every country attended. Over population was the problem discussed and some of the solution to this problem proposed would shake the established racial, political and religious ideas most modern people are living by, to their foundations. For example, one speaker thought putting contraceptive drugs in public water supplies might offer a workable solution to the problem of too many people.

The gloomiest speakers were those who maintained that, in their view, the world has already gone far past the point of no return and that humanity is doomed to perish in the deluge of its' own filth. I see all over the area, plenty of evidence to support their view and I find no reason to

## Adventures In Insight

by Joe Gilmore

It has been over a hundred years since the death of an itinerant nurseryman commonly referred to as "Johnny Appleseed." His real name was John Chapman and he was born in Massachusetts in 1776. He acquired his nickname by helping start orchards all around him and by sending seed toward the American frontier. Apple orchards began to spread from Maine to Pennsylvania and into the Ohio Valley. Not long afterward, the apple-growers stumbled upon an interesting fact: the larger the tree the smaller and fewer the fruit; and the smaller the tree the larger and more plenteous the fruit. Some of the trees had been stunted by weather, others had been damaged by hunters and children and animals. These trees, though small, produced the best and most fruit.

Maine in particular had trouble with their apple trees growing too fast. Consequently, many of the growers would take an axe and deliberately cut a big gash in the young tree to keep it from being just a big woody plant. The y claimed that when a tree was wounded in this way the tree changed for the better.

Here we have a real parable. When buffeted by life's less fortunate experiences, use them as stepping stones to greater character and maturity. Some folk use tragedy as their license to quit; others use difficulty as their excuse for failure. But don't join their crowd. It's big enough! Join the apple tree crowd and DON'T QUIT!!

change the opinion I've held all my life, the further one can get away from big cities and a population saturated country-side, the better off he'll be. Where does one go for a breath of clean air, when we are assured it is no longer possible to take a clean sample of snow anywhere our fume laden atmosphere moves. Every snow that falls loaded with the additives from the fuels of internal combustion engines.

I expect I'd better sign 30 before I have you in debt to me for a letter.

C. Ray Williams  
1313 Grosevorner Park Apts.,  
10500 Rockville Pk.  
Rockville, Md., 20852

When things go wrong, as they sometimes will, When the road you're trudging is all uphill, When the funds are low and the debts are high, And you want to smile, but you have to sigh, When care is pressing you down a bit, Rest if you must, but don't quit.

Life is queer, with its twists and turns, As everyone of us sometimes learns, And many a failure turns about When he might have won but he stuck it out; Don't you give up, though the pace seems slow, You might succeed with another blow.

Success is failure turned upside out, The silver tint of the clouds of doubt, And you never can tell how close you are, It may be near when it seems afar; So stick to the fight when you're hardest hit-- It's when things seem worse that you mustn't quit.

## Jaybirds Place At Snyder Sat.

Jayton tracksters participated in the Snyder meet Saturday. Some of the local achievements were:

Tommy Gibson, ran the 440 in 53.7 seconds.

John Davis reached 18.7 feet in broad jump.

Arthur Johnson pole vaulted 10 ft.

This was after two days of practice. The Coach said he was well pleased with their activities this early in the season.

VISIT'S HERE

L. O. Mayer of Abilene was visiting John H. Mayer and family and friends this past weekend.

Mr. and Mrs. Ray Smith and Mrs. Travis Smith of Jayton and Mr. and Mrs. Hobby Smith of Hale Center had dinner in Lubbock Sunday with the Robert Bybees and the Eldon Smiths.

## Onions Don't Show

Onions and other strong smelling foods or beverage have no effect on the newly approved breath test which scientifically measures the amount of alcohol in a driver's blood.

The Texas Safety Association says only the amount of alcohol present in the blood is shown by the test thus helping to tell the difference between drunk and sober drivers.

## HERE ON BUSINESS

Gordon Young of Ft. Sumner, N. M. and W. C. Young of Tulla were attending to business in Jayton the first part of this week.

## EASTER HOLIDAYS

Easter Holidays for the Jayton School will start March 25th at 2:30 and will resume on March 31st morning.

## VISIT IN MORTON

Mr. and Mrs. Elbert Walker were in Morton over the weekend attending a Lay Witness meeting.

Mr. and Mrs. Odell Harrison and Mr. and Mrs. O. V. Healer attended a funeral Saturday in O'Donnell.

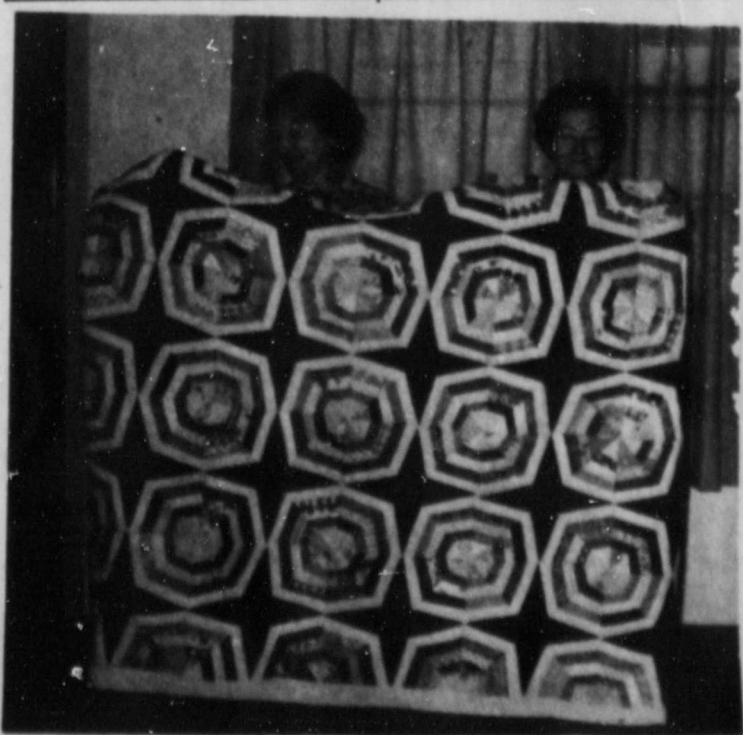

guy's, are not the only ones that have smart dogs.

## Junior Track Tuesday 24th

A Junior High Track meet will be held in Jayton on Tuesday March 24th, with a number of visiting teams invited.

On Monday 23rd the junior high boys will participate in a meet in Aspermont.

On the 25th the high school team will participate in a triangular meet here.

Mrs. Glenn Hancock and Mrs. Hugh Turner here display the quilt made recently by the Home Demonstration Council.

# Girard Potshots

Last Wednesday morning March 11th it was snowing in the city of Girard. Believe it or not.

Our neighbor, Mrs. T. A. Bailey is driving a brand new automobile.

Raldo Goodall, Jayton Ford dealer and dry land farmer was seeing friends in Girard last Wednesday.

Even though it was snowing straight down, the snow didn't stop local HD ladies from attending HD Council in the Court house in Jayton last Wednesday. Attending from the local HD Club were: Mrs. Hugh Turner, Mrs. Woodrow Hodges, Mrs. Jake Swarengen, Mrs. George Darden, and Mrs. Lois Simpson.

Thanks to Mrs. Rance Gregory for a years subscription to the Jayton Chronicle.

Maybe you have a son or daughter or other friend or relative that would be glad to get the home town paper, if so, we will be happy to get you on the mailing list.

Game night again at the Community Center, March 21 (Saturday night). And that's the night the quilt is to be given away. If you want a chance at a nice warm quilt between now and the 21st, see any of the local HD ladies.

Two Hippies passing through Kent County the other day stopped in Clairemont and went in a rest room, in the same rest room was a cowboy from a near by ranch, and when the cow hand, embarrassed and astonished saw the Hippies with the long blonde hair, he said, "Sorry, this is the mens room."

Kent County Grandparents, twenty four strong attended the Grandparents Club last Thursday night at the Community Center. Good eats and lots of games and fun was the order of the day. Raymond Hooper and the Pot Shot man was a little off feed, or perhaps had a good case of domino colic. We may enroll in the school of instruction until next meeting night.

Mr. and Mrs. Delbert Wilson from Childress visited the Virgil Kilpatricks last weekend. Also visiting the Kilpatricks were their grandchildren from Snyder, the children of Mr. and Mrs. Al Ray Young.

It is good to know that a Rig is being moved in on the Arthur Dyer farm two miles west of Girard and who knows-- it just might be a "Gusher" and then you out of town folks will wish you had property in the Free State of Kent.

The Clyde Longs, the Buster Chism's and the Elbert Walkers visited the Raymond Hoopers last Friday night. We gotta notion that a lot of

dominoes were played at the Hooper residence.

A new baby at our house, half Jersey and half Brown Swiss heifer calf. And its mama, a full blood Jersey and her first calf--well, might just sell her as we have other Jerseys and milk--running out of our ears. May have to install a pipe line to take care of all this good Jersey milk.

Mr. and Mrs. George (Heck) Taylor and family have moved to their farm home a mile and half west of town. The Taylors recently purchased the farm from Mrs. T. A. Bailey.

The Alton Clarks had to stop work on their new home due to all the rain and snow.

Mr. and Mrs. Hugh Turner were taking in the Stock Show at Spur last Friday.

These "Nuts" who are blowing up public buildings and even Court houses in Maryland, New York, and other places, when caught should be shown no mercy. A "Firing Squad" would be good medicine for such people.

Thieves broke in a hardware store in near by Aspermom: about 3 a. m. Saturday, stealing baseball gloves, shot gun shell, etc.

The sun shining this Saturday morning March 14th after several days of chilly weather which got as low as 28 above.

Mr. and Mrs. Noel Lee have purchased a cabin up at White River Lake. The fish had better look out.

Mr. and Mrs. Shorty Clark and sons from Lubbock visited over the weekend with his parents, the Alton Clarks.

Mr. and Mrs. J. T. McGaha and daughter Linda from Abilene were weekend visitors in the home of his mother, Mrs. Fred McGaha.

Mrs. Lamore Page from Bastrop was visiting friends and relatives and attending church in Girard last Sunday.

Rev. and Mrs. Victor Crabtree were guests in the George Darden home last Sunday.

Mr. and Mrs. Ted Smith from Spur attended church at the Girard Baptist Church last Sunday night.

And that's about it until next week folks.

Vodka and other almost odorless beverages show up just as easily as their louder smelling alcoholic counterparts in the new breath test, says the Texas Safety Association.

The breath test, used to show the amount of alcohol--if any--in a driver's blood, will be an effective tool in reducing the number of motor fatalities in Texas.

# Governor Smith Initiates Friendly Driving Campaign

Governor Preston Smith is continuing an all out effort on traffic safety with use of "Drive Friendly" to make an impact on Texas drivers. "Drive Friendly" was officially introduced by the Governor today in Austin.

"I am deeply concerned over the ever increasing trend of death, injury and economic losses on our streets and highways from traffic crashes and I intend to apply all the influence and prestige of the Governor's Office to do something about it", he said in Austin today at an official introduction of "Drive Friendly".

"Texas now, for the first time, has a coordinated traffic safety program aimed at one target--the citizens of this State who operate motor vehicles. This program has but one objective--to keep Texans from killing and maiming themselves and each other at a rate which staggers the imagination," he continued.

"1969 witnessed an all time high of over 3,500 dead citizens, 250,000 injured at a cost approaching one billion dollars. The most distressing part of this is the tragedy and heartbreak which resulted, but an equally disturbing aspect of this record is the fact that nearly half of these cases involved a drinking driver."

"I am convinced Texas citizens can do something about this, because I have utmost faith in the people of this State. So, I am appealing to every motorist to follow what "Drive Friendly" means.

- \*Obeying all traffic laws.
- \*Respecting state and local police officers who patrol streets and highways for our benefit.
- \*Being generous with your right of way. If in doubt, give it to the other driver. It's not worth dying over.
- \*Keeping your vehicle in good operating condition.

\*Not driving when in an unfit condition--particularly while drinking.

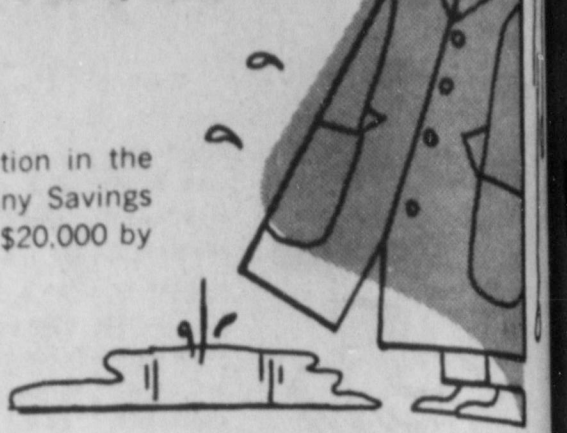

DRIVE FRIENDLY--Governor Preston Smith and A. Ross Rommel, Traffic Safety Administrator, have issued an appeal to Texas motorists to "Drive Friendly". Dashboard, window and bumper stickers bearing "Drive Friendly" are being used on most state vehicles, driver education cars and school buses. Business and civic groups were urged to participate. Stickers can be obtained at nominal cost by writing Drive Friendly, Governor's Office, Austin, Texas 78711.

**It's Such a Big World**

Some folks say that as we grow older the world grows smaller. Is that because of the wonders of modern communication and transportation? Or is it because when some folks grow older they become preoccupied with their own little orbit of life?

Junior certainly enters life completely preoccupied with himself. But once he begins to walk and talk--gosh how his world balloons!

That's why he needs the religious training our churches provide. His faith must keep pace with his burgeoning world.

And as grown-ups, in worship and Christian devotion, we need likewise the spiritual gifts our churches offer.

For it really is a big world. Full of challenges, opportunities, and promising tomorrows. It always looks that way to a growing soul.

## THE FAMILY LAWYER

### Vicious Dog

Taking a short cut through an unfenced back yard, Ed was attacked and bitten by the property owner's dog. In due course, he retaliated with a suit for damages. At the trial, the defendant admitted that his dog was vicious.

"That is precisely why I keep him, to attack trespassers," he told the court. "I keep him chained, but the chain is long enough for him to protect my property. The plaintiff was bitten only because he went where he did not belong."

However, the court threw out his defense and granted Ed's claim. "The safety of human life," said the judge, "may not be unnecessarily endangered in the protection of property."

Generally speaking, the law considers the keeping of a vicious dog similar to the keeping of a dangerous weapon. The dog, like the weapon, must be handled with extreme care. Against a trespasser who is innocent, embodying no personal menace to anyone, the property owner has no more right to use a vicious dog than to use a gun.

In fact, some courts impose liability on the owner even if he tried his best to prevent bites. One home owner kept his vicious dog locked in an enclosure beneath the front steps. A visiting neighbor was climbing the steps one day when his foot slipped through a loose board. The dog, seeing the foot come into range, lost no time in taking a bite.

Here, the court held the owner liable even though he had tried to avoid accidents. The court said this was the penalty for keeping such a dog on the premises in the first place.

On the other hand, the owner is usually not responsible if the victim plays an active role in bringing on his own trouble. Take this case.

A man went to pick up his car at a repair shop, which had already closed for the day. He knew the proprietor kept a vicious watchdog, but "took a chance" and went in anyhow. Unfortunately, the dog did bite him severely.

Could the man collect damages? In these circumstances, the court said no.

"He fully appreciated the danger," said the court, "and voluntarily incurred the risk."

A public service feature of the American Bar Association and the State Bar of Texas. Written by Will Bernard.

Generally speaking, the law considers the keeping of a vicious dog similar to the keeping of a dangerous weapon.

## Jayton Girl Studies For Dental Assistant

Maurine Murdoch, '64 graduate of Jayton High School is a student at the Texas State Technical Institute, studying to be a Dental Assistant.

She is the daughter of Mr. and Mrs. Trueman Murdoch of Jayton.

Miss Murdoch will complete the one year course in Dental Assistant, in August.

The Dental Assistant Program at TSTI, is fully accredited by Dental Council on Education of the American Dental Association. Miss Murdoch will be eligible for certification examination to be given at the Campus, on September 1970, by the Board of Examiners of the American Dental Assistants Association.

## Recipe For Squaw Bread

1 pkg. dry yeast  
1 cup warm water  
1/3 cup sugar  
2 tsp. salt  
2 Tbs. cooking oil

Mix above ingredients and add: 2 cups sifted flour. Mix well, cover bowl and let set for 30 mins. Drop by tablespoon in very hot fat and fry until brown. Serve with honey or powdered sugar. will keep in refrigerator for several days.

(This recipe is one of Mrs. Ray Smith's favorites. Try it -- you'll like it.)

gerated until serving time.

A little vinegar or a squeeze or two of lemon juice adds a pleasantly tart note of seasoning to boiled carrots.

Send in your recipe for a vitamin A food. Last week's recipe for Stuffed Eggs with Mustard was submitted by Mrs. Leva Simpson of Girard.

Foods high in Vitamin A include butter or margarine, cod liver oil and other fish oils, whole milk and cream, liver, vegetables and fruits of high vitamin A value are dark green, leafy vegetables such as turnip greens, mustard greens, and spinach; deep yellow vegetables as carrots, pumpkin, sweet potatoes, and winter squash; and yellow fruits as peaches, apricots, and cantaloupe.

Today's recipe featuring Vitamin A was submitted by Janet Johnson, of the Little Homemakers 4-H Club of Jayton.

**HARVEST SALAD**  
1-1 lb. can cut green beans, drained, 1-1 lb. can sliced carrots, drained, 1-12 oz. can whole kernel corn, drained, 2 Tbs. chopped onion, Celery Dressing.

Combine vegetables, toss with Celery Dressing. Chill in covered container several hours or overnight. Makes 6 to 8 servings.

**CELERY DRESSING**  
1/2 cup brown sugar  
1/3 cup cider vinegar  
1 Tbs. celery salt  
Dash pepper  
Combine all ingredients.

## PATTERNS ALTERATIONS.

A pattern alterations workshop will be held on Monday, March 23rd at Girard Community Center. The workshop, sponsored by the Texas Agricultural Extension Service, will be an all-day meeting starting with registration at 9:30 a.m. Bring a covered dish or a picnic basket for lunch.

For the workshop, you will need a simple dress pattern in your size and a measuring tape. Included in the work-

## DECOUPAGE WORKSHOP.

Mod Moms of Jayton are sponsoring a decoupage workshop Tuesday, April 7th at the Girard Community Center. Demonstrating the art of decoupage and tole painting (folk art) will be Mrs. Bennett, from Abilene.

Mrs. Bennett is manager of Tandys, the Abilene divisional store of American Handicrafts.

The all-day meeting will begin at 10:00 a.m. Bring a covered dish for lunch. Anyone interested is invited to come.

## Grand Parents Club Meets

The Grandparents Club met March 12th at Girard Community Center at 7:30 p.m.

Twenty four members were present. Good food and games were enjoyed by all.

Next meeting will be April 9th at the Girard Community Center at 7:30 p.m.

## Mrs. Lee Parker Shows Slides

Mod Moms met Monday night in the County Extension Office to hear Mrs. Lee Parker talk about her trip to Holland and other parts of Europe. Everyone greatly enjoyed hearing her talk and seeing the slides.

After a short business meeting refreshments were served by the hostesses, Mrs. Jane Parton and Mrs. Joe League.

Next meeting will be the all day decoupage workshop with covered dish noon meal at Girard on April 7th.

Surprising statistics reveal that at five months many babies weigh 14 to 15 pounds. At birth, the average infant weighs seven pounds. Small babies tend to gain weight more rapidly than large babies. It's as though all wanted to reach the same five-month standard of weight!

Many suggested few chosen names for a baby can cause family problems. You can't disappoint his people or hurt the feelings of your own when you choose an exceptionally rare name! Said by some antiquarians to be the world's first personal name, "En-lil-ti" was found near Iraq on a tablet dating from circa 3,300 B.C.

Quickly weaned, Roman Empire babies were soon put on bread crumbs mixed with wine—a sort of built-in burper! Today's mothers, however, enjoy doing what comes naturally and then wean to a substitute of mother's milk!

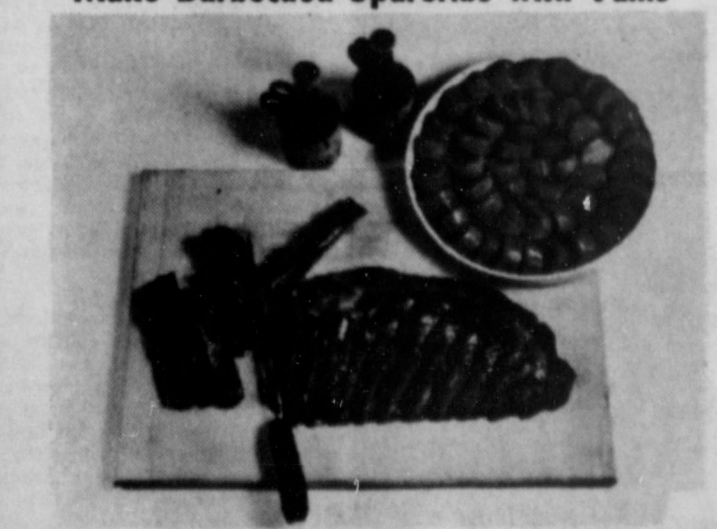

Baby's wardrobe today shows considerable knowledge of the variety an infant needs, even in diaper products. Extra absorbent Curly Night Diapers, for example, keep bedding and baby drier, and are easily identified by the Curly diaper selection by a blue thread... blue, for both girls and boy babies!

More independent at one year, a child can also appear unreasonably "baby-like" with

**TWIN DESIGNS FOR EASY SEWING**—Little girls love to dress like their mothers, and this loose-fitting tunic is fashionable for both. Valtex cotton in a multi-colored border print that resembles hand embroidery is the fabric choice for these versatile tunics which can be worn alone or over slacks. Made from McCall's Patterns 9460 and 9602.

## Make Barbecued Spareribs with Yams

This flavorful dish with a shiny glaze on yams and spareribs is great for a supper or weekend mid-day meal. Dark, rich flavored corn syrup adds the special magic to meat and potatoes.

**Barbecued Spareribs with Yams**

1 (3 to 4-pound) side spareribs	1 teaspoon ground ginger
1 cup Karo dark corn syrup	2 tablespoons soy sauce
1 cup pineapple juice	1 clove garlic, minced
2 teaspoons salt	4 to 6 cooked pared Louisiana yams, cut in 3/4-inch slices

Place ribs in large shallow foil lined roasting pan; cover with foil. Bake in 325 degrees F. (slow) oven 1 1/2 hours. Pour off fat. Stir together corn syrup, pineapple juice, salt and ginger; reserve 1 cup to glaze yams. To remaining mixture add soy sauce and garlic; brush on both sides of ribs. Bake uncovered in 400 degrees F. (hot) oven basting and turning frequently, about 30 minutes or until well glazed and brown. Meanwhile arrange yams in shallow baking dish. Heat in oven with ribs, basting frequently with reserved glaze, until heated and well glazed. Makes 4 to 6 servings.

## HD Council Has Meeting

The Kent County Home Demonstration Council met March 11th at 2 o'clock in the Extension Service Office. The chairman, Mrs. Hugh Turner, called the meeting to order. Both clubs gave good reports.

March 21st will be "Family Game Night" at Girard Community Center at 7:30 p.m. The club council quilt will be given away then. You do not have to be present to get the quilt if your name is drawn.

Mrs. K. P. Brantner of Jayton and Mrs. George Darden of Girard were elected as delegates to go to the District meeting in Vernon on April 17th.

The next council meeting will be April 8th at 2 o'clock p.m. in the Extension Service Office.

## The HD Club Will Sponsor Game Night

Home Demonstration Council is sponsoring a free game night at 7:30 p.m. Saturday, March 21st in Girard Community Center.

Everyone is invited to come for a fun night of cards, dominoes, visiting, refreshments and games. Bring your children, too. There's plenty for them to do.

A quilt made by the Council will be given away, too. Chances for the quilt are 50¢.

Earliest adhesive postage stamps were the "Penny Blacks" placed on sale in the United Kingdom on May 1, 1840.

frequent crying spells. Dr. Benjamin Spock points out that at this point the baby can perceive mother leaving the room, but cannot realize she is coming right back. Thus, tears! The danger of a little knowledge.

## Pantry patter

By Pat Nilson, CHDA

Carrots, a vegetable high in Vitamin A value, was used by ancient people for medicinal purposes as well as for food. In early Germany, carrots finely chopped and browned were used as a coffee substitute.

The deep-orange or orange color of carrots is a sign of good health. This color is due to carotene, a chemical substance which your body converts into Vitamin A. This vitamin helps prevent impaired vision and night blindness. Each carrot 5 1/2 inches long and 1 inch thick provides

21 calories, but more than 100% of the amount of vitamin A needed daily.

Carrots are in plentiful supply now. When buying, look for carrots which are well formed, smooth, well-colored and firm. Buy 1 1/2 pounds of fresh carrots for 6 servings cooked.

Carrot sticks, rounds, semi-circles, pie-shaped bits and curls are quick bright ways of adding appeal to meals. After cutting the carrots into desired shapes, immediately place in salted ice water. Keep refrigerated.

## Ask Amy

BY AMY ADAMS

### WHAT'S YOUR SOLUTION

Dear Amy: I will be everlastingly grateful if you will be most appreciative if you or any of your readers can tell me how to get the price tags off plastic cartons, glassware boxes, clothes, etc., etc. I have tried about everything. I get the paper part off but the sticky, gummy stuff. I have tried an eraser, salt, vinegar, baking soda, detergents, oil, etc., etc., but to no avail. Can keepers say they don't know either?

There must be some way to get it off, but how? I sincerely hope you have the solution.

Mrs. M.:

Shopkeepers employ this method of pricing their wares to deter switching, but I have found that stickers and gunk will readily on hard-surfaced items by rubbing with a soapy solution of steel wool. However, let it open to the readers for helpful hints.

Dear Amy: My fiance and I became engaged when he entered his freshman year at college. We had planned to marry after his graduation. But now after being engaged for so long, we want to be married as soon as possible. If we do get married and he stays out a semester a year, he will be drafted into the army, and if this happens, he says he will refuse to marry until he gets out because he would have to leave his wife behind. If he stays in college, he can't hold down a full-time job, since I'm still in school, I couldn't either. I am 17 and he will soon be 21. Please, Amy, what should we do? The years ahead seem so very long knowing we might not be together.

Worried Lovers

Dear Worried: You must wait to tie the knot (as many young people do) until your education is completed and your earning power begins.

Address all letters to: AMY ADAMS c/o THIS NEWSPAPER For a personal reply enclose a stamped, self-addressed envelope.

Dear Amy: There is a family living in our community who have five children. The husband has been out of work for some time. I long for that his unemployment has lasted months ago. This man does not work and has refused to do any good paying jobs. They all of what little government money they can get. The community churches give them food and clothing but the children do not get the right care or enough food.

Bill Parks exhibited his heavy weight Angus to the championship of the Kent County Stock Show. His 995 pound steer was bred by York & Parks Ranch. Lisa Cravey's Hereford was named reserve champion; bred by J. H. Daugherty, Sr. the 845 pound steer won the medium weight class.

Sharon Edwards exhibited the grand champion barrow at the recent Kent Co. Stock Show. Reserve Champion was shown by Pattie Edwards. Both hogs were Durocs.

Sharon Edwards won grand champion honors with her Hampshire lamb. She also showed the reserve champion and won the showmanship award.

Manuelita Davis showed the grand champion mare. The registered Quarterhorse won the two year class.

**Directions Followed**  
A young man who was known for his explosive temper married an equally high-spirited girl. When life seemed surprisingly serene after more than a year of marriage, someone asked why there had been no fireworks.  
The young bride laughed. "One day when Ralph blew his top over something," she explained, "I happened to be studying the directions for my pressure cooker. If the pressure gauge blows off, I read, 'turn off the heat. After the excess steam has escaped, resume normal cooking.' I've found those pressure-cooker directions work equally well with a husband."

Bill Wallace won reserve champion honors with his registered Quarterhorse yearling.

### TITLE TORG

GEORGIA FAMILY MADE PAYMENT AND MOVED INTO A HOME, RECEIVING A DEED FROM A WOMAN WHO THEN DISAPPEARED. SOME TIME LATER, ANOTHER COUPLE ACQUIRED WITH A DEED TO THE SAME REAL ESTATE. IT THEN WAS LEARNED THAT THE WOMAN PROVIDED THE FIRST FAMILY WITH A FORGED DEED. LUCKILY, THE LOSS WAS COVERED BY TITLE INSURANCE.

EARLIER DAYS, DEEDS WERE MADE IN TWO PARTS, KNOWN AS CUTTING IN, TYPING A SINGLE SHEET BEHIND THE MIDDLE IN A COLORED OR "IMPRINTED" LINE. USUALLY, THE PARTS WOULD BE MATCHED BY THE GRANTEE, WHO WOULD BE A STATE OR COUNTY CLERK. THE WRITING PRACTICE WAS DISCONTINUED, BUT THE "IMPRINTED" LINE IS A PART OF THE ORIGINAL USED IN THE TRAILER OF REAL ESTATE.

### GET UP AND GO

For most people with nervous illness, waking in the morning is the worst time of the day. There are times when the sufferer feels comparatively well and by evening has convinced himself that he really is getting better. He goes to bed cheerful and optimistic only to find, on waking the next morning, that the previous day's improvement seems but a dream.

But a new day is dawning for those who suffer such early-morning symptoms, thanks to advice contained in a recently published book.

"You must rise as soon as you wake," advises Dr. Claire Weston, author of "Hope and Help for Your Nerves," published by Hawthorn Books Inc. "The longer you lie steeped in misery the harder it will be to pull yourself out of it."

"Rise as soon as you open your eyes, have a shower, and then go and make a cup of tea. You will find that cheerful music helps to lift you out of the early-morning doldrums, so have a radio beside your bed. The main thing is to make some quick efforts as soon as you open your eyes, so that the early-morning depression cannot establish itself. Having done this, you will not so easily slip back into depression again."

Thousands of victims of nervous stress in Europe, Australia and America have already responded with remarkable success to these and other techniques set forth in the book. A best seller in England, the volume has also been published in France, Germany and Holland.

In the book, which presents information on the treatment and cure of many nervous disorders, Dr. Weston observes that the first step to recovery is the acceptance of the illness. The sufferer must first accept the symptoms for what they are, and live with them for the time being. Equally important is the principle of "loosening," which enables the nervous individual to be flexible and relaxed "to go with the feeling-nervous reaction, bringing instead of trying to withdraw from them, or force his way through them."

More and more nervous persons are waking up to this sensible advice.

## ROGENE'S FLOWERS

Picture shows a system of strip cropping on the E. W. Jones farm north of Jayton. Mr. Jones used an alternate pattern of winter grown small grain with grazing sorghum.

## A Planned Cropping System

A well planned cropping system should be a vital part of every farming operation in Kent County and now is the time of year to make final plans to amounts and kinds of crops that are to be planted. Soil building crops such as grain and forage sorghums, small grain or winter peas are needed to improve or maintain a good condition of your soil. To protect the soil during critical periods when erosion usually occurs, it is to bring about an economic return for the farmer.

A good conservation cropping system is based primarily on the type of soil that makes up the farm and must include enough high residue soil improving crops to offset the effect of soil depleting crops such as cotton. This can be done by using a system of high residue and soil building crops such as grain sorghum, forage sorghum, small grain or winter peas in rotation with cotton or other soil depleting crops. Winter cover crops can also be employed and soon excellent job of soil building, controlling wind and water erosion in addition to furnishing added forage for livestock during the critical months.

One good point to ponder is that your land is like a bank account, you can't keep taking money out without putting some back in or sooner or later you end up with nothing left.

Your local Soil Conservation Service consultant, Ed Burton, District Conservationist or Carroll Johnson, Soil Conservation Technician will be glad to assist you in planning your Conservation Cropping System and furnish information on your soil, its needs and capabilities.

But Daniels and his wife of Amarillo were here writing the directions for the last week end.

Mrs. Ole Paris is at the Hatan hospital but writing she is resting and doing very well.

## New Traffic Laws

The Texas Safety Council reminds motorists that the in Texas traffic laws are quite the driver approaching a road street or highway on an unimproved roadway on the right of way.

KENT -- C. R. Gallager of Lathrop will drill a well two miles west of Gerret. No. 1 A. G. Dyer is on the south line and west from the east line of Section 30, Block 1, Survey.

The 4,400-foot project will be the Tamworth Sand.
